## School Attendance Law May Be Changed In Future

Following a recommendation by the Unified School Legislation Committee, the State Board of Education will submit a request to the Legislature to change the compulsory school attendance period to 180 days. Dr. George R. Miller, Jr., State Superintendent, announced today.

Schools in Delaware are in session for 180 days, Dr. Miller stated. Our compulsory attendance laws, however, list 100 days to 160 days. This means that in some instances that a child may miss 80 days out of a school year and still be within the law. The proposed amendment would bring the compulsory attendance law of Delaware up to the present practice of keeping the schools open for 180 days.

Dr. Miller also stated that the present law which permits necessary and legal absences of pupils in the public schools will not be changed by the proposed amendment. Children between 7 and 14 years should be in school unless they have been excused. To attend only part of the year is an infringement on our obligation to the boys and girls of the State.

A headline in the Wilmington Sunday Star said: "PTA to Hear Reading Tips." A wild-eyed Harrington follower of the hosses glanced at the headline and immediately rushed up to Reading, Pa., to find out which hoss was going to win the feature race at Yonkers.

William J. Schell, bachelor, 84, died this week at Pittsford, N. Y., leaving an estate of \$201,424. He died alone in a ramshackle farmhouse without electricity or running water. William J. Schell was a pauper.

FREE ENTERPRISES?

We have a member of the Harrington Rotary Club for many years and we believe that, man for man, Rotary will measure up with any organization in the world. It is the proud boast of the Harrington Rotary Club that no man has ever been permitted to make a political speech at a meeting of the club.

Rotary International's creed forbids political speech-making under the auspices of a club. Although we are not familiar with their constitutions, we are of the opinion that other fine service clubs, such as Lions, Kiwanis, Exchange, and Civitan, have similar rulings. We know of only two clubs where these principles are ignored—there may be others in other sections of the country—and both of these are in Delaware. It is to be deplored that service club members who have, year after year, given valiant effort to better the conditions of mankind, should forget their high ideals when once they become inoculated with the venal virus of politics.

One club extended invitations to clubs in other towns to visit it to hear J. C. Penney, head of the Penney chain stores. We didn't attend that political meeting because we knew that Penney was going to talk about "Free Enterprise"—and he did.

Let's see what Drew Pearson has to say about Free Enterprise Penney:

"Gwinn's bank (Gwinn is congressman from Westchester County, N. Y.) the City National of Miami, was forced to close because of poor management, leaving some 5,700 depositors holding the bag for \$5,996,970.02.

"Depositors finally recovered about half of this but they had to fight the case through the courts for over 10 years to get even this from Gwinn and his senior partner in the bank deal, J. C. Penney, the chain-store king.

"Since many of the depositors and stockholders in the bank resided in New York, the suit wound up in the New York courts. The official records sizzle with criticism of Gwinn and Penney. Federal District Judge John Clark Knox of New York (Southern District) handed down a decision, describing the Penney-Gwinn bank failure as:

"... A story of neglect, poor judgment and erroneous policy that is at once amazing and startling. Reports upon the bank's condition, its profits, losses and commitments, went regularly to Gwinn. Other details of management were under his supervision and direction."

"The court record shows that even when the Miami bank was on the brink of failure, Gwinn continued to make demands on it for money for his and Penney's enterprises. After receiving a letter from the bank's vice president stating that a request by Gwinn for a \$110,000 withdrawal 'would leave our cash much too low and would cause comment among our own employees,' Gwinn wrote back on July 16, 1929:

"I trust you can work out the \$110,000 at the earliest possible moment."

"At this time the bank already was defaulting on its payments. Nonetheless, Penney sent a telegram to allay the fears of Miami depositors, stating: 'Impress on our depositors the fact that ample funds are available to meet any demands that may be made upon us.'"

Letter to the Editor

Dear Editor:

I seldom write for the papers, and only a matter of the utmost importance prompts me to send you this poor effort.

