

Manufacturing Company Buys Tract of Land Here

Trane Company Purchases About 43 Acres From Norris Adams; Makes No Definite Commitments

TRANE INDUSTRIAL SITE—There is a sparring of sentences in the press statement, but the situation appears very favorable for Harrington, as far as a factory location is concerned. Above is the land being purchased by the Trane Company, one of America's largest manufacturers of air conditioning equipment, heating equipment, ventilating, and heat transfer equipment.

Prospects are excellent for a large manufacturing plant to locate in Harrington. If it does, it will be the biggest news since the railroad reached the town in 1856, and the hard roads in 1922.

It appears the cat is in the bag, but a statement from the Pennsylvania Railroad is as cautious as that released by the medical profession of a new cure.

The Trane Company, manufacturing engineers of air conditioning, heating, ventilating, and special heat transfer equipment, is purchasing about 43 acres of land in this City as a possible plant location, according to information released today by the Industrial Development Department of the Pennsylvania Railroad Company, which assisted in the site selection.

School Enrollment Increases Over 5 Per Cent in State

The public school enrollment in Delaware for 1957 has reached the new record-breaking figure of 69,342, according to a report from Dr. John G. Parres, state director of research and publications. This represents an increase of 3,427, or slightly more than a 5 per cent growth since the fall of 1956, when the total public school enrollment in the state was 65,915.

The elementary school enrollment is 41,985, or 2,155 more than last year; and the secondary school enrollment is 27,357, or 1,272 more than last year. The greatest gain in enrollment was made by the special school districts. The total enrollment in these districts is 30,261, or 2,071 more than last year.

The Wilmington School District enrollment for 1957 is 13,073 as compared with 13,077 in 1956. This represents a loss of 4 students from 1956 to 1957.

"For the past five years public school enrollments have been increasing between 3,000 to 4,000 each year," according to Dr. Parres. "If the growth in enrollment continues at about the same rate," says Dr. Parres, "Delaware can expect an enrollment of about 82,000 by 1960 and about 100,000 by 1965."

During the 25-year period from 1927 to 1952 public school enrollments in Delaware increased by about 10,000. During the 5-year period from 1952 to 1957 the enrollment has increased by 18,982, representing a sharp rise in enrollments.

Enrollments are expected to continue to grow up to 1970 and beyond, with the greatest percentage of growth being expected in the next several years at the secondary school level, according to Dr. Parres.

Denton Man Is Seriously Hurt In Dover Mishap

Ralph Dill, 57, a Dover Builders, Inc., employee, is in Delaware Hospital where his condition is listed as "serious" by hospital spokesmen, following an accident while at work, Monday near Dover.

Dill, whose home is in Denton, was working on a project in the late afternoon in back of Rodney Village, where a wooded area is being cleared for expansion of the project. A tree, apparently cut down by other workmen, toppled over and fell on Dill's head.

The unconscious victim was rushed to Kent General Hospital, where he was treated, sutured, and immediately transferred to Delaware Hospital, Wilmington.

A Delaware Hospital spokesman said Tuesday morning that Dill's condition was listed as "serious," and added that he is suffering from severe concussion.

Whether or not Dill has a fractured skull is not yet known, since his condition was considered too serious to permit too much moving around, thus preventing the taking of X-rays, according to the hospital spokesman.

Some Uruguayan textile mills are closing due to high prices asked for raw wool.

Paraguay announced, in Asuncion, a free exchange market instead of controls.

Trane has its headquarters and main manufacturing facilities in LaCrosse, Wis., with plants in Scranton, Pa., and a wholly owned subsidiary in Toronto, Canada. The firm is currently constructing a plant in Clarksville, Tenn., for the manufacture of central-type residential air conditioning equipment. Last year, Trane hit \$74,500,000 in consolidated sales.

The land, being acquired by Trane, is in the city limits of Harrington. Excellent rail facilities are provided by the Pennsylvania Railroad. D. C. Minard, president of Trane Company, said, "While we do not have specific building plans at this time, it is hoped that a plant at Harrington will be needed to serve the eastern market as the demand for some of our newer lines increases."

Al Rollieri, engineer of industrial development for the Chesapeake region of the Pennsylvania Railroad, played an important part in the project. W. Cliff Miller, supervisor of maintenance and ways, acting as a railroad man and member of the Chamber of Commerce, also furnished invaluable aid.

The industrial site is on the land of Norris C. Adams. It is bounded on the west by East Street, extends nearly to U. S. 13 where there is an outlet, and proceeds north to about two blocks from Clark Street.

The land was optioned in April after a visit by a Trane representative. The railroad then took option on the Flamer property, at the East Street crossing of the branch railroad, for a switch, but dropped it. In July, it purchased right-of-way for another switch on the Benson property.

The option on the Adams land was due to run out Oct. 24, but it was picked up before that time. Adams said Saturday that he was taking the deed to a Dover attorney to complete the sale. The purchase price has not been made public.

Unconfirmed reports have stated a plant here would employ from 300 to 500 men, about half of which would be skilled labor.

The City Council, some months ago, moved to put a water main down East Street, but has withheld the project pending the building of the plant.

Trane Company plants are in cities having more than 25,000 population. The Harrington location was approved after it was seen that a plentiful labor supply was available in the City and in nearby communities. The company representative, in April, was also interested in housing, but was assured that that problem would be solved.

Kuwait's oil production recently set a new record of 1,400,000 barrels a day.

Switzerland has had a continuation of boom conditions in 1957, Zurich reports.

Britain's Queen Mother will visit Australia and New Zealand early next year.

After two good sugar seasons, Cuba is riding high in prosperity, Havana reports.

Retail prices in Finland are up some 25 per cent since 1955, Helsinki reports.

Frederica Church To Celebrate 173rd Anniversary

Trinity Methodist Church, Frederica celebrates its 173rd birthday since the organization of a Methodist Society was formed and 101st birthday in the present building.

October 15, 1954, "Hurricane Hazel" caused extensive damage to the church building and fixtures. The physical condition is almost back to normal, but there are still necessary fixtures needed to add to the beauty of the Sanctuary.

The members and friends are invited to attend Divine Worship next Sunday, Nov. 3. Two services will be held, 11 a. m. and 2:30 p. m.

A special program has been prepared for both services. Special music by the church choir and in addition guests musicians and vocalists will render selections. At 11 a. m. the Rev. J. C. Hanby will be the speaker. At 2:30 the Rev. A. Edward Daugherty, Bethel Methodist, Lewes, will be the speaker. At this service there will be the presentation of memorial gifts. The gifts will be presented by the pastor to the members of the Official Board of the church.

Kohland Is Busy

Richard Conyers, Jr., Dover Airbase was arrested Sunday on a charge of operating a vehicle at a speed greater than prudent, and fined \$10 and costs by Magistrate L. Gooden Callaway.

Other cases before the magistrate, all involving arrests by Patrolman Kohland, are as follows: Carl Benson, Mon., Oct. 21, driving without an operator's license, \$10 and costs.

Lonnie Wimbley, Tennille, Ga., operating unregistered vehicle, \$25 and costs.

Paul Barker, Wilmington, was tried Oct. 19 and fined \$10 and costs on a charge of operating a vehicle with an operator's license.

Robert Norwood, Harrington, was fined \$25 and costs on a charge of operating an unregistered vehicle. The arrest was made Sunday. Norwood had been fined on this charge earlier this year.

A piece of pumpkin, thrown by vandals, broke a window in the home of David Hopkins last week. A rear door of Reese Theatre was kicked in by vandals last week.

Man, 81, Routs Robber Gang

Five youths, three of them juveniles, were held by state police Wednesday on charges of assault with intent to commit robbery from a home near Greensboro after an 81-year-old tenant chased the group away by firing three revolver shots through the front door.

The gang sped away in an automobile. Five suspects were captured later on Route 16 just east of Greensboro.

The three juveniles were to be given a hearing in Sussex County Juvenile Court Thursday. John McDonald, 18, of Lincoln, was released under \$1,000 bail for appearance in Superior Court. Delbert Henry, 17, also of Lincoln, was sent to the Sussex County Correctional Institute in default of bail.

State police said George Willey and his wife were alone in their home in a remote section of the area, when the boys, armed with pieces of pipe, attempted to break into the house. Willey told police they had knocked the door off the hinges before he could get his revolver from another room.

About the time the door crashed to the floor, Willey told police he fired three times through the doorway. He failed to hit anyone, he said, because the group darted away and ran to a nearby automobile. As it sped away, he told police he noticed only one headlight was lit.

A neighbor, Mary Melvin, heard the shots and immediately notified state police. The youths had only gotten a short distance away when apprehended by a patrol car. They offered no resistance when arrested, police said.

Brownie and Girl Scout News

A neighborhood meeting of the Brownie and Girl Scouts and committee members was held Tuesday evening. Mrs. William Hearn told of the recent visit of the district chairlady, Mrs. Pickering of Seaford.

Many items of interest were discussed for the near future of which the Brownies and Girl Scouts may do or take part in. The girls need tables, chairs, a piano and record player to help furnish their meeting building.

Anyone wishing to donate or loan any items contact Mrs. Norman Hopkins, phone 3681, or Mrs. Norman Brown, phone 3603.

Milford Nurses Visit Greensboro

The graduating class of 1960 of the Milford Memorial Hospital School of Nursing and their instructors had their field trip to the Pet Milk Company Plant in Greensboro, last week. The milk company has served as host for this field trip annually for the preclinical students of that year. They are taken on a tour of the plant starting with the receiving station and ending at the packing line. Following the tour, Mr. Brown, salesman of the company, entertained the group with a steak dinner at the Wonder R Restaurant in Harrington.

The student body of the nursing school recently had its annual Halloween party in the Nursing Home. Conforming to an old tradition, this party was sponsored by the preclinical students. The younger students had planned for an evening of fun topped with refreshments suggestive of the season. They had laid their plans well as proven by the success of the occasion.

The preclinical group includes: Miss Dorothy Beachy, Salisbury; Miss Lizzie Beachy, Riversdale, Iowa; Miss Phyllis Cash, Millsboro; Miss Patricia Chike, Dover; Miss Carolyn Davis, Houston; Miss Yvonne Fifer, Dover; Miss Pat Rawlins, Seaford; Miss Ruth Tull, Milford; Miss Harriett Quillen, Rehoboth; and Miss Miriam Yoder, Salisbury.

General Heide To Visit Dover Tues., Nov. 5

Major General Herbert J. Vander Heide, Commanding General, XXI U. S. Army Corps, (Reserve) will pay his first official visit to Delaware's capital city, Tuesday, Nov. 5, to confer with Governor Caleb J. Boggs.

General Vander Heide is in command of Army Reserve and Army Reserve Officer Training Corps installations and activities for the States of Delaware, Maryland, Pennsylvania and Virginia, and the District of Columbia.

Colonel Carl F. Chirico, Sector Commander, Pennsylvania-Delaware Sector, will accompany the general on his visit. The colonel is responsible to General Vander Heide for activities in Delaware, the Delmarva Peninsula and Eastern Pennsylvania.

False Alarm
Vandals turned in a false alarm at 11:12 p. m., Wednesday night.

Harrington Tops Lord Baltimore

Harrington High defeated Lord Baltimore, 20-14, in their football game here, Wednesday. Trailing for almost three-quarters of the contest, the local gridders went in on a 12-yard dash through tackle by J. Porter in the final period.

Bob Wilson scored the second Harrington TD on a 23-yard end run, and Jimmy Schiff paced 52 yards in the second period for the first Harrington score.

This is Harrington's first season in varsity competition.

SCORE BY INNINGS
Lord Baltimore — 7 7 0 0—14
Harrington — 0 7 6 7—20

Lord Baltimore scoring: Touchdowns—Maguire (16, run); Smith (7, run). Conversions—Smith, 2.
Harrington scoring: Touchdowns—Wilson (23, run); Porter (12, run); Schiff (52, run). Conversions—Wilson, Coady.

