Japanese Beetle Quarantine Still In Effect

In a seasonal notice issued today, the U. S. Department of Agriculture reminded all shippers of the year-around Japanese beetle quarantine regulations, and urged all who plan to ship or carry plants outside the regulated area, to make advance arrangements for certification.

The year-around Japanese beetle quarantine regulations apply to all shipments of soil and plants subject to beetle grub infestation from the District of Columbia and all or parts of 15 eastern states to nonregulated destinations.

Quarantine regulations, designed to retard the spread of the beetle to uninfested sections, require that only certified soil and plants may be moved from the regulated areas. Safe, effective low cost methods of quarantine compliance acceptable to all states have been developed by the department's regulatory and research workers in cooperation with states and industry.

Certification service is by a force of State Federal inspectors located according to needs, and no charge made for certificates. Plant quarantine inspectors at postal and common carrier terminals and at some highway truck weighing stations check shipments for quarantine compliance. Advance arrangements for certification may be made with the local inspector, whose name and address may be obtained at postoffices and other common carrier agencies, or from the county agricultural agent.

This 30-year old Federal State quarantine program now applies to the District of Columbia, all of Connecticut, Delaware, Massachusetts, New Jersey, Pennsylvania, and Rhode Island; and to parts of Maine, New Hampshire, New York, North Carolina, Ohio, Vermont, Virginia, and West Virginia—about 5 percent of the United States area.

Most regulated shipments are by commercial growers or dealers—2000 in 1953—but many specialists and hobbyists interchange plants on a country-wide basis. Some of these, such as growers of African violets, exhibit plants at area and national shows.

Milford Hospital To Hold Open House May 16

On Sunday afternoon, May 16, from 1 to 3 o'clock, an open house will be held at the Milford Memorial Hospital. The public is cordially invited and urged to attend.

For the past two years this hospital has greatly enlarged its capacity and facilities with the construction of a new wing to the main building, a nurses' home, and training school and a new power plant. The cost has amounted to almost one million dollars.

Everybody in the large area served by the Milford Memorial Hospital will have the opportunity to inspect this remarkable institution. It has become a medical center in the full meaning of the term, providing for its patients many modern facilities that are usually available only in large hospitals of metropolitan communities.

The schedule of operation of the hospital must be maintained for the welfare of the patients and, hence, this specified period must be observed. Quite understandably, this request is compulsory.

The members of the Ladies' Auxiliary will serve as guides at the open house to conduct the visitors on the planned tours of the buildings.

This event has long been awaited with great interest, particularly by the hundreds of contributors to the new construction fund. Now they can observe the new building and equipment which their generous contributions have brought within the easy reach of all this community who need hospital care.

All Things Work Together

And we know that all things work together for good to them that love God. — Rom. 8:28
This verse in Holy Writ I see Has very often puzzled me. And many have been led to doubt Just how this could be brought about. How trouble as a blessing could Work out for our eternal good. Was more than sight of man could know. And yet I felt it must be so.

All things include both dark and bright; It means the sunshine and the night. It means my sickness and my health; My poverty as well as wealth. This world is full of toil and care. Both joys and sorrows have a share; But one there is, a present friend, Who knows my life from start to end.

Should He permit dark clouds some day. To cast a gloom upon my way, I know it is my father's will; I'm in His care—He loves me still. My feet may press a world of care, But I may breathe a purer air. An atmosphere from Heaven above. Fragrant with the Father's love.

