Possum Paw Minstrel Is Big Hit, With Well-Balanced Cast

By Huck

Living up to the forecast, the fourth annual Possum Paw Minstrel of the Harrington Lions Club went off with a bang Friday and Saturday evenings in the auditorium of Harrington High School. It was the opinion of many of the audience that the show, playing to packed house both nights, was equal to any held here in recent years.

The minstrel, directed by Mrs. Evelyn West, of Millsboro, was filled with stars. Consequently, it was difficult to say that any one stood out as all performed splendidly.

Sparked by Interlocutor Gooden Callaway, the end men gave the audience untold delight, with J. C. (Big Mac) McKelvey bringing down the house with his joke about two local boys being lost in Ellendale Swamp.

The chorus included women for the first time and was composed of the following: Randall Knox Jr., William Smith, Walter Paskey, Keith Burgess, Louis Callaway, Lyman Fox, Ann Minner, Imogene Welch, Irene Wechtenhiser, Carrington Burgess, Rosella Humes, Howell Hitchens, Clarence Black, Benny Moore, Albert Price, Barbara Smith, Anna Lee Anderson, and Elizabeth Ann Hitchens.

Specialties performed by chorus members were: Trombone solos, Randall Knox; vocal solo, William Smith; tap dancing, Lyman Fox; vocal solo, Bennie Moore; vocal solo, Elizabeth Ann Hitchens; vocal duets, Imogene Welch and Barbara Smith; male quartet, Louis Callaway, William Smith, Carrington Burgess, and Randall Knox.

The Dancing Darlings, a group of young girls, rendered several tap routines, all of which found favor with the house.

Sterling Simons, of the Delaware State Police, performed brilliantly on the electric guitar during the intermission.

The minstrel committee was headed by Eugene Anderson and also included Bennie Moore and John McKelvey.

J. Emmett Jester Gets New Post

J. Emmett Jester, of Felton, has been appointed assistant to Harry W. Albers, chief of the wage and excise tax division of the Bureau of Internal Revenue, it was divulged Tuesday. Mr. Jester succeeds John J. Gardecki, of Wilmington, who has been appointed chief of the income tax division of the Delaware office of the bureau.

Mr. Jester was born at Felton, and has been with the district office since 1938. For the past five years he has been stationed at Dover.

He was educated at Felton High School, at the Wesley Collegiate Institute, now Wesley Junior College, and at Pierce Business School, Philadelphia.

Lloyd James Gets Mighty Boy And Bertha Rosecraft Ready

Lloyd James' trotters and pacers are all looking good in the spring training and the Cambridge, Md. driver-trainer is expecting great things from them during the spring meet of the Kent & Sussex Racing Ass'n. which opens here Thursday, May 3, for 20 nights of pari-mutuel racing.

James, who has been identified with harness racing 42 years, has seven trotters and pacers, outstanding of which are Mighty Boy and Bertha Rosecraft. The former, a bay horse, has a pacing record of 2:05.4. The pride and joy of the James stable the six year old has raced against some of the best in the country, including Highland Ellen. The son of Volomite belongs to James & Hurlock, of Cambridge, Md. Already he has worked this spring in 2:18. The sidewheeler had trotted only once, and then in 2:09. Next year he will start out as a green trotter in 2:25 stake races.

Then there is the redoubtable Bertha Rosecraft, brm, 5, t. 2:03, by Long Key, and also owned by James & Hurlock. This favorite of many Eastern Shore fans has worked out this spring in 2:21. The Cambridge reinsman, who

Railroad News

We railroad men sometimes take a lot of ribbing about the things we should do that we don't, and the things we do that we shouldn't. A local business man recently said: "I admire the attitude of the railroad and the men who represent it here on the peninsula, they just keep plugging along doing a good job in the face of reverses." That's the kind of spirit that counts and eventually wins favor and recognition.

We know that our limited passenger service draws unfavorable comment from those who fail to see both sides of the picture and don't seem to know that the cost of operating a passenger train has increased over 200 per cent in the past ten years while the need for them has decreased a like amount.

While a few of the boys were discussing the removal of the passenger coach from the rear of mail trains No. 452 and 453 the other day, Bill Humes, manager for A. B. Wainwright Company, said: "Cheer up boys, Sally Rand took off a lot of stuff and we still like her."

Harvey Griffith, retired railroad worker and owner of Helena Acres, piped up and said he wished they would take off the freight train that blocks the fairgrounds crossing every day while cutting off engine to take water.

Road Foreman Mike Quinn is going to try to relieve this as much as possible, especially during the fair and spring race meet. He says he feels sure the condition will be corrected entirely with diesel operation before the fall meet.

That's good news and will correct a lot more headaches in this vicinity so let's trail along and try not to interfere with anything that might retard the movement of freight, 80 per cent of which is now for armed services and should have a high priority.

Howard Williamson Carrie Sanderlin Honored by Party

A surprise birthday party was given Sunday at the home of Mr. and Mrs. Rae Dalfonso, Bridgeham Ave., Milford, in honor of Howard Williamson and Carrie Sanderlin, the mother of Mrs. Dalfonso, of Slaughter Beach. Many beautiful gifts were received.

Guests included: Mr. and Mrs. John Williamson, Lebanon; Mr. and Mrs. Luther Williamson, Milford; Mr. and Mrs. Emory Williamson and children, of Greenwood; Jane Williamson and George Hobbs, of Harrington; Mr. and Mrs. Edward Short, of Easton.

Minstrel Show Performers

Imogene Welch and Barbara Smith, who performed splendidly in the fourth annual Possum Paw Minstrel here Friday and Saturday evening. The pair sang two numbers and were well received by the audience.

Radio Program and Contest For Raceway Begins Monday

A harness racing program featuring the Kent & Sussex Raceway made its bow Monday evening on the John A. Vickers Show over radio station WBOC, Salisbury. The program will continue every Monday evening at 7:15 o'clock until after the race meet, which begins Thurs., May 3, and continues 20 nights.

T. Brinton Holloway, general manager of the raceway, and C. H. Burgess, publicity director for the track, took part in the initial program with Jimmie Nelson, announcer.

John A. Vickers, Salisbury contractor, and the Kent & Sussex Raceway are co-operating in conducting a quiz contest on harness racing. Participants are invited to send in questions pertaining to the sport.

Talented Girls To Appear On Television

Barbara Smith and Imogene Welch, of Harrington, have been chosen to appear on television next Sunday at 11:30 a. m. on WCAU-TV channel 10, Philadelphia on the New Faces program.

For the past seven months they have sung over radio station WDOV in Dover on the Delaware Auto Sales program, "Stars in the Making," with Ed Scanlon of Dover as master of ceremonies.

They are members of the tenth grade at Harrington High School; members of the high school band, with Imogene on the clarinet and Barbara on the drums and bells, and members of the Kent County Band. Both play the piano.

For the past three years they have been members of the choir of the Asbury Methodist Church in Harrington and, in addition, Imogene is the church organist and plays the electric organ.

Barbara is the daughter of Dr. and Mrs. Hewitt Smith, and Imogene is the daughter of Mr. and Mrs. Milton Welch.

Services to Be Held For William Scott

William Day Scott, Sr., 73, died at the home of his son, William Day Scott, Jr., in Bangor, Pa., Tuesday evening after a two months illness.

