

## Bob Key Wins Journal Trophy As Kent & Sussex Raceway Starts Fall Meet

### Paces A Mile in 2:08.3; Silk Abbe Wins Both Heats of Wonder Bar Trot

Bob Key won The Harrington Journal Trophy Saturday night in the \$1000 feature race of the opening session of the fall meet of the Kent & Sussex Racing Association here. The first heat in the pace was won by Harry Morris' Gallant Heart in 2:10.2, with the second dash going to the trophy winner in 2:08.3.

The Wonder Bar Trot Monday night was won by Silk Abbe, driven by Emil Adams, of Harrington, and owned by E. A. Koons, of Millersburg, Pa. Silk Abbe won both heats—a mile and a mile and a sixteenth. Mr. Koons garnered another blanket Tuesday night when Hillcrest Bertha won the second dash of the Peoples Service Station and Restaurant Pace, with a time of 2:19 for a mile and a sixteenth, to stand best in the summary.

The feature races, nightly events, are now being raced for a mile and a mile and a sixteenth, instead of the mile for both dashes as formerly.

The meet here, under lights, is a pari-mutuel one which will last 20 nights.

Emalou Hanover and Oxheart split in heats of the K. & H. Provision Company Trophy race here Wednesday evening. Oxheart paced the mile in 2:05.2, equalling the track record for pari-mutuel racing here made in May by Rena Grattan. Emalou Hanover, owned by J. Gordon Smith and Jacob Rudnick, of Dover, won the second dash, a mile and a sixteenth, in 2:13.4, nosing out Oxheart and Duke Harvester at the wire. The trophy went to Oxheart for the better standing in the summary.

There will be nine races tonight and tomorrow and Wednesday, Thursday, Friday, and Saturday of next week.

## Hoof Beats

Fuzzy Tail, an 8-year-old bay gelding, owned by J. B. Workman, of Seaford, was in the opening race here Saturday night. Another horse entered for the meet, Squirrel, should have been in the same race.

There is now a \$4 combine window at the mutuels for the first time. The \$6 combine window will continue.

The feature races at the Kent & Sussex Raceway are now divided into a mile dash and a mile and a sixteenth dash. This will make the bettors think twice before betting on the winner of the first heat.

Morgan Hanover worked out at the local track Wednesday. The pacer, whose record last year was 2:00, is owned by Dr. John Turlington, of Melva, Va., and is in the stable of Ben Turlington. The bay gelding recently beat Riley Hanover at Roosevelt in around 2:04.

Louise Munn, who attracted considerable attention here last spring, arrived Monday evening with the pacers, Miss Newlyn and Candy Harvester, and the three-year-old trotter, Galanova. The Munn stable came here from Foxboro after a successful season. Mrs. Munn said she was going to drive her horses here.

Saunders Mills Bangaway, rank disappointment as the odds on favorite in the Hambletonian two months ago, will have an opportunity to clinch the three-year-old trotting championship of the year in the 57th renewal of the Kentucky Futurity in Lexington Friday.

A field of 18, including 14 Hambletonian starters, probably will face the barrier in the Lexington classic, oldest and richest futurity event in harness racing and the second richest sulky event of the year.

Bangaway, who has lost only one start since his disappointment in the Hambletonian, undoubtedly will be the favorite in the big Futurity field. His toughest competition is expected to come from Miss Tilly, Fibber, who licked the Saunders Mills ace at Sedalia, Mo., and Volume, second to Miss Tilly in the Hambletonian.

Miss Tilly, whose triumph at Goshen still stands as her only win of the year, recently was forced to cancel several stake engagements due to illness. But she has been back in training for several weeks and is believed to be sharp for second half of harness racing's "big double."

A triumph for the C. W. Phellis owned filly from Greenwood, Conn., would mark the 13th time in history that a Hambletonian winner has gone on to annex the Kentucky classic. Last to turn the trick was Hoot Mon in 1947. Trainer Fred Egan, at 69, will be seeking his third Futurity victory with Miss Tilly. His last win in the event was with Spencer Scott in 1940.