Inflation is getting worse and it begins to hit us where it hurts. I suggest that we appeal to the Delaware contingent in congress to become vocal in its efforts to combat this condition.

I realize that prices must be some higher than they were a few years ago—that, I suppose, is necessary, but it is not necessary for sellers to become hog-wild in upping their prices. Beef, pork, lamb, veal, hamburger, chickens, turkeys, hot dogs, vegetables and fruits are selling at more than twice their real worth. I grumble a little about such outlandish prices, but very little, because I realize that we can cut down on our consumption of most of these items and even do without them altogether, although it would require some will-power to do so.

But I do deplore the dastardly custom put into practice by the villainous profiteers this last Saturday. Such an act should stamp them forever as among the biggest scoundrels upon the face of the earth. They raised the price of beer five cents per can. The cheaper beer now sells for twenty-five cents and the three beers of national reputation for thirty cents. Such outrageous action is enough to shake our beloved nation to its very foundations. It's tough enough when they raise the

price of luxuries out of the reach of the average man, but when it becomes necessary to raise the price of the necessities of life five cents per can, that is the most unkind cut of all. Humid Horace In Shack No. 8 On the Dump South of Wilmington, Del.

Woody Herman Band Coming To New Milford Stage in Person Sunday

Patrons of the New Milford Theatre have a big weekend of stage entertainment in store for them... the "Flying High Revue" on Saturday... and Woody Herman and his famous band on Sunday.

show packed with laughs, fun, dancing and music. The cast includes rollicking comedian... Bob Foster; lovely songstress... Edyth Smyth; and that musical team... Hanlon and Clark. The whole family will enjoy this hilarious revue filled with top-notch entertainment. The screen program features Gene Autry in "Indian Territory."

And on Sunday the name of Woody Herman will be added to the growing list of big name bands to play the New Milford stage. Going on the stage at the age of nine, Woody was called the "Boy Prodigy of the Saxophone," and astounded the music world of that day with his superb technique. After being in vaudeville for many years, Herman yielded to the temptation of joining a name band. He formed his own band in 1938 and has built it into one of the top bands in the nation. When musical pictures with name bands became the vogue in Hollywood, Woody was the answer to a producer's prayer. A modern song and dance man... good to look at... and he could act! He appeared with his band in many hit musicals including "Wintertime," "New Orleans" and "Earl Carroll's Vanities." Their recordings for Columbia and Capitol have been very successful, as has their many appearances on major radio and television shows.

Hughes X-Roads

As one of our boys, Wm. R. Johnson is a great ball player, we are going to write baseball news this week.

The Viola ball club, under the wise management of Ernest "Joe" Moore, came through the season in fine fashion by winning the third and final game from Felton by the score of 5 to 3. Pitching Viola to victory was the hefty right-hander, Bill Biddle, who showed winning form throughout the whole game. Also hurling fine ball but receiving the loss, was Rothermel, Felton right-handed hurler. After scoring three runs in the third inning of play, Felton failed to tally again. Viola's runs came in the fourth and fifth frames with two Felton errors paving the way. The season marked the end of a season of keen competition from all participants. Let us hope that next year we may again see as good a brand of baseball as has been played this year, with not so much jealousy and with an ever better display of sportsmanship from four performances. Local Farmer Suggests Legumes for Green Manure

Walter Harrington, of Dover, highly recommends the practice of plowing under a legume crop before small grains or corn, according to Bill Tarbell, Kent County agent.

This spring Mr. Harrington plowed a crop of red clover under on his corn ground. He is convinced that the extra nitrogen provided by this clover made his corn yield higher than it would have been if he had not used a green manure crop.

Harrington's recommendations to other farmers are that a good legume sod be plowed under somewhere in the rotation system. Coupled with 200 to 400 pounds of a commercial fertilizer such as 3-12-6 or 0-12-12 will bring about continued high yields of small grains and corn.

How Local Farmer Controls Insects in Stored Grain

The smallest, quietest, and meanest thieves in the grain bin are the insects, according to Arthur F. Walker, a farmer from Woodside.

