

Adams States Views On City Shortage

Norris C. Adams, former city manager, said Friday that the explanation of Councilman Walter Messick, in the past week's issue of The Harrington Journal, as to why he did not, with three other Councilmen, vote on the acceptance of a resolution for a claim to a bonding company for a shortage in the tax funds, cast him in an unfavorable light.

Councilman Messick said he did not vote because all persons who could have been involved were not mentioned in the resolution. Messick, with Councilmen Leonard Harrington, Charles Jerred, and George Graham, did not vote on the resolution. Councilmen Dr. Hewitt Smith and Charles Peck, Sr., voted on its acceptance.

The shortage of \$1207.60 was revealed last year by the auditing firm of Gunnip, Isaacson & Stolper, now the firm of Isaacson & Stolper.

Adams said he felt the statement, while it did not mention his name, might place him in an unfavorable light. He proposed that a citizens meeting be called by the City Council at which time the four nonvoting Councilmen explain why they didn't vote for the resolution for a claim to recover the money from the bonding company.

Continuing, Adams declared there was opportunity for various persons to go into City Hall, day and night. Adams said he wanted to go on record and explain his stand. He said he took no part in wrongdoing, had no knowledge of any, nor was he charged with any malfeasance.

He added that, as a citizen of Harrington, he was still as much interested in recovering the money as he was when he was city manager.

Concluding, he said, "I insist that the taxing public call upon its Councilmen to explain why they have not protected the public's money as they agreed to do when they took their oath of office. And, as a citizen, I intend to do all in my power to see that a full explanation of the shortage is made."

Mayor Ernest Killen said, in a statement, Friday, "The resolution for the claim to the bonding company was handed to me by the city attorney, Max Terry, who had held conferences with the city auditors, the attorney-general of Kent County, and representatives of the bonding company. From facts obtained, Mr. Terry and an associate attorney have agreed that the adoption of the resolution was the proper way for the City of Harrington to recover its money without accusing any individual in any way. My personal belief is that if we do not accept advice by our attorney and our auditors, it is useless to spend the taxpayers' money to employ them, and it is also useless to bond our employees unless we are going to use the bonding company when claims are necessary. The City Charter authorizes the employment of these professional men, and had the Council accepted their advice it would have been the responsibility of the bonding company to reimburse the City treasury and take whatever action they deem necessary to disclose the discrepancies."

RACES SLATED TO END AUG. 23

The meet of the Kent & Sussex Racing Association will end Thursday night, Aug. 23, unless it is rained out, when the meet will end next Friday night.

T. Brinton Holloway, general manager of the racing association, said: "We are in the midst of a very successful meet for the first 13 days. Attendance is on a par with that of last year, and may be a little better. Favorable weather has been the determining factor."

The meet has seen new records set in single-night handle and single-race handle.

Ellis Meyer is the leading driver, as of Wednesday night, with John Wilcutts as runnerup, and Jack Smith showing.

INGA LUE TAKES 2 ENDS OF FEATURE HARRINGTON PACE

Inga Lue, Harrington-owned pacer, captured both ends of the featured mile race at the Harrington Raceway Saturday night as new records for both mutual handle and attendance were set.

Owned and driven by Robert H. Quillen, Inga Lue swept to a half-length triumph over Direct Walnut in the fifth race, and scored by the same margin over Shamrock Bonnie in the eighth race. The winner returned \$6.80, \$3.60, and \$2.20 in winning the fifth, while the 8-year-old mare paid \$6.20, \$2.80, and \$2.10 for a \$2 win ticket in the eighth.

A record crowd of 5,290 poured a total of \$138,505 through the mutual machines during the nine-race card. A new record handle for a single race was set in the ninth race of \$20,455.

Longshot players were amply rewarded if they picked the winner of the sixth race, Eric's Lou, which paid \$31.70, \$11.90, and \$5.70.

The combination of the aptly-named Gambler in the first race and Reta P. Direct in the second returned a daily double payoff of \$64.10 on the (1-3) combination.

THREE CONTESTS TOMORROW IN DEMOCRATIC PRIMARY

Contest for nomination of candidates for three Kent County-wide offices will be decided at the Democratic primaries Saturday.

The polls will be open in all 24 election districts from 7 a.m. to 8 p.m.

In addition, the Democrats have contests in the first Levy Court District and the Second Representative District, plus five contests for naming of delegates to the state convention.