Dr. Balderson to Lecture At Del. State College

Dr. Canby Balderson, vice-chairman of the Board of Governors of the Federal Reserve System will be the guest speaker for the Faculty Round Table Study Group at Delaware State College on Fri., Nov. 1, 1957. Dr. Balderson will address the members of the teaching faculty in the afternoon on the subject of the role of the Federal Reserve System in an expanding economy.

A public meeting will be held at 8 p. m. in the lounge of Harriett Tubman Hall where Dr. Balderson will discuss the Federal Reserve Banking System.

Dr. Balderson is a former Dean of the Wharton School of Commerce and Finance at the University of Pennsylvania. He is the author of many books in the area of finance and economics, and holds membership in many national and international organizations in this area.

Of Local Interest

Mr. and Mrs. Ernest Knotts of Boothwyn, Pa. spent Sunday with Mr. and Mrs. Geo. C. Price.

Mrs. O. C. Passmore had as birthday guests Thursday evening her children, Mrs. Hilda Lopes of Harrington, and Mrs. Raymond Wilson of Wilmington, and her grandchildren, Mrs. George Messick and family of Milford, Mrs. Ruth Conner and Mrs. Dorothy Tyre, both of New Castle.

Mrs. J. C. Messner spent last week with relatives in Lebanon, Pa.

Mrs. W. C. Burgess and Kitty Lou spent Thursday in Philadelphia.

JACKIE PORTER — A fleet back who has done well with Harrington High's first football team. He has proven rather elusive and hard to catch.

RONNIE CORRELL—Another back, who sometimes plays on the line, for Harrington High. He has played an important part in the success of the gridders in their first year.

MIKE DOBRASKI—He went 40 yards in five tries against Dover, and is an important cog in the first year of Harrington High's football history. The team has won two games, which is two more than people thought they would win.

Brandywine Raceway Pays First Dividend; Eyes Dates

Brandywine Raceway, having enjoyed a record-breaking 1957 harness racing season, Wednesday announced its first dividend, 70 cents a share, will be paid to 1,210 stockholders. The dividend will be payable Nov. 27.

At the same time Brandywine announced it plans to race in 1958 from July 23 to Sept. 15, subject to the approval of the state harness racing commission. This indicates dates at Kent & Sussex Raceway here would begin after Sept. 15, same as this year.

In addition, the raceway has decided to redeem the short term notes issued in 1954 at face value of \$100, plus accrued interest to Dec. 1. Also the Brandywine Raceway Association will ask tenders on the outstanding debentures — some \$1,200,000 worth—which are due to mature in June of 1978.

All this financial activity, along with several projected plant improvements, is a result of the raceway's record 1957 meeting, the first 40-night meet in the track's five years of operation.

Brandywine showed a gross profit of \$817,817.36 the past season, reflecting record total parimutuel wagering, record per capita betting and record attendance. After taxes, \$398,117.36 remained in the Brandywine coffers. The net earning per share of stock came to \$1.68, excellent when contrasted to the 1956 net of 68 cents. Previous earnings went into the improvements.

Attendance was 353,689, a gain of 40 per cent over the previous year; pari-mutuel wagering hit \$17,774,349, a hike of 55.6 per cent, and the net income, before taxes, was \$817,817, an increase of almost 160 per cent. After the tax bite, the net still represented a gain of 150 per cent.

Tire Thefts Grow Near Harrington

Eight or nine recapped tires, valued at about \$100 were stolen from the Esso Service Station of Roland Cashwell on Route 13, a mile north of Harrington, Monday night or early Tuesday.

Thieves broke a window in the side of the service station office to gain entrance.

On Sunday night or early Monday two white-walled tires were stolen from an automobile on the outdoor parking lot of the Simpson Ford Motor Company, at the south edge of Harrington. The car was jacked up to remove the wheels and tires.

The same firm recently lost about \$80 in cash, including \$50 in silver dollars; to thieves. Four youths were arrested in connection with the cash robbery.

Deadline For NROTC Applicants Is November 16

High school seniors and graduates have only until November 16 to apply for the Navy's Reserve Officer Training Corps, VAdm. James L. Holloway, Jr., Chief of Naval Personnel, said today. Applicants will take the nationwide competitive examinations on December 14 as the first step toward an appointment as midshipman.

Designed to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a commission while studying at the civilian college of his choice which has an NROTC unit. All tuition, fees and books are furnished by the Navy, and the student receives an annual retainer of \$600 for four years. During the summers training cruises to many parts of the student goes on fascinating the world. After completing the usual four year college course, he is commissioned with the Navy's far-flung fleets.

High school seniors and graduates between the ages of 17 and 21 may apply for the NROTC aptitude test. Those who make a qualifying score will be given a rigid physical exam early in 1958. From the pool of qualified young men remaining in competition, approximately 2,000 will be selected to begin their naval careers next September.

The NROTC college training program is also open to enlisted men on active duty with the Navy and Marines. Separate quotas are established for applicants from within these services.

Application forms are available at all high schools, colleges, Navy Recruiting Stations or from the Chief of Naval Personnel, Washington 25, D. C.

Needlecraft News by Nancy Baxter

Though "special" weeks crowd the calendar from January 1st to December 31st, I am sure all of us could think of still another worthy of recognition. My candidate would be Sew a Stole Week—a full seven days of sewing inspiration for every woman. A stole is an item we can all use whether we are amateurs or party-goers. It is an item we can all make whether we are seamstresses or experienced seamstresses. The beginner might choose a fabric that needs only to be hemmed or bound with ribbon. The woman who knows how to sew a seam might decide on a lined stole with trimmings. Whatever way you look at it, a stole is the easiest to make of all fashionable accessories: To encourage the "seam sewers" just one step further, today's needlework feature is a jersey stole blouse that can be made in one evening and worn for seasons.

elasticity; therefore, loosen the tension of your sewing machine slightly and feed the fabric through loosely. Nylon sewing thread is recommended for stitching wool jersey.

SEWING ON JERSEY

Jersey, made of wool, cotton, rayon or nylon, is a knitted rather than a woven fabric. Because of this, it has a vertical ribbing throughout which must be observed when cutting out a pattern. Always place pattern pieces in the same direction and be careful not to stretch the fabric when pinning. Being a knitted fabric, jersey has great elasticity; therefore, loosen the tension of your sewing machine slightly and feed the fabric through loosely. Nylon sewing thread is recommended for stitching wool jersey.

STOLE MATS

A glamorous topping for evening skirts is the strapless bodice with matching stole. This perfect pair is seen here in printed and plain wool jersey. Only two printed pieces were used for the blouse while the stole was made of the print and faced with a plain jersey. Always neatly in place, the stole is stitched to the center back of the blouse. The loose, flowing ends come up around the shoulders

Felton

The past Sunday was World Temperance Sunday. The subject of Rev. Larry S. Renner's sermon was "The Price of Alcohol." Special music by the Junior Choir was "Why Do I Love Jesus?" Two baskets of beautiful autumn flowers on the chancel were presented by Mr. and Mrs. Lee Harrington in memory of their mothers, Mrs. Anna Harrington and Mrs. Joanna Satterfield.

Sunday evening a worship service for program meeting in observance of Week of Prayer and Self-Denial was in charge of Mrs. Mae Davis, spiritual life secretary of the W.S.C.S. and other members of the society.

Keep in mind the turkey supper Wed., Nov. 6, in the Fire Hall, sponsored by the W.S.C.S. A large variety of aprons will be for sale at this supper.

The Cancer Clinic will be at Felton just one day this fall—Friday, Nov. 8, at the Fire Hall from 9 a. m. to 2:30 p. m. For appointment call Mrs. Russell Torbert, Felton 4-4587.

Recent guests of Mr. and Mrs. Robert Donaway and son, Bobby, were Mr. Donaway's aunts, Mrs. Dorothy Clark and Mrs. Ollie Lewis, of Millsboro.

Charles Franklin Kemp, son of Mr. and Mrs. Carl Kemp, who has been in the army the past two years, has received his discharge and returned to his home here last week.

Mrs. Lee Harrington was a hostess at Open House at the Deaconess Home in Wilmington last Wednesday. Also attending were Rev. and Mrs. Larry S. Renner, Mrs. Hattie Eaton and Mrs. Mae Davis.

Recent guests of Mrs. Mildred Holliday were Mr. and Mrs. Charles Thorn of Rock Hall, Md. Mrs. Harry Kemp and daughter, Marsha, visited Mr. and Mrs. James LaVere at their new home last Wednesday afternoon.

Mrs. Reed of Magnolia visited her daughter, Mrs. Houston Short, last Thursday.

Mrs. Lester Killen is a patient in the Milford Memorial Hospital.

Ernest Killen Sr. is also in the Milford Memorial Hospital.

Mrs. James Blades, Mrs. Lynn Torbert and Mrs. Walter Moore spent last Wednesday in Wilmington.

Last week's guests of Mrs. Anna Mae Gruwell and Mrs. Sadie Berry were Mr. and Mrs. Alvin Melvin and son, Kenneth, of Harrington; Mrs. Bess Cabbage of Viola, Mrs. James Pritchett and Mrs. Ruth Conley of Barclay, Md., and Mrs. Samuel Walters of Canterbury.

Last Saturday evening visitors of Mr. and Mrs. Robert Donaway and son, Bobby, were Mr. and Mrs. Lou Roushey and children, Curt and Linda, of Middletown.

Mrs. Archie Dill, Mrs. Elwood Jester and Mrs. Fletcher Price were in Wilmington last Wednesday.

Pvt. Edwin Reed, son of Mr.

teria has an unusual exhibit worked by the junior high school students. The structures and buildings are made entirely of toothpicks. Colorful ceramics and sculptured heads, also on the table, were made by the sixth and seventh grade pupils.

and Mrs. Harry Reed, is taking his basic training in the Army at Ft. Benning, Ga.

Arlene Delong spent a few days last week with her sister, Mrs. James Hastings, and Mr. Hastings in Georgetown. Arlene returned home Sunday with her parents, Mr. and Mrs. Ira Delong, who were Sunday guests of Mr. and Mrs. Hastings. Also visiting Mr. and Mrs. Hastings on Sunday were Miss Janice Minter of Harrington and Dickie Delong.

Emmett Jester of Lancaster Court Drive, near Wilmington, was a Saturday evening dinner guest of his brother and wife, Mr. and Mrs. J. A. Jester.

Mrs. Joseph Alcorn and son, Bobby, of Wilmington spent Thursday and Friday with Mrs. Alcorn's parents, Mr. and Mrs. Howard Blades.

Miss Alberta Cornelius, a former teacher in the Felton High School for a number of years, is a patient in the Delaware Hospital, Wilmington, following a stroke last week.

Miss Louise Hopkins, who is employed by the Diamond State Telephone Company in Georgetown, is spending a two week's vacation with her mother, Mrs. Charles Brown, and family.

Georgia Lomicky entertained a large group of her classmates and friends at the Manship Church House on Saturday afternoon in honor of her tenth birthday.

Miss Mary Ann Smith of Smyrna spent the weekend with her brother and wife, Mr. and Mrs. Buddy Smith.

Miss Elma Eaton spent the weekend in Milton with her brother-in-law and sister, Mr. and Mrs. Roy Lynch.

Mrs. Mamie Adams and Fred Rentz were Sunday dinner guests of Mr. and Mrs. Richard Adams and children, Cathy and Keith. Mrs. Albert Warren and daughter, Patty, were Friday vis-

itors in Newark of Mrs. Warren's parents, Mr. and Mrs. M. F. Friedman.

Mrs. Mary Layfield was a Sunday dinner guest of Mr. and Mrs. O. B. McGinness and family.

Miss Nancy Torbert, who has completed her practice teaching at Silver Side School, near Wilmington, returned home with her parents, Mr. and Mrs. Russell Torbert, who were in Wilmington last Wednesday. Miss Torbert who is on the sick list, expects to resume her studies at the University of Delaware this week.

Linford Lockwood, son of Mr. and Mrs. Nelson Lockwood of Viola, a fireman aboard the Huntington, returned home last week after taking part in exercises conducted by the North Atlantic Treaty Countries in September. Fireman Lockwood, after a short visit with his parents returned to Norfolk, Va.

