

C. OF C. TAKES INITIAL STEPS TO FORM INDUSTRIAL GROUP

The initial steps, in the formation of a corporation for industrial development in the Harrington area, were taken Tuesday at the July meeting of the Chamber of Commerce at The Wonder R.

The organization was named "The Harrington Development Corporation," with William W. Shaw, chamber head, being named president. He will be an incorporator and has been authorized to name two more. The three incorporators will elect the secretary and treasurer.

The next move of the corporation officials will be to consult a lawyer on incorporating.

The aim of the corporation is to raise funds for industrial development in Harrington and nearby.

A Candidate

Thomas C. Robbins

Thomas C. Robbins Files Again For Receiver of Taxes

Thomas C. Robbins, of Laws Church, receiver of taxes for Kent County, filed Wednesday for re-election on the Democratic ticket.

Mr. Robbins, a prominent farmer, has been active in politics many years. In his bid for a second term of four years, he has encountered no opposition to date. The Democratic primary will be next month.

Micro Midget News

Talk of a big bang for the 4th of July had ourselves one. The drivers and spectators alike are still talking about it. After the regular monthly meeting Tuesday night we know what happened last Friday. Some new rules and suggestions were made to correct some of the mistakes the boys have been making.

The 4th of July was trophy day and you know what that means, just the same as a ten thousand dollar purse. They mean just that much to some of the boys. I have heard from some of the spectators that we had the best races over the weekend, and I'm bragging. I was in there and know what racing is.

Summer Band Concert July 19

The annual outdoor summer band concert by the music department of the Harrington Special School District will take place next Saturday evening, July 19, in front of the Post Office beginning at 7 p.m. In case of rain, the program will be given in the fire hall.

For the first time all three bands will participate. The Grade School Band, the Junior High School Band, and the Senior High Band, will give short programs during the evening. The senior band will play such numbers as Gershwin's "Strike Up the Band," "Stairway to the Stars," the "Lost Chord," and standard marches among which will be the famous "Colonel Bogey March" by Asford.

Refreshments will be in charge of Mrs. Francis Winkler and Miss Hazel Johnson, assisted by a committee of parents.

This is a traditional summer activity by the music department.

Fresh Air Children Arrive For Vacation In Country

Three children from New York City were met at the bus station Wednesday by local families. Mrs. Burton Satterfield has an 8-year-old girl spending two weeks at her home, and Mrs. Wade Mitchell and Mrs. Frank O'Neal, Jr., reunited the same little girls who visited them last summer.

Miss Victoria Higgins, a Fresh Air Child, is spending her third vacation with Mr. and Mrs. Clyde Perry, and plans to stay for four weeks this summer.

July 23, two other children will come to Harrington as reinvented guests of Mrs. Ollie Truitt and Mrs. Pauline Moseley.

Mrs. Harrison A. Werley
Mrs. Sally Ann Werley, 88, wife of the late Harrison A. Werley, of Frederica, died Saturday.

She is survived by two sisters, Miss Laura Cole and Miss Bertha Cole, both of Milford.

Funeral services were held Tuesday at 11 a.m. from the Berry Funeral Home, Milford, with the Rev. William E. Tull, pastor of the Church of God officiating. Interment was in Barratt's Chapel Cemetery in Frederica.

New Book On Delaware Shipbuilding

The American Clyde, a new book which is a history of iron and steel shipbuilding on the Delaware River, has just been published by the University of Delaware Press. David B. Tyler, a visiting professor of history at the University of Delaware from 1955-57, is the author.

The title for this book comes from an article that was published in Harper's Monthly magazine in 1878, when the Delaware River was the center of iron shipbuilding for the United States, as it was for all of the 80-year period covered by this book. In the 1870's the payroll of one Delaware River shipyard, John Roach's yard at Chester, was larger than that of any other firm in the country except the railroads.

But the Roach firm was by no means the oldest or the stoniest of the Delaware River iron shipyards. Harlan and Hollingsworth—absorbed in this century by the Bethlehem Steel Company—and Pusey and Jones, both of Wilmington, were older shipbuilders than Roach. Due to them, more iron ships were built in Wilmington in the twelve years from 1845 to 1857 than in the rest of the country put together. Among their products were the Nicaraguan river boat John M. Clayton, owned by Cornelius Vanderbilt (when men hurrying to California found Nicaragua a short route), and the famous Major Reybold and John A. Warner (later the Burlington) of local renown. Locally-built ferries crossed the Susquehanna between Havre de Grace and Perryville before a bridge was built and had room for twenty-one 8-wheeled railroad cars.

After the Civil War the Roach yards at Chester, thriving on Navy contracts, became larger than the Wilmington firms, which held to smaller ships—river boats, ferries, and yachts—partly by choice and partly because of the shallowness of the Christina. One of the famous Harlan-built river boats of this period was the Republic, built for the Cape May excursion trade. A later river boat, the Brandywine, was used on the Delaware and elsewhere for 69 years—until 1954—the last 17 under the name Pilgrim Belle. The Pusey-built yacht, Volunteer, defended the America's cup successfully in 1887.

In time the Cramp shipyard at Philadelphia succeeded the Roach yards as the largest on the river. Later the New York Shipbuilding Company yards in Camden, financed by Henry Clay Frick, Pittsburgh steel maker surpassed Cramp's. (The Camden firm got its name from the fact that it planned to build yards in Staten Island, New York, though it never did build them.) At the end of the first World War the yards at Hog Island, just south of Philadelphia, were the largest in the world, with a greater capacity than all the yards in England, Scotland, and Ireland together. Then the Clyde the great shipbuilding river of the United Kingdom, could have been called the Delaware of Britain.

Shipbuilding has its ups and downs. The leading Wilmington firms found other businesses to sustain them—Harlan in building railroad cars and Pusey and Jones in papermaking machinery. When Morgan constructed a shipbuilding trust at the beginning of the century, Harlan was the only local firm to join it. When the trust broke up, Harlan's came into the control of the Bethlehem Steel Company and its president, Charles Schwab.

The Delaware was the center of American iron and steel shipbuilding because of its location close to the iron-producing centers in Pennsylvania and yet on the seaboard where most American water-borne traffic was carried on. Seldom did the makers of wooden ships become iron shipbuilders. Charles Cramp was an exception. The iron shipbuilders started as enginemakers, foundrymen, and boilermakers.

The first iron vessel built on the Delaware—a barge—was constructed by Jesse Starr, a Philadelphia boilermaker with a name borne by some early Delaware shallops. Samuel Pusey, the first shipbuilder of his name, was a machinist; Samuel Harlan, a cabinetmaker; Elijah Hollingsworth has been a foreman in the Baldwin Locomotive Works.

There is another story to be told some day of the wooden shipbuilding industry of Delaware—a tale that would involve such towns as Milford and Bethel. But wooden ships were replaced by steel.

Summit Bridge to Be Closed July 15

Summit Bridge, over the Delaware and Chesapeake Canal, will be closed July 15, from 9 a.m. to 3 p.m., according to information given to the State Highway Department by the US Corps of Engineers.

According to this information, the Corps of Engineers plan to make a complete check of the bridge and the vibrations from the effect of traffic moving over the bridge would interfere with their operations.

The state Highway Department will arrange to detour traffic during the period that the bridge is closed and signs, stating that the bridge is closed will be erected at the connections of all highways leading to the bridge.

A complete inspection of the bridge at this time is deemed to be very important by the Engineers because of the failure of some heavy trucks to abide by the load limit regulations that have been in effect for the bridge.

A load limit of 15 tons has been in effect for this bridge for some time and proper signs designating that fact have been posted along the highways but it is known that this restriction has been ignored from time to time.

The engineers vividly recall a slide that took place at this bridge several years ago, resulting in the bridge being closed to traffic for a considerable length of time while needed repairs were being made.

A new high level bridge, which will replace the existing structure, is now being constructed at a point about three quarters of a mile west of the present bridge, but it is not expected to be completed for at least another year.

In order to provide for the needs of traffic, normally using the present bridge, the engineers are endeavoring to keep the present bridge in service until the new structure is completed and placed in service.

In order to accomplish this, the engineers point out that the restricted load limit fixed for the present Summit Bridge must be strictly adhered to in order to prevent in the bridge from being damaged to such an extent that it will be completed taken out of service.

It has been estimated that should vibrations from the use of the bridge by trucks having a weight beyond the load limit cause another slide to take place, it would be considered worthwhile to make these extensive repairs, resulting from such action, and it would mean that the bridge would be out of service until the new structure was completed and placed in service.

The inspection to be made on July 15 will determine just how much damage has resulted from the use of the bridge by overloaded trucks and the future use of the present bridge will be determined from the results of that inspection.

Charles Bush

Charles Bush, 67-year-old Felton farmer, died of a heart attack in the Kent General Hospital Tuesday, July 1.

He was born in Iowa and lived in Canada for 30 years before coming to Delaware in 1945.

He is survived by his widow, Mrs. Vera Todd Bush; four sons, Willard Bush and Kenneth Bush, of Stanton; Max Bush of Dover, and Ross Bush of Bear; four daughters, Mrs. Thelma Johnson, in Canada, Mrs. W. O. Smith, of Marshallton, Mrs. Ben Roland of Viola, and Miss Joan Bush at the late home and 15 grandchildren.

Funeral services were held at the Berry Funeral Home in Felton at 1 p.m. Thursday. Burial was in Silver Brook Cemetery, Wilmington.

Harry Hausman

Harry Hausman, 70, of near South Bowers Beach, died Saturday at his home. He is survived by his wife, Alberta Hausman; a brother, John, of Runemed, N. J.; two sisters, Mrs. Rose Marshall of Runemed, and Mrs. Dean Kramer of Abbots Village, N. J. He was a veteran of World War I.

Services were held in the Berry Funeral Home at Milford Wednesday at 10:30 a.m. The Rev. William E. Tull, pastor of the Milford Church of God, officiated. Burial was in Chews Cemetery at Glendora, N. J.

Britain's proposed new law providing that money which husbands owe to separated wives will be deducted from their wages, may lighten the prison population by 5000, London reports.

Little Leaguers

First row, left to right: Perdue, Betts, Walmsley, R. Brown, and G. Smith. Second row, left to right: Erobst, C. Taylor, Hopkins, Broce and Fry. Top row, left to right: J. Taylor, Johnson, and Reed. Cain and Knox were missing when picture was taken.

Alex R. Kruppa

Alex R. Kruppa, 67, husband of Sara A. Kruppa, died at his home in Milford Wed., July 2.

Funeral services were held from the Berry Funeral Home Saturday at 1 p.m. with the Rev. J. Brewer, pastor of Frederica Methodist Church, officiating. Interment was in Odd Fellows Cemetery, Milford.

The deceased is survived, in addition to his wife, by a son, Charles, of Bethlehem, Pa.; four step-sons, James H. and Walter K. Betts, Milford; Paul C. Betts, Monroe, La., and A. D. Betts, Seaford, and one brother, William Kruppa, Centreville, N. J., and four sisters, Mrs. Alice McLaughlin, Bethlehem; Mrs. Margaret Bailey, Reading; Mrs. Irene Kacra, Bethlehem, and Mrs. Myrna Gressmir, Miami, Fla.

Mr. Kruppa operated a news agency in Seaford for 12 years prior to retiring and moving here eight years ago.

Mrs. Charles P. Gruwell

Mrs. Lida Gruwell, 75, widow of Charles P. Gruwell, died near Felton Saturday after a long illness. She is survived by two sons, Wilfred S., and Charles H. Gruwell of Felton, and three grandchildren.

Services were held in the Berry Funeral Home, Felton, Tuesday at 2 p.m. The Rev. Larry Renner, pastor of Felton Methodist Church, officiated. Burial was in Barratt's Chapel Cemetery.