Ralph Baldwin, who will be up behind Bangaway, will be out after his second straight Futurity win. The 33-year-old Canadian-born driver triumphed last year with

## Harrington Defeats Viola For Pennant

Harrington won the fourth straight game of the Mid-Delaware League Championship play-off, Sunday, Oct. 2nd, defeating Viola 8-3. Jim Cabbage the winning pitcher went all the way for Harrington allowing only 7 hits, while Biddle, the losing pitcher, who was relieved in the 9th inning by L. Kersey, gave up 13 hits. Hobbs who played 3rd base got 3 hits out of 4 times at bat. Semans of Viola, and D. Brown of Harrington got a 2 base hit.

Harrington Club has just ended a very successful year, playing 24 games and losing only 2, winning both the pennant and championship of the league. The players have all worked together and cooperated with the management to enable us to build up such a good record.

We wish to thank all of our followers in their cooperation to enable us to finance this team, hoping next year to have as good a team.

Sunday, Oct. 16, there will be a game with Henderson, Md. Time and place will be posted.

## O. A. Newton & Son Wins Delaware Chicken Contest

For folks who like to eat chicken there was good news out of Georgetown Friday, with the award of first prize in the Delaware Chicken-of-Tomorrow contest to the O. A. Newton and Son Company of Bridgeville.

There was also good news in the contest as a whole to the folks who are poultry growers, competing as a group the largest industry Delaware has.

For this latter group, the good news lay in the showing of 95 entries in the junior division, won by 13-year-old Roland Rogers of Greenwood.

### Ernest E. Killen Chosen For Revenue Post

### Democrats Pick Him To Fill Collision's Job

Ernest E. Killen of Harrington will be recommended to U. S. Senator J. Allen Frear, Jr., for appointment as Collector of Internal Revenue for the Delaware District.

Mr. Killen was selected from a list of five persons being considered for the post by the Kent County Democratic Committee last Thursday night.

Senator Frear will submit the name of the candidate for the post to President Truman, who in turn submits it to the Senate for confirmation.

The four other names considered by the Kent County Democratic Committee in its selection of Mr. Killen were: William G. Bush of Dover, Edward Hughes of Kenton, Harry S. Jones of Smyrna, and Wilbert Rawley of Leipsic.

Three ballots were taken by the committee, and on the last the field had been narrowed down to Mr. Bush and Mr. Killen. The latter won by 28 votes over Mr. Bush's 21.

Please inform me for what Milby family Milby Street was named as I am trying to identify a "Mr. Millsby, a prominent politician from Kent" who visited the home of my great-grandfather, Eleuthere Irenee duPont de Nemours at "Eleutherian Mills" on the Brandywine, on September 10, 1832.

People say that one must wait for frost to harvest chinquapins and chestnuts. Not so. Sunday we went to Fork Landing and to Coursey's pond.

We had been waiting until frost, but Saturday night someone told us people had already been gathering the tasty nuts. We thus found we were on the tail-end of the season and that very few nuts were left.

Near Killen's pond we found quite a few chestnuts beneath a tree. During the war we saw many chestnut trees growing wild in Corsica and Italy.

A survey among storekeepers in five small cities, made by Country Gentleman, reveals that the average storekeeper considers the farmer a much better customer than the city resident.

- 1. Farmers mental attitude about business conditions in general is better than that of city people.
2. Farmers not threatened with unemployment, fear of strikes, or part-time work.
3. Farm income is at an all-time high level.
4. Farmers have more money to spend after the cost of living.

Last week we carried correspondence or newsletters from 21 communities. This was unusual as it was the first time, in our recollection that ALL our correspondents were represented the same week.

2. Be pointed. Don't write all around a subject without hitting it.
3. State facts, but don't stop to moralize. It's drowsy business.

