Rash Will Run Again For Mayor; 2 Council Posts Must Be Filled

Councilman Harrington to Run Again If Nominated, But Austin Is Not A Candidate

Mayor E. B. Rash will run again for office at the municipal election Tues., Jan. 9, it was disclosed today. As the Journal goes to press, there is no indication he will be opposed. Two councilmen will also be elected.

A meeting of the electors, or voters, of Harrington will be held next Friday at 7:30 p. m. at the Firehouse to nominate a mayor for one year and the councilmen for two years. Written petitions, signed by not less than 10 and not more than 25 qualified voters from the ward in which the nominee resides, will be considered, and only those nominees will be eligible candidates.

Reports concerning the business of the city for 1950 will be read, as well as plans for improvements to be made.

Mayor Rash was appointed by the City Council the first Monday in March to serve as mayor until the approaching election. This procedure was made necessary when Mayor Charles Peck Jr. moved outside the city limits. In such cases, provisions call for the appointment of a mayor by the City Council, to hold office until the next election, when a candidate shall be elected to serve out the unexpired portion of the previous mayor's normal two-year term. Thus, the successful mayorality candidate, at the coming election, will serve but one year. In 1952, the normal year for the election of a mayor, the successful candidate will be elected for two years.

Councilmen will be elected in January from the Fifth Ward and the Sixth Ward. H. C. Austin, councilman in the former ward, says he will not run but has a candidate. Leonard Harrington, councilman in the latter ward, has indicated he will run again if the electors want him.

Methodists to Pray For Peace

Local Methodists will join Sunday with the denomination's nearly nine million members in a national mid-century prayer for peace, it was announced today by the Rev. J. Harry Wright, pastor of Asbury Methodist Church.

He said the call to special prayer was sounded by the Methodist Council of Bishops and the church's General Board of Evangelism in view of the "exceptionally grave condition of the world today."

In a letter to pastors of 42,000 Methodist Churches, the board urged every congregation to unite in "a chain of prayer on Mid-Century Sunday, beseeching God's guidance in converting a world crisis to a just and lasting peace."

Declaring that "mankind's hope for freedom is in desperate jeopardy," the plea for prayer coincided with a similar request by the president of the new National Council of Churches, Episcopal Bishop Henry Knox Sherrill, of New York. He urged all Protestants to offer prayers on Dec. 31 for "a peace which is the fruit of righteousness."

The letter to pastors, stressing individual and group participation, stemmed from the following call by Methodist bishops:

"With a sense of deep urgency we call our fellow Methodists and all others who will to join us in special prayer.

"Let us pray daily for the leaders of our country and of the United Nations, that God will give them wisdom and courage to seek and to do His will.

"Let us pray for all who are under the shadow of war; for those who do battle for us... the homeless, the hungry, the children. Let us pray for our enemies that God may lead them in the way of righteousness and peace."

Railroad News

The shiny Budd diesel car parked on the west siding several days last week added a lot to the holiday atmosphere around the station. It was here to continue running tests over the accurately marked stretches of high speed territory between here and Bridgeville.

To answer some of the questions asked about the car we quote the following from the engineers in charge of the tests:

Top speed, 85 miles per hour; weight, 129,000 pounds; length, 83 feet; cost, \$113,000.

While this car has approximately the same over-all dimensions as the one tested out here last year, it is a combination passenger, baggage and mail car, while the other, known as the RDC-1 was a passenger car only, with seating capacity of 91.

Authority was received last week to install automatic crossing gates at Cheswold and the material is now being ordered. It is unfortunate that this crossing could not have been taken care of sooner and saved the two lives snuffed out there Wednesday night when train No. 452 struck an automobile.

Wade Mitchell has a crew of the Boney Construction of Norfolk, Va. working on Laurel drawbridge stabilizing the south pier. Marion Brown has been pinch hitting for Ollis Stokes on this job. Ollie was laid up a couple weeks for boiler wash but is now back on the job showing slight signs of wear and tear but moving under his own power.

Fred Bailey's crew is also located at Laurel where they will soon have completed the installation of crossing gates and flasher signals at Market Street crossing. Signal Helper Martin Dill, in Fred's gang, was inducted in the Army last week and was presented by the crew, at a dinner held in the camp train, with a beautiful traveling kit. Martin is the first of the T&S boys to be taken into Uncle Sam's crew and he left with the well wishes of all the boys he worked with.

Legionnaires to Play Lewes Here Thursday

The Legionnaires' basketball team is scheduled to play Lewes here Thursday evening at the high school gymnasium. The team was idle this week.

Federalsburg traveled to Georgetown last Thursday, however, to give the league-leaders their first defeat of the season, 78-73. Dick Hallowell's 22 points set the pace for the winners.

Denton defeated Chincoteague at Denton, 59-33.

Five Injured In Auto Wreck

Five persons, including four members of a Greensboro family, were injured in a two-car collision on Route 14, at Marvel's Crossroads, Saturday night. The cars were operated by John R. Brittingham, 63, principal of the Houston School, and Albert R. Collison, 22, of Greensboro.