He was a member of the Masonic Lodge, of the Brotherhood of Trainmen, a director of the Kent & Sussex Fair, and a superintendent of the poultry department of the fair.

His wife, Gertrude Scott, died 15 years ago.

He is survived by his son and a daughter, Mrs. Willis Duff, of Wilmington, and three grandchildren; a sister, Mrs. John Elliott, of Bridgeville, and two brothers, Carroll Scott, Georgetown, and Fournay Scott, of Frederica.

Funeral services will be held at the Boyer Funeral Home, Harrington tomorrow afternoon at 2 o'clock in charge of the Rev. Joseph Hinks, of Milford. Interment will be in Hollywood Cemetery.

Friends may call at the funeral home this evening.

Fire Auxiliary Meets

The Ladies Auxiliary of the Harrington Fire Company met Monday evening with Mrs. Orrie Hobbs, president, presiding.

Mrs. George Swain and Mrs. Grover Lord presented the organization with a gavel and ballot box.

It was announced the state convention would meet May 9 in Salisbury.

C-K-R-T Auxiliary to Meet Tuesday

Mrs. Betty O. Neal will be guest speaker at the regular monthly meeting of the C-K-R-T Post of the American Legion Auxiliary to be held Tuesday evening at 8 o'clock in the Legion Home. Mrs. Neal will speak on "The Child—Who Is He?"

Guests for the evening will be the state officers.

Sam Short to Direct High School Band

When the Harrington High School Band presents its annual spring concert next Friday night, at 8 p. m. in the high school auditorium, they will have as one of two guest conductors a member of their own community who will direct his own composition, "Old Delaware We Love You," which has been arranged for band by Joe Basile, a Harrington visitor each summer when he brings his own Madison Square Garden Band to play at the Kent & Sussex Fair. The composer, Sam Short, manager of a local Clover Farm Store, has had several compositions published.

The other guest conductor will be William Rugg, of Seaford, who is returning as special conductor and performer when he will play two saxophone solos and direct an arrangement of "Desert Song" by Romberg, and the march "National Emblem." This is the second time Mr. Rugg has appeared with the local band, and this appearance is by special request.

One of the novelties by the band will be a rendition of "The Parade of the Wooden Soldiers," when a drill by a group of fourth grade pupils will be performed. The children are Kenneth Outen, John Taylor, Alan Draper, Norman Porter, Donald Hinzman, Billy Gray, Eugene Currey, Ed. Melvin, and Paul Gustafson. Others include Mary Ann Lyons, Joan Collins, Linda Humes, Irene Gourley, Judie Cain, Janet Cluley, Beatrice Lyons, and Emily Ann Brown. Their teachers are Mrs. Lewis Slaughter and Miss Florence Long.

Miss Eileen Harris, promising young soprano of Harrington, and a pupil of Mrs. Giltenboth, will also be a guest artist when she will sing two selections. Miss Harris has received many compliments for her work in guest appearances and for her radio appearances.

Friday and Saturday, April 20 and 21, there will be a rummage sale in Gaines Alley for the benefit of the band.

Saturday, April 21, a cake will be had in Cupid's Ice Cream Store also to help defray expense of the band.

Tickets for this concert are on sale at Sam Short's Store, from members of the band, and will be on sale at the door on the evening of the performance.

Dr. Fred Englert Re-elected Head Of Chiropractors

Dr. Fred Englert, who has an office in Harrington, was re-elected president of the Delaware Chiropractors' Association at its fourteenth annual educational session over the weekend in Wilmington.

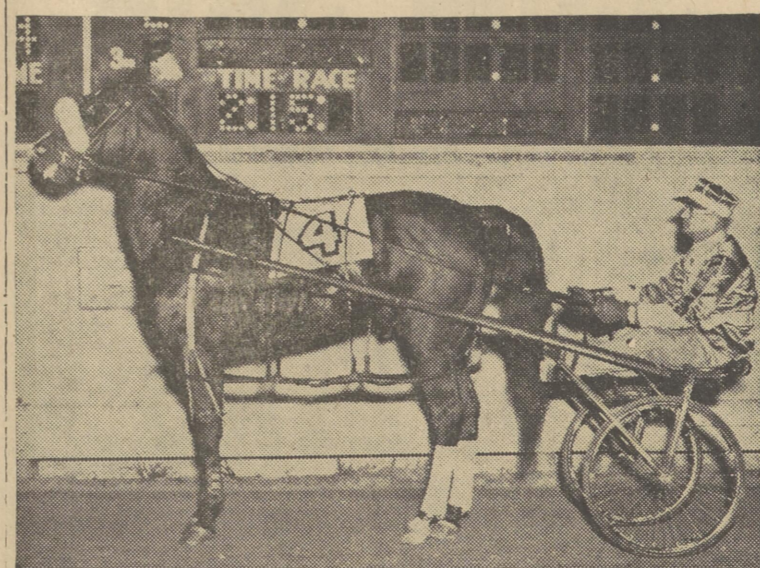

Cancer detection and treatment were emphasized in the program heard by 120 chiropractors from five states.

Dr. Vincent D. Washburn, Wilmington health commissioner, addressed the members Saturday afternoon, telling them that every physician is reminded that early suspicion should be followed by accurate diagnosis and adequate treatment.

Sunday afternoon a forum was held on X-ray diagnosis in which X-ray pictures were shown of cancer in the most dangerous areas, pointed out by Dr. Washburn—the stomach, lungs, rectum, cervix, and breast.

Lesson From Earth

There is no reason for any part of the home to remain dull and uninteresting. No place on earth is too remote or too barren for nature to give it color. The siennas and umbers with which paints are tinted come from the earth itself. Some of the loveliest, softest shades for walls and woodwork are borrowed from sagebrush, the desert sand, and the gray of lava. Even ore contains rich purples and reds.

Preparing For Pari-Mutuels

Star-Studded Stable To Have Many Entries in Kent & Sussex Racing Meet

One of the Peninsula's outstanding stables of harness horses is being groomed and put through its paces at the track of Tom Lewis, near Ocean View, in preparation for the sixth annual spring meet of the Kent & Sussex Racing Association, which opens May 3, for 20 nights of pari-mutuel racing.

The entourage of Lewis, one of the East Coast's leading reinsmen, is star-studded. For example, there is Jean Bauer's Jeb Stott. The son of Follow Up has trotted a mile in 2:06 and holds the record for a mile and a sixteenth at both Baltimore and Ocean Downs Raceways, with an identical mark of 2:15. The roan gelding is only six years old and still has many a good mile left under his surcingle.

The namesake of the Civil War cavalry leader, however, will have to step to overtake his stable mate, Belina Hanover. The daughter of Dean Hanover holds the trotting record here, with a mark of 2:05.2, which also equals the record on the pace. The bay mare, now nine years old, is owned by George M. Ellis, of Lancaster, Pa., and has a lifetime earnings of \$16,762.60. She is well-known at the Harrington track, where she has figured prominently in several trophy races.

The diminutive Lewis also has American Lou, a six-year-old bay gelding by Real American, who has a mark of 2:07.2 on the trot and 2:09.1 on the pace. Then there is Lou's Girl, a five-year-old bay mare, with a pacing mark of 2:07.2.

