Col. Stayer was accompanied by: William Marvel, department finance officer; James E. Heal, first vice department commander; William J. B. Regan, immediate past department commander; Harry Ayers Jr., district commander, Sussex County, and Thomas B. Egan, department adjutant and service officer.

Wilkins Celebrate Golden Wedding

One hundred guests of Mr. and Mrs. Claus Wilkins, of Maryland, gathered at the Community Hall, June 16 to wish them well and extend hearty congratulations to them on their celebration of 50 years of happily wedded life begun in New York City June 2, 1901, having been united in marriage by Elder Haase.

Forty-two years ago they moved to a farm near Maryland where they have resided ever since. Two children, Henry F. and Louise, were born to them in New York City, while two others, John and Pauline were born in Delaware. During the past two winters they have been living with a daughter in Washington, D. C., but return to their farm in the summertime.

After receiving cheering congratulations a unique program was presented. A bridal bouquet composed of 25 one-dollar bills was given to them; \$50 in a fire tree and \$5 each in 10 golden candles, twin lamps, 50 yellow roses, a basket of yellow carnations and lilies were also among the gifts received. Their children gave them each a gold watch. A 15-pound wedding cake was part of the menu served. The following day a dinner was served at the Hall to 35 relatives and close friends of the couple.

Out of state guests attending the festivities were: Mr. and Mrs. C. F. Jetter, Hicksville, L. I.; Mr. and Mrs. Henry J. Jetter, Glendale, L. I.; Albert Schafers, New York City; Mrs. Elsie Cody and family, Eustis City, Fla.; Mr. and Mrs. Burton Stephenson, Bermuda; Henry Keiper, California; Mr. and Mrs. Harry Hughes, Pennsylvania; Ernest Scopp, New York City; Mrs. Louise Harkens and Marjorie, California; Mrs. Mary Sorenson, Bronx, N. Y.; Mrs. Harry Leen, Otto Schoepf, Bronx, N. Y.; Mrs. Marie Prent and Mrs. Gertrude Ingram, Wilmington.

Architectural Pearl Known for its beauty and simplicity, the Medina mosque in Saudi Arabia is widely regarded as Arabia's most outstanding architectural gem.

Houston Church To Celebrate 52nd Anniversary

Houston Methodist Church will celebrate its 52nd anniversary in special services Sunday. The church school will convene at 10 a. m. under the direction of the superintendent, Howard Moore.

The minister will be in charge of the opening exercises. The senior choir, directed by Samuel Gott, and the junior choir, directed by Miss Hazel Sapp, will render special selections. The guest speaker for the morning worship will be the Rev. Dr. Oler Ammon Bartley, newly appointed district superintendent of the Dover District of the Peninsula Methodist Conference.

The evening service will begin at 7:30 p. m. A hymn sing will be conducted by Samuel Gott. Both choirs will sing and there will also be singing by a male chorus. The guest speaker for the evening will be the Rev. Roy Lawson Tawes, pastor of Avenue Methodist Church, Milford. The organ and piano accompanists for the choir will be Mrs. Ethel Johnson and Mrs. Robert Yerkes. The flower committee is Mrs. Pearl Messick and Mrs. Grace Manlove.

Bible School Ends Today

The Daily Vacation Bible School, which was held at the Church of the Nazarene for the past two weeks will conclude its sessions this week, with a broadcast direct from the church, beginning at 11:05 a. m. today, over station WDOV, 1410 on the dial.

Tonight at 7:30 o'clock, will be the Bible School program, with each department presenting excerpts from its lessons of the past two weeks. This program will be held at the Church of the Nazarene, Mechanic Street.

The school this year proved to be a definite success, (as ex-pressed by the dean, Rev. G. Whetstone), with an average attendance of 60 children, representing all the churches in the community.

The Bible School consisted of four departments taking care of the children ages 4 to 14. The faculty for the school was as follows: Beginners department, Miss Shirley Hastings; primary department, Miss Betty O'Riley and Lois Dickerson; junior dept., Mrs. Jane Day and Mrs. George Whetstone; intermediate dept., Rev. George Whetstone; secretary-treasurer, Walter Webb.

Certificates of recognition will be awarded to the children in the program Friday evening. All are welcome to attend this final service.

Jerread Entertains Boys at Beach

Charles Jerread, proprietor of Jerread's Newsstand, Harrington, took eight Harrington boys to Rehoboth Beach for a week's outing last week. The expenses were borne by Mr. Jerread.

The boys who made the trip were as follows: Jackie Morgan, Horace Kates, Ralph Butler, Ray Cain, Sammy Lyons, Eddie Grier, Richard Shultie and Harry Rice.

Cancer Detection Clinic Scheduled

Cancer detection service will be maintained by the State Board of Health during July and August. Mrs. Victoria Worden, acting director of public health education, announced Tuesday.

There will be two clinics a month in each county. Mrs. Worden explained that interested women of 35 years of age and over should make requests for checkups and appointments.

In Kent and Sussex Counties, the schedule will be: Dover, Kent County Health Unit, July 6, 10:30 a. m. to noon and 1 p. m. to 3:30 p. m. Frankford Health Unit, July 12, 10 a. m. to noon and 1 p. m. to 3 p. m. Lewes Health Unit, July 19, and Milford Health Unit, July 16, same hours as at Frankford.

Appointments can be made for the Frankford visit by calling Rodney 3161. Telephone numbers for appointments on the Lewes and Milford visits will be announced later.

Open House Features New Moose Quarters

Jack Ansel, Special Representative Tells Of Mooseheart, Moosehaven

The opening of the New Moose home on U. S. 13 last week was an auspicious one, with an open house and dancing Friday and Saturday evenings. Another dance, open to persons of age from the general public, will be held Saturday evening, July 7.

Jack Ansel, special representative from the Supreme Lodge, Mooseheart, Ill., after welcoming the guests and congratulating the local lodge on its new home, told the audience about Mooseheart, "the child city of the world." "Mooseheart," he said, "is a home and school for dependent children of deceased members where every child is given a high school education and taught a useful trade." Ansel added that the widowed mother accompanies her children and is given remunerative employment.

Ansel also told of Moosehaven, a home for dependent aged members and their wives. Twenty members have been signed in the current membership drive. At the end of the campaign, date to be announced, a banquet and dance will be held.

The Moose Lodge, of which William Fleischer is governor, meets every Tuesday evening.

Letter to the Editor

Le Grand Hotel Du Louvre Place Du Theatre Francais Paris 1er June 24, 1951

Harrington Journal Harrington, Del. Dear Harrington:

Last Sunday we went from Cologne, Germany, to Coblenz where we took a steamboat down the Rhine. This was a beautiful trip there were several castles. A few of them were partly destroyed but most seemed to be in good condition. Some places on the river reminded one of the "Palisades" on the Hudson. On the slopes of the mountains wine grapes were being grown in vast quantities. They are grown on poles similar to our lima beans. The vineyards were on terraces, stone walls being built to form the terraces. When we think of all these terraces and the work tilling them (and even with the walls most of the fields are very steep), we are fortunate to live in a flat fertile country.