Brittingham received bruises of the chest and shoulders. Passengers in the second car injured were: Joyce Phyllis Stubbs, 15, fractured left leg and face lacerations; Dorothea Lee Collison, 20, fractured left hip and contusions; Marie Stubbs, 43, lacerations of the scalp and over the left eye, and Elmer Stubbs, 45, bruised chest. They were taken to the Milford Memorial Hospital.

Keller Named Highway Aide

The State Highway Commission, meeting in Dover Thurs., Dec. 21, appointed Harold H. Keller, Laurel, as state motor vehicle commissioner. He succeeds Henry E. Koster, Laurel, who resigned recently.

M. Allan Wilson of Dover was reappointed chief engineer, and Leroy F. Hawke, Wilmington, secretary of the Highway Department.

Col. William A. McWilliams was promoted from associate director of the Delaware River crossing division, Highway Department, to the position of director.

He succeeds W. W. Mack, former director of the division, who retired on Dec. 13, at the age of 70, compulsory retirement limit under state retirement regulations.

Colonel McWilliams is a former division engineer of the Highway Department for Kent County; former superintendent of the state police, and also served as chief engineer of the Highway Department in 1946 for about a year when he was made associate director for the bridge construction.

He has been with the department for 30 years, except for a four year period of private employment. He served in both World War I and II and reached the rank of colonel in World War II.

The position pays \$10,000 a year. The position of state motor vehicle commissioner carries a salary of \$8000 a year.

Farmers Bank Honors New Castle Tercentenary

The New Castle Tercentenary to be celebrated this year is the theme of the Delaware 1951 Calendar of the Farmers Bank of the State of Delaware.

The picture was drawn again by Mrs. Betty Harrington Macdonald shows New Castle Green as it was in the days of long ago. Mrs. Macdonald has depicted a truly outstanding historical scene. Each year we think that Mrs. Macdonald's calendar exceeds the former years and everybody waits with a great deal of interest for her work. Mrs. Macdonald is the daughter of the former Chancellor of Delaware, William Watson Harrington and is Delaware's outstanding artist and her work in the years gone by for the Farmers Bank of the State of Delaware made a part of Delaware History.

Mrs. Macdonald's first calendar was the old State House, which is now a matter of record in thousands of homes and, incidentally, was used by Governor Carvel as a subject for his Christmas cards this year.

The title of the Delaware Calendar this year is the New Castle Green--most of whose early Trustees were Directors of the Farmers Bank. Under the flap is the following:

This year, New Castle, Delaware is celebrating three hundred years of history. To commemorate this proud event, the Farmers Bank is picturing the Square as it looks in the early days of the nineteenth century. All but one of the buildings in the sketch are still standing.

Known as "The Greene or Market Plain," it was laid out by Peter Stuyvesant, the Dutch Governor, in 1655. Here were held the great fairs, and the weekly markets. It was the soldier's drill grounds and the seat of justice.

In 1772, the Delaware Assembly created the "Trustees of Market Square" and placed this land under a public trust. Prominent citizens served as Trustees, and them James R. Black, Kensey Johns, George Reed, and John Janvier, as well as others, were directors of the Farmers Bank of the State of Delaware.

The New Castle office of the Farmers Bank was one of the original branches when the bank was founded in 1807. It was in existence until 1899 when its business was transferred to Wilmington. During its almost one hundred years, it financed many of the projects which have contributed so richly to New Castle history. Among these were the building of the Town Hall and the Market House, the cobblestone paving of the streets and the New Castle and Frenchtown Railroad.

Fire early Friday damaged the Kel-Art Company manufacturing plant in Milford.

The loss at the Kel-Art plant was estimated at \$9000, which included \$4000 damage to the building and \$5000 to equipment.

The firm manufactured portable baby cribs, and occupied the old Matthews Machine Company building on Maple Avenue.

The blaze was discovered at about midnight. Members of the Carlisle Fire Company found the interior filled with flames.

The firemen battled for more than three hours to bring the blaze under control. Considerable trouble was experienced because the water froze almost as fast as it was poured on the building.

FIRE CALLS
Monday--Chimney fire on the Sharp property on the nine-foot road to Greensboro, no damage.
Saturday--Chimney fire on Harrington-Milford Road, no damage.

Rotarians Hear Denton Minister

"A brilliant Jewish writer said: 'The brutal fact is that the world would be just as well off if some of us never existed.' I was shocked at this statement, but after studying the matter at length, I am convinced that the Jewish thinker is right."

The above is the theme of an address delivered by Rev. French of Denton at the Harrington Rotary Club Tuesday evening. He told of a group of Oxford students who went to hear the famous Dr. Benjamin Jowett lecture. In his lecture Dr. Jowett said that the average person at that time lived about thirty-five or thirty-six years. The students returned to Oxford and discussed the lecture at length. Subtracting the time they would spend in sleep, they determined how many hours the average person would have on earth. It was a very short time and the young men knew they would have to employ their time to the best advantage. Each one of those young men attained eminence.