Wilmer Willey

Wilmer Willey, 72, a retired farmer, died, Monday at his home near here. He was the husband of the late Emma Willey. He is survived by a son, Austin, of Harrington; a daughter, Mrs. Leland Bohannon, Felton; three sisters, Mrs. Mahala Fisher, Middletown, Mrs. Robert Harris, and Mrs. George Jacobs, both of Dover, and one grandchild.

Funeral services were held at the Berry Funeral Home in Felton Thursday at 2 p.m. Interment was in Mt. Olive Cemetery, near Sandtown.

Mrs. William G. Taylor

Mrs. Dela Aschon Taylor, widow of William G. Taylor, a former mayor of Wilmington and a former secretary of state of Delaware, who was lost at sea in 1925, died in Milford Memorial Hospital late Sunday.

Funeral services will be held at the William A. Berry Funeral Home, Milford, tomorrow at 2 p.m. Interment will be in Odd Fellows cemetery, Milford.

She is survived by a daughter, Mrs. I. Dolphus Short of Milford, and a son, Roger G. Taylor of Garden City, L. I., N. Y.

A workman singing "The Rose of Tralee" stopped a case in the Cookstown, Northern Ireland, courthouse. The song was so loud that the judge could not hear testimony in a trespass case. Workers were repairing the courthouse.

Only 14 roads now are open across the 220-mile Eire-Northern Ireland border. Several have been sealed off by spiking them, to prevent further raids by I.R.A. (the so-called Irish Republican Army) men, who have been destroying lives and property in Ulster.

Haskell Introduces Air Safety Bill

A bill to provide better air safety through the establishment of a Federal Aviation Agency as recommended by the Administration was introduced today by Congressman Harry G. Haskell, Jr.

Congressman Haskell said, "This new bill includes the recommendations made by most of the outstanding aviation officials in the country for a centralized agency to coordinate both military and civilian air traffic throughout the U. S. This bill also includes recommendations contained above and beyond those contained in present Senate and House bills.

"Our aviation responsibilities in the Government up to this point have been spread all over the place with no one agency having anything resembling complete responsibility. As a result, our military air power has been seriously hampered and the safety of 40 million airline passengers, plus the large number of private flyers, have been endangered. In addition, this lack of co-ordination of aviation responsibilities has cost the country millions upon millions of dollars. It can be expected that the new aviation agency will result in substantial savings to the taxpayer," continued Haskell.

Haskell, who co-sponsored the Airways Modernization Board and the National Aeronautics and Space Agency bills and who has been a leader in the fight for a safer, more efficient air traffic control system, outlined four positive steps he felt should be taken to bring about safer, more efficient air travel.

The four steps, according to Haskell, are:

(1) The establishment of a centralized independent Aviation Agency.

(2) The provision for sufficient funds appropriated to the Agency to provide, in conjunction with present military air defense radar, a complete radar network throughout the United States with trained personnel in sufficient numbers to operate it.

(3) Closer co-operation between military and civilian aviation interests.

(4) An accelerated program of research and development in the field of aeronautics.

"It is in this latter field," said Haskell, "that a good deal of work must be accomplished. The Airways Modernization Board, under General Quesada, has made considerable headway since being established, but we are so far behind in our technology that we must concentrate money and effort in this area so that we will be able to keep abreast of the fast changing technology in air travel.

"It is evident, in view of recent disastrous mid-air collisions, that positive steps must be taken to bring aviation of all kinds under a single operating agency. I feel that the establishment of the Federal Aviation Agency will be a big step forward in solving some of today's aviation problems and I strongly urge passage of such legislation," concluded Haskell.

"A hidden, a ghost hand," is delaying holding of Pakistan's first general election, Sheikh Mujibur Rahman, head of the East Pakistan Awami League, an opponent of the Government, said in Karachi.

CITY DUMP SITE WILL BE PUT UP FOR SALE, APTT RESIGNS

Marshy Hope to Have New Bridge

The combined low bids on two projects, for which the State Highway Department opened bids recently totaled \$779,186.75. Eight contracting concerns submitted a total of eleven bids on the two projects.

Empire Construction Company, of Baltimore, submitted the low bid of \$577,867.95 for the reconstruction of two bridges along US Route 13 at Farnhurst and George & Lynch, Inc., of Wilmington, submitted the low bid of \$201,318.80 for constructing the Marshyhope Creek bridge and approaches.

The Farnhurst bridges project consists of the reconstruction of the bridges along both the north and southbound lanes of US Route 13 over the Pennsylvania Railroad. The present bridges will be extended and widened to provide for ramps connecting to and from the Interstate Freeway leading to the Delaware Memorial Bridge.

Included in the project is the removal of the present bridge along the northbound lane to the space between the two existing bridges to provide a traffic route while the work on the bridges is in progress.

The present narrow iron bridge at Marshyhope Creek will be replaced with a new concrete structure, 120 feet long and 44 feet in width in a new location slightly north of the present bridge. Construction of approaches to the new bridge are also included in the project.

This project is a part of the improvement of State Route 16 to become the traffic artery for traffic from Maryland and the Chesapeake Bay Bridge to Delaware shore resorts.

The improvement of Route 16 was started by the Highway Department last year when the section from Greenwood to Ellendale and from Ellendale to Milton were improved. A few weeks ago a contract was awarded for the improvement of this route through Milton to the intersection with State Route 14, the Rehoboth Highway.

The improvement of the section from the Delaware-Maryland line to Greenwood, which will involve some realignment, is now in the planning stage as the bridge project at Marshyhope Creek is a part of that project.

SHD Planning to Improve Counting Equip.

The State Highway Department is planning to improve and modernize the traffic counting equipment at all permanent traffic counting stations located at various points along main used highways throughout the state.

In connection with this plan, a new traffic counter has been installed along the Kirwood Highway, east of Newark, replacing a former traffic counter that was in service there before the recent construction work along that highway.

This new traffic counter is of the very latest type and is operated on the same principle as a traffic actuated signal with the detectors being located in the pavement.

The principal involved in this new traffic counting unit increases the accuracy of the count of traffic passing a given point over the former electric eye type machine by a substantial percentage.

Installation of this new equipment is planned for other traffic points along main used highways at a later date.

Anthony — Vincent

Miss Betty Anthony, daughter of Mr. and Mrs. Clarence Anthony, of Harrington, became the bride of Albert L. Vincent, son of Mr. and Mrs. Albert H. Vincent of Farmington Friday, June 27. The wedding took place at 8 o'clock p.m. in Union Methodist Church, Burrsville, Md. The ceremony was performed by the Rev. Armo Todd and the Rev. Donald Liddecoat. The attendants were Miss Grace Anthony, sister of the bride, and Emerson Langford, Jr. A reception was held at the home of Mr. and Mrs. Albert H. Vincent. The couple took a short wedding trip to Virginia and are now residing in Farmington.

France will build 240 new post offices and telephone exchanges.

The City Council voted, at its July meeting Monday night, to expose to sale a dump site it purchased last October on the Blades Crossroads road.

The site contained 17 acres and was purchased from Benjamin Emory for \$550. It will be exposed to sale by advertising in this newspaper for sealed bids for the tract, with or without timber. The bids will be opened at the August meeting of the Council and may be rejected if too low.

Meanwhile, the Council is still looking for a dump site, since the Chamber of Commerce and the State Board of Health have requested the present dump on U.S. 13 be dispensed with.

At Monday night's meeting, Raymond Brown was spokesman for a group protesting the use of the Blades Crossroads road site. He also presented a petition with 106 signers, protesting the dump site. One signer lived in Harrington Manor. At a previous Council meeting, Mr. and Mrs. Raymond Brown, who live on the Blades road, had offered to buy the dump site for what it cost the City but the offer was not taken.

Monday, when Brown inquired, "Has it been definitely said that nothing will be dumped there?" Councilman George Exley, chairman of the dump committee, replied, "No, it hasn't." The motion was then made and carried to put the land up for sale.

Mechanic Street

Ed Kohland, of Mechanic Street, asked that seven large maples be taken out, saying they made the street too narrow. The Street Committee was asked to study the problem. Kohland was asked to get a petition for curbing the street, which action would eliminate the trees.

Mispillion Street

Richard Bullock, Mispillion and Short Streets, told the Council that, after the former street, from Commerce Street to West Street, had been cut out recently, he had received the impression it would be blacktopped. Previously, he explained, the sod kept the dust down. Councilman Exley said he had complaints from four property owners that rainwater was running over their sidewalks and that, since the improvement, the City had been thanked for its work. He added that one or two properties needed sidewalks and that, if they were built and a petition presented to the Council, blacktopping would be possible. The Bullock complaint was referred to the Street Committee of Tom Brown and Alan Rutledge.

Sewer

Les Kemp appeared before the Council and inquired as to the City's responsibility in maintaining sewer lines from private property to the street. Mayor Smith said the cost of maintenance was up to the property owner, on the property, and up to and including tapping of main sewer in street. The mayor added that a licensed plumber must see about cleaning of a sewer main.

Police

The Council, almost unanimously, expressed its disapproval of the Police Department and called a special meeting for Thursday night (July 10) at which Chief of Police George Hughes will be asked to attend.

Streets

The Street Committee announced that curb had been installed on Shaw Avenue, and half of Benjamin Street from Smith Avenue to Shaw Avenue, and that water had been installed on Benjamin Street from Smith Avenue to a point south of Shaw Avenue.

The Council also authorized the insertion of buttons in the street, to form a stop sign, at Mechanic and Commerce Streets.

The Council authorized the city manager to get a price from Delaware Power & Light Company for the installation of a streetlight on Center Street adjacent to a gate leading to the playgrounds of Harrington public schools.

Aptt

The resignation of Councilman Jack Aptt, of the Sixth Ward, was accepted. Aptt said he was moving to Houston. The Council shall appoint a replacement to serve until the January election when a Councilman will be elected for the year remaining in the term.

Weeds

On complaints of weedy lots, it was voted that the City would cut the lots and bill the owners a \$1.50 per 50-foot lot.

(Continued on back page)

Hobbs

Mr. and Mrs. James R. Chafin, Melinda, Susan, and Candy, have been vacationing in Pennsylvania.

Danny Towers, son of Mr. and Mrs. Roland Towers, an Easton Hospital patient for a few days, is convalescing at his home.

Mrs. Samuel Schuyler visited her daughter, Mrs. Eddie Willis and family. She had returned from visiting her son, Noble, and family, Camden, and a daughter, Mrs. Elsie Mulholland, Milford.

Mrs. Annie Wilson has been visiting Mr. and Mrs. C. H. Meluney, and Mr. and Mrs. Frank Fountain.

Tuesday of last week, L. H. Thomas accompanied Mr. and Mrs. L. Hopkins Thomas, and Tommy Lee to Wayne, Pa. Tommy Lee will spend 7 weeks at the Valley Forge Summer Camp for Boys. This is his third year there.

Miss Joyce Dickerson of Milford, Mr. and Mrs. Eugene Tedley and Gina, of Riverside, N. J., Miss Ruth Ann Fisher, and Mrs. Orville Morgan, Federalsburg, were callers of Mrs. Roland Towers and boys last Tuesday.

Peggy Willis accompanied her sister, Miss Anna Willis, and Mrs. Cora Williams on a trip to West Virginia.

Mr. and Mrs. L. H. Thomas called on Mr. and Mrs. Allie Anderson, Mr. and Mrs. James C. Hardesty, last Friday afternoon.

Mrs. Dawson Fountain and Mrs. Marvin Butler motored to Salisbury Wednesday of last week.

Mr. and Mrs. J. Roland Chafin, Denton, called on Mr. and Mrs. W. G. Holbrook, last Saturday evening.

Mr. and Mrs. Eugene Tedley and Gina, Riverside, N. J., were last Thursday dinner guests of Mr. and Mrs. Roland Towers and family.

Mr. and Mrs. Wesley Stafford and boys were Fourth of July guests at a barbecue at the home of Mr. and Mrs. Harold Scott. Other guests were Mrs. Mae Wright, Mrs. Burt McKnatt, and Thomas Wright.