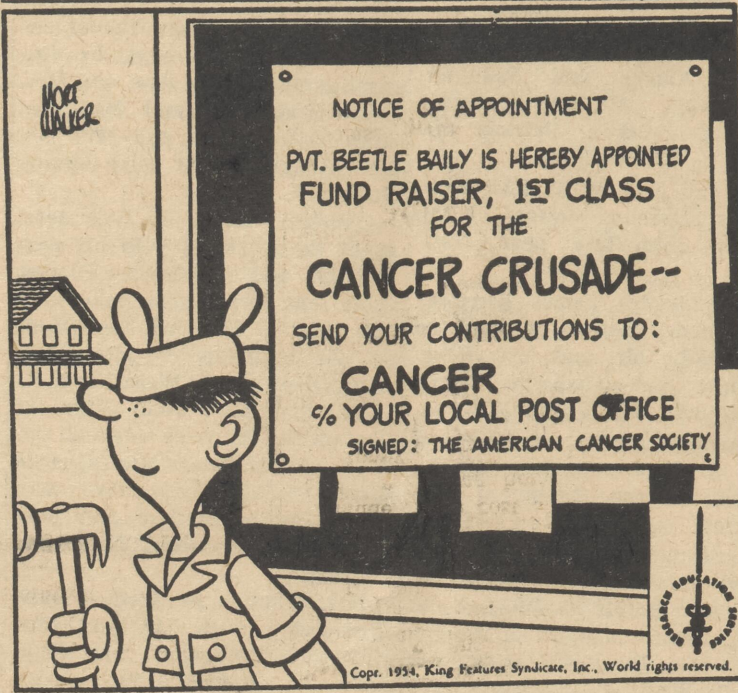

Some day when I've arrived at home, And view the road o'er which I've come, I'll see from battlements of light, And know he doeth "all things" right.

For then will be revealed I know A picture of my way below. Some things I had not understood I'll realize were for my good. I'll see from where I then shall stand. The "all things" were within His hand. He knew just where and when to send A shadow with the light to blend. My Father has in view a plan Far deeper than the mind of man; And since He ne'er forgets His child, I'll trust him and be reconciled.

The past is gone; the present hour Is mine with sunshine or with shower; The future days of weal or woe Are veiled—I'm glad He wills it so. All things—this comprehensive phrase Will lead me on through life's short days. And in a better world of rest, I'll see more clearly, God knows best.

10 Entries For Beauty Contest Here Wednesday

There will be ten entries in the Rotary Club's fifth annual beauty contest here Wednesday evening at the Reese Theatre. The contest will be held to select Miss Harrington, the community's entry in the queen contest of the Delmarva Chicken Festival at Georgetown in June.

The entries in the local contest are as follows: Jo Ann Brown, Joyce Hickman, Janice Holloway, Ruth Moore, Deanne Shultie, Ruth Wright, and Margaret Greer, all of Harrington, and Reba Clark, Sarah Gardner, and Norma Lee Torbert of Felton.

The Reese Theatre has worked unceasingly to get a feature picture that will be every bit as good as the one last year, said a contest official Wednesday. The picture, released this month, is "Drive a Crooked Road," starring Mickey Rooney. There will also be an excellent short feature, the official said.

Between shows the beauty contest will be held. The Rotary Club is most proud of the girls entered in the beauty contest.

Contestants will be judged on the following points: Beauty of face and figure, 50 per cent; poise, carriage, and posture, 25 per cent; and personality, charm and grooming, 25 per cent. The judges, from out of town, will see the contestants in bathing suits and evening gowns.

While the judges are deciding the winners, the Harrington Rotary Club will put on its usual comedy skit. This year the men will be more beautiful than ever, said a contest official. Some of the cuties in the men's contest will be the Rev. Milton Elliott, Brinton Holloway, Cliff Miller, Anstine Stafford, and George Thompson.

This year a quartet, led and directed by Melvin Brobst, director of music in Harrington schools, has been added. Members of the quartet are Mr. Brobst, Dr. Robert Smith, the Rev. Robert VanCleaf, and Jacob C. Messner.

Fulton J. Downing will be the master of ceremonies. Miss Shirley Harrington, Mrs. Louise Messick, Miss Patricia Holloway and Miss Barbara Smith, former Harrington queens, will be presented to the audience.

The Rotarians are selling tickets for the event. Each ticket bought from a Rotarian helps to pay for the gifts given to the girls. Tickets brought at the theatre return the Rotarians no profit.

Questions And Answers

Q—I'm a World War II veteran who back on active duty after Korea. When I did so, I put my National Service Life Insurance premiums under waiver. I've just been separated and I understand that the waiver will last for 120 days after my separation. However, I plan to go back into service again before the 120 days are up. Will I have to apply for another waiver of premiums?

