

CITY TO MAN GUNS TO COLLECT DELINQUENT TAXES; COUNCIL APPOINTMENT VETOED

The City of Harrington is prepared to bring suit after Nov. 1 on this year's delinquent taxes, it was revealed Monday night in another marathon meeting of the City Council.

Under law, City Manager Norris C. Adams is responsible for collection of taxes before Dec. 31. After Herman Cabbage Brown, City solicitor said he thought it would be good public relations to notify the delinquents before instituting suit, it was agreed to send a two-weeks' notice to those persons in arrears. The Council also passed a motion to bring suit for all 1958 taxes not paid after Nov. 1.

Total 1958 taxes delinquent as of Sept. 30, are \$4077.70, of which \$3065.50 are on property and \$1012.20 for capitation, or head tax.

Attorney Brown also discussed zoning ordinances with the Council and told the group they would be in shape in five to seven days.

He also commented that purchase of the Townsend property west of town has been delayed by a squabble of the heirs of Amos Townsend. The property was to be used for a City dump.

Tapping on Water Mains

Councilmen Alan Rutledge and George Exley were named by Mayor Dr. Hewitt Smith to a committee to formulate a policy for tapping onto water mains.

The Council, however, brought out what it had in mind, namely: The City is not responsible for tapping of a water main. The property owner is to secure the services of a licensed plumber who borrows the City's tapping machine. The plumber is to secure a permit from the City Hall, at \$20, and the property owner must pay plumber for permit and his work.

The Council also agreed that no permits for tapping to sewer and water mains be granted before being paid for.

The Council also motioned to send water bills to the property owner, as specified in the sewer and water code.

Water Rentals

The new water rentals, in effect Oct. 1, are operating under a schedule of flat rates, instead of the spigot-count used previously. The new schedule raised some rates and lowered others and was designed to yield the same total return as formerly.

Several appeals have been made by those who did not understand the new schedule, or whose rates had been raised.

The residence of Mrs. H. C. Austin, who rents rooms on Fleming Street, was classified under Commercial No. 2, at \$7.50 per quarter, as was the establishment of Mrs. Norman Oliver on the same street.

Complaints were also received from Chauncey Messick, Tharp Harrington, and Charles Jerread, owners of commercial establishments on which water rent had been raised to \$15 per quarter.

Messick, who lives out of town on U.S. 13, in a letter, said his water bill was too high at \$22.50 per quarter. He has a residence and a filling station and commented he favored establishing costs by a water meter.

The Sport Shop and Jerread's Newsstand expressed dissatisfaction with their being classified as restaurants in billing for water rentals. Both have soda fountains and snack bars. The Council ruled that eating places were restaurants and had to have restaurant licenses from the State of Delaware. One councilman added some of the eating places had icemaking machines.

Some councilmen thought that, when the money was available, water meters should be installed on properties of those persons dissatisfied with their water costs.

Asphalt Plant

J. M. Fair, of the Pennsylvania Railroad, appeared before the Council, in behalf of the Henry Eastburn Company, of Newark. The company is considering establishing a temporary asphalt plant on railroad property south of the fairgrounds crossing. Fair thought the plant would be there two years and wanted to know the opinion of the Council on the matter.

The Eastburn firm, highway contractors, is improving Route 18 out of Bridgeville towards Federalsburg. The firm would employ about eight persons at the plant. The firm is also considering a Dover site, Fair said. The Council recommended that

Harrington High Makes Successful Debut In Cross Country Run

By Keith S. Burgess

Harrington High, which is pioneering in cross-country in lower Delaware won a triangular meet with Centreville and Greenwood on a 2.3 mile course near Killen's Pond on Tuesday afternoon.

Greenwood had only three men so were placed third automatically as five men constitute a full team. Centreville has had cross-country for four years so the locals were up against experience.

Unlike other sports cross-country meets are won by the team with the lowest score. H.H.S. had 17, Centreville 42 and Greenwood 44.

