

## Felton School District to Hold Referendum To Retain Teachers

The Felton Board of School Trustees Monday announced that resignations had been submitted by three teachers and that referendum for the voters of the Felton School District will be held Sat., May 12, to determine the wishes of the voters regarding a special tax to be levied for the next two years for the purpose of paying the salaries of two replacements.

Miss Shirley Supple, teacher of grades two and three, has resigned for reasons of health and will not be replaced. Jack Corkery, athletic director and coach, has resigned and plans to enter the business field. Miss Grace Dearstine, instructor in music, has also resigned. She plans to be married this summer and withdraw from the teaching field.

The referendum will be held at the Felton School between the hours of 2 p. m. and 5 p. m. simultaneously with the election of school board members. Voters of the district will express their willingness to support a local tax of 15c per \$100 assessed valuation of real estate and \$2 capitation tax, the proceeds to be used for hiring replacements in the fields of music and physical education. The board has also announced that the proposed tax for debt service for the coming year will be 15c per \$100 on real estate and \$1 capitation tax. The total local tax levy if the proposed teachers' salary tax is approved would be 30c per \$100 on real estate and \$3 capitation. This is only a slight increase over the rates for 1950.

Plans for a general public meeting to discuss the issues involved are now being formulated and will be announced shortly. The referendum has been made necessary by the terms of the unit-allotment law which limits the number of teachers supported by state funds to the number of pupil units enrolled in the school.

An army of nearly 150,000 women has been mobilized by the auxiliary to carry out the nationwide distribution of the poppies. Mrs. French said. All will serve as unpaid volunteers and all the contributions they receive in exchange for the flowers will go into the rehabilitation and welfare funds of the American Legion Auxiliary. ### Mar-Del Circuit Ushers in 11th Season

By Pat Knight

Baseball will steal the show in lower Delaware this Sunday afternoon as the greatly revamped Mar-Del Circuit ushers in its 11th season with contests carded at Clayton, Frederica and Millsboro. On the following Sunday the scene will shift to Hickman, Milton and Wyoming.

Blowing off the lid of the 1951 campaign will be only one hold-over from last year, Pop Michael's Wyoming nine. Marking their debut will be Clayton, 1950 NBC League pennant winners; Milton, 1950 Peninsula Circuit pennant victors; Frederica, 1950 Peninsula play-off champions; Hickman and Millsboro, former Peninsula League nines. Play will be limited strictly to Delaware with three teams in each county. Milton has previously had at taste of Mar-Del play having won the play-offs in 1949 after finishing in a tie for the pennant with the Rock Hall Bay-Siders.

Gala openings are being planned at Clayton, Millsboro and Frederica for this Sunday's openers. Wyoming, fresh from a 6 to 2 win over Kenton of the Bi-State Circuit, will be the attraction at Clayton, Milton and Frederica will clash on the latter's diamond while at Millsboro, Hickman will be the visiting nine.

Long practice sessions completed the pre-season tune-ups during the past weekend. From all reports most of the teams will go along with practically the same line ups as last season with a sprinkling of new comers here and there. At Clayton, manager Tom Kennedy, a veteran campaigner, will probably give the nod to righthander Bob Knight with Bobby Jacobs on the receiving end. For the visiting Wyoming tilters Freddy Clemence or Dixie Howell will be on the rubber with Bill Rash as the other part of the battery.

Manager Ed Holleger, Frederica pilot, will make his selection from Jack Moore, Roy Kemp or Jim Postles with Gene Moore at the receiving end. Harry Barrett, a standout in the Peninsula Circuit in 1950, is again the big hope at Milton, and is slated to face Frederica Sunday with Manager Jesse Millman calling the pitches.

Ken Walls or Bill Hines will take the mound for Hickman as they oppose the Millsboro aggregation. Bill Howlett will be behind the plate for the visiting nine. The Millsboro battery is still in question and will not be named until game time Sunday but from all reports the Sussex nine expect to jump off in the win column.

Umpires for the openers Sunday are being assigned by League Umpire-in-chief Harold Johnson, veteran Milford official.

Openers for Sunday, May 13 will have Clayton as the opposition at Milton, Millsboro at Wyoming, and Frederica at Hickman.