POTTER'S FIELD

We saw a display in the window of the Community Restaurant this week; something on the order of one of these before and after advertisements for reducing pills, except this display concerns a horse.

It reminded us of a story we heard years ago, concerning a man who had always been interested in horses, provided they were race horses, of course.

After long deliberation he finally bought a boney old nag, that could go a mile in just a little under 2:32 if he really tried. Then he bought the most expensive sulky he could get, and the most expensive harness he could find, with enough accessories to outfit a stable of horses.

The old man was leaning against the gate when our hero drove up. "Colonel," said the driver, "you're a good judge of these things; look us over and see what you think."

"Perfect," said the Colonel, "perfect, couldn't be better."

"How about the harness?" "Finest, I ever saw."

"Sulky?" "Best made."

This went on, until everything right down to the horses shoes had been mentioned and enthusiastically approved.

The beaming driver said, "Colonel, you certainly have made me feel good. I was afraid I might have forgotten something."

The Colonel's roving eye swept over the whole outfit once more. He said, "Well son, there's just one more thing you need."

"What's that?" "A hoss!"

We often wondered what happened after that. Now we know. That horse is right out here at this track. He must be, no other horse could be as slow as the one we picked.

CHICKEN CONTEST

(Continued from page 1)

economy has been developed on the vast Newton poultry farm under Dr. Hammond's direction.

National Contest in '51 Next year there will be state and regional contests for the same purpose, and in 1951 there will be state-regional, and a national contest similar to the first chicken-of-tomorrow event held in Georgetown last year.

The contests are designed to result in better eating poultry for the American dinner table.

However, the challenge in the contest is to poultry growers who must develop these super-chickens while, at the same time, reducing the cost of feed, Dr. Hammond pointed out.

He said this was the first contest entered by the Newton poultry plant, and that their winning entry was a result of last year's national winner.

Developed Through Years The Vantress Hatchery of California topped the nation's poultry growers in 1948 with their Cornish-New Hampshire crosses.

The Newton 1949 state winner was a cross of the California Cornish and Barred Plymouth Rocks which had been developed over the years on the Newton farm.

"Next year it may be something else again", Dr. Hammond explained.

CHICKEN CONTEST (Continued from page 1) economy has been developed on the vast Newton poultry farm under Dr. Hammond's direction.

National Contest in '51 Next year there will be state and regional contests for the same purpose, and in 1951 there will be state-regional, and a national contest similar to the first chicken-tomorrow event held in Georgetown last year.

The contests are designed to result in better eating poultry for the American dinner table.

However, the challenge in the contest is to poultry growers who must develop these super-chickens while, at the same time, reducing the cost of feed, Dr. Hammond pointed out.

He said this was the first contest entered by the Newton poultry plant, and that their winning entry was a result of last year's national winner.

Developed Through Years The Vantress Hatchery of California topped the nation's poultry growers in 1948 with their Cornish-New Hampshire crosses.

The Newton 1949 state winner was a cross of the California Cornish and Barred Plymouth Rocks which had been developed over the years on the Newton farm.

"Next year it may be something else again", Dr. Hammond explained.

He emphasized again the importance to the poultry industry of Delaware in the "really fine job the youngsters did in the contest."

Also Takes Third The winning entry of California Cornish-Barred Plymouth Rock crosses scored 158.77 points out of a possible 200 and the 12 birds averaged 3.42 pounds.

The Newton company also took third place with California Cornish-New Hampshire crosses averaging 3.41 pounds and scoring 151.89.

Second and fourth place went to the Indian River poultry farm of Ocean View, its entry of Indian River crosses taking second place with a point score of 154.54, and its New Hampshire taking fourth with 142.52.

Fifth place went to Townsends Inc., of Millsboro with an entry of crossed Barred Plymouth Rocks-New Hampshire.