Mr. and Mrs. A. C. Dill and Mrs. Mary Layfield attended Rally Day services at Manship Church Sunday afternoon.

Sgt. and Mrs. Andrew Billie of Dover were Sunday evening visitors of Mr. and Mrs. O. B. McGinness.

Sunday afternoon visitors of Mrs. Hattie Eaton and Mrs. Mae Davis were Mrs. Edward Carney and Mrs. Janice Moore of Wilmington.

Mr. and Mrs. Dorsey Torbert and Mrs. Torbert's father, Fred

Thomas, of Harrington spent the weekend in Hagerstown, Md., with the former's daughter, Mrs. Larry Becker, Mr. Becker and daughter, Janet. On Sunday there was a birthday dinner in honor of Mrs. Torbert and Mrs. Becker. Mr. and Mrs. Harry Carlisle and daughters, Marie and Patsy, visited Gene Carlisle at the University of Delaware Sunday afternoon. Gene has been on the sick list.

Mr. and Mrs. Paul Hughes were Sunday afternoon visitors of Mr. Hughes' brother and wife, Mr. and Mrs. Edward Hughes, of Kenton.

Mr. and Mrs. Alton Hurd and daughter, Aileen, of Takoma Park, Md., were the weekend guests of Mr. Hurd's mother, Mrs. Lola Hurd.

Mrs. Virginia C. Morrow accompanied Mr. and Mrs. Edward Knight of Wyoming to Townsend on Sunday to attend a birthday dinner at the home of Mr. and Mrs. Elmer Case for Mr. Case and Mr. Knight.

Mrs. Maude Reynolds spent the weekend in Wilmington with Miss Margaret Reynolds.

Weekend guests of Mrs. Anne Sharp was Mrs. Elizabeth Wilson of Harrington.

Mrs. Freda Minner of Harrington spent Sunday with her mother, Mrs. Amelia Fibelkorn.

Mr. and Mrs. Reed Hughes spent the weekend at Rehoboth

FELTON EDUCATOR

AWARDED CITATION

Mrs. Maude Angstadt Reynolds of Felton was one of the 16 Delaware educators to receive a citation for distinguished service at the Delaware State Education Association in Wilmington last

Beach.

Mrs. Johnson Steward was a recent visitor of her sister, Mrs. Nelson Evans, in Smyrna.

Art Henry, a junior at the University of Delaware, was home for the weekend.

Friday.

Mrs. Reynolds, a Delaware teacher for 41 years, was a founder and first president of the Felton High School Alumni Association and was one of the first organizers of the DSEA. She was a member of the committee that prepared the first draft of first teacher's pension bill in Delaware and served on the committee that wrote the state health syllabus in 1948.

Under a five-year plan, Afghanistan will build eight new hydroelectric projects.

BOOK FAIR

The books for the Book Fair have arrived at school. This is the third annual Book Fair at the Harrington School. It is held annually in conjunction with American Education Week. Orders will be taken where there are several copies of one title, the books will be sold out right.

The fair will be open on November 12, 13, 14 from 2-4 in the afternoon and 7-9 in the evening. Mr. Messner and Mrs. Cahall are co-chairmen. Mr. Donovan is working on a program to be presented with it. Mrs. Malek and the art department have made posters to be used in the auditorium and in stores in neighboring towns. Mrs. West's section of the second grade will decorate the stage. Additional information will be in next week's paper.

LIBRARY CLUB NEWS

The meeting was called to order by Vice-president Sharon Breeding.

The minutes were read and approved. The treasurer's report was given and accepted.

Kenny Garey and David Winkler were appointed to help with the pen and pencil machines.

Mrs. Cahall took pictures for the scrapbook.

The meeting was adjourned at 10:27 and we did our housekeeping duties.

Kay McDaniel, Reporter

GIRLS' SPORTS—Paney HOCKEY

Tuesday afternoon, Oct. 22nd, Harrington Hockey team played its first home game. Although Georgetown brought both their Varsity and JV teams, only the Varsity game was played because of several illnesses on Harrington's teams.

The game went along very smoothly as it was a beautiful day. There was no rain to cause dangerous falls or other mishaps on slippery grass. But the teams would have had much more school spirit if there had been more classmates and other spectators to cheer them on. A little school spirit goes a long way.

Mary Ann Messick made the first goal of the game for Harrington, and minutes after Georgetown scored. It was a fast game and well umpired. Both teams worked hard in an attempt to break the tie. However, it ended 1-1, Harrington's third tie game.

Milk and doughnuts were served to both teams in the fieldhouse.

There was a good, clean game of field hockey played. Come out and support your teams so we can say that every game is a good game. You know, you don't have to play sports to have good sportsmanship.

SENIOR PERSONALITY

Joseph Kliment, son of Mr. and Mrs. Steve Kliment, was born December 23, 1939, at Harrington. He takes the scientific course.

His favorite subject is physics. His favorite sports are football and basketball. Clem enjoys dancing and reading. His hobby is operating amateur radio station W3HZM. He belongs to the Varsity Club and is a member of the Student Council. His favorite expression "Stow your

gaff" is, also, a favorite of Mr. Fox. He has always attended Harrington School.

Upon graduating from high school, he plans to study electrical engineering at the University of Delaware.

Helen Dobraski

Helen Dobraski, better known as "Squeaky," is the daughter of Michael Dobraski, Sr., of Felton. She was born in Henderson, Md., on October 26, 1940.

Helen is taking the commercial course, and her favorite subject is home economics. Her favorite sports are basketball and softball.

Helen is secretary of the Drama Club, and she is now in the Glee Club. Her favorite pastime is dancing. Whenever you hear "Oh! No!", you must know Helen is somewhere near. She has attended Harrington School for 12 years and plans to become a secretary.

THIRD GRADE Mrs. Williamson

We have had many out sick in our room, but nearly all are getting back again.

We have just enjoyed two days vacation, and now we are looking forward to our Halloween party on Oct. 31.

FIFTH GRADE—Mrs. Brobst

Our homeroom mother is Mrs. Townsend Masten. We are planning to have a Halloween party on Thursday. We have decorated our room with ghosts and witches. We are giving a short Halloween play. The characters in this play are: Rusty Jack, Kenny Melvin, Richard Black and Fred Parker who are ghosts. The children are: Garry Harris, Betty Jane Masten, Doug Mills, Darlene Clark and Susan Brown. The following have charge of games for our party: Jackie Abbott, Nancy Callaway and Gale Umphlett.

SEVENTH GRADE—Mr. Cotter

We are planning our Halloween party. It will be Thursday afternoon. The chairman of the refreshment committee is Lyman Rash. The chairman of the entertainment committee is David Harcum.

EIGHTH GRADE—Miss Morris

Richard Layton was absent on Monday. Bonita Porter, who was ill last week with the flu, came back to school today.

We are learning how to multiply four or five fractions at one time in mathematics. They are called multiple multiplications.

Connie Biddle, Reporter

JUNIOR CLASS

The dance on Friday evening will be sponsored by the Junior class. Come out and enjoy the hospitality of this class.

CHESS COMPETITION

The chess competition is very close with Donald Clark leading; 2. Billy Sollars, 3. Billy McColly, 4. George Collins, 5. Dickie Collins, 6. Mary Ann Fair, 7. Roger Brown.

We are all trying for first place. It is very exciting.

ART

The Art Club is looking forward to the annual trip to Washington, D. C. The seventh and eighth grades invite guests in order to complete the number of pupils the bus accommodates.

H. H. S., 36; Dover J. V.'s, 6

Harrington High football team won over Dover High's J. V. eleven, 36 to 6 on the local field last Saturday before a slim crowd of 125.

The locals have been waiting all season for a bona-fide jayvee opponent. Dover obliged them in this respect and H. H. S. proved poor hosts by coasting to a lopsided victory.

Bob Wilson lit the fuse on the first play from scrimmage when he broke through the Dover line and went 37 yards for a touchdown. Shortly after, in one of the games plays, Dave Coady put Dover in a bad hole by recovering the first of two fumbles he nabbed during the game. Jack Porter went over from the 6 and Harrington had a quick 12 to 0 lead.

Thus inspired, the home team turned the game into a romp. Almost completely eschewing the forward pass, the locals chalked up 330 yards via the overland route, led by Jim Schiff's pair of touchdowns in the same number of attempts. Each of these scores were made on end sweeps behind good blocking and gave Schiff a total of 85 yards gained for rushing honors. Six other backs shone for Harrington. Wilson had 9 attempts for 58 yards and that all-important T. D. Hard-running Mike Dobraski went 40 yards in 5 tries. Mike swept end for 14 yards and a score. Ron Correll, formerly a lineman, made 3 carries good for 17 yards and a tally. Correll, looking better all the time, is proving that Coach Jeffers made no mistake in giving him a chance to lug the leather.

Don Garey, junior half-back, made a nifty run of 18 yards during which he had the presence of mind to hurdle a fallen group of players at a point where he was apparently stopped. Dave Welch, 125-pound senior back, surprised with some excellent broken-field running, netting 45 yards in 2 efforts. On one of these he was in the clear only to be caught from behind.

Porter, a study in determination made a gritty run that must have won him the admiration of friend and foe alike. The 136-pound back was in the grasp of four Dover tacklers after a short gain. Instead of going down gracefully as some backs might, he writhed, twisted and squirmed, and to the delight of the scanty crowd, suddenly broke into the open. After a good gain he was finally tackled from behind near the Dover goal line from which point Dobraski scored his T. D. Jack had a rushing average of 14.5 with 58 yards in 4 carries.

Wilson stood out on defense again. He shared the lead in tackles made with K. P. Outten, each having 6 to his credit. Bob also trapped an enemy back behind the line of scrimmage for a sizable loss. Ron Collison and Jack Jones ranked next with 5 tackles apiece, followed by Dwight Hackett, who had 4. Hackett recently moved from end to tackle, and is looking much better in his new job. John Taylor, one of the teams most potent blockers, also excels as a tackler. He brought down Peters who had scored earlier for Dover, just as the latter was about to break loose for a long gain or possibly another visitor's

Ag. School Junior Given Scholarship

G. Kenneth Hastings, Laurel, has received one of two \$200 college scholarships from the Peninsula Horticultural Society, Robert F. Stevens, society secretary and University of Delaware extension horticulturist, announced today.

Daniel Tompkins, Waldorf, Md., was awarded the other scholarship. Tompkins is a college of agriculture junior specializing in vegetable crops at the University of Maryland.

Hastings is a horticulture major at the University of Delaware school of agriculture.

The scholarships are awarded each year to a junior or senior at each of the universities for exceptional scholastic work, interest and achievement in horticulture or related fields, and other outstanding academic activities.

Hastings, whose father operates a vegetable and field crops farm near Laurel, is vice-president of the junior class at the university and vice-president of the agricultural club. He is social chairman of Alpha Zeta, national honorary agricultural fraternity and managing editor of the Needle and Haystack, student agricultural and home economics publication. Hastings also is a member of the student senate, and a member of Alpha Tau Omega social fraternity.

Tompkins was northeast United States winner in the production and marketing project of the National Junior Vegetable Growers' Association. At the university he is a member of the vegetable judging team and Phi Eta Sigma, honorary scholastic fraternity. He carries on part-time farming.

Both students have high scholastic averages.

Greenwood

The annual food drive by the Woman's Auxiliary of Nanticoke Memorial Hospital of Seaford, will start Saturday morning, Nov. 2, at 9:30 a. m. This year food will be collected in Greenwood by our Boy Scout Troop. If you wish to give, please have contributions ready when the Scouts call. Any food will be gratefully accepted but the following articles are especially desired: canned milk, frozen or canned fruit, apples, flour, rice, sugar, fruit juices, frozen or canned vegetables, canned soups, potatoes, coffee, jello, puddings, tea.

The Wesley Music Festival will be held in the Seaford High School Auditorium on Nov. 3 at 8 p. m.

Congratulations to Mr. and Mrs. Floyd Burris on the birth of their first grandchild, a son born to the Rev. and Mrs. Leon Ellis of Baltimore. Mrs. Burris will leave this week for a visit with the family and especially little Leon Ellis, Jr.

