HARRINGTON, DELAWARE

Today's Local Delivered Price of the BUICK SPECIAL

2-door, 6-passenger Sedan Model 48D (illustrated)

MAYBE you didn't know that you can get yourself a bundle of big and able Buick Fireball 8 power at the "6-cylinder" price shown here.

But that's only the beginning of the bigger things you get in this eye-catching Buick Special for the low figure it carries - a figure that's just a few dollars more than that of the so-called "low-priced three."

Take a quick roll call.

In this Buick you get more room than those few extra dollars can buy elsewhere.

You get more comfort-comfort that a lot more money can't buy anywhere else-the comfort of the Million Dollar Ride, with coil-spring cushioning on all four wheels, torque-tube steadiness, ready when you are

Safety-Ride rims, the firm solidity of a massive X-braced frame.

You get more satisfaction—more of that good and happy feeling that comes from traveling in a car of ample roadweight, of brawny structure, of impressive styling.

And you get more fun, more thrill from bossing the walloping, silk-smooth power thrust of the highest-powered, highest-compression Fireball 8 engine ever placed in a Buick Special.

What it all sums up to is this straight fact: you get far more automobile in this Buick for just a few more dollars. Better look into the matter if it's a real deal you want for your money. We're IT'S TRADE-IN TIME FOR A BETTER DEAL

### Caesar Rodney School Notes

W. Calvin Wood Honored

W. Calvin Wood, who transferred to Conrad High School Tuesday, was presented with two piéces of luggage at a recent high-school assembly. The presentation was made by Thomas Webb, president of the Student Council, on behalf of the students, the faculty, and other friends of Mr. Wood.

Mr. Wood has been a member of the Caesar Rodney faculty for ten years as a teacher of physical education, and coach. With the increased enrollment in recent years he has been director of athletics with other staff members doing most of the coaching. He was also a sponsor of the Student Council and a homeroom advisor for a section of grade nine.

For the remainder of the school year Fletcher W. Gibson, who was already scheduled to coach basketball, will teach the Physical Education classes taught by Mr. Wood.

Mrs. Eleanor R. Henry, a native of Laurel and now a resident of Edgehill, will teach U. S. history and civics classes taught by Mr. Gibson. Mrs. Henry will also become the advisor for Mr. Wood's ninth grade homeroom.

### Federal Assistance Requested For Building Program

The Caesar Rodney Board of Education has filed an application with the federal government for assistance in school building construction due to residence in the district of military and civilian personnel stationed or employed at the Dover Air Force Base. The base is located ening developments in the district | ipate in this project. are already expanding.

to the extent of fifty per cent of the cost of the additional facilities required.

The last session of the Legislature appropriated \$150,000 to the Caesar Rodney District for additional classrooms which must be matched by \$100,000 in local funds if used.

Any federal funds received may be used as an addition to local and state funds or to proportionately reduce the need for such funds, dependent upon the overall needs of the district classrooms.

ray for a bus load of Kent Coun-Nations in New York.

The bus left from Milford and attended a committee meeting, had a tour of the United Nations buildings, and had luncheon in the Delegates Dining Room. These all made us feel the atmosphere of this bit of internaclose look at the methods by which the United Nations functions. We also had free time for Nations Bookshop and the International Gift Shop, which are located in the Visitors' Lounge.

A visit to a television show completed the day in New York. Everyone returned to Delaware with a better understanding of the United Nations and its functions.

This trip was planned by committee, which met several times in the last few months to make plans and arrangements. Mrs. J. Heyman Roosa, Milford, was the chairman, and the other members were Mrs. James Webb and Mrs. Jonathan S. Willis, also of Milford. They deserve a vote of thanks for their

### FALL-BRED HEIFERS USUALLY MOST PROFITABLE

If dairy farmers want their heifers to be fresh for next fall's milk production they should be watching the animals now for heat periods, says John P. Dietrich, extension dairyman at the University of Maryland. Dietrich points out that it is a good plan to have the heifers freshen next fall because "Milk prices are usually higher during the early fall and winter months, compared to other seasons of the

The time of breeding is important, but Dietrich emphasizes, "Most important of all is to breed these heifers to a good proven bull." He suggests dairymen consider their cooperative bull studs when making fall breeding plans.

Dietrich also has this sound advice regarding the feeding of heifers of breeding age: " For Friday, Nov. 20, was a big be gaining in weight at breeding time. Walker and Hulse point out that Maryland sales tax exemptions on articles which farmers use in production are extremely important in helping Maryland farmers maintain their competiive position with farmers in pordering states and other states where similar purchases are not subject to sales tax. As an example, they explain that broiler producers in Maryland would be at a disadvantage if they had to pay sales tax on feed. Competing broiler producers in Delaware and Virginia do not pay such a tax.

The economists believe the Maryland sales tax, in so far as it affects agriculture, can be

Today brings sad memories
Of the day you went to rest
But you'll always be remembered
By those who loved you best.
It's lonesome here without you,
And sad the weary way
For life is not the same to us
Since you were called away.
The blow was sudden, the shock severe

A memory to cherish forever, Of one who was dear to us all. Sadly missed by Mrs. Hilda Peterson and daughters, Helen and lophia.

Frequent Oil Changes Protect Engine

When was that last OIL CHANGE? Last month? Last week? Actually should be every 1000 miles. Constant grind of driving "breaks down" oil's efficiency, causing excess engine wear. ..Let us drain the crankcase and refill it with fresh, clean oil . . . and change the oil filter too. .. So, play safe! .. Drive up today and "Check the Oil!"

### **MATH CLUB NEWS**

On November 25, the Math Club was called to order by our because vice-president, Maureen Boyer,

because our president was absent. At this meeting we decided to think about our Christmas party Miss Morris, our sponsor, said we would have to have it on December 9 because the next week we would have our homeroom meeting. Suggestions were made for the refreshments and members were chosen to get food. Next, we discussed the games we are going to play. We also decided it would be fun to draw names for presents.

At a previous club meeting, we finished geometrical designs which we hung on the bulletin board in the Mathematics room
