4-H Club News

Betty Bostick, 18, Felton and Charles Ross, 19, Clayton received highest delegate recognition given to 4-H Club members. Both Miss Bostick and Ross will attend National 4-H Club Camp in Washington, D. C., June 15-22, as an award for their outstanding ability in leadership and community service in relation to 4-H Club work and other community projects. Each year four 4-H Club members from each state in the United States, Alaska, Hawaii, and Puerto Rico go to Washington to attend National 4-H Club Camp.

Miss Bostick is a member of the Felton Paradise 4-H Club and lives on a 150 acre farm east of Felton. She has actively participated in all 4-H Club activities and has won several honors among which are the following: being one of the members of the winning team in the county foods demonstration contest, sweepstakes winner in the county style review, and several blue ribbon awards in project work at the Kent and Sussex Fair. Rural Life Sunday programs, educational exhibits of the club, county and club achievement programs, county banquets, and county club safety programs are some of the many activities in which Miss Bostick has taken part. In 1948 Miss Bostick was selected as a state winner in all Girls Records. She attended National 4-H Club Congress in Chicago in December with other state delegates.

Among the many projects completed, Miss Bostick has to her credit experience in clothing, cooking, canning, health, room improvement, garden, safety, and personal accounts. Miss Bostick is a member of the State Links and the Felton Grange.

A graduate of Felton High School in 1948, Miss Bostick entered the Delaware Hospital School of Nursing in the fall. At present she is employed by the International Latex Corporation of Dover.

Charles Ross, a member of the Kenton Klubbers 4-H Club, lives on a 185 acre farm near Clayton where he has successfully carried on dairy, swine, crops, tractor maintenance, and personal account projects in 4-H Club work.

In his four years of active 4-H membership he has served in the highest offices of his 4-H Club. He has taken part in many club activities as master of ceremonies and served on many club committees, assisted with Rural Life Sunday, with county and club achievement programs, county banquets, educational exhibits of the club, and taken part in the health and safety club programs. He also actively participated in many club, county, and state 4-H judging contests and in team demonstration work. Ross was a delegate to the 4-H Club Short Course at the University of Delaware last June.

In 1948 Ross was a member of the winning team in the state dairy production demonstration contest. He was also 1948 Kent County winner in the 4-H crop contest.

Ross attended John Bassett Moore School in Smyrna and at present is working on the farm with his father.

Both Miss Bostick and Mr. Ross will assist in developing leadership in 4-H Club work in Kent County after their return from camp.

Farm and Home News

June safety jobs of the month are to inspect window screens and see that they are tight, inspect the condition of seats, backs and legs of chairs and discard broken chairs until they are repaired. These suggestions are made by Miss Louise Whitcomb, home management specialist for the University of Delaware, in a letter to home demonstration and 4-H club safety chairmen and other farm groups who are taking part in the state-wide safety contest this year. Different safety reminders and check lists are sent out each month.

SALADS FOR EVERY DAY, a new publication of the Delaware Agricultural Extension Service, prepared by Miss Gertrude Holloway, nutrition specialist, is available to Delaware homemakers. Featuring crisp, appetizing, colorful salads for summer days, the leaflet, Ext. Mimeo Circular No. 62, may be obtained free, from the Office of Information, Agricultural Extension Service, Newark.

The tick season brings a warning from the Entomology Department of the University of Delaware that Rocky Mountain spotted fever is transmitted to humans by the American dog tick—also known as the wood tick. Serious illness and deaths from this disease are reported each season, particularly deaths of children. DDT has proved an effective control for ticks, and the entomologists recommend a thorough dusting of grass, weeds and shrubs in back yards, vacant lots and recreation grounds where children play. Dusting at the rate of 10 ounces of 10 percent DDT dust to 1,000 square feet is suggested. "Tick inspection" should follow outings where children, adults and pets may be exposed to ticks. Ticks should be removed with tweezers, not with the fingers.