A great deal can be accomplished within a brief span of life, said the speaker, and he pointed Shelley, the English poet, who died at the age of thirty, but left behind him a priceless legacy of some of the world's most enduring poetry; to Franz Schubert, one of the world's greatest composers, whose music has enriched the world.

On the other side of the ledger were many people who had existed for many years but never really lived, because their only thought were of self.

Warrington Furniture To Give Away \$300 At Reese Theatre
Yearly Feature of Reese Theatre New Year's Eve Midnight Jamboree
It's not loose talk when one says, "You'll meet your friends at the Reese Theatre New Year's Jamboree, Sunday Midnight, Dec. 31st."

With Jingle Jangle Herron and Taps Richardson presenting their Dixieland Jam Session plus Cousin Lee's New Showboat Revue, backed by a bevy of Delaware and Maryland entertainers, it looks as if Delaware and Maryland theatre fans are in for a grand and glorious celebration.

As in the past, Warrington's Furniture, one of the leading furniture dealers of this peninsula, will give away as an advertising feature, \$300 to past and future customers.

Case-Purnell Wedding

The ceremony took place in Avenue Methodist Church, Milford. A reception at Pochontas Lodge followed the ceremony. The couple will reside in Harrington.

Mr. and Mrs. Bazyl Koscielny of near Harrington, announce the engagement of their daughter, Miss Stephanie Koscielna, to Mr. Joseph S. Strachar, son of Mr. and Mrs. Ignatius Strachar, also of near Harrington. No definite plans have been made as to when the wedding will take place.

Miss Koscielna is a former resident of Poland. Mr. Strachar served in the Navy during World War II.

Prizes Awarded In Home Contest

The Bailey Minner residence, on Delaware Avenue extended, received the nod of the judges Saturday evening and brought home the bacon as Harrington's best-decorated home this holiday season.

The Horace Quillen residence, on Center Street, was awarded second prize; the Herman Minner residence, also on Delaware Avenue extended, was third, with the Leonard Masten residence, on Clark Boulevard, fourth.

The Jack Pitlick residence, on Weiner Avenue, winner of first prize last year, was given special mention.

First prize was \$25; second, \$15; third, \$10, and fourth, \$5. Most of those to whom prizes were awarded have usually been "in the money" in the annual contest, a part of the Christmas program headed by the Harrington Better Business Association and aided by other civic organizations and public-spirited individuals.

Judges of the contest were Mayor E. B. Rash, City Manager Grace Wanda Quillen, and Councilman Leonard Harrington.

Legion Solicits Toys For Tots Overseas

Callaway-Kemp-Raughley-Tea Post No. 7, American Legion, will be one of more than 12,000 posts sponsoring the "Tide of Toys" program throughout the United States. The American Legion last year made one of the greatest contributions to international goodwill in a similar program at which time more than three million toys were sent by the children of America to the children of war-ravaged Europe to whom Christmas had been just another bleak day.

So enthusiastically was the program received, and so touching were the responses from the tots abroad and their families that it is expected that this year ten million toys will be collected and distributed. Bing Crosby has accepted the post of honorary chairman and Drew Pearson and Irving Geist, who played such prominent roles in last year's "Tide of Toys," will act as honorary vice-chairmen. Crosby says he will be more than an honorary chairman and has already issued his Christmas proclamation to more than 500 disc jockeys in radio stations throughout the nation, calling on everybody to assist in this extraordinary program which this year also includes the tots of Puerto Rico and the Philippines.

This community did not participate in last year's program and briefly here is the local plan: Every child is urged to contribute at least one discarded toy that is in good shape, as no fragile or broken toy can be shipped. Messages should be attached to each toy and can be a signed Christmas greeting or a letter showing your name and address as it should be remembered that the chief purpose of the "Tide of Toys" is to let the children of foreign lands know that they have real friends in America. Toys can be left at Anderson's Barber Shop and the local legion post will make a house-to-house collection Sat., Jan. 6, beginning at 1 p. m. Toys can be left on front porches, tagged with the donor's name and address. Churches, business and other groups are urged to co-operate in this great program. Local committee consists of Lyman Price and Gooden Callaway.

Funeral services were held Tuesday afternoon from the Carey Funeral Home, Georgetown, for Rufus D. Bunting, retired Pennsylvania Railroad engineer, who died Friday in Milford Memorial Hospital after a long illness.

Surviving are his wife, Mrs. Mary H. Bunting; a daughter, Miss Betty Bunting, at home, and a son, Robert T. Bunting of Holly Oak. He also leaves two sisters, Mrs. R. D. Jones of Georgetown and Mrs. D. H. Reed of Ellendale.

At the funeral services, the Rev. Dr. Omar E. Jones of Seaford and the Rev. J. Harry Wright of Harrington officiated. Interment was in Union Cemetery, Georgetown.