The delegate contests are in the Fourth Representative District (all one election district), the first election district of the Ninth Representative District, and the three election districts of the Tenth Representative District.

There will be no Republican primaries on Saturday since that party has no contests on its slate, L. Winfred Hughes, president of the county Department of Elections, explained today.

Therefore, only Democrats will vote. They number 6,077. Persons registered as Republicans or as declining to give their party affiliation will not be eligible to vote in Saturday's primary.

The county-wide contests are: Register of Wills, J. Wesley Walls, Maryland, incumbent; Hugh F. Vincent, Farmington, and Clarence E. Dixon, near Dover. Sheriff Thomas Hughes, Felton, and Nick S. Sawyer, Cheswold. Coroner, Roland P. Trader, Dover, incumbent, and W. Harrison Melvin, Harrington.

The First District Levy Court contest is between J. Clements Bowdle, Dover, and Leonard C. Covington, near Dover, while the Second Representative District contest is between Rep. Daniel J. Queen, Jr., Dover, and Jacob W. Zimmerman, near Dover.

SALT WATER FISHING

Tuesday at 9:30, Captain Baird on the Mohawk was landing his second marlin for the morning, 50 miles southeast of Rehoboth, and 100 snapper blues weighing over two pounds each had been caught by another fishing party. Three hundred forty-nine sea bass was the catch on one boat coming into the Basin Monday night. Dolphin, bonita and albacore are biting—trout and blues at the mouth of the Inlet and flounder in the Indian River Bay.

Delaware Bay fishing is excellent at Kitts Hummock; trout, blues and flounder offer the best fishing for the season. There are plenty of small bateaus for hire at Kitts.

At Woodland Beach, Collins Beach and Fishers Wharf rowboats can be hired for a day of crabbing in the Delaware Bay. Crabs are biting, but they are small.

POND AND LAKE FISHING

At Noxentown Pond, near Middletown and Lake Como at Smyrna crappies, bluegill, perch and bass are hungry for those plugs. Several large strings of fish caught from these waters last week were difficult to transport to the cars.

FISHING PHILOSOPHY

If you can't land any of the fish that are reported to be in Delaware waters you might find some consolation from words of fishing philosophy offered in a recent copy of the New York Herald Tribune which states in part—"It is an article of faith that fish are by no means essential to fishing, but evidence of their presence does add something to a sport that is almost perfect without them."

12 TEEN-AGERS ARRESTED IN TOMATO BATTLE

"The battle of the 'maters'" ended late Monday evening when 12 teenagers, from Harrington and adjacent villages, were arrested by Chief of Police George Hughes on a charge of throwing articles from a moving vehicle.

Four defendants appeared before Magistrate L. Gooden Callaway Tuesday evening and were fined \$5 and costs. They were as follows: Robert A. Scotten, 19; Frank G. Voss, 19; Richard S. Dennis, 18, all of Harrington, and Martin T. Rothermel, 19, of Felton.

Eight others, who will appear in Juvenile Court at Dover, are as follows: a 14-year-old from Farmington, a 16-year-old from Houston, a 17-year-old from Felton, a 15-year-old from Harrington, and three 16-year-olds and a 17-year-old from Harrington.

The teen-agers, riding in a pickup truck and two passenger cars, had amused themselves by riding about the streets of the City and throwing tomatoes at one another's vehicles.

Just where the defendants got their ammunition has not been brought out.

Chief Hughes indicated Wednesday night there may be additional arrests in the affair.

Kent County Highway Dept. Adds Services

The Kent County division of the State Highway Department stands ready to provide service required of it on a 24-hour basis, stated W. F. McFaul, Jr., division engineer, in a recent report.

In this report Mr. McFaul also called attention to the many problems created for his division through the constantly increasing population in this area. The report follows:

Due to increase of traffic in the county and the problems which result from the added population and industry, the highway department finds that in addition to the regular maintenance and construction program, it has many other public services to perform.

Within the incorporated limits of the many towns in the county, the maintenance of the thru streets has become a major problem. The purchase of special equipment (for instance, a pickup sweeper) and the establishment of a special crew of men who will concentrate on the specific problems presented within our municipalities will help alleviate this situation.

Also, the great increase in population has created many problems for the State Highway Department. Dumping areas throughout the county have been established and are used so heavily that a special crew has been assigned the sole duty of operating these county dumps. The highway department finds that it costs less to maintain these designated areas than to have illegal dumping along the highway and the resulting cleanup involved.