There was much traffic on the Rhine, so they have a flag control system, with houses at the flag stations, much as we have traffic cops on busy corners. We left the steamer at Bingen to take a train for Heidelberg where we spent the night. Monday we went by train into Switzerland which is a very scenic land. Books could be written on this country much less trying to describe it in a letter. Would like to tell you of one trip, which was a cog-rail trip up the Jungfrau mountain.

We left Interlaken by electric railroad after we got started up the mountain we changed cog rail, from there it was a steep climb. When we got about half way up we begin to see patches of snow on the ground. The top was completely covered with snow. The last few miles were through a tunnel cut out of solid rock. At the top we could walk out on the glacier which after a few feet of snow was solid ice. If Harry Murphy had this in Harrington he never would have to run his iceplant anymore.

The glacier is 15 miles long, about 2 miles wide and perhaps 1 mile thick. There is a room cut out of this ice that you enter thru a tunnel in the rock. The room is called the Crystal Ballroom. It is beautiful with the lighting effect. We ate lunch at the hotel overlooking this valley of ice covered with snow. After lunch we started down the mountain. We left at 8:20 in the morning and did not get back until 5:30 p. m.

We visited also in Switzerland, Luzern, Bern, the capital, and Geneva. From there we flew to Paris where we are at this time.

Yours truly, Fulton J. Downing

Two Killed In Accidents

Herbert Dulin, 34, of Milford, was fatally injured in a crash one-half mile north of Milford Sunday morning. Marion J. Swann, 22, of Roxanna, was killed Saturday afternoon when a large tree crashed on his bulldozer during a ditch-clearing operation near Georgetown.

Dulin was a passenger in a car operated by Miss Mary Matilda Marker, 30, of Wyoming, which was involved in a crash with a car driven by William Childs Huber, 55, of Wyoming.

State troopers at Dover reported that Miss Marker was going south and that Huber was traveling north. The tentative report of the troopers, based on accounts of witnesses, stated that a panel truck was traveling ahead of Huber. They said Miss Marker's car was apparently over the right center line of the highway.

The truck pulled to the right to avoid a collision with Miss Marker's car and Huber, thinking the truck was pulling off the road, started around it, troopers said. At the same time, Miss Marker's car pulled to the right and Huber applied his brakes, too late to avoid the collision.

Dulin suffered multiple head, body and leg injuries and was pronounced dead on arrival at Milford Memorial Hospital. Miss Marker suffered shock, lacerations of the left eye, right leg and chin, and puncture wounds of the left knee. Huber has a broken leg and severe lacerations, under the chin. Both are in Milford Hospital.

Swann was found at 4:30 p. m., Saturday by his father, James Swann, of near Selbyville. They both worked for the Soil Conservation District, Swann as a bulldozer operator and his father as a mechanic. The elder Swann had gone to the scene to transport the bulldozer.

A large tree was found lying across the bulldozer, leading to the belief the force of the falling tree caused Swann's death. Besides his father, Swann is survived by his mother, Mrs. Elizabeth Dill, of Greensboro; his wife, Mrs. Gladys Swann, and two small children living at Roxanna.

Seaman Drowned At Garland Lake

Seaman Apprentice Robert Warner Nocar, 19, of Bettendorf, Ia., was drowned in Garland Lake, near Denton, Saturday afternoon when his small boat capsized.

The seaman apprentice was drowned about 5 p. m. He was alone in the craft at the time. Occupants of cottages bordering the lake heard his cries but when they reached the scene Nocar had disappeared beneath the surface.

Corp. Gus Koste and Trooper Emil Myers of the Maryland State Police recovered the body after a search of several hours. Seaman Nocar, who was stationed at Norfolk, Va., had been spending a leave at the Edward Foxwell home near Denton.

He was well known in the harness racing fraternity, having owned the well-known Bonnie's Jr.

He is survived by his wife, Mrs. Margaret Hopkins Satterfield; two sons, Fred and Gordon Satterfield, and a brother, Carl Satterfield, of Philadelphia.

Inventor of Jet The first successful jet plane was perfected by the young British inventor, Frank Whittle, and was first flown in May, 1941.

Delmarva Chicken Festival Completing Elaborate Plans

Plans for the Eastern Shore's biggest event, the Delmarva Chicken Festival, in Salisbury on July 9, 10, and 11, are in their final stages, according to Dave Greene, festival president.

"We believe this is going to be another festival which will do full credit to the effort and initiative of our interested people, and will bring its usual tremendous benefit to every broiler grower on the Peninsula," Mr. Greene said.

"The national publicity which the events generate, particularly the junior chicken cooking contest and the national chicken cooking contest, could not be bought for a million dollars, and there is no way of knowing just how many additional millions of broilers are sold as a result of it," he added.

Appropriate opening ceremonies at the poultry equipment show, to be held at the First Regiment Armory, will inaugurate the program. Practically all booths available for this showing have been engaged.

On July 10, the two main events are the junior chicken cooking contest and the Miss Delmarva contest, both of which will be at State Teachers College in Salisbury. The cooking contest will be in the morning,

Virginia Seizes Struck Ferries

Limited ferry service was under way Wednesday between the Norfolk area and the Eastern Shore with the state of Virginia handling operations.

The state seized control of the strikebound Virginia Ferry Company late Tuesday and had one of the concern's four ferries in operation across Chesapeake Bay Tuesday night.

Three round trips were planned Wednesday with the ferry, the Princess Anne, and Governor Battle pledged that the other three boats would be in operation as soon as possible.

Striking ferry workers voted almost unanimously not to work under the state, which took over the company under terms of the Ferry Act of 1946. But the Princess Anne was manned by supervisory personnel, and by workers from the state-owned Hampton Roads Ferries.

State Laws Differ The Ferry Act, aimed at preventing any interruption in state highway service, differs in some respects from the Virginia Public Utilities Labor Relations Act, whose constitutionality the ferry workers have challenged.

A three-judge federal court has been named to meet at the earliest possible date to consider the constitutionality of the utility act, which provides that utility workers must give five weeks' notice of any strike.

Union members notified Governor Battle June 15 that they would walk out July 27. They jumped the gun, however, and left their jobs last Friday, tying up all ferry service.

Funeral Held For R. Satterfield

Funeral services for Ralph H. Satterfield, 47, were held Wednesday afternoon at Berry Funeral Home, Felton, with the Rev. Robert Van Cleaf, pastor of Asbury Methodist Church, Harrington, officiating. The funeral was private, with burial in Barratt's Chapel Cemetery.

Mr. Satterfield died Sunday from carbon monoxide gas after he was discovered by his wife in the family car in the garage in the rear of their home. He was pronounced dead at Milford Memorial Hospital where he was taken by the ambulance of the Harrington Fire Company.