### Three Harness Drivers Here Honored by The U. S. T. A.

Three sulky drivers from Delaware and one from Washington, D. C., are included among 50 who have been singled out for special consideration by The United States Trotting Association in the distribution of drivers' licenses for the 1951 season.

The association, governing body of the sport in this country and part of Canada, has adopted an achievement award system whereby licenses numbered one through 50 will be issued annually to the leading dash-winning drivers of the preceding campaign. The signal honor thus will be reserved for but a small percentage of the nation's 3200 active drivers.

License number one will go to John Simpson of Chester, S. C., who topped the 1950 list with 111 winning rides.

The Delaware drivers who craved the honor roll include Edwin S. Myer Jr., Harrington; Tom Lewis, Frankford, and Alan Myer, Bridgeville. Ed and Alan

are two of the five Myer brothers active on the harness racing sport's Maryland circuit. The fourth representative from the area is W. E. Miller, 70-year-old Washington owner-driver.

Ed Myer reined home 57 winners in 1950 to rank 30th nationally. Lewis wound up in 35th place with 55 wins while Alan Myer finished 43rd in the nation with 51 wins.

Miller, who operates a pari-mutuel meeting at his Rosecroft Raceway plant near Washington when he is not training and driving his own stock, scored 51 victories to tie for 43rd place in the final standings. In 1949 Miller was the nation's leading percentage driver with a hefty .629 average based on 105 wins in 226 starts.

Trailing Simpson in the top five were Del Miller, Meadow Lands, Pa., 103; Joe O'Brien, Canada, 103; Harry Burrig, Mendota, Ill., 95, and Bill Harvey, Canada, 92.

Story of Oleomargarine

Napoleon III, who offered a prize in 1870 for the best butter substitute that could be produced in France, was in large part responsible for the first extensive manufacture of the product. Originally made from beef fat, margarine now is derived principally from the fats and oils of plants. The buttery flavor is obtained from milk which is treated with lactic acid bacteria—the same bacteria which gives butter its distinctive taste. Margarine today is custom-built to keep up with nutritional progress and available supplies.

Kent County Farmers Visit Most Frequently Trading Center One to Nine Miles Distant

Kent County farmers visit most frequently a trading center from one to nine miles distant, according to the preliminary 1950 Census of Agriculture of the U. S. Department of Commerce.

Table showing distance to trading center visited most frequently: Under 1 mile (105 farms), 1 to 4 miles (904 farms), 5 to 9 miles (835 farms), 10 miles and over (182 farms), Average distance reported (5 miles).

Thus, merchants can see that Kent County farmers, for the most part, and despite improved road and means of transportation, go but a short distance to do most of their trading.

Conversely, it would indicate that Kent County merchants desiring to draw farm trade from over nine miles, would do well to advertise in newspapers in the area from which patronage is desired.

Happenings of Yester year

Ten Years Ago

For some unknown reason, probably inspired by the marvelous poems of Arthur Hudson and Park Brown, the "Pasture Poet from the Green, Grassy Banks of the River Nile," Wesley J. Satterfield, seven times Mayor of Harrington, has written a poem. We submit it to you for what it is worth—or isn't:

Wilbur E. Jacobs, Rev. Thomas C. Jones and J. Harvey Burgess attended the District Rotary Convention at Atlantic City Monday. Paul Hawk is attending a teachers' convention at Ocean City, Md. Lean, tender chuck roast, 21 cents per pound; butter, 38 cents per pound.

Twenty Years Ago

Wish I SPRING FEVER
Yonder on the Hill,
A-doin' nuthin' all day long,
But jest a-settin' still;
I wouldn't sleep, nor eat, nor drink—
Durned if I'd even wash;
I'd jest set—and SET fer a thousand years—
And rest myself—b'gosh.
—Wesley J. Satterfield

