## FREE LIFE INSURANCE

Everyone needs life insurance and if it is free it's a real bargain. Training in Civil Defense is FREE life insurance. YOU may be called upon to save a life and it may be YOURS!

Before you adopt the "it-can't-happen-here" attitude, read these statements of Civil Defense Administrator Millard Caldwell:

"The Russians have the planes and the bombs to deliver an atomic attack, in force, on a dozen or more of our major cities at any time.

"There is nothing we can do to stop such an attack. General Hoyt Vandenberg of the Air Force has said that at least 70 per cent of an attacking force would get through.

"Such an attack could be made on any American city, at any time, with little or no warning. As our radar and warning systems improve, it may be that we can count on as much as a half-hour of warning but right now we can hope for 1 to 2 minutes at best."

Those interested in Civil Defense, or Free life insurance, for Harrington, should act right away.

The Civil Defense police school urgently in need of recruits. Applicants go to the American Legion Home, on U. S. 13, at 7:30 p. m. Tuesday.

Those interested in becoming block wardens, an extremely important part of Civil Defense, should contact Jehu Camper, the chief warden, phone Harrington 485.

There are many other jobs in Civil Defense. If you are in doubt as to what you can do, see C. H. Burgess, civil defense director, or phone Harrington 206. Women are urgently needed in the program. Inhabitants in rural areas are invited to take part.

## Clinic Director to Recommend Speech and Hearing Services For Cerebral Palsied Children

Dr. Harold Westlake, director of the speech and hearing clinic at Northwestern University, will conduct clinics in Delaware Tuesday and Wednesday to recommend speech and hearing services for cerebral palsied children on the register of the State Board of Health.

Dr. Westlake accepted an appointment last year to act as consultant for the Crippled Children's Services of the State Board of Health. He is particularly qualified for this work through a period of study with Dr. Winthrop M. Phelps, nationally known orthopedic physician who has specialized in cerebral palsy.

Children to be seen at his clinics in Delaware are selected by the speech and hearing therapists of the State Board of Health. Twenty-three children have been included. Eight will be seen with Dr. Phelps when he makes orthopedic examinations Thursday. This will be an unusual demonstration of joint consultation relating orthopedic findings with speech problems. Such

a combined clinic has never been held in Delaware nor in many other states.

The clinic Tuesday will be held at the Governor Bacon Health Center. Wednesday Dr. Westlake will speak to the staff of the Crippled Children's Services of the State Board of Health at 9:30 at the Murphy School at Dover after which he will examine two children from the downstate area. Two others will be seen in the afternoon. The staff meeting is open to speech and hearing therapists and other interested persons in allied fields.

## Frear Urges Strengthening Of Unified Opposition Against Communism

### Rotarians Hear Burgess on Defense

C. H. Burgess, civil defense director for the Harrington area, addressed the Rotary Club Tuesday evening on the reason for civil defense, the organizing of the program in Harrington, and what was needed to put the project over. He was introduced by Cliff Miller, program chairman.

Burgess pointed out that the state was vulnerable to attack. He sketched the Harrington civil defense organization and added that the civil defense auxiliary police school was still in need of members. The school is being conducted every Tuesday at 7:30 p. m. at the American Legion Home on U. S. 13. Members of the Delaware State Police are conducting the school.

The defense director added that some block wardens were still needed. Volunteers should contact Jehu Camper, senior block warden, phone Harrington 485.

Rotarians were told that the ground observer corps in Harrington was in need of financial sponsorship by some local body. To date, no state or federal appropriations have been made for civil defense.

A Rotarian, Walt R. Myer, of Pensum, has been named head of the Welfare and Evacuation Division of the local defense program. A duty of the division will be the conducting of first aid classes by Red Cross instructors.

### Three Arrested In \$640 Theft

Two men and a woman were in the Sussex County jail in Georgetown Wednesday, as the result of a week-long investigation by police into the disappearance of a wallet containing \$640.

Police said they followed a trail of \$20 bills to a cannery labor camp to find the trio of suspects. The wallet and money, property of Fenwick A. Thompson, of Bridgeville, disappeared while Thompson and some friends were occupied in debate in Frank Carter's service station in Bridgeville last Wednesday.

