

BUSINESS GROUP CHANGES NAME TO CHAMBER OF COMMERCE

The Harrington Better Business Association Monday night voted unanimously to change its name to Harrington Chamber of Commerce.

The change was made mainly because it was believed the new title would be more indicative of the nature of the duties of the group. Thus, once more, Harrington has a chamber of commerce, as it had intermittently, through the years.

The Retail Merchants Committee, Clarence Collins, chairman, which handled the annual Christmas program, made an excellent report. W. W. Shaw read the report, which will be incorporated in the minutes. The committee will also handle the 1955 Christmas program.

The secretary was also authorized to write letters of appreciation to Peggy Malek, Harrington school, and the Pennsylvania Railroad, for their part in the constructing and erecting of a Nativity Scene, a part of the Christmas lighting display.

The secretary was authorized to write Karl Dorzbach, Jr., president of the Dover Chamber of Commerce, and ask him to appear before the group to present a plan for a downstate federation of chambers of commerce.

Mayor Ernest E. Killen, a member of the chamber, told of the successful referendum on the new water tower Friday. He said the contract would be awarded the low bidder, the Chicago Bridge & Iron Works, and added that the company said the tower would be up before the end of the year. The city will build the foundation. The city council will select a site.

The Chamber went on record as unanimously favoring a site east of the railroad and the secretary was authorized to write a letter to the city council to that effect.

Mr. Downing appointed a Legislative Committee, with the following members: Chairman, Mayor Ernest E. Killen; W. W. Shaw, Charles Peck, Jr.; J. Edward Taylor, William Taylor, Walter Messick.

The committee will appear before the City Council when it has a meeting to discuss revision of the City Charter which move may come at the General Assembly.

Felton

S. Sgt. Gerald Neeman has returned to Scott Field, Ill. after spending his leave with his parents, Mr. and Mrs. Charles Neeman.

Mr. and Mrs. James Pizzadilli had as their guests last week Mr. Pizzadilli's parents and brother, Mr. and Mrs. John Motter and Harry Motter, of Elizabeth, Pa.

Mrs. Lillian Ross and Eddie had as their dinner guests Sunday Mrs. Margaret Nichols, Milford, Mr. and Mrs. James Ross and sons, and Mrs. Rachel Reed. The occasion was Mrs. Ross's birthday.

Mrs. Llanah Milbourn, Mrs. Helen Harrington, Mrs. Ruth Sheets and Mrs. Ruth Bradley attended the installation of the Kent chapter of the Harrington Eastern Star Lodge Wednesday of last week. Mrs. Ruth Sheets was installed as one of the officers.

Mr. and Mrs. Ola Brittingham, Jr., and children visited Mrs. Brittingham's brother and wife, Mr. and Mrs. Frank Baynard and their new daughter in Hurllock, Md., Sunday.

Mr. and Mrs. James Cahall entertained at a family dinner Sunday. The guests were Mrs. Fred B. Greenly, Sr.; Mr. and Mrs. Jack Parker, Mr. and Mrs. Fred B. Greenly, Jr., and three sons; Mrs. Laura, Clark and Mrs. Blanche Cahall.

Mr. and Mrs. C. M. Simpler and Mr. and Mrs. Herbert Abbott and son of Dover, spent Sunday with Mr. Simpler's sister, Mrs. Katie Stevens, at Selbyville.

Weekend guests of Mr. and Mrs. Lee Harrington were Mr. and Mrs. Jay Harrington and sons Michael and Jackie, of Trenton, N. J.

Mrs. Louder Harrington is a patient in the Johns Hopkins Hospital in Baltimore.

Mrs. Ella Melvin has as her weekend guests her son and wife, Mr. and Mrs. Howard Melvin, Baldwin, Long Island, N. Y.

Mr. and Mrs. George Butch Harrington and Edgar have moved into their new home on East Main Street.

Ruth Anne Johnson was an overnight guest of Mr. and Mrs. Marion McGinnis Saturday.

Mr. and Mrs. Hammond Coverdale and three daughters spent Sunday with the former's parents, Mr. and Mrs. Benjamin W. Coverdale.

Mrs. William Eliason is recuperating at her home after being a patient in the Milford Memorial Hospital with a leg injury.

Mr. and Mrs. Charles Griffith and daughter were Monday evening guests of Mrs. Griffith's parents, Mr. and Mrs. Joseph Ward.

Mr. and Mrs. L. E. Cain were in Wilmington Monday.

Mr. and Mrs. John French are receiving congratulations upon the birth of a son born Jan. 11. This is their third son. They also have a daughter.

FIREMEN EXTINGUISH FIRE

Harrington firemen extinguished a chimney fire, with no damage, at 8 a. m. Wednesday morning at the home of Lulea Omsbrook on the Harrington-Blades Crossroads road about three miles from town.

FAIR ASSOCIATION ELECTS 2 NEW DIRECTORS AND A COMMITTEEMAN

A member was elected to the Executive Committee and two members to the Board of Directors of the Kent & Sussex Fair Association at a meeting Thursday night, Jan. 6, when all other officers were re-elected.

J. Harold Schabinger, of Felton, former harness racing commissioner, was elected to the Executive committee to fill the post of Norman Collison, deceased. Judge Marion Stevenson, of Frederica, judge of the Juvenile Court for Kent and Sussex Counties, and C. Douglas Mills, of Harrington, were elected to the Board of Directors.

Officers re-elected were as follows: President, Jacob O. Williams; 1st vice-president, J. Gordon

Smith; 2nd vice-president, R. Allen Cannon; secretary and general manager, T. Brinton Holloway; treasurer, C. Sharp Harrington, and assistant treasurer, Fred C. Powell.

Executive Committee—W. J. Swain, A. E. Parsons, R. Allen Cannon, Fulton Downing, Jehu F. Camper, J. O. Williams, J. Gordon Smith, Arnold Gilstad, John H. Holloway, R. Edmund Harrington, T. Brinton Holloway, C. D. Murphy, Jr., William W. Shaw, Earl Sylvester, and George Simpson.

In other business of the meeting, the directors of the fair association authorized its general manager, T. Brinton Holloway to employ an engineer.

Cub Scouts Take Over Diesel

Cub Master Harry Darby and three Den Mothers, Betty Jane Knox, Anne Lee Taylor, and Doris Fry, and numerous Cub Scouts pose on a diesel locomotive Saturday afternoon as part of "Railroad Month." Engineer Charles Derrickson peeks out of the cab. On the ground are, left to right, brakeman C. Kemp, Conductor L. H. Rogers, and Cliff Miller, superintendent of Maintenance of Way.

'BINGO', GOVERNOR ASKS FOR IT AND KOREAN BONUS

A bonus for Korean veterans similar to that enacted for veterans of World War II, and a constitutional amendment permitting bingo by non-profit charitable, religious and patriotic organizations were among the recommendations of Gov. J. Caleb Boggs to the 1955 General Assembly in Dover, Tuesday.

The Governor delivered his biennial report to a predominately Democratic joint session of the Senate and House of Representatives at noon, and stressed cooperation between the executive and legislative branches of the state government.

He assured the law makers of his fullest cooperation "with respect to the formulation and enactment of legislation in the best interests of good government and the people of Delaware."

His 24-page message contained a number of recommendations for action by the current session. Among them were:

- Teachers Salary Rise**
An increase in teachers' salaries and other teacher benefits, including recognition for accredited out-of-state service and fair dismissal legislation.
- Constitutional Amendment**
giving the Chief Justice of the Supreme Court administrative control of all state courts, including justices of the peace.
- Other judicial legislation** including revision of the justice of the peace system, limiting officials authority to disputes involving less than \$200 in civil cases, and establishing a salary instead of a fee basis, and the provision for a full-time chief deputy in the office of the Attorney General.
- Annual session of the General Assembly**, with regular sessions in the odd years not to exceed 60 days, and a session in the even years not to exceed 30 days, with the latter sessions limited to fiscal matters and other matters suggested by the Governor.
- State Reappointment**
Reappointment or state representative districts, providing additional representation in heavily populated areas.
- Zoning authority** for Kent and Sussex Counties.
- Legislation permitting the construction of an enlarged approach system to the Delaware Memorial Bridge from income derived from bridge tolls.**
- New departments in the state government** recommended by Governor Boggs include the establishment of a Department of Administration and/or Finance, and the establishment of a State Department of Labor.
- Regarding central purchasing and administration**, the Governor submitted to the legislators copies of survey reports made in the first case by the Public Administration Service of Chicago and a citizens' committee, in the latter case by the Governor.

(Continued on page 8)

H. H. S. A. Wants Lt. Lyman Price Records for School Raised to Captain

The Harrington Home and School Association at their last meeting decided to sponsor a record collection for Grades 1 through 3. These records will be used for entertainment and study in each of the above grades. A phonograph is available in each of these grades and any record can be used.

Anyone having records, used or otherwise, and wishing to donate these to the cause, contact Luther Hatfield, chairman of the committee, and he will be glad to pick them up, or have them taken to the school and left with Melvin Brobst.

Further records will be secured by the funds from the Home and School Association after cataloging the records which are received from the public and seeing what further ones are needed in this program.

The Ladies Auxiliary of the Harrington Fire Co. met in the Fire House Monday evening. There were 25 members present. The following officers were installed for the year of 1955: president, Mrs. Elsie O'Neal; vice-president, Mrs. Lillian Camper; recording secretary, Mrs. Orrie Hobbs; financial secretary, Mrs. Elma Oliver, and treasurer, Mrs. Angle Potter.