He was born near Magnolia and attended Caesar Rodney School. He had lived in Harrington many years and had conducted an egg route in Wilmington, Chester, and Philadelphia for some 20 years.

He was well known in the harness racing fraternity, having owned the well-known Bonnie's Jr.

He is survived by his wife, Mrs. Margaret Hopkins Satterfield; two sons, Fred and Gordon Satterfield, and a brother, Carl Satterfield, of Philadelphia.

RR Railroad News

A new Budd research car will be on the division in the next few days making trial runs for testing what is known as "Resilient Wheels."

Since our division has been the proving ground for development of these cars, we rightly feel we should have one in service between Salisbury and Wilmington making two trips a day. They are proving a big success on every railroad that has purchased them. Our job here will be to insure the management of sufficient patronage to make it pay and I believe we can do it.

There are now 12 of these cars in service between Camden and Atlantic City, doing a good job.

Head of the Class A grade school teacher asked the class this question: If two automobiles approached from different angles, one traveling 40 miles per hour and the other 60 miles, how old am I?

After several minutes meditation a small boy held up his hand and gave his answer as 42.

How did you arrive at this answer asked the teacher? "Well," said the small boy, "my brother is 21 and you are twice as crazy as he is."

Business is good now on the peninsula with prospects of still getting better.

While making the rounds and getting acquainted on the division, our new superintendent, Maurice Lingerfelder, came in contact with a number of shippers who had a word of praise for the co-operation and friendly atmosphere of some of the crews who spot their cars. These are the things that go a long way to insure our job. While talking with a native down Selbyville way, Les Rogers asked: "Do insects ever get in your corn down here?" The native said: "Yeah, but we just fish them out and drink it anyway."

The old adage about "an ill wind that blows nobody good" was exemplified at Cape Charles last Friday afternoon when the Virginia Ferries shut down due to labor dispute.

The steamer Elisha Lee came in with over 400 passengers and there were at least that many automobiles waiting on this side to go back. The boat however, can only accommodate 40 cars, so the town has been overflowed ever since, with cars and buses.

The trucks were turned back and had to make the long haul all the way back and over the Matapeake Ferry.

Saturday was scheduled to be a heavy day in the Cape Charles and Norfolk area without this confusion as they launched the largest transport ever built in America; the steamship U. S. A.

Train No. 469 had three sections on Saturday. Train No. 455 south at 12:20 p. m. Tuesday had two extra chair cars carrying directors of the Cannon Company to Bridgeville. The party returned on No. 454 in the evening.

Youth Killed After Warning

Just three hours after a Salisbury mother warned her 20-year-old son to be careful, when he started out in the car his father bought him last week, he was killed.

Ernest Samuel Lemon of Piney near Salisbury, was fatally injured when his car crashed into a tree about 2:40 a. m. Saturday on Route 13 two miles north of Felton.

His wife, Mrs. Irene Lemon, 21, is in the Kent General Hospital with chest injuries and contusions of the right leg and shoulder. Two other passengers also are in the Dover hospital.

Delaware State Police said the car ran off the road during a rainstorm and struck a tree.

Young Lemon died about an hour and a half after the accident in the Dover hospital of a fractured skull and broken neck. He would have been 21 on Nov. 25.

Louise Gray Wins Rotary Beauty Contest

Elaine Downing and Doris Watson Are Runners-Up In Enthusiastic Contest

A large and enthusiastic audience saw Louise Gray, a petite blonde, romp away with top honors in the Rotary Club's second annual beauty contest Tuesday night at Reese Theatre.

Miss Gray, daughter of Mr. and Mrs. William Gray, Farmington, is a correspondent for The Harrington Journal and a student of Greenwood High School. Her award was a phonograph-record player. She will take part in a beauty contest sponsored by the Chicken of Tomorrow Festival at Salisbury in July. She was crowned by Miss Shirley Harrington, winner of last year's contest here.

Elaine Downing, daughter of Mr. and Mrs. Fulton J. Downing, of Harrington, garnered second honors, with a camera as a prize, while Doris Watson, daughter of Mr. and Mrs. Len Watson, took third place. Her prize was an overnight vanity case.

Other contestants were Margie Greer, Marie Minner, Jean Smith, Francis Black.

The Rotarians staged "a beauty contest" among themselves, with Walt Meyer being the winner. Harry Boyer sold more than 200 tickets to the show and received some horseshoes as a prize.

The contest committee was composed of Archie Feagan, John Parks, and Melvin Brobst.

Christine Edwards Weds Paul Porter

The marriage of Christine D. Edwards, daughter of Mr. and Mrs. Harry J. Dill, Sr., of Harrington, to T/Sgt. F. C. Paul Porter, son of Mrs. Laura V. Porter, of Chester, Pa., took place June 17 at the St. Paul's Methodist Church, Greensboro, at 2 p. m. with the Rev. G. H. Wheatley performing the ceremony.

The attendants were Mr. and Mrs. Harry John Dill, Jr., brother and sister-in-law of the bride. Also in attendance was the daughter of the bride, Miss Barbara Edwards.

Following the ceremony a dinner was served at the home of the bride. The couple left on a short wedding trip Sunday.

The bride is employed by the Delaware Electric Cooperative, Greenwood, and the groom is a member of the Armed Forces in Albuquerque, N. M.

8 in 3 Boats Found in Bay

Eight men, in three rowboats powered by outboard motors, were taken into Slaughter Beach at Mispillion Light Monday by two Coast Guard picket boats after being sought since late Sunday night.

The men had been on a fishing trip and had run out of gas after getting lost in Delaware Bay. None suffered any injury. Six are from Wilmington, and two from Chester, Pa.

Late Saturday night fishermen and Coast Guardsmen at Lewes took eight other men from a commercial fishing boat that had started to break up in rough water.

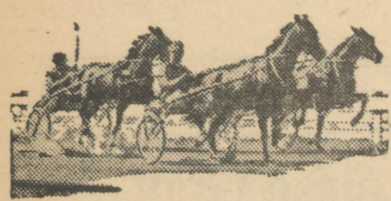

Some of the men were taken in by the Ellis, a vessel of Lewes. The Ellis was unable to bring all, and called the Coast Guard. Some of the fishermen suffered minor cuts and bruises.

Marydel Marine Killed in Korea

Word was received on June 16 by Mrs. G. M. Hopkins of the death of her son, Corp. James R. Hopkins, who was killed in action while serving in Korea in the 1st Marine Division as expert rifleman. He had been twice wounded while serving in Korea prior to his death.

Corp. Hopkins was born in Cleveland, O., Feb. 10, 1931. Six years ago his family moved here. He attended school at Caesar Rodney and Greensboro High School, where he graduated in May, 1948. Two weeks later he entered service as a Marine and served in Guam for two years. In January of this year he sailed for Korea. He is survived by his mother, Mrs. G. M. Hopkins, and two sisters, Miss Joan Hopkins and Mrs. Jean Hopkins Austin.