Most of the money was in \$20 bills. Bridgeville police, assisted by state police, Tuesday recovered the wallet and \$495 of the original sum, and arrested George Dewey Marshall, 47, on a charge of grand larceny; Columbus Evans, 34, and his wife, Mrs. Addie Evans, 42, on charges of receiving stolen money. All are residents of Bridgeville.

Arrested before Magistrate William P. Short of Bridgeville, the three were committed to jail in default of bail to await trial in the Sussex County Court of General Sessions.

Police said Thompson placed the wallet with the cash on a desk in the service station office.

### Falls Unnoticed

Unnoticed and during a discussion of a business deal, the wallet fell to the floor. After Thompson and the others left the gas station, Marshall, an attendant, walked in picked up the wallet and put it in his pocket, police said.

Later in the day Marshall took the wallet and money and turned it over to Addie Evans, who turned part of it over to her husband, Marshall and the Evans couple live at the "Acres," labor camp for the H. P. Cannon Cannery.

According to police several gambling games, such as craps and a game known as "tonk," followed and \$20 bills were circulating widely through the "Acres."

### Disappearance Traced

State and Bridgeville town police finally traced the disappearance of the wallet to Marshall, they said, and then to the "Acres." After continuous investigation the wallet was traced from Marshall, to Mrs. Evans, and then to Evans, and finally it was located hidden under the seat of an abandoned wrecked automobile in a dump in a woods two miles west of town.

The money remaining in the wallet and that recovered from the residents of the "Acres" brought the total up to \$495, a reduction of \$145 from the amount Thompson said it contained when it disappeared.

United States Senator J. Allen Frear has urged the preservation and strengthening of our unified opposition against communist imperialism in the face of the controversy over General MacArthur's dismissal. In a special statement, Senator Frear declared, "We must not lose sight of the fact that the Soviet leaders would like nothing better than to see this country split over our foreign policy." He warned that this is the type of dissension which encourages confusion, not only among ourselves but among our allies who are looking toward the United States for leadership and guidance.

Mr. Frear praised the tribute of welcome which is being accorded to General MacArthur upon his return, and the senator expressed the hope that the general would appear before appropriate Congressional committees following his address to the Senate and House of Representatives. The senator lauded MacArthur's conduct of the Pacific Campaigns during World War II, as well as his management of the occupation of Japan.

In reference to the Korean War, Mr. Frear strongly opposed an invasion of the Chinese mainland by the United States. He said that the cost in lives and the financial burden would be staggering. "What is worse," the Senator added, "is that while our forces were making war against the millions of Chinese, the Soviet leaders could proceed toward the conquest of Europe—a far greater prize."

Senator Frear said while the Russians could launch an all-out campaign in Korea or elsewhere at any time, he is hopeful that the Communists would pay heed to their losses in North Korea and be convinced that aggression is not profitable.

In conclusion, Mr. Frear declared that our best defenses against Soviet threats lies in a program of collective security with other countries of the North Atlantic alliance.

The Senator also thanked Delaware citizens who have written or wired him in the past week concerning the MacArthur incident.

HOW TO "CLICK" as a Party-Line Neighbor
1. When you start to make a telephone call and find your party line in use, hang up gently and give the other person a few minutes to finish his call.
2. When, while talking, you realize that your neighbor is waiting to make a call, hang up reasonably soon and free the line.
These little courtesies are returned again and again... with dividends in good telephone service. When party-line neighbors cooperate courteously, everybody benefits!

'ALL SHOUTING IS A TRANSITORY THING'
In every grill, in every barber shop, in every office, on every street corner, in every city and hamlet people are shouting—and the subject is one: Truman vs. MacArthur.

The fact they know but little or nothing about why they are shouting makes no difference. They have vocal chords, bless them, and they have a perfect right to exercise those vocal chords. They are doing so.

Not one in ten thousand, whether he is for Truman or MacArthur, knows what he is talking about. It takes a person with an unusual knowledge of history, economics, psychology and a lot of kindred subjects to even approach a sensible discussion of the matter—and he doesn't know.

Truman did it so he could fill his pockets with money, Truman wants the communists to win, MacArthur wants to be Emperor of Japan, MacArthur has a lot of money invested there and that's why he wants to stay with it.