Funeral Sunday For W.A. Smith, Pioneer Citizen

Civic Leader Had Lived 55 Years at Present Address--Active in Many Enterprises

William A. Smith, 86, died at his residence on Commerce Street Wednesday morning after a short illness.

Funeral services will be held at 2 p. m. Sunday from the home of his son, Robert Baynard Smith, Commerce Street, Harrington, in charge of John R. Rogers, funeral director. The Rev. D. T. Pritchard of Trinity Methodist Church, will officiate, assisted by the Rev. George Morris, a former pastor, of Salisbury. Burial will be in Hollywood Cemetery.

He is survived by a son, Robert Baynard Smith, and a sister, Mrs. Elvia Smith Sapp, both of Harrington; three grandchildren, William F. Smith and Dr. Robert H. Smith, both of Harrington, and Kathryn M. Smith, RN, of Chicago, also five great-grandchildren.

Mr. Smith was the son of Robert Henry and Mary Catherine Neal Smith. He was born at Burrsville but lived the last 55 years at his present address. He continued active in his many and varied interests until his death.

Mr. Smith graduated from Westminster College and came to Harrington as a young man and went into business with his father in the manufacturing of baskets and crates. Upon his father's death, he was associated with the late Ora C. Sapp in 1900 in the same business, to which was added some canning activity.

A graduate civil engineer, for many years Mr. Smith followed surveying more or less as a hobby. In the field, he surveyed and laid out the racetrack still in use at the Harrington fairgrounds.

He was once active in civic affairs. Mr. Smith was the first president of the board of directors of Peoples Bank and was a founder of that institution. He was instrumental in bringing 4-H clubs to Harrington as a result of his life-long interest in farming and farm people. He was, at one time, a member of the Harrington School Board and was an honorary lifetime member of the Harrington Fire Company.

Mr. Smith was also a life-long member of the Methodist Protestant Church, now Trinity Methodist Church, and underwrote its present structure.

He was an ardent lover of music and a member of the original Harrington Band.

His most cherished possession was a gold watch fob, presented him in 1915 by the Harrington Fire Company, when he returned a Ford automobile to the company which had raffled it off to raise funds.

Hard Drinker Given Chance

The alleged shotgun shooting of a woman by her husband last November brought a new development when Judge Ernest V. Keith in Court of Common Pleas Friday afternoon ordered a 55-year-old Felton handyman to enter the Governor Bacon Health Center for rehabilitation.

The specific charge against the Felton man, George James Baker, was that he had provided intoxicating liquor to a man on the barred list. The man who got the liquor is Joseph Farrow, 35, also of Felton and who is accused of shooting Mrs. Sarah Farrow the night of Nov. 21 at her home, near Viola.

Baker admitted in court that he is an habitual drinker of wine. Judge Keith first fined Baker \$250 and costs and sentenced him to four months in the Kent County jail, but then stipulated that he would order him to the health center instead if Baker would consent to go there for rehabilitation. Baker agreed.

Farrow, who critically wounded his estranged wife with a shotgun, was in court but it did not become necessary to call him as a witness. Baker's arrest took place last Saturday following investigation of the asserted source of Farrow's liquor by inspectors of the State Liquor Commission.

While admitting he made the bottle of liquor available for Farrow on the day of the shooting, Baker denied he actually purchased it for him.

"I left the bottle on a table in my house while Farrow was there," Baker told the court. "Then I walked out of the place. 'Joe' picked it up and walked away with it. What he paid me--\$10--was what he owed me."

Hoof Beats

The biggest harness racing stable ever to winter in the southland is being prepped for the 1951 campaign by Johnny Simpson, young Chester, S. C. reinsman. Simpson, a 30-year-old veteran of a dozen years in the sulky, has 64 head in his barn at Orlando, Fla.

The huge stable includes 27 richly-bred yearlings many of them purchased for long prices at the various auction sales conducted during the past three months. Others are home-bred products that have been placed in Simpson's charge by owners keenly aware of the brilliant record compiled by the South Carolinian in the past five years.

Simpson enjoyed his greatest season in 1950. Driving horses in his own stable and catch mounts for other owners, the former infantry officer notched 111 victories and won more than \$270,000 a figure second in all harness racing history only to Del Miller's \$311,809 1950 total.

Simpson won 12 stakes worth \$10,000 or more and was the top driver in all three categories at Roosevelt Raceway. During five months of racing at the Long Island plant, Simpson won more money (\$95,254.15), more races (57) and posted a higher percentage (.415) than any other driver.

In addition to his activity at the metropolitan tracks, Roosevelt and Yonkers, Simpson also appeared regularly on the Grand Circuit. He scored 50 victories on the Roarin' Grand and wound up second to Miller in the average department with a sizzling .446.