Greenwood Boy Wins Rogers, the Greenwood boy, won the junior division with Barred Rock-New Hampshire crosses. The next four places were taken by the following:

Wallace Cook, Jr., Elkton, Md., New Hampshire, second; Charles Stahl, Delmar, Barred Rock-New Hampshire crosses, third; Davidson Woodward, Wilmington, Barred Rock-New Hampshire crosses, fourth, and Paul Morison, Newark, Barred Rock-New Hampshire crosses, fifth.

Trophies were awarded the winners in each division at ceremonies held in the Georgetown High School at which officials of the U. S. Department of Agriculture, the Poultry Department of the University of Delaware, and A & P Food Stores, spoke.

Runners-up in the junior division received cash prizes donated by the A & P and the State Chicken-of-Tomorrow committee. The Delaware Poultry Improvement Association gave the trophy for the junior winner.

Mr. and Mrs. Carl Goodson and children, of Stockton, Md., spent Sunday with Mr. and Mrs. Carroll Welch.

WELL KNOWN ACTS HEAD MILFORD VAUDEVILLE Since the vaudeville policy was inaugurated at the New Milford Theatre last January many excellent shows have been presented but the management predicts theatre-goers who see this Friday and Saturday five-act variety bill will call it "the best yet".

The cast includes the Dale Sisters... two beautiful singers who have been featured on Phil Spitalny's famous Hour of Charm radio show; The Three Extremes... a terrific comedy knock-about act that recently scored a big hit at the Roxy Theatre in New York; Wally Ward and Mitzi... a hilarious music comedy skit; the Marco Family... a very unusual acrobatic act, and last, but not least, Irving and Mann... billed as "The Two Madcaps".

Also scheduled for the stage of the New Milford during the coming week is the second of the new series "Stars In The Making" talent shows on Wednesday evening. This series is sponsored by the 81 Clover Farm Stores in this area. \$150 in cash plus other prizes will be presented to the winners of this series.

On Sunday, October 23rd, the biggest show to ever play in Milford will be presented when Horace Heidt will send in person the Dick Contino Show starring Dick Contino and a cast of thirty Horace Heidt-Phillip Morris parade of stars.

Whatever the Price Class

"Buick's the Buy"

It's part of every street scene—something you see every day. Car owners in three different price classes—all happy about the same thing. One of them drives a new Buick SPECIAL, which you see poking forth its new, bold-look forefront at the left of our picture. Another will tell you there's nothing like the SUPER'S "happy medium" of size and comfort, power and easy handling, style and standing. And if you're looking for prestige, where is your money going to buy so much as in that handsome 18-footer, the ROADMASTER, with its 150-hp performance and really royal bearing? But all these good folks get together on this: There's no ride quite so soft and cushiony as the Buick ride, whatever the size and series. There's no power quite so satisfyingly lively as Buick's high-compression, high-pressure Fireball power. Above all, there's no "buy" like a Buick—no car that gives you such a rich dollar's worth of smartness, handling, comfort and liveliness for every dollar you pay. So why not look the whole line over? Your Buick dealer has these grand travel-mates in a baker's dozen of different body types and sizes. Start your shopping in his showroom—and you'll find that even on delivery he has exactly what you want.

BUICK alone has all these features

### Social Security Queries Answered

Questions relating to Federal Old-Age and Survivors Insurance will be answered in this paper or by mail. Address all queries to Social Security Administration, Old Customs House Building, 6th and King Streets, Wilmington, Del.

Q. I have been employed over 30 years. The company had my age but the records were lost due to fire. When I had to give my age again, I had taken off a few years. However, I gave my correct age to Social Security. Will I have to notify my place of employment or does Social Security, as I am alone and want to work longer when I reach 65?

A. It is entirely up to you as to whether you wish to notify your employers of your correct age. The information given to the Social Security Administration is confidential. The information in your files will not be given to your employer.

Q. My husband is a non-citizen. He has been paying Social Security since 1937. I'd like to know if he is entitled to benefits when he reaches 65. Also, would I, his wife, be entitled to payments. I am an American citizen but have not paid in Social Security.

