Hoof Beats

By Mrs. Harry S. Stout

Nora Abbe paced free legged for the first time in the sixth race Thursday night. The bay broke, however, and failed to come in the money. She was the favorite. She won a race here Saturday night.

Hanover Express, a 20-year-old bay gelding, placed third in the eighth race, a classified trot, last Thursday night. Time was 2:11.1. Owner is W. H. Broach, of St. Stephens Church, Va. L. Applegate was up.

The Green Valley Memorial Trot and Pace was staged for the first time Friday night. The entries included three trotters and four pacers. Trotters were, Steve Braden, Moppit, and Miss Stuck Up. Dottie's Cardinal, a pacer, however, won both dashes.

Pictures of most trophy winners may be purchased at the Journal Office.
L. D. Finch, Gallipville, N. Y., was on hand Friday night to put the Green Valley trophy blanket on Dottie's Cardinal. Finch was once owner of Green Valley, famous trotter and pacer, for whom the race was named. Harry S. Stout was the owner of Green Valley when he died here last year.

A description of The Harrington Journal Trot, the feature race of the opening night of the current meet of the Kent and Sussex Racing Association, is in the current issue of The Harness Horse, a prominent weekly magazine dealing with harness racing. A. E. Leatherman, is the author. Princess Ward, owned by J. Oscar Hunt, of Swedesboro, N. J., won the first dash in 2:09. Czarmite, driven by Ed Adams, of Harrington, won the second dash of the trot in 2:10, but Princess Ward was best in the summary. A picture of the trophy winner, with J. Harvey Burgess, was used to illustrate the article.

P. R. R. News

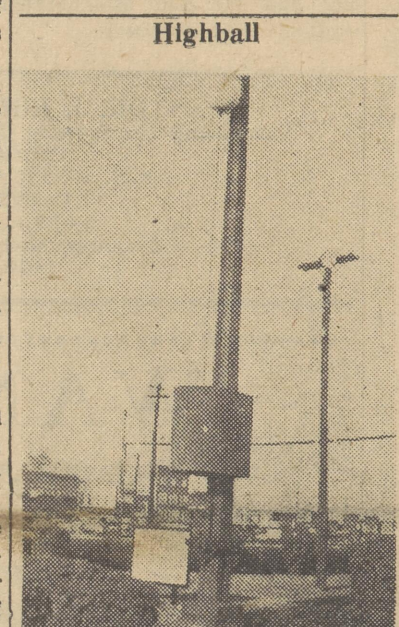

By Cliff Miller

We are living in what has been referred to as the "speed age". Everybody wants to get somewhere faster than the other fellow and then hurry up to get away from there.

We wonder what Will Rogers would say about this if he were living today. He once said "when folks missed the stage coach, they were satisfied to wait three or four days for the next one, but now they get peeved if they miss one flap of a revolving door."

The big question today is, how to meet this increased speed safely. We all know that a big factor has been the increased efficiency of brakes. The railroads have made as much progress in this respect as the highways and are still making big strides to improve braking effect at high speeds.

There is a test train operating over the Delaware Division four days each week for three weeks, designated "The adhesion brake test train". This train consists of a steam engine of the K4 or E6 type with three passenger cars. The car next to the engine is a P70 coach. The second car is a dynamometer car in which the engineering experts observe meters and instruments that record the effectiveness of the braking equipment at various speeds. This car has a glass bottom. The rear car is a Bud Research car of the silver duraluminum type which is much lighter than our standard cars.

Highball

This highball on display at Cape Charles, Va., resembles the one recently dismantled at Berlin, Md. The one at Berlin was the last in use on the Pennsylvania system, the first to use the signal. When the ball, operated manually, was at the top, the track was clear and the engineer could "highball" it. When the ball was halfway down it was hidden. Then the engineer was warned of traffic approaching from a branch or cross line.

The train passes through Harrington between 11:00 A. M. and 12:00 noon standard time on the southward run and between 3:00 and 4:00 P. M. north. Six stops are made between certain mile posts at speeds ranging from 50 to 100 miles per hour. The last test on the southward run is made between Greenwood and Bridgeville.

Bright Border Welcome

A mammoth sign says "Welcome" to U. S. visitors at the north end of the Peace Bridge linking Buffalo, N. Y., with the thriving Ontario community of Fort Erie. With more than a quarter-mile of red and blue neon tubing and more than 1,100 incandescent lamps, the illuminated outline stands as high as a six story building and is visible five miles away.