A—No; there will be no need for you to apply for another waiver. So long as you re-enter within the 120-day period, VA will continue to waive your premiums while you're on active duty—just as though you never had left the service.

Q—I am the widow of a World War I veteran, and I have applied for a VA pension. At the present time, I am in a nursing home. My nephew is paying the expenses. In figuring my annual income, for pension purposes, must I include the cost of keeping me at the nursing home?

A—Money paid to the nursing home, to cover cost of maintaining you there, is not considered as income, for purposes of a VA pension.

Q—I want to go to school under the Korean GI Bill. Since I was discharged before August 20, 1952, I understand I'll have to begin before August 20 of this year. Would it be possible for me to file my application now, and begin class this coming fall?

A—No. Under the present law, you actually must begin your studies before the August 20 cut-off date. The filing of an application alone is not enough.

Q—Id like to train in a foreign school under the GI Bill. Will VA pay my way abroad and back?

A—No. You will have to pay for your own travel. All you will receive from VA will be a single monthly allowance to cover each month of training.

All City Council members were deputized by Mayor Ernest Killen this week with powers to make arrests of traffic violators, following complaints that "hot-rodgers" were making a racetrack of the Harrington business district on Sundays.

The action was taken Monday evening, at the Council's May meeting after Councilman Charles Jerread said he had seen seven cars racing Sunday. There are no policemen on duty during the daytime Sundays.

The Councilmen are Walter Messick, Dr. Hewitt Smith, Mr. Jerread, Leonard Harrington, Charles Peek Sr., and George Graham. It was also recommended that Constable Kenneth Aiken be notified to watch for violators.

The "hot-rodgers" have been performing antics on Harrington streets for some time, which would make the stock-car drivers on the Georgetown and Delmar tracks look like rank novices.

Mayor Killen explained that the deputizing was done "to benefit the people of Harrington and may-be save a life."

Revision of Charter

With a busy agenda, the Council decided to make a study of Harrington's charter, with a view of asking for revisions when the Legislature meets next year. Particularly, at the instigation of Councilman Jerread, the Council was interested in extending the hours of the municipal elections from 1 p. m. to 4:30 p. m. to 1 p. m. to 7:30 p. m.

Removal of Trees

The Council stated it would like requests from citizens desiring removal of bad trees on City property, and stated the Council would work with the citizens.

The City government also took a big chunk out of a loan of \$25,000, made last year to finance extension of water and sewer mains on Delaware Avenue, and Simmons, Calvin, and Liberty Streets, when it authorized payment of \$5000 each to the First National Bank and the Peoples Bank.

Councilman Walter Messick and City Manager Norris Adams were appointed to a committee to study a request of Reese B. Harrington, operator of Reese Theatre, who asked that no charges be made for parking meters on Saturday nights. He claimed that it hurt his business. The committee is to report within 30 days.

In other business, the city manager was asked to get prices on awnings for two windows of the city office. It was agreed to ask the State Highway Department to erect traffic signs on East St., a state-maintained road. Lawrence Larimore was told he could get a permit to hook on to the sewer and water mains on Mispillion Street after he gets permission to run the lines across a private lot to his home on West Street which has no sewer mains.

The Harrington Home Demonstration Club met Monday afternoon in Odd Fellows Building with Mrs. Joshua Lister presiding. There were 32 members and one guest present.

A history of the club was read by Mrs. Kotlaba.

Suggestions for next year's program were read by Mrs. J. F. Camper and voted on. Mrs. Ellwood Gruwell was elected to attend the short course at the University of Delaware in June to represent the Harrington Club. She will be accompanied by Mrs. Oscar Nemesh.

A trip was planned to Longwood Gardens June 10, leaving here at 1:30 and staying for the evening performance. Anyone desiring to go should contact Mrs. Lister.

The meeting was then turned over to Mrs. Clarence Shockley and her committee, Mrs. Preston Anthony and Mrs. Marion L. Brown who presented a program on flower arrangements. They had flowers arranged attractively in vases. Mrs. W. T. Camper and Mrs. W. S. Smith, two of the older members who are unable to attend meetings very often, were presented artistic corsages.