Dickie Davis returned home on Sunday from a motor trip to Memphis, Tenn., where he accompanied Mrs. William A. Miller and her son from Seaford. They made the trip in order to take grandmother back to her home.

Leroy Calhoun is home on leave Scott Air Force Base, Illinois. His grandmother, Mrs. Howard Calhoun, has been very ill.

Mr. and Mrs. Charles Jones were Sunday guests of Mr. and Mrs. Allison Davis. Miss Ruby Fixel was a diner guest at the Davis home.

On Sunday Mrs. William C. Davis visited her son, Nelson, of Milford who is a patient in Riverside Hospital, Wilmington, where he has undergone major

Delaware Food Market Report

by Anne Holberton

The fruit counters in most stores have a gay autumn look, with displays of pumpkins, grapefruit and apples, of every shade of red and gold. Pumpkins can be found in almost any size, ranging from 3 lbs. to 25 lbs., some even larger. Prices vary according to size. Apples are also being emphasized since supplies are heavy in this area. Other fruits to look for are grapes, pears and oranges. Honeydew melons continue relative-

ly cheap.

The autumn change is seen at the vegetable stall also, as seasonal specialties replace summer favorites. Winter vegetables such as cauliflower, a good buy at 19 cents a head, sweet potatoes, both the wet and dry varieties, selling as low as 6 cents a lb.; winter squash and some turnips, are all examples of good buys this week.

Vegetables for the salad bowl are higher however. Lettuce is up 2 to 4 cents a head, with quality not so good for the most part. Tomatoes are continuing to climb in price. Green peppers are up to 8 and 10 cents each.

Celery is up 1 and 2 cents a bunch, but the bright red radish remains the same in price—two bunches for 15 cents.

The meat picture remains about as it was last week. Very little change in price is seen. Weekend specials will include oysters selling in the range of 75 to 80 cents a pint for standard oysters and 85 to 90 cents a pint for select, beef roast and steaks, lamb roast, pork loin roast, sausage and bacon. Fryers and broilers have increased 1 to 2 cents a lb. but they still remain an excellent buy.

(Due to constantly changing market conditions; the above in-

formation should not be used after Nov. 2.)

Wood-using industries of the U. S. employ 1,517,000 full-time workers.

Sabena (Belgian Air Lines) will buy a fifth Boeing 707 jet plane, for use in 1960.

Greece is developing beach resorts in the Glyfada-Vouliagmeni area near Athens.

France now appears ready to boost minimum wage rates, Paris reports.

Scandinavian Airlines System will buy six French jet-powered Caravelles planes.

Bread prices recently have risen 16 per cent in Calcutta, India.

GET ALL THE FEEDING VALUE FROM YOUR HOME-GROWN GRAINS
Let us Grind and Mix them with Southern States Supplements

Your grains have much greater feeding value when ground and mixed with Southern States supplements—premium quality feeds and ingredients for poultry, stock and dairy feeding. These supplements supply all nutrients needed for fast, healthy, efficient growth. Your Southern States Cooperative Grinding and Mixing Service is equipped with modern high-speed equipment designed to grind your home-grown grains to your exact specifications efficiently and inexpensively.

Don't try to do the grinding yourself; it will cost you extra time, money and trouble. Stop by today and let us grind all your grains and balance them with Southern States supplements.

WHY NOT PAY-TV?

Robert W. Sarnoff, resident of the National Broadcasting Company, said last week that pay-television can succeed only by "devouring the substance of free television."

The Federal Communications Commission announced Oct. 17, that a proposed public trial of subscription TV will be limited to cities having top quality TV service from at least four stations.

"Hallelujah," we shout. We have never owned a TV set, but we will buy one when we can get subscription TV and pick out our own program.

The FCC said it will accept applications by stations to take part in demonstrations, but it affirmed its previous decision not to issue permits for trials before next March 1.

Chairman Emanuel Celler (D-NY) of the House Judiciary Committee, has said the FCC is without authority to authorize subscription TV.

The public itself, apparently, would have no say in the matter of what it wants to hear and not to hear, if the Celler bill were passed.

Commercial TV is responsible for the advent of subscription TV. The frequent, dull commercials; the inane, silly spiels to buy this razor blade and drink that beer, are an insult to the intelligence of the listeners.

That the public is fed up with the saccharine and maudlin selling arguments, which characterize many TV commercials, was realized several years ago when devices were put on the market which would enable the viewer, or listener, to cut off sound, during the spiels, by pressing a button or switch from the victim's chair.

Subscription TV would probably have many programs, such as long plays, operas, operettas, and movies, which would not be practical on commercial TV.

We say: "Let the public decide if its wants subscription TV. If it doesn't pay, it will not last."

A GOOD TEACHER DIES

It was a shock to learn of the death last week of Tina Roe Carpenter in Washington, D. C., during an operation. She owned considerable renting property in Harrington and was a frequent visitor to The Journal office in renting same.

We first saw her when she taught us in the eighth grade in Harrington schools, about 1921. She was a good teacher. Occasionally, she would talk about her son, Kinsey, or about the painting and baking of china, in which she was adept.

She ruled the roost. She had a large pointer which she used for other things besides pointing. She kept order more effectively than does modern educational psychology and neither offending students or parents complained.

Veterans News

QUESTIONS AND ANSWERS

Q—My World War II GI term insurance policy lapsed two months ago. I'd like to reinstate and, at the same time, convert to a permanent plan. What premiums will I have to pay?

A—You will have to pay one monthly premium at the term rate plus the first premium at the rate required by your new permanent policy. Also, you must sign a statement that you are in as good health as you were when the term policy lapsed.

Q—If a school drops a veteran enrolled under the Korean GI Bill because of too many absences, would he be allowed to make his one-and-only change of course and study something else?

Q—I understand that World War II veterans must apply for GI loans before July 25, 1958. Does this mean I actually must have obtained my GI loan money before this date?

A—Not necessarily. Instead, the lender must have agreed to make you the loan, and must have requested VA's approval, before this deadline date.

Q—My daughter is eligible for schooling under the War Orphans Education program. Would she be permitted to attend schools in France?

A—No. War Orphans schooling in educational institutions outside the United States is prohibited by law.

TV will link London and Moscow by 1960.

A firm in Dhonburi, Thailand, has badminton rackets for export.

Social Security Notes

As a reminder to a widow that her social security benefits on her deceased husband's account must be stopped if she remarries, her social security check is made out to "Mary Smith, as unmarried widow."

The fact that a woman's entitlement to social security widow's benefits ends with the month before the month in which she remarries was pointed out by Myron Milbouer, manager of the Delaware social security office.

"A widow's remarriage, however, does not affect her right to receive benefits payable on behalf of her children," Mr. Milbouer said. "If the children in her care, she can continue to receive benefits on their behalf until they reach age 18 or until some other event occurs to end their entitlement."

An Australian firm is seeking an export market for chromium plated darts.

Agent Answers Questions on Fertilizing Trees

When, how often, or how much should I fertilize my shade and ornamental trees?

These are questions often heard from homeowners by George Vapaa, county agricultural agent. Answers depend on the tree and growing conditions, but there are a few general rules that can serve as a guide.

Trees can be fertilized any time after leaves fall until spring growth starts.

Fertilizer can be used to push the growth of a young tree if quick development and shade are desired. In transplanting a young tree, fertilizer should be used sparingly and never where it will come in direct contact with roots.

Once the tree has established itself, fertilizer will help it grow vigorously toward mature size, the agent points out.

If a tree is large enough and appears to be growing well, there is no need for fertilizer.

When a tree has been injured or attacked by insects or disease, or shows symptoms of a general loss of vigor, fertilizer can be used to help the tree recover. Loss of vigor shows up as sparse foliage, light green or yellowed leaves, or die-back twig tips.

Two pounds of a complete chemical fertilizer for each inch of trunk thickness is a good general rule, Vapaa suggests.

Peru's Air Force has bought four Curtiss-Wright C-46-F planes, Lima reports. New Zealand has boosted its travel allowance for travel in the United States.

Among East African countries, Tanganyika has lagged in developing tourism.

Spain will produce 900,000 tons of citrus fruits in 1957-58, well above 1956-57.

Iran has been granted a \$10,000,000 Export-Import Bank credit to buy locomotives.

The town of Moshi, at the foot of Africa's Mt. Kilimanjaro, now has a good hotel.

Current research on high-fat broiler diets that vary in energy content will be the topic at an open house for state broiler growers November 7 at the University of Delaware Substation on the Georgetown-Laurel Road.

Birds displayed will be eight and one-half weeks old and fed four diets varying in protein and energy content while the calorie-protein ratio remains constant.

One feature of the experiment is the first time a state agricultural experiment station has reported a comparison of high-fat pellets and high-fat mash fed to broilers up to market age.

Birds in various pens are being fed mash and compared to birds in similar pens fed the same feed pelleted. The experiment is being conducted to learn if high-fat pellets produce more outstanding weight gains than mash.

Swedish shipyards, now crowded, account for some six per cent of world production.

Ships and cotton fabrics continue to lead Japan's exports.

Greenbranch Tax Ditch Landowners to Hold A Special Meeting

A special meeting of the Greenbranch Tax Ditch landowners will be held on Tue., Nov. 5, at the Vernon store, starting at 7:30 p. m., according to W. Anstine Stafford, chairman of the Board of Managers.

The objects of the meeting are to report on construction progress and costs to date, consider and vote on two changes which will add to the cost of the tax ditch, and to authorize the managers to borrow additional funds to complete construction operations.

Ordinarily, the landowners have only one meeting a year, but because of the above business, the managers felt that a special meeting should be held. The ditch is now about 60% constructed.

About 4,000 acres will be drained by this ditch when it is completed, and it will improve drainage for some 60 farms in Tax ditch companies are formed in order to provide drainage for whole communities and to provide outlets for individual farms.

Since her departure from San Diego, Calif., in July, the Princeton has been conducting training exercises and has visited Pearl Harbor, Hong Kong, Sasebo and Yokosuka, Japan.

Gas Pipeline Awaits Only Federal Approval

A plan to construct a 124-mile natural gas pipeline from near Oxford, Pa., to Salisbury, Md., is now awaiting only final federal approval.

Officials of the project say that natural gas will be available to many thousands of families in lower Delaware and the Eastern Shore of Maryland within two years of receipt of approval.

Handling the construction of the pipeline, and distribution of the gas will be the Eastern Shore Natural Gas Company, a recently formed organization, but the plan has been hatched by the several companies involved, led by the Citizens Gas Company of Salisbury.

Preliminary plans call for tapping into the "Big Inch" cross-country gas line at Altgen, near Oxford. The line would then run through Elkton, pass near Newark and on south where it would provide natural gas service of the Dover Gas Light Company and the Sussex Gas Company in Seaford, before making the final journey into Salisbury.

It is presumed that the line would run through Harrington. An official connected with the

WALL PAPER

by the Hundreds and Hundreds of Rolls

Just in Time For Your Fall Papering WHEELER'S Phone Harrington 3541 *****

project said they have not yet received a certificate of approval from the Federal Power Commission, but said approval has been indicated, and formal notification is expected soon.

The same official, who asked not to be identified for the present, also said it is estimated that if started in the near future, the project could probably be completed in two years.

There were no available figures on financing, nor were there estimates of the ultimate cost of the project.

The spokesman said that through the use of spur lines, ultimately any community on the Eastern Shore wanting natural gas could be served from the

Delaware Power & Light Company supplies natural gas to customers in the northern New Castle County area but officials of this utility have said the company has had no plans for extending that service downstate.

The Seaford City Council this week granted the Sussex Gas Company a 25-year franchise for the purchase and distribution of gas in that town.

Hungary has received enough Salk vaccine for 100,000 children, Budapest learns.

Fresh bouquets are now sold from slot machines at Holland's Schiphol Airport.

Delaware Power & Light Co.