NATION'S BEST DRIVERS
ENTER LANGHORNE EVENT

Over 100 of the nation's best known midget auto drivers will be on hand to vie for the 33 starting positions in the 150 Mile National Midget Championship at Langhorne Speedway, Sunday, June 12.

Such speed luminaries as Dutch Schaefer, Tony Bonadies, Art Cross, Henry Renard, Ernie McCoy and Len Duncan will be on hand to battle the best from the south and west at the famed Bucks County speed spa on June 12. Since the field is so power packed, great interest is growing in the qualifying runs which are scheduled for Saturday, June 11, the day before the championship grind. Ticket holders for Sunday's classic will be admitted to the qualifying events without charge.

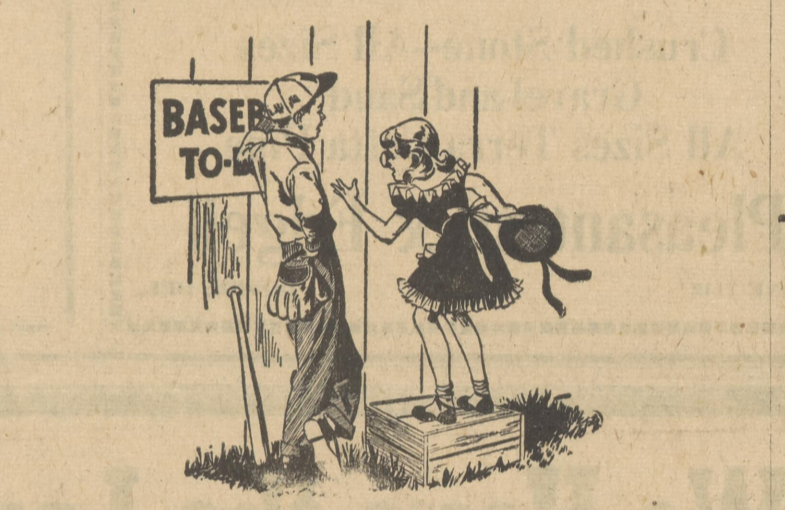

Fierce competition has been created among the midget aces over the Langhorne title chase. All have their eyes and budgets set on taking the lion's share of the \$7500 minimum purse. Many so-called 'lesser lights' figure on pulling a sleeper and bagging the big apple. But the name boys contend they have run up against this before and that their class and fine equipment, coupled with their experience will tell the tale.

The "Century and a half" classic, sponsored by the American Racing Drivers Club, leading midget organization in the land, is the longest and greatest ever staged in this area. Previous midget championships have been held over the 100 mile route, but Jack Nilon, youthful GI promoter, arranged for the extra 50 mile distance to give the might atoms and their pilots a true test of driving and staying ability.

Racing authorities feel that the powerful Offenhausers and special jobs entered in the event will reach their true speed capacities on the extremely fast banked turns of Langhorne's mile raceway. They believe the midgets will hit marks that even the most foolhardy wouldn't attempt on which midgets normally compete.

Little Courtesies
 give life a big "lift!"

On party-line telephones, too, it pays to take the lead in courtesy. Your party-line neighbors appreciate it... and they'll return your favors in kind!

FOR EXAMPLE: it's courteous to hang up gently when you find the line in use, and give the other person a few minutes to finish his call before trying again. It's courteous, too, when you are talking on the line and realize your neighbor is waiting to make a call, to free the line reasonably soon.

These two little courtesies pay big dividends.

Only Chrysler Offers

Drive through high water... Start instantly in dampest weather!
 You can't stall this amazing Chrysler High Compression Spitfire Engine even if you play a hose on it!

Latest and greatest development in high compression! Pioneered by Chrysler engineers who first introduced high compression to America 25 years ago! Featuring still higher compression Chrysler's mighty Spitfire again steps years ahead. Now you get completely waterproofed ignition system, coil, distributor, wiring-harness, Spark Plugs—everything! And again our developments in engine protection keep pace with our advances in performance! Full Pressure Lubrication prolongs engine life. Exclusive Full Flow Oil Filter keeps oil so clean that a change is necessary only every 5,000 miles. Chemically treated cylinders reduce cylinder wall scoring, save on oil. New Wide-Gap Resistor Spark Plugs cut misfiring, conserve fuel. Superfinish reduces wear of moving parts. And these are only a few of the Chrysler engineering "firsts" the others can't match. Phone us today for a demonstration.