No. 13. 2.20 Pace. Two dashes, \$400 each dash.
No. 14. 2.22 Trot. Two dashes, \$400 each dash.

The Ferguson also took part that day and was very good. They used 3-12 bottom plow with one of their tractors.

Harrington Loses to Viola

Viola continued its winning streak Sunday as it bombed Harrington with a 21 hit attack to defeat them 21 to 8. The victory enabled Viola to move undisputed first place in the Mid-Delaware League.

Biddle went the route for Viola allowing 9 hits and giving up 5 free passes. It was his second straight win against no defeats. Again the Viola nine had the pleasure of facing three pitchers. D. Hopkins started on the hill for the losers, but was chased in the second inning with two outs. Goodson came in to relieve him, but gave way to Keith after a six run fifth inning. Many costly errors also played a big part in making the score go much higher than it would have.

Johnson, a new-comer to the Viola nine, lead the hitting attack as he reaped out 3 doubles and 2 singles for 6 times at bat. Godwin followed close on his heels with 4 hits for 6 trips. Biddle collected 3 for 6, while Chambers came through with 3 for 7. Sipple and Chambers each got a triple.

The Viola nine came through with their second, third and fourth double plays of the year, the first one coming against Playtex, the Sunday before.

Harrington collected two doubles for their longest hits. Dill got one in the 8th and Cabbage registered the other in the 9th. L. Welch led the Harrington nine at bat with 2 for 3, while Cabbage got 2 for 5.

In other games of the Mid-Delaware League, Playtex and Statonville crashed into the win column as Playtex took over Farmington 11 to 4. Statonville defeated Tower Team in a close game 7 to 5.

**MONGRELS?**

A person writing to one of the Wilmington papers says that all mongrel dogs should be killed and only the thoroughbred dogs should be allowed to live. Another spoke in the wheel of class legislation!

Poor old Spike, or Butch, or Rover! Just because his mother was a hound and his father was a shepherd, he doesn't deserve to live and should be delivered to the dog catcher at once. He was born on the wrong side of the "tracks" and is not permitted to associate with Lord Reginald Montmorency Percival, pedigreed pup belonging to Mr. and Mrs. Nu-Rich over on the hill.

Don't blame Lord Reginald Montmorency Percival because the Nu-Riches have him all glossed up and wearing ribbons. He doesn't like it. Given his choice and he'd be out right now, playing with Spike, or Butch, or Rover. They'd call him Monty, or Perce, and they'd be bosom pals. Thoroughbreds aren't snobbish. Only their owners, who are not thoroughbreds, are snobbish.

A dog's a dog, and whether he was born with a litter in a gutter, or first saw light of the day in a luxurious kennel, he has many claims to nobility, while the average man has but few. A dog, any dog, is capable of lasting love, a love as deep as any ever experienced by man, and any dog, mongrel or thoroughbred, nurtures life-long loyalty, while that commodity is comparatively scarce among the creatures called humans. We've never known a deceitful dog, a cheater, a chisler, an ingrate.

There was an authenticated news story published several years ago about a cur—and a poor yellow cur, at that. This cur had a reputation as a coward in the neighborhood. In the light of subsequent events, maybe he was just a pacifist—but he bore the brand of a coward. A huge mad dog was on a rampage through the neighborhood. The cur was fleeing from him in terror. Suddenly the mad dog's crazy brain was attracted in another direction. A tiny boy was playing on a nearby lawn, and toward this tot the powerful maniac bounded, teeth bared and poisoned saliva dripping. No one was near to protect the tot—nothing could help him—but a yellow cur—and a cowardly cur, at that.

As the huge dog approached the child, the cur checked his flight. Trembling in every limb and crying in fear, he tore into the giant mad dog, knowing that he went to his death—but a child was in danger! Seizing the crazed animal's throat, he held on and was thrashed all over the lawn. Still he held, until the child was rescued—then he died a hero's death. After this, when you speak of a cowardly cur, podner, if there's even one thin strain of decency in your carcass, doff your hat, and stand in reverence.

Mongrels? A cross-breed of races. A biological impossibility is a single racial strain. Folks, who isn't a mongrel?

**HONESTY AND SERVICE ARE INVESTMENTS**

Does it pay a fair return on the money invested? If so, it is considered a successful business. The amount of money invested and the amount of returns on that money—these are yardsticks by which we are inclined to measure success. We overlook the fact that other things than money must be invested.