Miller also is wintering his stock at Orlando's Ben White Raceway. He has 24 head, half of them yearlings. He and trainer Harry Pownall are co-owners of a trio of January 2-year-olds which they purchased at auction. The Miller-Pownall stable is made up of the trotters Mediterranean and Worthy Eden and the pacer Secret Agent.

Pownall's Arden Homestead string is made up of 18 head, 10 of them yearlings including the \$12,600 Hit Song, a son of Darnley-Evensong. Pownall's brother Gene has 20 head, nine of them yearlings. The veteran Ben White, for whom the training track is named, is prepping eight yearlings and a like number of older horses. Sep Palin, another Grand Circuit old timer, has seven yearlings among his 12 horses.

The harness racing honor of Canada was upheld in the Dominion and in the United States as well this year by a trio of swift standardbreds, two pacers and a trotter.

The pacers were Danny Direct, owned by Delphis Caron & Son of Quebec and Lusty Louis, owned by Joseph Cauchon, also of Quebec. The trotter was Brewer's Gallon, owned by B. C. Cruikshank, Halifax, Nova Scotia.

Goshen, N. Y., Syracuse, N. Y. and Yonkers Raceway. Lusty Louis, a 10-year-old gelding that never got to the races until he was seven, posted a 2:05 mile at Quebec Raceway in Canada and compiled 29 straight victories through the end of the 1950 campaign. He will attempt to continue the streak next season.

The Nova Scotia entry, Brewer's Gallon, raced only in the United States. With Canadian-born Joe O'Brien in the sulky, the son of Bill Gallon racked up 15 victories in 16 starts and would up the season with a streak of 10 in a row. He trotted a mile in 2:00 4/5 at Lexington and won starts in such widely-scattered points as Santa Anita, Calif. and Saratoga Springs, N. Y.

In addition to Johnny Simpson and Del Miller, a number of other Grand Circuit trainers are wintering at Orlando, Fla. Harry Pownall has 18 head including 10 yearlings. Among them is the \$12,600 buy Hit Song, a son of Darnley and the great brood mare Evensong. Harry's brother, Gene Pownall, has 20 head, nine of them January 2-year-olds. The veteran Ben White, for whom the training track was named, is prepping 16 head. White, a four-time winner of the Hambletonian, will be 78 in February. His son, Gib, principal character in Marguerite Henry's recent novel 'Born to Trot', is assisting him. Sep Palin, another of harness racing's older-than-70 old timers, has 12 head at Azalea Park, a second Orlando training track. Frank Ervin, Billy Haughton and Harry Whitney are wintering at Aiken, S. C. At Pinehurst, N. C. are Frank Safford and Del Cameron, another pair of the nation's top reinsmen. The Horse of Year, Proximity, is being nursed along toward another campaign in 1951 by owner Ralph Verhurst. She is at Orlando.

Miller also is wintering his stock at Orlando's Ben White Raceway. He has 24 head, half of them yearlings. He and trainer Harry Pownall are co-owners of a trio of January 2-year-olds which they purchased at auction. The Miller-Pownall stable is made up of the trotters Mediterranean and Worthy Eden and the pacer Secret Agent.

Pownall's Arden Homestead string is made up of 18 head, 10 of them yearlings including the \$12,600 Hit Song, a son of Darnley-Evensong. Pownall's brother Gene has 20 head, nine of them yearlings. The pacers were Danny Direct, owned by Delphis Caron & Son of Quebec and Lusty Louis, owned by Joseph Cauchon, also of Quebec. The trotter was Brewer's Gallon, owned by B. C. Cruikshank, Halifax, Nova Scotia.

Danny Direct, the fastest pacer ever owned in Quebec, took a record of 1:59 4/5 in a race at Lexington, Ky. in October. Earlier he had measured many of the best American sidewheelers at

Mrs. Elizabeth Schwartz spent the holiday weekend with her daughter, Mrs. Edgar Graybeal, and Mr. Graybeal and Ronnie.

Wednesday night the children turned out by the score to greet Santa and have a word with him when he appeared at the community hall. Santa had a treat for each one of the children which had been made possible by the different organizations of the town. Magnolia has truly done its bit in displaying the Christmas spirit. The homes have been attractively decorated, a community tree was trimmed on the Collin's lawn and Christmas carols have been amplified from Dukes Furniture Store, and, last but not least, they have not forgotten to remember to share their blessings with others.

Mr. and Mrs. Robert Reynolds, of Fullerton, Md., spent Christmas with her parents, Mr. and Mrs. Homer Wright.

The choir sang as their anthem, "The Wondrous Story" by Nolto. Mrs. Eugene Atix sang as a solo, "Gesu Bambino" by Pietro A. Yon. Mrs. Bessie Wright and Mrs. Jennie Jackson were church hostesses.

As the old year 1950 is drawing to a close I just want to thank all by loyal friends and neighbors who have been so helpful to me in getting together news for the Houston items to the Harrington Journal. If at any time I have left any news out, it

was because I received at late or I just didn't know about it. And my wish to one and all is a very happy and prosperous New Year, and may God bless us all.