Magnolia

Mr. and Mrs. J. D. Keller, returned home several days ago from a southern tour, visiting Washington and Southern Pines, N. C.

Mr. and Mrs. Herschel Calloway and sons, Kenneth and Wayne, spent Saturday with her grandmother, Mrs. V. H. Stradley in Easton, Md.

Miss Mildred Jackson, who is associated with the Beebe Hospital at Lewes, is spending a two weeks vacation with her mother, Mrs. William Jackson.

Mrs. A. H. Locke and children, Patty and Tommy, have been spending a while with her mother, Mrs. T. C. Sherrill in Cockysville, Md.

On Sunday of the past week Mr. and Mrs. James C. Reed and son, Charles, of Milton were guests of Mr. and Mrs. Howard Williams. Holiday week-end guests of the Williams' were Mr. and Mrs. Robert Jenkins from Harrisburg, Pa.

Mrs. Esther Moore, Mrs. Anna Johnson, Mrs. Margaret Wilcutts and Mrs. Amy Reed were delegates from the Magnolia Ladies Auxiliary who attended the County Auxiliary meeting in Frederica on Tuesday evening.

Mr. and Mrs. Martin Wilcutts returned on Wednesday night from a trip to Kentucky. While there they visited Mr. and Mrs. Jay Keller in Paintsville, Kentucky. They were accompanied on the trip by Mr. and Mrs. Maris Pyott, of Camden.

The eighth grade pupils of Magnolia school are having their graduation exercise and giving a play entitled "The Mysterious Friends", at the Magnolia school auditorium on Thursday, June 9th, at 8 o'clock P. M. The public is invited to attend.

Mr. Daniel Sherwood, who has been making his home for some time with his daughter, Mrs. Dewey Shahan and Mr. Shahan, died at their home on Wednesday after a lengthy illness. He is survived by eight other children and a number of grandchildren and great-grandchildren.

Mrs. Florence Marvel joined her sister and brother-in-law, Mr. and Mrs. John Houston, of Wilmington, to be dinner guests of another sister, Mrs. Harry Steinberg, of Camden on Sunday.

The wedding of Miss Gladys Rash, daughter of Mr. and Mrs. James Rash to Mr. Gilbert Hutchins, of Dover, took place in the Magnolia Church at two o'clock on Sunday, May 29th.

Miss Amelia Chasey, of Pittsburgh, Pa. was the bridesmaid of honor. The groom's best man was his brother, Carlton Hutchins also of Dover.

The bride was attired in a white gabardine suit and picture hat and carried a white prayer book with an orchid. Her maid of honor wore an aqua suit and carried a nosegay of mixed flowers.

The wedding music was played by Mrs. Lillian McIlvaine and Mrs. Phyllis Doer sang "Because". Dr. C. M. Elderdee was the officiating minister.

A reception followed in the school auditorium after which Mr. and Mrs. Hutchins left for a trip to Atlantic City. After their return they will make their home in the apartment of Mrs. Harry Wilcutts. Mr. and Mrs. Arlie Jackson spent Sunday with their children, Mr. and Mrs. Arlington Jackson and family

in Newark.

Mrs. Roy Anderson returned to her home on Friday following a six weeks visit with her children, Chief M/M and Mrs. James Smith at the U. S. Naval Base in Jacksonville, Florida.

Mr. and Mrs. William Steinberg, of Philadelphia spent the holiday week-end with his niece, Mrs. Marshall Stubbs and family.

A definite date has been set for the ice cream festival, which is being planned by group No. 2 of the M. Y. A. F. Wednesday evening, June 15th, beginning at 7 o'clock on the church lawn. The Caesar Rodney band, 50 strong will be here and we are expecting a record crowd to enjoy the music of the band along with ice cream, cake, pie and candy.