NEW INDIAN RIVER POWER STATION

Indian River Power Station "On-the-Line"

Some of your electricity today is coming from the new Indian River Power Station. The first giant electric generator at the plant came to life with a hum this month. And now kilowatts from it flow over wires from one end of Delmarva to the other, providing electric power for people in their homes, farms and industries. The plant produces power equivalent to the work of 100,000 horses . . . or 75,000 kilowatts.

Indian River Power Station is a joint undertaking of Delaware Power & Light Company, The Eastern Shore Public Service Company of Maryland and the Eastern Shore Public Service Company of Virginia. It represents a dream come true for engineers of both the electric company and United Engineers & Constructors, Inc. who built it. Years of planning, mountains of blue-prints, endless conferences and hard work are behind the 17 million dollar operation. And already more dreams are taking definite shape in the form of a second unit of similar size, adjoining the first one. This unit will be completed in 1958 and will bring the total investment for plant and two generating units to well over 30 million dollars.

A power station of such magnitude, housing a steam generator, doesn't burst into full-blown production as soon as the physical parts are assembled. In the early summer of this year, company engineers started tests on parts of the electrical and mechanical systems. Nothing can be left to chance when thousand-degree-temperatures, high pressures and machinery spinning 3600 revolutions a minute are involved. Slight leaks or misalignments could cause havoc; hence tests on the various components every step of the way.

In Mid-October came the exciting day when steam pressure was first applied to the turbine which spins the generator. The process was gradual with peak temperatures and pressures built up over a 3-day period. The generator responded according to plans, with a welcome hum. The engineers looked, listened, nodded, and finally breathed sighs of satisfaction. Indian River Power Plant was in business—producing electric power.

The plant site, in Sussex County, is on the Indian River between the towns of Millsboro and Dagsboro. A few years ago it was a series of separate islands, but when the river channel was dug, enough fill was scooped up to make one large, continuous neck of land. It is large enough to accommodate six generating units ultimately, besides providing space for coal storage, ash disposal and substation. Further than that it is ideal for a power plant since enormous quantities of river water are available for cooling purposes. River water from the north side is pumped into the plant presently at the

rate of 75,000 gallons every minute. It is circulated in the condensers to cool steam, then pumped back into Island Creek on the south side of the plant. Nothing is added to the river water—nothing is taken from it. Fortunately, the property chosen which met the basic requirements for efficient production of electric power, has the added advantage of being in the heart of a rapidly growing area.

For the most part what goes on inside a power station is best understood by engineers. Briefly, two major processes occur: the generation of steam and the generation of electricity.

Hundreds of tons of coal are burned daily and the end result is clean, energy-packed kilowatts. The coal is first pulverized fine as face powder so that it burns with a fiery blast. This takes place in a modern boiler, called a steam generator, which towers 15 stories above the ground. The heat is used to change water to steam . . . the steam is further heated to 1000 degrees F. and its pressure increased tremendously. Then the great force of this superheated steam is applied to turn the turbine which drives the electric generator. Of course, all of the coal must be hauled by rail or water since none is mined on the Delmarva Peninsula.

Babeock & Wilcox designed and built the boiler; Westinghouse Electric Corporation designed and built the turbogenerator. It is an especial feat of precision to assemble machinery and parts weighing tons which must spin without let up at speeds as high as 3600 revolutions a minute.

Indian River Power Station has already contributed, and will continue to contribute, to the economy of the Peninsula. Construction payrolls will soar into the millions by the time the plant is completed. In addition permanent personnel for operating, maintenance and management will live in nearby communities, contributing to their economic welfare.

The new and ample source of power will better serve our homes, businesses and industries. It will also give added incentive in attracting new industries to the area.

The plant and its attendant benefits are the result of local business planning by local citizens, plus the invested savings of many small investors—none of the money is derived from government financing. Not a single dollar of all the millions that has been invested to bring this plant to the point of production has come out of the pockets of the taxpayers. Indeed, far from putting a drain on the taxpayer, this plant has added taxable property to the community, and it will produce taxable earnings to help support local, state and federal government functions. Indirectly, this helps provide for better schools, safer roads, and many other public services.

Indian River Power Station is part of a system, designed to provide dependable and continuous power for the Delmarva Peninsula. The new station and

the system's other large steam generating station of the lower Delmarva Peninsula, located at Vienna, Md., are interconnected with high voltage transmission lines. These plants are tied in with Edgemoor generating station of Delaware Power & Light Company at Wilmington. Then, also, the entire system is interconnected with the Pennsylvania-New Jersey-Maryland interconnection, extending through eastern Pennsylvania and New Jersey and Maryland. By means of these interconnections power can flow in either direction, as the need occurs.

When the hazards of heavy construction are removed, the electric company will be pleased to show visitors through Reddy Kilowatt's new home. For the present, however, the company must forego the hospitality angle and rest content with the knowledge that Indian River Power Station is generating millions of kilowatts to make life better for customers—electrically.

Day Care Centers Bill Passed by Legislature

The Legislature at the last session passed a bill authorizing the establishment of Day Care Centers for severely retarded children for day care and training. The State Board of Trustees has approved employment of the necessary staff to proceed with the establishment of such centers throughout the state. Dr. Charles Jubenville was appointed as supervisor of Day Care Centers in the state. He has reported for duty and is in the midst of organizing his staff and the necessary employees for such centers.

The board has decided to open such centers in Sussex County, and it will be necessary to know how many children in the various areas will be considered for such training. All children between 4 and 16 years at this time who are severely retarded with an IQ of less than 35 will be eligible for Day Care Centers. Every six such retarded children will have one trained aide who will assume the responsibility for the care and training in such centers.

Such children will be transported in a contracted vehicle from their homes to the day centers. The aide will receive the children and will give the necessary care and training until 3 p. m. when they will be transported to their homes. During their stay at the centers the children will be given a snack at 10 a. m. and lunch at 12 noon and after lunch will have one hour complete rest. Some centers will be composed of 10 or 12 children with two aides.

The Legislature, in considering Day Care Center program, had in view that such centers will not only help the children but will also be of tremendous benefit to the parents. Many parents are anxious and eager to maintain their severely retarded children at home yet, in order to do so, they must have some relief during the day. This method of approach is a preventative measure for mothers and fathers; it enables them to remain physically well and emotionally stable and to continue their care of their child in the home.

The State Board of Trustees and the superintendent are anxious for all the parents who have extremely mentally retarded children to contact Dr. Jubenville at the Hospital for the Mentally Retarded at Stockley, phone Millsboro 2611, to make an appointment for complete psychological studies. Children can not be considered for admission to the Day Care Center program unless psychological studies are completed. Such studies, having been completed already by the Mental Hygiene Clinic or a school psychologist, will be considered.

Of the 484,598 cars made in Germany in 1956, 45.4 per cent were sold abroad.

Harrington Lions Hold Ladies Night

The Harrington Lions Club held its first Ladies Night of the year at the High School Monday evening. Dinner was served by Hazel Johnson and her staff. Thomas Peck, president, intro-

duced a number of guests including Mr. and Mrs. Messner, superintendent of schools; Dr. and Mrs. George Botte of Milford, and a visitation from the Wilmington Manor Club of four Lion members. William Cluley, Sr. was introduced as a new mem-

ber. Lester Smith, program chairman of the evening, introduced Mr. and Mrs. Carl Dynes. Mr. Dynes is a well known square dance caller in this area. The Lions and their ladies enjoyed a pleasant evening of square danc-

ing, a new experience for a number of them. The annual pancake supper will be held Thursday, Nov. 7, serving from 4:30 p. m. to 7:30 p. m. Tickets: adults \$1, children, 60c. Proceeds to be used in the Harrington community.

Of Local Interest

E. A. Rutledge's junior class of Harrington High School gave a going-away party to Jargo McFadden Tuesday evening at Janet Cluley's house. Miss McFadden is moving to Florida.

Sheriff's Sale By virtue of a writ of Fieri Facias me decreed, will be exposed to Public Vendue, on Friday the 15th day of November, 1957, at 2:00 o'clock in the afternoon, at the front door of the Kent County Court House, Dover, Delaware, in the Second Representative District, Kent County, State of Delaware, the following personal property, to-wit:

ALL that certain lot, piece and parcel of land and premises situated in North Murderkill Hundred, Kent County and State of Delaware, lying on the west side of the gravel public road leading north from the Willow Grove Choptank Mill black top road to Oak Point School and Hazletville, said land having improvements of a one story frame dwelling house thereon erected and is bounded on the north by land now or late of George B. Carpenter and Viola Carpenter, his wife, on the east by the aforesaid gravel public road, on the south by land now or late of Kenneth H. Jones, and wife, and on the west by land formerly of Sarah B. Cooper and now of Otis Jones, being more fully described in accordance with a survey made by J. E. Haddaway, Surveyor, during July 1955, as follows to-wit: BEGINNING at the southeast corner for land now or late of the said George B. Carpenter and Viola Carpenter, in the middle of the gravel public road leading north from the Willow Grove Choptank Mill black top road to Oak Point School and Hazletville, thence running with the middle of said road toward the Willow Grove road, south 25 degrees east (150) feet to the northeast corner for late of Kenneth H. Jones and wife, in the middle of said road, thence turning and leaving said road and running with the northline of the Boone land in a southerly direction a distance of about (380) feet more or less to a corner for the Boone land in line of the former Sarah B. Cooper land and now of Otis Jones, thence turning and running there with north 32 degrees 30 minutes West about (155) feet more or less to the southeast corner for land now or late of George B. Carpenter and Viola Carpenter, his wife, and running with the south line of the Carpenter land in a northeasterly direction about (405) feet more or less back to the beginning and containing an area of about one (1.4) and four-tenths acres of land being the same more or less, being the same lands conveyed to Walton H. Simpson by Clifford Ford as Mr. Ford's wife, dated October 26, 1956, and of record in the Office of the Recorder of Deeds, in and for Kent County and State of Delaware, in Deed Record Book H, Vol. 21, Page 420. Seized and taken in execution as the property of John L. Foxwell and/or Florence E. Foxwell and/or John M. Foxwell, and will be sold for cash by THOMAS HUGHES, Sheriff. Sheriff's Office, Dover, Del., October 28, 1957. 3t, exp. 11-15b

Houston

Church news for Sunday, Nov. 3—Sunday school, 10:00 a. m., Robert H. Yerkes, general superintendent, Alvin Brown, superintendent of junior department, Mrs. Dorothy Pearson of the cradle roll and Mrs. Wm. Scott, superintendent of missions, and as this is Missionary Sunday, a good attendance is urged and a very good contribution would be appreciated.

The service of worship begins at 11 a. m. with the organ prelude and call to worship by the minister, Rev. Ray Kirwan. The junior choir will have a special number.

A prayer and self-denial service sponsored by the W. S. C. S. will be held in the church Sunday, Nov. 3, 7:30 p. m. There will be a special speaker for the occasion. A cordial invitation is extended to all.

The young adult fellowship will meet in the fire hall on Sat., Nov. 2, at 6:30 p. m.

The Fall District meeting of the Woman's Society of Christian Service will be held in Calvary Methodist Church, Milford, Wed., Nov. 6, at 10 a. m.

Let us keep in mind the pancake and sausage supper sponsored by the Methodist Men, Wed., Nov. 13, from 4:30 to 7 p. m., in the field hall.

Sat., Nov. 9, from 1 to 5 p. m., will be housecleaning day at Houston Church. All men and women willing to help are invited. Refreshments will be served. Let us have a good crowd out; it will make the work easier.

Church hostesses for this week will be Mrs. Lawrence Tuttle and Mrs. Oley F. Sapp; flowers, Mrs. James Harrington and Mrs. Ida Williams.

Mr. and Mrs. Garrett Clifton and son, Chippy, of Wilmington, were recent weekend guests of Mrs. S. G. Armour.

Mrs. Anna Powell and daughter, Mrs. Elizabeth Adkins, of Newark, Md., are spending sometime at the home of their cousin, Mrs. Eva Wilson.

Messrs. Norris and John Yerkes, Mrs. Helen Yerkes, and Mrs. Eliz. Newman spent the weekend and a part of the past week as the guests of their brother and sister-in-law, Mr. and Mrs. Robert Yerkes and family.