To name all the good horses in this Delaware stable would be tiresome, but one cannot overlook Hedgewood Fingo. Last year, this son of Calumet Fingo established the mark for two-year-olds at 2:07.3. The bay colt, owned by Holloway and Penuel, of Frankford, raced with the best juvenile pacers in the nation last year, including Tar Heel and Solicitor. Purchased at Jake Rudnick's sale in the fall of 1949 for only \$1075, the sidewheeler earned more than his purchase price in a stake race at Laurel, Md.

Lewis has another juvenile, E. D. Hawke, owned by Lewis, A. J. Quillen and C. B. Townsend. He has already paced in 2:22 this year. Lewis, who was ninth leading driver in the nation in 1949 for reinsmen with 200 starts or over, hopes to race the colt this spring. Incidentally, Lewis also the leading driver at Harrington last spring, started 367 times in 1949 and garnered 103 wins, 61 places and 47 shows.

Shamrock Vic, winner of the Bruno P. C. Grattan Memorial Pace last fall in 2:06.3, his record, is another Lewis entry who will be back this spring. The six-year-old chestnut horse is by Victorious Hal and is owned by Irwin E. Steele.

Century Club Votes Donations To Charity

The regular meeting of the Harrington New Century Club was held Tuesday afternoon, with Mrs. A. C. Ford, presiding. The hymn of the month, "Crown Him With Many Crowns," was sung to open the meeting. Mrs. Jehu Camper, chairman of hospitality, gave a report on the spring luncheon, and also on the new items of equipment purchased for the kitchen. A rising vote of thanks was given Mrs. Camper for her splendid work.

Contributions were voted to be given to the Delaware Crippled Children's Society, Red Cross and Cancer Crusade. The Cancer Crusade is being sponsored by the club this year and a house-to-house drive for funds is now being made. It is hoped that the citizens of Harrington will respond wholeheartedly to this very important appeal.

The members expressed their approval of sponsoring at least one senior high-school student to the Music Camp to be held at Wesley College at Dover from June 25 to July 1. Mrs. Ernest Raughley, chairman of music, was instructed to contact Mr. Brobst and secure his recommendation as to who could or would attend. The cost for one student is \$25, which the club will pay.

The trustees were authorized to secure estimates for the painting of the interior of the clubhouse and also the members voted to purchase 100 metal chairs.

The program for the afternoon "American Homes" was in charge of Mrs. Clyde Perry and her committee which consisted of Mrs. H. L. Boyer, Mrs. A. S. Gottlieb, Mrs. L. T. Jones and Mrs. William Nichols. Mrs. Jones read an interesting article about home management and Mrs. Boyer read an article on spiritual guidance in the home. Mrs. Perry told of other things that are an everyday part of the home, such as teaching, decorating, nursing, etc. and referred to an article entitled "What Home Means to Me." Miss Ruth Moore gave several piano selections.

Delicious fresh coconut cake and coffee was served by the committee.

The next and final meeting of this club year will be held Tues., April 24.

J. O. U. A. M. Notes

The Booster Association of the Junior Order United American Mechanics was well-represented at Canterbury Tuesday evening. Seven councils answered roll call. They were: Canterbury, Harrington, Milford, Wilmington, Laurel, Newark, and Milton.

Several selections were offered by the Canterbury quartet. William Hammond, of Canterbury, proved a rare treat with his recitation of "Susie's First Beau."

The next meeting will be held at Greenwood Tues., May 15.

The state council will meet at Lewes Mon., April 23, at 2:30 p. m. All members are invited to attend the session.

15 Shiploads in One

One of the largest and newest Great Lakes vessels can haul more than 18,000 tons of iron ore at one time. That amount is 15 times more than the capacity of the first ore ship designed for the trade in 1869.

"The Russians probably have 100 atomic bombs, scientists tell us," Col. D. Preston Lee, state director of Civil Defense, told a small group in the auditorium of Harrington High School Wednesday evening. Col. Lee spoke on "Civil Defense—Federal, State and Local Responsibilities."

Previous to his talk a movie, "A Tale of Two Cities," was shown, with J. C. Messner, superintendent of Harrington Public Schools and a member of the local defense council, operating the projector. The film was primarily concerned with the effects of the atomic attack on Nagasaki and Hiroshima, Japan.

The defense director, appointed to the office last June, opened the meeting declaring "our job in civil defense is to minimize the effects of a disaster."

Continuing, he said some 140 critical target areas had been designated in the United States and that primary civil defense plans were formed around these areas. (In Delaware, the No. 1 critical target area is around Wilmington, although the entire state is a vital area.)

We Are At War

"Everyone should realize we are at war: It's the real thing," Col. Lee explained.

The director then went on to explain the formation of the civil defense organization. He pointed out that the Delaware Office of Civil Defense was organized June 1, 1950, and that in September the federal government put out a blueprint for civil defense organization. Since that time, he stated, Congress has passed a law for a pertinent program, but had not appropriated any funds for the project.

In the event of another major war, it will be fought on our soil, it is the opinion of the experts, Col. Lee declared, and added that it was, consequently, an obligation of the civil defense program to protect civilians here and to see that "we are not drained of medical supplies and medical personnel."

Civil Defense at State Level
In commenting on the progress of the civil defense program in Delaware, the state director told his audience, comprised of prominent citizens, that the state had made considerable progress in the project, compared with other states.

Getting down to the local level, Col. Lee pointed out that the mayor appoints the civil defense director in each community and that it is the duty of each director to determine what is needed to do the job. He emphasized that the program was "for your own protection," and that one person was needed in each household for the task. He asked smaller communities to establish strong block ward divisions and to accept evacuees.

State Defense Division
Returning to the state program, the director, formerly a Seaford resident, said two new state divisions had been formed. One, civil aviation, was concerned with the control of privately owned planes. These were dismantled during the last war, he explained, but will be used for evacuation and transportation of vital supplies in the event of a conflict now. The public information division is also new. This section disseminates information through the press and over radio.

Other state divisions were briefly sketched as follows:
Public utilities—Electrical, gas water.

Communications—Built around communication system of the Delaware State Police. Amateur radio operators are also being used.

Ground observer corps—This organization spots planes, charts their courses, and reports to a filtering center. The corps is now an auxiliary of the Air Force.

Radiological—To form radiological monitoring teams to determine the effect of radioactive rays of atomic bombs after an attack. There will be a school for such teams at Dover next month

"The War We Are Losing" is the title of an article in a current magazine. The article, we found in searching for the name of the author, was written by a fellow named George Gallup. The name seems vaguely familiar. Isn't that the fellow who used to predict election results?

The papers shriek of murder, rapine, pillage, corruption, war. In Harrington the chief topic of debate at this particular time is the parking meter.

WE, TOO, ARE TO BLAME

Read the names of the vicious characters implicated in the rackets and the murders and you will find that nine out of ten carry foreign labels. People came to America to seek freedom of opportunity. We welcomed them to our shores and many have turned out to be the basest ingrates. The Saturday Evening Post, which in recent years specializes as a murder magazine, publishes the pictures of the most notorious of the vermin unearthed by the Kefauver scoop shovel: Frank Costello, Frank Erickson, Tony Accardo (The Enforcer), Joe Adonis (an alias), Tony Gizzo, Mickey Cohen.