Refreshments of ice cream and cake were served by the refreshment committee.

Have You Registered?

Have you registered so you can vote in the general election this fall? The odds are that you haven't. ALL persons eligible to vote must register this year, despite the fact they may have registered in other years.

This requirement to vote was made necessary by an Act passed during the past session of the Legislature. So, you must register this year if you wish to exercise your desire to vote.

The regular registration days in the Representative Districts are Wed., July 14, and Sat., Oct. 2 and Sat., Oct. 16, from 8 a. m. to 7 p. m., with an intermission from 12 a. m. to 1 p. m.

In the Ninth Representative District, which represents most of Harrington, there are approximately 1900 persons who can register and vote, according to an election official. Since this would be a prodigious task, and since many persons might not be able to register on these days, the Department of Elections for Kent County has listed a number of auxiliary registration days.

These days started in April, with the remaining days as follows:

May—Wed., 5th, 12th, 19th, and 26th; June—Wed., 2nd, 9th, 16th, 23rd, and 30th; September—7th to 27th inclusive, Saturdays and Sundays excluded.

The auxiliary registration officers will accept registrations in the Department of Elections office, Kent County Court House, Dover, from 1 to 4:30 p. m., and 6 to 9 p. m., during May and June, and from 8:30 a. m. to 4:30 p. m., during September.

It thus behooves everyone desirous of exercising their franchise to vote to be sure they are registered by going to Dover and registering on one of the auxiliary days.

Thus far, the auxiliary registration offices have received but a mere handful of registrations from the Sixth and Ninth Districts, in which Harrington is located.

However, it requires but little effort for persons outside Dover to drop in at the Courthouse when they are in town and register.

Don't lose your right to vote in the primary and general elections by neglecting to register.

Jayvee Baseball
The J. V. baseball team, made up of boys up to 14 years of age, won the first game they played last Thursday from Houston 7-3. Jimmy Stayton fanned 11 and allowed 8 hits. Bob Wilson drove in 4 runs with a homer and a double. All the boys played a nice game in the field.
On Monday, the J.V. team won their second straight victory with a lopsided victory over Magnolia. The final tally was 16-2. Jackie Porter and Billy Gray twirled and the team pounded out 12 hits, led by Bob Wilson and Butch Cahall. Mr. McDonald used all 19 of his players in a vain effort to keep the score down. Magnolia plays here tonight and a closer contest is anticipated.

Tenth Grade H. E. Trip
The tenth grade homemaking class took its annual field trip recently to Baltimore this year.
They were luncheon and plant guests of the William Schludersberg-T. J. Kurlde Company—the makers of Esskay meat products. The company's main Esskay plant is located in east Baltimore with a live stock buying station in Wye Mills, Md., and two or more poultry plants on the Eastern Shore of Maryland.
The two Eastern Shore poultry plants are located close to the poultry producing areas to insure the minimum of handling so that poultry is in prime condition when dressed.
All meats and poultry sold under the Esskay brand are inspected by the U. S. Government which is a definite guarantee of wholesomeness.

The girls were impressed with the entire meat packing process and especially with the rapidity of completing a specified job, the cleanliness of the plants and its workers and the meat inspectors and Rabbi for Kosher meat.

Caesar Rodney School News

School Election Officials named
The Caesar Rodney Board of Education has appointed the officials to conduct the election of a board member tomorrow from one to five in the high school building. They are: inspector, T. Edgar Townsend; judges, Homer C. Nickerson and Arlington Slaughter; clerks, Mrs. Margaret V. Lingo and Mrs. Dorothy C. Marker.

The candidates for membership on the Board of Education for a four year term beginning July 1, are Mrs. Vera M. Clute, J. Edward Morris and Dr. Harry G. Neese.

Frank W. Richardson, whose term expires, is not a candidate for re-election. Mr. Richardson has been a member of the Board of Education for 14 years and requested that his name not be filed.