Mr. and Mrs. L. Paul Greenlee and son, Tommy, Anna Lee Thistlewood and Mrs. Viola Thistlewood remained to stay with the Kennedys for a while.

Extension Staff at

Workshop, Conference

The first in a series of train the trainer communication workshops scheduled during the next two years for Delaware Agricultural and Home Economics Extension workers is in session at Agricultural Hall in Newark.

The workshop began yesterday evening, (Oct. 30) as part of the staff's annual conference, and will end Friday afternoon.

Basic principles and new concepts in the use of radio in extension work are being covered in the current program. Sessions on visual aids, photography, news writing, training local leaders, and conducting meetings will be held periodically until April, 1959.

They will be based on a communication training program developed by the National Project in Agricultural Communications. Topics of special interest have been requested by staff members.

Vocational agriculture and home economics high school teachers were invited to last night's session.

The program tomorrow will include a panel discussion of how management looks at farm and home radio.

Panel members will be Charles R. Maillet, general manager of Station WJWL, Georgetown; Arthur J. Curley, program director, WTUX, Wilmington; Richard V. Aydelotte, program director, WDEL, Wilmington; and Herbert M. Griffith, Jr., commercial manager, WKSB, Milford.

Sheet Gives Garlic Control Tips

Pointing out that garlic in pasture lowers dairy profits more than any other weed—and that grain farmers also lose—is a Delaware Agricultural Extension Service fact sheet just off the press.

The publication is one of a series being printed to aid state farmers and homemakers by noting the highlights of certain operations.

The new sheet suggests chemical control to fight garlic. Ways the weed spreads and methods of control are explained. Included is a brief discussion of handling garlic in ladino clover pastures.

Concluding the recommendations is a three-point program for controlling garlic in permanent pastures and in grain fields.

The new sheet is available on request at the county extension office or the University of Delaware school of agriculture in Newark. Ask for the recipe for better farming, better living C-1 (AAE), "Control Garlic to Hike Profits!"

Horticultural Society Schedules Dec. Meeting

The Peninsula Horticultural Society will hold its 71st annual meeting December 16 and 17 at Elks Hall in Salisbury, Md., society secretary and University of Delaware Extension Horticulturist Robert F. Stevens reported today.

Vegetable day will be December 16 and fruit day December 17. Daily programs will start at 9:30 a. m. and run until 3:30 each afternoon.

A general session will be on the morning vegetable program, with two special sessions in the afternoon. Fruit, especially strawberries, apples and peaches, will be fruit program features.

Several outstanding specialists from other sections of the county will be invited to speak on latest research results and problems encountered this season, Stevens said.

These educational meetings are open to anyone interested in the production and marketing of fruits and vegetables.

Lunch will be served each day at Elks Hall. Persons wishing overnight accommodations should contact H. J. W. Rayner, Rayner Brothers, Salisbury, Md., or Stevens at Box 150, Newark.

Home Demonstration Clubs To Hold Achievement Program

Plans are being completed for the achievement day program of Kent County Home Demonstration clubs to be held on Thursday, November 7th, at the Capital Grange Hall in Dover, says Mrs. William Conard, county council president.

The events will start at 10:00 a. m. with craft exhibits learned during the year by club members. Mrs. William Sterling of Dover will moderate a panel, which will discuss reports in the areas of safety, health, family life, citizenship and international relations.

Mrs. George Meyer of Dover, Mrs. Leonard French, of Milford, Mrs. Harvey Fifer of Rising Sun, and Mrs. Clifford Clark of Kenton will serve in the panel representing the above committees.

"Let's Sell Opportunities in the Home Economics Field," will be the topic of Mrs. Catherine Bieber and Miss Bette Allison of the University of Delaware teaching staff. Club members have asked how more interest can be developed among students in this area.

Two scholarships are provided by Kent County clubs at the present time. One of the recipients, Miss Shirley Deats of Dover, will relate her school experience of the past three years and her hopes for the future.

Luncheon will be served by the Grange. Members should make reservations with their local club president before the deadline date of Nov. 4.

Feature speaker in the afternoon is to be the Rev. Hary J. Jaeger of Milford.

Renewed interest in the guided reading program will be explained by Miss Virginia Messick, of the Travelling Library Service. New suggested reading

lists are to be available, and certificates will be awarded to those who have made specific progress to date.

Mrs. Carl Nelson, of Wilmington, who serves as the northeast regional director on the National Home Economics Council, will give a report on national activities.

Farm Fillers

The industry-operated Tree Farm Program is now active in 45 states.

Wood-using industries of the

U. S. employ over 7,000 foresters.

Many industries have projected forestry programs well into the 21st century.

Tree farming is an industry program to help landowners grow timber as a crop.

Tree Farms help America keep timber growth ahead of removal.

Forest industries sponsor the American Tree Farm System of growing timber as a crop on tax-paying lands.

Tree farming means more wood, wildlife, farm income, jobs, water and recreation.

St. Stephen's Episcopal Church Notes

On the 18th Sunday after Trinity, St. Stephen's enjoyed having as guest speaker, at the eleven o'clock service, the Rev. Charles M. Priebe, Jr., rector of St. James Church, Newport.

Mr. Priebe came to the Diocese of Delaware in 1952, and to St. James in 1954. Since then, under his guidance, the church at Newport has grown to be one of the most dynamic and spirited churches in the Wilmington area.

The Rev. John R. Symonds, Jr., after celebrating Holy Communion at St. Stephen's early Sunday morning, Oct. 20, left for Newport, where he preached the sermon at St. James Episcopal Church.

It was a pleasure to have Mr. and Mrs. Priebe as our guests and to greet them at coffee hour. We also missed our vicar. On this same Sunday evening Messrs. Robert Nelson and Robert McNally, two lay leaders of our congregation, officiated at the service of evening prayer, in the absence of the Rev. Mr. Symonds.

Ushers for the last two Sundays were Messrs. Robert Baynard, Herbert Chamberlain, Granville Hill, and Clarence Reed.

Since Oct. 28 was a commemoration of the Feast of St. Simon and St. Jude, a special service of Holy Communion was held at 10 o'clock in the morning.

On All Saints' Day, Nov. 1, there will be two celebrations of Holy Communion—one at 7:00 a. m., for those who work and one at 10:00 a. m., for those who can come more conveniently at that hour.

Flowers on the altar, Oct. 20, were given by Mr. and Mrs. George R. Johnson, who grew them in the garden at their home on Weiner Avenue.

The flowers last Sunday were given to the glory of God in loving memory of Mary Olivia Fox Symonds by John R. Symonds, Jr., who raised them himself.

The men of St. Stephen's held their first meeting in order to organize as a group at the Parish House on Thursday evening, Oct. 17. Robert Nelson was elected President; Robert Creadick, vice-president and membership chairman; Leon Porter, secretary-treasurer. The next meeting of the group is scheduled for January 16, when a spaghetti supper will be prepared by the Rev. John R. Symonds, Jr., and George R. Johnson. George A. Thompson was appointed to secure a guest speaker for the January meeting.

Our vicar was out of town Monday and Tuesday, Oct. 21 and 22, while attending a clergy conference at the Memorial House, Rehoboth. The Rev. Norman Pittenger, professor of Christian Apologetics at the General Theological Seminary in New York, conferred with the clergy of the Diocese of Delaware on the subject, "Preaching the Gospel Today."

On Tues., Oct. 22, there was no Holy Communion service, but Robert E. Baynard read the usual intercessions for the sick at the hour when the service is regularly held.

Coffee Hour hostesses for the last two Sundays were Mrs. George R. Johnson, Mrs. Archie Ford, Miss Irene Ford and Miss Lois Kern.

Acolytes for the 18th and 19th Sundays after Trinity were Charles McNally, Ronnie Correll, Frank Welch, Billy McColley, Albert Lee Raladge, Gary Porter, Bill Thompson.

After morning prayer and coffee hour on Oct. 20, the Rev. and Mrs. Charles M. Priebe, Jr., were dinner guests of Mr. and Mrs. Robert McNally and family at their home near Vernon.

Trinity Methodist Church Notes

The flowers last Sunday were presented in memory of Jacob A. Swain, by his family. The MYF meets at 6:30, and evening service 8-8:45.

Next Monday, being the first Monday in the month, is the date of the Loyal Workers Class meeting. Church services for Sunday evening, Nov. 3, will be omitted in order that all who wish may attend the Charles Wesley Hymn Festival at the High School auditorium in Seaford, which starts at 8 p. m.

The regular meeting is to be the regular meeting of Trinity W.S.C.S. is to be held next Tuesday, Nov. 5, at 8 p. m. in the church annex. All members should bring or send to this meeting a child's Christmas gift for the Riddle Memorial Deaconess Home in Wilmington. This is important.

On Wednesday, Nov. 6, the W.S.C.S. district meeting is held at Calvary Methodist Church in Milford, beginning at 10 a. m. "Upper Room" devotional booklets for Nov.-Dec. are available at the church. The regular Monday morning (10-10:30) prayer meetings of the W.S.C.S. at the church have been resumed for the season.

Trinity had a contingent to represent it at the teacher training courses held at Calvary in Milford last Sunday, Monday and Tuesday.

The Dover-Wilmington District Conference gathers on Wed., Nov. 13, at the New Castle Church. The "Christmas Bazaar" of the Trinity W.S.C.S. is scheduled for Thursday, Nov. 14. A new addition is the snack bar, where you can get your light lunch.

Asbury MYF came over to visit Trinity MYF last Sunday. Then Trinity evening services adjourned to Asbury for the W.S.C.S. program in connection with the Week of Prayer and Self-Denial. Mrs. Jack Redden led us in a group of songs, and we saw a film-strip with record, "Not Bigger but Better," in the MYF.

Mr. and Mrs. Robert E. Baynard attended the two hundred twenty-ninth anniversary service at St. Luke's Church Hill, Maryland, Oct. 20. The Rt. Rev. Noble R. Powell, Bishop of the Diocese of Maryland, was present and took part in the ceremonies. Mr. and Mrs. Baynard's daughter, Mrs. Edward Brown, sang an anthem at this impressive celebration.

On Sat., Oct. 19, the Rev. John R. Symonds, Jr., and Ronnie Correll attended the Episcopal Youth Convention at Christ Church, Dover. Ronnie attended as delegate from St. Stephen's and as president of the Kent County Youth Convocation. The group approved and adopted a constitution instituting the annual youth convention and youth commission. The youth commission is made up of twelve young people throughout the diocese. Two of the youths are from each convocation. There are six clergy and lay people also on this commission, besides the director of the Department of Christian Education and the Rev. Symonds, representing the executive committee of the Department of Christian Education. Mr. Symonds will serve as assistant to the director and will be in charge of diocesan youth activities.

Prospect Church Notes

Homecoming will be observed in Prospect Church on November 3rd.

Sunday School at 1 p. m. Worship Service at 2 p. m. Rev. Ray Kirwan of Houston, a former pastor of Prospect, will deliver the sermon. A cordial welcome to all.

The W.S.C.S. of Prospect will hold a rummage sale in Gaines Alley on Nov. 8 and 9. The W.S.C.S. will hold its November meeting at the home of Mrs. Hyland Webb.

Hong Kong is forming an official association to facilitate tourism.

Asbury Methodist Church Notes

Church School 10 o'clock, Howard Wagner, supt. "The Spirit of Christian Worship" is the theme of the lesson in the adult department. What is worship? What is the place of the laymen in worship? Christians need to know how to participate more meaningfully in worship. Paul faced the problem of abuses of the Lord's Supper in the church at Corinth. Can you think of any abuses of worship in your church? If so, what are they? How can you help correct them?

Morning Worship 11 o'clock. "Let My Voice Praise Thee" will be the theme of the pastor's sermon. The service will feature the singing of anthems by the Junior and Cathedral choirs, a Junior Sermon by the pastor for the junior members of the congregation and a special arrangement on the prelude featuring solos by Leonard Masten on the trumpet and Phillip Holson vocal.