Due to the banquet, which will be held on our regular meeting night, the auxiliary will hold its meeting Feb. 18.

After the meeting adjourned refreshments were served.

Lt. Lyman Price Raised to Captain

Lt. Lyman Price, son of Mr. and Mrs. George C. Price, has been promoted to captain as of Jan. 1, it was announced recently by Col. James Olive, base commander, Harlingen Air Force Base, Harlingen, Tex.

Capt Price enlisted in the Air Force in 1942, was promoted to sergeant in 1943, and received a commission as second lieutenant in 1945. He was promoted to first lieutenant, while serving in the active reserve, in 1950 and was recalled to active duty in 1951 and flew 75 mission over Korea in a B-26 in 1952. He wears the Distinguished Flying Cross, the Air Medal with three Oakleaf clusters, Korean Service Medal, UN Service Medal, Armed Forces Reserve Medal, National Defense Medal, and a Presidential Unit Citation.

He is married to the former Francis Brown, of St. Petersburg, Fla.

REBEKAH CIRCLE WILL MEET WEDNESDAY

The Rebekah Circle of Asbury Methodist Church Women Society of Christian Service, Mrs. W. W. Sharp, leader, will meet Wednesday evening, Jan. 19, at 7:30 o'clock, at the home of Mrs. Ernest Hammond, corner of Liberty Street and Weiner Avenue. Mrs. William S. McCabe will assist in entertainment.

Book Harrington was taken to Delaware Hospital, Wilmington, last week for observation.

BAND TO HAVE MAGAZINE CAMPAIGN

The annual magazine subscription campaign conducted by the Harrington High School Band will be held this year from February 3 to the 14, under the supervision of the Curtis Circulation Company and its representative, George G. Wedd, Jr.

This money-raising program is not a solicitation; but a sales program put on by the band to help in its drive for ever-increasing demands on its treasury. There are now two bands to support, a Junior Band and a Senior Band, the one is challenged by the other to bring in the most subscriptions, with all funds going into the one band treasury for the support of both.

It is hoped that all folks who subscribe to magazines will hold up their subscriptions until they are approached by a band salesman to renew their magazine, or the ordering of new subscriptions. In this manner while the cost is the same to the subscriber, a percentage is retained by the band.

Each salesman also benefits, in as much as he receives a personal prize for the volume of business he brings in. Awards in the past included portable radios, basketballs, cameras, hunting knives, phonographs, etc.

Materials purchased by the band from this fund during the past included French Horns, Oboe, Piccolo, Drums, Tape Recorder, Banners, Band Uniforms, Majorette Uniforms in addition to music and other accessories.

There is always a demand for new equipment in the band, and most of the money earned in the past has been secured through this magazine campaign, and it is hoped that this year's subscription campaign will be as successful as those held in the past.

MRS. FLORENCE TRUITT SUFFERS STROKE

Mrs. Florence M. Truitt suffered a paralytic stroke Thursday of last week and is in a critical condition at the home of her daughter, Mrs. Harry L. Boyer.

Members of the family who were called to her bedside were: Mrs. Charles W. Spence; Mrs. Hilda A. Ross; Mr. and Mrs. Walter Lamont; Mr. and Mrs. Robert M. Hendrickson, all of Atlantic City; Elvie L. Truitt, Ardmore, Pa.; Mrs. Grace N. Ferry, Philadelphia; A. I. and Mrs. Charles F. Hendrickson, Stewart Air Base, Newburgh, N. Y.; Roland H. Truitt, Hollywood, Fla.; and Mrs. William McFadden, Hatboro, Pa.

Major Stokes, Father of Local Man, Dies Approaching 102nd Birthday

Funeral services were held Saturday at Delmar for Major Stokes, the community's oldest resident and father of William G. Stokes of Harrington. Mr. Stokes died at the home of a son, Elwood Stokes, the preceding Tuesday at the age of 101 years. He would have been 102 Jan. 29.

Burial was in Lakeside Cemetery, Dover.

Mr. Stokes is also survived by a daughter, Mrs. Arthur Sock- rider of Milford; 15 grandchildren, 17 great-grandchildren, and two great-great-grandchildren.

Water Tower Approved Overwhelmingly by Voters

CITY MANAGER REHIRED; ONE PATROLMAN REPLACED

A new patrolman was appointed at an organizational meeting of the City Council Wednesday evening.

He is James Wilson, whose application was accepted after that of William Jarrell, incumbent, was rejected when he asked for a raise in salary and the appointment of a third full-time patrolman. Patrolman Jarrell, whose duties will end at the end of next week, later told the Council he would be willing to work at his current wages. The Mayor replied, however, that he would be considered if the Council considered anew a third patrolman.

No application was turned in for extra patrolman, the post held by C. H. Jarrell, father of William Jarrell, and the problem of filling the post was tabled.

Norris C. Adams was reappointed City manager, with his salary being raised to \$2000 per year.

Employees and officials reappointed were as follows: Patrolman, Walter Voss; Police Commissioner, Mayor Killen, Dr. Hewitt Smith, and Norris C. Adams; janitor, Wilbur Pearson; city clerk, Grace Wanda Quillen, secretary of City Council, Leonard Harrington; custodian of standpipe, Frances Rifenburg; alderman, L. Gooden Callaway; assistant alderman, Mr. Adams; treasurer, Howard Wagner; Board of Health, Dr. Hewitt Smith, Dr. W. T. Chipman, and Dr. Robert Smith; solicitor, Howard Lynch, Jr.; custodian of sewer pumps, C. Douglas Mills; fire marshal, Mr. Mills; assessor, scrap, Kathryn Simpson; Auditing Committee, A. B. Pearsons and Arnold Gilstad.

The Chicago Bridge & Iron Company's bid of \$97,800 was deemed low on the 200,000-gallon overhead water tower voted in last week, but City Solicitor Lynch will be seen first about the bond issue before the contract is awarded. Bid of the Pittsburgh-Des Moines Steel Company was \$39,100.

Mayor Killen recommended employing a consulting engineer on the construction of the tank and added he believed he could aid in making a decision on the location of the tank. The recommendation was accepted and the search is on for an engineer.

The new police car needs a siren. A heavy-duty one would cost \$80 and a small one, \$25. The Fire Company has offered \$10 for the old one. Decision as to purchase of a new siren was left to the Police Commission.

Mrs. Martin Grier, 217 Weiner Ave., complained of parking on sidewalk on Liberty Street, on the north side of her property, and asked for a parking sign. The Council agreed to prohibit parking on the south side of the street, from 1 W. Liberty Street to Weiner Avenue.

EVER READY CLASS WILL MEET MONDAY

The Ever Ready Class of Asbury Methodist Church will meet Monday evening at 7:30 o'clock in Collins Hall with the president, Mrs. H. C. Austin, presiding. Mrs. Reginald McKnatt will present the program.

SEWER STOPPAGE

Workmen were working Wednesday afternoon on a sewer stoppage in the 300 block on Dorman Street.

Farmington

Mrs. Edward Collins visited Miss Ella Bradshaw at the Palmer home in Dover last week.

Eddie Kielbasa and Charles Thompson were the two lucky hunters in this locality to kill a deer during the season.

Mrs. Mae Sweegan is on a two weeks vacation from the duPont plant. She is spending it in Florida with friends.

Samuel Andrew, Lester Hatfield and Mrs. William Messick spent Monday in Wilmington on business.

Mrs. Walter Krouse and daughter, Shirley, and Mrs. William Gray were in Salisbury, Tuesday shopping.

The Ladies Auxiliary have planned a Stanley party to be held at the Fire House the second Monday in February. Everyone is welcome.

Mr. and Mrs. Bill Schornick are the proud owners of a new trailer.

Little Cheryl Smith is among those on the sick list. We are very sorry to lose two of our young residents, Mr. and Mrs. Wm. Fleischer, Jr., and family are making their new home in Greenwood. We hope them a lot of success in his new business and hope to see them back with us often.

Hickman

Mr. and Mrs. Laurence Drummond and son, Allen, spent two days last week with Mrs. Drummond's parents, Mr. and Mrs. Andrew Moore, at Millsboro.

Carolyn, Brenda and Dianne Drummond spent two days last week with their grandparents, Mr. and Mrs. Howard Drummond.

Sadie Brown is visiting her daughter, Mrs. Elwood Taylor, of Farmington.

Hester Brown, of New York, is also the guest of her sister.

Mr. and Mrs. Clarence Breeding visited their daughter and family, Mr. and Mrs. William Tull, of Bridgeville, Sunday.

Mrs. Glen Hamstead and Mrs. Clayton Brown were the guests of the latter's parents, Mr. and Mrs. Alonza Cohee, of Goldsboro, Saturday evening.

Mrs. Ella Breeding spent one evening last week with Mrs. Evah O'Day at Greenwood.

Mr. and Mrs. Laurence Breeding, Janice Ann and Donnie, spent the weekend recently in Chester, Pa., visiting relatives.

Mr. and Mrs. Thurman Adams, of Bridgeville, were Sunday dinner guests of Mr. and Mrs. William Croll.