Dwight Hackett slowly rounding into shape after a knee injury set the pace for two miles and then relinquished the lead to the winner, Harry Knotts, who nosed Bob Bonniwell in second place by only three seconds. Geo. Pfeiffer was fifth in the fold of 21 and Dennis "Buck" Bradley, who has had only one previous workout was sixth to give Harrington five of the first six places.

The course is very rugged and hilly with sand in spots so Knotts' winning time of 14:19 was excellent considering the circumstances.

Walter Lekites and David Hitchens continued to improve finishing eighth and eleventh respectively. Other Harrington runners who are rounding into form all went the full distance. The list includes Bill Pike, Ken Hoffman, Leonard Masten and Jon Ingenthron.

Next week the team's toughest opponent Easton comes here on Wednesday at 4 o'clock. If the locals can get by this one they probably will come up to the state championship meet unbeaten. This is a team of the future as 11 of the 12 on the team are sophomores and the other is a junior.

TEEN TIMERS DANCE

Teen Timers Football Dance was held Sept. 27 at the Harrington New Century Club. Honored guests were Mr. and Mrs. Richard Jeffers and members of the football team. Kenny Paul Outten presented a miniature football autographed to Coach Jeffers from the Teen Timers.

Hot dogs, potato chips and cokes were available, prepared and served by the Teen Timers officers, Judy Cain, president; Patsy Jack, vice president; Anne Perry, secretary; Bonnie Satterfield, treasurer.

The next dance will be tomorrow 8-10:30 at the Harrington New Century Club.

Holland's New Motel Amsterdam will be Europe's largest, with 250 beds.

The Rev. Symonds Heads Scout Fund Drive

The Rev. John R. Symonds Jr. is the local chairman of the general solicitation for the annual fund raising campaign of the Del-Mar-Va Council, Boy Scouts of America, launched this week in communities all over the Delmarva Peninsula. The Rev. Symonds heads a large team of workers from the Harrington Rotary Club, sponsors of Boy Scout Troop 76 and Explorer Post 76.

"The funds raised are our share of the Del-Mar-Va Council's annual budget to maintain the Boy Scout program in the 14 counties and more than 110 communities on the Del-Mar-Va Peninsula that are served by the council. Local Scouts benefit from the year round staff and facilities for camping at the Rodney Scout camps, trained professional administration of the council's 12 districts, staff and facilities in the form of the council office to maintain adequate records of membership, advancement, badge and insignia supply service, bulletin service and mail contact."

Lester Smith is local auditor for the campaign. Robert H. Creadick, advance gifts chairman for Harrington, reports his phase of the drive completed.

Walter Lekites and David Hitchens continued to improve finishing eighth and eleventh respectively. Other Harrington runners who are rounding into form all went the full distance. The list includes Bill Pike, Ken Hoffman, Leonard Masten and Jon Ingenthron.

The Avon Club opened with a luncheon and business meeting, on Oct. 1. Mrs. Howard Henry, hospitality chairman, and her committee: Mrs. Gordon Maris, Mrs. Edgar Killen and Mrs. Ida Hughes, were in charge of the luncheon. Mrs. Harold Schabinger, the new president, presided at the business meeting.

Mrs. Richard Hardy gave a very interesting detailed report of the May Conference held in Dover. A number of the 14 club members, who attended the fall conference, in Newark reported on the sessions that they attended.

The club voted to give the usual donation to the Palmer Home. Mrs. Jester will represent the club at the Palmer Home, Oct. 8.

The club also voted to continue the Education Scholarship. October 15, the club will have a program on Education. Mrs. Barratt Simpler, Education chairman and her committee: Mrs. Albert Warren, Mrs. C. M. Simpler, Mrs. Virginia C. Morrow, and Mrs. W. W. Wood will be in charge.

Eleanor Wagner, Gary Homewood Exchange Vows

The marriage of Miss Eleanor Anne Wagner, daughter of Mr. and Mrs. Howard S. Wagner, to Gary Bullock Homewood, son of Mr. and Mrs. Ernest Homewood, all of Harrington, took place in Asbury Methodist Church in Harrington at 4 o'clock Saturday afternoon. The Rev. Richard S. Gibson, pastor performed the double ring ceremony.