Jerry Frazier of Millsboro, spent the week-end with his grandparents, Mr. and Mrs. J. R. McIlvaine, while his parents, Mr. and Mrs. Bruce Frazier were away.

Mrs. Maude Graybeal and son, Ronnie were overnight guests of Mr. and Mrs. W. H. Graybeal in Belair, Md. on Tuesday. On Wednesday they spent the day in Baltimore.

Mr. and Mrs. Robert Reynolds, of Fullerton, Md. spent the week end with her parents, Mr. and Mrs. Homer Wright.

Sunday Mrs. Elizabeth Schwartz entertained to dinner her sister, Mrs. John Swisher and Mr. Swisher, of Washington, D. C., Mrs. Fred Schwartz, of Chadd's Ford, Pa., Mr. and Mrs. Norman Schwartz and daughter, Betsy, of Trenton, N. J., and Mr. William Roe of town.

LATE NEWS ABOUT INSECTS

Below are a number of reminders of the insects which are now active and may be found on the farms in Kent County in the crops shown:

Corn—Adult fleabeetles are active on young plants. They eat very small holes in the green portion of the leaves, giving the whole plant a bleached appearance. In warm weather, the plant will usually outgrow such injury. Fleabeetles sometimes transmit bacterial wilt or Stewart's disease.

Cucumbers, Squash, Melons—Striped cucumber beetles are injuring seedlings. Due to dry soil conditions, germination has been slow. The combination of both factors result in poor stands. Protect with sprays or dusts of either rotenone or methoxychlor. Repeat weekly until plants begin to run.

Ornamentals and Shade Trees—Boxwood leaf miner adults are emerging. Use 2 lbs. DDT 50 percent wettable powder per 100 gallons; cover thoroughly.

It is about time for bagworm eggs to hatch. These are in last year's bags; hand-pick and burn. If hatch, use 6 lbs. lead arsenate with 4 oz. soy flour per 100 gals.

or 4 lbs. 25 percent wettable Toxaphene per 100 gals. of water.

Potatoes—Mature Colorado potato beetles have been found on early plantings. Two kinds of flea-beetles are now abundant. Use DDT.

Tomatoes—Winged aphids are moving into tomato fields in Sussex County and are beginning to produce young. Control before plants begin to weaken and wilt. Spray with 1 pt. 40 percent nicotine sulfate and 6 lbs. soap in 100 gals. water per acre. If temperature is above 90degrees F., nicotine dusts can be applied with good results.

Colorado potato beetles and fleabeetles are present on newly-set plants. Dust with 20 percent calcium arsenate and 80 percent fresh spray lime to 100 gals. water. One application within a week after plants are set out, should give adequate protection. It is not advisable to use DDT on tomatoes.

County Agent Tarbell advises that there are outbreaks of the spring Army Worm occurring in lower Sussex County at the present time. This pest can do considerable damage in wheat, oats, and barley. It is also destructive to grass and clover seedlings in small grain fields. The Army Worm also will destroy young plantings of corn and will severely injure grass and pasture seedlings.

This pest can be identified as a worm of dark green color with a light stripe along the side and still lighter underparts. When it first emerges it is from 1/2" - 3/4" long and may grow to the length of 1" - 1 1/2" or sometimes 2". It is an extremely ravenous insect and the outbreaks occur without any preliminary warning.

All farmers should, from this date, inspect their small grains, pastures, and hay lands as soon as is practicable. The Army Worm will apparently break out overnight and is difficult to control.

The distribution of poison bait is suggested coupled with the plowing of trenches around the field to prevent the worm from moving to another location. Dusts and sprays of DDT, Toxaphane, and Marlate may be used and have proven more or less satisfactory. Whatever method is used it is imperative to use the control measure promptly and thoroughly. The poison bait, dusts, and sprays that have just been mentioned can be applied by ground equipment or by plane.

All farmers are urged to get in touch with the County Agent should any type of worm appear in their small grains, corn, or hay fields and when they are not sure of the identity of the worm.