Mrs. Lewis Butler entertained her grandchildren, Shirley Faye and Madeline Butler last week. Wanda, Marie, and Joyce Fountain, were guests part of the week.

2/Lt. Bernard H. Thomas, son of Mr. and Mrs. L. Hopkins of Easton, and grandson of Mr. and Mrs. L. H. Thomas, a 1956 graduate of Washington College, entered the Marine Service in September of that year, was sent to the Marine training corps school in Quantico, Va., then assigned to Florida, where he spent most of last year and from there to Texas, where he received his wings May 27, at the Naval Auxiliary Air Station, Kingsville, Tex. Designated a Naval aviator he has been assigned to the El Toro Marine Corps Air Station, Santa Ana, California. He has a wife, the former, Miss Nancy Dukes, of Centreville, and a daughter, Holly.

Monday afternoon guests of Mrs. Wesley Stafford were her mother, Mrs. Mae Wright, Denton, Mr. and Mrs. Joseph Fox, and Mrs. Amanda Roe, of California.

Mr. and Mrs. Clarence Porter visited Mr. and Mrs. Clarence Porter, Jr., Tuesday evening of last week.

Fourth of July guests who enjoyed a picnic dinner at the home of Mr. and Mrs. Roland Towers were: Mr. and Mrs. Orville Morgan, Mr. and Mrs. Eugene Tedley, and Gina, Mr. and Mrs. Edgar Fisher, Ruth Ann, Eddie and Bobby, Mr. and Mrs. William Collins and Sharon, and Miss Janice Dickerson.

Mr. and Mrs. Clarence Porter Jr., visited Greensboro relatives and friends the 4th of July.

Mr. and Mrs. L. H. Thomas called on Mr. and Mrs. J. R. Richards and Mrs. B. B. Allen, Denton, last Sunday evening.

Mrs. F. E. Adams visited Mrs. T. H. Towers last Tuesday afternoon.

Mr. and Mrs. Junior Draper, Wanda and Debbie, were Saturday evening dinner guests of Mr. and Mrs. Clarence Porter Jr.

Mr. and Mrs. Harold Scott, and Thomas Wright, were Sunday evening guests of Mr. and Mrs. Wesley Stafford.

Mrs. Reed Hughes and mother, Mrs. Lenora Langrell of Frederica, were last Wednesday visitors of Mr. and Mrs. Lee Hughes and sons, Billy and Jeff, of Kirwood Gardens, near Wilmington.

Miss Dorothy Heyd, Felton School secretary, left last Thursday for Boulder, Colo., where she will attend the National Association of Educational Secretaries Workshop and Convention for two weeks.

Mr. and Mrs. Franklin Biggs and family had as their guests at a barbecue supper Friday evening, Mr. and Mrs. Allen Biggs and sons, Gary and Randy of Endicott, N. Y., Mr. and Mrs. Derrickson Biggs and daughter, Bonnie, Mr. and Mrs. Joseph Albert and daughter, Joanne, Mr. and Mrs. Robert Biggs and Miss Betty Gene.

Mr. and Mrs. Noel Nychay of near town, entertained at dinner last week, in honor of the first birthday of their daughter, Cindy.

Mr. and Mrs. Spencer Failing Jr., were guests at the Courtney family picnic held at the home of Mr. and Mrs. Spencer Failing Sr., at Moores Lake, Dover.

Mr. and Mrs. Clyde Rentz of Detroit, Mich., are spending a week with Mr. and Mrs. W. A. Wilson and other relatives here in Delaware.

Mrs. Agnes Goodnow and daughters, Bonnie and Diana spent the weekend in Milford with friends.

Mr. and Mrs. Herbert Abbott of Dover are receiving congratulations on the birth of a daughter, Catherine Jane, July 2. Mrs. Abbott's mother, Mrs. C. M. Simpler, has been spending some time at the Abbott home. Earl Abbott Jr. is now visiting his grandparents, Mr. and Mrs. C. M.

Felton

The theme of the Rev. Larry S. Renner's Sunday morning message was "The Wrong Kind of Prayer." Special music was a vocal duet "He Always Knows" by Mrs. Ray Quillen and Mrs. Dwight Stephens.

Do not forget the Street Fair tomorrow starting at 1 p.m. until late evening.

Kerry Vesco has been spending two weeks at Fairlee Manor Camp, near Chestertown, Md.

Mr. and Mrs. Lott Ludlow, daughters, Charlott and Nancy, and son, Sammy, have returned from a camping trip through Shenandoah Drive, Blue Ridge Parkway, Smokies and Cape Hatteras. Enroute they visited Mr. and Mrs. Robert Schabinger in Raleigh, N. C.

Miss Nancy Torbert left last week for Sugar Hill Camp for Girls, at Dingman's Ferry, where she will be a counselor for the summer.

Mrs. Reed Hughes and mother, Mrs. Lenora Langrell of Frederica, were last Wednesday visitors of Mr. and Mrs. Lee Hughes and sons, Billy and Jeff, of Kirwood Gardens, near Wilmington.

Miss Dorothy Heyd, Felton School secretary, left last Thursday for Boulder, Colo., where she will attend the National Association of Educational Secretaries Workshop and Convention for two weeks.

Mr. and Mrs. Franklin Biggs and family had as their guests at a barbecue supper Friday evening, Mr. and Mrs. Allen Biggs and sons, Gary and Randy of Endicott, N. Y., Mr. and Mrs. Derrickson Biggs and daughter, Bonnie, Mr. and Mrs. Joseph Albert and daughter, Joanne, Mr. and Mrs. Robert Biggs and Miss Betty Gene.

Mr. and Mrs. Noel Nychay of near town, entertained at dinner last week, in honor of the first birthday of their daughter, Cindy.

Mr. and Mrs. Spencer Failing Jr., were guests at the Courtney family picnic held at the home of Mr. and Mrs. Spencer Failing Sr., at Moores Lake, Dover.

Mr. and Mrs. Clyde Rentz of Detroit, Mich., are spending a week with Mr. and Mrs. W. A. Wilson and other relatives here in Delaware.

Mrs. Agnes Goodnow and daughters, Bonnie and Diana spent the weekend in Milford with friends.

Mr. and Mrs. Herbert Abbott of Dover are receiving congratulations on the birth of a daughter, Catherine Jane, July 2. Mrs. Abbott's mother, Mrs. C. M. Simpler, has been spending some time at the Abbott home. Earl Abbott Jr. is now visiting his grandparents, Mr. and Mrs. C. M.

Ljubljana, Yugoslavia, will hold its 4th International Wine Fair this fall.

Stinging "Portuguese men-of-war" invaded beaches near Sydney, Australia, and 2,000 bathers were treated for stings in one day.

Mr. and Mrs. Alton Breeding and sons, Ronnie and Robin, visited Mr. and Mrs. Franklin Butler at Riverdale Sunday.

Mr. and Mrs. Willard Chew and family were supper guests of Mr. and Mrs. James Morgan Saturday evening.

Mr. and Mrs. James Morgan visited Mr. and Mrs. Russell Brown Sunday afternoon.

Mr. and Mrs. Elver Ryan, Mr. Clinton Luff, and Lawrence Sullivan visited Mr. and Mrs. Fred Walls Sunday.

Preaching at Bethel Church on Sunday morning at 9:30, the Rev. Smith, pastor. Sunday School at 10:30, supt. Mrs. Maurice Wright.

St. Stephen's Episcopal Church Notes

On the fifth Sunday after Trinity at the 1 o'clock Holy Communion service the Rev. John R. Symonds Jr., delivered a sermon on "The Peace of God." The hymn following the sermon, sung by the choir during the offering was "They cast their nets in Galilee—The peace of God, it is no peace, but strife closed in the sod."

The choir prayer hymn was the anthem "Thee We Adore" from "The Seven Last Words of Christ" by Theodore Dubois. Philip Holson sang the "Agnus Dei," John Merbecke, 1549, assisted by the choir.

After the morning service an impressive ceremony took place at St. Stephen's—the baptism of Robert Alan Reed, son of Mr. and Mrs. Harry Robert Reed, of Lees, by the Rev. John R. Symonds, Jr. Miss Viva Alena Reed was godmother. The Rev. John R. Symonds, Jr., and Edgar W. Gramble, Sr., of Philadelphia, were godfathers.

Following the service Mr. and Mrs. Clarence Reed, paternal grandparents, entertained the Rev. Mr. Symonds, members of the baptismal party and relatives at dinner at their home on Hanley Street.

Flowers on the altar were given to the Glory of God and in loving memory of Mary Olivia Fox Symonds by Mr. and Mrs. John R. Symonds, Sr., of Wilmington.

Members of the altar Guild who are serving during the month of July are Mesdames Clarence Reed, Elwood Wooters, Edwin Brown, Sr., and Miss Joyce Hopkins.

Ushers last Sunday were Messrs. Earl McColley and Robert McNally.

Frank Welch and Charles McNally left Tuesday for Camp Arrowhead, Rehoboth Bay, to spend two weeks at this Episcopal camp for the young people of the diocese. They will take part in the program prepared for the Junior division, and the session will cover the dates July 8-20.

Ronnie Porter, Gary Porter, and Roy Porter, left this week for Camp Barnes where they will enjoy a two-weeks' period of varied activities.

Acolytes who served last Sunday were Frank Welch, Charles McNally, Albert Lee Ratledge, John Edward Porter, Ronnie Porter, William McColley.

A new flower chart encasement was made and presented to St. Stephen's by Clyde Perry as a memorial to George L. Custis, Sr., father of Ellen Perry.

Plans for the reopening of the church school session in September are being formulated during these early summer months. It is planned to have the classes progress from a departmental set-up to a closely graded system, in anticipation of a forthcoming twelve class church school.

Sunday School materials have been ordered at a cost of approximately four dollars per pupil. Most of the material used will be the Episcopal Church Fellowship Series with supplemental lesson helps from the Cloister Series.

Delaware Food Market Report

Ice cream is a true budget buy. This frozen food that not only tastes good but is good for you, is one item on the weekly shopping list that costs little or no more that it did in 1951. A food bargain, no less!

The price of sherbert is still staying about the same, and in most places the five percent popsize remains a 5 cent popsize. Now a new item has been added—ice milk—its delicious, very cold, and has less calories than ice cream. So, let's have fun! Eat all you want of these cool, tasty foods, and save money.

Of course, nothing could be better than just plain ice cream, but for a change, the simplest and best ways to serve ice cream as a desert or as a between-times refreshment is to fill and frost cake with it or to serve it sandwich fashion with cake. Luscious sundaes and sodas are a welcome treat on these hot days too.

Here is a dessert which was created by a master chef and served in smart restaurants of the 90's. You might want to add this idea to your own repertoire. This dessert is called "Coupe Venus" and was created for Lily Langtry, known to Grandpa as "The Jersey Lily" - a beauty said to be so devastating that strong men trembled. The dessert is served in half a cantaloupe, with added melon balls (watermelon, honeydew-whatever you wish to add) peach ice cream, and finely sliced, sweetened fresh peaches. The whole concoction is given the final color and drama of a dash of grenadine. This dessert is quite the thing to make right now since cantaloupes, watermelons and ice cream are all excellent buys this week. Fresh peaches are coming down in price and soon will be on this best buy list.

There is more and more evidence of the summertime abundance of both fresh fruits and vegetables. This weekend look for good buys in cabbage, snapbeans, lettuce, cucumbers, green pep-

pers, onions and potatoes. Tomatoes are cheaper, especially those in cartons, but look carefully before buying. As far as fruits are concerned, the best buys are watermelons, cantaloupes and lemons. Blueberries from New Jersey are excellent in quality, and prices are fair. More cherries are arriving and many stores will begin to feature this fruit. Seedless white grapes are more prevalent also, and of course fresh peaches are beginning to arrive in large volume.