Three of a Kind - A Good Hand

The Navy got three of a kind when it enlisted the above three boys last week. All three, who have worked for The Journal from time to time, are to report to Bainbridge Naval Training Center. They are (left to right): Harry Rice, son of Mrs. Lillian Rice; Robert Rifenburg, son of Mr. and Mrs. John Rifenburg, and Ray Cain, son of Mr. and Mrs. Louis Cain.

Many Man-Made Fibers Available as Curtain Material

What's In The Name?
The variety of man-made fibers used for curtain, drapery and upholstery fabrics is so great that a shopper easily becomes lost in a maze of names says Vivian Currutt, home furnishings specialist for the University of Maryland extension service.

Those in the market include nylon, orlon, rayon, dacron, dnyel, fiberglass, bemberg, chromspun, fortisan, saran, acrilan and coloray.

Miss Currutt points out that each fiber has both advantages and disadvantages if used alone. If 2 or more are blended with certain combinations into one fabric a desirable and a quality fabric can be produced for certain uses.

If you are going to make wise choices in your selection of curtain, drapery and upholstery fabrics for your home, you need to know the advantages and disadvantages each fiber has and the qualities produced when blended.

Most of them launder well, are color fast to light, resistant to abrasion, soiling, mildew, stains, moths and silver fish.

Rayon, possibly the best known of all the man-made fibers is inexpensive. However it is weak when wet and therefore requires care in washing.

One of the strongest fibers is fortisan but it is difficult to dye. Nylon is the most resistant of all fibers to abrasion, but the sun rots and fades it.

Orlan has more resistance to sun and weather than any fiber known, but it burns rapidly. However, soot, radiator, smoke or acid fumes do not deteriorate it.

Then, there is dacron which washes easily, is resistant to wear and sun, and requires less ironing than nylon or orlon. The fiber has relatively poor resistance to heat and has a tendency to yellow and crease.

Fiberglass, a popular curtain and drapery fabric, is one that can be quickly and easily washed. It need not be pressed, and it will not burn, melt, or char. The sun doesn't deteriorate fiberglass, but it has a tendency to turn the fabric yellow.

With all of its fine qualities, fiberglass has one poor one. If it is allowed to blow constantly against the screen, or back and forth on the window sill during the summer when the windows are open, the fibers will break quickly and easily. This necessarily means that you need to use care when pulling it on rods.

Miss Currutt points out that the Lurex and Melton metal yarns used in draperies are soft and supple. They do not tarnish and can be washed and dry cleaned.

X-Ray Sees TB

The doctor can "see" tuberculosis in an X-ray picture before there are outward symptoms of the disease. Mass X-ray surveys of apparently healthy people to find unsuspected cases of TB are aided by the Christmas Seal Sale now being conducted by the voluntary tuberculosis associations.

VETERANS ADMINISTRATION

QUESTIONS AND ANSWERS

Q—I forgot to pay my GI insurance premium on time, and mailed it to VA toward the end of the 31-day grace period. What does VA go by, in determining whether the premium was mailed in time—the date on my check or the date the premium reaches VA?

A—Neither. The postmark on the envelope is considered as the date on which the premium was paid.

Q—If the widow of a serviceman killed an active duty remarris, may she still receive the \$92.90 monthly insurance or indemnity payments?

A—The legal widow at the time of the serviceman's death has entitlement to the indemnity; her remarriage, under the law, does not bar her continued entitlement.

Q—What is the largest amount of money a veteran can borrow to buy a home under the GI loan program?

A—There is no limit on the amount of money a veteran may borrow. It all depends on what the lender is willing to lend him. The maximum applies only to the amount of VA's guarantee that can be issued upon the loan.

Q—In figuring out my annual income for VA pension purposes, am I supposed to count only my take-home pay or my gross salary?

A—You must include your salary and not just your take-home pay. Your total salary includes money withheld for retirement plans and income taxes.

EGGS HOLD QUALITY AT 35 TO 45 DEGREES

Refrigeration temperatures for maintaining egg quality for short periods range from about 35 to 45 degrees Fahrenheit, with humidity about 85 percent. A lower temperature is required when eggs are to be stored for several weeks or months.

APPLE, PEAR GROWERS HAVE NEW WEAPON AGAINST FIRE BLIGHT

Maryland apple and pear growers will have a new weapon in 1955 to fight fire blight of apples and pears. It is powdered antibiotic sprays of streptomycin sulfate.

Dr. L. O. Weaver, University of Maryland extension plant pathologist, recommended the use of the antibiotic at the recent annual meeting of the Maryland State Horticultural Society, Hagerstown.

He said orchard trials last year showed that streptomycin preparations offer the best promise of effective fire blight control, and suggested its use where fire blight has been a serious problem.

Dr. Weaver reminded the orchardmen that fire blight was widespread in 1954 and warned that condition may favor its development in the spring this year.

The plant pathologist recommended a three-step program for controlling fire blight: (1) Remove blighted wood and cankers from susceptible varieties, (2) remove neglected apple and pear trees, and (3) spray susceptible apple and pear varieties to prevent blossom blight.

"In order to prevent blossom and twig blight two or more sprays will be necessary," he said. "Use streptomycin sulfate formulations at concentrations of 60 to 100 parts per million. Dust applications have been ineffective. Apply the first spray when the center blossoms of flower clusters open, and apply the following sprays at 5 to 7 day intervals until the petals have fallen."

Directions on the label should be followed in the preparation of the antibiotic spray material. The control of fire blight and other diseases is discussed in University of Maryland Extension Bulletin 134, "Maryland Spray Calendar for Apples and Peaches." This bulletin, recently revised to include the latest recommendations, is available at county agents' offices.

Maryland and U. S. ACT to Speed Up Program to Control Brucellosis in Cows

The brucellosis control and eradication program in Maryland, conducted on a cooperative basis between the Live Stock Sanitary Service of the Maryland State Board of Agriculture and the Animal Disease Branch, Agricultural Research, U. S. Department of Agriculture, can move forward at a more rapid pace in 1955.

Dr. Arthur L. Brueckner, Maryland LSSS director, and Dr. C. A. Turner, USDA veterinarian in charge of the local office of Animal Disease Eradication, announced today that Federal-State arrangements have been completed for speeding up efforts to stamp out the disease in Maryland.

Under these arrangements, accredited veterinarians are to be paid from Federal funds for drawing blood samples and vaccinating calves in herds not free of the disease. Herds which have been under supervision and now certified as brucellosis-free must be tested and calves vaccinated at the owners expense.

Indemnity payments from State and Federal funds can be made on reactor animals removed

for slaughter, as in the past, with appraisal values of \$175 on grades and \$275 on purebreds and maximum indemnity payments of \$25 on grades and \$50 on purebreds from each of the sources.

Indemnity payments are dependent upon certain conditions surrounding addition to the herd, and the actual amount depends upon the difference between the appraisal and the salvage. In order to control the movement of reactor animals, all of them must be identified by branding and tagging.

Drs. Brueckner and Turner point out that all herds must be signed under Plan A, which calls for testing and removal of reactors. "By the end of this year, Maryland should be well along toward being free of brucellosis in all herds of dairy and beef animals," they say.

Two large eggs will provide about the same amount and quantity of protein as an average serving of meat. One medium or large egg furnishes about 75 calories, according to the U. S. Department of Agriculture's Human Nutrition Research Branch.

Maryland Herds Kept on Tests in Spite of Low Prices

The number of Maryland dairy cows in production testing programs held about even during 1954, in spite of the fact that low milk prices and widespread drought made it a somewhat discouraging year for dairymen.

J. R. Schabinger, University of Maryland extension dairyman, says complete reports are not yet available on the volume of Dairy Herd Improvement Association testing, "But all indications are that figures for the end of the year will vary very little from the 915 herds with 35,145 cows that were on test in January, 1954," he adds.

Breed Official Testing showed a slight gain during the year. There were 22 herds in the State testing 465 cows in the Advanced Registry Program at the beginning of the year. At the end of the year there were still 22 herds in this program with approximately 475 cows on test.

The Herd Improvement Registry program started the year with an enrollment of 128 herds including 4,717 cows. At the close of the year 137 cow herds and

one goat herd were having approximately 5,150 animals tested.

Schabinger's announcement on 1954 testing programs also included a summary of the 1953 programs. The summary included information on 27,793 cows that were tested for the entire year. These cows produced an average of 8,789 pounds of milk and 353

pounds of butterfat. Although 5,124 more cows were on test than in the previous year, milk production per cow still has increased by 62 pounds. However, there was a decrease of two pounds of butterfat on a per-cow basis.

1955 CHRYSLER NEW YORKER DELUXE 4-DOOR SEDAN

CHRYSLER'S 100-MILLION-DOLLAR LOOK! ... a forecast fashion for all cars to follow!

AN EXCITING NEW DIRECTION in motorcar styling begins with Chrysler for 1955... lower and longer, in the most striking new car design of recent years! Noteworthy is the new sweptback Super-Scenic Windshield that "wraps around" both top and bottom for safer

seeing. All Chryslers are now V-8's, with engines up to 250 hp. The Chrysler look of mobility and purposeful power is further translated into action by the most automatic transmission in any car... and Chrysler's exclusive Full-time Coaxial Power Steering and Power Brakes.

NEW IDEA, widely hailed, is the PowerFlite Range-Selector now on the dash! Outmoding old-style levers on the steering column, it allows easier, quicker control.