Noon Period Shortened On Trial Basis

Caesar Rodney students get out of school 15 minutes earlier during the week, but must give up 15 minutes of their noon period in return. The high school noon period will be from 12 o'clock until 12:27, and the dismissal time will be 3:31 instead of 3:46 in the afternoon.

The purpose of the change is to shorten the days for pupils in grades one and two, who, on account of the bus system used by a majority of pupils, must wait to go home until the high school day is ended.

Several high school activities will be eliminated by the change including movies, dancing, and noon athletic games in high school groups. The high school detention period will be held before and after school instead of at noon. The organized basketball noon schedule has been completed for the year.

A PTA committee headed by Mrs. Freida Cooper has been studying the problem of the long school day for the first and second grade pupils. A shorter noon period was one of the suggested means of helping the situation. It was felt that this proposal merited a trial during the current school year, so that it could be extensively used next year if

found practical. Candy Sale Further Limited In The Cafeteria

Students who have lunch tickets have been unable to purchase anything but an "A" lunch on the ticket. If these students purchased candy it was with extra money brought from home for that purpose.

However, it has been noted by teachers and cafeteria cashiers that several elementary school pupils have been cutting down on their lunches to two or three items and then later spending ten cents or more for pretzels, potato chips, or candy.

Under the new plan, put in operation at the suggestion of the cafeteria committee, candy, potato chips, and pretzels will be available to pupils in grades one to six at noon only while they are in the lunch line and after they have selected their lunches, with no child being permitted to buy more than five cents worth of candy or such.

The high school students who eat in the cafeteria are not included in the limitation as the lunches they select usually are ample in variety and quantity. No soft drinks are sold during the lunch period to either high school or elementary school students. However, high school students are permitted to leave the grounds at noon and are not required to eat lunch in the cafeteria.

The sale of candy in the cafeteria on a limited basis has the approval of the PTA.

Sports

The Felton baseball team has won 1 and lost 3 games over the past two weeks.

Since then, the Green Devils have absorbed two losses at the

hands of Bridgeville and Milford by 12 to 0 and 12 to 1 respectively.

DELMARVA CHICKEN

FESTIVAL NEWS

Charles Moore of Georgetown, chairman of the poultry equipment show, which will be an important part of the Delmarva Chicken Festival to be held in Georgetown June 21, 22, and 23, announced this week that a number of concerns have already signed up as exhibitors and have taken over 24 of the 53 booths available for exhibition purposes.

The Equipment Show will be set up in booths in both the old and new gymnasiums of the Georgetown High School, where the Beauty Queen Contest and the Senior and Junior National Chicken Cooking Contests will be held, thus placing all the main events under one roof.

Letters have been sent out by Mr. Moore and his committee, carrying details on available booth space, rates and services which will be made available to exhibitors. Mr. Moore pointed out that early reservations are most desirable, since they will provide the exhibitor with a better selection of sites for the particular product equipment or demonstration desired to be shown, during what is expected to be the biggest and best festival held in the seven years since it began.

Among the exhibitors which have already reserved space inside the building are: Maryland Poultry Council, Delaware REA, Lederle Laboratories, Moore Brothers, Maritime Milling Co., DeStroy Laboratories, M & D Sales Co., Esaco Supply Co., Herbert Colfine Co., Dr. Salsbury Laboratories, Southern States Cooperative, Ralph M. Betts and Mumford Sheet Metal Works.

The Reynolds Metal Works of Baltimore have arranged for an outside display which will include a 34-foot all metal trailer coach.

The committee plans to send additional letters to prospective exhibitors this week urging early reservations in order to insure best possible locations. Serving with Mr. Moore, the chairman, are Charles Peck Jr., for Delaware; Ray Murphey for Maryland; and Edward Kelley for Virginia.

CLUBS ATTEND EVENING WORSHIP

The Harrington Home Demonstration Clubs attended evening worship at Asbury Church Sunday, May 2. There were 25 members representing the clubs with total attendance of over one hundred.

The Chancel Choir sang "The Holy City" by Adams, under the direction of Melvin Brobst, organist. Mrs. Catherine Hickman and Mrs. Lillian Camper sang a duet, "Mansion Over the Hilltop," accompanied by Mrs. Grace Cooper.