The meat picture is about the same. To stretch your meat dollar, be sure to make the most of the special featured by the many stores. Poultry remains the best buy but look for good buys in hams, both cut and whole, roast of beef, rib, shoulder and chuck, and on many picnic meats as hot dogs or frankfurters, cold cuts, etc.

Mr. and Mrs. Carl Fountain and family of Philadelphia were recent visitors of Mr. and Mrs. James C. Fountain.

BE WISE—ADVERTISE

Caesar Rodney School News

At the recent reorganization meeting of the Board of Education of the Caesar Rodney Special School District, C. Fred Fifer, was re-elected president of the board and Dr. Harry G. Neese, Jr., was re-elected vice-president.

H. Kline Lingo was renamed chairman of the building commission with James R. Bennett being the vice-chairman.

Dr. William B. Simpson, superintendent, serves as secretary of the board.

Custodians Plentiful—Teachers Scarce

From a field of ten candidates the Caesar Rodney Board of Education recently appointed Walter Raughley to fill the vacancy in the custodial staff at Caesar Rodney School created by the death of Milburn Ratledge.

However, the Board is finding no surplus of classroom instructors. After filling an English vacancy and upper grade elementary school vacancy the Board counted a total of 12 vacancies remaining at Caesar Rodney and five more at the Air Base School. Four of the vacancies are new positions in addition to the Air

Base School faculty of ten new instructors.

Richard W. MacFaddin, high school principal, reported several applications in social studies, the one area where the supply appears adequate. The greatest scarcity of applicants is in high school English and primary grades.

Among the recent new Caesar Rodney staff members are Miss Betty Ann Clute of Wyoming, to teach English and Howard Fortney of Tunnelton, West Virginia to teach in the elementary school.

Greenwood

The finals for the two-weeks' Vacation Bible School at Pilgrim Holiness Church will be held Sunday morning at 10 a.m. The children will recite and display their work. Awards will be given to those with perfect and commendable attendance, and to those who have satisfactorily completed the work. The children will take part in leading the singing and telling the Bible stories which they have been taught.

Miss Nancy Walker and Miss Nancy Kirkpatrick of Philadelphia have been house guests of

Mr. and Mrs. Robert Robinson this past week.

Mr. and Mrs. Barry Sisson and children of Washington, D. C., spent the holidays with Mr. and Mrs. Nelson Meredith Sunday. The group, including Nelson Meredith Jr., visited Mr. and Mrs. Donald Lynch of Selbyville. From there the men took a boat to Sandy Landing and the women and children followed by car, where they enjoyed a picnic with boat rides, water skiing, etc.

Mr. and Mrs. Charles Jones, Mr. and Mrs. Jacob Hatfield and Ellen, Mr. and Mrs. Allison Davis, Mr. and Mrs. Lawrence Meredith motored to Kutztown, Pa., over the holidays and attended the Pennsylvania Dutch Folk Festival there. The group enjoyed the displays of arts and crafts and the entertainment offered by the local people.

Mrs. Allison Davis, Mrs. Woodrow Draper and Mrs. Lester Hatfield gave a stork shower Thursday for Mrs. Noah Cain.

Japanese film critics in Tokyo voted the Italian film La Strada the best dramatic film shown in Japan in 1957.

Radio set sales are booming in the Belgian Congo, where TV still is non-existent.

NOW! WONDERFULLY NEW, THRIFTIER WAY TO BUY GASOLINE!

America's six finest gasoline grades (OCTANE RATINGS) custom-blended to fit any car today -from this one spectacular new blending pump!

© 1958, SUN OIL COMPANY

This you can have! Today's big difference—in gas costs, and performance—something 3 out of every 5 car-owners have never been able to get, up to now!

- EXACT OCTANE-STRENGTH YOUR ENGINE NEEDS
- HIGHEST-OCTANE "REGULAR" PRICE GAS ON THE MARKET
- SAVINGS UP TO \$1.00 A TANKFUL OVER OTHER "PREMIUMS"
- MOST MILES PER DOLLAR...SMOOTHER, KNOCK-FREE POWER

It's the big difference, all right. You'll feel and hear it from your engine... count it in what you save on gas.

Cars are not unlike men—in what they need to do their stuff. Few men can eat, or thrive on identical food.

Two cars of the same make, model, age and even the same mileage can vary as much as 8-10

octane points in what they need to perform best! It's hopeless to expect that all the cars running today can be correctly powered on 2 or 3 "ready made" gasoline grades. That's what Sunoco's brilliant new blending pump corrects... by custom-blending on the spot the right fuel, for every car it fills. Ready and waiting, today! Come see for yourself!

In money, performance, mileage... TODAY'S GREATEST GASOLINE VALUES... FOR YOUR CAR!

Entirely new Thriftier Way to Get Gasoline! This is what happens: Dial (A) is set for any one of six "custom blends" desired. This precisely controls proportions drawn from each of two tanks. In one, premium quality straight Blue Sunoco '200', higher octane

SOME EXAMPLES: CARS AND THEIR CUSTOM-BLEND NUMBERS:

'55 Chevrolet — 6, V-8.....200	'57 Plymouth—V-8 Deluxe...210
'57 Chevrolet V-8 Deluxe...220	'55 Oldsmobile.....210
'55 Ford — 6, V-8.....220	'56 Pontiac.....210
'58 Ford V-8 Deluxe Models...210	'58 Edsel — Ranger, Pacer...240
'56 Dodge V-8 Power Pack...210	'58 Cadillac.....240
'56 Buick Special.....220	'58 Mercury — Power Pack...260
'56 Buick — All Others.....230	'58 Rambler.....200
'57 Plymouth — 6, V-8.....200	'58 Imperial.....260

Get complete pocket chart at any Sunoco station... showing all cars, new and old, with their Custom-Blend grades. It's simple... your right Sunoco grade is easy to remember by these convenient numbers: '200'—'210'—etc.

Special Note: With the right Custom-Blend, your car may need less octane than you've been buying! Start with blend chart shows; next time, try next lower Custom-Blend. Many cars do perform smoothly on a lower Custom-Blend.

NOTICE To Taxpayers

I, THOMAS C. ROBBINS, Receiver of Taxes in and for Kent County, do hereby notify the Taxpayers of said County that pursuant to the Provisions of Volume 37, Chapter 105, Section 2 of the Laws of Delaware and 1935 Revised Code of Delaware No. 1403, Sec. 6, 1 will sit during the months of July, August, September and October at the places on the dates hereinafter named, between the hours of 9:30 A.M. and 3 P.M. for the purpose of receiving County Ditch and Special School Taxes due in Kent County:

Veterans News

QUESTIONS AND ANSWERS
 Q—I named my mother as the beneficiary of my GI insurance policy, and indicated that the money be paid to her in a lump sum. Would she have the right to change to some other method of payment if she desired?
 A—Yes. She could choose to receive the GI insurance payments under any of several installment plans available.
 Q—Does the fact that I am getting VA compensation for a disability incurred in Korea automatically entitle me to vocational rehabilitation training?
 A—No. The law requires that a disabled veteran be in need of training to overcome the handicap of his disability. If need were established in your case, you would be permitted to train.
 Q—I plan to sell my GI house and let the buyer take over my loan. If the VA grants me relief from liability, does that mean that GI loan entitlement will be restored?
 A—No. Release from liability does not mean that your entitlement will be restored. VA restores entitlement only under certain conditions, and then only when the loan is paid off so that VA is no longer liable on the guarantee.
 Q—If I take on-the-job training under the Korean GI Bill, will I receive the same rate of allowance throughout my course?
 A—No. Under the law, GI allowance for on-the-job trainees must be reduced at four-month intervals, as the training progresses.

Cub Scout News

The Cub Scouts of Pack 76 and parents will picnic at Lewes Beach Sunday, at 1 p.m. Each family will bring a covered dish, eating utensils, and each den a card table.

New Potatoes
 Now that early-crop or new potatoes are on the market attention should be called to their characteristics that homemakers can buy and use them to best advantage.
 New potatoes are more perishable than late-crop potatoes because they are harvested before they reach maturity. They also are easily bruised because of their thin skins. Even under the most favorable home conditions they keep only a few weeks, so buy them in small quantity.
 Research on potatoes at the U. S. Department of Agriculture's Institute of Home Economics shows they keep best where it is cool but not in as cold a place as a refrigerator. Storage temperatures of forty-five to fifty degrees Fahrenheit are best.
 Potatoes should be stored where there is some ventilation—never in an airtight container.
 Early-crop potatoes hold their shape during and after cooking. Thus they are favorites served plain, boiled in their jackets, in salads, hash-browned, creamed and parsley buttered. Early-crop potatoes contain slightly more vitamin C than more mature potatoes or those that have been held in storage.
 Here are a few suggestions for getting the most nutritive value from new potatoes. Place unpeeled potatoes in a small amount of boiling salted water. Use about two cups of water and one half teaspoon of salt for four medium-sized potatoes. Cover the pan and boil gently in order not to break up the potatoes. When done, drain potatoes at once to prevent sogginess and uncover to let steam escape.

Armed Forces Notes

James F. Walsh, son of Mrs. Marguerite V. Walsh, Route 3, Harrington, recently arrived in France and is now a member of the U. S. Army Signal Depot.
 Walsh, an engine and generator repairman, entered the Army in December 1956 and received basic training at Ft. Benning, Ga. He was last stationed at Tobyhanna (Pa.) Signal Depot.
 The 19-year-old soldier is a graduate of Harrington High School.

Poultry Show Announced

Sam Sloan, superintendent of the Poultry Building at the Kent-Sussex Fair, announced that there will be a new feature in the poultry program this year, a junior egg show.
 To enter any part of the junior poultry show, you must have an entry blank in the mail by July 14, be from Delaware and be under 21 years old, Sloan said.
 There is no entry fee and all exhibitors will be given a pass to the fair.
 There will be four age categories for each breed, and four prizes in each class, \$5 for first, \$3 for second, and \$2 for third and a ribbon for fourth.
 The breeds are: White Leghorn, White Plymouth Rock, New Hampshire, Rhode Island Red, Cornish (any variety or strain) and any other pure breed. The age groups under each class are: (with the exception of the Cornish and White Leghorn) pullet 4-8 months, pullet 8-12 months, cockerel 4-8 months and cockerel 8-12 months.
 The exception in the White Leghorn class is a class for hens more than 12 months old. The exceptions in the Cornish is that there is no pullet classes.
 There are also classes for all breeds of broilers, roasters, capons, ducks, geese, turkeys, guinea fow, bantams, (pure breeds only) pigeons, peafowls, pheasants, chukar partridge, quail and rabbits.
 Sloan said the junior egg show will be separate from the 4-H and F.F.A. egg exhibits, although 4-H and F.F.A. eggs will be shown in the poultry building. Eggs will be judged for size and exterior quality.
 Classes will be in three sizes, medium, large and extra large, with one dozen in each entry. Each class will have both white and brown categories.
 There is also a senior egg show for adults, the only difference in the classes being that three dozen eggs are required for each entry.
 For information or entry forms contact, Ralph Barwick, assistant extension poultryman at the University of Delaware, Sloan said.

National 4-H Group

Maryland's 4-H dairy judging team has done it again—for the sixth time it took the honors in international competition, announces W. Sherard Wilson, state 4-H club agent, University of Maryland. Wilson received word early last Thursday morning.
 The USA team scored 1237 points to top Scotland (1216) and Wales (1152) at the Royal Livestock show, Bristol, England. Howard Stiles, 20, Frederick, took top individual honors with a score of 328. Roberta Messner, 16, Rt. 2, Gaithersburg, placed fifth with a score of 315. James Ray Hill, 19, Woodbine, scored seventh with 307 points. Jerry Ensor, 20, Forest Hill, scored 14th with 287 points.
 This year is the 11th year Maryland 4-H dairy teams have competed in England. Team coaches are John Morris, University of Maryland extension dairy specialist, and M. Gist Welling, assistant county agent leader. Mrs. Welling is with the group as a chaperone.
 Howard Stiles, the top scorer in the contest, is the son of Mr. and Mrs. John T. G. Stiles. His other honors include winning a Jersey calf presented at the 350th anniversary of Jamestown, Va., last year. He has also won state and sectional honors for his 4-H dairy project work. This year he was chosen a national winner of the National Jersey Youth Achievement contest.
 Indian universities have 10,000 more seats for science students this year than last.