Mrs. Richard S. Gibson was the soloist accompanied by Melvin Brobst at the organ.

The bride, given in marriage by her father, wore a gown of white imported hand clipped Chantilly lace over taffeta, featuring a sabinia neckline of iridescent sequins and seed pearls. Her scalloped veil of silk illusion was held in place by a lace pill box trimmed with sequins and seed pearls. She carried a white orchid on a lace covered Bible with satin streamers.

The matron of honor, Mrs. David Reiff, Dover, wore a coral floor length gown of peau de soie. Her face-length veil was held in place by a matching sequined crown. She carried a cascade of turquoise carnations and stephanotis.

The bridemaids were Mrs. Gordon Warner, Greenwood, sister of the bridegroom, Miss Grace Graham, Wilmington, and Miss Lena Voss and Miss Mary Jo Pitlick, both of Harrington. They wore gowns and accessories identical to the matron of honor with Mrs. Warner and Miss Pitlick wearing turquoise and carrying cascades of coral carnations. Miss Graham and Miss Voss wore beige and carried cascades of coral carnations.

The flower girl, Miss Jean Louise Price, was gowned in a white silk organza floor length dress with a heart shaped bonnet and matching mitts. She carried a white basket filled with turquoise and coral carnations. Emory Scarff, Bel Air, Md., cousin of the bride, was ring bearer.

Robert Cain, Harrington, was best man. Ushers were William McCafferty, Newark, Russell Tatman, Wilmington, Gordon Warner, Greenwood and Everett Warrington, Jr., Felton.

After the ceremony, a reception followed in the Collins building adjoining the Church.

The bride is a graduate of Harrington High School and Goldey Beacom School of Business and is now employed in the law offices of Terry and Draper, Dover.

The bridegroom is a graduate of Harrington High School and the University of Delaware. He is a member of Tau Beta Pi national honor society and is now employed in the engineering department of the State Highway Department, Dover.

After a wedding trip on the Skyline Drive, Mr. and Mrs. Homewood will make their home at 114 Dorman Street, Harrington.

THIS CORN, RAISED BY FRED MARTIN, will have an estimated yield of more than 100 bushels per acre on a tract of about 20 acres on the former Black Farm on Raughley-Hill Road. A cover crop of rye-grass was turned under and about 400 pounds of 10-20-20 fertilizer applied per acre. In June, the corn was sidedressed with about 150 pounds of ammonium nitrate per acre. Seed used was Southern States Catawba. In the picture is Charles Peck Jr., of Peck Brothers Farm Supply Company, Southern States agency here; his son, Chuck, and Martin.

Felton School News

The school parking area and the drive to the vocational agriculture shop have been resurfaced. Parking areas for cars and loading areas for school buses will be marked in the near future. The newly surfaced area will be reopened Monday, Oct. 3, for the use of cars, buses, and service trucks.

Other improvements in progress include: replacement of old lighting fixtures with modern fluorescent fixtures in a number of class rooms and laboratories as well as construction of a storage space in the music room for band uniforms and the band instruments.

The high school assembly Oct. 8 featured the October issues of the News Magazine of the Screen and two films supplied by the Delaware Health Administration dealing with the problems of high school boys and girls both in school and at home.

The Senior Class will sponsor a bake in front of the Felton Firehouse Saturday, Oct. 11, at 10 a.m.

The annual Magazine Campaign at Felton Schol began Sept. 17 and ended Oct. 1. The campaign was under the direction of the Student Council. A goal of \$1900 was set, but a grand total of \$2800 and over was reached by the last day.

The faculty sponsor was Mr. Ludlow and the manager was Wallace Caulk. Members of the staff included: Mary Ellen Hughes, Judy Weinberg, Dale Hammond, Bonnie Betts, Joyce Wyatt, Marlene Hughes, Mary Lou Lander, Betty Genoe, Evelyn Walters, Shirley Sipple, Robert Hughes, and Edith Postles.

The room selling the greatest amount of magazines was Miss Leonard's 7A. Miss Gow's 9A was second. The high salesmen were: Paul Caulk, \$140.02, Jeffrey Robbins, \$99.41, and Nancy Ludlow, \$53.46.