Anyone will admit that MacArthur was guilty of subordination, not once, but many times, and didn't MacArthur himself help courtmartial General Billy Mitchell?

His father, General Arthur MacArthur, was top general in the Philippines when President Theodore Roosevelt sent William Howard Taft, later to become President, and a commission over there to set up a civil government.

General Douglas MacArthur is a brilliant, fascinating man, a military genius with a flair for the dramatic. He would have been a tremendous success on the stage, for he is a superb actor.

'CAP' DILLON HASN'T RETIRED
The Wilmington papers tell us that Major Clarence M. Dillon, better known as 'Cap,' has retired from the Delaware Chamber of Commerce after 33 years' service.

By organizing and operating the community protective service, he saved the business men of Wilmington untold amounts of money by protecting them from fraud.

He was connected with the former First Delaware Infantry and the Delaware National Guard and was called to service in the Spanish-American War. He served as an infantry captain in World War I and was active in the Organized Reserve Corps.

He was active in the fire companies and for 37 years was a leader in the Boy Scout organization. He was a newspaper man, with both the Morning News and the Evening, was clerk of the City Council and for 30 years a member of the Delaware Board of Pilot Commissioners and secretary-treasurer of the organization.

This is barely skimming the surface of the valiant work he has contributed to Delaware and the nation—and now they say he has retired!

'Cap' Dillon hasn't retired—he can't retire! Though his efforts may be less strenuous, he will continue to contribute in many ways to every humanitarian measure and inspire his co-workers to greater effort.

By the way, 'Cap's' custom of picking up nails in the streets and on the highways to protect motorists prompted us to write the poem, 'Picking Up Nails,' which appeared in the January issue of The Rotarian Magazine.

Chronicle Supplement of 1900 Lambasts W. J. Bryan

'BUSINESS MEN A UNIT—THEY PRESENT A SOLID PROOF AGAINST BRYAN, FROM MAINE TO TEXAS; HIS ELECTION WOULD BRING DISASTER,' thus reads the heading of an article in a supplement to THE CHRONICLE, Milford, Del., August 24, 1900. The supplement belongs to Nyle Callaway, who found it in an old trunk.

The supplement was a two-paged affair, with all of the editorial content giving arguments as to why William Jennings Bryan should not be elected president, and why William McKinley should. Bryan favored a silver standard, as against a gold standard. He, apparently, was little regarded as a candidate for the presidency until he made his famous 'Cross of Gold' speech at the Democratic national convention.

Social Security Queries Answered

Questions relating to Federal Old-Age and Survivors Insurance will be answered in this paper or by mail. Address all queries to Social Security Administration, Old Customs House Building, 6th & King Sts., Wilmington, Del.

Q. How much are retirement or survivors payments?
A. Retirement payments range from a minimum of \$10 per month to \$45.60 per month (1950). A wife's payment; a child's payment, or a dependent parent's payment is one-half the retirement amount; a widow's payment is three-fourths of the equivalent retirement payment.

Q. When should application for Old-Age and Survivors Insurance be made?
A. Application should be made promptly when the worker reaches age 65 or after his death. Benefits do not pile up. Part of the payments may be lost by delay in filing. Remember, benefits are never paid automatically. They must be applied for.

Q. I have two social security numbers. What shall I do?
A. Visit your nearest field office of the Social Security Administration as soon as possible so that one number may be cancelled and all your wages credited to the other number. Otherwise you may experience considerable delay and difficulty in collecting either unemployment or old-age insurance benefits.

## State Plant Pathology and Apiary Department Give Valuable Service

No evidence of golden nematode, a disease of white potatoes, was found in Delaware last year, according to the report of W. R. Hickman, plant pathologist and state apiarist, issued recently as a bulletin by the State Board of Agriculture.

The report stated that the state, in co-operation with the federal

the recommendations for their elimination and control. Reinspections are made at a later date to confirm the clean up of the pests. Special inspections are made for individuals who wish to send small shipments of plant material out of the state.

Bureau of Entomology and Plant Quarantine, collected 1379 soil sample lots, representative of 2152 acres and that no evidence of the disease was found in any of the samples.