Many wonderful things happened to us in 1950. Sure we had a war . . . but it showed the world that though America is a wealthy nation, it surely isn't soft. National THRIFT WEEK

And the Birthday of the Father of Thrift

"It is hard for an empty sack to stand upright." Ben Franklin, one of our nation's founding fathers, and a life-long believer in careful spending, once said this. Now we observe National Thrift Week, in honor of his 245th birthday. Thrift Week this year is particularly important . . . important to all of us in our efforts to stem inflation, important to our nation in carrying on the fight for freedom, important to every individual in balancing his budget. . . Start saving this week. Save a little EVERY week!

Seventh Grade Party
The seventh grade held a Christmas party on December 15 in the school auditorium. The auditorium was decorated with red and green paper, holly, and a beautiful Christmas tree.

F. H. S. Was in Jovial Spirit As Christmas Drew Near
Students of F. H. S. were in a flurry of activity during Christmas week. Among these activities were last minute shopping sprees, class parties, basketball games, a candlelight service, and a White Christmas service at the local church, a Grange program, and the annual Christmas pageant at the school on the 22nd under Miss Dearsteyne's direction.

All classes decorated their home rooms. The tens were voted the best decorators. Indeed, their room was a bower of Christmas cheer.

The first eight grades had individual class parties. In the elementary grades, the pupils took home with them gifts for their mothers and fathers which they themselves had made.

Last Friday morning the upper school students and faculty were privileged to see the elementary school Christmas program.

English Class Edits "The Spotlight"

As a project in eleventh grade English, the students studied Philadelphia, New York, Los Angeles, Chicago, and local newspapers, analyzed editorials and news articles, and arranged layouts.

Then the real work began. The class became the editors and reporters for this second edition of "The Spotlight." Harry Carlisle, the editor, made the assignments to the reporters. As the write-ups came in, the three groups of five each checked, corrected, and did re-writes.

Finally the editors of the various pages planned the layouts for their pages and set up the dummy.

From lay-out to printing became a typing project. In the meantime the circulation manager took orders for the finished product which went on sale December 22.

Outstanding Film Offerings For New Years Holiday's at The New Milford Theatre

Two outstanding new show season screen offerings are awaiting the movie going public at the New Milford Theatre with a mid-night New Year's Eve prelude showing of one of 1951's outstanding hits. Gary Cooper and Ruth Roman will be seen in "Dallas" Warner Brothers Technicolor hit on Thursday, Friday and Saturday . . . He had a chip on his shoulder as big as Texas when all of Texas was a powder keg, they lit the fuse. You'll remember big Res and his border lady for many months to come.

Also showing will be the co-feature, "David Harding Counter Spy" starring Howard St. John and Audrey Long.

Starting Sunday continuing Monday and Tuesday, brings New Milford patrons the big show sea musical comedy show "Pagan Love Song" starring Esther Williams and Howard Keel.

The most gorgeous technicolor musical of them all actually filmed in a tropical island paradise of the South Pacific with six famed song hits including "The Pagan Love Song," "Sea of The Moon," "House of Singing Bamboo," "Tahiti," "Singing In The Sun," and "Why Is Love So Crazy" with the song hits sung by the stars.

On Sunday evening immediately following the last showing of "Pagan Love Song" the New Milford will hold the gayest, merriest New Year's Eve party in town. A joyful New Year's Eve midnight show and will present on the screen for this showing only by special arrangements with Hollywood producers a gala revue of one of 1951's outstanding biggest screen hits "Frenchie" starring Joel McCrea and Shelly Winters. It's a technicolor story

of the frontiers toughest sheriff vs the West's bewitchiest gal in the wildest town that ever defied the law. He's got a gun in one hand and a large trimmed dynamite in the other.

Tickets for the gala New Year's Eve revue show are now on sale at the box office.

Takes A Doctor's Advice

Gas Station Man's Aches and Pains Leave Completely After First 3 Bottles Of Hadacol

Father helped, too, who also had deficiencies of Vitamins B₁, B₂, Iron and Niacin.

Wesley Scallions, energetic young gas station attendant in Peoria, Illinois, tells how HADACOL keeps him on the job. Wesley Scallions has this to report: "I took HADACOL upon the advice of my father who has taken it regularly for some time. He could not eat, was unable to get around, lost sleep and was generally run-down because he had these deficiencies. My brother who is a doctor recommended HADACOL to Dad. Since taking HADACOL, Dad has been feeling like a different man; he now has a hearty appetite, sleeps well and gets around once again on his own."

"I have had pains in my right arm and legs due to these deficiencies. I lost many days of work until I started to take HADACOL. After my first three bottles the pains left me completely and now I work every day without having any pains. I am a gas attendant and need full use of both arms and legs in my line of work. Thanks to HADACOL I can now perform my job satisfactorily and feel fine."