A. When your husband reaches 65, he will be eligible for old-age insurance benefits under the social security act. You, as his wife, upon reaching 65 will also be eligible for benefits equal to one-half of whatever his benefit may be. At that time, it will be necessary for you and your husband to get in touch with your Social Security office in order to file applications for benefits. It is not necessary for your husband to be a citizen in order to be eligible for old-age benefits.

Q. I am taking a part-time job in a hardware store. Must I pay social security?

A. Yes. Regardless of whether your employment is full time or part time, if you work in a job covered by social security, such as the usual job in a department store, then you are covered by the taxing provisions of the Social Security Act.

### Sweet Potatoes Are Here Again

Every season is gay for some reason or other. The coming of the sweet potato season is another source of pleasure to the meal planner. Most people enjoy sweet potatoes and they go into the class of "a food that is good for you and tastes good, too." Their deep yellow color puts them high on the list of Vitamin A contributors. The variety of methods of preparation delights the cook and the family.

Sweet potatoes need a low temperature for storage—55 to 60 degrees is best. Don't put them in the refrigerator—they're sensitive to cold and may turn dark.

The Bureau of Human Nutrition and Home Economics offers a Sweet Potato and Apple Combination you may enjoy.

"Of sweet potato and apple combinations, here's one that calls for frying. It's the BHNHE recipe to serve 6: Pare and slice (1/8 to 1/4 inch thick) about three medium sized raw sweet potatoes and three raw apples. (Leave skins on red apples to add color.) Then place in a hot frying pan with about three tablespoons melted butter. Sprinkle with 1/4 to 1/2 cup of brown sugar and a little salt. Cover. Cook over low heat until tender and lightly browned, about 30 minutes. Turn occasionally."

It's a dull season when you don't learn at least one new recipe. Here are several that may fit with your family meals. Grated orange rind blends so well with sweet potato. Maple syrup adds to this next dish, too.

Maple Sweet Potatoes—Add 1 teaspoon grated orange rind to mashed sweet potatoes; turn into greased baking dish and top with 2 tablespoons melted butter mixed with 2 tablespoons heavy maple syrup. Bake in moderate oven (350 degrees F.) for 25 minutes.

This one is a little ambitious but why should we adhere to the short order constantly?

Sweet Potato Cutlets—Add 1/2 cup finely chopped pecans to mashed potatoes and shape into 12

round, flat patties. Roll in ground pecans, place in greased baking pan and dot with butter. Bake in hot oven (450 degrees F.) for 20 minutes. Serve with Mushroom Sauce if desired. Or shape mashed potatoes into cones and stick blanched almonds, split and cut in halves, into cones and bake as directed.

With all these methods let's remember the sweet potato baked in the skin remains one of the best liked dishes.

Felton School News

The new annex to the school will be heated by steam radiation circling the entire building on the inside. The work is being done by Wilkens and Co. of Wilmington. This arrangement of a heating system makes for a more efficient distribution of heat. Modern lighting fixtures and cheerful pastel paints make the two rooms attractive and well adapted for educational purposes. The larger of the two rooms is devoted to Industrial Arts while the smaller room is used for vocal and instrumental instruction. As a further means of stimulating interest in music and developing a school band, Mr. Knowles, of Knowles' Model and Music Shop, of Wilmington, demonstrated various musical instruments to pupils of grades five through twelve in an assembly program on Sept. 27. A number of pupils have already made arrangements to rent instruments and will probably purchase them at a later date. Although trained musicians are few in the school, prospects for a fine band and glee club are good. Mrs. Hughes' fourth grade boys have started the year with an excellent record of 100 per cent attendance for Sept. Grades four to eight conducted an assembly program on Sept. 29, to commemorate the birthday of Frances Willard. The Faculty Association extends sincere wishes for a speedy recovery to Mrs. Nora Morris, who was injured last week when she was struck by an automobile on Route 13. Also, best wishes go to Miss Shirley Sipple who is absent from her position as first grade teacher due to illness. On Wednesday, Oct. 5, Lt. Poore of the State Police, addressed the 8th grade social studies students on the topic of safety. On Thursday, Oct. 6, the P-T-A. held its first meeting of the year, in the school at 8 p. m. for the purpose of getting acquainted with the new members of the school faculty.