Social Security Queries Answered

Questions relating to Federal Old-Age and Survivors Insurance will be answered in this paper or by mail. Address all queries to Social Security Administration, Old Customs House Building, 6th & King Sts., Wilmington, Del. Q. My sister, who was never married adopted two little children several years ago. Before she died she worked for about 8 years as a bookkeeper in a wholesale house. Now she is gone, the children have no means of support, and are living with me. I am glad to have them with me, although I am not financially able to take care of them. If I could find some way to pay for their clothes and school books, I could manage. Is there any provision under the Social Security Act for such children? A. If the children were adopted by your sister, and she was insured under the Old-Age Survivors Insurance system, they should be eligible for benefits. Get in touch with this office immediately. Q. I am a single person and support my parents. If I were to die would my parents be entitled to monthly benefits? A. If your parents were chiefly dependent upon you for support and you were to die fully insured, your parents may be entitled to monthly survivor's benefits. Q. I have been working under social security for the past five years. I have just taken a position which is not covered by Social Security. Is there any way that I can continue payments into the Social Security Fund until I become fully insured? A. No. Under the present law there is no provision for voluntary contributions to the Social Security Fund. However, if in the future you return to a job covered by social security, the wages you then earn will be credited to your same account and will continue to build up your record toward a fully insured status.

Origin of "400"

"A number of the noblest families formed a council of 400 to govern Venice" during the Italian Renaissance. Today, the expression "the 400" is still used to denote the most exclusive members of society.

It is hoped that the group will resume its bible studies after the summer months.

When you wish to give new beauty to a metal waste basket, be sure that the basket is clean and completely free from rust before you begin to apply a new coating of enamel. If all traces of it are not removed, rust will continue its destruction—even though it's covered with paint—just as decay will continue in a filled tooth.

Table Tennis Legend

Table tennis originated about 1880 according to one legend it was invented by a group of British army officers stationed in India. Fretting because the rainy weather kept them from enjoying their regular tennis, these officers—so the story goes—piled some books across the center of a large table, fashioned some balls out of cotton batting and proceeded to adapt their favorite pastime to table-top conditions. The name table tennis became more or less official in 1926 with the organization of the International Table Tennis federation.

Human Eye

The human eye is as much of a wizard as Merlin. Its manifold magic is shown in almost all its functions, but take a typical one—the transmission of light waves that reach the eye and make an image on the retina. From there the energy of the waves is transformed into nerve impulse and the impulse carries the image to the brain, but not in image form. Some strange marvel takes place at that point, producing actual sight.

## Aphids Appear On Kent County Alfalfa Fields

Pea aphids or lice are showing up in increasing numbers and localities in the county on alfalfa fields. These pests will transfer readily to fields of peas and especially where pea fields are near alfalfa.

The aphid is destructive to peas and develops very rapidly in number and destructiveness. All growers of peas should inspect their pea fields at once and if the insect is found, a dust should be applied for their control.

Dust with one per cent Lindane 45 pounds per acre or 2 per cent Lindane at 25 pounds per acre. Other sprays and dusts can also be used. Call your county agent for details.

## Agent Explains Parity

"We are often asked 'What is parity?' and 'Why do we have parity?' said Tarbell, Kent County agricultural agent this week. 'Parity is a means of computing 'fair returns' for farm products," said Tarbell. "Farm prices are at parity when they have the same purchasing power in respect to the cost of articles farmers buy, that they did during the set base periods."

Under the old (AAA), the base period for most commodities was 1910-14. The Agricultural Act of 1949 attempted to modernize the base period by using a 10-year moving average. Changing the level of computing parity caused sharp changes in some commodities.

"Right now, the formula which results in the higher price, is used for basic commodities: corn, wheat, rice, cotton, peanuts, and tobacco. For non-basic commodities (all others) the same is done, except when the old formula is used, prices are reduced five per cent each year until they reach the new levels."

"Parity is an effort to keep agriculture in balance with the rest of our economy," Tarbell concluded.

It's funny how folks will keep putting off doing something about the way they feel. They'll keep the family automobile in fine working order, but too often they seem to ignore the first signs of trouble about their physical well being. Now, a lot of folks read about HADACOL pretty regularly . . . it's in the news almost every day . . . and they discover that someone else has been feeling the way they were feeling and by taking HADACOL soon felt fine again. They read case after case where HADACOL with its Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron has helped folks suffering such deficiencies. Finally they try HADACOL and from then on out these same folks who kept putting off trying HADACOL are its biggest boosters and are encouraging others not to put off taking HADACOL.

When Marcus Dee Starkey, 1896 Farrow, Kansas City, Kansas, was troubled by stomach disturbances his wife bought him a bottle of HADACOL because she had heard what it was doing for folks suffering such deficiencies and Mr. Starkey now says he blesses the day she did this for him.