We do not condemn the whole races represented here because of these creatures. What right have we, whose ancestors came to these shores a century or two ago, to proclaim our virtues? These men are permitted to follow their calling through the laxity of law enforcement, through the corruption of jurors and through the machinations of shyster lawyers. Most of the jurors and most of the lawyers are good old Americans. God spare the mark!

RESTORE THE D. I. A. A.

This was one alphabetical organization all of us liked. It flourished back in the twenties and early thirties as an affiliation of the Delaware educational system and had to do with athletics in the schools.

It was a boon to baseball in particular. The state was divided into four zones, two in the northern part of the state and two in the southern part. The champions in the southern sections played an elimination contest and the northern champions did the same—and these two winners met at Dover for the championship of the state.

Harrington High School won the state championship four years, three years in succession, but it was hard pressed most of the time, because the other schools of the state turned out real ball players. The final championship game at Dover packed the park and interest was much higher than it has ever been in any of the professional games of the state. These were home town boys and each town took immense pride in its team.

Harrington High School alone sent several players to the minor leagues and we are pretty sure that other schools were represented in professional baseball. At least, we know that several of them starred on college teams.

There was an incentive then—and how the kids worked. Since the abandonment of the D. I. A. A. baseball in the schools of Delaware is a hit-and-miss affair. There can be no recognized state champion and there is no incentive other than knowing that you have played the best you could.

Down in this section we haven't turned out any outstanding players in recent years. The sad fact is that only one Delaware boy has made good in the big leagues in forty years, Walter "Huck" Betts, of Millsboro. A restoration of the D. I. A. A. will, we believe, see us represented in the big leagues within a few years.

BEHOLD HE WAS A STRANGER

A lot of the trouble in the world is caused by misinterpretation. Even the Scriptures are frequently misinterpreted and as an illustration here's an old story. We make haste to explain that this is not original—our name is Burgess—not Berle: A conscientious merchant hired a clerk. This merchant was a Christian every day in the year and told his new clerk: "Let your every sale be justified by the Golden Rule. Do not misrepresent anything or overcharge anybody. Let the Scripture guide you and in addition to your regular salary, I will give you a slight commission on everything you sell."

The new clerk was pleased. He was a good salesman, but somewhat on the tricky order. One day he sold a pair of two-dollar shoes (that's the price they charged when this story was written) for three dollars. The merchant heard about it and rushed to the clerk: "I told you to let the Scripture guide you in every sale you made, and now you charged that stranger a dollar more than the honest price." "I did let the Scripture guide me in that sale," replied the clerk, and he quoted: "Behold he was a stranger and I took him in."

You who say Harrington has only two factories do us wrong. We have three factories and the third one employs many people and spends hundreds of thousands of dollars here annually. That factory is the Harness Horse Industry. It gives employment to many people who come here with the horses and to no small number of local people. Clothing, groceries and enormous amounts of feed are sold to the harness people—and most of them are generous spenders. In addition to the above items, it has given Harrington publicity from coast-to-coast, not only person-to-person publicity, but newspaper mention all over the country and wide publicity over both radio and television. Mention Harrington in almost any audience in America and someone will say: "Oh, yes—I've heard of it—the Harness Horse Town."

Happenings of Yester year

Ten Years Ago

The Red Cross sewing and knitting project is moving along very successfully. Mrs. Fred Mayer is chairman, and extended thanks to Sherwin & Jaller Shirt Co. for their work in making 20 shirts. Felton School News

Junior Thespians to Present Play Tonight

While the actors get all the glory, there are a number of people connected with the play who do their work quietly behind the scenes. This is true of "The Improper Henry Propper," the farce which the Junior Thespians have finished rehearsing.

Known as the technical staff, this group builds the scenery, assembles the furniture and properties, arranges the lights, sets the stage, pulls the curtain—does an amazing amount of work for a single, simple reward: the knowledge of a job well done, and perhaps their name in the program.

Miss Clark, who is directing "The Improper Henry Propper," which will be presented tonight at Felton School auditorium, wishes to acknowledge her great indebtedness to this small group of people.

They are Kenneth Richter, Harry Carlisle, Louis Palmatory, Samuel Walters and Billy Chambers, who have charge of the setting. Mildred Simpson and Margaret Hobbs, who are assembling the properties. Marie Springer, stage manager and prompter. Three boys of the senior class are helping with the play. They are Bobby Voshell and Francis Hammond, electricians, and Ted Hughes, who will assist Elsie Schreiber, business manager. Rosalie Hughes and Reita Reid will provide entertainment during intermissions.

Mrs. Sipple, the class adviser, is assisting with properties and the tickets.

Juniors Journey to Welfare Home At Smyrna; Entertain Patients With Play

The junior class, of Felton High School presented its play, "The Improper Henry Propper," at the Smyrna Welfare Home April 12. Although the students did not have all the properties; and although they had no scenery and no stage lighting, they were equal to the occasion, presenting the pleasing performance.

For the people unable to leave their beds it was broadcasted to them in their rooms by a loud speaking system.

Tens Sponsored A Skating Party

The needs of the dramatic department are many. To start a fund for this department headed by Miss Elsie Clark, the tens sponsored a skating party April 9 at the Dover Roller Rink. This live-wire class provided the transportation, sold the tickets, and made the posters. Mrs. Stanton, one of the mothers of this class, baked a cake in order to add to the fund.

Miss Betty Lou Rinehart chaperoned the first part of the evening since Miss Clark was occupied with the final rehearsal of "The Improper Henry Propper."

Physical Education Department Schedules Baseball Games

The baseball schedule for the month of April is as follows: April 12, Greenwood, home; April 17, Caesar Rodney, away; April 19, Greenwood, away; April 24, Milford, away.

Music Department Will Present Next P. T. A. Program; Elementary Grades Will Display Art Work

Band uniforms have been received and will be displayed for the first time at the P. T. A. meeting Thurs., April 19.

This meeting will feature the annual display of art by pupils of elementary grades. A concert will be given by the school band and chorus. All parents and friends of the school are urged to attend this festival of music and art.

Biology Class Plans Original Play For Assembly

On Wednesday afternoon, Mrs. Wallace has charge of the assembly. The sophomores are presenting a play, "Wait and See." The characters are as follows: John, the gardener, Billy Mack; Mary, the gardener's wife, Betty Stanton; Jane, the gardener's daughter, Lenora Hughes, William, the daughter's boy friend, Purnal Friedel; and the Ghost, Doris Ann Cahall. Jean Maris, Claire Jester, Ellen Betts, Phyllis Hrupsa, Janet Lee Carroll, and Betty Sipple are flowers. The butterfly is Betsy Butler; the bee, Nancy Wagner; the rabbit, Marilyn Steele, and the beetle, Charles Rentz. Robert Wyatt is the stage hand. The script and costumes have been made by the class. The class invites the public to attend this assembly.

Vo-Ag Boys Are Busy

Purnal Friedel has entered the Greener Pastures Essay Contest which is sponsored by the Southern State Cooperative. The essay will be written on the proper seeding, the care, and the management of pastures.

Ronald Gourley has entered the Junior Ten-Ton Tomato Contest. To enter this contest each boy must raise at least one half acre of tomatoes and keep accurate records. The best luck to the above boys!

Buzz And The Off-Key Baritones

Reverend Lester of the church out on Hillsboro Road coaches his Young Peoples' Choir late Thursday afternoons—after high school basketball practice lets out.