Evening Worship will be interrupted this Sunday in favor of the Charles Wesley Music Festival which will be held at the Seaford High School at 8 o'clock. The Chancel Choir will attend this special service in a body. Other members of the congregation are urged to attend also. This year marks the 250th anniversary of Charles Wesley the great hymn writer of the Methodist movement. In his lifetime he wrote some 6500 hymns many of them have become great favorites in the Christian Churches of every denomination. The service will feature 100 voice choir of the churches in the Seaford area singing hymns and anthems written by "Methodism's singer of sweet songs," Charles Wesley.

The Methodist Youth Fellowship of Asbury Church will meet Monday evening at 7:30 in the chapel for devotions led by Clara Tatman then we will retire to Collins Hall for recreation led by Penny Graham. All youth of the church are welcome.

The Woman's Society of Christian Service will meet Tuesday evening at 7:30 for their monthly meeting for November. "The Mind that Was in Christ" will be the theme of the meeting with the leader Mrs. Fulton J.

Finland may face a curb in "welfare state" spending, financial experts in Helsinki say. Mexico now limits duty free silver exports but tourists may take out any amount. South Africa's railways now employ 264 Hungarian refugees, including two women. Political unrest and strikes have sharply cut tourism to Haiti, Port-au-Prince reports.

Downing in charge and the Lydia Circle as hostess. The study course in the Book of Mark will be held Wednesday evening at 8 o'clock instead of Tuesday evening. The choir will rehearse Thursday at 3:30, 6:30 and 7:45 o'clock.

The altar flowers for this Sunday will be presented by Mr. and Mrs. C. Fred Wilson in memory of Mr. and Mrs. Walter L. Jones and May J. Sheldrake. Mr. and Mrs. Dewitt Tatman will be the friendly greeters for this Sunday.

The ushers for the month of November are: Charles Peck, Dewitt Tatman, Reynolds French and Kenneth McKnatt.

On Wednesday morning (10-10:30) prayer meetings of the W.S.C.S. at the church have been resumed for the season. Trinity had a contingent to represent it at the teacher training courses held at Calvary in Milford last Sunday, Monday and Tuesday.

Civil Air Patrol News

On Wednesday morning the Milford Squadron of the Civil Air Patrol held a special assembly at the Milford High School. A film on the work of the CAP was shown, after which the cadets took over. A colonel gave an introduction to CAP, and David Coady told of his experiences at the Annual CAP Summer Encampment. Wednesday night the regular Cadet meeting was held, and was attended by 13 cadets, which was a good showing for the visit of Colonel Morse, Delaware Wing Commander, and two other colonels.

Austria has held its first Toy Fair, at Vienna, with some 50 firms exhibiting. South Africa with restricted trucks, to protect its nationally-owned railroads. Pakistan has banned import of large or medium-sized foreign cars for assembly. Nuremberg's German Toy Fair is to become international, but perhaps not in 1958. Bids will be sought soon for the Caribbean Hotel at Aruba, to cost about \$2,500,000. Sixteen new producing oil fields have been discovered in Mexico in the last year.

Homecoming will be observed in Prospect Church on November 3rd.

Sunday School at 1 p. m. Worship Service at 2 p. m. Rev. Ray Kirwan of Houston, a former pastor of Prospect, will deliver the sermon. A cordial welcome to all.

The W.S.C.S. of Prospect will hold a rummage sale in Gaines Alley on Nov. 8 and 9. The W.S.C.S. will hold its November meeting at the home of Mrs. Hyland Webb.

Hong Kong is forming an official association to facilitate tourism.

Church Services for Sunday Nov. 3. Wesley-Sunday School 10 o'clock Norman Outten Supt. Worship Service 11 o'clock sermon by the Minister Rev. John School 10 o'clock Robert Collins Supt.

The W.S.C.S. of Wesley church met at the home of Mr. and Mrs. Francis D. Baker to hold the Oct. meeting, there was quite a large number present. The Nov. meeting will be held at the home of Mrs. Amanda Fountain.

Several from here attended the homecoming at Hickman on Sunday, there was a large attendance. A fine program and an offering of \$106. The Rev. Dale Pruitt of Harbeson was the speaker.

Mrs. Ada Jackson of Wilmington is spending some time with her mother Mrs. Annie Morgan who has been very sick but is improving at this writing.

Mr. and Mrs. Robert Garrett and family entertained Mr. Garrett's sister Mrs. Harvey Griffith of Broomal Pa. over the weekend.

Mrs. Ada Baker is a patient in Milford Memorial Hospital where she underwent surgery on Monday. We hope for a speedy recovery.

Mrs. Alfred Hopkins and Sharon spent the day Sunday with her parents Mr. and Mrs. Clifford Baker.

Rev. and Mrs. Anderson and Mrs. Mary Stafford were supper guests of Mr. and Mrs. Isaac Noble of Hickman on Sunday evening.

Mrs. Ida Harmoning was a dinner guest of Mr. and Mrs. Lee Wyatt near Denton Md., on Sunday, there were several other relatives and friends also.

Mr. and Mrs. Robert Stafford spent the weekend in New York City.

Legion to Stage Old Clothes Dance

An Old Clothes Dance will be given by Callaway-Kemp-Raughley Tee Post No. 7, American Legion at the post home on U. S. 13, Harrington, Sat., Nov. 9. Tickets are available from Legion members at \$2 per couple. Music will be furnished by Cawley's Combo.

Australia will have a 20-story Commonwealth office building in Sydney.

Free Soil Tests Being Made

Delaware farmers were reminded today to have their soil tested free at the University of Delaware laboratory.

George Vapaa, county agricultural agent, said the tests will tell how much and what kind of fertilizer is needed on fields.

To take samples, the agricultural agent suggested dividing fields into areas not larger than five to ten acres. Avoid unusual spots not like the rest of the field, fence rows, roadbeds, places where lime or manure has been piled, and fertilizer bands in row crop fields.

Take 15 to 20 samples spread evenly over each sample area when the soil is moist enough for plowing, Vapaa said. Samples may be taken with a sampling tube, soil auger or spade and knife.

With a spade and knife, dig a spadeful of soil to plow depth and throw it aside. Then dig a one-half-inch slice and keep it on the spade. Use the knife to cut from this slice a one-half-inch core from top to bottom.

Mix the 15 to 20 cores from the area being sampled together in a clean bucket. Put about one pint of this mixture in an ice cream box or other clean container.

Label each sample with a number and your name, and be sure to keep a record of the area where samples were taken, the agent advised. One way is to make a rough map of the sampled areas.

Soil containers and application blanks needed to complete the tests are available at the county extension office.

Send samples and the completed application forms to the Soil Testing Laboratory, Agricultural Hall, University of Delaware, Newark.

W.S.C.S. Holds Monthly Meeting Tuesday

Tuesday evening the W.S.C.S. holds its regular monthly meeting.

For Sunday, in the morning, after Sunday School (10:00-11:00) Morning Worship (11:00-12:00) includes the pastor's sermon — "Our God is Able."

Greece expects another bumper 1957 tobacco crop, up 3.8 per cent from 1956.

Letter to the Editor

Harrington, Del. October 29, 1957

To the Editor: One of Webster's definitions for the word legend is, "a fictitious or non-historical narrative."

The writers wish to tell the readers of the famous "Harrington Legend" in the hopes that other cities will be able to avoid the ill effects of a constant harking back to the glorious days of old.

Once upon a time, a coach by the name of Paul Hawk came to town. Apparently he had one fine year with the basketball team. This took place, incidentally, at a time when Harrington was one of the larger school districts in the southern part of the state.

In any case, ever since this great accomplishment, his memory has been enshrined in the hearts of a number of myth-makers. His ghost has risen to haunt every subsequent coach including the present one who was only in town for 24 hours when he first heard the legend of "The Immortal One."

No coach, regardless of his record and accomplishments, can compare with the one great coach. In fact, any new coach is beaten before he starts. When these old fuddy duddies who are living in the past give the new coach their full support, perhaps Harrington teams will return to their former glories.

Incidentally, since 1942 when Mr. Hawk left, a coach has very quietly piled up a baseball record of 50 wins and only 15 losses for Harrington. No records in the State Athletic Department will show that Mr. Hawk did as well.

Signed, Two Harrington Grads—Class of '49

Farmington

Mr. and Mrs. S. P. Andrew gave a turkey dinner Sunday in honor of Mrs. W. C. Gray's birthday. Ten guests were present.

Mr. and Mrs. Edwin East of Seaford were visitors of the Grays on Sunday, also.

Fish & Game Notes

WATERFOWL SEASON OPENS FRIDAY

Delaware's 1957-1958 waterfowl season opens Nov. 1 and runs for 70 consecutive days through Jan. 9, 1958. Ducks, mergansers, geese, brant, and coots will be legal game at one-half hour before sunrise, Fri., Nov. 1.

Russell Gallo, Federal Game Management Agent for Delaware advises all waterfowl hunters to be familiar with the legal methods for taking ducks and geese. A 1935 law prohibiting decoys will be strictly enforced in Delaware this season. No shooting will be permitted on premises where wild or domestic geese or ducks are kept.

In addition to the current Delaware hunting license all hunters over 16 years of age must purchase a federal duck stamp. The \$2.00 migratory bird stamp may be purchased at most of the post offices in Delaware.

Hunting methods permitted:—Migratory game birds MAY be taken with or by use of:—

- (a) Shotgun not larger than No. 10 gauge fired from the shoulder.
- (b) Bow and arrow.
- (c) Blind or floating craft other than motorboat, sailboat, or a sinkbox (except as in (d) below).
- (d) Picking up only by means of dog, motorboat, sailboat, or other craft, or injured or dead waterfowl, coots, rails, or gallinules.

Huntin Methods Prohibited:—Migratory birds may not be taken with or by use of:—

- (a) Motor vehicle or any motor-driven conveyance.
- (b) Aircraft
- (c) Sinkbox (battery).
- (d) Motorboat, sailboat, when not beached, resting at anchor or fastened within or tied to a stationary hunting blind, or any craft towed by motorboat or sailboat.
- (e) Rifle.
- (f) Automatic - loading or hand-operated shotgun of more than three-shell capacity in magazine and chamber combined. (Any metal plug or wooden filler must be incapable of removal without disassembling the gun.)
- (g) Live duck or goose decoys.
- (h) Electronic goose and duck calling devices.

The hunter will have to depend upon his own skill on his goose call to get the birds within gun range.

DAILY BAG and POSSESSION LIMITS:

- Ducks, Nov. 1-Jan. 9—4 8.
- Daily bag and possession on ducks may include 1 Hooded Merganser; Wood Duck 1 in daily bag, 2 in possession.
- American Merganser and/or Red-breasted Merganser, Nov. 1-Jan. 9—5 10, without regard to limits on other ducks.
- Geese, Nov. 1-Jan. 9—2 4
- Brant, Nov. 1-Jan. 9—6 6
- Coots, Nov. 1-Jan. 9—10 10

STATE-OWNED PUBLIC HUNTING AREAS:

Woodland Beach Wildlife Area, Kent County, 3,000 acres. (A portion of the area is a refuge. Please observe signs.)

- (a) South Unit—Open to unregulated hunting from state-owned blinds after November 30.
- (b) North Unit—Open to unregulated hunting the entire season.

Garrison's Pond Wildlife Area, Kent County, 100 acres.

Open to unregulated hunting during entire season.

Little Creek Wildlife Area, Kent County

- (a) North Unit—Open to unregulated hunting during th entire season, 300 acres.
- (b) South Unit—Open to unregulated hunting during entire season, 500 acres

Assawoman Wildlife Area, Sussex County, 1,400 acres. (A portion of the area is a refuge. Please observe signs.)

Open to unregulated hunting during entire season.

DUCK MIGRATIONS BEHIND SCHEDULE

The total aerial waterfowl count for October was below average for this time of year. Warm weather has delayed the migration of blacks and mallards from their northern breeding grounds. The cold front moving into th state will probably bring with it a sizable increase in the numbers of ducks and geese in Delaware marshes by the opening of the season on Friday.