Rail Figures
In the past 10 years the cost of rails, fuels and other supplies used by railroads have jumped 118 percent, and hourly wage rates 83 percent. Freight rates have risen 49 percent.

KING'S COLLEGE APPROVED AS DEGREE GRANTING SCHOOL

King's College was recently approved as a degree-granting institution by the State Board of Education in Dover.

Dr. George R. Miller, Jr., State Superintendent of Public Instruction, made the announcement and stated that a careful survey was made preliminary to the State Board approval.

Dr. Miller added that the survey included portions relating to the general conditions of eligibility, purposes and objectives, administrative organization, curriculum, library facilities, faculty, student personnel program, physical plant and facilities, finance and the catalogue.

The Survey Committee, composed of Dr. Miller, Dr. John Shilling, Assistant State Superintendent, Dean F. H. Squire, Dean of the School of Arts and Science of the University of Delaware, and R. C. Stewart, Director of Research and Publications of the State Department of Public Instruction, commended the officials of King's College for their sincerity of purpose and for the progress made in recent years to improve the college.

Extending over a period of more than a year, the committee's investigations and observations led to the recommendation that King's College be approved as a degree-granting institution. Particularly noteworthy are the improvements made in the college plant, the library, and phases of the instructional program.

King's College is located near Delaware City, Percy B. Crawford is the President and Dr. E. W. Schofield is the Dean of the institution.

4-H CLUBS OBSERVED RURAL LIFE SUNDAY

Kent County 4-H Club members observed Rural Life Sunday in their respective churches. May 8th was the first observance in Kent County at the Clayton Methodist Church. The program was planned by the Kenton, Clayton, Smyrna Community Council and the four clubs in that community participated in and attended the program.

May 15th Houston Cardinal 4-H Club invited the 15 clubs in Kent County to attend and take part in their church service. Readings, poems, vocal selections and prayer were given by members from various clubs. Mr. George Macklin

Milford, was their guest speaker.

In Felton Methodist Church, May 22nd, at 8:00 P. M. the Felton Paradise Club was host to all 4-H clubs in Kent County. Mr. William B. Simpson, Principal of Caesar Rodney School, and guest speaker, compared the city boy with the country boy. Various selections were given by guest clubs.

Other clubs attended special services in churches of their choice in their respective communities. Participation of 4-H Clubs in the observance of 4-H Club Sunday enables 4-H members to think together about their home, community, and world events in spiritual terms by means of the

chosen theme for club work in 1949, "Better Living for a Better World".

Fine Drawn Stainless steel can be drawn into wire so fine that one pound will stretch out for 25 miles.

More Smiles per Gallon with Dynaflo Drive

White sidewall tires, as illustrated, available at extra cost.

THERE'S the smile when you slip the selector lever into Driving notch—and realize that's all there is to do.

There's the smile when you swing smoothly up to cruising speed without halt or check or break of stride. There's the smile at traffic lights when you halt, wait, then move away with never a thought about shifting.

But the broadest grin of all comes at the end of a long day's drive and you find you've covered more miles more easily. Even your treadle-foot—so likely to become tired and cramped maintaining an even speed in direct-drive cars—appreciates the fluid ease of Dynaflo.

For Dynaflo Drive† is not merely a new transmission. It's a new experience—a new luxury in driving. In ten minutes you are handling it like a veteran—in two days you wouldn't be without it.

†Standard on ROADMASTER, optional at extra cost on SUPER models.

Small wonder, then, that Dynaflo is the drive with which all new developments in transmissions are compared. Not merely "something better," it is something entirely new, the first exciting chapter in a whole new book.

Go learn for yourself how abundantly rich in pleasure every gallon becomes when you have Dynaflo.

Your Buick dealer will be glad to demonstrate—glad to quote delivered prices—glad to talk terms of as fine a deal as you could want.

And you'll find glad surprise in the delivery dates he is now mentioning.