Buzz Ellis pastures cows next to that church. Around 5 o'clock they used to make a lot of racket about wanting to go home. That made it kind of rough on the choir.

When Buzz learned what was going on he said to Reverend Lester: "I never yet heard of a cow that could moo on key. So, I'll just move 'em in a little earlier..." This started me to thinking. Buzz

doesn't go to that church. And he's so tone-deaf he couldn't carry a tune in a bucket!

From where I sit, you might say that Buzz didn't have much in common with those singers. But he doesn't divide folks into groups he's "with" or "agin." Your politics, your personal preferences—or the fact that you like a moderate glass of beer—mean nothing either way to Buzz. He's a real neighbor to everybody!

More Corn... Less Cob — With Southern States Hybrids

Take a look at that big healthy ear on the left. The one with the deep, golden kernels and the small but well-filled cob. It's a typical Southern States Hybrid ear. And it means more corn for you to feed. And more corn for you to sell!

You see the difference for yourself — shell out a Southern States Hybrid ear and an ordinary hybrid ear to compare. You'll get more shelled corn from the Southern States Hybrid. Remember, a few dozen of these extra kernels per ear makes a whale of a difference in your total yield.

So ask for Southern States Hybrids... the hybrids that grow more corn on less cob. Double guaranteed, they're your assurance of bigger yields.

S. S. Hybrids (large & regular flats) \$9.45 bu. S. S. Hybrids (med. flats) \$8.95 bu.

New Operation Cures Deformity Of Heart Valve

DENVER, Colo.—"I climbed a 40-foot tower at 10,000 feet," the father of a large family proudly told a group of heart specialists. Only a few weeks earlier this same man with a case record of being hospitalized twenty-nine times because of heart trouble told his doctor, "Doctor, if you threw a thousand dollars at my feet I couldn't bend down to pick it up without fear that I'd pass out."

What had brought about this radical change in a man who was practically doomed to invalidism as result of a heart condition? It dates back almost two years ago when Dr. Charles Bailey, famous Philadelphia surgeon, literally poked his finger through the patient's heart, giving surgery a new operation to combat mitral stenosis, a deformity of the mitral valve of the heart.

First of Its Kind
The first of its kind in the vast Rocky Mountain region was performed at Denver's National Jewish Hospital, pioneer, free, non-sectarian tuberculosis institution opened in Denver more than a half-century ago. A total of four mitral stenosis operations have been undertaken so far by NJH surgeons. "Although we are a hospital primarily devoted to the treatment of tuberculosis and allied chest diseases," a hospital medical spokesman said, "we know what concerns the heart must concern the lungs."

Delicate Operation
The operation can be explained simply although its skillful execution is a matter of highly specialized technique. The surgeon's knife is attached to his finger. Carefully he inserts his finger into the left auricle, feeling for the valve. Then, when he feels the valve, he allows the knife to slip past his finger tip and in one motion opens the valve so that once more the blood can properly nourish the body.

First 1950 Grand Canyon Trip Ends Without Accident
GRAND CANYON, Ariz. — The first Grand Canyon expedition of 1950 was completed without serious accident. Otis Martson, William Belknap and Wilson Taylor arrived at Pierce's Ferry after a 346 mile trip through the mile deep canyon. The trip was made in a power boat, the Hudson. Similar river trips have cost 10 lives since the first was tried in 1899.

Ever Ready Class Notes
The April meeting of the Ever Ready Class of Asbury Church School will meet in Collins Hall of the church Monday night. Mrs. William H. Wheeler, president, will preside. The entertainment will be in charge of Mrs. Roy Porter, Mrs. Dewitt Tatman, Mrs. William Cain, Mrs. Ruth Minner, Mrs. O. T. Roberts and Mrs. William S. Smith.

Psychologist Says Life Dull Without Troubles

BOSTON—A Boston University psychologist believes that without troubles life would be unbearably dull. "It is impossible to achieve perfect peace of mind, and even if it were, it would be undesirable," says Dr. Wayland F. Vaughan. "Troubles make life more interesting."

Trinity Methodist Church Notes

A more profitable and helpful hour cannot be had anywhere on Sunday morning at 9:45 than you can have in our Sunday School, which is ably superintended by Elwood B. Gruwell; and whose classes for all age groups are efficiently taught by conscientious teachers.

The Senior Choir, under the direction of Prof. Melvin Brobst, sings every Sunday morning at 11 o'clock. The Junior and Youth choirs, under the direction of Mrs. Oscar Nemesh, sing every Sunday evening at 7:30. Every Sunday evening at 6:15 the youth have their meeting in the Church Annex. Catherine Anthony is the leader this Sunday night.

The pastor preaches in the 11 a. m. and 7:30 p. m. services. Patience is usually considered as one of the many virtues of motherhood; and yet it should be practiced by every father. Really, it is a mark of greatness. Using again St. Luke 15: 11-32 this Sunday, the pastor will bring the second of four messages on "The Patience of God."

Tuesday Evening: M. Y. F. Sub-Dist. Rally at Seaford.
Thursday Evening: Choirs rehearsal.
Next Sunday: Baptisms and reception of members.

Asbury Methodist Church Notes

10:00 A. M. Church School. Classes for all ages. We are maintaining an average of 261 for each Sunday in April thus far. Will you be present to help us keep up this steady increase in attendance. Fulton J. Downing, superintendent.

11:00 A. M. Worship service, with sermon by the Rev. Eugene Hungerford, a retired minister of Peninsula Conference. There will be special music by the Cathedral and Junior choirs, and on the chimes.
7:30 P. M. Worship service, with special music by the Chancel Choir, directed by Prof. Melvin L. Brobst. Their selection will be, "Peace at Evening," by Cadman. An old-fashioned hymn-singing will be led by U. P. Morris and the worship service will be in charge of Fulton J. Downing, Lay Leader of Asbury Church. Young people especially invited, but all will be welcome.

Grass Silage
Grass silage is an ideal winter feed for dairy cattle. A much higher percentage of feeding value is saved in silage compared with hay.

Kent General Hospital Preview Well Attended

More than 1500 persons attended the preview of the Kent General Hospital at Dover Saturday and Sunday.

The program for the Kent General Hospital started Friday when Gov. Elbert N. Carvel and his staff and the staff of the hospital officially viewed each new improvement and as Gov. Carvel said, "You will have to show me from the boiler room to the roof, because hospitals are so much a part of our lives, protecting our loved ones and serving each family, and each person of the state."

Then followed the Saturday session from 3 to 9 p. m.

The preview Sunday, started with a broadcast and official inspection by president of the hospital, Senator J. Allen Frear, Jr. and his staff, together with Mayor William J. Storey.

The broadcast was opened by J. Wallace Woodford, chairman of the building committee, when he formally announced to Senator J. Allen Frear that the hospital was nearly completed and ready for occupancy. Senator Frear thanked all those who had been a part and parcel of the hospital.

Senator Frear introduced Herman H. Hanson who for 30 years worked for the success and for a good part of this time was president of the hospital. Mr. Hanson thanked Senator Frear for his words of praise.

Phillip Quick, 80, Dies at Farmington

Phillip Quick, 80, died at the home of his nephew, Jasper Quick, of near Farmington Wednesday evening, April 4, following a heart attack. He had been in the best of spirits all day and was stricken suddenly.