America has become a nation on wheels. To keep those wheels spinning requires a whole range of special coatings to furnish beauty and protection. The finishes on streamline trains, buses, street cars, tractors and trucks, must be tougher than the working conditions the vehicles encounter. They must be as rugged as the machines they protect.

The Ships of Columbus Didn't Just Come In
Can you imagine Christopher Columbus hanging around the wharves of Genoa "waiting for his ship to come in"? No. He was not that kind of man. He had courage and persistence to match his imagination. He had a big idea, but he was a long time "selling it" to Ferdinand and Isabella. Then, on the voyage his men wanted to turn back. He forced them to sail on. The ships of Columbus were brought into port by the sheer force of a dauntless spirit. Always remember this fact when you are tempted to be discouraged in your own financial undertakings.

### Social Security Queries Answered

Questions relating to Federal Old-Age and Survivors Insurance will be answered in this paper or by mail. Address all queries to Social Security Administration, Old Customs House Building, 6th and King Streets, Wilmington, Del.

Q. I have been employed over 30 years. The company had my age but the records were lost due to fire. When I had to give my age again, I had taken off a few years. However, I gave my correct age to Social Security. Will I have to notify my place of employment or does Social Security, as I am alone and want to work longer when I reach 65?

A. It is entirely up to you as to whether you wish to notify your employers of your correct age. The information given to the Social Security Administration is confidential. The information in their files will not be given to your employer.

Q. My husband is a non-citizen. He has been paying Social Security since 1937. I'd like to know if he is entitled to benefits when he reaches 65. Also, would I, his wife, be entitled to payments. I am an American citizen but have not paid in Social Security.

A. When your husband reaches 65, he will be eligible for old-age insurance benefits under the social security act. You, as his wife, upon reaching 65 will also be eligible for benefits equal to one-half of whatever his benefit may be. At that time, it will be necessary for you and your husband to get in touch with your Social Security office in order to file applications for benefits. It is not necessary for your husband to be a citizen in order to be eligible for old-age benefits.

Q. I am taking a part-time job in a hardware store. Must I pay social security?

A. Yes. Regardless of whether your employment is full time or part time, if you work in a job covered by social security, such as the usual job in a department store, then you are covered by the taxing provisions of the Social Security Act.

### Sweet Potatoes Are Here Again

Every season is gay for some reason or other. The coming of the sweet potato season is another source of pleasure to the meal planner. Most people enjoy sweet potatoes and they go into the class of "a food that is good for you and tastes good, too." Their deep yellow color puts them high on the list of Vitamin A contributors. The variety of methods of preparation delights the cook and the family.

Sweet potatoes need a low temperature for storage—55 to 60 degrees is best. Don't put them in the refrigerator—they're sensitive to cold and may turn dark.

The Bureau of Human Nutrition and Home Economics offers a Sweet Potato and Apple Combination you may enjoy.

"Of sweet potato and apple combinations, here's one that calls for frying. It's the BHNHE recipe to serve 6: Pare and slice (1/8 to 1/4 inch thick) about three medium sized raw sweet potatoes and three raw apples. (Leave skins on red apples to add color.) Then place in a hot frying pan with about three tablespoons melted table fat. Sprinkle with 1/4 to 1/2 cup of brown sugar and a little salt. Cover. Cook over low heat until tender and lightly browned, about 30 minutes. Turn occasionally."

It's a dull season when you don't learn at least one new recipe. Here are several that may fit with your family meals. Grated orange rind blends so well with sweet potato. Maple syrup adds to this next dish, too.