TOTALLY NEW and inches lower than other big cars, Chrysler sets a pleasing new trend in clean-cut rear-deck styling... terminating dramatically in the bold Twin-Tower tail lights. The Chrysler wheelbase is 126 inches; over-all length, 218.8 inches.

FEEDER PIGS (6 to 12 wks old)
Choice 8.50 to 12.00 mostly 10.00
Medium to Good 5.50 to 8.00 mostly 7.50

HORSES AND MULES
Work Type 46.00 to 74.00 mostly 62.00
Butcher Type 28.00 to 39.00 mostly 35.00

LIVE POULTRY
Heavy Breeds
Fowl .80 to 1.50 mostly 1.25
Cockerels .70 to .95 mostly .85
Roosters .90 to 1.35 mostly 1.00

Light Breeds
Bantam Chickens .20 to .35 mostly .25
Guineas .75 to 1.25 mostly 1.05

Ducks
Muscovy Ducks .50 to 1.10 mostly .90
Muscovy Drakes 1.20 to 1.50 mostly 1.30

Rabbits
Large Breeds .70 to 1.00 mostly .90
Small Breeds .40 to .60 mostly .45
Young Rabbits .20 to .35 mostly .25

Eggs
Ungraded, Mixed .35 to .46 dozen

MISCELLANEOUS PRODUCE
Turnips .35 to .45 per 5/8 bu.
Apples 1.40 to 1.55 per bu.
Lard 4.00 to 6.50 per 50 lb. can
Country Butter .45 per lb.
Walnuts Black, .30 to .50 per 5/8 bu.

Delaware's Swine Industry Over \$2,000,000 In 1953

With the sale of swine now over \$2,000,000 a year in Delaware, hogs have risen to seventh in gross cash farm income for the state.

New Castle County's gross cash farm income from swine sales has increased from \$249,000 to almost \$600,000. Kent County has increased the sale of swine \$300,000.

These advances in swine sales have taken place since 1950. All counties of the state have doubled or nearly doubled their sales of hogs during the period 1950 to 1953.

Swine income now ranks third behind poultry and dairy products for cash farm income from livestock and livestock products in Delaware.

POTATOES IN STATE STEADILY INCREASING

Cash farm income from potatoes has been on a steady increase in Delaware since 1943, according to a report recently issued by the department of agricultural economics at the University of Delaware.

Potato acreage in Delaware has nearly doubled in the last 10 years. In 1943, 3500 acres were planted and by 1953 the acreage had jumped to 6600.

Poultry and Egg Production Featured at Farm & Home Week

Panel discussions and talks on egg and poultry production will be held Tuesday, February 8, during Farm and Home Week at the University of Delaware.

T. D. Runnels, associate professor of animal and poultry industry at the University, is general chairman of the session on Egg Production. On Tuesday morning beginning at 10:00 a. m. R. F. Gentry of Pennsylvania State University will speak on "Recent Finding on Fowl Leukosis."

W. J. Mellen, associate professor of animal and poultry industry, will be chairman of the broiler and turkey production session. "The Latest Development in the Control of Broiler Disease" will be given at 10:00 a. m. by M. S. Cover, poultry pathologist at the University.

In the afternoon R. O. Bausman, head of the department of Agricultural Economics, will be chairman of the general poultry session.

EGGS PLENTIFUL AND PRICES LOW

Across the nation poultry flocks are turning out record supplies of eggs which means that egg prices are at extremely low prices. This means eggs are the "best buy" protein food right now.

Delaware has joined in a nation-wide effort by the poultry industry to bring the low price of eggs to the attention of consumers. January has been designated as "National Egg Month" but market economists predict too low egg prices are likely to continue for several months.

The situation is one of more eggs than the market needs with the consumer getting a real break on prices. However, farmers have already indicated that they intend to correct this situation by starting fewer pullet replacements this spring.

PROTEINS MAKE EGGS GOOD AS FOOD

Eggs are valued as a food because they are rich in proteins, vitamins, and minerals. Like other important protein foods, eggs should be handled properly to protect their quality.

Use of Varnish-Stain Instead of applying stain and then varnish, a varnish-stain is sometimes used. This material is applied in the same manner as clear varnish.

Masten's

Albert Larimore, Jr., spent several days with his grandparents, Mr. and Mrs. James Larimore.

Doris Ann Larimore spent several days with her aunt, Mrs. James Neeman at Harrington.

Mrs. Nora Bohannon is a patient in the Kent Hospital at Dover.

Mr. and Mrs. Harvey Camper called on Mrs. Alvirde Minner Sunday evening.

Willis Edgar Kates killed a deer Friday and Leroy Betts, son of Elmer Betts, killed one Saturday.

Mr. and Mrs. Clarence Jarrell gave a dinner recently for their family. Those in attendance were: Mr. and Mrs. Martain Jarrell; Mr. and Mrs. Eldred Jarrell and daughter; Mr. and Mrs. John Jarrell and family; Mr. and Mrs. Gene Jarrell; Mr. and Mrs. Robert Jarrell; Mr. and Mrs. James Neeman, Cathryn Rayne and Donald Jarrell.

Mr. and Mrs. Maurice Dill and family spent Sunday evening with Mr. and Mrs. Albert Larimore.

Mrs. Octavia Minner has been ill, but is improving.

- 55-lb. . . . A good substantial roofing at medium price. Will last for years with care. . . . \$2.50
- 65-lb. . . . Superior quality—resists heat, weather for years. Extra heavy felt base for maximum asphalt absorption. . . . \$2.80
- 90-lb. . . . Slate surface—gives years of good, dependable service. Comes in several appealing colors. Slate granules are imbedded in heavy asphalt coating. . . . \$3.30

FIELD FENCE

Livestock can't bend it out of shape because flexible hinge-type joints give under pressure . . . then snap back into shape when strain is released. Heavily galvanized for rust protection. Easy to put up over uneven ground.

1948-6-14 1-2 . . . \$11.50
2158-6-14 1-2 . . . 12.75
832-6 . . . 16.50

"T" POSTS BARBED WIRE

Made of tough, durable rail steel. Easy to apply fence. Extra large anchor plate, no punched holes to weaken post. Several clips come with each post. 6, 6 1/2 and 7 foot lengths.85

4 pt., 12 1/2 gauge . . . \$7.50
2 pt., 12 1/2 gauge . . . 6.00

GALVANIZED ROOFING

Tops in strength, comfort, appearance—lasting protection. Easy to apply. Should give up to forty years rust-free protection under normal conditions.

1 1/4" . . . \$1.36
3V Non-Siphoning 6 ft. sheet 1.38

Unico PAINTS

Stays whiter longer than ordinary paints—contains Titanium Dioxide, the whitest of paint pigments. Tops for all-weather outside use on farm homes and buildings.

UNICO Paints

- Mildew Resistant . . . \$5.50 Gallon
- Super Barn Red . . . 3.50
- Standard Barn Red . . . 3.00
- Aluminum Paint . . . 4.40
- Zinc Metal Paint . . . 6.70

RKO PICTURES CORPORATION CERTIFICATE OF REDUCTION OF CAPITAL

(Pursuant to Section 244 of the General Corporation Law of the State of Delaware)

We, the undersigned, J. Miller Walker, the Vice-President, and Joseph J. Laub, an Assistant Secretary, of RKO Pictures Corporation, a Delaware corporation, (hereinafter called the "Corporation") do hereby certify and state as follows:

(1) that a resolution was duly adopted by the Board of Directors of the Corporation, authorizing the reduction of its capital hereinafter described, and that such reduction of capital was authorized by the resolution adopted by the holders of record of a majority of the outstanding shares of the Corporation, at a meeting of the stockholders called for that purpose upon at least ten days' notice, given in accordance with the by-laws of the Corporation, to said stockholders.

(2) that the amount to which its capital has been reduced was from \$2,149,319, represented by 3,514,932 shares of Common stock with a par value of \$1 per share, to \$2,561,521, represented by 2,561,521 shares of Common stock with a par value of \$1 per share.

(3) the manner in which the capital of the Corporation has been reduced was by paying out of the common stock purchased by the Corporation for retirement pursuant to the terms of stock purchase agreements for such purpose, and

(4) the assets of the Corporation remaining after such reduction of capital are sufficient to pay all debts of the Corporation, the payment of which has not been deferred by the Corporation, and has been signed by the undersigned, J. Miller Walker, Vice-President, and Joseph J. Laub, an Assistant Secretary, this 4th day of January, 1955.

KELLY BUICK, INC. CERTIFICATE OF REDUCTION OF PAID-IN CAPITAL

(Pursuant to Section 244 of the General Corporation Law of Delaware)

The undersigned KELLY BUICK, INC., a Delaware corporation, heretofore and hereinafter called the "Corporation", was incorporated on April 15th, 1953 with an authorized capital of \$150,000.00 consisting of 700 shares of \$100.00 Par Class A stock and 1500 shares of \$100.00 Par Class B Stock.

As of the date hereof there are outstanding 417 Class A shares and 491 Class B shares constituting a total paid-in capital of \$90,900.00.

As of October 31st, 1954 there was available in the surplus account of the above corporation no less than \$28,888.17.

At a meeting held on December 22, 1954 the Board of Directors of the above corporation, adopted a resolution by which the paid-in capital of the Corporation, will be reduced from \$90,900.00 to \$52,500.00 by the purchase by the Corporation of 288 shares of its Class A stock and the retirement of such shares on its books.