He was born in Rochester, N. Y., the son of Hiram and Catherine Vandermark Quick, and had resided most of his life in New York until about seven years ago when he came to live with his nephew. He was a retired gardener, having worked for the late President Roosevelt's parents. He served in the Spanish-American War and was in the Telegraph Hill Battle and many other battles in 1899.

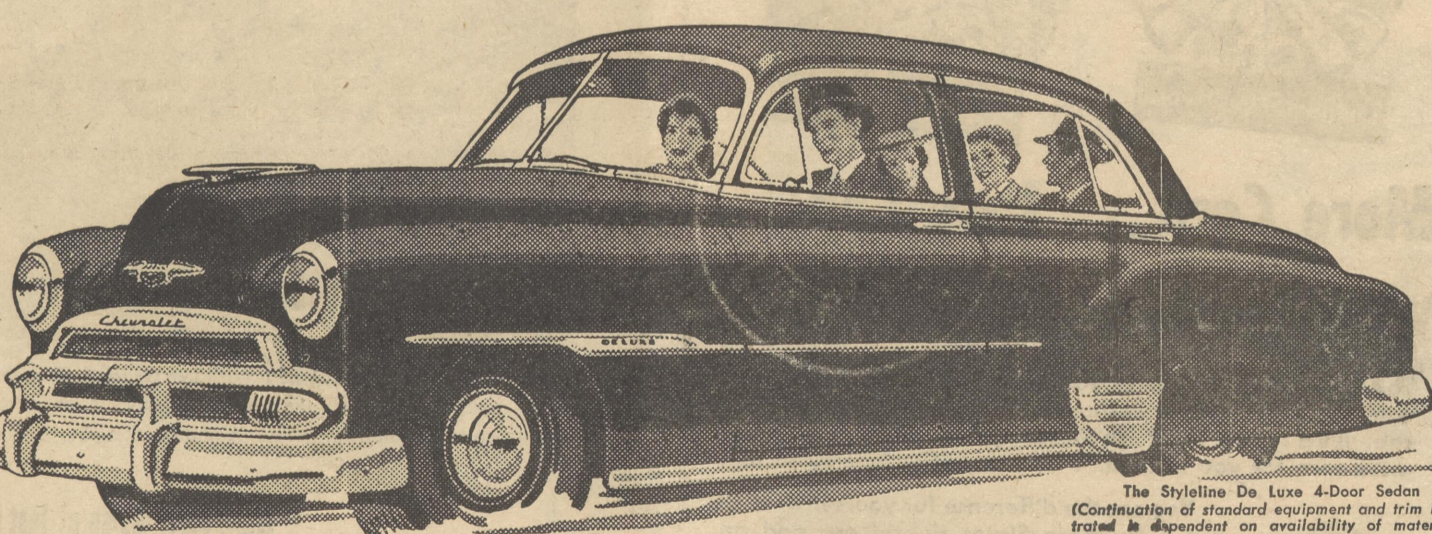

Funeral services were held at the Boyer Funeral Home Sunday afternoon in charge of the Rev. Daniel Pritchard, pastor of Trinity Methodist Church. Interment was in Hollywood Cemetery.

His wife, Mrs. Gertrude Davenport Quick, died about 15 years ago. He was a brother of the late Mrs. Austin Quick (correct), of near Farmington. He is survived by a brother, Charles Quick, of Keansbury, N. J., and several nephews and nieces.

Social Security

Queries Answered

Questions relating to Federal Old-Age and Survivors Insurance will be answered in this paper or by mail. Address all queries to Social Security Administration, Old Customs House Building, 6th & King Sts., Wilmington, Del.

Q. I have been working under social security for the past five years. I have just taken a position which is not covered by Social Security. Is there any way that I can continue payments into the Social Security Fund until I become fully insured?

A. No. Under the present law there is no provision for voluntary contributions to the Social Security Fund. However, if in the future you return to a job covered by Social Security, the wages you then earn will be credited to your same account and will continue to build up your record toward a fully insured status.

Q. My wife and I are receiving Old-Age Insurance payments. I now have an opportunity to open a small business of my own. Will we continue to receive our payments?

A. You will continue to receive your Old-Age Insurance payments. Payments are suspended only if you work in employment covered by the Social Security Act and earn more than \$14.99 per month.

Q. After reaching 65 and qualifying for social security benefits, can a beneficiary get a job and receive benefits at the same time?

A. If you become entitled to benefits, no benefits are payable for any month in which you earn more than \$14.99 in a job covered by social security. However, if you work in a job not covered by social security you may still receive your benefits, regardless of the amount earned. You should check with the Social Security Administration office where you file your claim to determine if the job is covered by the Social Security Law.

Fire Safety Campaign

Starts in April

Every farm family has received a letter on the "Stop Fire" campaign which is being carried on throughout the state during April, May, June and July. The purpose of the campaign is to cut rural fire losses in half during 1951.

4-H Club members throughout Sussex County are urged to participate in this campaign by appointing club safety chairmen, enrolling in the campaign, and presenting a program on fire prevention during the month of June.

A special safety award is being donated by the County Firemen's Association to the 4-H club and home demonstration club in each county doing the best job in the following things:

1. High enrollment of club members in the campaign.
2. Number of completions.
3. Special community activities carried on such as: Fire film and safety talk, visit of club to local fire station; local firemen to give demonstrations on fire fighting and demonstrations on fire extinguishers, or cleaning of chimneys by firemen.
4. Story of club's accomplishments.

This award will be presented to the winning clubs at a special ceremony to be held during Fire Prevention Week in October.

Farmers Join Credit Clinic

George C. Simpson, Houston, and D. E. Harris, Hockessin, will take part in the Agricultural Credit Clinic, Old College Lounge, at the University of Delaware, today.

Simpson is former president of the Delaware State Farm Bureau and a director of the Peoples Bank of Harrington. Harris is master of Center Grange, and secretary of the Delaware Guernsey Breeders' Association.

Both will address the morning session at 10:40, on "What a Farmer Expects from His Banker."

Edward F. Matthews, secretary and treasurer of the Newark Trust Company, will be moderator for a panel discussion on case studies of three actual loan applications.

Panel members are: Karl K. Brown, president of the First National Bank of Seaford; Lindale C. Fisher, president of Georgetown branch of the Farmers' Bank of the State of Delaware; and Clark M. Knotts, president of the National Bank of Smyrna.

The clinic is an annual affair sponsored by the Delaware Bankers' Association, in co-operation with the School of Agriculture, University of Delaware.

State-Wide Spring Turkey Meeting

There will be a state-wide turkey growers meeting at Milford High School, Tuesday, at 8 p. m. It is cosponsored by the Delaware Turkey Growers' Association, the Delaware Poultry Improvement Association and the Agricultural Extension Service.

Dr. E. F. Waller, head of the animal and poultry industry department at the University of Delaware, will talk about erysipelas, fowl pox, fowl typhoid, and cholera in turkeys.

Karl Seeger, of the Georgetown Experimental Substation, will tell the growers about the possible control of blackhead and encephalitis, and treatment of sinusitis with antibiotics.

W. T. McAllister, extension marketing specialist, will discuss marketing possibilities for turkeys in 1951, turkey contract agreements, and turkey broilers.

