# that uses Head!

HIS is the husky thrill-producer you find, filling the bonnet of any 1949 Buick.

Look it over and you'll observe, among other things, that it is a valve-in-head straight-eight.

years ago Buick engineers lifted the valves from the side of the cylinder and put them on top - with some immediate advantages.

Gets a full, even charge on every intake-exhausts spent gases more easily - enjoys extra power, life and ginger.

ratios are relatively easy to establish. To step them up, the head is merely brought closer to the piston-no extra problems are presented getting fuel in and exhaust out.

actually available - and there's no

waiting for tomorrow's gasolines to get full performance. There are other things to notice

It's a Fireball power plant - uses a

fuel charge. And it speaks with soft, new quiet. Self-setting valve lifters automatically keep valves properly seated,

swing to valve-in-head design will undoubtedly grow stronger. But that is what Buick has had all along -a power plant that uses its head to give extra lift and thrill.

That's enough reason to see your Buick dealer now, with or without a car to trade, to get your order in.

# **Duke Gets His Tractor**

Duke Thomas bought a farm with the money he'd saved in the Service, but he couldn't get a tractor. He needed it badly, but was tenth on the local dealer's list.

"Tell you what," old man Peters says. "If those nine fellows ahead of you agree, you'll get the next one I get in." "No, thanks," says Duke, "I'll just take my turn."

But old Peters mails out nine

postcards. And the other day he

tells Duke his tractor will be in next week. "I simply wrote the facts to the fellows ahead of you.

They decided it."

From where I sit, it's that spirit of understanding that helps make our democracy so great. Understanding for the other fellow's problems and respect for the other fellow's rights - whether it's his right to earn a living, his right to cast his vote against your candidate, or even his right to enjoy a moderate, friendly glass of beer or ale—if and when he chooses.