The Plant Pathology and Apiary Department of the State Board of Agriculture inspects and certifies nurseries, greenhouses, and strawberry fields from which

state are required to have their plants inspected at least twice a year. Fourteen fields were inspected last year.

During May and June of last year, the department inspected random samples from shipments of southern-grown tomato transplants. The plants inspected showed no evidence of early or late blight upon arrival. However, a

small amount of bacterial wilt showed up in one field of southern-grown plants.

The Plant Pathology Department issued one permit and denied four to plant white pines in those areas of the state where planting is not prohibited. The department is attempting to control and suppress the white pine blister rust disease.

The Apiary Department inspected 1184 colonies of bees last year, of which 25 were found to be diseased and were, consequently, destroyed.

In keeping with the policy of the department for the past years

plants are to be shipped to other states, examines incoming shipments of tomato transplants, enforces the provisions of the white pine blister rust quarantine, and inspects all apiaries for serious disease.

The department co-operates with the United States Department of Agriculture and offers service to the growers in the state.

The department inspected 34 nurseries last year and certified them as apparently free of dangerous and injurious plant pests. Regular inspections are made in June, August, and Sept-

Scouting was carried out by the department to eliminate Dutch elm disease and four trees were destroyed.

Little Known

Selenium, a metal little known outside the industrial field, has a unique role in the manufacture of glass. It neutralizes the green color caused by iron impurities, and when added in sufficient quantities, turns the glass to a ruby color.

Bridgeville Youth Is Outstanding In Club Work

The thrill of being singled out as winner in the 4-H Field Crops program will never be forgotten by Jacky Ray, 16, of Bridgeville.

Study of new cultivation methods and seed treatment enabled him to do an outstanding job. As Jacky's interest in his projects increased with each year in 4-H, so also did his rewards. To the acre of peppers he tended in 1947, he added a swine project and a 50x75 foot garden.

From 14 exhibits entered at Kent & Sussex Fair he received five seconds, four thirds, and four fourth place awards. At National Junior Vegetable Growers Association judging contest, he won a trip to New Orleans, La., to attend the national convention. Jacky gave a demonstration on seed treatment as a member of county team and placed second in the state contest. International Harvester provided a trip for him to the National 4-H Club Congress in Chicago last November.

## Poultry Award Winners Show Many Accomplishments

Joe Cataldi, Camden, a junior at Caesar Rodney High School, won the 1951 state FFA award, given annually by the Delaware Poultry Improvement Association.

Joe has raised 78,400 broilers since he was a freshman member of the Caesar Rodney Chapter. He received all the profit on 300 of these broilers, and ten per cent profit on the other 78,100. His cost to raise these broilers was 23½ cents per pound.

Joe's scholastic average is above college certification standards, he is on his Chapter Poultry Committee, has judged at FFA judging contests, exhibited at fairs, and helped with many chapter activities.

Martin Johnson, Laurel, member of the Sycamore 4-H Club, has done a lot for a young man of 16. A few of his 4-H poultry accomplishments are: Member of the first place judging team at the 1949 Delmarva Chicken Festival; member of Delaware's judging team at the 1949 NEPPCO contest; 1949 seventh place winner, Junior Chicken-of-Tomorrow Contest; 1950 state winner, with David Elliott, also of Laurel, of the State Poultry Demonstration Contest; presented caponizing demonstrations at local 4-H meetings and DPIA meetings with David Elliott; was a delegate to National 4-H Club Congress in Chicago last November; as state winner in 4-H poultry projects; and finally—is state winner of the 1951 DPIA award.

Martin has kept records on 21,500 broilers in his two years of 4-H poultry work. He has also carried dairy, swine, baby beef, field crops, and tractor maintenance projects.

He is a senior at Laurel High School and ranks in the upper third of his class.

Consumption of Fertilizer

Consumption of nitrogen fertilizer in the United States is now more than twice the prewar level and is expected to continue rising over the next few years. There is a brick demand for nitrogen in the United States and if commercial production should increase it would probably be taken by the farmers of this country. Only small quantities of commercial products would be left for export unless a set-aside program were instituted.

## Early and Late Tomato Plants

We will have early tomato plants from Georgia around April 25th and late plants from Virginia starting about May 20th.