A panel discussion on "Cutting Production Costs for the 1941 Turkey Crop," will have J. Frank Gordy, extension poultryman, as moderator. The members of the panel are T. D. Rannels, University of Delaware, on feeds; Claude E. Phillips, University of Delaware, seeding good ranges; George Simpson, Houston, growers' viewpoint; Milton Gordy, Seaford, growers' viewpoint; and Karl Seeger, diseases.

Bill Sloan, Sussex County assistant agricultural agent, will preside over the meeting.

Cheapest Dairy Feed Is Still Pasture

Even though the cost of farming is going up, pasture is still the most economical source of feed for livestock. That's what County Agent Tarbell found out after last season's greener pastures contest in Kent County.

Twenty-three dairy farms in Kent County entered the contest. Wherever there was a good pasture program, dairy farmers produced more milk at a greater profit. Runners-up to pasture as best feed buys are hay and corn silage. Grain was the most expensive feed being used in the county.

Isaac Thomas of Marydel and Steve Szelestei of Hartly, among others in the county, obtained many useful suggestions from being in the 1950 contest and expect to profit by revisions of their pasture system during 1951 and thereafter.

Kennebec Potato — Good In Del., Saves Copper

The Kennebec variety of potato, released two years ago by the National Potato Breeding Program, is a promising variety for Delaware.

According to figures from variety and strain trials, conducted by E. P. Brasher, of the horticulture department and agricultural experiment station, University of Delaware, Kennebec produced 316 bushels of U. S. No. 1 potatoes per acre. This was the sixth highest record of the 35 varieties tested.

Besides high yields and good cooking quality, Kennebec has the rare quality of high resistance to late blight of potatoes, said Brasher. This resistance makes heavy spraying with copper fungicides unnecessary.

Twenty million pounds of copper is used annually for potato sprays, said USDA officials, and any saving can be a great gain to the defense effort.

Half a million bushels of Kennebec seed stock will be available for planting in the U. S. this spring.

GIVE THEM A SQUARE MEAL!

Beacon Complete Starter for 1951 contains all the known nutritional requirements for the first 8 weeks of balanced chick development. More, it may now be ordered with NITROSAL. Beacon experiments on more than 80,000 birds indicate that a NITROSAL feed produces faster growth, higher feed efficiency, better protection against coccidiosis, better pigmentation on skin and legs—and greater flock uniformity.

A BEACON PROVED PROGRAM

Cheapest Dairy Feed Is Still Pasture

Even though the cost of farming is going up, pasture is still the most economical source of feed for livestock. That's what County Agent William H. Henderson found out after last season's greener pastures contest in Sussex County.

Twenty-eight dairy farms in Sussex County entered the contest last year as compared to 48 this year. Wherever there was a good pasture program, dairy farmers produced more milk at a greater profit. Runners-up to pasture as best feed buys are hay and corn silage. Grain was the most expensive feed used in the county.

Pastures visited by the Greener Pastures Committee this year have shown real promise at this early date. Small grains including rye and barley along with rye grass are providing early season grazing. Most of the farmers visited are planning to use Sudan grass for grazing during July and August. This plan calls for seeding the sudan grass about May 10 at the rate of 25 pounds per acre and using 500 pounds of 5-10-5 fertilizer per acre.

2 WAYS TO GET MORE EGGS!

Feed 'em... SUPER LAYING MASH \$4.90 cwt.

Feed 'em... EGG-MAKER \$4.55 cwt.

The favorite laying mash of commercial poultrymen. Contains 20% protein fortified with extra amounts of vitamins and minerals. These "extras" mean more eggs, more profit and better all-around flock health. Try this mash for the commercial, high-producing flock.

Here's an "economy" feed designed for the small farm flock. Contains 20% protein plus the required vitamins and minerals. Excellent for birds on range. If you want to earn more egg money from your flock, give Egg-Maker a try.

OTHER POULTRY FEEDS

Super Breeding Mash .. \$5.15 cwt.
For higher hatchery egg production

Starting & Growing Mash \$5.25 cwt.
For chicks up to 12 weeks.

He gets a picture of the weather by Long Distance

Tomorrow's weather is on the wires today for the forces which guard this Nation's skies and shores.

Today the largest Long Distance network of its kind brings them detailed "isobar" weather charts around the clock.

These charts are sent by a system known as "facsimile" from the Weather Analysis Center in Washington, D.C. There, an electric eye scans the weather "picture" as it turns on a special drum. The signal waves produced go out over thousands of miles of wire to military installations throughout the country where the picture is automatically reproduced.

This weather network was designed and completed in less than two years. It's another demonstration of the importance of Long Distance to the security of our Nation.

HADACOL Will Help These Conditions When Due to Such Deficiencies

Mrs. R. H. Holder, 221 Columbus, Montgomery, Ala., is the mother of two children and has two grandchildren. This young grandmother works as an inspector at a glass company in Montgomery. She says: "I was nervous and run-down and I had lost weight and had no appetite—food just didn't interest me. I had aches and pains. I felt miserable. My mother started taking HADACOL and it did her so much good that I decided to give it a try. After the first bottle I noticed an improvement. I have now taken six bottles and feel grand. I am no longer nervous or run-down. I have loads of energy. I have a big appetite and have regained the weight I had lost. No more aches or pains either. Today I feel wonderful, just wonderful, and I owe it to HADACOL for it has done so much for me. I just can't praise it enough."

James D. Singletry, 236 Oak St., Louisville, Ky.: "Before I started taking HADACOL there wasn't a person in the world who could get along with me—seemed like the least little thing would upset me. I was tired all the time and it really affected my work. I had a hard time sleeping—just roll and toss and cat-nap all night long. I didn't eat properly either. Then one day I heard how other folks with the same troubles I had were being helped by HADACOL. I tried it and noticed an improvement after the first couple of bottles. Now I feel good—get along with everybody—I'm not a bit nervous—sleep like a log and appetite—why, I can hardly support myself, I eat so much. Yes, sir—HADACOL is really fine and I recommend it."

Mrs. Flavia C. Kaufman, 2436 70th Ave., Baton Rouge, Louisiana. "I have been taking HADACOL for over a year. Before I started taking HADACOL I was terribly nervous and upset all the time. I was underweight and just couldn't eat at all. My appetite was so lax that I ate irregularly at all hours of the day. Then I started taking HADACOL. After the third bottle I felt 100% better. I have gained weight, my appetite is tremendous and, best of all, I sleep well nights and my nerves are steady as can be. HADACOL is a very wonderful product. I just can't praise HADACOL enough."

Mrs. Jennie Lee Adels, 412 N. 27 St., East St. Louis, Ill.: "I have been a nurse for over 14 years. My food never seemed to agree with me. I heard one day how so many folks were being helped because of HADACOL. I tried it and after 3 bottles I could tell a big improvement. Now I eat anything I want—sleep well and I am full of energy." HADACOL does not bring just symptomatic relief. HADACOL now makes it possible to actually relieve the cause of annoying aches and pains, certain nervous disturbances, and a general run-down, weakened condition when due to deficiencies of Vitamins B₁, B₂, Niacin and Iron.

SENATOR DUDLEY J. LeBLANC

Whose Tireless Efforts For Relief Of Suffering Have Brought Humanity Today's Great HADACOL

This great product, that has brought so much happiness and contentment to thousands, is a fitting tribute to, and high point in, Senator Dudley J. LeBlanc's ever-continuing fight for the cause of the oppressed, the underprivileged, and needy of every walk of life.

