

Harrington Band Concert

The Annual Concert of the Harrington High School Band will take place tonight, at 8:00 p. m., in the high school auditorium.

Mr. Randall Knox, Jr., prominent musician of Harrington will be guest soloist on this occasion and will play two solos for trombone, "Lieberstraum" by Franz Liszt, and the Mexican Folk Song "La Golandrina" by N. Sorradill. Mr. Knox, a graduate of the Harrington High School, was a prominent member of the band when in high school, and his fellow alumni are looking forward to his appearance with the present high school band.

Mr. Melvin L. Brobst, Director of Music for the Harrington Schools, said this week that while the present band may not be the finest group which this school has seen, its present membership is in most part youngsters who will remain in school longer and thus develop in musicianship that will raise the standard of the music played. The turnovers will be very little for the next two years, due to more children taking instrumental instruction in the lower grades than ever before.

Instruction in instrumental music is begun in the fourth grade by all those who desire it, and is continued until graduation. Membership in the high school band is limited only to those in the seventh grade through twelve, who qualify. All instruction is free of charge.

At the beginning of each year the instruments owned by the school are rented out to beginners, and in that way interest is created to continue study after one year of training, although parents are encouraged to purchase new instruments for their children.

Mr. Brobst also expressed his desire for more lesser known instruments such as the flute, oboe, baritone saxophone, alto clarinet, french horn, and kettle-drums, which the local band does not possess. It is hoped that with the proceeds from this concert, purchase of one or more such "odd" instruments can be made.

Another need of the band is three uniforms for the majorettes who follow the band on all parades. Up to now the girls who have been chosen as majorettes were compelled to make their own uniforms. Another need is for more uniforms for the members of the band. There are four new members in the band who have no uniforms, and it is hoped that all of these needs will be anticipated during the next few months, for which the proceeds of this concert will be a start.

Tickets for this concert are on sale from all members of the band, and will be on sale at the door on the night of the concert.

Baseball season is here. So is the season for grass fires and ground hogs, both of which do a lot to make railroad operation costly. The ground hogs ate the insulation of the underground wires on the Chestertown Branch and the grass fires are costly in property damage. But we are doing something about all three of these seasons: The underground telephone line on the branch is replaced with commercial phones at vital points and diesel engines will soon cure the grass fire situation.

The baseball situation will also be taken care of with special trains on May 21 to a double header with the Phils and Cards. On June 25, the Phils and Chicago; on August 13, the Phils and Giants. Watch this column and advertisement section for schedule of trains to these games.

Harrington Legionnaires Capture Playoff Crown—Down Lewes AA 70-54

Harrington's fast stepping Legionnaires made it two straight over Lewes Monday night on their home floor in the All-Delaware League playoffs. The win enabled the locals to walk away with their first championship since entering league competition in 1946. It brought to a close a highly successful season for the Legionnaires, finishing second to Rehoboth in league standings and then eliminating Smyrna in the semi-finals to gain the right to meet Lewes AA for the championship. Coach Bill Minner's chargers displayed a fine brand of basketball for the local fans.

The Breakwater team was slightly the favorite due to the fact that they were at home but after the first few minutes the home team took the lead and never headed. Downes, Dill, and Quillen hit the net consistently for the Legionnaires. Hayward Quillen connected for seven tallies from the charity strip. Harrington forged well ahead in the third period and padded their lead as the game progressed. A large number of local fans were on hand to see their team become champions of the All-Delaware League of 1950.

No Real Estate Or Sales Tax, Say Democrats

Administration Answers Questions In Public Meeting

The assertion of State Rep. Noble S. Warren that the present administration is figuring on a state real estate tax was denied at Wednesday night's tax meeting in Dover.

Lieut-Gov. Alexis I. duPont Bayard, who was the first to touch on the subject of Warren's statement, told the audience of 400 men and women from all parts of the state that he was aware that Gov. Carvel has no knowledge of any such plan nor does any member of the administration.

"I am curious as to where Warren got such information," he said. "We invite criticism in the interest of all — constructive criticism not sniping."

Later in the meeting, Gov. Carvel, in discussing the more equitable income tax plan for revenue, declared that "it is not necessary to have a sales tax any more than it is to have a real estate tax." He then said that he had declined to follow a suggestion that he recommend a sales tax. The governor maintained that the income tax is a far better method of raising revenue because the man who earns it is the man who pays the tax.

Speaker of the House Harvey H. Lawson, posed this question: "Why does the administration constantly refer to the one majority of the Republican party in the Legislature in talking about your tax plan? Are you passing the blame to us, the Republicans, or is it a bouquet?"