Sulky Slants

By Mrs. Dave (Pat) Smith

Gee, it's hard to write for so far away. But here goes:

To begin with, Mrs. Britt Holloway, thanks for the letter; it helps to hear from someone in Harrington.

I know you are really busy getting ready for the fair. I'd love to come down there during that time.

Heh! Mr. Schegel, how's "Jerry" my rooster? There's plenty fighting cocks up here for him to fight.

Everyone has asked me what happened to Jake, the II. I just tell them I pulled off his shoes and turned him out.

You see Mrs. Charley Carter (Nettie) has promised me a turkey gobbler this fall.

And if anyone sees Ernest Callaway, tell him I'm waiting for that baby squirrel.

Carl Goslin probably will be in Harrington by the time this goes to print.

His mare, Majestic Miss, is completely over her illness. It is certainly a funny place; they go and come so fast you don't know who is who.

It won't be long now till the track in Toronto, Canada, Thorncliff, will open.

That's a swell drive up there on Lake Ontario.

Today we had friends to visit us from Montreal, Quebec. Cecil Champion had been a stable mate of ours in Saratoga Springs.

We are invited when the races are over to spend some time up in the big city of Montreal.

Between Paul Larente and Cecil looks like I'll have to park everything this side of the border and have a good time in Canada. Dave just said leave everything in the good ole U S. A.

Oh boy, you should hear Murphy, our number man on the mke; he is a scream. We all get a kick out of Murph.

Geo. Tatman, you two would make a good pair. Lots of fun to both of you. Clara, you would certainly enjoy it up here. Plenty of pets. I think there's as many dogs as horses. So it seems. Someone will move in with three horses and five dogs. We have to keep them tied during the races.

Another thing, no cars are parked in front of barns or near them. Owners, trainers and grooms have a parking lot of their own. After 7 o'clock you can't even get back to your trailer.

No electric stoves or hot plates are allowed in stable area. Very strict about that.

The sheriff will tow your car away if caught near the front of stable.

Your car sticker means nothing after 7 p. m. It does help to keep strangers out. You can't buy your way into the paddock unless you are the groom and you must have your pass or owner's pass.

No children at any time in paddock.

Ellis and Betty Myer sure must enjoy it up here for I can never catch them home.

Ole Bumble Bee, Benny Morrison, doing ok. Benny is Ellis' second trainer. Oh yes, Benny won with Judge Cash, the other night, certainly went a good race.

Here's something cute: The other day up here a car was used to pull a horse out of a ditch. Years ago it was the other way around. The horse had to pull the car out.

Batavia Downs is installing a new fire system to protect all buildings on the grounds. An alarm system connected to a central point at which a watchman will be stationed 24 hours a day.

At least this is the information Genesee Monroe, racing secretary and general manager, John Maas, gave me.

Heh, Mayor Rash, bully for you and your conventions.

When I go to Buffalo for the radio, I'll certainly put Harrington and the Mayor on the map. Or could I be to spell-bound to say anything? Oh no not me.

Irene, how's things going in your new place? And Teenie, how's Sippy? Has he answered the call of the wilds anymore?

Mrs. Book Harrington, how's the flowers coming along?

I have beautiful plants with plenty of color around the stable and trailer. I believe I have a little gypsy blood as I love color. The louder the better.

Oh yes, I certainly enjoyed the letter from Virginia Holloway. In her letter a very dear friend of her's that stationed in Athens, Greece, said she really enjoyed my column. Glad someone does for its hard to be so far away and try and write.

Sam the harness man taking a few days off to go to his cabin on the lake. Sam is very popular up here. When he returns to Harrington this fall he will have his new harness trailer.

Mr. Pratt, who has Guy Hamilton, not doing so hot. But now they have set his horse back maybe he will do better. You see he was in Harrington this last meet. Mr. Herrington is going to start Tracer Bullet first time since the fire. Mia Lee still in very bad shape. Only his wonderful care to her is saving her. His grand patience. I just came from the area of the fire. For a minute I had to stop and study where our barn was last year.

I will never drive over there in evening; too many grim memories for me.

Well, I go to the paddock to-night with Anna Day. I live for her to race. They all have a lot of fun on that night. As I'm too excited for words. And my betting money is saved for her.

However, I took a bet on Bardia Direct the other night. Dave was on top all the way but just couldn't make it so I was peeved all night I lost two bucks.

Oh yes, we were headed for Canada yesterday, so Dave, for no reason at all said, in Buffalo, you don't have anything in the car. Did I? That darn little electric sweeper so, no Falls, no Canada.

But I ended up down the gay white way sight seeing and spaghetti dinner. So I cleaned the car and put sweeper up. For good, too.

Mayor Rash if you get a parking ticket up here it costs you \$1 regardless. So I carry plenty pennies. I sure miss the service station, Wonder Bar and chatting with Virginia of the Chicken Basket, and Sam Short's store where he will stop waiting on anyone and talk to you.

Mrs. Warrington, I always enjoyed browsing around and chatting with her.

My pal, Betty Cain, how's things going? Do you know that new radio is in the shop? Where could you go, but Harrington and be treated so nice where you shop.

Best hamburgers at the Snack Bar.

And how's our Postmaster and all the postoffice crew. One swell bunch. Even the cops on the corner.

Just a good little home town. President Jimmy Dunnigan just gave out that the largest mutual handle for Buffalo Race-ways was last Saturday night—\$199,848.68.

So long till next week.

Notes of Local Highway Yard

After a very pleasant weekend all employees reported for work Monday morning in active condition.

A. L. Layton enjoyed a day of vacation Friday of last week.

A much wished for improvement has been completed on the road leading to the west entrance of the Kent-Sussex Fairgrounds. This road will especially accommodate all visitors approaching Harrington from the west and will help to eliminate traffic congestions on Commerce St. during fair week.

If you have problems of public interest contact the proper authority and for a favorable solution to such problems approach him with a smile and note the difference a smile sometimes makes.

Platforming

A noteworthy development in the past year has been the use of platinum and palladium catalysts in new production processes. For example, "platforming" a new refining method for producing gasoline with high octane rating, is done with the aid of platinum catalysts.

In Garage or Kitchen

The pot cleaner, Silvylocks, made of knitted metal mesh which does not rust or splinter, is as much at home in the garage as in the kitchen. This household item has been found to work as well on a muddy tire as on a kitchen utensil.

Choosing Toys

Choosing the most worthwhile toys and play materials for children is as much of a practical art as planning a balanced diet for them.

Paint Can Hint If you are like most folks who do a little painting around the house periodically, you have a great array of partly empty paint cans. Here's a way to avoid opening each can to check the amount of paint left and its precise color. At the end of each paint job, paint a line on the outside of the can at the level of the leftover paint inside.

