It's "Buick weather" - and are you ready?

WHERE DOES LUBRICARE STOP?

In one of our exacting Lubricare treatments, you pay only what a routine "grease job" would cost elsewhere — but when your Buick comes purring back home you discover we've eased up the trunk latches, puffed a little puff of graphite powder into your door locks, checked your brake fluid!

We've even oiled the windshield wiper mechanisms — and that's only a good beginning. While we lubricate we also inspect, from bumper to bumper — catching your little troubles before they grow to big ones.

Authorized Buick Service

This time of year your garage doors open onto a wonderful world of fun, wide and fresh again — waiting for you and your Buick!

Great highways where you breeze along — shaded narrow roads leading you back to the hills, or to a piece of water you want to see again — you'll take them equally in your stride if your Buick's in top-flight shape.

How about letting us put it in that shape for you?

Get one of our conscientious motor tune-ups, and one of our thoroughgoing Lubricare treatments. We'll put the bounce back in your motor — while we're taking the bounce out of your ride.

We do this well because we're Buick men. We know your Buick. We've studied correct factory methods for each operation, we know the factory specifications your car was built to. We use genuine Buick parts — even special Buick tools!

Yet you don't pay a penny more for all these extras. Stop in this week, won't you?

Buick care keeps Buicks best

Now... Chrysler Offers

1—**Safer Driving!** Through the years, the greatest advances in safety come to you first from Chrysler. Now there's a new advance in steering... Chrysler's "center control" steering! Your days of fighting a wheel are over. There's greater road stability, easier handling, less road shock. Even the leather covered foam rubber Safety-Cushion dash, and the new "Bull-Eye" headlight lenses are designed to give you extra protection.

2—**Safer Design!** Now the engineers who pioneered the first all-steel car bodies have developed a still safer body and frame design—23% more rigid. You have full control of your automatic gear shifting car. With Prestomatic Fluid Drive Transmission, the Safety Clutch enables you to take over in emergencies, select the gear you need.

3—**Safer Vision!** When Chrysler engineers introduced the first 4-wheel hydraulic brakes 25 years ago—they brought to the automobile industry a new idea. It is the idea of car design that begins with safety, then builds beauty, comfort, performance! You can't possibly appreciate the difference until you drive this car. Find out how much more confident you feel in this Chrysler with its mighty High Compression Spitfire engine.

Prestomatic Fluid Drive* Transmission... drive without shifting

Trinity Methodist

Have you ever considered Sin under the name of some color; or under the name of some functional process? Well, if you will read the eighteenth verse of the first chapter of Isaiah, and then come to the morning service at 11 o'clock, we shall seek to know more of this marvelous truth.

Our Sunday School at 9:45 a. m. welcomes you and has a class to meet your age group.

The fourth of the yearly union Sunday evening services will be in the Asbury Methodist Church, with the pastor of Trinity doing the preaching. The theme will be: "The Way To Grow", the basis of which will be the words found in the first chapter of James: "... he is like unto a man beholding his natural face in a glass."

Next Sunday morning, 11 a. m. The Administration of the Lord's Supper.

The public is cordially invited to all services.

For The Ladies:
A Diet That Really Works

We went out visiting the other night and the ladies were talking away about weight-reducing diets. One of them had a special "15-day Hollywood diet" guaranteed to slim her down fifteen pounds' worth. Another was living on bananas and skim milk!

I might have known the missus would get the bug, too, and sure enough the other day she asks me, "Joe, what kind of a diet do you think I ought to go on?"

"Mother," I says, "the only diet I would ever recommend to anyone is simply moderation. I wouldn't trust any of those get-thin-quick diets. Simply cut down on desserts, bread, butter, sweets and fats—but when you do, even do your cutting down moderately."

From where I sit, moderation is the watchword. Moderation with food, with smoking or with the enjoyment of a friendly glass of temperate beer or ale. Actually, moderation adds to the enjoyment of just about anything.