Gov. Carvel's reply was that he was not aware that such reference was "constantly" made but that, when it was referred to, it was only a factual statement as it was obvious that "the administration could not pass any bill without some Republican help."

Herbert Warburton, president of the Active Young Republicans, questioned members of the administration on variations in certain figures in three different budgetary setups that had been prepared by the administration.

The summation of the answers to his several questions was that it is not possible to estimate in advance exactly what the income will be over a two-year period from any revenue source and that it is necessary to alter forecasts according to the trends in revenue from different fluctuating sources.

Further, the administration representatives pointed out, the figure fixed in a budget as the appropriation for an agency is the maximum that that agency can expend and is not alterable. Every agency as it appears at present, is living well within its budget, the administration representatives stressed, and any unexpended part of an appropriation will revert to the state treasury.

Also, they said, indications are that there will be a considerable amount reverted from the various appropriations to departments.

Gov. Carvel and Frank Gunnip, chief accountant for the Permanent Budget Commission, both answered Warburton's questions. Each explained that the exact financial situation cannot be known until after the end of the fiscal year.

When Warburton asked if, then, it were not true that the anticipated surplus indicates only an "estimated" balance, Gov. Carvel said that that might be considered true but, from his knowledge of the situation and from his observations, the year will definitely end with a balanced budget.

Vote Against Market Agreements, Urge Kent Potato Growers

The Kent County Potato Growers Association today urged all Delaware farmers who raise potatoes to vote against a Delaware-Maryland Potato Marketing Agreement which the U. S. Department of Agriculture has called for a referendum vote early in May.

The association charged that the marketing agreement would result in heavy losses to Delaware farmers who raise potatoes, because such crops in Delaware are not supported by any noteworthy government acreage allotment program.

The proposed agreement would compel every farmer who raises potatoes and sells them, regardless of the amount, to have their crops federally inspected, subject to a handler's fee, and delivered to market in quantities and sizes to be determined by a seven-man committee, to which Maryland would have five representatives and Delaware the minority two.

The program would include all of Delaware in a potato production area with nine Maryland counties, who receive considerably more acreage allotments than Delaware.

Ernest Zimmerman, president of the Kent County Potato Growers Association, said, "Such marketing controls would not hurt Maryland potato growers, because most of their acreage is covered by price support, and what potatoes they were told could not be sold on the market, would be sold to the government as surplus. But Delaware's acreage allotment amounts to little. For all of Delaware there are only 400 acres allowable for government price supports, yet in our county alone we expect to produce over 2,000 acres of potatoes this year.

"If Delaware potato growers were told that they could not market certain grades of potatoes, the farmers could do nothing but dump them, for without acreage allotments they could not be sold to the government."

The association claims that the entire marketing agreement is designed to prevent Delaware potatoes—an industry which has boomed in the past two years in this state—from competing with Maryland potatoes on the market. They point to a statement made by a PMA official in reporting on the necessity of such a program. The official reported:

"The trend toward increased potato production in Delaware will intensify competition with potatoes grown in Maryland portions of the production area."

Last September at a meeting called in Salisbury by a committee which "supposedly" represented Maryland and Delaware potato growers, the question of the marketing agreement was first introduced. It came as a surprise to the Delaware growers, who went to the three day parley to protest against such agreements. But the Delaware protests evidently were not recognized by the Agricultural Department field men who directed the meeting. In a report on the meeting, the Production and Marketing Administration said that potato growers from both states found such an agreement necessary.

In a more recent move, the Kent County Potato Growers Association has appealed to the U. S. Department of Agriculture to table the proposed agreement, at least until the entire nation is placed under such a plan as well as the countries from which the U. S. imports potatoes.

"Delaware farmers sell almost

all of their potatoes under the hard and just laws of free enterprise, while a majority of the Maryland growers are pillowed against loss by the Federal Government," the appeal to the agriculture department said.

The Kent County growers have also sent letters to Sussex County growers, whose acreage allotments have been almost totally turned over to the Kent counties by the PMA as an appeasement measure. "We certainly did not ask for your allotment. We have no intentions of using this allotment. Why these officials should see fit to take your allotment away from you growers who have participated in their program for many years and put it some place where it will not be used, we do not know."

The stable of Lloyd James, of Cambridge, will be heard from during the approaching harness meet of the Kent & Sussex Racing Association here; as it has been heard from in previous meets. The fifth annual spring session starts Wed., April 26, for 20 nights of pari-mutuel harness racing under lights on one of the East's fastest tracks.