After such reduction there will be outstanding 842 shares of Class stock and 491 shares of Class B stock of the Corporation, constituting a paid-in capital of \$52,500.00.

The assets of the corporation remaining after such reduction of capital are sufficient to pay the debts of the Corporation, not otherwise provided for.

IN WITNESS WHEREOF, Robert J. Kelly, as President and C. Howard Durkin as Secretary of the Kelly Buick, Inc., have heretofore and hereunto affixed our signatures and the seal of the Corporation this 22nd day of December, 1954.

Asbury Methodist Church Notes

"Christ, the Son of the Living God" is the topic for study in the session of the Church School, which will begin on Sunday morning at 10:00 o'clock. Join us in a re-examination of the main points of Christian faith, in the light of the Bible and our own needs. Help us reach our goal of 300 average attendance.
Morning Worship will begin at 11:00 o'clock. Second Sunday after Epiphany. Music by the Cathedral and Junior Choirs. Sermon by the pastor. Remember the special nation-wide campaign for an increase in church attendance from now until Easter Sunday. Keep your attendance cards handy.

The evening worship will begin at 7:30 o'clock. Music by the Chancel Choir. Sermon by the pastor. We are fortunate to have a fine group of young people to sing at this service. Come and invite your friends to this evening worship.

Sacred Volcano
Mount Fuji, Japan's sacred volcano, has not erupted in nearly 250 years. Its last explosion was in 1707 in Tokyo (then called Edo), though 60 miles away, was covered with six inches of ash.

Gulf Stream Wonders
New evidence has been found that the Gulf Stream, warm indigo-blue river in the sea, does not hold to a single course.

On Monday evening the Ever Ready Club will meet in the Collins Building at 7:30. Members and friends are urged to be present.
Rebekah Circle of the W.S.C.S. will meet on Wednesday at 7:30 P. M. at the home of Mrs. Ernest Hammond, corner of Weiner Ave. and Liberty St., with Mrs. William McCabe as the co-hostess.
Choirs will meet on Thursday at the regular times.
Attend the services of the church regularly. You are always welcome.

another step forward TO CUT broiler-growing costs

You can grow broilers at lower cost with the Beacon All-Pellet Program. BUT some adjustments are required. Look... before you leap.
You'll be interested in this comparison from Beacon Poultry Research Farm test No. 328. (1954)

No. Birds Started	513	513
lbs. at 10 weeks	507	505
Average weight	4.19 lbs.	4.36 lbs
lbs. feed per lb. wt.	2.62*	2.67*
Feed cost per lb. wt.	15.74c	15.08c

for feather picking... unless adequate precautions are taken.
Plenty of room... 1 to 1 1/4 square foot per bird... will not only help to prevent cannibalism but will improve feed efficiency.
Birds on All-Pellets drink more water, and you will need more water fountains than with mash. Give your birds ample ventilation... watch litter condition and keep it stirred.
DIGEST OF OBSERVATIONS

It's a king-size job to puzzle over complicated and lengthy research tests. Therefore we're going to state briefly a few observations.
Lot No. 3 was not debeaked. There were 33 bare-backs but only one failed to make Grade 1.
One pen, debeaked at 3 weeks of age, did not do as well since late debeaking affected feed consumption. If birds are to be debeaked, it should be done at one day old by searing the tip.
The Beacon All-Pellet Program starts with sprinkling Beacon pellets (1/4") on top of the mash at 21 days, changing over to All-Pellets in about 3 days time.

This new program is not recommended for replacement birds at an early age... but pellets are available for range feeding and for mechanical feeders. Some mechanical feeders handle small pellets better than the large size.
For those who do a proper job of management... the Beacon All-Pellet Program will result in faster weight gains... lower feeding cost.
Write for new 1955 Broiler Feeding Guide or ask... your Beacon dealer... or Beacon Serviceman.

CONVERSION, of course, is not as favorable at this weight as would be obtained at 3-3 1/2 lb. weights.
This experiment is from two of several pens, set up purposely under crowded conditions to see how much feather pulling and cannibalism would develop.
Such conditions affect efficiency... but the point here is the COMPARISON.
On the basis of margin over feed cost, Lot 3 on Beacon All-Pellets made \$38.70 more than Lot 1. That's \$78.00 per 1,000 birds and would be more at usual market weight of 3-3 1/2 lbs.

CHECK MANAGEMENT PRACTICES

Birds fed All-Pellets satisfy their feed requirements quicker than when fed mash. They have more time

TOP poultrymen feed

Nine Out of Ten Now Covered by Social Security

January 1 was the first effective date for a number of important provisions in the 1954 Amendments to the Social Security Act. Myron Milbourn, manager of the Wilmington social security office, said today that people in this area should know how they are affected by these changes, which were signed into law by the President last year on September 1.

About six million more workers were automatically covered by social security on that date; approximately four million more may be brought under social security on an elective basis. Earnings up to \$4200 received in a year are starting to count toward future benefit payments, and a beneficiary may get all his insurance benefit payments while earning as high as \$1200 yearly. Applicants for the new disability "freeze" could be made beginning with January 3, first business day of the new year.

Milbourn pointed out that nine out of ten persons who work for a living are now in employment or self-employment that counts toward future benefit payments; coverage is nearly universal.

The largest group of gainfully-employed people in the nation not heretofore covered by social security has now been brought in—the 3.6 million self-employed farm operators. Commencing January 1, these farm operators are covered on the same terms as other self-employed people, except for special provisions under certain conditions for figuring the amount of their net annual earnings.

A change in the old requirement that farm workers be regularly employed by one employer means that over two million additional farm employees will start earning social security protection for themselves and their families in 1955. The new provision requires only that the farm hand be paid at least \$100 in cash wages in a calendar year by one employer.

About 200,000 more domestic employees in private households are covered by the amended law because of the removal of the earlier requirements that the domestic employee works 24 days in each calendar quarter in any one household. Now the requirement, beginning January 1, is the payment of \$50 or more cash wages by one household employer in a calendar quarter.

About 3,500,000 employees of State and local governments, excluded up to now because they are under a retirement system, may now be brought under social security if they elect coverage by a referendum. And members of the clergy, whether employed or self-employed, may come under the law as if they were self-employed persons.

Other self-employed groups covered for the first time by social security as of January 1, 1955, are professional engineers, accountants, architects, and funeral directors.

Of special significance to persons in work which came under social security for the first time on January 1 is a provision in the amended law which will enable those who are newly covered to achieve a fully insured status quickly. By working continuously, they may become insured as early as the second quarter of 1956.

Since earnings of newly-covered workers must be averaged from the beginning of 1951, just like earning of persons already in work covered by social security, their four years of non-covered employment or self-employment would cut down their average monthly earnings for figuring their benefit amount were it not for a special provision in the amended law. This provision, known as the "drop-out," permits the elimination of the four years of non-covered employment. The "drop-out" in effect, places the newly-covered groups in a position comparable to that of the groups that became newly covered in 1951, with respect to the figuring of the benefit amount.

Of special importance to persons already on the insurance benefit rolls is the provision affecting the amount of earnings they are permitted to have from work while getting monthly benefit payment checks. Beginning with 1955, such earnings from employment or self-employment (or a combination of the two) may be as much as \$1200 in a year. This replaces a provision in the old law whereby an employed person had to forego one or more months payment if his earnings were more than \$75 a month, and a self-employed person getting insurance benefit payments was restricted to \$900 earning in a year. Beneficiaries who could not accept social security checks for certain months under the old law, but who can meet the condition (Continued on back page)

Spacious and Low - With 5 Rooms

A SMALL HOUSE PLANNING BUREAU DESIGN NO. C-243

DESIGN C-243. The breezeway and the attached garage give this house a spacious appearance. The floor plan has three rear bedrooms with living room, dinette and kitchen in front. Kitchen cabinets have a corner sink under corner windows, work counter under the front windows, refrigerator near the door and a serving counter between kitchen and dinette.

The bathroom and the basement stairs are conveniently accessible from the side entrance.

There is excellent circulation between all rooms.

The living room has fireplace, coat closet and full length windows, with a four foot eave overhang above windows and front door. Other closets include wardrobes in the bedrooms, linen, storage and coat closet in the hall. Exterior finish is wide siding and asphalt shingles. Floor area is 1,137 square feet, with cubage of 21 cubic feet.

For further information about DESIGN C-243, write the Small House Planning Bureau, St. Cloud, Minn.

Prepare Brooders for Early Chicks, Poultrymen Told by Maryland 'U' Man

Early chicks for laying flock replacements will soon be going into brooder houses on Maryland farms. This brings a reminder from University of Maryland extension poultryman Wade H. Rice that it's time to check all brooding equipment.

"Start the brooder stoves and make sure they work properly," he says. "Then, if any parts are needed replace them at once so there will be no heat failure after chicks arrive."

"And while you are getting things ready don't overlook electric wiring and all the connections needed to operate electrical equipment."

Another important reminder from the Extension poultryman is to have sufficient feeding and watering space. His recommendations for feeders are: One linear inch of feeder space per chick the first two weeks, 1-3/4 inches per chick from 2 to 6 weeks of age, and three linear inches per chick from 6 to 10 weeks of age.