Greenwood P.-T. A. To Sponsor Kindergarten

The executive committee of the Greenwood P.-T. A. would like to sponsor a kindergarten and needs the co-operation and assistance of the community.

In order to have a kindergarten it is necessary for us to secure a building or the use of some building with heat and plumbing and outside play space, secure a teacher, and obtain sufficient funds for the operation of the kindergarten.

If you desire your child to attend kindergarten next year, if it is available, please send his or her name to Mrs. Julia Astfalk at once.

Good Fishing At Bowers Beach

Fishing was good on boats operating out of Bowers Beach last weekend, with large catches of porgies being taken on surf clams and squid.

Following are some of the catches: Weber's Wharf — Dido, Capt. McNatt, 675 fish by a party of ten from Pennsylvania caught off coral beds.

Wyatt's Wharf—X-10-U-8, Capt. Millard Thompson, 400, Pin-top buoy; Goose, Capt. Jack Tribbitt, 118; Snooky, Capt. Flach, 243, caught by Dover party including Lester Cohee, Restless, Capt. Frank Carrow, 215, off Kitts Hummock.

Dean's Wharf—Dawn, Capt. Coleman Morris, more than 260 fish for party headed by Albert Singleton, of White Marsh, Md.

Virginia B, Capt. Brady Williams, more than 300 fish for party headed by J. T. Sturgill, of Forrest Hill, Md.

Stokesbury, Capt. Harold Spayd, 356 for party headed by George Freet, Chambersburg, Pa.

Star, Capt. Lester Forrest, 195 fish for party headed by John Keller, of Fleetwood, Pa.

On Saturday the Star brought in 348 fish for Dan Friedenburg and party, of Baltimore. The Stokesbury brought in more than 290 fish for a party headed by a Mr. Garner, of Baltimore.

Fishing prospects are good.

Hoof Beats

The 1951 harness racing season is less than two months old but already two of the nation's best young reinsmen are flying storm warnings in the 2-year-old division.

Del Miller, 37, from Meadow Lands, Pa., has picked up where he left off last year when he spread-eagled the field with six 2-year-old stars.

In 1950 Miller won \$308,000, a new all-time mark, and much of it was accounted for by his 2-year-olds. Simpson was second in that category and reversed the national order of finish in the dash-winning department by copying 111 races to Miller's 108.

Simpson, with almost fifty horses in his stable, already has accounted for 2-year-old victories with seven different youngsters. In addition, he has been second with two others.

Miller has accepted this challenge to his 1950 supremacy by turning out four winners and another that has been a bang up second in two big races.

Simpson has scored with four trotters, Banker, Kimberly Mine, Empire Hanover and Duke of Lullwater, and three pacers, Silent Waters, Mr. Greentree and Betty Jane Hanover.

Miller has won with four pacers, two of them related to a pair of his 1950 juvenile stars. His winners have been Reyno King, Galleta, David Caudle and Meadow Rice.

Simpson has been second with the pacers Ken Tass and Souvenir Hanover while Miller has finished in the runner up spot twice with the trotter Hardy Hanover,

and the \$10,000 Orange County Cup. The former is a major preview of the \$90,000 Hambletonian while the latter will attract most of the top eligibles to the \$65,000 Little Brown Jug.

Florican, a great 2-year-old in 1949, apparently has regained his sensational juvenile form after an off season last year.

The son of Spud Hanover, owned by The Arden Homestead Stables, Goshen, N. Y., reeled off a mile in 2:01.1 at Toledo Fort Miami Raceway last week to establish a season's record for trotters.

Among those he licked was stablemate Star's Pride who shared 3-year-old honors last season with the Illinois colt Lusty Song.

Her first foal, the 2-year-old pacer Ichabod Crain, has been a frequent winner on the west coast this season for L. W. Craig, of Lemoore, Cal.

First daylight meeting of harness racing's Grand Circuit this season will be staged at Historic Track, Goshen, N. Y., July 2-6.

Major events are carded for each of the five racing days with particular attention being focused on the \$10,000 Historic Dickerson

Robert Sherwood Promoted to Master Sergeant

YOUNG HIGH SCHOOL STUDENT NOW ON FOOTBALL TEAM

Delmar B. Callaway, Box 151, Church Point, Louisiana, says maybe he isn't the best football center in the country, but he'll bet his pocketknife that there isn't a boy his age who has got the energy he has.

Here is Delmar Callaway's own statement. "I am 13 years old and I am in the 8th grade in the Church Point High School. Last summer I didn't have a bit of energy. I didn't want to play baseball Mother tried everything to get me to eat a good meal—but I just didn't feel like eating. Food didn't just taste good and lots of times food would up set my stomach when I did eat. Mother says I was underweight for my age. Then mother started giving me HADACOL. I know that in just a little while I started feeling a whole lot better. Now I am center on the football team. I like baseball and basketball, and I ride my bike every evening after school. Mother says she has never seen anyone with such a huge appetite. I like to take HADACOL. Mother says she is never going to let me be without HADACOL."

Let HADACOL Help You as it has helped thousands of others, if you suffer such deficiencies. Remember, there are no substitutes for HADACOL. Always insist on the genuine HADACOL. No risk involved. Buy a bottle of HADACOL costs only \$1.19 for a trial size bottle. Large family economy size, \$3.39. There is only one true and genuine HADACOL.

'THREE' SOULS WITH BUT A SINGLE THOUGHT—'THREE' HEARTS THAT BEAT AS ONE
A misquote, because the original quotation is 'Two Hearts'—but that pertained to love, and this pertains to politics—politics, it seems, may have the privilege to exaggerate, and thus we have added another heart.

Bigness, of itself, does not beget greatness. The small, compact community is the most substantial influence in this hurly-burly semi-existence. There we have the true fraternal feeling, not the nadir of neighborliness.

Perhaps Delaware is great, or greater, because of its smallness, because this fraternal spirit has been carried to Washington and there is evidence in the vote of its representatives in congress. The Wilmington papers publish each week an account of how our representatives voted on the various bills. This, while a valuable news service—and the Wilmington papers are recognized as among the most thorough and reliable in the land—is, we believe, unnecessary.

When a bill comes up for the final hearing in Washington, there is an unparalleled unanimity, an unheard-of-before accord—Delawareans, as always, stick together. It is true that Representative Caleb Boggs occasionally wanders—into the pastures of singing brooks where Cale mixes and mingles with such scavengers of the garden as spinach, but when it comes to the final show-down, two remain steadfast and true. You'll always find John J. Williams, elected on the Republican ticket, and J. Allen Frear, elected on the Democratic ticket, pretty close together.

The other Democratic member of the Banking Committee voting against President Truman's pleas for a rollback on beef prices is Paybank of South Carolina. Senator Maybank's reason for voting against a rollback in prices is very pale and haggard—that control will stifle production, while the removal of controls will speed production. That is what Lamont DuPont, as vice-president of the National Association of Manufacturers, said in the Y. M. C. A. a few years ago: 'Remove price controls and naturally prices will increase for a little while, but it will encourage production and soon goods will flood the markets and you can buy anything at a very reasonable price.'