The traffic over our county roads has increased in leaps and bounds. Naturally the additional maintenance places an increased work load on the division forces. Here again the acquisition of motorized maintenance equipment is increasing the capacity of our maintenance sections.

Operating on a fixed salary budget means that the division must continually increase its efficiency if the services are to keep pace with the demand. For the first time in several years the organization within the division is being brought up to date. The once effective county wide primary and secondary districts are now planned to be re-distributed, having Harrington as the base of operation for the lower portion of the county and Dover for the upper section. By having more local control, it is the hope that increased work can be performed with fewer men. The remainder of the work force can be employed in giving the county additional types of needed services.

W. F. McFaul, Jr., division engineer in Kent county, states that with the cooperation of the men in the county division, the public can expect first-class county roads and that the division stands ready to provide service as required on a 24-hour basis.

Smith-Morris

Janet Joan Smith, daughter of Mr. and Mrs. Ernest M. Smith, became the bride of William Edward Morris, Jr., son of Mr. William E. Morris, Sr., Milford, and Mrs. Houston Twilley of Houston.

The bride wore a gown of white nylon tulle and alenon lace over satin, styled with fitted bodice and bouffant skirt. The scalloped square neckline and sleeves were outlined with iridescent pearls. A queen's crown of seed pearls and iridescent sequins held her fingertip veil of silk illusion, and she carried a white orchid on a white Bible.

Louisa Howard, of Harrington, was maid of honor. Her full length gown of powder blue nylon net featured a tucked bodice and attached stole. She wore a halo of forget-me-nots and green leaves, and carried a nosegay of white pom poms centered with pink rosebuds.

Richard Wilson, of Harrington, served as best man, while the ushers were Glenn Cole and George Sylvester, both of Dover.

Flower girl was Pamela Jean Lane of Milford, a niece of the bridegroom, who wore white embroidered nylon over pink. She carried a nosegay of white and blue pom poms.

Christopher Lane, of Milford, a nephew of the bridegroom, was the ring bearer.

Mrs. Leslie Wix played the organ music.

Immediately after the ceremony a reception was held at the New Century Club.

The bride is a graduate of Harrington High School and is employed at the Dover Air Force Base. The bridegroom is a graduate of Milford High School and is employed at International Latex.

After a honeymoon trip to Niagara Falls, Mr. and Mrs. Morris will reside in Harrington.

Traffic Increases For July

Increases in traffic were recorded at all permanent traffic counting stations maintained by the State Highway Department for the month of July except the one along U. S. Route 13, south of Greenwood.

In comparison with the records for July of last year, the greatest increase was recorded along U. S. Route 113, at a point north of Milford, where the increase was 6.62 per cent and the daily average of vehicles counted was 9,388, and increase of 583 over the daily average for July of last year. The largest single day was Sunday, July 29, when 14,573 vehicles were counted.

Along U. S. Route 13, at a point north of Smyrna, the increase was 4.64 per cent with the daily average of vehicles counted being 18,609, which is 825 more than the daily average for July of last year. The largest single day was Sunday, July 1, when 26,528 vehicles were counted.

The increase along U. S. Route 140, at a point west of Bear, was 1.17 per cent with the daily average being 24,652, an increase of 285 over July of last year. The largest single day was Sunday July 29, when 35,690 vehicles were counted.

An increase of one per cent was recorded along U. S. Route 202, the Concord Pike, at a point north of Talleyville, with the daily average of vehicles counted being 13,064, and increase of 129 over July of last year. The largest single day being Sunday, July 29, when 15,788 vehicles were counted.

The decrease along U. S. Route 13, at a point south of Greenwood, was 3.99 per cent and this is believed to have been caused by construction work in progress at that point. The daily average of vehicles counted was 7,498, a decrease of 312 over July of last year. The largest single day was Saturday, July 28, when 9,922 vehicles were counted.

The Democratic Party of the first election district of the ninth representative district is faced with a primary election to be held Saturday, Aug. 18 for the election of delegates and alternates to represent this district at the Democratic State Convention to be held in Dover, Thursday, Aug. 30. This will be the first primary for the election of such delegates and alternates since 1932 in this strong Democratic stronghold. It has always been the custom in this district to file delegates through the Kent County Committee members from the district and this was done by Ernest E. Killen; Robert A. Saulsbury and Earl Sylvester for delegates and Cora Bailey, Helen Harrington and George W. Cain, candidate for representative from this district, for alternates. These delegates and alternates have the full endorsement of the Kent County and State executive committee members from this election district and will be so supported.