After welcoming the special guests and congregation, the pastor, the Rev. Robert E. VanCleaf, preached on the subject, "The Home and the Church," which was very appropriate to the occasion.

Following the service, the regular meeting of the official board of Asbury Church was held.

KENT COUNTY DOINGS

We are now in the middle of National Home Demonstration Week — May 2 to May 8. By now you should have heard and seen lots about the activities of your local home demonstration clubs.

Many Kent County women attended the state home demonstration meeting Tuesday at the Capitol Grange Hall in Dover. Mrs. William Sterling, Dover, publicity chairman, and Mrs. Duane Lynn, Milford, international relations chairman, gave reports along with the other state chairmen. The Cee-W-Dee Club furnished and arranged decorations. Serving as hostess committee was the Fraziers' Club. The women of Capitol Grange served luncheon; Mrs. John S. Farrow, Magnolia, was in charge of reservations.

Most clubs are planning special activities for national home demonstration week. One of the best ways to tell other women about your club is to invite your friends to attend your regular meeting, or a special meeting. The Merry-makers Club in Harrington, Andrews, Laws, Cowgills, Canterbury, Hartly, Hous-ton Kenton and Leipsic Clubs are each planning an open house in May. Some of these are to be held with their regular meetings; others are planning a special meeting or party.

Store windows in several communities will have displays of articles made by the home demonstration club members. The clubs which plan to have displays are the Merry-makers, Chestnut

Grove, Viola, St. Jones and Friendly Homemakers. If you have been wondering just what home demonstration clubs do, perhaps you had better take a look. At least three clubs are planning to have special community projects as a part of their celebration of national home demonstration week. They are Viola, Cee-W-Dee, and Oak Grove clubs.

At their open house, the Harrington Club is planning to honor members who have been in the club the longest time. The Viola Club is sending a card to its only living charter member.

Many clubs are planning to attend church in a group, May 2 or May 9. The Houston Club is inviting several other nearby clubs to go with them on Sunday evening. Other clubs attending church are Clayton, Harrington, Chestnut Grove, Cowgills, Viola, St. Jones, Fraziers, and Farmington.

Most clubs will have special publicity in the papers; Harrington, Oak Grove, Farmington, and Fraziers are having special articles to tell others about their clubs.

MAN DROWNS AT BOWERS BEACH

A man was drowned at Bowers Beach Friday when he fell off of a boat which was tied up to a wharf along the Murderkill river, a short distance from the point where this river merges with the Delaware Bay.

Andrew Ames, 24, who resided at Bowers eBach, was working on the boat of Captain Harry Blades, by whom he was employed, when he accidentally fell off the boat into the river.

Ames was engaged in assisting to clean the boat at the time and it is thought that he slipped and could not grab hold of anything before he went overboard.

He did not return to the surface of the river after falling in and this caused veteran watermen to believe that he had been stunned by striking his head against some object as he fell. Grappling operations have been in operation under the direction of state police but have been unsuccessful.

FARM NEWS - REVIEW - FORECAST

NEW POTATO VARIETY MEETS DELAWARE APPROVAL

Delus, a new variety of potato, has just been unveiled after four years of tests in Delaware. And from all reports, it shows promise of becoming an important variety for this area.

The Horticultural Crops Research Branch of the U. S. Department of Agriculture and Delaware Agricultural Experiment Station have released the new spud after judging it to be high-yielding, good-cooking and late blight-resistant.

According to Eugene P. Brasher, research horticulturist at the University of Delaware, Delus made a good showing in field trials here, outyielding the standard varieties Irish Cobbler and Katahdin in three out of four tests. It averaged 10 to 12 bushels of tubers per acre over the two other varieties. Medium to late in maturity, it is immune to common races of the late blight fungus.

Delus, as grown in Delaware, produces very attractive potatoes with roundish shape, light skin, shallow eyes and white flesh. It has superior quality for all-purpose cooking, being mealy enough to bake well.

The new potato will be available in limited supply next year for test purposes. It probably won't be on local grocery counters for another two years.