This year the magazine campaign was a great success. The school reached for the first time a \$1000 total profit. The entire student body really worked to make this Campaign so big a success.

Girl Scout News

Neighborhood meeting was held at the American Legion Home with chairman, Mrs. W. Jarvis Hurd presiding.

The heating problem at the scout building was discussed. A larger stove is needed and the chimney run higherto try to correct its downdraft. As a result of the report and discussion, a gas heater will be installed. Taylor's Hardware has since donated the use of a gas stove.

A need was expressed for a troop organizer, troops consultant, and a program consultant. Mrs. Ted Layton was appointed program consultant and has since submitted a program for approval. Through these programs, we hope to create a greater interest in Girl Scouting for parents and the community and closer relationship between troops.

Neighborhood meetings will be held at the scout building the last Tuesday of each month and any interested person is invited to attend.

Troop 142 and 143 have decided to disband due to increased school studies and activities.

Troop 157 under the leadership of Mrs. William J. Walls has resumed its meetings and is working on second class rank. Only 6 girls have returned. If this troop is to continue, more girls are needed. Anyone interested in joining should contact Mrs. Walls at once.

A meeting, for the purpose of organizing a new troop, was held Monday evening. 12 girls expressed a desire to join. This troop will be under the leadership of Mrs. Olin Davis and Mrs. James Carroll. They will hold their first meeting Mon., Oct. 13, in the scout building at 2:45 p.m.

Troops 183 and 134 held its first meeting Tuesday under the leadership of Mrs. W. Jarvis Hurd. Many plans were made for the coming months. A hike was planned for Oct. 26.

Troop 21 has resumed its meetings. The girls are working on the outdoor cook badge. Last Saturday we went on a bicycle hike to Martin's farm. We built a trench fire and cooked a one pot meal. Each girl took an active part. This year we welcome a new member, Sarah Moore. We are all planning to work hard this year to earn our different badges toward our first class rank. This troop is under the leadership of Mrs. Clyde Tucker and Mrs. William Outen.

Troop 131 under the leadership of Mrs. Norman Brown resumed their meetings Wednesday.

Troop 120 will meet Thursday starting Nov. 6. However, they will visit Hi-Grade Dairy and make one other trip in October.

A special thank you to the Boy Scouts for inviting us to view films of their canoeing and New Mexico trips and their awarding of merit badges.

Mrs. J. Watson Cain

Ford brings Thunderbird elegance to the low-price field with
THE WORLD'S MOST BEAUTIFULLY PROPORTIONED CARS

AWARDED THE GOLD MEDAL By the Comité Français de l'Élégance—for beautiful proportions—at the Brussels World Fair

The new Fords for 1959 have a casual kind of elegance—the fresh crispness of design that distinguishes the Thunderbird. They are beautifully different from all other cars—and from all other Fords. This new beauty was recognized at the Brussels World's Fair. The 59 Fords, on preview, received the Gold Medal of the Comité Français de l'Élégance for beautiful proportions! They have a straight-through appearance... a clean-cut look that is very open and airy. The entire glass area has been designed to give you the modern picture-window feeling of indoor-outdoor living. The new thin-line roof is actually a sensational engineering achievement—to give you

even greater safety. Yet it has a gracefulness that will make riding in any other car seem "old hat." And this easy elegance is traceable to the sporting heritage of the beautiful Ford Thunderbird. These Fords are altogether new. But the most beautiful difference of all is money in your pocket. The 59 Fords are the standard buy in the low-price field. They are superbly designed to give you all the supreme beauty, comfort, power and performance that only Ford's creative engineering can bring you. Soon—on October 17—you'll be able to get that New Ford Feeling in the World's Most Beautifully Proportioned Cars!

1958 Acreage Reserve Agreements Remain In Effect

Agreements under the 1958 Acreage Reserve program remain in effect until Dec. 31, chairman W. N. Hopkins of the Delaware Agricultural Stabilization and Conservation Committee reminded farmers today.