Damages resulting from the accidents reported in July of this year totaled \$296,805, and increase of \$122,830 over the amount of damage reported in July of last year and \$102,780 more than was reported for July of 1954.

Of the accidents that took place in July of this year, 444 were in Wilmington and New Castle county, an increase of 133 over the same month of last year and 144 more than took place in July of 1954. Kent county had 96 of these accidents in July of this year which is 37 more than were reported in July of last year and 16 more than in July of 1954. Sussex county had 131 of the accidents in July of this year, and increase of 47 over July of last year and 51 more than in July of 1954.

Of the operators involved in the accidents during July of this year, 305 were from out of state and 197 had no insurance. There were a total of 217 persons injured in these accidents.

TURKEY RESEARCH TO BE REPORTED AT FIELD DAY

The results of 17 weeks of research work involving some 1800 turkeys will be reported at an open house and field day at the University of Maryland's Experiment Station at Salisbury, on Sept. 12.

Known as Trial No. 16 the research work is designed to compare the growth and feed efficiency of the Beltsville White and Maryland Medium White strains. Researchers have also been studying the growth response secured from unidentified growth factors in turkeys as supplied by fish solubles, brewer's yeast, molasses distillers solubles, corn filler's solubles and dried whey.

At the field day, which is the first turkey field day ever held at the station, questions covering weight gains, feed efficiency, mortality and others on Trial No. 16 will be answered.

The program is scheduled to begin at 1:30 p.m. and will run until about 3:30. The experiment station is located on the Quantico Road west of Salisbury.

In order to accommodate interested people in Delaware beach and salt water areas, a meeting of the recently organized Delaware Travel Council will be held at the Henlopen Hotel, Thursday, August 23, it was announced today by president, James C. Stewart, Wilmington.

Mr. Stewart said that the dinner meeting would begin promptly at 6 p.m., and the business session will be kept just as short as possible, although he declared there is some work to be done.

"When we organized in June," continued Mr. Stewart, "we elected temporary officers for the Council, with the proviso that these could be ratified, changed or added to at the next session, which he hoped would attract a representative group of people interested in the same things in which the founders are interested."

He pointed out that motel, hotel, restaurant, museum and other interests, including the automobile associations, travel agencies and similar groups would be welcome to the session. Mr. Stewart also hopes that officers will be expanded so that there will be a vice-president from each of the three counties.

"Mike Fabrizio of the Henlopen has been most helpful in arranging for this meeting," Stewart continued. "Those who wish to come early in the afternoon and enjoy a swim before dinner may do so as the guest of Mr. Fabrizio. A full course roast beef dinner will be served at six o'clock and the business meeting will follow. Reservations may

DELAWARE STATE DEVELOPMENT DEPARTMENT

The 12th annual ocean swim races are being held on the 17th and 18th of August with storm dates of the 24th and 25th of August. The first day's events consist of the 220-440-880-yard events for both men and women, making a total of six races the first day. On August 18th the 880-yard races for men and women for the state championship will be held. These events are open only to the residents of the State of Delaware.

After these two events are completed, the women's mile and men's mile, feature events of the meet, will immediately be held. The first day's events will start about 1:00 p.m. and the second day about 2:00 p.m. Entrees will not close until midnight, August 16. It is quite possible that several of the swimmers who tried out for the U. S. Olympics Team will enter these events.

A special surfboard race between the members of the Rehoboth Beach Patrol will be a feature on Saturday afternoon. The distance of this race will be a half mile.

Trout-5 lbs., 7 oz., caught by Simon Rekus, Baltimore, from the surf using mirrolure. Rock-17 lbs., 10 oz., caught by Joe Rekus, Baltimore, from the Ocean City Inlet using mirrolure. Kingfish-2 lbs., 1 oz., caught by Henry Truitt, Jr., Berlin, Md., from the Ocean City Inlet using shrimp. Flounder-9 lbs., 3 oz., caught

by Dr. O. C. Joyce, Baltimore, from the Sinepuxent Bay using bucktail and minnow.

The newly organized council has been in touch with similar groups in neighboring states and hopes to have by-laws drawn in time for the session so they may be adopted.

Prime interest of the organization is to draw more travel-minded people to Delaware, inform them of available facilities, and spread such information regarding the state on as wide a base as possible.

Membership standards are being devised according to Mr. Stewart which would make it practical for anyone in the state dealing with the traveling public to become a member. He said that it is the hope of Council officers to develop a program this fall so that full promotion work may get underway in the spring.