Maple Sweet Potatoes—Add 1 teaspoon grated orange rind to mashed sweet potatoes; turn into greased baking dish and top with 2 tablespoons melted butter mixed with 2 tablespoons heavy maple syrup. Bake in moderate oven (350 degrees F.) for 25 minutes.

This one is a little ambitious but why should we adhere to the short order constantly?

Sweet Potato Cutlets—Add 1/2 cup finely chopped pecans to mashed potatoes and shape into 12

round, flat patties. Roll in ground pecans, place in greased baking pan and dot with butter. Bake in hot oven (450 degrees F.) for 20 minutes. Serve with Mushroom Sauce if desired. Or shape mashed potatoes into cones and stick blanched almonds, split and cut in halves, into cones and bake as directed.

With all these methods let's remember the sweet potato baked in the skin remains one of the best liked dishes.

BONUS

(Continued from page 1)

'Veteran' Defined
A veteran is defined in the act as "any person, male or female, who served honorably for 90 or more consecutive days on active duty in the armed forces of the United States, or, if less than 90 days, died or was discharged or released by reason of an actual-service-incurred disability, and who was a resident of the State of Delaware as defined in this act, and who has not received a similar payment from another state."

Residents include those who were born and lived in the state until entrance in the armed forces; those born here, but temporarily living outside the state at the time of their entrance into the armed forces, and those who were born elsewhere but had resided here for at least 12 months immediately prior to entrance into the armed forces.

Not Taxable as Income
The measure specifies that the bonus payments are "gifts or gratuities and shall not be deemed to be pay for services rendered, nor shall said payments be taxable in the state of Delaware as income."

The sum of \$75,000 is appropriated to the commission for expenses of administration and is to be repaid to the general fund of the state when funds become available from a special bonus bond issue.

A bond issue of \$8,500,000 is authorized to provide funds out of which the bonuses are to be paid. In the event this sum is insufficient the bill provides, an appropriation of \$1,000,000 or as much of that as shall be necessary is to be made from the general fund.

In accordance with a suggestion of the Republican members of the Legislature, the bond issue will carry a maximum interest rate of 3 per cent.

The principal and interest payments on the bond issue are to be met during the current biennium out of the general fund and the budget appropriation bills of subsequent bienniums will provide for such payments under the debt service item.

BONUS COMMISSION APPOINTED BY CARVEL

The state veterans' bonus was moved an important step toward realization Tuesday with the appointment by Governor Carvel of the "Veterans Military Pay Commission," set up in the act passed by the special session of the Legislature last Friday night to administer the payments.

The members of the commission are: Paul Podolsky, 49, of 1012 Madison Street, Wilmington, a business man, and past state commander of the Veterans of Foreign Wars;

William K. Pennington, 52, of Delaware City, a bank cashier; William E. Matthews, Jr., 55, of Smyrna, Kent County, a funeral director and former state commander of the American Legion, and

Thurman G. Adams, 54, of Bridgeville, Sussex County, a farmer and feed dealer.

Auditor Settles Disputes

Mr. Pennington and Mr. Matthews are Republicans. Mr. Podolsky and Mr. Adams are Democrats. In the event the four are unable to agree on any question or matter before them, State Auditor James W. W. Baker, a Democrat, is authorized by the bonus act to cast a deciding vote.

Governor Carvel described the commissioners as "a highly representative group of men, thoroughly capable of giving this very important program excellent direction. He said that he would call them together very soon, "certainly before the end of this week."

Among their first duties will be the appointment of an executive director who, with their advice and approval, will do the actual carrying out of the provisions of the bonus act.

The commission will also select and appoint such other employees as they deem necessary and, when bonus payments are being made, will sit as a board of appeal.

ject is awarded to a contractor, tractor to learn where the materials on the project are being supplied from.

When the contractor submits this data to the Laboratory, the producer of the materials, regardless of what it consists of, is checked first for reliability and then requested to send samples of the material to the laboratory for examination.