Here is Mr. Starkey's statement: "Before taking HADACOL, I suffered such stomach distress after each meal I could hardly work. My wife bought me a bottle of HADACOL, and I will bless the day she did this for me. I took this wonderful discovery and after one week I was actually surprised at the results. I have now taken four of the large bottles, and that isn't all, I will continue taking HADACOL and recommend it."

**HOW TO BE AN ACE**  
on Party-Line Telephones

You'll rate tops with your party-line neighbors if you'll follow these two brief suggestions for party-line courtesy:

1. When you start to make a call and find the line in use, hang up gently and give the other person a few minutes to finish his call.
2. When, while talking, you realize that your neighbor is waiting to make a call, hang up in a few minutes and free the line.

Little courtesies, yes . . . but they pay big returns in better service for everyone on the line.

### Sulky Slants

By Mrs. Dave (Pat) Smith

Solly Swartz has just purchased a new trailer complete with bath. His wife, who was in the hospital, is recovering nicely.

Calvin Adams and daughter, Dorothy, a visitor this past week. Sam Conway doing very nicely with his horses.

Sam (the harness man) still holding fort. It still is the gathering place for as many as it can hold. They tell me they have some pretty heated words about who races the fastest miles. But old Sam enjoys it and even fixes places for the gang to sit. I don't think Dave would miss it for the world.

Nick Lاراia, of Albany, will move the rest of his horses this week up to Yonkers.

Had a nice chat with Jake Williams in our general manager's office this past week. I still say that we have the nicest, friendliest setup of any tracks.

Henry Scott and brother-in-law, Mr. Smith, visiting Charley Sutton's stable. They are on their way from Arlington, Va., to pay a visit to Yonkers.

Mr. and Mrs. Jungbluth, formerly of Long Island, and just returning from an 18,000-mile trip through the West. They are interested in buying close to the racetrack but so far haven't been able to locate anything. They are very good friends of Charley Sutton and enjoy watching his horses train.

Here is a cute one to close this chit-chat:

Gossips have been cataloged in three different types: The vest-button type—always popping off. The vacuum cleaner type—always picking up dirt. And the liniment type—they rub it in. From Oklahoma Covered Wagon.

Well, you can bet your bottom dollar spring is here. With clear skies, birds singing, flowers blooming and the sure fire sign, the thundering hoofs of the trotters and pacers as the trainers and drivers are quacking up their strides and asking more speed. "The races are on."

The hot stove circuit is discarded for another season. The horses with the unbelievable speed in the hot stove circuit will have to show it on the track. Or the good old American saying: "Put up, or Shut up."

Our race caller, Genie Anderson, out chatting in the main office, looking pretty happy about it all.

Mrs. Brinton Holloway informs me that Bobby Jester, who worked in the general office, is stationed in Hawaii. Says he receives the Harrington Journal, and it seems as tho he is near home as he reads it. And he enjoys this little chit chat column. Well, Bobby, we wish you were here to enjoy the opening of the races.

It's the same old excitement, Bobby.

Harvey Hartman, the presiding judge, and Dale Fetrow, the starting judge, out to track and very busy.

Dale Fetrow out every morning schooling the horses behind the starting gate. I guess my little colt, Roustabout, thought it pretty funny. He behaved very nicely, but wouldn't take his eyes off it. After all the gate is a flashy thing, and again something new to colts.

Booty Morris giving apples away in the main office. Booty, that won't make your horse get there any faster.

Mr. Nottingham and Bill Rippon, of Eastville, Va., were guests of Betty and Ellis Myer this past week.

Mabel, now that you have time on your hands, what are you going to do? Not by any chance going to help Jack. Or shall I laugh up my sleeve at that?

Reta Dumont helping out in Booty Morris' restaurant. Guess Reta is rather lonesome since George moved to Westbury. She won't leave till school is over for the children.

Mickey, they tell me you quite so you could go to the races with "Fuzzy Tail."

Mabel Walters has a new horse. Jack bought it for her from the Dumont Stable. Name, Ohio Boy. Good luck.

Eddy Myer along with helping his brother, Ellis, now has 4 or 5 horses in his stable. Doris always flying around I can't keep up with her.