SPRING CLEAN-UP

PREVENTS ANIMAL INJURIES

A good spring clean-up program on your farm should be considerate of animals, too, reminds George K. Vapaa, county agent.

Many potential animal injuries can be prevented if you will do the following:

Repair or remodel high door sills, short stalls with deep gutters and low, loose fences that may tempt cattle to climb them. Many udder and tear injuries are caused this way.

Dehorn cattle to keep them from injuring each other.

Block holes in your building foundations to keep animals from burrowing under them.

Ground your wire fences every 200 feet to keep animals from being electrocuted while they are on pasture during summer storms.

Remove protruding nails from buildings and pens. Nails can puncture an animal's skin and let disease germs in.

Keep machinery out of pastures and lots when not in use.

Pick up old plowshares and points, clutivator shovels and broken machinery parts.

Clean up after finishing repair jobs—nails, bits of wire and other small objects left lying around can easily get mixed in with feed or picked up while grazing. Once inside the animal they can puncture internal organs, causing painful injuries or even death.

"NO VISITORS" BEST FOR STOCK QUARTERS

A "no visitors" sign around the stock barns and poultry buildings may seem unfriendly, but it will help reduce diseases.

County agent George Vapaa explains that visitors may bring in the germs and viruses of many diseases on their clothing and shoes. Such infectious diseases as hog cholera, fowl pox, shipping fever and many others may be spread this way.

For example, the recent outbreak of foot-and-mouth disease in Canada may have resulted from the virus being brought from Europe on someone's clothing, the American Foundation for Animal Health indicates.

If there are outbreaks of contagious diseases on nearby farms it's doubly important to bar visitors from livestock quarters, stresses Vapaa. Another time to apply the "keep-out" rule is when new stock is brought to the farm. All newly-purchased animals should be held in quarantine long enough to make sure they are disease free. New animals showing disease symptoms should be examined by a veterinarian so the trouble can be recognized and treated before it spreads to healthy animals.

SOME POINTERS ON THE PIEPLANT

In America rhubarb is often referred to as the "pieplant" because it is commonly used in making pies.

Our word "rhubarb" comes from the Latin *rheubarbarum*.

The pieplant has had a slow gain in popularity since its early use as medicine in China nearly 5000 years ago. The roots and leaf blades of rhubarb contain several harmful chemicals which may cause violent digestive disturbances if eaten. Only the leaf stalks should be eaten; the leaves should be discarded.

Victoria has been a popular variety for generations, but it is gradually being replaced by Valentine and McDonald because of more attractive red color.

Home gardeners in the southern sections of Maryland are often disappointed by the poor performance of their pieplants. One should keep in mind that this plant is native to cooler climates where the roots get an "extended vacation" imposed by long winters.

In Maryland special care is necessary to get satisfactory growth. Each spring broadcast and work in lightly 20 pounds of pulverized limestone 10 pounds of hydrated lime to 1000 square feet. Follow this treatment with 15 to 20 pounds of a 10-10-10 fertilizer. This should maintain rapid growth and produce a large number of heavy leaf stems. After the cutting season, or about mid-summer broadcast an additional 15 to 20 pounds of the same fertilizer on 1000 square feet and cultivate it into the soil along the row. Rain won't hurt the rhubarb if there is plenty of fertilizer present.

Seed stalks that develop should be pulled off as soon as they appear. Keep weeds out of the rhubarb planting. During periods of dry weather soak the soil around the plants once a week.

Rhubarb plants which are killed by disease should be dug up and removed from the garden. Only one disease, "foot rot," is likely to be serious.

VETERANS ADMINISTRATION

Q—My husband, a World War I veteran who did not have any GI life insurance, left me a \$10,000 commercial life insurance policy when he died. He stipulated in the policy that the proceeds be paid to me in a lump sum, but I was permitted to change that so I would receive regular monthly amounts. In computing my annual income for VA pension purposes, am I supposed to count these monthly insurance payments as income?

objective whatever is listed on the application. Q—Since I was discharged before August 20, 1952, my deadline for starting training under the Korean GI Bill is this coming August 20. Must I actually be in school on that date, in order to continue afterwards?