In the event the material is an item to be delivered in bulk to the scene of operations, the Laboratory requests the producer to give the date of delivery so that inspectors from the Laboratory can be present at the time of delivery and procure samples for testing purposes.

Records on the tests made by the Laboratory on these samples are retained to be checked with similar tests made on the items delivered to the contractor which are also checked following their arrival.

In this manner a complete check is maintained on the type of materials used on a project and also whether these materials are meeting the specifications set up by the Department for the project.

motor vehicle to an inspection lane, after the registration has expired, the owner will be required to procure a permit to do so. The fee charged for this permit is one dollar.

In discussing his action, Mr. Koster pointed out that ever since July first the owners of the motor vehicles, having Sept. 30th registration could have visited the inspection lanes and had their motor vehicles inspected.

He added that it was pointed out to the public many times that renewal of the registration was not required at the time the inspection was made but instead the renewal could be procured at anytime before the expiration date after the motor vehicle had passed the inspection.

Can Register Cars Tomorrow

The owners of motor vehicles with registrations that expired on Sept. 30th, will have until noon on Saturday of this week to have their motor vehicles inspected and registration renewed or face arrest for failing to do so.

The above was the ultimatum issued this week by Henry E. Koster, Motor Vehicle Commissioner after the end of the period for renewing these registrations showed that there were still a number of motor vehicles without registration renewals.

It was also pointed out by Mr. Koster that in order to take a

Look, No Watch! When Trainer Bi Shively sent R. H. Johnston's Rodney his 1:57.2 mile at Lexington last week, he did it without benefit of a stop watch, usually employed by all harness horse drivers to rate their steeds. Shively's watch failed to start on this occasion.

Rodney got to the quarter in :29.4, the half in :58, the three quarters in 1:27.2, and finished the mile in 1:57.2, missing his sire Spencer Scott's world stallion mark by a mere three 20ths of a second.

The giant trotter's time was the best in eight years, since Spencer Scott set his world record over the Lexington Red Mile in 1941, and established the Charlotte, N. C., cyclone as the fifth fastest trotting horse of all time. The only horses to turn in faster miles on the trot were Greyhound, 1:55.1; Peter Manning, 1:56.3; Rosalind, 1:56.3; and Spencer Scott, 1:57.1.

Owner R. H. Johnston has announced that the 5-year-old Rodney will be retired to stud at the end of the current racing season, probably standing at his own

Whitehill Farm at Charlotte along with Bill Gallon. Meanwhile, he will race in the 60-year-old Transylvania at Lexington, Saturday, and in the \$50,000 Golden West Trot at Hollywood Park, Calif., Nov. 19, and probably will be sent against the clock in another effort to break the world stallion record either at Lexington or Hollywood.

Railroad News

The baseball train last Saturday carried 764 to the game and 763 back. Winnie Burgess liked the big town and stayed over. The fighting Phils really lived up to their name and gave their followers a lot of thrills. We are going to advocate a lot more of those trips next year, if we are still around.

Force reductions continue to cut into M. W. and M. E. crews all over the system. Effective last Wednesday the carpenter department laid off 40 men and the track department on Bob McClain's territory lost 23. The T. & S. department was also hit hard. That's why we say "If we're still around" and it brings up a story about a railroader who was visiting a friend at Farnhurst and stood watching a tall middle aged patient going through a windup and delivery motion. A doctor noticing the keen interest on the railroader man asked why he was so interested in the old man. The railroader said "The way things are going, I might be in there catching for that guy and I want to get onto his curves."

Carpenter Foreman, John Shortall retired on the first of the month and will not have to worry any more about force reductions. John had charge of one of the camp train units that took care of rebuilding bridges and water tubs. Good luck and good health to you John. We'll be looking for you on that bench at Clayton along side of Harvey Dunning, Carl Hurd and other hardy railroad boys who seem to retain their youth and interest in transportation by parking close to that tree and fountain.