Recommendations for founts are 20 linear inches per 100 chicks up to two weeks of age or two 1-gallon founts, 40 linear inches per 100 chicks from 3 to 10 weeks of age or two 3-gallon founts.

Rice also adds a bit of advice for egg producers who have

doubts about the number of chicks they should order: Don't let low egg prices last fall and this winter discourage you from ordering enough chicks to fill your house with pullets next fall. The prospect is for better egg prices for July, 1955, to July, 1956.

"Light breeds are the best for producers of market eggs," Rice says. "They eat less and lay more than heavy breeds. This offsets the weight-market price advantage of heavy breeds as market fowl."

MARYLAND COWS YIELD 18.0 POUNDS

The Maryland Crop Reporting Service announces that cows in the herds of crop reporters produced an average of 18.0 pounds of milk per cow on December 1, 1954. This compares with 17.7 pounds on December 1, 1953 and the 10-year average (1943-52) of 15.6 pounds.

Egg prices are currently favoring every housewife's pocketbook for they haven't been so low in several years. The U. S. Department of Agriculture points to eggs as a wonderful storehouse of energy, since they contain important vitamins and minerals.

EGG QUALITY DROPS AT 70 TO 80 DEGREES

Eggs drop in quality in a few days at 70 to 80 degrees Fahrenheit, and at higher temperatures more rapidly. Therefore eggs displayed on a counter at the market, held in unrefrigerated store-rooms, transported in a hot truck, or left in a hot car or kitchen for several hours, will lose quality.

March 1
Home Gardener's Short Course.

Kent Home Doings

By CHARLOTTE SWANSON
Kent County
Home Demonstration Agent

Do you know what new fabrics are and what to expect of them? Would you like to make attractive corsages from flowers in your own garden? Does the job of choosing proper accessories for your costume leave you wondering?

The Kent County Home Demonstration program for 1955 will help many women with these problems, because these are just a few of the programs which will be included in the year's work. This is the program for the year: (During the months of January, February, April, May, September and October, I will attend the meetings of half of the clubs in the county. Those meetings which I do not attend will have demonstrations by leaders. This is the reason that two or more programs are listed for these months.)

January and February-Selecting Fabrics and Finishes will be my demonstration; leaders demonstrations will be either

Ironing The Easy Way or Care of the Skin.

March-Group meeting will be scheduled, with one club acting as hostess to two or three other groups. A state policeman will be attending these meetings to discuss Highway Safety.

April and May-The demonstration which I will give will be Making Your Own Slipcovers; the leader demonstration will be Making Corsages.

June - All clubs will be having demonstrations by leaders. The subjects are Refinishing Furniture or Teen-Age Problems.

July - Reports of Homemakers' Short Course.

August - Club Picnics.

September and October - Partners Talk It Over will be my demonstration; Choosing Your Accessories is the subject for leader demonstrations.

November - The leader demonstration for all clubs will be on using the Mix Master.

December - Christmas Parties. Other special meeting to be included in the year's program are: A tailoring project school which will be held during February and March; a special meeting on Wills in March; meeting on Applying Plastic Table Tops in October.

If you do not belong to one of the twenty-four clubs in Kent County, and you are interested in one or all of these programs, ask your neighbor who belongs to a Home Demonstration Club about the time and place of her club meetings. She will be glad to have you attend with her, and to tell you more about the club. If you do not know about the club

8.5 MILLION SOWS ARE DUE TO FARROW

The U. S. Department of Agriculture says the reports indicate 8,469,000 sows will farrow for the 1955 spring pig crop, or 5 per cent more than the number farrowing last spring. If intentions for spring farrowing materialize and the number of pigs saved per litter equals the 10-year average with allowance for the upward trend, the 1955 spring pig crop would be 58.5 million head.

in your neighborhood, contact me, and I will be glad to give you more information. My office is in the Post Office Building, in Dover. The telephone number is Dover 2621.

Hope I'll see you in 1955!

1954 PIG CROP SET AT 92.5 MILLION HEAD

The 1954 pig crop totaled 92.5 million head, an increase of 13 per cent over 1953. The 1954 spring pig crop at 55.7 million head was 12 per cent and the fall crop at 36.8 million head was 16 per cent larger. The number of pigs saved per litter for the fall crop was 6.78 pigs, the highest on record.

Eggs are about the best buy on Northeast food markets today. Production continues high, which is keeping prices within the reach of every housewife's pocketbook. Eggs haven't been so low-priced in a long, long time, the U. S. Department of Agriculture reports.

Some families have certain specific ideas to be incorporated as a part of a service. These suggestions are always carefully followed, to impart the tone desired by those whom we serve.

4 MERCURY EXCLUSIVES FOR FINER V-8 PERFORMANCE

DUAL EXHAUST makes more of Mercury's power available to you for everyday driving. You have *two* separate exhaust systems for lower engine temperatures—resulting in greater efficiency and economy. Only Mercury Monterey and Montclair in their price class offer dual exhaust as standard equipment at no extra cost.

4-BARREL CARBURETOR gives you two-barrel economy for normal driving. But when an extra spurt of speed or hill-climbing power is needed, the extra 2 barrels cut in instantly, vacuumatically. Only Mercury in its field offers a 4-barrel carburetor as standard equipment on every model.

HIGH-COMPRESSION SPARK PLUGS—revolutionary new anti-fouling spark plugs designed for super high-compression engines—give peak performance at *all* speeds. No other spark plugs available as standard equipment can match this performance, and no other car in Mercury's field has them.

LONGER EXPERIENCE. Only Mercury among *all* cars has an exclusively V-8 history. New 188- and 198-hp SUPER-TORQUE V-8 engines are the latest and greatest Mercury developments. And Mercury has put over 2,000,000 *proven* V-8 engines on the road—more V-8's than any other car in its price class.

NEW 1955 MERCURYS offer high horsepower (188 and 198)—new SUPER-TORQUE V-8 design—for super-pickup in every speed range.

Bridgeville Girl State Champ In 4-H Project

Carol Friedel

By making 30 garments suitable for work, school and parties, Carol Friedel, 16, of Bridgeville was proclaimed Delaware champion in the 4-H Clothing project, an honor that included an all-expense trip to the National 4-H Club Congress in Chicago, made possible by Coats and Clark Inc. Garments made by Carol varied from an apron to tailored suit.

Carol has completed her seventh year in 4-H. She has won 26 blue ribbons by exhibiting her clothing. In 1953 she was Sussex county Dress Revue winner and county Clothing winner. This year she placed first in the Clothing demonstrations and second in the Sussex county Dress Revue. Mrs. Lee Carey and Mr. John Hasting are her leaders.

"We believe that the future of America is safe in the hands of youngsters like this."

GREENWOOD NEWS

A class in church membership for children 12 or over will begin Sunday during the church school session in the Greenwood church and will be held every other Sunday until Easter in the Educational Building at which time the young people will be received into the church.

The first floor of the Educational Building has been painted, and the Sunshine Bible Class is responsible for this improvement. New games and recreational equipment have been purchased by the church school for use in the Educational Building.

Mr. and Mrs. Mart Uhler and Mrs. John Elliott visited in Denton Sunday afternoon and remained for Sunday night supper with Mrs. Clifton Cobbe.

The Parent-Teachers' Association sponsored a party Saturday evening at the Fire Hall to celebrate the 25th wedding anniversary of Mr. and Mrs. H. G. Omwake. A table in the center of the hall was beautifully done in white with a huge wedding cake, bearing the inscription "Happy Twenty-fifth Anniversary" and the gift of the community—a sterling silver chafing dish. Other lovely gifts were there from out-of-town guests who were special friends of the Omwakes. Among these were guests from Harrington, Selbyville and Lewes.

Biting cold outside today with

a few snowflakes, and the fire burns merrily on the hearth at Trail's End. Meanwhile the Hatfields are 'camped' with small Ellen who has the mumps! A good time to draw closer to the fire, enjoy winter's coziness and dream of that first robin. The doctor tell us that the mumps will last at least ten days, so we are particularly grateful for the lovely Sunday evening we had with those delightful people, the Whitmores, who live near town. After showing us the new home they are building, they urged us to stay for supper—and with their wonderful steaks and some coconut cake, salvaged from the Hatfield pantry, we had a merry time. I am always campaigning for more good old-fashioned neighborly visiting, and this was it, at its best.

Mrs. Frank Closser has had as her guests over the holidays, her daughter, Carol Lee and son-in-law, S/Sgt. Donald Hodge. The young people returned yesterday to the Air Base at Austin, Tex. While here, they were dinner guests Saturday evening at the Lawrence Merediths. Other guests were Mrs. Charles Hodge and daughter, Marilyn, of Dover.

J. T. Simpson of near town is a patient in the army hospital at West Point, N. Y. He is reported improving and is expected home within a week.

The pastor of Grace Church, the Rev. George H. Moore, spent Monday in Harrisburg, Pa., attending the National Farmers' Convention with a number of men from the Andrewville area, Morris Wright, Jack Larimore and others.

Miss Florence Carlisle spent Saturday in Philadelphia Airport and enjoyed watching the planes, one of which was the "Spirit of Africa".

Mr. and Mrs. Charles Trammell of Georgetown were Sunday dinner guests of the Gerald Pearsons.

JEHOVAH'S WITNESSES MEET FRI.-SAT. SUN.