The ancient McCaffrey Oyster House, between Ninth and Tenth, on Shipley Street, Wilmington, is an example. It is known all over the Atlantic seaboard as probably the best oyster house in the East—and yet we'll venture the statement that the building and equipment represent an investment of under \$1000.00.

A frail, weather-beaten shell, this old frame building clings to a much taller building. A stranger would pass it by and classify it as an abandoned second-rate bootblack stand. But a glance inside will reveal that it is spotless and the best-dressed people in Wilmington are standing in line, waiting to be served. Only fifty-four can be seated at one time but this fifty-four is multiplied many, many times during the day. And the same people come back, day after day, year after year.

Off the ocean bed near Chincoteague Island, each night during the season, these oysters are rushed to McCaffrey's by express and they're not opened until you give your order. Then you get real oysters, not the bloated travesties shipped in cans and kept arround for days before they are served.

They serve only oysters, clams, pies, milk and coffee. Whereas, the ordinary restaurant has a lot of waste in left overs, oyster shells and clam shells are the only things wasted at McCaffrey's.

What a return on the probably one thousand dollars invested, you say. That's where you are wrong. Thirty years of conscientious effort, thirty years of polite, friendly, courteous service, thirty years of serving the most delicious oysters and clams—these are the real investments, and they've made a bigger return than all the money ever invested.

**Toothless Boy, 12, Gets Third Set of False Teeth**

DES MOINES.—Twelve-year-old Tommy Black of Shenandoah, Iowa, is having his third set of false teeth made.

The strange case of Tommy—who never has had a tooth of his own—was told at the Iowa Dental society convention by Dr. Joy A. Rotton of Shenandoah.

Dr. Rotton said he fitted Tommy with his first set of dentures when the lad was only eight years of age.

Before getting his first dentures, Tommy could eat only soft foods. "Now he eats apples, corn on the cob and anything he wants," Dr. Rotton said.

He added he never heard of another child so young with a full set of false teeth.

Think I, while tear drops start, But the memory of my dear husband is still fresh within my heart. O, the misery of that dreary day. When I stood beside his bed. Until death stole on him slowly. Then I knew his soul had fled. Since that my heart is saddened. Since that day my hopes are slain, But his voice is sweetly saying. Courage, mama, we shall meet again. WHEELER RADIO STORE NEWS

I have been trying to think of some good news to tell you about price reductions, but I cannot and it doesn't look like there is going to be any for some time. In fact one of the largest producers of refrigerators has told me that prices on the present models are guaranteed until at least next September. This of course is just one of the many electrical appliances that is going to stay put.

When the price of an article is drastically cut, there must be a reason, as conditions at the present time are not justifiable for a sudden drop.

Did you know that this is Philco Refrigerator Week, and when you buy a refrigerator don't fail to ask us for a set of dishes absolutely free. Then again just come in and look at our stock of refrigerators and we will give you a glass water chiller, no cost whatsoever.

It will soon be time for strawberries and wouldn't you like to have them just like they will be at packing time? Well this can be done if you have a quick freezer. Come in and see how low one of these can be bought.

Think of buying a freezer locker refrigerator, for less than thirty four dollars down and then 2 more years to pay and on top of that a five year guarantee. Is it any wonder you are moving refrigerators? Of course the name has a lot to do with a product, so when you see the sign Philco or Westinghouse, you know you are getting the best.

Yes it is true Westinghouse has an electric sewing machine, that is guaranteed for 20 years. Pay only \$25.00 down and the balance in 24 monthly payments.

Gas is the thing to cook with if you want a quick hot fire. Oil is almost a thing of the past as far as cooking is concerned and if you are thinking of changing for either bottled or metered gas, we would be pleased to take care of it for you.

We have several new gas ranges and now is the time to trade your old for new. If you want the best in automatic Electric Ranges, don't fall for any range, but select a range that has been improved from year to year and then you will get the best. What is the make? Nothing else but a Westinghouse.

Have you seen the new Westinghouse tank or upright cleaners we have on sale for \$49.95. They are complete with all attachments. A good buy and a good time to buy. Pay what ever you want to pay weekly. Isn't this better than fooling with an old broom? You know a broom pushes dirt under a rug or other places when a suction type cleaner takes it all up.

We have some coloring books which we are giving to children, so if you have one large enough to color send them in and get one.

I want to impress on you the wonderful actions of the new Laundromat, in fact you can now wash in a room that is papered and not worried with one drop of water, just think of it? You know the place to wash is in your own home, even on rainy days it makes no difference with a Westinghouse Laundromat and dryer. There has been many, many homes made beautiful in the past few weeks simply with a little wall-paper. Is yours one of them? Drop in and see the many patterns to select from.