Local Scouts in Wilds of Canada

Four local explorer scouts and their leader, Roland D. Hitchens, are now in the Canadian wilds and will be out of touch of civilization for nine days. The four local boys, David Hitchens, Robert Eastman, Paul Wagner, and James McDonald are members of a party of 38 explorers and leaders from Delaware making the trip.
 The group left June 26 via a chartered bus driven by James Kearney of Salisbury and stopped overnight at Ft. Niagara, N. Y. It was at this point that Roland Hitchens revealed to the rest of the contingent that his crew had sailed for their canoes and were going to let nature do some of the work. South Delaware had come up with something that no one else had thought about.
 The second night, the group spent the night at the Grosse Ile Naval Air Station (the most lush of all their stopovers), and Saturday night at the Kinross Air Base at St. Ignace, Mich. They crossed the new Mackinac Bridge that crosses the Mackinac Straits between Lake Huron and Lake Michigan and were amazed to find that it was not as long a span as the Delaware Memorial Bridge yet passenger cars had to pay \$3.25 and their bus \$8 toll to make the crossing. Monday night they stayed near Duluth, Minn., and Tuesday morning rolled into the Somers Canoe Base at Ely, Minn. There they received a 24-hour training and orientation course for their trip through the

Wilds of Quetico Provincial Park, Canada—hundreds of thousands of miles of unspoiled wilderness.

The most exciting part of the training program was learning how to recover pack and paddles when a canoe upsets. The boys had to paddle 100 yards off shore and while fully dressed, upset the canoe and recover dummy packs, heavy with rocks, right the canoe, and return all equipment to shore.
 Each crew of about 12 boys and leaders will be accompanied by a native guide. Most of the food to be taken on the trail will be dehydrated. Each crew will have 10 pounds of pancake mix, 10 pounds of potatoes, 20 pounds of sugar, four pounds of spaghetti, eight pounds of onions, and three pounds of farina plus any number of pounds of dehydrated milk. The boys expect to catch fish to augment their food supply.
 The Del-Mar-Va crews will be vying for the 50 Miler Award, given to crews that cover 50

4-H Club Notes

The Sunshine 4-H Club met recently at the home of Marilyn Jarrell. Jean Martin called the meeting to order. The Bible was read by Marilyn Jarrell. There were 19 present and \$1.70 in dues was collected.
 It was decided not to have a beach party. The group went to the Dairy Queen to see how the ice cream is made. They were told the ice cream is not as rich as it used to be because of a shorter percentage of butterfat. The group was showed how to make a Dilly, a sundae, and ice cream cones.
 Seventeen native boys and three girls from Papua-New Guinea have won scholarships to Australian secondary schools this year, Port Moresby reports.

"THE FOLKS THAT I HAVE KNOWN"
 We have a small number of pamphlets of poems of the above title, written by the late J. Harvey Burgess, late owner of The Harrington Journal and self-styled "splitter of infinitives, mixer of metaphors, demon of the double negative, sorcerer of solecisms, perpetrator of the world's poorest poetry."
 We presume he was also a dangler of participles.
 There have been several requests for this booklet, priced at 25c, but we were unable to comply with them. Fortunately, however, we uncovered a limited supply of this valuable booklet recently while looking the effects of the estate.
 We also have a number of pamphlets, "Hosses, Hosses," written by Mr. Burgess, and depicting Harrington's harness-racing life. The price is 25c.
 When the above-named pamphlets have been sold there will be no reprints.

Farmington, Greenwood To Vote on School Merger

Efforts to get the Farmington School District to consolidate with the Greenwood School District have resulted in the scheduling of a referendum in each district for Sat., July 12.

Those in the Farmington District will decide whether they want to join Greenwood. Those in Greenwood will say whether they want them or not.

At present it is understood that only the first three grades are using the Farmington School. The number enrolled is said to be below the 15 pupils required as a minimum by the State Board of Education.

All other students from Farmington through high school attend the Greenwood School, but the Farmington District does not pay taxes to support them.

The present high tax to meet the cost of school construction could be greatly alleviated to the residents of Greenwood if the residents of Farmington would assume their rightful share of the tax burden, the board of school trustees of the Greenwood School District said in its 1956-57 report.

Such a referendum was put before the voters of each district several years ago. Greenwood favored it overwhelmingly, but Farmington opposed it.

The Greenwood school building program is progressing as planned, according to Wilbur Root, chairman of the board of trustees. It is hoped that it will be ready by the time the fall term begins. It includes four more classrooms, a gymnasium, agricultural room, manual training shop, locker room, and teachers' room.

Farm Prices

CLOSING MARKET QUOTATIONS July 3rd, 1958

CLOSING PROSPECTS APPEAR STEADY

Northern Ireland has formed a new town of 35,000 people—Newtownabbey—from the "Belfast rural district." It is the third largest town in Ulster.

Another little rail line in England, the old "Bluebell and Primrose Line" between Lewes and East Grinstead, has been closed because it didn't pay.

Ghana's strongest vaults are being installed at Takoradi to handle the country's new currency.

Delaware to Race \$50,000 Oaks Sat.

Delaware Park's quarter-million-dollar Distaff Big Three series, the biggest jackpot in the world for female racehorses, gets off to a flying start tomorrow with the 20th running of the \$50,000 Oaks at a mile and furlough for 3-year-old fillies. The series will be completed by the \$40,000 New Castle Stakes and the \$150,000 Delaware Handicap, richest of all distaff races, on the next two Saturdays.

Much of the interest in the Oaks hinges on the annual question: Is there a sophomore filly capable of not only winning this important stake, but possessed of sufficient speed, stamina and courage to over power the older fillies and mares to be met in the New Castle and/or Delaware Handicap?

The New Castle is a test of a mile and a sixteenth, while the climactic Delaware is at the classic distance of a mile and quarter. With Delaware Park's racing dates newly lengthened this year, the Distaff Big Three events are run later than before—and this is an advantage for the younger hopefuls, giving them more time to mature and reach peak strength. As a matter of record, the Delaware Handicap has been won by a three-year-old five times in 20 runnings.

Practically all of the leading sophomore fillies in training are eligible for the Oaks, headed by mighty Calumet Farm's A Glitter and Mrs. C. Ulrick Bay's Idun, last year's champion of the juvenile lassie. A Glitter, whose now-retired stablemate Princess Turia won the 1957 Delaware Handicap, has a string of four straight victories going for her, (including Belmont Park's famed Coaching Club American Oaks. Among other notable nominees are Big Effort, Movitave, Stay Smoochie, Craftiness, Dixie Miss, Bug Brush (all stakes winners this season) and many another only slightly less esteemed.

The Oaks last year was captured by Claiborne Farm's Bayou, a triumph which helped that filly to be unanimously voted queen of her age and sex at season's end.

At Amsterdam's 1958 motor car show sales were down except for the new small Dutch DAF "600".

Firms operating in Ethiopia now must register with its Commerce Minister in Addis Ababa.

Fiji is worried by an outbreak of theft and holliganism among young Fijians and Indians, Suva reports.

P. R. R. Receives Safety Award

The Pennsylvania Railroad has received the National Safety Council's Public Safety Activities Award, according to Vice-President J. A. Schwab of the Chesapeake Region with headquarters here.

The award was given for "Your active support of safety groups, with wide representation at national, state and local levels. Your excellent program of safety meetings covering on-and-off-the-job safety attended by thousands of persons from all walks of life; especially your juvenile trespassing safety meetings. In addition, your support of the 'Signs of Life' program, the manner in which all news media were used to promote safety and the 25 articles on safety and health maintenance in The Pennsy magazine."

Mr. Schwab noted that there is a monthly safety meeting in the Chesapeake Region, as well as in its several components. No week passes but the Pennsylvania Railroad employs somewhere on the region are considering at a meeting some aspect of safety, both for the public and employees.

Judges of the non competitive awards were Mrs. Bernice T. Vander Vries, member of the board, Chicago Transit Authority; Robert Oelberg, public relations director, National Association of Independent Insurers; M. E. Joldon, manager of employe and public relations, Standard Oil Co., Milwaukee, Wis., and Willard Johnson, director, National Conference of Christians and Jews.

Ocean Downs Race Meet Opens July 28

The richest horse race ever offered on the Eastern Shore is the big news for the race fans who are looking forward to the coming 24 night at the smart little half-mile racing oval, Ocean Downs.

The resort track, which inaugurates its tenth consecutive season of racing Monday, July 28, will celebrate this year's opening with the first \$10,000 racing prize in the track's history.

The rich plum is the first of the four great stake features of opening week, the Ocean Downs Colt events, and is for the 2-year-old pacers.

A record field of 97 of the top-bred youngsters now out to the races are still eligible for the opening night's feature—this is also a record colt entry for all time on the Maryland Circuit, according to Manager Dick Case.

With just the nominal entry that should declare in as starters the purse for the stake will go to \$10,000. There is every prospect now that the event may even have to be decided in two divisions, for 20 or more could come up on race day as starters.

The field of 97 lists just about every top colt star now performing on the Maryland Circuit, as well as a goodly share of the tops at the other major racing centers.

Johnny Simpson, the famed Grand Circuit reinsman, who was the leading driver on the Big Time last year, has one of the top entries for the pot of gold, in his double-barrelled entry of Chancey Farvel and Import

Freight. Chancey Farvel won a rousing victory in the \$13,200 Reading Futurity at Laurel Raceway, where he blasted out a pair of miles in 2:07.3.

The colt, owned by Cleo A. Young of Timmonsville, S. C., has been made the early favorite for the Stake. Other choices at this time are Milford Hanover, the crack youngster owned by R. R. Kirby, Milford; King Nola, that teamster Johnny Goodnough races for P. J. Baugh, Charlotte, N. C.; Cash Adios, the crack Adios youngster from the famed Ralph Kroening stables of Milwaukee, Wis.; Check Up, the colt from the Billy Haughton stable, the champion race and money-winning driver of the nation for the past five years. It's the race of the decade for the Ocean Downs fans.

Buckson Injured In Race Mishap

Backers of Dot's Prince, an 18-to-one shot in the fourth race at the Baltimore Raceway Tuesday, July 1, night, got plenty of action

for their money, but the "pay-off" was nothing to cause jubilation among Delawareans.

Driver of the pacing horse was Lieutenant Governor, Atty. David P. Buckson.

The field of horses was going to join Greenwood. Those night with Dot's Prince in the three hole when the horse's carriage hit the wheel high hub-rail, spectacularly spilling horse and driver.

Buckson was thrown over the horse's head, some 30 to 40 feet in the air, and came down on his shoulder on the hard track, fracturing his collar bone.

As he fell his leg struck the guard rail of the track breaking his left ankle.

Miraculously, the other horses in the field avoided the prostrate lieutenant-governor, who was able to crawl into the infirmary before they made their next lap. Buckson was rushed to the Bon Secours Hospital in Baltimore for preliminary treatment and transferred to the Kent General Hospital Wednesday morning, July 2, with his ankle and shoulder both in casts.

The Impala Sport Coupe with Body by Fisher. Every window of every Chevy is Safety Plate Glass.

Here are 59 reasons why Chevy's '58's biggest seller!

58 reasons would have rounded things out nicer, we admit. But the extra reason is the most important of all—you! We invite you to look over all of these fast-selling features. But if you're like most people we know, you'll just plain like this new Chevy—and that'll be reason enough to want one!