You have, no doubt, heard much talk about the shortage of all tomato products and how this is going to affect the coming season. There is certainly going to be an increase in the acreage.

The canners are not going to be able to use as many baskets per day as in the past due to labor shortage. With increased acreage and less capacity in the canneries we might, therefore, run into a serious glut this fall. So many growers are going to put in early tomatoes, therefore wouldn't it seem wise to consider some late tomatoes. We know that your yield is usually less but the price is better and more stable during the latter part of the season. Why not put in some plants the latter part of the season.

Buy direct from the plant farms and save. Upon request we will quote our prices.

We are contracting tomatoes for a Pennsylvania canner. We want them early and are contracting on field run basis. If you are interested please get in touch with us.

### Trinity Methodist Church Notes

Most everyone is coming to realize the need for forgiveness. Whether it be "false guilt—the patient's sense of sin about something he did not do" or actual guilt, something must be done to remove it. The Christian Gospel, through the redeeming love of a gracious Father, provides such forgiveness.

This Sunday the pastor again using St. Luke 15: 11-32 will bring the third in a series of four sermons on "The Greatness of God As a Father." The emphasis will be on "His Forgiveness." New members will be received; and the sacrament of baptism will be administered.

Pat Billings will be the leader in the Youth Meeting at 6:15 p. m. in the Church Annex. The Senior Choir sings in the morning service at 11 o'clock, following the Sunday School session at 9:45 a. m., and the Youth Choir will sing at 7:30 p. m.

Monday Evening: The regular monthly meeting of the official board.

Tuesday Evening: The W. C. T. U. meeting.

Wednesday Evening: The annual banquet of the Junior and Youth choirs.

Thursday Evening: Choirs rehearsal.

Railroad News

"No Parking" signs will be placed next week to break up the overflow of vehicles parking on railroad property since the in- stallation of parking meters on city streets.

This has caused inconvenience to our patrons and employes who must use our property. The signs along southbound side from shel- ter shed to Liberty Street will read, "To Load and Unload," while those on the northbound side will be "For Patrons and Employees Only, 6 a. m. to 6 p. m."

City and PRR policies will co- operate to enforce this restriction. Jinks Cahall says we can go a step farther and request the Schenley Liquor Co. to print in big letters "When Empty, Do Not Throw on Railroad."

Wade Mitchell, master carpen- ter here for the past two years, has resigned to take a position with the McGraw Construction Company in Philadelphia.

The new master carpenter is Jimmy Moore, who comes from the Columbus division where he was assistant master carpenter.

We still hear favorable com- ment from engine crews on the safety of their jobs brought about by automatic crossing gates.

To illustrate what they have in mind, let us visualize the posi- tions of Engineer Eddie North- ern and Fireman Lee Hudson on train No. 455 going south at Greensboro, Va., on the 6th of this month at 70 miles per hour when a large Esso tank truck started moving across the tracks a short "t" distance ahead. Just as the truck cleared, a big lumber truck loaded with logs started across in the opposite direction. They were just beginning to re- cover from this scare when a woman stalled her pick-up truck on the crossing at Nassawadox. Eddie applied the emergency brakes and someone pushed the truck off in time to avoid a crash.

Then at 3:48 p. m. at approach- ing the crossing at Cheriton, Va., with whistle blowing, bell ring- ing and flasher lights flashing, a car shot out on the crossing, in front of him.

This one didn't quite make it. Eddie had applied the emergency and came to a rough stop sev- eral hundred feet south of the crossing. The train was still on the track with the car and the late driver wrapped around the front of the engine.

A similar disregard for warn- ing lights occurred on the new Hillsboro by-pass Thursday of last week when Engineer Dan Hit- chens and conductor Walt Grimes were moving their train across the highway, with flasher lights flashing and two electric hand lanterns on rear, a car traveling at high speed struck the cabin car, knocking it off the track, killing the driver and badly shaking up the crew.

These are only a part of the daily life of the men in overalls.

We would not take from an old soldier grave even the humblest bloom nor save one word from the tribute which is his right for heroism midst the daring fight. All honor is due him but forget not those who live and die in their overclothes.