"Insects in farm grain bins ruin more than 5 per cent of the grain every year. They cause an estimated yearly loss of 300 million bushels of grain. I tried to keep from sharing in that loss this year by treating my Nu-Del wheat for seed stock before I had any sign of insects," said Mr. Walker.

Walker used a fumigant which is recommended by County Agent William Tarbell as one of the safest and best grain fumigants.

Ellendale

Mr. and Mrs. Robert Workman, of Chester, Pa., and Miss Elizabeth Spicer were Sunday guests of Mrs. Elsie Van Kirk.

Farm Social Security Information Now Available At County Office

Information on the new Social Security legislation affecting farm workers is now available at the County Extension Office, Dover, announced Kent County Agent, William Tarbell today.

This information, in the form of a concise fact sheet is put out by the Federal Security Agency. Just three pages long, it tells in a nutshell just how each type of farm worker is affected, and what he has to do to register, said Tarbell.

This new legislation for social security for farm workers will start taking effect as of January 1, 1951. The Delaware State Extension Service suggests all farmers should know how they stand before this date.

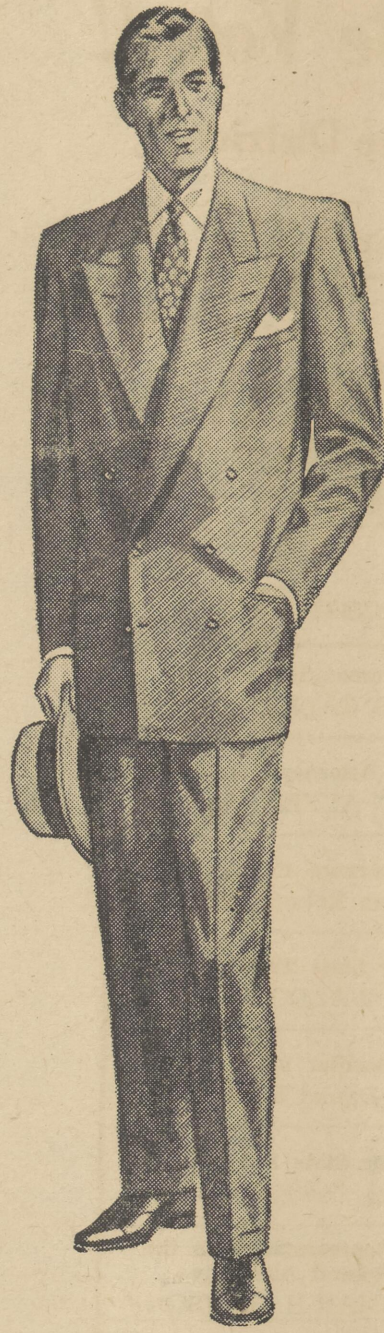

Write, call, or stop in at the County Extension Office for a copy of "Your new Social Security."

Felton 4-H Club Member Awarded Rotary Club Gift

Elmer O'Day, a 4-H Club member from Felton, has been chosen by the Dover Rotary Club to receive a pure bred female pig as the beginning of its county hog improvement project. The service club will pay registration fees and vaccination costs. O'Day, in turn, will raise the gilt, and pass on two of its young female pigs to future 4-H cooperators.

O'Day is eleven years old, and a member of the Paradise 4-H Club. He was selected as the most deserving from 13 applicants by a committee of William Richter, Dover, representing the Rotary Club; Charles Bostick, Felton, representing 4-H Club leaders; and Miss A. Margaret Webb, County 4-H Club agent.

The Hampshire pig is to be fed a balanced ration, and O'Day has agreed to follow sound hog raising practices. The committee will select a pure bred boar by which the gilt is to be bred, and will pay all expenses. But turning over one gilt pig from each of the first two litters, O'Day will help keep the project going.