18 power teams! No other car offers such a wide choice! There are six sweet-running engines and four smooth-working transmissions. And you'll find each of the 18 power teams is available on every model!	14 Chevies priced lowest of the low-priced three. You'll find eight long, lively Chevrolet V8's and six even lower priced 6's that cost less than any comparable models in the low-priced three (based on list prices).	2 AUTOMATIC DRIVES Take a choice of smoother-than-ever Powerglide or Turbohydramatic, the only triple-turbine transmission in Chevrolet's field!
3 -tone color-keyed fabrics	No other low-priced car has Chevy's gull-wing glamor, crank-operated ventilators, polished lacquer finish or Safety Plate Glass all around!	Optional at extra cost.
BRIGHT NEW COLORS 15	4 America's best buy— CHEVROLET America's best seller!	
2 BRAND-NEW SUSPENSION SYSTEMS Take your pick—all-new Full Coil suspension... or a real air ride.*	BIG FISHER BODY FINE POINTS	Look these features over one by one at your Chevrolet dealer's—then add them up. You too will then decide you get the best buy on the best seller!

Air Conditioning—temperatures made to order—for all-weather comfort. Get a demonstration!

ABOUT 84 PER CENT OF VACATION TRIPS MADE BY AUTOMOBILE

Vacation motor travel is big business—approximately 84 per cent of vacation trips made in this country are made by automobile.

That fact was cited recently by two automobile club executives, who warned of the many traffic accidents that can occur as motor travel booms. They are: Charles W. Lawson, executive secretary of the Delaware Automobile Association and William P. Markland, manager of the Delaware Motor Club, AAA. Both are directors of the Delaware Safety Council, which is currently promoting safety in vacation driving as part of the nationwide "Back the Attack on Traffic Accidents" campaign.

"Every year more and more of us take to the open road during the summer months," they said. "And each year, more of us manage to get ourselves injured or killed in traffic accidents. They are:

1. Speed. Because many vacationists try to cover too much territory in too short a time, speed is an important factor. Nearly 3 out of 10 drivers in fatal traffic accidents are violating a speed law at the time of the accident.
2. Alcohol. People on vacation are likely to be in a holiday mood and frequently their pursuit of a good time includes drinking. Unfortunately, too many of them don't realize the danger of driving after drinking. In nearly one-third of the fatal traffic accidents a driver has been drinking.
3. Vehicle Condition. A car with worn tires, inefficient brakes, or any other mechanical shortcoming can bring about a serious accident. About 5 per cent of the cars involved in fatal traffic accidents are found to have one or more unsafe conditions.
4. Fatigue. Driving while fatigued is a foolish practice indulged in by vacationers who won't take time out to get sufficient rest. About 1 out of 13 drivers involved in fatal traffic accidents are found to be in a physical condition that could be a contributing factor in the accident. In about two-thirds of these cases the drivers are fatigued or asleep.
5. Weather. Failure to adapt their driving to weather conditions brings grief to many vacation drivers. In about 1 out of 6 fatal accidents the weather is rainy, snowy or foggy. Rain is present in about one-half of the bad weather cases.

"Don't turn your vacation dream into a nightmare," they said. "Let safety guide you all the way along your highway holiday. Drive to arrive alive!"

Supervisor Named For Special Schools

Walter L. Kabis has been appointed by the State Board of Education to serve as supervisor of special schools and classes for the trainable and institutional programs in the State Department of Public Instruction.

Kabis has had considerable experience in the field of education. He taught one year at Amherst, Mass., High School, three years in the East Orange, N. J., elementary schools, three years at Millburn, N. J. High School and two years at Newark, N. J. State Teachers College. For the past ten years he has been director of education and recreation at the Governor Bacon Health Center in Delaware City.

He was born in Newark, N. J., and was graduated from the West Side High School in Newark. Kabis received the B. S. degree from Newark, N. J., State Teachers College in 1936; the M. A. from Teachers College, Columbia University in 1940. He has also taken additional graduate work toward the doctorate degree at Rutgers University and Temple University.

Kabis is a member of the National Education Association, Delaware State Education Association, National Recreation Association, Delaware Association for Retarded Children, American Association of School Administrators, Delaware Association of School Administrators, Delaware School Study Council, Mental Health Association of Delaware, and the Naval Reserve.

He served three years in the U. S. Navy during World War II as officer in charge of gun and communications crew in the armed guard branch in the North Atlantic. After twelve crossings, he was transferred to the Pacific as gunnery officer and acting executive officer aboard a destroyer escort where he saw considerable action and for which he was commended. He presently holds the rank of lieutenant commander in the Naval Reserve.

He will assume his duties in the State Department of Public Instruction July 15.

Britain started 1958 well by exporting 59,421 cars in January, up some 6000 from 1957.

Guatemala City will have a new 500-ton-a-day cement plant and become an exporter.

A tourist card can now replace a passport in seven European nations, Brussels reports.

Israel has a new 4-year plan for water supplies and irrigation on farms, Tel Aviv reports.

Britain will build its biggest steam power plant at Thorpe Marsh, near Dorchester.

Iraq is going in strongly for spraying equipment and pest control, Baghdad learns.

Guatemala hopes to sell 6,000,000 stems of bananas in 1958, up from 5,400,000 in 1957.

CAR-TUNES

She's Been Nesting There Since My Heater Got Stuck On The Warm Position . . .

When anything gets stuck (or unstuck) on your car, make us your first port o' call. Our men have a way with cars that puts them back into tip-top shape fast. We also recommend our bumper-to-bumper check-up that stops trouble before it starts! Drive in soon.

60 Volunteers to Solicit Advertising For All Star Football Game

A total of sixty additional volunteer workers has been added to the team of solicitors in behalf of the third annual All Star Football Game.

The ladies and gentlemen are seeking advertising sponsorships for the Souvenir Programs, to be sold August 23rd when the two championship teams from New Castle County, Kent and Sussex meet in the gridiron at Newark.

The campaign for advertising is scheduled to end the week of July 14. The new volunteer workers will supplement those appointed earlier by Mrs. J. A. Frear, Jr. and Mrs. T. W. Collins, co-chairman of the Gold Team solicitation, representing lower New Castle, Kent and Sussex Counties.

In announcing the names of the new volunteers Mrs. Frear declared "Through the unselfish interest of these 60 additional workers, we will have a total of over 100 individuals contacting potential advertisers throughout all of Delaware below the Chesapeake and Delaware Canal. And we are confident that they will obtain the participation of many additional business, industrial and professional organizations in behalf of our Souvenir Program."

The All Star Game will bring together the most able gridiron talents to be found in scholastic competition throughout the State. The event—proceeds of which will do much to aid the State's mentally retarded children—has the enthusiastic support of athletic officials, coaches, sports writers and other civic minded citizens.

The new group seeking advertising sponsorships for the Souvenir Program are: Dover—Mrs. Richard C. Beckett, Mrs. Howard E. Lynch, Jr., Mrs. W. E. Holt, Mr. and Mrs. James B. Jackson, Mr. and Mrs. E. Stuart Outten, Mrs. Joseph F. Mackie, William L. Mowlds, William J. Cavanaugh, Roy M. Scrutchedfield, Harold B. Hughes, Charles Marker, Ralph Hevalow, Jack E. Scheller, George Records, Jon Jamison, Fred Bell, Jr., Lewis Gordon, and Harold C. Schmittinger.

Other Kent County (upper-) solicitors are: Mrs. Grafton R. Heather, Jr., of Hartly, Mrs. Herbert R. Butts, Maryland; Mrs. Margaret S. Story and Mrs. J. Parker of Leipsic, Mrs. Robert Knight of Little Creek, and Mrs. Malcolm Jarrell of Kenton.

Kent County (lower-) is represented by Mrs. Dale Best, Mrs. George S. McClelland, Mrs. Roy F. Maas, Mrs. M. D. Kozishi and Mrs. J. R. Bennet, of Camden. Mrs. W. Marion Stevenson, Mrs. Henry T. Purnell, and Mrs. Zora B. Tatman of Frederica. Mrs. James F. Coady, and Mrs. Lester Ruth Martin, MBHnc.srae-CkHO Hatfield of Farmington. Mrs. Ruth Martin, Mrs. Blanche Cahall, Mrs. Kathryn Simpson, Mrs. Laura Clark, Mrs. Robert E. Baynard, Mrs. Roberta O'Neal, Mrs. William R. Humes, Mrs. Charles E. Lore and Mrs. Joseph Konesey of Harrington. Mrs. Clarence J. Marker, Mrs. Ed S. Knight, Jr., Mrs. Stephen P. H. Clute and

Miss Mary E. Raughley

Miss Mary Emily Raughley, 83, died at the Fletcher Nursing Home, Felton, Sunday. She had been an invalid for the past five years.

She was the daughter of Joshua Burton and Annie Maria Raughley. She was born in Kent County, near Rising Sun, and lived for many years in Caroline County, Md., near Denton. Later she moved to Burrsville, Md. For 25 years she lived at 48 Commerce Street, Harrington, with her late brothers, J. Harry and W. Clifford Raughley.

She was a retired school teacher, having taught in both Maryland and Delaware schools. She retired from teaching after service with the Harrington Public School. She was a member of Trinity Methodist Church, Harrington. She is survived by two brothers, T. Sheldon Raughley, of Frederica and Ernest B. Raughley, of Rehoboth.

Funeral services were held Wednesday at 2 p.m. at the Boyer Funeral Home, 50 Commerce Street, Harrington. Interment was in Denton Cemetery.

The Netherlands launched 199 merchantmen in 1957, a new record, Amsterdam learns.

A Canadian hotel chain will operate a new \$1,000,000 tourist hotel in Paramaribo, Surinam.

Brazil is to have a new kraft pulp and paper plant at Canoas.

Mrs. H. Irving Holt, of Camden. In the Milford area Ellendale is represented by Mrs. Fred W. Ireland; Lincoln by Mrs. Calvin Clendaniel; Houston by Mrs. Chester C. Benson; Milford by Mrs. Gosvenor R. Russell, Mrs. Robert L. Foster, Mrs. William R. Draper, Mrs. Corinne Fooks, Mrs. W. Price Webb and Mrs. Joseph Kemp.

In Sussex (east) the names of Mrs. John C. Jankus Jr., of Bethany Beach, Mrs. Lemuel Hickman, of Frankford and A. Wayne Burton of Millsboro have been added.

In Lower New Castle County Mrs. Harris McDowell, Jr., represents Middletown.

More Than 3500 Scouts Expected To Attend Camp

More than 3500 Boy Scouts and Explorers are expected to use the facilities at Camp Rodney, the Del-Mar-Va Boy Scout Council's 1000-acre reservation on the shores of Chesapeake Bay near North East, Md., this summer.

The camp program is geared to furthering the patrol method used by troops in their at-home operations and the troops are encouraged to camp as units. The camp opened June 22.

The accent on unit leadership and patrol method is so strong that the 60 members of the camp staff will not pass a boy on his First or Second Class requirements. They will demonstrate—in five new areas set up for that purpose—the skills that are required of Second and First Class Scouts, but it is up to the boy himself to put these skills into use in a camping situation to the satisfaction of his own scoutmaster before he passes the test.

The staff will pass boys on merit badges, however. Last year, some 1300 merit badges were earned in such subjects as camping, swimming, rowing, bird study, cooking, life saving, canoeing, forestry, geology, soil and water conservation, marksmanship and hiking, etc.

In the case where a boy is a provisional camper (not with his own unit), camp staff members will initial his advancement card, but it is up to his own scoutmaster when he gets back to accept the council's word or to demand additional performance.

James C. Pyle, director of camping and assistant executive of the Del-Mar-Va Council, is chief camp director at Rodney for the 12th year. He is a former assistant to the national director of camping of the Boy Scouts of America, and has been a professional Scouter for 27 years.