BUICK alone has all these features

Slit-smooth DYNAFLOW DRIVE* • FULL-VIEW VISION from enlarged glass area • SWING-EASY DOORS and easy access • "LIVING SPACE" INTERIORS with Deep-Cradle cushions Buoyant-riding QUADRUPLEX COIL SPRINGING Lively FIREBALL STRAIGHT-EIGHT POWER with SELF-SETTING VALVE LIFTERS plus HI-POISED ENGINE MOUNTINGS • Low-pressure tires on SAFETY-RIDE RIMS • Cruiser-Line VENTIPORTS DUREX BEARINGS, main and connecting rods BODY BY FISHER

*Based on ROADMASTER, optional at extra cost on SUPER models.

Tune in HENRY J. TAYLOR, ABC Network every Monday evening.

MORE CLEARLY THAN EVER "Buick's the Buy"

YOUR KEY TO GREATER VALUE

When better automobiles are built BUICK will build them

DEATH AT THE CROSSROADS

Several bad accidents have occurred at the intersection of S. 13 and the Harrington-Milford Road (Delaware 14), or a time, it was thought the new trip-light traffic lights would alleviate the situation.

But if they continue to operate as they have been doing, it will only be a matter of time before they will be largely responsible for a disastrous accident. At times, these lights are red in both directions. After a wait, motorists from all directions pass through the lights.

While we are at it, we would like to complement the State Highway Department on the excellent roads and the efficient manner, for the most part, in which they are run. Delaware roads are under state supervision. Conversely, in some other states counties or townships (hundreds), take care of the roads. This requires a duplication of machinery and personnel. Imagine the expense, for example, if each hundred in Delaware had to provide its own road machinery and personnel.

Furthermore, if there is a town of 500 persons in the state without a concrete road, we would like to know about it.

THE HOUSING SITUATION

J. Gordon Smith and Mrs. Elizabeth Shaw have practically finished the construction of a dwelling at Harrington Manor and have started another. Another builder has asked for a permit to start construction there. We are glad that, nearly a year after this land was sold, it has begun to be improved. Harrington is growing particularly in the northeastern part of the town.

We need new homes. Otherwise, we can look for part of our population to move nearer to their work in Dover and Seaford. But for the bus line of Harry Salmons, this might have been done long ago.

However, the housing situation is easing some here, though ever so little. Last summer we looked for several weeks for a house for a printer who wanted to work here if he had quarters. No luck. Last week's Harrington Journal had classified ads listing apartments for rent—one in Harrington, Felton, and Dover.

The high cost of building materials and labor has been advanced by some prospective builders as the reason for not going to work. A carpenter came into the office Saturday morning and said he had difficulty in finding work around Harrington in his field.

NATURE'S WEALTH IS YOURS

In these times of comparatively high food costs, nature has an abundance of food, free for the taking. Some persons have been having good luck dipping for herring below the dam at McCauley's Pond. Other Harringtonians have good luck when they rake for clams.

The lanes are lined with wild strawberries which have a flavor plant breeders have been unable to incorporate in the domestic varieties.

Wild greens have been in abundance since the early part of the year. Wintercress entered the scene, followed by dandelions, wild lettuce, thistle, narrow dock. Lambs-quarter and plantain make good greens and these can be procured from the lawn or the back yard.

The best of all greens, domestic ones included, is the poke-weed which is now in abundance. Some persons think they are poisonous, but this is not true. The writer has been eating these greens for years. They are listed in market quotations in some cities. In East St. Louis, Ill., poke greens are sold on the street.

These greens have stalks more tender than those of asparagus. They are cleaner than most greens and cook quickly. They are good cooked with other greens, or cooked alone with a piece of fatback. These greens, which, later on, will bear ink berries, like partial shade and mucky soil. However, they may be found in yards in the city limits. They are also found around marshes and ditches.

And while we are out securing our dinner from nature, let us decorate the table with such blossoms as the purple vetch, often seen in grain fields, and the pungent blossoms of the bay tree. These latter are referred to locally as magnolias, but they are merely a member of the magnolia family. If one should go after these blossoms, also found along streams and in wet places, one should take a sharp knife.