Do not be surprised if you see many freighters on the breast of Delaware River in the near future. The natural mode of transportation, so long neglected, is coming into its own again. Millions of tons more freight ride the breast of the Ohio River than comes into the Port of New York, while Old Man River, especially from St. Louis to the Gulf of Mexico, has begun to take on the bustle of the earlier years. Are the old riparian days returning? They have returned.

SIGNS OF THE TIMES

In a Market Street drug store in Wilmington are these signs, one above the other: Luncheonette Insecticides.

On an office building in Norwich, N. Y.: Chenango County Liquor Control Board, Room 10; Jehovah Witnesses, Room No. 9.

On a store in Poplar Bluff, Missouri: John Shoulders & Charley Steers, Dealers in Meats.

Perhaps the most realistic sign of all was that of Robert Hill and Dale Pharr, engaged in the fire insurance business at Des Arc, Arkansas: 'The Hill-Pharr Insurance Company.' They did more business than any other firm in that part of the state.

Pokeweed grows in almost every field and along every stream in Delaware. It seems to thrive anywhere. But few people realize that it makes a splendid green or salad. In many sections of the United States the young shoots are considered a great delicacy. In Washington County, Arkansas, five small factories can and sell \$75,000 worth of poke greens each year and they are shipped to every section of the country. Here is a chance for a small thriving factory in Delaware. The raw product costs nothing.

Everybody is peculiar.

FLUORINE TO REDUCE TOOTH DECAY

The results of research in New York have showed definitely that tooth decay can be cut down by as much as one-third if fluorine is put in city drinking water. Tests were run on two places of about equal population.

The cost of putting this chemical into a city's drinking water is about 10 cents per person per year. For Brewton, that cost should be about \$500.

The city council should take steps to investigate the process of fluorination, and if it is practical, it should begin to put this chemical into the water system. If it would mean a reduction in tooth decay among children and adults, the benefits would far outweigh the cost.

And \$500 a year for a service to all the people of Brewton looks most reasonable when compared to the \$500 a month the city has paid out to subsidize Escambia Hospital for the past few years.

Shunning The Road of Fate

By Samuel A. Short, Jr. Harrington, Del.

It would be well to cultivate The friendship we make In this world's great confusion By shunning the road of fate.

There's the right road One should travel. And the wrong road For us to unravel.

From sunrise to sunset, Till life's work is done. We should never forget, Life's respect we've won.

The friends we've made, Both early and late. Before life does fade, By shunning the road of fate.

For on life's great highway We must travel on and on. Until that one great day, We'll never know how long.

We'll overcome life's confusion. Before we find it's too late, By the right road we travel, By shunning the road of fate.

A POET'S DREAM

By Samuel A. Short, Jr. Harrington, Del.

If I could write a poem, One my friends would like to see.

I'd write and I'd write this poem. Like a poet, just to suit me.

If I could write a poem I'd make it be so great. I'd say the words I'd like to say. And many things I would relate.

If I could write a poem, I'd not be like some you know. Trying to be the best of all you see.

I'd be so humble and grateful. Yes, just so.

If I could write a poem, I'd write of ships and aeroplane. The birds that fly over woodland fields.

The stars at night shining so bright.

If I could write a poem, I'd write the things I'd like to say. I'd write this poem and speak my mind.

And give it to the world to read, every day.

Of the days that come, And the days that go. There'd be flowers for some With gladness I know.

Morning would be sunshine, Noon the middle of day. Evening would be nightfall, With stars lighting the way.

Spring would be planting time, Summer would be bright and gay.

Fall would be harvest time, Winter Snow and ice they say.

Nature is a wonderful thing Many have found it so. Joy and happiness we'd always sing

As the years would come and go.

If I could write a poem, I'd hardly know more to say. I greet my friends and name it then,

The Poem of the Day.

Letters To The Editor

Cologne, Germany June 16, 1951

Harrington Journal Harrington, Del.

Dear Carrington: Since last writing you we have seen quite a bit of England. Our cousin met us on Tuesday, (he is in the U. S. Air Force), we drove to Windsor, saw Windsor Castle and St. George's Chapel. It is really a Cathedral. The wood carvings were marvelous, as the carvings in the other cathedrals we have visited.

We went on to Stonehenge to see the ruins of an old ceremonial temple the oldest in England. Has been dated back to the late stone age about 2500 B. C. An interesting town we visited was Salisbury, England. Reminded us of Salisbury, Md. The Salisbury Cathedral has the tallest spire of any church in the world.

The attitude the British people is amazing. We are told that over 90 per cent of the homes in England are still heated by fireplaces. Our cousin, Jackson Lacy, introduced us to a man and his wife who run an Inn. Talking to them about heating their building they said they just could not get the fuel wood or coal to heat the house. By saving all winter they told us they could heat the house properly at Christmas.

When we ask the English what they think of rationing (when they are the only country that has it) they simply say, 'We don't like it nor do we like high prices and low wages, but that is the way we have to live to get the country on its feet again, so we will make the best of it.'

We attended the Rotary Club of London meeting on Wednesday, they have a membership of over 300, I believe most all of the members were present.

Their speaker was a lady who is at the head of Child Welfare in England.

We were fortunate enough to get a close view of the royal family when they drove up to the race meet at 'Royal Ascot.' They were in three open carriages, each drawn by four Windsor grays. In the first carriage Queen Elizabeth and Princess Elizabeth; second, the Princess Royal and Princess Margaret; third, the Duchess of Kent, with their outriders. One of the track officials said he thought there were at least 500,000 people attending that day, my estimate of the crowd would be about 200,000. It is a large place and it was crowded.

Yesterday we visited Stratford-on-Avon, saw Shakespeare's birthplace, where he later lived, also Ann Hathaway's cottage which looks just like the picture we have seen.

Today we flew to Cologne, we passed over and had a good view of, from the air, Dunkirk, Antwerp, and Cologne. Was a clear day and the view was good.

Yours truly, Fulton J. Downing

Today is a far cry from the Independence our fathers not only preached, but also fought for. Now we realize the Dependence of each upon the other; and the necessary need for co-operation of all peoples of the world. Then, community life was lived on the basis of the wholeness of humanity; now humanity has been broken up into fragments. We have a specialist for this and a specialist for that, until even our fun-life is arranged for by experts.

FARM NEWS AND REVIEW

Former State Senator Now Breeder of Herefords

Nelson Hammond, former state senator, is attracting considerable attention with his herd of Hereford cattle on his 260-acre farm near Felton.

The erstwhile legislator has 75 Whitefaces, all told, with the herd being headed by a young bull of Domino and Rupert bloodlines. Cows are mostly grade but Hammond has two registered heifers, one of which is bred to a \$27,000-bull. The Hammond plan calls for the sale of the poorer bull and heifer calves as vealers. The best heifer calves are kept for replacement stock, while the best bull calves find a ready demand on the peninsula.