Don't Be Satisfied With Symptomatic Relief

Don't be satisfied with symptomatic relief—HADACOL makes it possible to actually relieve the REAL CAUSE of those cruel nagging aches and pains when due to lack of Vitamins B₁, B₂, Iron and Niacin in the system.

ASK LISTEN TO THIS! Continued use of this great HADACOL not only gives continuous, complete relief but helps keep such painful distress from returning.

THE USE WE MAKE OF WHAT WE HAVE

"America has more automobiles than any other nation in the world, more telephones, more frigidaires, more radios, more television sets, more farms with electrification, more tractors, more trucks, more railroads, more trains, more banks, more mills, more factories, more street railways, more buses, more newspapers, more magazines."

We've heard this boast many times, and it is true—but do these things spell civilization? Remember, we also have more juke boxes than any other nation.

These items listed above have potentialities for much good, but their original purpose has been forgotten. Automobiles are used for the slaughter of thousands of innocents upon the highways and in the city streets every year. Almost every home has a telephone, but that telephone is used for idle gossip more often than it is used for business, pleasure or convenience.

Newspapers! We're speaking of the dailies now—and but very few of them are worth reading. Scandal, carnage, rapine, pillage, slander, sex crimes—these are the daily grist of the mills of the metropolitan press—with a few exceptions. Magazines? Far worse their plight than that of the newspapers. Name ten good magazines published today. You can't do it—because they do not exist.

The Wright Brothers invented the airplane. Its purpose was conveyance. Now it is an instrument for killing. When Simon Lake invented the submarine (Russia's claim to the contrary notwithstanding—or upstanding), its purpose was for underwater traffic during the period of storms, but it, too, has been transformed into an instrument of mass murder.

Inventive genius, and much of it America, has liberated mankind from much of the slavery of the farms, the mills and the households, but has the liberty thus attained been utilized to the best advantage?

Maybe science has backfired on us, or we are too dumb, too vain, too proud. Our true glory is not in the many things we possess, but how we employ those things.

A group of seven or eight genteel appearing people entered a restaurant the other day. Self-important Phil Harris was yelling by way of the juke box "Take That—Out of Here—and Don't Come Back No More." The group did just that.

WE'RE QUICKER THINKERS?
A good friend of ours, in discussing another section of our country, said, "We're quicker thinkers than they are."

That same belief has brought disaster to mankind since the beginning of time. When people consider themselves wiser than other people, they leave their collective chins wide open to a left jab and a right cross. "We're smarter than they—and they're our meat."

Napoleon thought he was smarter than the rest of the world. So did Kaiser Wilhelm, Hitler, Mussolini—and countless others. The world is full of ruins of once powerful nations ruled by people who thought they were quicker and better thinkers than the rest of the universe. The desert has claimed many of these nations and others will share the same fate.

In our own country, New Englanders are no brighter than Southerners, Easterners are no brighter than Westerners. You'll find brilliant people and dunces in every section of the world.

WE EMERGE FROM THE COCOON OF MODESTY AND YAP ABOUT OUR ACHIEVEMENTS
For years without number other weekly papers in Delaware have proclaimed to a pulsating and palpitating universe that they have the largest circulation. They further proclaimed, without much urging, that their classified section was unsurpassed in circumference and excellence.

They could not deny. Several papers in Delaware have larger circulation than that of the Harrington Journal. Several have more advertising and larger classified sections. Only one, we believe, has a more complete news coverage in and around the town in which published, and that paper is published in a town much larger than Harrington. They were not boasting. They were, and are, entitled to their respective places in the sun. We stood, with bowed heads, in the obscuring shadows of modesty.

Still there is a balm in Gilead and we, mixing metaphors, as is our privilege, embark on a John Gilpin Ride and proclaim our long-hidden virtues:

Within the past few weeks the editorial page of that great moral and religious weekly known to fame as the Harrington Journal has been quoted by one magazine of international circulation and two of national circulation, The Rotarian Magazine, The Grass Roots Digest, and the Publishers' Auxiliary; was made the subject of two telecasts by racing's top commentators; and was used by Bill Stern on his radio program. It was accorded the meed of a column in the New York World-Sun.

AIR RAID WARNING ALERTS

The Federal Office of Civil Defense in cooperation with the Continental Air Command of the United States Air Force has announced the adoption of a two-stage public warning code to announce imminent attack and the subsequent 'All Clear.' These alerts are as follows:

a. Red Alert: Attack imminent—Hostile aircraft have been identified and are within the air defense sector or within adjacent sectors with a high probability of entering the subject air defense sector. The signal to the public will be of three minute duration. It will consist of fluctuating or warbling signals of varying pitch by sirens, or a series of short blasts by horns or whistles.

b. White Alert: All Clear—This notification will be given when danger of Red Alert air raid warning is over. The signal to the public will be a series of three steady one-minute blasts by sirens, horns or whistles, interrupted by silent periods of two minutes each.