# Instructions To Voters!

## HOW TO OBTAIN BALLOTS AND ENVELOPES FOR VOTING:

It shall be lawful for any voter to secure a ballot at any time from the Chairman of the various political parties or from any other source whatsoever, and to mark the same at any time and at any place before voting the same, and to carry the ballot which has been marked to the designated polling place in the election district of which he or she is a registered and qualified voter and there vote the said ballot.

## HOW TO PREPARE THE BALLOTS FOR VOTING:

After a voter has obtained a ballot he or she shall indicate his or her choice of candidates by marking the ballot with a black or indelible pencil or black crayon. This is to be done as follows: When an elector desires to vote a straight ticket, that is to vote for all the candidates of a party appearing in the party column on the ballot, he or she shall place a cross mark or "X" within the square at the head of the party column containing the names of such candidates. In the event that an elector does not desire to vote for all of the candidates whose names appear in any party column, he or she shall place a cross mark or "X" in the square at the left of the name of the candidate for whom it is desired to vote, and he or she may also scratch out the name of the candidate for whom he or she does not desire to vote.

If the elector shall place on the ballot a cross mark or "X" within the square containing a party designation at the head of the column, he or she shall be deemed to have voted for all the candidates whose names appear in the column under such mark, unless some name or names shall be erased or unless in some other column a "X" mark shall have been placed in the square at the left of the name of some other candidate for the same office.

When the voter shall have a mark against two or more names for the same office, the voter shall be deemed to have voted for none of them, and the ballot shall not be counted for either candidate, but shall be counted for such other candidates as it is the evident intention of the voter to vote for.

If any name be written on any ballot the ballot shall be void and not counted.

When the elector shall have made a mark in the square at the left of the name of a person in the proper place, the elector shall be deemed to have voted for that person, although said elector shall have omitted to erase or scratch out the name printed in any other column for the same office.

A ballot put in without any mark shall not be counted, and a ballot not marked at the top shall be counted only for the person for whom the marks thereon are applicable.

## DEPOSIT OF BALLOTS IN ENVELOPE

When an elector is ready to vote, the said elector shall enter the passage way, and after being passed by the challengers, shall be admitted to the election room; provided, however, there shall not be in the room at any time more than one voter for each booth therein, exclusive of the election officers. On entering the room the voter shall announce his or her name to the Clerks of Election, who shall register it, and one of the Clerks shall deliver to said elector an envelope and ballots. The voter may then, and without leaving the room, go alone into any of the booths which may be unoccupied. If said elector has already procured the Official Ballots and marked them as he or she desires to vote, they must be placed in the envelope, or if said elector has not already prepared the ballots he or she may use the ones handed him or her by the Clerk. After having placed the ballots in the envelope, the elector must then deliver the same to the Inspector or to the Judge who may be temporarily authorized to act for the inspector.

The voter shall immediately after voting leave the room. No voter to whom an envelope has been delivered shall be permitted to leave the room without voting or returning said envelope to the Clerk of Elections.

Put the ballot in your envelope; if any envelope shall be found to contain more than one of each ballot authorized by law to be voted at any election, none of the ballots therein shall be counted.

## HOW TO OBTAIN EITHER A NEW BALLOT OR AN ENVELOPE OR BOTH IN PLACE OF EITHER OR BOTH ACCIDENTALLY DEFACED, MUTILATED OR SPOILED

Any person who shall by accident or mistake spoil, deface or mutilate a ballot or envelope, on returning the spoiled ballot to the Clerks of the Election and satisfying them that such spoiling, defacing or mutilation was not intentional, shall

receive another ballot or envelope or both in place thereof.

Any person who shall be physically unable to prepare or fold his or her ballot, or deposit the ballot in the envelope, by reason of defective eyesight, or the loss of the use of one or both hands, or inability to walk with safety without assistance, as manifestly renders him or her unable to prepare, fold his or her ballot, or deposit the ballot in the envelope, or to reach the polling place alone with safety, shall be permitted to bring with him or her into the election room and booth any elector or two electors, if the nature of the disability manifestly requires more than one, such as a total disability to walk to the polling district for the purpose of rendering the necessary assistance to vote.