Hammond got into the cattle business three years ago when he bought some bred Hereford cows in the West. Later he and Albert Warren bought 90 bred cows, in the West. Hammond says the fellow who bought the cows was an expert.

"I got 40 cows. Only one was barren in the lot, while another had twins. I had 40 calves from these cows."

When he was unable to buy these western cows, Hammond decided to raise his own herd.

Right now, the Feltonian is running the herd, which includes a number of calves, on 60 acres of permanent pasture of Ladino, alsike, orchard grass, timothy, and white Dutch clover. He fertilized the pasture last year with 400 pounds per acre of 2-12-12, and all of it has been limed at least once in the past two years. Manure was hauled all last summer to the barren spots.

Hammond plans on dividing his 60 acres so he can rotate the pasture. Recently he put in the posts for a fence through the middle.

He also has 25 or 30 acres of woodland for pasture but this is fenced off at present to keep out his horses. "They might get a branch in their eyes," the former Solon said.

He takes his cattle off his permanent pasture as early in the

fall as he can, and puts them on rye and ryegrass, and later allows them to clean up on 25 acres of corn, which he cuts and shucks by hand.

In the winter the cattle get some grain and corn fodder and lespedeza hay. The legume is raised with small grain.

The breeder, who worked 20 years in the Felton Bank, plans on sowing Ladino and lespedeza together to "see if it will work." He would like a little more legume to turn under in the spring.

As his breeding operations enlarge, he believes he might put more of his farm in permanent pasture. Whatever grain and forage he might need, could be raised on a tenant farm he owns.

New "Angles" for Angler

An all metal landing net has recently been made available to fishermen. This unique net may be obtained in two sizes, for boat and stream fishing. The net, or filter, is made of a single strand of Monel wire knitted into cylindrical form with hinge-type stitches which makes it easy to disengage hooks that may become caught in the mesh. The frame and hollow handle are made of duralumin.

What's Under Chrome?

Tests have demonstrated that chromium-plated steel bright work will retain its decorative value over a longer period of use if the plate includes a liberal thickness of nickel, deposited either directly on the steel or over a copper undercoat. The nickel thickness is the important factor.

The Cheswold auction block Mon., June 18, after a quite successful strawberry season.

When your produce is ready to ship, call the Bureau of Markets, Dover, for the latest prices at New York, Philadelphia, Boston, and Baltimore markets.

Squash from Delaware was sold on the Boston market Tues., June 19.

Inspectors are being asked for on potatoes and limas. Let your requirements be known early; inspectors are fewer this year due to the draft.

Chickens feathers are good for your ground. C. W. Draper, of Marvel's Crossroads, between Harrington and Frederica, applied a couple loads of part of his corn and the improved effect is remarkable. He has also applied feathers to his soybeans but it is too early to notice the results.

Draper said that Lawrence Jarrell, Red Layton, and Ches Scott had used feathers as fertilizer with good results. The farmer said that he anticipated better results the second year after application than during the first year.

Bill Taylor shipped part of a load of asparagus to Baltimore Sunday. He will finish his cutting and packing today.

Alvah Melvin, of Frederica, has been combining 25 acres of Wong barley his week. He is quite enthusiastic over the outcome of the crop. He figures it will make 50 bushels to the acre. He has a good stand of lespedeza and old-fashioned red clover, sowed in the grain, for fall hay.

The hot weather over the weekend has been responsible for rapid growth of corn, Melvin said.

ANNOUNCING A NEW COMMISSION RATE

All beef cows, steers, and bulls will be sold at \$5.00 per head.

The current price control on dressed beef has not affected the price on live cattle to any great extent. All prices are still holding at or near the peak recently established.

All cattle and calves are weighed on a visible dial scale in full view of the public and shippers and buyers are assured of correct weight at all times.

Marvel's Crossroads, on the Frederica-Harrington nine-foot road, killed a skunk and five small ones under his smokehouse Monday morning. Stayton had some trouble with his corn recently, some of the leaves turning yellow. He surmised the cool spring had prevented the grain from making full use of the phosphorus.

Walter Schiff, who has 54,000 broilers near town, says he has noticed no losses among his birds because of the heat. He says broiler houses have more ventilation than formerly. This includes cross ventilation. Schiff estimates it takes 3.35 pounds of feed to produce a pound of bird.

Broccoli Recommended For Delaware Growers

The gross income from broccoli grown for processing has been between \$200 and \$500 per acre in the past few years. The income from market broccoli is often much higher.

Two crops of broccoli may be raised on the Delmarva Peninsula, according to Robert F. Stevens, extension horticulturist at the University of Delaware. He says that the fall crop is usually the most successful.

"The Italian green sprouting types are best for market and processing. Best for this area are: Calabrese (early green sprouting), Freezers Green Sprouting, and DiCiccio. Although not many growers treat seed, if there is any doubt about the seed, the seedbed, or field, it is worthwhile to treat the seed."

Laurel Youth Wins Honors In Club Work

David H. Elliott

Winning state honors in 1950 in the 4-H Meat Animal program climaxed a busy and eventful eight years in club work for David H. Elliott, 18, of Laurel. David raised Hampshire hogs and this year has three sows and 41 market hogs. He's been in three state judging contests and has placed, first, second, and third.

He also was one of the three high ranking individuals in the livestock judging contest at the Atlantic Rural Exposition. For three years David has been assistant junior leader and this year is leader of his 4-H Club. David attended the 4-H Club Congress in Chicago in 1949 as winner of his tractor maintenance project. He plans to attend the University of Delaware's Short Course on "Beef Cattle and Swine Raising" this fall. David's award was a handsome gold-filled watch, appropriately engraved. Thomas E. Wilson, Chicago meat packer, has provided awards in this program for 21 years.

 Clayton 4, Frederica 3
Sunday's Schedule:
 Milton at Hickman
 Frederica at Wyoming
 Wednesday, July 4
 Hickman at Clayton
 Wyoming at Milton
 Millsboro at Frederica

Sparked by the one-hit pitching of righthander Harry Barrett, Milton tossers jumped back into sole possession of first place in the Mar-Del Circuit last Sunday as they shut out Millsboro 9 to 0, while Wyoming was downing Hickman 9 to 5. In the other contest Clayton eked out a close 4 to 3 victory over Frederica to move into a second place tie with Wyoming and Hickman.

Johnny Rogers' sharp single past first in the 6th frame was the only event to mar a perfect pitching effort on the part of Milton's mainstay, Barrett. He set down nine on strikes and had perfect control. Several fine field plays on the part of his teammates erased what appeared as sure bingles. On the other hand Millsboro's Allen Beebe had difficulty in getting the ball over the plate which resulted in several runs. Freddie Atkins relieved Beebe in the 7th and was tabbed for three runs in the 8th. Bob Snowden was the big power at the plate for the leaders as he laced out a double and two singles, while Bill Spencer and Gil Darby doubled.