Keeping pace with the record crowds at Ocean City is the marlin fishing off the resort. Local marlin skippers are shooting for a new high in the number of white marlin caught by the town's fleet of charter boats. As of Sunday, August 12, a total of 1,077 of the long bills have been caught and marlin men are still confident that a new record for marlin catches will be set this year at Ocean City. The present record of 1,343 marlin

catches was set in 1939 and has been a goal that charter boat captains have been striving to better for the past 17 years.

IT'S BETTER THAN HOT

We have had a comparatively cool summer, but the past two weeks have been rather hot. You know it and your car knows it. Look at your heat gauge on the dashboard.

Your car will run cooler and better if you let us check your radiator. It will not take long for us to check it and to flush it out if necessary.

Better have those tires checked, too. In hot weather tires of synthetic rubber build up pressure. Your car will run smoother if those tires are checked. We can do that while you're getting that good AMOCO gasoline.

Now is the time to get that good paint job. We can do it in a hurry and at a price which will pleasantly surprise you.

Other low-price cars can't possibly give you these 7 big Plymouth extras!

Do you own a '53, '54 or '55 model of one of the low-price 3? Then here's what you're missing—look how much more the all-new Plymouth offers:

- 1 Tomorrow's styling today: You can easily see Plymouth is all new, while other low-price cars haven't changed much in the last two years.
- 2 Biggest, inside and outside: Plymouth's the biggest, longest, roomiest car of the low-price three. A smoother ride and more room to enjoy it!
- 3 Exclusive Push-Button Driving: With a mere finger touch, you select your driving range—as you'd ring a doorbell. On left, out of children's reach. Positive, mechanical linkage.
- 4 Choice of two superb engines: Pick either Plymouth's sensational Hy-Fire V-8 (up to 200 hp —240 hp in the Fury) or the PowerFlow 6.
- 5 Top take-off and passing power across the board: Plymouth's 90-90 Turbo-Torque provides

the greatest breakaway and passing power in all models of any low-price car.

6 Greatest attention to safety: Plymouth gives you many more standard equipment safety features—Safety-Rim wheels, electric windshield wipers, SafeGuard door latches, dozens more.

7 Far more extra-value features: Plymouth's low price includes many exclusive luxury features. Compare at your Plymouth dealer's today!

PLYMOUTH costs less

From the day you buy it...through all the years you own it...you'll spend less on a Plymouth. That's one reason more Plymouths are used as taxis than all other cars combined.

EDDIE DUCHIN STORY AND FRANCIS AT REESE

"Whatever you do," says the management of the Reese Theatre, "be sure to see Mickey Rooney and Francis, the talking mule, in the newest Universal hit, 'Francis and the Haunted House,' and Allied Artist's 'World Without End' in Cinemascope, listed for showing this Thursday, Friday and Saturday, August 16-17-18.

If its fun, chills and thrills you want, you'll have one of the happiest times ever at Movie Center this weekend.

True stories may come and go, but it is well known, that no picturization of such a well known figure has achieved such tenderness as "The Eddie Duchin Story" with Tyrone Power and Kim Novak, scheduled for presentation at the Reese Theatre, Sunday, Monday and Tuesday, Aug. 19-20-21. This is a 'must see,' and doing that you will remember a long, long time. Special presentation by Movie Center adds much to the enjoyment of such a wonderful picture.

From where I sit . . . by Joe Marsh

Turned Out To Be a Good Break

We had a water main break last Thursday. Happened early in the morning—about two a.m.—and the first thing most of us knew about it was when we tried to turn on the faucets and nothing came out but a hissing noise.

Nobody was inconvenienced much though. Repair crew went right to work—and things were fixed up in jig time.

Incidentally, the water company got a flood of payments on overdue bills that day. Lots of "forgetful" folks must have figured they were being warned!

From where I sit, sometimes our obligations slip our minds. Like the responsibility we all have to our communities . . . to see that our neighbors enjoy the right to decide for themselves how to work, how to vote, whether or not to enjoy a bottle of beer. Any time we "forget" we owe this right to others, we take a chance on stopping the flow of tolerance that makes this country such a grand place for us to live in.

It doesn't cost a cent to Take a Ford Test Drive . . . and you may save hundreds!

Would you trade 20 minutes of your time for a saving of hundreds?