The Red Alert is the on-the-spot final warning and requires the immediate compliance with procedures prescribed for the protection of life and property.

a. In the event the 'Red Alert' is the first alarm received, mobilization of civil defense forces will be delayed until immediately after the attack rather than risking exposure to the hazards of attack.

b. All persons at work in business and industry should take cover or go to shelters previously designated by local Civil Defense authorities.

c. Where shelters have not been publicly designated, people at work and those in the streets and in vehicles should take immediate cover in the nearest modern building or other suitable underground shelters.

d. All people in schools will remain in the school building. Where local conditions permit, plans will be made for having the children go to the basement. Until more specific instructions are received, local school administrators will comply with the instructions contained in the report entitled "Mobilization of Educational Resources" which was distributed by Dr. George R. Miller, Jr., State Superintendent of Schools.

e. Persons in homes or other dwellings should take immediate shelter in basements.

It is urgently requested that every effort be made to distribute the booklet "Survival Under Atomic Attack" as recommended in letter from this office dated November 10, 1950.

In view of the fact that the Federal Government plans to furnish certain communications equipment to be used for air raid warnings and at this time it is not known whether public alert instruments will be included, you are advised to not purchase special sirens, but to make full use of existing sirens, horns or whistles in conformity with the prescribed code. Sound trucks and public address systems may be used to supplement these warning instruments if desired.

Regular radio and television broadcasts should not be used to broadcast the public warning signals at this time. The role of the broadcasting industry in Civil Defense is currently under study by a committee including representatives of the Federal Communications Commission, the Department of Defense, the Civil Defense Administration, the National Association of Broadcasters and the major networks.

It is requested that this office be immediately furnished the telephone number of your local control center. The control center is the place which will be notified in the event of an alert and therefore should be located in a place which is manned 24 hours a day and has facilities for notifying those persons responsible for sounding the alarm. Until this information is made available, the home and business phone numbers of the local Civil Defense directors will be used for disseminating this information from the State Office of Civil Defense to the municipalities.

Story of Oleomargarine
Napoleon III, who offered a prize in 1870 for the best butter substitute that could be produced in France, was in large part responsible for the first extensive manufacture of the product. Originally made from beef fat, margarine now is derived principally from the fats and oils of plants. The buttery flavor is obtained from milk which is treated with lactic acid bacteria—the same bacteria which gives butter its distinctive taste. Margarine today is custom-built to keep up with nutritional progress and available supplies.

Sandals
The current vogue for sandals, consisting of flexible lather soles held to the foot by gold straps, goes back to the ancient Romans. Emperor Nero wore gold sandals, but he stuck his wife, Empress Poppaea, to silver!

Many of these articles were contributed at the "White Christmas" entertainment in the church Wednesday evening.

At the Sunday morning service Rev. Hitchens preached on "So Great a Salvation." Both choirs gave beautiful selections. The chancel flowers were a begonia in memory of Mr. Charles Holden placed by his daughter, Mrs. Agnes H. Woikoski, and two poinsettias, one in memory of William A. Berry and son, Wilson C. Berry, placed by Mrs. Edwin D. Gruwell, and the other in memory of Mr. and Mrs. Cooper Gruwell by Mrs. G. B. L. Smith and Edwin D. Gruwell.

Many of the family dinners were given on Sunday instead of Christmas Day. Guests on Sunday of Mr. and Mrs. Wm. A. Hargadine were: Mr. and Mrs. William A. Hargadine, Jr. and son, Walter, of Philadelphia; Mrs. Ruth Palmer, of Claymont, and Mr. and Mrs. John Hargadine and daughter, Jane, of Bethany Beach.

Mr. and Mrs. J. H. Crockett and Mrs. M. E. Killen visited Mrs. Elizabeth Killen and family in Dover Christmas Day.

According to an article issued last week by State Forester, William S. Taber, there was a volume of complaints on the taking of Christmas greens from private properties, especially in downstate areas where uninvited visitors were removing holly and trees from properties. And he further said that taking such products of the land without consent of the owner is just plain stealing, adding that under the law this misdemeanor is punishable by a fine up to \$200 and imprisonment up to 60 days. Much of this pilfering occurred in this area. It was surprising that many people felt free to get holly and trees without even asking permission of the owner, when they were aware of the fact that it was a source of revenue to the owner.

Would You Lose Nearly \$1,000 To Save A Few Dollars On The Cost Of Having A Public Sale?

It's not likely that you would, yet one seller did just that. He had intended to run an advertisement of the sale in THE HARRINGTON JOURNAL, but just didn't get around to it. The sale was sparsely attended and bidders were scarce. The property sold at a bargain price. A JOURNAL reader, who did not know of the sale until it was over, said: "I would have given \$1000 more for that property." We will give you the facts of this case if you will stop in the office.

Public sales can be advertised in THE HARRINGTON JOURNAL for as little as \$1 per week . . . and the price is seldom more than \$5. A mere pittance for the higher prices those extra bidders will give you when there's buying competition.

If you plan on having a sale. INSIST that the advertisement is printed in THE HARRINGTON JOURNAL.