The semi-annual assembly of Jehovah's Witnesses will be held at the Easton National Guard Armory Friday, Saturday and Sunday. The assembly is sponsored by the Watchtower Bible and Tract Society of New York and the program is arranged to consist of Bible studies, discourses and demonstrations to equip Jehovah's witnesses for their Bible educational work.

Bernal Dean, congregational supervisor, says that he expects 25 local delegates will attend the assembly at Easton where over 600 ministers from the Delmarva Peninsula are expected to convene.

Raymond L. Anderson district supervisor from New York, will be the featured speaker of the event. He will appear on the program all three days and will deliver the main public address "Does God Really Care?" Sunday at 3 p. m.

HARRINGTON HIGH LOSES TO SMYRNA HIGH

Harrington High lost to Smyrna last Friday night which evens its record on the season 1-1. The final score of that contest was 69-50, with Wayne Brown scoring 27 points in defeat.

The Smyrna Junior Varsity also beat Harrington's J. V. team 46-31. Dave Peterson was the big gun for Harrington with 15 points.

SENIOR PERSONALITY Robert William Larimore

Robert was born March 26, 1937 near Vernon, Del. In High School, he took two years of agriculture and then changed to a commercial course. Typing and shorthand are his favorite studies. In the ninth and tenth grades, he was a member of the Dramatics Club with other members to put on a play. During his Junior year, he was secretary of the class, and also had the privilege of attending Boy's State, held in Dover. At present, he is a member of the Glee Club.

When not in school, Robert devotes most of his time to the farm. He also enjoys all sports and the movies.

After graduation, he plans to join the Marines. It remains to be seen what his career will be, after service with the armed forces is completed.

Group Pictures

On Wednesday, January 6, the Senior class received group pictures, consisting of all members of the class with the exception of two.

Each photo was arranged evenly to form a very pleasing effect on the present members, with an inscription designating the grade and year of graduation.

Harrington Fair Association

On Monday evening, January 3, the Harrington Fair Association enjoyed its annual banquet in the cafeteria of the Harrington School. In addition to the regular cafeteria staff, the following Harrington High School girls assisted in serving:

Sue Holloway, Kay Bowdle, Ginger Minner, Irene Brown, Eloise Brown, Ann Howard, Gladys Welch, Mary Ann Montague, Lena Voss, Janice Mae Minner, Joyce Hickman, Louise How-

ard Gail Calloway, Eleanor Wagner and Jeanne Homewood.

Grade 2 - Mrs. West
We are back from a nice Christmas vacation. Mrs. West read us a good story about Karl's visit to the Man-in-the-Moon. We made beautiful chalk pictures. We were glad to see snow. We have some new cement walks. One day we each brought a toy and had a toy show. We all took a test. Some of us went to visit Mrs. Hopkins while others took the test.

Sylvia Outten

P. S. DUPONT SCHOOL PERFECT ATTENDANCE

The following pupils had perfect attendance for the month of December:

Grade One
Roland Benson, Samuel Benson, Harold Russ, Frank White, Paul Scott, Wayne Smith, Selena Marie Dixon, Catherine Davis, Jeanett Bateman, Jean Anderson.

Grade Two
James Anderson, Richard Davis, Quinton Smith, Lee Jackson, Mary Ellen Russ, Margaret Ann Russ.

Grade Three
Charles Benson, Leroy Davis, Estella Murchison, Shirley Smith.

Grade Four
Wilhelmina Christopher, David Hackett, Kenneth Sharpe.

Grade Five
Janet Bateman, Leroy Parker, Janet Sharpe.

Grade Six
James Coleman, Ralph Taylor, Ronald Taylor, Dorothy Smith, Doris Shockley.

Grade Seven
Marie Benson, Minnie Davis, Mary Grace Benson, Elizabeth Smith.

Grade Eight
Janet Smith, Martha Jean Thorpe, Helen Pritchett, Eunice A. Henry, Gloria Smith, Russell Waters.

Miss W. R. Matthews - 1 and 2.
Mrs. Margaret Thorpe - 3 4 and 5.
J. H. Bedford - 6, 7 and 8.

Andrewville

Mr. and Mrs. Harry White, of Marcus Hook, Pa., spent Saturday evening with Mrs. Lizzie Butler. Mrs. Edwin Prettyman spent part of last week with her mother and sisters in Wilmington.

Mr. and Mrs. Albert Wright, of Norfolk, spent the weekend with Mr. Wright's parents, Mr. and Mrs. George Wright.

Mrs. Joseph Calvert, Mrs. Kenneth Walls and Mrs. Fred Walls were guests of Mr. and Mrs. Franklin Butler, Friday evening. Mr. and Mrs. Richard Jenkins and son, of Wilmington, spent Thursday with Mr. and Mrs. Harry Saulsbury.

William Ryan visited his brother, Elver Ryan, Thursday and Friday during hunting.

Charles Thompson and Russell Brown each shot a deer.

Mrs. Lizzie Butler, Mrs. Alton Breeding and son and Mrs. Fred Walls spent Thursday afternoon with Mr. and Mrs. William Walls at Bethel.

Mr. and Mrs. Arley Bradley and sons and Mr. and Mrs. Harry Saulsbury visited Mr. and Mrs. Fred Walls Monday evening.

Mrs. Lillian Kenton visited her sister, Blanch, of New York, last week.

Fisher's District

Mr. and Mrs. Harvey Rhodes spent Saturday evening with their children, Mr. and Mrs. Guy Post of Laurel.

Mr. and Mrs. Charles Cannon, George Cannon, and Mr. and Mrs. Orval Wilson were Sunday dinner guests of Mr. and Mrs. Walter Cannon in Wilmington. It was Walter's birthday.

A. T. White and Mrs. Jack Rust are still patients in Delaware Hospital, Wilmington.

Mary Reed is a patient in Kent General Hospital, Dover.

Mr. and Mrs. Gus Lundell spent Saturday evening with J. W. Rust.

The Rev. and Mrs. Alden Hopkins called on their uncle, A. T. White, in Delaware Hospital Monday.

Armed Forces

Ralph E. Greenlee, seaman, USN son of Mr. and Mrs. Ralph F. Greenlee of Route 1, Harrington, and husband of the former Miss Catherine E. O'Connell of Milford is attached to Mobile Fleet Aircraft Service Squadron 121. The squadron is supporting antisubmarine warfare units engaged in training exercises in the Caribbean.

Felton

School Notes

The Felton Board of Trustees has elected Mrs. Reba Mears to as sixth grade teacher. Mrs. Mears holds an A. B. degree from Stetson University, Deland, Fla., and an M. A. degree from the University of Pennsylvania. She has taught on both the elementary and secondary school levels. She has had previous experience in Detroit, Philadelphia, and Dover schools. Mrs. Mears lives in Dover at the present time.

Basketball

The Felton High School basketball team will travel to Caesar Rodney tonight for the sixth game of the season. At this writing, the boys team has lost three while winning one. The girls have two wins against an equal number of losses. Caesar Rodney has one of its best teams in many years, but the Green Devils promise to give the Riders real opposition as they always have in years past. Next Tuesday on the home court, Coach Kerns' teams, both varsity and J. V., will meet the strong Middletown clubs which have already compiled a very creditable record. This game traditionally been one of the best played contests of the season and a good crowd from upstate is expected to follow the Middletown Warriors.

Elementary Curriculum

Mrs. Bess Dill and Mrs. Ina Hughes have submitted suggestions for revising the courses of study in second grade language arts and fourth grade social studies respectively. Both teachers have contributed previously to the improvement of the Elementary School Curriculum followed throughout the state and they have also been active in both state and county professional education associations.

Illness

Mrs. Ludlow, industrial arts instructor, has been confined to his home since the holidays with the whooping cough. Harold Kocher of Laurel and Oliver C. Short have filed in as substitute teachers.

Junior High Library

Over seventy new books of high interest to seventh and eighth graders have been purchased and placed in the Junior High School Library located in Mr. Ernie's English room. These books, dealing with such subjects as animals, adventure historical events and teen-age doings are not only interesting and enjoyable but are useful in gaining information that will aid the pupils in all their classes.

The seventh and eighth graders really appreciate the opportunity

Century Club Notes

At the meeting of the Harrington New Century Club on Jan. 18 the topic will be Art. A. B. Parsons, who has photographed many interesting old homes and churches on the Delmarva Peninsula will be the guest entertainer. Mr. Parsons pictures will be shown in color.

JOHN DEERE DEALER TO BE HOST TO FARMERS AND THEIR FAMILIES

A full-length, all-color film will feature the John Deere Day program to be held at Reese Theatre, Harrington at 1 p. m. on Jan. 26. Taylor & Messick are to be hosts for the event.

"Miss Hattie" is the story of a lovable little lady who has taken upon herself the task of putting her small community's life to music. The story emphasizes the intense drama that can often be going on under the seeming serenity of small town life.

Grace Field plays the title role of "Miss Hattie," and the cast include such Hollywood favorites as Lyle Talbot, Franklin Pangborn, Jan Shepard, Harrison Lewis, Vivian Zillman and Douglas Henderson.

Other Films to Be Shown
The Gordon family, perennial favorites of John Deere Day audiences throughout the country, will appear on the program in a new film, "Freedom for Eric." This is the story of a displaced person from Central Europe who is sponsored by the folks of the Gordon family's community. Tom Gordon again portrays a lovable head of the household whose stubbornness is matched only by his kind nature, which inevitably comes to light.