Why put off the fun of a Ford Test Drive for a single day? As you know, it puts you under absolutely no obligation. And it may save you literally hundreds of dollars—we'll get to that a little further on.

By a Test Drive we mean more than a once-around-the-block "spin."

We want you to test the power that rocketed Ford to a 500-mile stock car record at Indianapolis . . . the GO that won the grand prize at NASCAR's Daytona Championships. We want you to feel how this Ford *scat* pays off in your kind of driving: in traffic, passing on the highway, getting going at traffic lights. We'll put either a Ford Six or a mighty V-8 with up to 225 h.p. at your disposal.

We want you to drive and listen—drive and feel.

That fine-car quiet results from sound insulation under the hood, under the roof, in door and body panels—the most insulation in any car at anywhere near Ford's low price.

Some other things that contribute to that smooth, silent, luxury-car ride are things which Ford's leading competitor certainly can't boast: Ball-joint suspension with wide base control arms for better steering, more stabilized wheel alignment . . . shock absorbers that are mounted to the frame rather than the body.

"Sure," you'll say as you drive along the road. "Feels pretty good—but after all, this car is new."

Well sir, when you come in from your drive we'll show you why Ford will stay like new for a long, long time.

We'll show you how Ford has five cross-members (including a "K" member) in its frame. Ford's leading competitor only has two. We'll show you the deep-block Y-like engine design which enables Ford engines to take it.

Now—what you've been waiting for. How can you save hundreds of dollars by taking a Ford Test Drive?

Simply by proving to yourself that there really is a fine car in the low-price field.

You see, the reason a Ford does not cost hundreds of dollars more than it does, is Ford's huge production and the huge volume which we Ford Dealers sell.

There are many cases where "medium-priced" cars claim to be priced within a few hundred dollars of Ford. Remember, however, these prices are usually arrived at by comparing their lowest-priced models—stripped—with Ford's most expensive models that include all of the comforts of driving.

But enough of this talk. Come in. And you do the driving and the talking. Bring the family, too.

FORD goes first

NOW! A FORD with AIR CONDITIONING costs less than many medium-priced cars without it. TRY ONE TODAY! Based on a comparison of suggested list prices.

QUESTIONS AND ANSWERS

Q—I am a veteran with a total and permanent nonservice-connected disability. I waited several months before applying for disability pension payments. Is it possible for the payments to be back-dated to the date I incurred my disability?

A—Under VA's regulations, the effective date that payments may begin is the date VA received the claim or the date the disability arose—whichever is later. In your case, the date of VA's receipt of the claim would be later.

Q—Premiums on my World War II GI term insurance policy are under waiver because I've been totally disabled for more than six months. May I convert my term policy to a permanent plan, even though I am totally disabled?

A—You may convert your term policy to any permanent plan other than an endowment. Also, you will not be required to take a physical examination.

Q—I want to take a course under the Korean GI Bill that's commonly considered recreational in nature. In my case, I need it in connection with the business I plan to enter. Will I be allowed to take it?

A—Yes - if you submit justification to VA that the course will be of bona fide use in your present or contemplated business or occupation, and VA approves the case in advance. The only courses absolutely prohibited by law are bartending, dancing or personality development.

Q—My son is eligible for schooling under the new educational program for children of deceased war veterans. His college begins early in September. Will he be able to receive payments from his first day in school?

A—The law specifies that monthly payments may not begin before October 1, 1956.

The Board of Education's Annual Report Will Be Published

Sometime ago we pointed out that Dover school district was publishing the annual financial report, as required by law, in the Dover newspaper. Since a school district is a taxing district, we thought it would be a nice thing for Harrington, too.

Lo and behold, this week we are publishing one, and a very interesting one it is, too. It is different from the usual financial statement in that it takes time to explain the where and why of the expenditures. It is easy to read and to understand.

We think the Board of Education should have a vote of thanks. It's members are as follows: Ellwood B. Gruwell, president; Paul Neeman, vice-president; Luther Hatfield, Russell Bowdle, and J. C. Messner, secretary.

Now, let's see some of our neighboring school districts publish their financial report.

Sulky Slants

By MRS. DAVE (PAT) SMITH

Here we are back in Batavia. Sure glad to get this near the end of the summer. They certainly have done a lot of work here on the grounds. For once, the grooms have nothing to fuss about. At the end of each barn new quarters have been added. Also a new 40 stall fireproof barn has been built.

There are as many plain clothesmen as policemen. Every time you turn around they are asking to see your pass. I sure like the idea of no cars in the barn area. At least you can take your horse out without a car come flying out of nowhere.