1852. Sec. 43. ELECTION OFFICERS; INDUCING TO VIOLATE PROVISIONS OF CHAPTER; MISDEMEANOR; PENALTY; DUTY OF INSPECTOR TO READ TO ELECTION OFFICERS SECTION 42 AND 43; VIOLATION OF PROVISIONS OF A VIOLATION OF OFFICIAL OATHS;

It shall be the duty of each Inspector to distinctly read the and the preceding section to the election officers, the opening of the polls. The observance of the provisions of said two sections by election officers shall be held and construed to be included in the duties of the office of said election officers and the violation of said provisions by election officers shall be held and construed to be a violation of their official oath, provided in this Chapter.

### WHEELER RADIO STORE NEWS

In looking around my desk for something to write you about, my eyes fell on several letters and these letters say higher prices on televisions, radios, washers, refrigerators, washer parts and wall paper. In fact most anything that you want to buy now is higher in price.

Of course lots of these prices are caused by higher taxes to the makers, raw goods and etc. When you stop to consider the better way of life and the reason we have to pay these higher taxes or prices as you might say, we are getting off pretty lucky at that. You know Uncle Sam is always on the alert for our good and that is done only by taxes.

If you are considering buying anything in the line of electrical appliances, stoves or anything made of steel or iron; don't look for lower prices but look to someone who has the goods that is the most important part just now.

We try to maintain a supply of goods that the people want and I have been fortunate enough so far to get a just share of the items I sell to pass along to you.

Our stock of TV's is not as large as I would like to have but I still have a few 16 inch models and have already placed several this past week. Of course Philco has the seventeen inch tube for you and my advice is as I said before, to get a TV, get your order in now. Get a Philco known for quality the world over.

Are you prepared for these cold brisk nights which we are bound to get? I can help you along the line of keeping that dreadful man away if you see what I have on display.

I also have a few electric heaters just the thing to take the chill off that room this time of year or to heat that bathroom so you can lay back in that tub and relax.

Just received another shipment of Perfection Gas ranges just ahead of the price rise. These will be marked as bought at the old prices, so if your money is allotted then I have plotted this just for you.

Did you know that when we sell you a roll of ceiling wall paper that the man who made it loses on every roll? Well it is true never the less and to think now with extra cost of wall paper our ceiling sells for only 35c, not a single, but a double roll. All our wall paper is marked so we can sell it to you just as low as we possibly can.

Don't forget we sell bottled or metered gas and would be pleased to serve you even if you purchase your stove elsewhere. It is Essotane and that means a gas of quality, none better. Wheeler's Television Center, phone 541.

### Willow Grove

A short time ago we received a post card from one of our local young ladies attending college in Pennsylvania and we intended to send an excerpt from it in our next letter; the card was carelessly misplaced therefore we cannot fulfill our thought but we can say we are pleased to have been remembered by one of our younger set, especially when we are considered and rightfully, among the older folks.

The young lady heretofore mentioned, Miss Geraldine Nichols was a visitor among us Sunday. We hope she had a safe journey back to Lebanon Valley.

Mrs. Charlie Shulties is still confined in the Milford Hospital, suffering from a broken leg caused by a fall in her home. Her condition is critical and does not improve.

William J. Cubbage and children, of Harrington, were local visitors Saturday afternoon.

W. O. Cubbage spent the 7th and 8th of this month in St. Georges and the old Wickwire estate in Cecil County, Md.

Since my last letter I attended the funeral of Elder B. E. Cubbage, pastor of Cow Marsh Old School Baptist Church. Elder Cubbage, if my information is correct, was born in our village 77 years ago, the seventh child of Benjamin Cooper Cubbage and Elizabeth Meredith Cubbage.

Rev. G. L. Taylor's family, father, mother, brother and sister-in-law of Federalsburg, also his sister and brother-in-law of Baltimore, were at the church services Sunday morning.