**MILTON, FELTON AND CHESTERTOWN RECORD MAR-DEL WINS**

Milton AC, Chestertown AA and Felton Vets recorded wins in the second week of play in the Mar-Del Circuit.

Behind the four hit pitching of righthander Bob Knight the Milton AC nine made it two straight in the Mar-Del seven-team wheel as they put the whitewash on last year's Pennant Winners, Camden-Wyoming to the tune of 5 to 0. As Knight mowed down the C-W tossers with gilt edge support by his teammates the winners tabbed lefthander Charley McCullough for 11 safeties. Danny Slaysman contributed two singles which drove in three runs, Jim Grant had 3 safeties and Jess Millman two. Jim Reed, Milton shortstop, rified out a double for his lone hit. Red Larken and McCullough had doubles with Al Allen lacing two singles to account for the four C-W hits. Each pitcher whiffed three batters while McCullough granted three free passes\* and Knight one. Salsyman and Reed teamed up well at the keystone for Milton handling 12 chances with one miscue that did not prove damaging.

For eight innings Chesterotwn was coasting through to a 4 to 0 win over Greensboro, but in the final inning last year's play-off winners, came to life and made things very interesting as they chased three runs across the plate and were in a threatening position until a double play ended the game with Chestertown on the long end 4 to 3. Big righthander Orem Robertson, a Brooklyn Dodger chattel, hurled good ball for the first eight innings but the Greensboro uprising in the ninth chased him bringing in Earl Hummel, who checked the rally by fanning two with the final out being recorded at second. Millard Robertson, Swarthmore High Coach, went the distance for Greensboro giving up 8 hits and fanned 4. Tommy Robinson was the powerhouse for the winners as he cracked a double and a triple. Frank Apichella had two singles. Harry Miller's double and single and Zeth Weaver's double were the effective punches for the vanquished nine.

Felton Vets, topped an old rival as they triumphed over Milford AC 15 to 5. Milford out-hit the winners 10 to 9, but 13 free passes by three Milford hurlers proved costly. Clic Chambers went the route for Felton striking out 10 men and with almost perfect control walked only one man. Willey Started for Milford, followed by Dashiell and Wilson. Willey was charged with the defeat. Six of the Milford hits were for extra bases, Roy McCullough and Miller each had two doubles while Willey and Mgr. Snowberger had one each. Art Gunning lined out two singles. Raymond Bell found the Milford hurlers for a triple\* and a single with Cliff Chambers having a double.

It was opening day at Milton, Felton and Chestertown and interest was high as good attendance was reported at each park. Approximately 750 attended the Greensboro-Chestertown game with over 400 turning out at Milton.

This Sunday three games will be played. Down at Milford the strong Chestertown nine will be the opponents. Great rivals during the basketball season, this same enthusiasm is expected to be just as much in evidence during the baseball season. Orem Robertson, who hurled for Norfolk last year, and Bob Munyan will be the battery for Chestertown with Willey and Gunning looming as the Milford choice. The two game winner, Milton AC will invade Rock Hall to engage Owen Porter's Bay-siders. Rock Hall dropped their opener to Greensboro in a hard fought game and was idle last week-end. Flanked with a strong pitching staff built around Bill Carroll, Georgetown Univ. lad, Ben Royal, a speed ball artist, and Smithson, an ex-Eastern Shore Leaguer, Rock Hall will prove formidable foes in their own encampment. Milton has a strong staff that can be counted upon to make things very interesting in the Mar-Del Circuit during the summer.

Ken Mahan, a Wilmington hurler defeated Milford in the season opener while Bob Knight, last year with Felton, is well known to most of the Mar-Del Leaguers. Danny Salsyman, former Eastern Shore Leaguer hurler, who worked a few games with Denton in 1948, is well respected. This game can easily develop into a tight mound duel. Both teams have large followings and a record crowd is expected. Pop Michaels, peppy home talent nine, Felton Vets, will be the attraction at Greensboro. Michael is depending on youth and speed and in their first two games have shown great possibilities.

When right, Cliff Chambers, can be tough on the mound and he has an able reserve in Pete Carlson, University of Delaware freshman.

Reds Minner is playing a great game at second, while Raymond Bell is a fixture in the outfield after being out of action last year. Two youngsters, Don Eliason and Jerry Neeman are improving each week. Millard Robertson, Swarthmore, Pa. High coach, is bearing the brunt of the Greensboro mound and will team up with Tony Giannotti as the Maryland's battery. Earl Daniels, Zeth Weaver and Harry Miller have been punching the ball hard for Greensboro.