Mr. Howard Lyons was over to our stable to visit with us yesterday. He and his horse are here for the big race Friday. Told Dave and I he won both heats out to Grandview with Harry.

So far there aren't too many horses here. I don't know why, unless its the fairs that are going on or they are leaving for other places to race. You use to be able to walk along by the paddock into the grand stand, but now outsiders even come along where the horses are. They sure are strict. Again you have to produce your state pass along with any other kind they can think of. But everyone seems to like the idea of so many coming into the paddock when you are busy. No children allowed at the races here. But they do have a nice small grandstand for them on the back side of the track. You should hear them when one of their daddies is driving in a race. A policeman is stationed over there for a while when a free-for-all gets started among them.

We have a wonderful location this fall, right along the track where you can look into the grandstand. The horses seem to enjoy looking at the races also. All I have to do is to go over the fence and stand on a log and watch the races. For once the hot water is right at our barn. I have plenty of flowers and white shavings, and a loud variety of colored chairs under our awnings, which makes a real pretty sight from the grandstand.

All you hear now around the older children is about going back to school. Schools open so early up here.

The Erie County Fair opens next week and gosh is it some affair. Think I will go over and try to get a pair of chickens. The kind that the feathers come all the way down to their toes. Sure had a wonderful trip from Foxboro down to Batavia. In the daytime I enjoyed all the mountains and all the scenery. At this time of the year the Thruway is grand. All the places you stop to eat are so busy you can hardly get waited on. But for sure they have improved all eating places along the line.

Hope to have a little more news next week. Moving is such a bore and you get so tired. I haven't seen a full program of racing since I have been back. This year everyone seems to be tired out.

Mrs. Wood and daughter, Mrs. Mary Pratt, sailed this week, from New York to Scotland, where they will visit relatives.

Mr. and Mrs. Fred Lord and Sheila, Baltimore, attended their family reunion Sunday, and circled among relatives here about this week.

Trinity Methodist Church Notes

Our Sunday School meets at 9:45 every Sunday, summer and winter. The superintendent of the Sunday School is Randall Knox, Jr. There are classes provided for all ages. Parents especially are invited to come and bring their children.

There was a joint meeting of the teachers and the Commission on Education at the church last Monday evening. Officers for the coming year were elected as follows: chairman, Mrs. Arnold Gilstad; vice-chairman, Mr. M. S. Bradley; secretary, Miss Doris Black. Plans were made for Rally Day and for added classes. The Missions Commission met Sunday for organization. Mrs. Ellwood Gruwell was elected chairman; Mrs. Albert Thistlewood, vice-chairman and Mrs. S. M. Williams, secretary.

The O.U.R. Class was the guest of its teacher, Mr. M. S. Bradley, at the picnic in Wheeler's Park which he gives them annually. This year it occurred on Tuesday evening, Aug. 14.

The W.S.C.S is invited to a tea on Saturday, Aug. 18, at the home of Mrs. Granville A. Tynhall, 212 Stockley St., Rehoboth Beach. They will be guests of the officers of Dover district from 2 to 5 p.m.

Mr. and Mrs. L. H. Thomas and Mrs. Lena Cohen, Easton, were Friday evening guests of his parents, Mr. and Mrs. L. H. Thomas.

Mr. and Mrs. Paul Maloney and family attended the Lord reunion at the Concord Church Grove last Sunday.

Mrs. B. B. Allen and Mrs. L. H. Thomas visited Mr. and Mrs. J. R. Richards, Denton, last Thursday afternoon. Other visitors were: Mrs. Miles Reed and Mrs. Tommy Clobber, Tuckahoe Neck, and guest, Mrs. D. E. Wood, Los Angeles. Her husband, the late Rev. Wood was pastor of the church here, several years ago.

Mrs. Wood and daughter, Mrs. Mary Pratt, sailed this week, from New York to Scotland, where they will visit relatives.

Mr. and Mrs. Fred Lord and Sheila, Baltimore, attended their family reunion Sunday, and circled among relatives here about this week.

After Sunday School, morning worship Sunday at 11:00. The sermon, by the pastor, is to be on "I Can Afford It."

Alfred Raughley came home sooner than expected, and is progressing well.

Four of our children are attending Junior Camp at Pe-Co-Meth, near Centreville, Md., this week. They are Susan Gilstad, Nancy Harrington, Douglas Moore, and Randall Knox.