Assisting him are Albert L. Smith, eight years a professional Scouter, who is field director of the Del-Mar-Va Council and is in his third year as director of pro-

gram at Rodney, H. Bruce Ayars, the council's director of exploring, training, and public relations, who is serving as director of services at the camp; James Bazzoli, a senior at the University of Delaware, director of the Lenape campsite, the new \$500,000 addition to the camp; Ronald Holfer, a junior at Maryville College, Maryville, Tenn., director of pathfinder camps, and Dana McClung, a teacher at Milford High School, director of wilderness camps.

A full-time Protestant chaplain, the Rev. Robert Florian, director of religious education at Wesley College, Dover, is on hand at the camp, and a Catholic chaplain is there on weekends. The staff also includes a doctor.

The public is invited to inspect—but if you go there on a weekday don't expect to see many boys around unless you arrive at mealtime. They're all out doing something someplace.

For instance, on day recently, almost one third of all the boys in camp ate at least one meal away from the dining halls—on patrol or troop cookouts—and that is typical.

For the Explorers, there is the Explorer Outfitting Base. These older boys plan their own program when they arrive at Rodney—and may not come back there until it's time to go home if they decide on a long canoe trip or similar adventure. They also have the opportunity to use the 12 new sailboats—something reserved for Explorers only.

Takes Own Life At Canterbury

Mrs. Lida Gruwell, 75, who resided south of Canterbury, committed suicide at her home, about 12:30 p.m., Saturday, by shooting herself with a .22 caliber rifle.

The bullet passed through her body close to her heart and police said she died almost instantly. Relatives found her body beside her home soon after the event took place.

State police, in their investigation, learned from relatives that the woman had been despondent for some time because of the condition of her health.

The body was released to the Berry Funeral Home, in Felton.

Minimum Wheat Price Support Will Be \$2.07

The minimum basic price-support rate in Kent County on 1958 crop wheat will be \$2.07 a bushel for No. 1 R. W. Wheat, Joseph W. Ennis, chairman of the Kent County Agricultural Stabilization and Conservation Committee, announced today. This would be less perhaps about 22c per bushel for such factors as garlic, loading, freight and storage. Most wheat in this area is sold as No. 2 garlicky.

As in previous years, the farmer will be able to obtain price support on wheat either by getting a loan at the support rate for farm-stored or warehouse-stored grain or by entering into a purchase agreement with the Government. A Kent County farmer who wishes to obtain a loan on terminal-stored wheat can get information on terminal rates at the county office.

Wheat price support will be available through the County ASC Office from harvest-time through January 31, 1959. Loans will mature Feb. 28, 1959.

The rate announced today is a minimum which is made available at this time because of the start of the wheat harvest. Loans will be made initially at this

rate. If the wheat parity price and other factors indicate a higher rate as of July 1, 1958, the farmer will receive the difference. The basic county rate is for Grade No. 1 Red Winter Wheat. It is further adjusted up or down for grade and quality to determine the support price for an individual farmer. The 1958-crop premiums and discounts are largely the same as those in the 1957 program.

Mrs. David W. Tucker

Mrs. Cora Mae Tucker, 79, of Harrington died Sunday evening in the Nanticoke Memorial Hospital, Seaford, after a short illness.

The widow of David W. Tucker, she is survived by two sons, Lawrence and John Tucker, both of Wilmington; a daughter, Mrs. Calvin Minner, of Harrington; two brothers, Will Donovan of Seaford, and Harry Donovan of Bridgeville; two sisters, Mrs. Charles Tucker of Harrington, and Mrs. Lyda Bradley of Bridgeville; 14 grandchildren, and several great-grandchildren.

Funeral services were held yesterday at 2 p.m. from the Church of the Nazarene, Harrington, with the Rev. Lorraine Ottinger, pastor officiating. Interment was in Bridgeville Cemetery. Friends called at the Boyer Funeral Home Wednesday.

B

We respect the religious inclinations of all faiths and families and carefully follow proper rituals.

Your Electric Company Announces

NEW LOW RATE for

ELECTRIC HOUSE HEATING

In ALL-ELECTRIC Homes

Now, look how these advantages make it the kind of heat you want in your modern home.

Electric heat is as clean and safe as electric light. No soot, no odors, no air currents to carry dust.

Electric heat is comfortable. No drafts . . . virtually even temperature everywhere in the room. No heating lag. No cold floors.

Electric heat saves space. It eliminates necessity and expense of chimney and fuel storage space. It eliminates space necessary for boiler.

Electric heat is dependable. Power flows to you as you require it, silently, automatically.

Electric heat is convenient as your other electric appliances. Flick a switch and the heat is there in the quantity you want.

Electric heat makes decorating easy. There's nothing to interfere with drapes nor the location of furniture.

Electric heat is flexible; each room has its own thermostat. Bedrooms can be cool, bathroom and nursery warm. Room temperatures can be changed as desired.

Ask at your district office for details of special new low rate for ELECTRIC HOUSE HEATING. Enjoy ALL-ELECTRIC living.

Sheriff's Sale Of Valuable Real Estate

By virtue of a writ of Venditioni Exponas, for sale of land to me directed, will be exposed to public sale by way of public vendue, at the front door of the Kent County Court House, Dover, Kent County, State of Delaware, on

TUESDAY, JULY 22, 1958 At 1:30 P.M. Eastern Daylight Saving Time

All that certain tract, piece and parcel of land, now with no buildings erected, situated in North Murderkill Hundred, Kent County and State of Delaware, lying on the westerly side of the State Highway which is U.S. Route 13, leading from Dover to Magnolia, being bounded on the East by said U.S. Route 13, leading from Dover to Magnolia, being bounded on the East by said U.S. Route 13, on the South by Lot No. 2 and recorded Plot of Lots of Watson Thompson and Carrie H. Thompson, his wife, said lot having a bearing of North 74 degrees 45 minutes and 30 seconds East 340 feet to a new corner on the west by lands now or formerly of Watson Thompson and Carrie H. Thompson, his wife, being bounded on the North by Lot No. 4, said Lot No. 4 being the said lot that was conveyed to Dorothy Mae Marvay by Watson Thompson and Carrie H. Thompson, his wife; the lot hereby conveyed being designated as Lot No. 3 and its metes and bounds, courses and distances in accordance with J. E. Haddaway's Survey of September 27, 1948, being as follows, to-wit:

BEGINNING AT A point in the west right of way line of said U.S. Route 13 at a distance of eighty-five and sixty-five one-hundredths (85.65) feet southerly, measured along said right of way line from an angle iron set in the said right of way line as corner for the said Watson Thompson and Carrie H. Thompson, his wife, to a new line established separating Lot No. 3 hereby conveyed from reserved lands of Watson Thompson and Carrie H. Thompson, his wife, running north forty-five (45) degrees thirty (30) minutes East eighty-five and sixty-five one-hundredths (85.65) feet to another point in said right of way line, a corner for Lot No. 2 conveyed to said Watson Thompson and Carrie H. Thompson, his wife, and running north forty-four (44) degrees thirty (30) minutes East thirty (30) minutes East forty-five (45) degrees and six-tenths (45.6) feet to another corner for Lot No. 2 in line of reserved lands of Watson Thompson and Carrie H. Thompson, his wife; thence by a new line now established separating Lot No. 3 hereby conveyed from reserved lands of Watson Thompson and Carrie H. Thompson, his wife, running north forty-five (45) degrees thirty (30) minutes West eighty-five and sixty-five one-hundredths (85.65) feet to another point in line of said reserved lands which is a corner for Lot No. 4 conveyed to said Marvay; thence binding with said Lot No. 4 and running North thirty (30) minutes East four hundred thirty-five and six-tenths (435.6) feet to the aforesaid place of beginning and surveyed by said Surveyor as containing 37,309 square feet of land, and being the same land and premises which Howard Nelson Cobbe and Luella May Cobbe, his wife, by their deed dated March 28, 1957 and of record in the office of the Recorder of Deeds at Dover, Delaware, Book M. Vol. 51, Page 26, granted and conveyed unto Clarence William McKown in fee simple.

Seized and taken in execution as the property of Clarence W. McKown and will be sold by THOMAS HUGHES, SHERIFF

Sheriff's Office, Dover, Delaware June 27, 1958. 3t b 7-13 exp.

India's Orissa State is short of doctors, Cuttack reports. At least 300 more are needed now and by 1961 a further 600 will be required, the Chief Minister said. Sandringham Church, in England, now has a 1,000-year-old Greek font, from Rhodes. It was presented to Edward VII when he was Prince of Wales. Fiji has a new crop-cocoa. There are 30 villages growing cocoa—526 farmers—and some cocoa will be exported before the end of 1958, Suva predicts. East Jakistan's 1958 jute crop target has been set at 5,500,000 bales, Dacca reports, from 1,405,000 acres. This would be more than was produced in 1957.

Sheriff's Sale OF VALUABLE Real Estate

By virtue of a writ of Levavi Facias, for the sale of land to me directed, will be exposed to public vendue, at the front door of the Kent County Court House, Dover, Kent County, State of Delaware, on

THURSDAY, JULY 31, 1958 At 1:00 P.M. Eastern Daylight Saving Time

ALL the following described messuage, tract, piece and parcel of land and premises situated near the village of Rising Sun, in North Murderkill Hundred, Kent County and State of Delaware, on the southerly side of the Highway leading from the place of beginning, the metes and bounds whereof are as follows, viz: BEGINNING at a point in the field at the southern right of way line of the said Highway, where a stone is to be planted, at a distance of about seventy-five (75) feet from the North-easterly corner of the said farm and distant One Hundred and Thirty-nine (139) feet from the east edge of the said wall of a cement culvert used for the entrance of the premises hereby conveyed; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes West and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330) feet and thirty-five (35) minutes East and thirty-five (35) minutes West and ending at the place of beginning, a new corner on the field where a stone is to be set; thence by a new line separating the said farm from the premises hereby conveyed, beginning point with the course of said highway according to its present bearing North thirty-three (33) degrees and twenty-five (25) minutes East and ending at the place of beginning, another culvert west of the first mentioned to a point where a stone is to be set in the said Highway for the Northwest Corner of the part hereby conveyed and being distant from the place of beginning, three hundred and thirty (330)

COUNCIL

(Continued from page one)

Jennings Cahall said an alleyway, adjacent to his home, was in weeds and asked that it be cut. The city manager was told to take care of it.

By a vote of 3 to 2, it was authorized to close the City Office during Fair Week at noon. The office is not open on Saturday.

Magnolia

T/Sgt. and Mrs. Wilbur Piet and son, Billy, are visiting her parents, Mr. and Mrs. Edward Richards. They will return to their home at Scotts Air Force Base, Ill., after spending a two weeks vacation here. Other guests of the Richards Sunday were Mr. and Mrs. Franklin Richards of Milford and Mrs. Mae Sipple of Frederica.

Mr. and Mrs. Paul Clendaniel, of Elsmere, spent the holiday weekend with Mr. and Mrs. Homer Wright.

Funeral services were held at the Rogers Funeral Home in Frederica Monday for Harry Grace who passed away at the Governor Bacon Health Center Friday, Dick, as he was familiarly known by his friends, had been a semi-invalid for several years and had been admitted to the Health Center a few months ago, where his condition worsened a few days prior to his death.

Several of the Magnolia Boy Scouts are attending Camp Rodney for two weeks of camping and training. They are Tommy Locke, James Roy Smith, Charles Bryan and Jimmy Warren, Jimmy; however is expecting to remain at Camp for a one-week period. Next week the boys will be joined by other members of the Magnolia Troop. They will be Kenneth Orvis, Jerry Frazier, George Paradee and Mark Beard.

Mrs. Albert Griffith is spending her vacation at home and has as her guests, her sister, Mrs. Joseph Martin and daughters, Linda and Barbara. Her parents, Mr. and Mrs. Richard Stroud, of Pennsylvania, N. J., will join them for the weekend and Mrs. Martinez and children will return home with them to remain with them for the rest of the summer.