The Marylander, now 60, who

has been training here since boyhood, has his old favorites, with some new ones to boot. Outstanding among the newcomers is a bay stallion, Mighty Boy, with a mark of 2:05 on the pace and 2:09.2 on the trot. The double-gaited son of Volomite raced on the Grand Circuit last year as a four-year-old. He was purchased last fall at the Harrisburg sale by Mr. James and W. E. Hurlock and will race here.

Also bought at the sale were a couple juveniles, Mary Rosecroft, a bay filly. The trotter is two years old and is by Symbol Gantle. The other youngster, also a trotter, is Frank Woodley, a two-year-old bay stallion by Volstadt.

James is hoping to race Honor Direct, a three-year-old green pacer, here. The sorrel stallion is by His Honor.

James has four campaigners familiar to peninsula fans. Glen A., 2:13.2, is a seven-year-old bay gelding by Jack the Ripper, he trotted to the front last year to return \$2116.50 in 21 starts. Chief Modoc, a five-year-old sidewheeler by Chief Abbedale, returned \$1797.50 in 22 starts for owners, Farlow and James. Mary D. made her mark of 2:09.3 here last spring. A trotter, the eight-year-old bay mare by Guy McKinney, realized \$3177.50 last year in 13 starts.

Bertha Rosecroft has great promise. The trotter, a brown filly by Long Key, is only four years old and has a mark of 2:10.2. She did well last year as a three-year-old, garnering \$2114.64 in 21 starts.

Farmers are plowing and turning under the green cover crops that have made the fields beautiful all winter and spring. It is like someone waves a magic wand and in a day they were transformed to a monotonous bare earth. But we know the crops will be planted soon and yield more bountifully, and the fields will soon be green again.

Pasadena Pace Has 16 Entries

The \$5000 Pasadena Pace, first Saturday stake feature of the 40-day Western Harness Racing Association opening April 21 at Santa Anita, drew 16 nominations. General Manager Bernard Kearney announced today.

The one-mile test for 12-class sidewheelers, to be raced on Saturday, April 22, has eight candidates for the \$50,000 Golden West Pace on June 17 on the list of eligibles.

The Pasadena will mark the four-year-old debut of Prince Jay, who almost defeated Good Time last fall in the \$10,000 Western Pace for sophomores. Sol Camp's rangy pacer is considered an outstanding prospect in the aged ranks, and many horsemen predict he will outshine Good Time, Harness Horse of the Year in 1949, this season.

Prince Jay is the speediest candidate for the Pasadena with a record of 2:01 and a clocking of 1:59 3/5 when he was defeated by Good Time in the Western. Close behind him are Wilmington Direct and Patchen Axworthy, both of which hold 2:01 2/5 marks for the mile distance, and Golden Broom at 2:01 3/5. These four along with Highland Ellen, Lana Direct, Paul R., and Tommie Mc are Golden West eligibles.

The record for the Pasadena, 2:01 1/5 by Hayes Hanover last fall, may be bettered by the current field as the Santa Anita racing strip is the fastest sulky track ever available here.

The nominees: Eddie Siskiyou, Golden Broom, Hal J. Highland Ellen, Irish Hal, Lana Direct, Larry Chief, Levi Watts, Patchen Axworthy, Paul R., Prince Jay, Roddy, Super Hal, Tommie Mc, Wilmington Direct, and Windy Scratton.

I am quite sure that his experience in show business in the city of Milford over the past years and his knowledge of the entertainment desires of theatre-goers in this section will add greatly to the type of presentation offered."

In an interview with Mr. Evans regarding his new position, he said: "I am very happy to again become associated with the Schine organization particularly at a time when a wonderful array of new product is being offered to the movie-going public. The motion picture industry's new slogan of 'Movies Are Better Than Ever' is not just an idle phrase."

Mitchell Compares Cancer to Weeds

Cancer in the body was compared to weeds in a hay field in a statement issued by Paul W. Mitchell, of Hockessin, Master of the State College, and Chairman for Agriculture in the 1950 Delaware Cancer Crusade.

He said that cancer chokes out normal human tissues and replaces them with a wild and deadly growth, like weeds choke out a good field of hay.

"If not checked early, cancer like weeds of the field will devour nourishment intended for healthy growth and cause normal tissues to waste away," Mr. Mitchell declared.