GAME OFFICIALS PARTICIPATE IN STATE POLICE REFRESHER TRAINING SCHOOL

The functions of the Game and Fish Commission and the areas of co-operation between the State Police and the game, fish and dog law enforcement staff were emphasized in the duplicate sessions of the State Police Refresher Training School held in Dover. Warden William

Wideman, Newark, and Acting Director, Norman G. Wilder briefly summarized the role of the game and fish law enforcement officer in Delaware.

The warden first must create a suitable atmosphere in his district which will enable him to carry out his duties. Mr. Wilder told the group. The enforcement of dog, game and fish laws and regulations is only a small part of his duties. The work of this includes:

(a) Supervision and administration of certain fish and game lands and waters.

(b) Instruction in matters of information and education concerning the Commission and the public.

(c) Contacting various licensing agents.

(d) Promoting the Commission's program in all fields including food and cover development for wildlife, pond restoration and fact findings.

In formulating the curriculums for the in-service training schools to be held next spring by the State Police and the Board of Game and Fish Commissioners, a program of exchanging instructors will be worked out.

DEER KILLED ON DUAL HIGHWAY

Warden Dawson Sapp, Dover, reported a 10-point buck killed by a car about 2:00 a.m., Saturday morning seven miles north of Dover on the dual highway. The animal dressed out 236 lbs. It was delivered to the Kent General Hospital, Dover.

Fodder Shock Burns at Felton

Halloween pranksters got underway a few days early at Felton Sunday night resulting in the fire department being called out at 11:30 for a roaring fire that demolished—of all things—a shock of fodder in a field belonging to Roland Layton on the Felton-Killen's Pond Road.

The blaze burned itself out while firemen stood by. Later, the pranksters pulled a substantial amount of fodder from the fields of Frank Walker and Clarence Minner and piled it up on the road from Felton to Harrington. They then set fire to the feed and it was found burned out on the highway early Monday morning.

Highway department workers put flare-pots at the site pending removal of the debris.

Felton School News

Home Economic Department

Miss Shirley Deats, who has acted as understudy to Mrs. Mildred Wells, home economic teacher, has returned to college. This year Miss Deats is a senior at the University of Delaware.

Music Department

The High School Band will sponsor a skating party on Monday, Nov. 4, at the Diamond State Roller Rink. It will begin at 7:15 and end at 11.

The Birthday Calendar sale will be continued for the next two weeks.

The band is working out the details for their trip to the football game at the University of Delaware Saturday, Nov. 9.

Student Council

The prizes for the magazine campaign have arrived and being distributed.

Mrs. Parsons' seventh grade will be having a Halloween party on Nov. 1, at Felton School Cafeteria.

F.F.A.

The State F.F.A. Leadership Training Conference and banquet will be held at Felton High School beginning at 3:30 p. m., November 7. This is a training session for newly elected officers from F.F.A. chapters all over the state. During the conference they will be divided into sections, for instance, secretaries in one and presidents in another. They will be recalled into a general session in which reports will be made of the activities which each section participated in. After the general session the group will be served a banquet of roast turkey and fixings in the school cafeteria at 6 p. m. After the banquet, awards will be made to those individuals who have earned them during the preceding year.

The banquet will be prepared by mothers of members of Felton chapter headed by Mrs. Addison Draper.

Girl Scout News

Girl Scout troop 142 held its meeting Monday at the home of Nancy Taylor. We worked on our knitting and talked about taking a trip. After the meeting, refreshments were served.

Caesar Rodney School News

Dedication exercises and open house for the Star Hill School addition will be held on Sunday afternoon, Nov. 3, at 2 p. m.

Miss Edith G. Guy, principal of the school, has arranged a program for the occasion in the new general purpose room of the school. The Star Hill School is an elementary school of the Caesar Rodney Special School District and is located two miles southeast of Camden near Voshell's Mill.

Earl C. Brown, principal of the Hunleith Community School of Wilmington, will give the dedicatory address. Mr. Brown is a former principal of the Star Hill School.

The music department of Delaware State College will present musical numbers on the program. Miss Lavinia Gibbs of the Atkins Cabbage Post 1207, VFW, will lead the pledge to the flag and the Rev. E. J. Young, of the Zion A.M.E. Church, will give the invocation and benediction.

William R. Manning, representing the architectural firm of Stanhope and Manning, will officially present the building. H. Kline Lingo, chairman of the Caesar Rodney District Building Commission, will accept the keys over to Miss Edith G. Guy, the school principal. William E. Simpson, supt. of the district, will serve as chairman and will introduce the platform guests.

Light refreshments will be served at the conclusion of the program, after which the entire school will be open to visitors.

Giant Among Crabs Brought to Crisfield

A hard crab that weighed one pound, six ounces, measured nine inches across the back from spike end to spike end, and had a span of 21 inches from the tip of one claw to the other has been caught near Crisfield.

John Catlin, manager of the Byrd's, Inc., seafood plant, displayed the giant specimen which was found in a barrel of crabs landed by a Smith's Island crab potter.

Crabs have come bigger, it is said, but they have been few and far between.

Campus Calendar Univ. of Delaware

(The public is invited to attend.)

November 1—Biology Seminar. Speaker: Dr. Samuel J. Aji, Department of Bacteriology, Walter Reed Army Institute of Research. Topic: "The Evolution of a Pattern of Terminal Respiration in Bacteria." Room 206, Wolf Hall, at 4:00 p. m.

November 2—Eighth Annual Reading Conference for Parents. Theme: "Books for Children." Wolf Hall, all day. Registration, 8:30-9:30.

November 27—Thanksgiving Recess Begins at Close of Classes.

(For further details please call the University's Office of Alumni and Public Relations, Newark EN 8-8511, Ext. 391.

Abutement Rule Fixed at Dover

The City Council of Dover has authorized City Solicitor James H. Hughes III to draft an ordinance in accordance with a recommendation of Police Chief James E. Turner, Sr., that parking along the two grass "islands" at Looeckerman Street Plaza, from City Hall to Legislative Avenue, be banned.

Council also fixed a policy whereby, in the case of newly-developed streets, abutting property owners shall pay one-third the cost of paving and the city, one-third, with the city also to provide all utility service lines. The action was taken in setting up a plan of paving costs in connection with a new development in the western section of Dover to be known as Lincoln Heights.

Old Treaty Oak To Go Under Ax

Dorchester's most famous tree—the Treaty Oak, at Church Creek, Md., is being removed by workmen of the Eastern Shore Public Service Company. A 15-foot stump of the famed tree will be left standing and the bronze plaque placed on the tree by Dorset Chapter DAR will remain on the stump in front of White Haven Church.

The plaque commemorated a treaty between the Choptank Indians and the first settlers in the Church Creek area when Dorchester was a province.

The Treaty Oak was said to be irrevocably dead last month by tree surgeons, from starvation and the constant heat which was reflected from the paved Route 16, alongside the ancient tree.

It has been estimated as being 400 years old.

Oil investments still are the chief American interests in South American nations.

A firm in Steinhagen, Germany, wants to build an export business in childrens beds.

Mexico is having a prosperous 1957, an exception to the rule for pre-election years.

Robbins Named To Replace Caulk

David A. Robbins, of Frederica, has been named by the State Soil Conservation Commission to fill the unexpired term of the late L. D. Caulk, as a supervisor in the Kent County Soil Conservation District. He will represent Area D, which encompasses the 7th, 8th, and 10th representative districts.

The term of Isaac Thomas, of Marydel, representing Area B (3rd and 4th representative districts) is expiring as of December 31st.

The term of one supervisor expires each year. Supervisors serve for a period of four years, and are elected by landowners within the area they represent. Candidates for supervisor are nominated by petition of 10 or more landowners to the board of supervisors. Nominations are now open until the next regular monthly meeting of the supervisors on Monday, Nov. 11.

Supervisors serve without pay to help promote soil and water conservation in the county. The district which they manage operates several heavy machines to improve drainage and land clearing in the county. They work very closely with the Soil Conservation Service at 313 South Governor's Avenue in Dover to get a program of "conservation on the land."

STOP SIGNS ERECTED

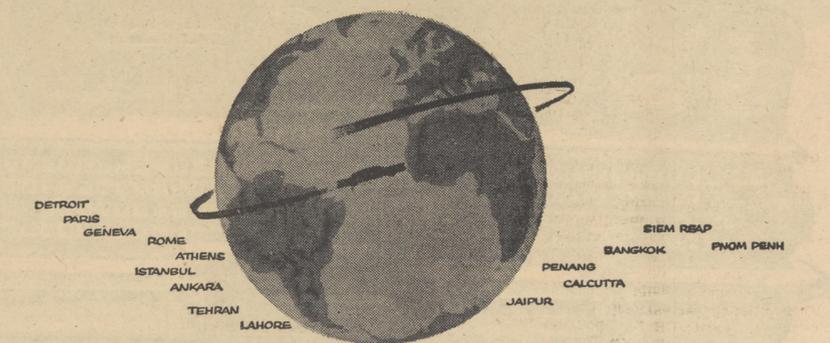

Stop signs have been erected at Center Street and Railroad Avenue. The latter avenue, from Liberty Street to the ice plant, and thence to Weiner Avenue, has been blacktopped. This section runs along the railroad track.

An application was made this week for a building permit for a Pure Oil service station at Smith Avenue and the southbound lane of U.S. 13. The concrete-block building has an estimated cost of \$15,000. Wilson Bradley told the Journal recently he had sold the lot to the oil company but did not reveal the price.

Dutch people now own 503,421 motorcycles.

58 FORD COMING NOV. 7 Nothing newer

AROUND THE WORLD

The 58 Ford has been proved around the world. This is the most dramatic and most grueling test ever given a new car before its public announcement.

The whole world was used as a test track for the 58 Ford. The car drove through England, France, Switzerland, Italy, Yugoslavia, Greece, Turkey, Iran, Afghanistan, Pakistan, India, Malaya, Thailand, Cambodia, Vietnam, and finally back to the place it started—Detroit, Michigan, U.S.A.

The Ford powered over the great mountain ranges of three continents: from the Alps to the Himalayas and the Rockies. It crossed the great rivers of history: the Thames, the Seine, the Tiber, the Arno, the Tigris, the Euphrates, the Indus, the Ganges.

This car stood at Buckingham Palace, rolled up the Champs Elysees to the Arc de Triomphe, and paused at the Eiffel Tower. It was greeted by the great Paris couturiers at the famous fashion salons where its "sculptured in steel" styling was applauded by the most style-conscious audience in the world.

The 58 Ford rode smoothly down the rugged, beautiful seacoast of Tito's country, to a festival in Dubrovnik, and into Greece to Athens, where this newest classic met such ancient classics as the Parthenon and the Temple of Poseidon.

Into Turkey; and the 58 Ford passed the great white lacework palaces of the Sultans along the Bosphorus and the Golden Horn. Then the Ford went where few but nomads travel, up into the hot days and chill nights of the ancient mountains of Afghanistan. And thence along the route Alexander the Great followed with his chariots to cross the historic Indus river.

On and on the Ford moved, down into the heat of mysterious India, through New Delhi to the Taj Mahal, and to the great pink palace of the Maharajah of Jaipur.

This great new car met the challenge of the monsoons—rains that for centuries have stopped all road movement throughout Indo-China, but didn't stop the 58 Ford. It drove on to Penang in Malaya, and then north to Bangkok.

Further on came Saigon, the Paris of the Orient, at the farthest tip of Southeast Asia. Finally, it powered across the great Rockies and plains of North America and back, at long last, to Detroit, Michigan.

The 58 Ford . . . has been proved and approved around the world. A natural question arises. Why did Ford go to such great lengths with its 1958 model? Why spend so much money and time and go through all the problems of negotiations, customs, border transit, diplomacy in so many countries?

The answer: in the competitive automobile market of today, only the best in all-around value can survive. And this round-the-world test is the most decisive possible demonstration of the best.

The 1958 Ford is value: hard-dollar value. It is also style, power, performance, and a dozen great new features. But above all, it is value.

This is the car you've been waiting for. See it November 7—there's nothing newer in the world than the 58 Ford!

proved and approved 58 FORD around the world The first car ever to see the whole world as a test track