The Father of Old Age Pensions in Louisiana, Senator Dudley J. LeBlanc was the first candidate for governor to advocate a specific plan for the aged. To his critics, his opposition, in the long, lone fight, he has continually stated, "If you do not believe in Old Age Pension, remember the mandate of the Lord himself—'Honor thy Father and thy Mother that thy days may be long upon the land which thy Lord thy God giveth thee.'"

And the Senator has championed the cause of the veterans. In him they have found a true friend. He introduced and successfully passed the law that created the State Service Commissioner whose duty it is to see that every service man receives his just compensation from both State and Federal governments. His activities in public life in behalf of the working man are too numerous to mention here.

And now, through endless effort and study, he has developed today's great HADACOL, one more addition to his long record of service to humanity. It was logical that with service to mankind uppermost in his mind that the Senator would seek and find this wonderful HADACOL formula.

Why Wait? Why experiment? Why give up? Why suffer from a lack of Vitamins B₁, B₂, Niacin and Iron? Why not make up your mind to start taking HADACOL today with the positive assurance that it will help you if you suffer from such deficiencies or the Senator will gladly send back your money? You have to be satisfied, and since Senator LeBlanc has proven by his past activities that he is your friend, you know you can depend on what he says and what he does.

Ask for HADACOL right away. Trial size bottle only \$1.25; large family economy size \$3.50. There is only one true and genuine HADACOL. If your druggist does not have HADACOL, order it direct from The LeBlanc Corporation, Lafayette, Louisiana.

WHEELER RADIO STORE NEWS

I have been telling you about wall paper at different times and believe you me the response is terrific, but I still have many, many bundles still waiting for buyers. Think of getting ceiling paper for 35 cents a double roll when old newspapers and paper boxes are selling for more than 50 cents a hundred.

All our papers are marked as low as we can possibly do so come in look them over.

Pick out what you need and make your home look like it should — bright and cheerful. Borders two pennies, not nickels, per yard.

I know by now you are saying well I guess I better see Wheeler about that gas range and you said right as I have several for your selection and will supply you gas either bottled or metered.

Even if you buy your stove elsewhere we will be glad to install same for you and furnish gas as well.

As you all know by now General McArthur has been relieved of his duties and Lt. General Ridgway took his place. To my mind they are both good men and of course is what we, the United States wants. The best.

In speaking of the good may I call your attention to the fact that Philco has the very best trained mechanics to build you many products that tops them all. For instance lets talk a little about refrigeration. Did you know Philco builds a refrigerator with a freezer all the way across the top for just a little over \$200?

Then again if you have a larger family and want more frozen foods, they have built that also. In fact between the freeze chest and the refrigerator itself is all any family needs.

It was very unfortunate that the recent fire in the Milford Food Locker plant happened but it has made many people see the advantage of owning one of their own.

Philco builds an eight cu. foot which is nice for the small family then of course they thought of the larger family and have built a twelve.

The fire of course has made a sudden drain on the immediate supply, but place your order now and it won't be long before that freezer locker you have long waited for will be paying you interest and best of all it can be of course, a Philco.

Have you made up your mind yet, when you want us to install that Philco TV?

Television is here and not only that but your neighbor is surely getting many good things that you can have also. Two-thirds of televisions in Harrington are Philco and why not, when you can get the truest picture ever seen on any screen when you buy a Philco known for quality the world over.

Think of a woman weighing over 200 pounds standing on the door of an electric range? Well that is true and that I did myself to show you how well the ranges are built.

The oven door gets many slams during the lifetime, but Philco says let it slam and be done as they are made to take it. See Wheeler's Television Center for cash or credit Phone 541 Harrington

CIVIL DEFENSE (Continued from page 1)

for lower Kent and all of Sussex Counties. Pointing out that 15 per cent of the casualties after the atomic attacks in Japan were due to such rays, Col. Lee said it "was essential that every community have one of these teams."

Health and medicine—To establish an emergency hospital is the big job of this division, headed in Harrington by Doctors W. T. Chipman, Hewitt Smith, and Robert Smith. Blood typing of everyone in the state has been discussed. This unit will also have charge of the establishment of morgue facilities.

Security group—Fire auxiliary, headed here by Douglas Mills; a police, headed by Charles Tatman, and plant security. There are now 1500 civil defense auxiliary policemen in Delaware, most of whom are getting ready to finish a 20-week school. Plant security covers industrial plants, schools, and institutions. The local schools have been training for some time. We have no institutions and plants will probably be handled by the government.

Highways division—This division has completed its work at a state level. Its task was to designate military and evacuation routes; to take inventory of heavy duty road equipment, and personnel.

Welfare and Evacuation—Transportation of evacuees and their temporary care. This division is supposed to be headed by the local Red Cross representative. Harrington has none. Shelters have been established in the state. Some have been furnished with food, clothing, and medical supplies. Thousands are taking home nursing and first aid in the state. A person is needed in each home who knows first aid. In answer to a question after the meeting, Col. Lee said the Red Cross would make an instructor available for a class of at least 20 persons.

Block warden division—The keystone of the civil defense program.

Civil Defense Is Permanent

James V. Richardson, chief of the block warden division of the state, was quite emphatic when he said the civil defense program was a permanent thing and that it was designated to last as "long as you and I live."

He was equally emphatic when he said: "The whole program is based largely on self help from each locality. . . . The government can never have enough money and personnel to help every community. It can happen here. It can mean the difference between 10 persons and 65 persons getting up and walking away (after an attack)."

Other divisions cannot function unless there is a block warden division to back them up, the chief warden commented.

Duties of a Block Warden

Highlighting the duties of a block warden, Mr. Richardson said it was primarily a job of education and it was a job everyone could do. At least 50 per cent of the personnel could be women. Through a training program to be set up in each locality, wardens would be taught how to avert panic, first aid, fire protection, rescue work.

"Delaware requires some 12,000 to 15,000 persons for block wardens," Mr. Richardson continued, in stressing the size of the project. This would be roughly a warden and two assistants for every 25 families.

Additional duties of all wardens would be to know all about the buildings and occupants in their district—how many residents at night, during the day—places of safety, storage of inflammables—those to call on in time of disaster, such as doctors and mechanics.

"It is the most important job we've ever faced. The problem will be, in many ways, to arouse the people to the necessity of the job; one half of the world is against the other half," Mr. Richardson concluded.

George W. Hall, of the Red Cross and the Welfare and Evacuation Division of the State Office, who was listed as a speaker at the meeting, was unable to attend because of illness.

Chevrolet sold over 350,000 units more than its nearest competitor last year OFFICIAL REGISTRATION FIGURES

CHEVROLET AGAIN AMERICA'S BEST SELLER

What does this mean to you?

It's mighty important to you, here in this community—that all over America, Chevrolet cars and trucks out-sell all others by far. It's important to your pocketbook. It's important to your pleasure. The reason for Chevrolet's overwhelming popularity is Chevrolet's overwhelming value. People buy more Chevrolet cars and trucks because Chevrolet cars and trucks give them more for their money. Chevrolet gives them so much more that for over twenty years, now, Chevrolet has held undisputed sales leadership. Being so popular, Chevrolet commands the biggest price at trade-in time, too.

Folks around here are just as smart as anybody. That's why you see so many Chevrolets on our streets.