Mr. and Mrs. Wilson (our postmaster) out riding at the track this week. Looking the horses and the grounds over.

Jim Wilson has gone to New Ross, Ind., to get Lindale Coverdale's mare who has been pronounced in foal to Jimmy Creed.

Who do you suppose was out jogging a horse this week? Charley Price of course, for fun only. Then he decided he would even like to walk one out.

Charley Hopkins out to visit Emil Adams stable. Emil has gone to Yonkers to drive a couple there. But will be here when races open tonight.

Olin Davis has shipped to Rosecroft Raceway with his stable of horses.

Mr. Davis has shipped in with his 9 head of horses.

Pop Heller has traded 8:30 for Night Flash. Night Flash was owned by the two from Houston, Elmer the Clocker, and Elmer the Banker. Just how much money changed hands, I don't know. They claim none.

Sam Short of Clover Farm Store, would appreciate hearing some of his songs played on the amplifier out here at the races.

Mr. and Mrs. L. M. Applegate have moved in with 8 head, along with Penny and her pup.

Frank Morgan, Shep, and Carl going strong at the Harry Craig stable. Carl tells me that Excell Call is back in training again and doing all right.

Mr. and Mrs. Wayd Cotter have purchased Wake Abbey from Happy Gray.

Bill Haymon is back on the job and wants to thank all the horsemen for the collection that was taken up and turned over to him by Mr. Chase.

Charley Carter pulled Olin Davis' trailer over to Rosecroft last Sunday. And spent a little time sight-seeing in Washington.

Mr. Farlow and Tommy Walters up to the secretary's office. Looks like they will be moving in real soon.

Bobby Ray has gone to Westbury to get True Bill to add to the Ray Stable.

Vincent Hanover has been added to the K-Peg stable, which is in charge of Mr. Rosencrants.

Scart with a record of 2:08 and Field Gold, with a record of 2:06 have been added to Solly Swartz stable.

Mr. Thompson and brother were visitors to Jack Walters' stable this past week. Gov. Bon-

ington, owned by Harry Rittenhouse, is now in Jack Walters' stable.

Doc Goodriche's colt, Litty-Jay, worked in 2:35 this past week. Doc very well pleased.

Jimmy Larente Sr. and Jimmy Jr. have moved in behind our stable. They are very good friends of ours from Canada. Jimmy Jr. has in his stable, Miss Bumpas, and Ante Up, for Ad. Dumas in Sherbrooke, Canada. Jimmie's father has his own stable of horses for Lucien Dugre of Sherbrooke. The Larantes and the Smith stable will be shoving off for Buffalo when this meet is over.

Spencer and very much pleased with the way they worked.

By the way this goes to press, we all will be anxious to see who will race who and how much will we win, not saying what we will lose. But that all goes to make up the races.

If Anna Day is in for the opening nite I won't be any good any way. I just seem to go limp on race nite. And if any of my friends are around they might hear me say "Come on Ann."

So long till after the races' opening nite.

third consecutive year that Field has handled the television description of the "Run For The Roses." In all he has described more than a dozen, the most famous being the 1933 race when Don Meade, on Broker's Tip, and Herb Fisher, on Head Play, staged their famous whip-slashing and saddle grabbing duel from the eighth pole to the finish line.

**Steam Turbines**  
The largest reciprocating steam engines are about 7500 kilowatts. Their efficiency is approximately 18 per cent, less than half that of the turbines. The largest commercial size diesel engine, for driving AC electrical generators, is about 6000 kilowatts.

### Bryan Field to Film Kentucky Derby For TV

Bryan Field, Delaware Park's vice-president and general manager, will really do some fast moving to handle the description of the Kentucky Derby for television at Louisville on May 5.

Immediately following the race, he will leave the racetrack with a film of the event and head for the Louisville airport with a police escort. There he will board a special plane for a non-stop flight to Dayton, O. The plane will be equipped with high speed developing equipment so that by the time the airship arrives in the Guckeye State, the film will be ready for projection over the Columbia Broadcasting System TV Network, from 9:45 to 10 p. m., Eastern time.

Dayton was selected as the transmission point since it is the nearest city of Louisville where the coaxial cable is available.