To combat this, he said, something must be done quickly. Two methods of fighting weeds, he said are to pull them out or to burn them out. These methods he compared to the methods of treating cancer by surgery—similar to pulling out the weeds—and by the use of x-ray and radium radiation—similar to burning out the weeds.

Mr. Mitchell also pointed out that A. S. Goss, Master of the National Grange, has praised the cancer education work among farm people accomplished by the American Cancer Society.

He quoted Mr. Goss as saying: "We commend the American Cancer Society most highly for the work it has done to inform the people of the danger signals of cancer."

"Probably the hardest people to reach with health information are farmers. So we are very glad that the American Cancer Society has made special efforts to bring their message to farm people."

Ten-Ton Tomato Contest Open For 1950

Ten tons of tomatoes per acre? It can be done, says Robert F. Stevens, extension horticulturist at the University of Delaware. He invites Delaware tomato growers to enter the 1950 Ten-Ton Tomato Contest, which is open to anyone who grows three or more acres of tomatoes.

The contest is sponsored by the Delaware 10-Ton Tomato Club Committee in co-operation with the Delaware Agricultural Extension Service, for the purpose of stimulating interest among growers in better cultural practices.

All growers with a yield of ten tons or more per acre will receive a framed certificate in recognition of this achievement. Farmers producing the three highest yields in each of the two classes (3 to 8 acres, and 8 acres and above) will receive prizes in addition to the certificates.

To acquaint growers with details of the contest, a leaflet has been prepared and may be obtained from county agricultural agents or from the Extension Service in Newark. Listed in the leaflet are ten points to remember in striving for the 10-ton per acre goal in 1950. Briefly, they are:

- 1. Select good soil. 2. Plow under a good cover crop with manure. 3. Plow under 500 to 1200 pounds of 5-10-10 fertilizer shortly before planting. 4. Grade your plants. 5. Space the plants to allow 12-16 square feet per plant. 6. Plant early and use starter solution. 7. Practice shallow cultivation and control weeds. 8. Side-dress 2-6 weeks after transplanting. 9. Control insects and diseases. 10. Pick the crop promptly.

THE MASTER'S INVITATION

Matthew 11:28-30—"Come unto me, all ye that labor and are heavy laden, and I will give you rest. Take my yoke upon you, and learn of me for I am meek and lowly in heart: and ye shall find rest unto your souls. For my yoke is easy and my burden is light."

This is a wonderful invitation. Let us notice first, the one who gave this invitation. The Lord of all the Earth! Genesis, the first book of the Bible states "In the beginning, God created the heaven and the earth. And the earth was without form and void and darkness was upon the face of the waters. And God said, Let there be light: and there was light."

The text says "Come unto me, all ye that labor and are heavy laden and I will give you rest." Oh! how everyone needs this Holy One in their lives to guide and to bless them.

When waves of troubles roll
And you need a friend to help you
Yes there's One, only One
The blessed, blessed Jesus, He's the One
When afflictions press the soul
He is the One.

When waves of troubles roll
And you need a friend to help you
Yes there's One, only One
The blessed, blessed Jesus, He's the One
When afflictions press the soul
He is the One.

Friends may forget us and we have to walk alone, yet if we will call upon Him, He will help us and answer our prayers. If there are sins in your life, confess them to Christ. He will forgive you and give you peace. I John 1:9 declares "If we confess our sins, He is faithful and just to forgive us our sins and to cleanse us from all unrighteousness."

This invitation is as broad as the world. The word says "whoever will may come." This includes the rich, the poor, the high, the low, the learned and unlearned. The Great Commission was placed upon the early church "Go ye into all the world and preach the gospel to every creature."

This invitation is as deep as man's needs. The word says in Phil 4:19 "But my God shall supply all your need according to His riches in glory by Christ Jesus."

This invitation is high as the highest heaven. Jesus said in St. John 14:2 & 3—"In my father's house are many mansions, if it were not so I would have told you. I go to prepare a place for you, I will come again and receive you unto myself that where I am there ye may be also."

Well to stop that worrying and bring your kitchen up to date, let us install a gas range for you for \$89.75 with a full size oven and oven control.

This will help you to start putting that kitchen of yours up to date.

Did you ever stop to think of the days when horses and buggies were the modern things? What would you think today of seeing a few horses and carriages in front of a church on Sunday morning? It is almost as bad when your company drop in your kitchen and find you using an old oil burning stove for cooking. Let us install a glistening white gas range and then you will be proud to invite your company into the kitchen for a little snack.

Again in that same kitchen you can also have a glistening white inside and out refrigerator that has the freezer all the way across the top.