Hiram Godwin, Wyoming's new speed ball artist, finished on the winning end in his debut as he checked the winning efforts of Hickman 9 to 5. He was solved for 7 hits and fanned 12. Bill Newman, Hickman ace, was the victim of the 16-hit attack of the Wyoming nine. Torrid weather bogged down both hurlers in the late frames. Wyoming scored twice in each of the last three frames while Hickman put over 2 in the 8th and one in the ninth. Up to that point it was a nip and tuck 3-2 ball game. Minner, Rodriguez, Berry, Rash, and Godwin each had two hits for the winners, while Harold Bennett laced out a double. Bill Lloyd and Bob Lane each hit safely twice for the victims with Manager Cannon hitting for a two base rap. Cal Lane sparkled in the field for the Hickman nine with 10 chances at short.

Clayton piled up one run in the 3rd and three in the 4th to eke out a close 4 to 3 win over a threatening Frederica nine. Jack Moore started for the losers and after giving up four runs turned the job over to Roy Kemp who hurled shutout ball the remaining distance. Left-hander Lew Wright was on the rubber for Clayton and was reeling in the 5th when Bob Knight came in to put out the fire and hold the Frederica nine in check the remainder of the contest. Wright was touched for

seven hits and 3 runs in 4 1/3 frames while Knight allowed two hits and no runs in the last four and two-thirds. Bill Carson's double and two singles and two singles for Wright led the Clayton attack while Jerry Semans hit safely three times for Frederica with Charley Loper and Del Brown having two safe bingles each.

Clayton and Millsboro met in a night contest at Millsboro on Wednesday evening and will be idle Sunday. Milton will make their first visit of the season to Hickman Sunday while two Kent County nines, Frederica and Wyoming will clash on the latter's diamond. In their first meeting Milton edged out Hickman in a hard scrap, 2-1. Barrett and Newman, opposing hurlers in the first meeting, will probably face one another Sunday. Wyoming took the measure of Frederica in their first get together 7 to 4. Millman, Richards or Godwin will be on the rubber for the host nine while Moore or Kemp will go for Frederica with Virgil Emory a possibility.

A full schedule is booked for July 4. Hickman travels to Clayton, Wyoming will be at Milton, while Millsboro visits Frederica. Plans were completed for the annual Mar-Del League All Star game at a meeting at Frederica last Thursday. The contest will be played at the Milford Park Thursday evening, July 19 starting at 8:30. The Sussex All-Stars hailing from the Millsboro, Milton and Hickman nines, will meet a selected aggregation from the Kent County teams, Wyoming, Clayton and Frederica. Each team will nominate 4 players to the all star contest while the respective managers will make a pick of five additional players to balance out their 17 man squad. Managers Jeeze Millman, Chet Windsor and Lawrence Cannon will pull the strings for the Sussex team while pilots, Pop Michael, Ed Holleger and Tom Kennedy will be the guiding hands for the Kent County nine. Umpire-in-chief Harold Johnson will assign three umpires to work the game. The game is expected to draw wide-spread interest in the two lower counties as the players will hail from all parts. The game looms as a hard fought game as the players are well balanced on the clubs. Pitchers will be allowed to work only three innings. Tickets for the game can be secured from any members of the teams throughout the league.

The Better Drill Club held its June meeting Thursday night at the home of Mrs. Irene Outten, with ten members present.

A business meeting was held and plans for an outing in July were made.

Mrs. Lillie Sullivan won the door prize which was a beautiful miniature rock garden.

After the meeting Irene served homemade cherry and apple pie, ice cream and punch. Bingo was also enjoyed by all with Mrs. Elsie Barlow winning first prize.

Dover Softball All Stars To Meet Strong Wilmington Foe In Benefit Contest

Dover Softball All-Stars, selected from the YMCA Senior Loop, will meet the strong Union Methodist Church nine in a benefit game at the Dover YMCA Center Thursday evening, July 5, starting at 8:30.

The Wilmington nine which is running away with the Wilmington League honors, is sparked by Delaware's top softball hurler, Clyde Farmer, who is rated as one of the best moundsmen in the East. Playing with the strong "Frankie's" nine, he has pitched his club to three straight Delaware championships as well as the Central District honors. Farmer usually fans from 15 to 18 men each game. The Dover All-Stars will be selected at a meeting called by President Bob Reed Thursday evening and every effort will be made to pick the cream of the Dover Loop talent.

All proceeds from this game will go toward helping defray the hospital expenses of Vance Morris, veteran Dover softball hurler, who was injured two weeks ago when a line drive through the box hit him in the face and injuring his jaw very badly. Morris has been a standout on the Dover softball fields for many years and has taken part in several benefit games that have aided other injured players. He is well known throughout the lower part of the state and at one time was a standout athlete at Dover High.

Millions To Be Spent For Defense Construction

United States Senator J. Allen Frear has expressed the hope that Delaware businessmen will be able to handle most of the work in connection with the proposed expansion of Air Force and Army installations in the State.

In his weekly statement, devoted in part to a discussion of the 28 and one-half million dollar defense construction program planned for Delaware, the Senator declared that "whatever stimulus to our business and community life that will be promoted by these defense operations should be shared in principally by local people."

Mr. Frear stated that the strategic location of Delaware and the importance of its research and industrial facilities requires that adequate security

measures exist for the protection of life and property in the event of attack. He cited this fact as a reason for the extensive reactivation of state installations. "In addition," the Senator said, "the importance of Delaware bases for training purposes also can not be over-emphasized."

Senator Frear said he regretted the necessity for continued and increased military expenditures, but added, "I am confident that the need for adequate preparedness is recognized, especially during these tense and uncertain days."

On another Congressional matter, Mr. Frear said he was highly pleased that the Senate had defeated efforts to reduce the number of public housing units from 50-thousand to 5-thousand for the next fiscal year. "This means," the Senator said, "that at least 50-thousand families of low income will have the opportunity to obtain living quarters more compatible with what we call our American Way of Life."

When the matter was considered in the upper chamber, Mr. Frear spoke out vigorously in favor of the 50-thousand units in a Senate address.

The Senator also pointed out that Delaware stands to share in the Public Housing program.

Grow Your Own
 When food was dirt cheap, it hardly paid the home owner to raise his own. Today, however, with the prices of fresh and canned fruits and the less-common vegetables soaring, home-grown food can make a big difference in the family food bill.

HOW TO RATE "TOPS" with your Party-Line Neighbors

It's easy to win a reputation as a good party-line neighbor. It pays dividends, too... for when everybody on a party-line cooperates courteously with the others, everyone gets good service!

Two Suggestions: When you start to make a call and find the line in use, hang up gently and give the other person a few minutes to finish his call before you try again. And when, while talking, you realize that your neighbor is waiting to make a call, hang up in a few minutes and free the line.