Mrs. Kitty Hart and Mrs. Pauline Bennett, the latter of Dover, spent the weekend at Rehoboth.

Mrs. Maude Graybeal and Ronnie, of Port Deposit, Md., spent Sunday with her mother, Mrs. Elizabeth Schwartz.

Mr. and Mrs. James Smith, and children, have moved into their new home which adjoins the Homer Wrights residence.

"MACABRE" & "HELL'S FIVE HOURS" at Reese July 13-14-15 Insured for \$1000 Against Death By Fright

Air conditioned comfort awaits Movie Center Theatre patrons. It is well known that the Reese Theatre has the largest dual air-conditioning system on the Shore and for many seasons this has been one of the enjoyable features of this popular theatre.

According to the advertisement to be found in this newspaper, great entertainment awaits Delaware and Maryland theatre fans. An example is the great combination show listed for this Friday and Saturday July 11 & 12. Opening with a giant cartoon circus, with Gene Raymond and a great cast in the new Fox hit, "Plunder Road," and Kim Stanley and Lloyd Bridges in "The Goddess" completing this fine bill, makes for one of the ace offerings of the season.

No one ever heard this before. Nevertheless it's true. Allied Artists insures every patron for \$1000 against death by fright when they see "Macabre" and "Hell's Five Hours," at the two terrifying nightmares at the Reese Theatre, Sunday, Monday and Tuesday, July 13-14-15. The management suggests that you dare not come alone.

Felton

Mr. and Mrs. W. R. Wilson and daughters, Joan and Pam, of Wyoming, and Miss Gladys Ann Wilson of Wilmington, were Sunday guests of Mr. and Mrs. W. A. Wilson.

Mr. and Mrs. George Harrington and son, Butch, spent last week at their cottage at Big Stone. Tuesday visitors of the Harringtons were Mrs. O. B. McGinness and family and Mrs. Henry Herr and son, Vincent.

Mrs. Anna Mae Gruwell, Mrs. Bess Cubage, Mrs. Sadie Berry and daughter, Mrs. Mildred Galloway of New Orleans, attended services at the Methodist Church in Wyoming Sunday morning.

The Rev. and Mrs. Larry Renner and the Rev. and Mrs. Donald Willey and family of Dover, visited Williamsburg and Jamestown, last week.

A number of people from this community attended the funeral services of Mrs. Sadie Fowler Wright in Milford, Monday afternoon. Mrs. Wright had resided

near Viola and Frederica a number of year ago and was well known in this community.

Mrs. Mary Ellen Melvin is spending a few days vacation in New York City.

Carroll Moore of New Castle called on his uncle, Walter H. Moore and family, Sunday morning.

Mrs. Paul Hughes spent the weekend in Lewes with her parents, Mr. and Mrs. W. O. Warrington. Mr. Warrington is on the sick list.

The Manship Church will have a home-made ice cream and cake festival, Friday evening, July 18, in the Manship Church House, West of Felton.

Burrsville

Wesley Sunday School 10 a.m., Norman Outten, supt. Worship service 11 o'clock sermon by the minister, the Rev. Donald Liddicoat. Union Sunday School 10 a.m. Robert Collins supt.

The Rev. and Mrs. Liddicoat are the parents of a baby boy born in Easton Memorial Hospital.

Mr. and Mrs. Lawrence Collihan and family and Mr. and Mrs. Eugene Spence and daughters were at Trap Pond Saturday.

Mr. and Mrs. Gary Booker of Cleveland, O., are spending their vacation with Mr. and Mrs. Charley Welch and the Rev. and Mrs. Manuel Barque and family at Vienna, Md.

Mr. and Mrs. Eugene Eike Sr. and Eugene Jr. visited her parents in Virginia recently.

Sylvia Willis is spending the week in Rehoboth accompanied by Jane Lister and Fay Redden from Ridgely.

Mr. and Mrs. Robert Stafford spent the weekend at Rehoboth as the guests of Mr. and Mrs. Brown Thawley.

Mr. and Mrs. Edwin spent the day Sunday with Mr. and Mrs. Carroll Williams near Crumpton.

Pat Baker spent Friday evening and Saturday with Miss Jean Records of Laurel. She was the bridesmaid at Miss Records' wedding at 6 p.m. Saturday in Centenary Methodist Church, Laurel.

Mr. and Mrs. Francis Kohland, son Arthur of Collingsdale, Pa., and daughter, Mrs. Marie Welch and children of Harrington, spent the afternoon Saturday with Mr. and Mrs. Charley Welch.

Mrs. Sally Anthony of near Whites Church, mother of Ralph Anthony, is very ill at this writing.

Shipbuilding

(Continued from page one)

built all along the Atlantic Coast. It was in the building of iron and steel ships that the Delaware River was supreme, and this is the tale The American Clyde tells.

An earlier volume, a picture book entitled The Bay and River Delaware, also was the work of Dr. Tyler.

Of Local Interest

A 1/C and Mrs. James H. Foster and daughter, Barbara of Woodside Trailer Park and A 2/C and Mrs. Charles W. Taylor of Rising Sun, visited Foster's home in Sparta, Tenn., over the weekend. Both couples were recent residents in Harrington. Mrs. Taylor was the former Viola Vanderwende of Harrington.

Mr. and Mrs. Roland Stayton are vacationing in the New England States.

Mrs. O. C. Passmore has returned home after spending a few weeks with her daughter, Mrs. Raymond Wilson, in Wilmington. Mrs. Wilson returned with her mother for a stay of a few days.

Jeanie Barlow, daughter of Mr. and Mrs. Clarence Barlow, spent the holiday weekend in New York with her Uncle and Aunt, Mr. and Mrs. Raymond Pyle.

Wayne, Faye, and Billy Porter, are spending two weeks with their brother, Harry, in Baltimore.

Gary and Roy Porter, son of Mr. and Mrs. Leon Porter, left Monday for Camp Barnes for two weeks.

Mr. and Mrs. George Messick and family of Milford visited with Mrs. Messick's grandmother, Mrs. O. C. Passmore, Sunday.

Mr. and Mrs. Robert Wix spent last week in Rehoboth.

Mrs. Sally Dickerson spent Friday with Mrs. Annie Cahall at the home of her daughter, Mrs. Elizabeth Wilson. Mrs. Cahall was celebrating her 87th birthday.

Mr. and Mrs. Homer Stafford of Chester, spent the weekend with their daughter, and son-in-law, Mr. and Mrs. Novelle Reynolds.

Mr. and Mrs. Leon Kukulka and family spent Sunday with Mr. and Mrs. Ernest Vogl and family.

Mr. and Mrs. William Kohel and family, Mr. and Mrs. Frank Murphy and family, and Mr. and Mrs. Leon Kukulka and family had a picnic at Lewes Beach Friday.

Mrs. Leon Kukulka celebrated her birthday Sunday.

Mr. and Mrs. Herman Longfellow and Mr. and Mrs. Oliver Reed of Clayton, spent a day last week at Riverdale.

Mr. and Mrs. W. R. Massey spent the holidays with Mr. and Mrs. Albert Stevens and Mr. and Mrs. Leonard Stevens at their cottage in Rehoboth.

Mr. and Mrs. E. A. Richardson spent the holiday weekend in Rehoboth.

Miss Lewes and Mrs. Pyle of Rehoboth spent Monday afternoon with Mr. and Mrs. E. A. Richardson.

Mr. and Mrs. William Jester spent Thursday in Rehoboth.

Kenna Jo McKnatt spent the weekend with her friend, Betty Ann Faust, in Lewes.

Mr. and Mrs. Fulton Downing and family spent Saturday at their cottage at the Indian River Yacht Basin.

Mrs. Margaret Saunders, Miss Nellie Hopkins, and Mrs. Mildred Wyatt and son, Tommy, visited friends in Oxford and Preston, Md., one day last week.

Mrs. Grace Adams and Mrs. Helen Porter spent Saturday in Wilmington.

Mrs. Katherine Townsend of Moorstown, N. J., is spending a few days with her sister and brother-in-law, Mr. and Mrs. Charles Hopkins.

Mr. and Mrs. Clarence Black and son, Richard, spent Friday with Mr. and Mrs. Wilson Manship in Grasonville, Md.

Mr. and Mrs. Fulton Downing and family, were invited to a cook-out supper Sunday by Mr. and Mrs. Wilson Sockrider of Milford.

Mr. and Mrs. Ernest Wright have returned from a visit with their granddaughter, Mrs. Rhea Lee Green, of Birmingham, Ala. Jim Schiff, Dwight Hackett, and Keith Burgess attended a track meet at Woodbury, N. J., Friday.

Mr. and Mrs. Leon Porter and family spent a few days with Mr. and Mrs. Harry Porter in Baltimore last week.

Mr. and Mrs. Louis Price and family of Alexandria, Va., spent the weekend with his mother, Mrs. Alice Price.

Mrs. Bessie Donovan and Mrs. Hattie Edge of Chester, were Saturday afternoon visitors of Mr. and Mrs. Nelson Melvin.

Mr. and Mrs. Reuben Butler Jr., and son were weekend visitors of his grandmother, Mrs. Sally Maloney.

Sylvia and Bob Outten spent last week with their grandmother, Mrs. Nettie Collins, of Laurel, while their parents were in Columbus, O.

Place Poult Under Hover Early

When's the right time to put the turkey poult under the hover in the brooder? Well, turkey growers have found it best to place the poult under hovers or in batteries as soon as they are sturdy enough to walk well and start to feed, according to Wade H. Rice, extension poultry husbandman. At the University of Maryland, early March-hatched poult are usually moved from incubator to battery brooders as soon as they are hardened off. At first these young poult sleep instead of eat—and after several hours of sleep they start to eat. This means they usually get off to a good start.

Poult less than 48 hours old are likely to start eating without much trouble—but if they're over 72 hours old, they are likely to become more obstinate. So it's a good idea to get the poult to a place where they can have access to water and feed as soon as you can.

When baby turkeys are first placed under brooder stoves or in batteries it takes several hours for them to learn to move away from the heat, or toward the heat, to

find the most comfortable temperature. If you place them in the brooding pens by noon, they have the afternoon to adapt themselves to their environment by sunset, and are not so likely to pile up and crowd the first night. Experienced turkey growers report that placing the poult in the brooder before noon is advisable—especially during hot weather when there is less contrast in temperatures under the hovers and other parts of the pens or batteries.

Control Crabgrass In Lawns Now

Crabgrass is here. If you have a lawn, garden or flower bed you know that crabgrass is now up and beginning to spread. Unfortunately, in the garden or flower bed there are no control chemicals, the old-fashioned method of pulling it up still being the best says Dr. Paul W. Santelmann, extension agronomist.

In lawns we now have several very useful chemicals that can be used to control crabgrass. Probably the two that will do the best job at this time of the year are disodium methyl arsonate (DSMA) and potassium cyanate.

These are, of course, the chemical names, not the trade names. There are a large number of trade names that these two chemicals have on the market, but if you plan to buy them you will find that somewhere on the container it will always list what the chemical is.

Both of these two treatments will control the crabgrass without severely injuring the desired lawn grass. They may cause slight injury by burning the tips of the grass, but then the burned area would be removed with the next mowing. Probably two or three treatments will be needed to do a complete job.

Whenever using weed control or other types of chemicals on a lawn keep some standard precautions in mind.

1. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

2. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

3. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

4. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

5. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

6. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

7. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

8. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

9. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

10. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

11. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

12. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

13. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

14. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

15. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

16. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

17. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

18. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

19. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

20. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

21. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

22. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

23. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

24. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.

25. Use chemicals when the soil is moist. You will not get nearly as good control when the soil is hot and baked over and dry. Under these conditions most weeds are less likely to be killed by the chemicals.