For the fifth consecutive year the series "Oddities in Farming" will make its appearance on the John Deere Day program. Again, the roving cameraman searches out the unusual in farming from all over the country and this year's film will cover such things as helicopter spraying and dusting in California, seining under the ice in Minnesota, the celery harvest in Michigan, and prickly pear farming in San Diego.

Another filmfare to be served farmer guests on John Deere Day is "What's New for 1955." This, the latest series, is always of great interest to farmers and consists of a lineup of new John Deere equipment which will be made available in the coming months. The film gives the features of the new equipment, as well as showing it in actual use on the farm.

In addition to the main films there will also be shown several short subjects.

Program Free to Farmers
In announcing the program Mr. Messick pointed out that the program will be free to all farmers and their families. Admission, however, will be by ticket only. Farmers who have not received tickets in the mail, or who require additional tickets, may obtain them by calling at Taylor & Messick, Mr. Messick said.

Stress on Athletics Deters Learning

This is not a new subject to these columns.

It is again brought to our attention by the experiences of one of our local clergymen who participated in some of the sessions of the two-county teachers' meeting recently held here.

He came away dismayed. The subject matter of this particular conference was concerned wholly with "how do we win?"

His remonstrances that there might be other objectives in a high school athletic program brought this practical rejoinder: "Yes, but if we expect to keep our jobs we've got to win."

This philosophy has many evils. Primarily, of course, it is in direct conflict with many of the things which we presumably send our children to school for.

Furthermore, it tends to force onto our school faculties an unhappy hybrid—a man who is expected to do a commendable job in the classroom and at the same time be a specialist in the techniques and psychology of producing winning teams.

It's all wrong.

We would have a strong athletic program—very strong. It's good to have something besides winning. It should be managed by persons who are specialists in physical education.

We don't expect to see any of this happen. But it will never happen as long as everyone takes it for granted that it "has to be this way."

It doesn't.

The Iowa Falls (Ia.) Citizen

Zwaanendaal Museum's New Additions

French playing cards used more than a century ago, and a handsome Staffordshire meat platter made in England, are among the newest additions to relics on display in the Zwaanendaal Museum at Lewes.

Mrs. Wallace Burn of Milford has lent the old deck of cards for exhibit. They were made by Gatteaux about 1853, has been established by the curator, Miss Catherine C. Maull, who found the date and maker's name on the shield of the Jack of Clubs.

Another handsome relic is the meat platter lent by Mrs. Charles T. Johnson of Lewes, which has a scenic view titled "Fairy Villas." It was made by the English potter, W. Adams and Sons. The curator reports that the collection of old lusterware lent recently to the museum by Mrs. Leland S. Burton of Lewes, will remain on display during the winter season, as well as her assortment of glass paperweights.

Mr. and Mrs. Hammon Davidson of Milton have presented a celluloid bookmark, a souvenir of the presidential campaign of 1892. The bookmark bears the picture of Grover Cleveland and his running mate, Adlai E. Stevenson, grandfather of the Democratic presidential candidate in 1952.

As the Zwaanendaal Museum,

Delaware's memorial to the first Dutch settlers at Lewes, now remains open to the public on a year-round basis the visiting hours for the winter months will be the same. They are week days except Mondays from 10 a. m. to 5:30 p. m., and on Sundays from 12:30 to 5:30 o'clock.

RESOLUTIONS

Resolutions as passed by Ladies Auxiliary of Harrington Fire Co. at its regular meeting held Jan. 10, 1955 on the death of its recording secretary, Sallie Lord, who departed this life December 20, 1954.

Whereas an all-wise Providence has chosen to remove from our midst, by death, Sallie Lord, a member of Ladies Auxiliary of Harrington Fire Co.

Resolved that the ability and wisdom, which she has exercised in the aid of our organization by counsel and service, will be held in grateful remembrance.

Resolved that a copy of this resolution be sent to the surviving members of the family, another to be printed in local newspaper and one to be filed in the records of our organization.

Signed by committee, Frieda S. Eberhard, Orrie Hobbs, Elsie O'Neal

School News

School Facilities Improved During the Past Year

The Caesar Rodney Board of Education is pleased to report the completion of several items of major improvement to the school plant completed during 1954.

The grading and seeding of the new athletic field between Center and North streets has been completed with Clute Bros., of Wyoming doing the work.

The 1916-1922, 1928 and 1934 sections of the building have been equipped with zone heat controls, including low temperature regulation at night and over weekends.

Asphalt floor tile has been installed in the 1916 and 1922 second floor corridors. The eight-room primary school wing was painted last summer by school custodians and the east and west corridors have been painted on all three floors of the Elementary School building by contract painters.

In the cafeteria the Boulevard Electric Company has recently completed installing new stainless steel dishwashing equipment including a pre-wash sink, a separate rinse compartment, and electric water booster heater. In addition, new window drapes have been hung and the cafeteria divided in three sections by curtains to improve the appearance and to make it possible to use the cafeteria for overflow study groups from the library.

The knob and tube wiring in the 1916 section of the building has been replaced. All the original lighting fixtures have also been replaced in the old elementary building in most cases, with fluorescent lights.

Edward H. Nelson is the electrical contractor on the job.

Bids on New Rooms Due Jan. 26

The Caesar Rodney School Building Commission will receive bids until 2:00 p. m. on Wednesday, Jan. 26, for (1) an elementary class room addition of four rooms with an alternate for two additional rooms and (2) an agricultural shop and home economics room addition.

The specifications list several other alternates which will be included if funds are available, including a garage and public toilets in the main elementary school.

Plans and specifications were prepared by an architectural firm in Wilmington.

Band Parents Plan Concert, Wednesday, Feb. 9

The regular meeting of the Caesar Rodney Band Parents Club was held in the school cafeteria on Monday, January 3.

Among the items of business discussed was the dealing with the coming Winter Band Concert on Wednesday, February 9, at 8:15 p. m.

Chairman, Mrs. Marie Holt, president of the club, appointed the following club members to plan for this event: Chairman, Mrs. Marie Holt; Publicity, Mrs. Helen Cool; Calling, Mrs. Louise Dyer; Refreshments, Mrs. Clara Fifer and Mrs. Shirley Huunn.

Edwin F. Englehart, director of the band, gave a report on the progress of plans for this concert and stated that tickets would be available for distribution and sale very shortly.

Another item of business dealt with the possibility of having dues for the club. It was decided that the corresponding secretary, Mrs. Myrtle V. Sipple, would send out a questionnaire to club members for their opinions.

Since the club will have been in existence a full year next month it was suggested that the February meeting be held in the form of a birthday party. This suggestion was accepted and plans are now in progress to carry out this project to realization.

Faulty Debts

Shortly after a school of Roanoke, Va., sold one of its students a correspondence course on how to operate a collection agency, it had to go to court to collect the unpaid tuition.

Advertisement for watch repairing with '1 year guarantee' and 'Genuine Materials'.

Advertisement for Sander Jewelers in Dover, Delaware.

Governor

(Continued from page 1)

case by the Chicago organization.

School Consolidation

The Governor called for the consolidation of school districts wherever possible, and in the field of higher education asked legislation to clear the way for the construction of new buildings at the University of Delaware and to provide adequate operating appropriations for Delaware State College.

He recommended enactment of civil service legislation for state employes other than those holding policy-making positions, a recommendation he had made to the 1953 General Assembly, and called for the establishment of a central communications division in the State Highway Department.

Such a division, the Governor said, "would vastly improve the effectiveness of those charged with maintaining law and order, effect long-range economics, and would also be of inestimable value to the many volunteer fire companies throughout Delaware."

Highway Uses Only

In other highway matters, Governor Boggs recommended enactment of a constitutional amendment requiring that all revenues derived from fares and fees paid by highway users be made available for highway purposes only.

He said he had requested the Highway Department to prepare a comprehensive study of highway needs, and expressed the hope that within the next decade all dirt roads in the state would be hard-surfaced. He called for increased efforts for highway safety.

The Governor called for further improvements in the state pension system, which he said already made Delaware one of the first states in the union to provide its employees with the retirement and survivors' benefits of federal Social Security.

The chief executive also called for legislative action looking toward the establishment of a state penal system, and asked the legislators to establish a state Human Relations Commission on a permanent basis. The latter recommendations, he said, was suggested by a committee appointed by him to study human relations problems in the state.

Social Security

(Continued on page 6)

ditions of the new provisions, are advised to get in touch with their social security office. The Social Security Administration also calls attention to the lowering of the age restriction on earning by beneficiaries from 75 to 72. On reaching age 72, an insured person is now permitted to have earnings of any amount and still get benefit checks each month in the year. This provision goes into effect also at the beginning of 1955, and any person between 72 and 75 who has not claimed his benefits because he has continued to work should file his claim now, even if he plans to keep on working.

Effective on January 1, furthermore, was a provision to protect the social security insurance rights of the totally disabled. This is not cash disability insurance, but a means whereby a person who has been totally disabled for a period of six months or more may apply to have his social security earnings record "frozen" as of the time of the onset of the disability. Beneficiaries now on the rolls who were totally disabled before they became eligible for old-age benefit payments and who are still disabled may apply

under the provision to have their benefit amount refigured to at least one-half the time during the three years just before he became disabled. Applications for the "freeze," from people who have become disabled after establishing a social security account, will now be accepted by the local social security office.