Camden-Wyoming will be idle this week-end as far as Mar-Del League play goes, but Manager Mikell is trying to book an exhibition game.

**Harrington Seventh Day Adventist Church Notes**

Prayers for God's guidance in the affairs of men, for the strengthening of the Christian church, and for peace in the world, will be offered by local Seventh Day Adventist in a special service Saturday, May 14.

The local members will join with churches all over the world in a general call to prayer, issued by the General Conference, world headquarters at Washington, D. C.

The local service will be directed by Elder Vernon Rees. "The church is of itself utterly unable to measure up to the opportunities nor the problems facing it," he said. Political unrest, the rise of worldly and pagan philosophies, both social and political, hamper the work of God. At the same time, reports from every land indicate that thousands are longing to learn more about Christianity, and with our present program, we are unable to answer these appeals."

Elder Rees pointed out that "the last general call to prayer was sent in 1943, when special intercession was made in behalf of our interned missionaries. Since then, a thousand new missionaries have been sent over seas, and a hundred thousand persons have been added to the church."

Thanks also will be offered to God for His help in the recent In-gathering Campaign which began, April 2nd and ended April 30th. Dr. Biggers, campaign chairman, announced that the goal of \$921.20 has been reached. Dr. Biggers extends a word of thanks to all who have contributed so liberally.

For years it has been known that the honey bee is the only source of honey and beeswax, but it now plays its principle role in the pollination of crops. Other pollination insects will prove adequate, and some are engaged in beekeeping as a hobby only.

There's one big opportunity to which every high school graduate should give serious consideration. This is the career offered you in today's Regular Army. Few openings in private enterprise offer you the leadership training, the educational advantages, the exciting travel and adventure, the supervised sports and recreation programs and the clean, wholesome, active life that can be yours with an Army enlistment. Few openings offer you such comradeship with America's finest young men - for today - only the best are acceptable for service in the United States Army. To win a place in today's Regular Army you must pass physical examinations that are tougher - mental examinations more difficult - than ever before.

**SAVE FEED FOR GREATER PROFITS**  
 With feed representing from 60 to 70 per cent of the total cost of production most poultry products become all important, says J. Frank Gordy, extension poultryman for the University of Delaware.

Six ways in which poultrymen can save feed to increase profit are outlined by Gordy:

1. Keep poultry that can use feed most efficiently. Use breeds best adapted for the production of the commodity desired, with heavy breeds, maintain a laying flock of all pullets, keep only the best birds of the light breeds for second-year production, market all two-year-old hens at the end of the laying season, and sell all males not needed as breeders.
2. Prevent feed wastage. Use efficient types of feeders, fill hoppers no more than two-thirds full, store feed in a dry cool place off the floor, and control rats and mice.
3. Make it easy for hens to eat feed. Provide at least 30 feet of

feeding space for each 100 hens, locate feeders in well-lighted place, adjust reels or wire guards so birds do not hit head while eating, use hoppers no more than 6 inches deep and provide plenty of water at all times.

4. Provide good grass range for growing stock. Get chickens on grass as soon as practical, provide
5. Cull constantly.
6. Market at an early age when ever profitable to do so.

VETERANS ADMINISTRATION

It was disclosed today by Ccl Thomas H. Stilwell, Mgr. of Veterans Administration, Wilmington Regional Office that effective June 3, 1949, the regularly scheduled itinerant contact service to Dover and Georgetown will end. This is necessary for the following reason: The budget estimates for the Veterans Administration for the Fiscal Year 1950 which starts July 1, 1949, is much less than for the Fiscal Year 1949. Accordingly, in order to come within the personnel and monetary limitations as presented to the Congress, it will be necessary in the Fiscal Year 1950 to eliminate all scheduled itinerant services throughout the United States.

Stilwell, Mgr. of Veterans Administration, Wilmington Regional Office that effective June 3, 1949, the regularly scheduled itinerant contact service to Dover and Georgetown will end. This is necessary for the following reason: The budget estimates for the Veterans Administration for the Fiscal Year 1950 which starts July 1, 1949, is much less than for the Fiscal Year 1949. Accordingly, in order to come within the personnel and monetary limitations as presented to the Congress, it will be necessary in the Fiscal Year 1950 to eliminate all scheduled itinerant services throughout the United States.