Revised services have begun in our local church every night of the week excepting Saturday. The services are in charge of the Rev. Hollis Pistole, of Marbury, Md.

We are very pleased to note Mrs. Charlie Shulties is resting much easier today.

### Teachers' Absences To Be Considered

The State Board of Education has approved a legislative proposal of the Unified School Legislation Committee to unify the provision for teacher absence due to sickness or death in the family, according to a statement made today by Dr. George R. Miller, Jr., State Superintendent.

At the present time there is no uniform plan for teacher absence, Dr. Miller stated. The state board unit follows a policy of 10 days sick leave cumulative to 20 days. Each special district has a separate plan.

The approved recommendation was in two parts, Dr. Miller added. The first would delete the words "because of sickness or quarantine" from the current law (2630, Sec. 8 (m)) relating to the powers of the State Board of Education.

The second portion of this recommendation relates to a policy adopted by the State Board of Education. The policy allows 10 days sick leave per year cumulative to 40 days, Dr. Miller stated.

It will be necessary to secure adequate funds in the budgetary appropriations before this policy can be put into effect, Dr. Miller emphasized. Without funds to secure substitute teachers it will be impossible to administer this policy, Dr. Miller added.

The policy adopted by the State Board of Education which will be put into effect when sufficient funds are appropriated include these provisions:

(1) This policy shall be administered by the local districts from funds allocated to the State Board of Education for the State Board Unit districts, from funds allocated to the Special Districts, and from the funds allocated to the Wilmington district.

(2) This policy shall provide allowed sick leave or absence due to quarantine without deduction in pay for 10 working days each school year.

(3) This policy shall include the provisions that such unused leave be cumulative to 40 working days.

(4) This policy shall include the provision that leave accumulated in the State of Delaware shall be credited in full and transferred with an employee within the State.

(5) This policy shall include the provision that all absences be reported in writing to the local administrator. In case of illness, this report shall be accompanied by a physician's certificate at the discretion of the Superintendent in the cases of the Special Districts and the Wilmington District and by the State Department of Public Instruction in the cases of State Board Unit districts.

(6) This policy shall include the provision that if an employee is absent because of death in the immediate family, leave not to exceed five working days shall be allowed and not charged against cumulative leave. The term "immediate family" shall be

### 1950 Corn Support Price Announced

The 1950 price support rates for farm stored crop corn was announced last week by Ernest S. Mattiford, Delaware State PMA Committee chairman.

The support price for crop grading U. S. No. 3 or better, or No. 4 on test weight only, is \$1.61 per bushel. This is four cents above the 1949 support price of \$1.57 per bushel.

Acreage allotments for corn weren't in effect last year, and the support price was mandatory for all producing areas at an average national rate of \$1.40 per bushel.

This year acreage allotments are in effect in "commercial" areas with support at 90 percent of parity level. For "non-commercial" areas, the law limits support to only 75 percent of this rate. Delaware is in a "commercial" area so the support price of \$1.61 per bushel applies in the state.

Under the 1950 program, loans and purchase agreements will be available to farmers through the county PMA offices.

The 24-year-old son of Peter Volo is owned jointly in Lexington, Ky., by The Walnut Hall Farm and The Walnut Hall Stud. For the past three years he has stood for service at a fee of \$5000, highest in the history of the sport.

### Twenty Years Ago

The Student Council of the Harrington High School was organized with the following officers: President, Wendell Stuart; vice-president, Marian Simpson; secretary, Jane Reed; faculty advisors, Ira M. Staley and J. O. McWilliams.

Fire was discovered in the two-story concrete Slaughter building at 3:00 o'clock and before the firemen could get to the scene much damage was done. The fire seems to have started in the rear room of the lower story, used until a few weeks ago for automobile storage, but the upper story was also badly damaged. The fire was plainly the work of an incendiary, as many cans of gasoline were discovered between the walls, both upstairs and downstairs, and rubbish, sprinkled with gasoline, was also discovered.