CONTROL BROWN ROT IN PEACH ORCHARDS

Rains, high relative humidity and warm temperatures are favorable for brown rot on peaches, says Dr. L. O. Weaver, University of Maryland, extension plant pathologist.

also appeared in cherry orchards and will spread to other stone fruits if not controlled. To prevent later fruit damage, Dr. Weaver advises growers and home gardeners to continue spraying with additional applications of wettable sulfur.

of gum. A small cranker is present under the dead blossom and spores develop in moist weather. The amount of fruit rot depends on weather conditions before harvest.

Two Delawareans To Serve On Tri-State Civil Defense Commission

Two Delawareans have been selected to serve on a tri-state commission to direct Civil Defense "survival plan" studies for the target area of southeastern Pennsylvania, southern New Jersey and Delaware, it was announced today.

Briefly, the plan would cover such diverse areas as UFBF MF such diverse aspects of survival needs as: transportation and relocation of refugee populations, the traffic capacity of escape routes, controls and communications needs along the routes, organization of reception areas, analysis of blast shelters available along the evacuation routes, provisions for radiation cover from fallout in reception areas, return and resettlement of evacuated populations, reestablishment of government and allied services and provisions for continuous public information to secure understanding and support.

"THE FOLKS THAT I HAVE KNOWED"

We have a small number of pamphlets of poems of the above title, written by the late J. Harvey Burgess, late owner of The Harrington Journal and self-styled "splitter of infinitives, mixer of metaphors, demon of the double negative, sorcerer of solecisms, perpetrator of the world's poorest poetry."

There have been several requests for this booklet, priced at 25c, but we were unable to comply with them. Fortunately, however, we uncovered a limited supply of this valuable booklet recently while looking the effects of the estate.

We also have a number of pamphlets, "Hosses, Hosses, Hosses" written by Mr. Burgess, and depicting Harrington's harness-racing life. The price is 25c.

When the above-named pamphlets have been sold there will be no reprints.

AAA tests prove Blue Sunoco gives more miles per dollar ... than 12 other leading premium gasolines

On \$3.00 worth of Blue Sunoco, test cars were driven till they ran dry. Retracing the exact route, they couldn't get back on \$3.00 worth of any of the other premium gasolines tested. Blue Sunoco averaged 23.0 miles farther! Tests were sanctioned, supervised and certified by the American Automobile Association.

Blue Sunoco averaged 7.67 more miles per dollar!

These tests were conducted by the American Automobile Association in 6 cities under normal city-country driving conditions using typical drivers in late model high-compression cars whose manufacturers recommended a premium gasoline.

Results of tests confirm, once again, the fact that Blue Sunoco is America's greatest gasoline value. Why not take advantage of it - get more miles for your gasoline dollar? Stop in at your neighborhood Sunoco dealer's today, and try a tankful of Blue Sunoco.

They are Dr. Park W. Huntington, lecturer, author, organizer and first director of Delaware's State Department of Welfare; and James C. Cannon, retired DuPont Company designer-engineer.

The two were named to the posts on the joint recommendation of three Delaware Civil Defense leaders, Col. D. Preston Lee, state director; Harry B. Crissman, New Castle County director; and Col. Perry M. Gwaltney, Wilmington director.

The other two members of the team have not yet been named. Purpose of the long range studies, financed by the federal Civil Defense, is to draw up a master plan for mass evacuation and emergency shelter of urban populations in the tri-state area.

Similar studies are underway in target areas throughout the United States. The object is to develop and actually field test a practical mass evacuation or shelter plan for national survival under a nuclear attack. An indication of the importance of the studies is the fact that Congress has appropriated \$10,000,000 to finance them.

The first step in the tri-state study was taken some time ago at a meeting of the governors from the three states and the mayors of Wilmington, Philadelphia and Camden. They make up the Tri-State Civil Defense Study and Planning Commission, which is conducting the study.

At that meeting, it was agreed to enter on the four-phase study for the region. Phase one, a preliminary survey of the tri-state area, is now being carried out by a consulting engineering firm, Day & Zimmerman, Philadelphia.

The four-man team, including Dr. Huntington and Mr. Cannon, will oversee all four phases, including Dr. Huntington and Mr. Cannon, will oversee all four phases, including the final one, an actual test to insure that the plan is practical.

The complete plan would provide a simple and flexible guide for the mass movement of urban populations out of danger and into distant shelter areas safely removed from the target area or into shelters within their