Mr. Hopkins expressed concern that some farmers who already have been paid for land placed in the 1958 Acreage Reserve may believe that they have already complied fully with the program. The provisions of the agreements remain in effect even though the payment may be made before the end of the year.

Under the Acreage Reserve, the land specifically designated by the farmer for the program may not be cropped and livestock may not be permitted to graze on it. The only exception is that winter crops for harvest in 1959 or later may be planted on the Reserve this fall.

Harrington School Notes

CROSS COUNTRY
Harrington High School's newest sport is developing into an interesting endeavor for the boys who have gone out for the team. Seven meets have been arranged on the schedule. The next meet is at home with Easton H.S. at the Killen's Pond course next Wednesday. The boys who are competing for positions on the team are: Dwight Hackett, Harry Knotts, Robert Bonniwell, Dennis Bradley, Wilson Callaway, Walter Lekites, George Pfeiffer, Leonard Masten, Kenneth Hoffman, William Pike, Jon Ingenthron, David Hitchens, and Robert Gillette.

Cross country is a sport that requires the boys to run 2.3 miles. The future of cross country looks exceedingly bright as there are no seniors on the team, only two juniors, ten sophomores and one freshman or a total of

4th GRADE—Mrs. Quillen
The children have brought in an interesting collection of signs of fall, nuts, leaves, seed pods and flowers.

They painted a fall scene of corn shocks and pumpkins on the picture windows.

5th GRADE—Mrs. Brobst
We had a party this week planned by the boys and girls. This surprised Mrs. Brobst very much. Paige Quillen brought the ice cream in dixie cups. Josephine Derrickson brought enough cookies for everyone. The main surprise was a cake that Mrs. Pearson, Faye's mother, made and decorated. Mrs. Brobst had a difficult time cutting it into 31 slices.

We are multiplying by two numbers. Everyone must know their tables or they can't do this without making mistakes.

5th GRADE—Mr. Donovan
We have 9 plants in our room. We have seeds in a trough. We are trying to raise the plants and seeds.

We had our first class meeting on Friday.

5th GRADE—Miss Long
In our social studies we have read about many explorers. There were Columbus, Cabot, and many others.

Tuesday at 11:25 we had our pictures taken.

We have made Halloween pictures for our room. We used orange paper and black crayon.

8th GRADE—Miss Morris
Miss Morris's eighth grade class is preparing for its assembly. In our assembly we will be featuring many things. The Junior High School band will play several selections. We all will join in singing some songs. Jeanie Thomas, Susan Gilstad, Karen Ingenthron, Lynn Hopkins, Leroy Rust, David Winkler and Shirley Eilers will have a sketch on Mathematics. Claudia Neeman will be the leader. Several boys and girls will play songs on instruments.

A musical novelty will be presented. The whole class will make up a Kitchen Band. The instruments will be egg beaters, combs with pieces of paper, two wash boards played with teaspoons, two tablespoons, a cow bell, two sauce pan lids and castanets. The conductor of this band is Shirley Eilers.

Betty Dobraski will be responsible for the opening exercises, and Barbara Jones will be the announcer for the assembly. The program will be held Friday morning the second period, Oct. 10. All our parents are invited to attend.

Delaware Schools Hold Essay Contest

Delaware High School students may vie for a total of \$2275 in prizes in an essay contest entitled "Hiring the Handicapped in our Town," it was announced this week by James H. Sears, chairman of the Governor's Committee for Employment of the Physically Handicapped.

Permission has been granted by school authorities in public, private and parochial institutions to allow interested junior and senior year students to participate in the contest, Mr. Sears declared.

"This is the first time that the Governor's Committee has attempted a state-wide contest and which is nation-wide in scope. We want to thank our veterans' organizations—the American Legion, Disabled American Veterans of Foreign Wars, for supplying funds for the prizes for our state competition."

The Delaware prizes will be U. S. Savings Bonds in these amounts: best essay, \$100; second, \$75; third \$50; fourth \$25 and fifth \$25. The winning essay in the state contest will be forwarded to Washington, where it will be entered in the national competition. National prizes, contributed by the Disabled American Veteran, are: first, \$1000; second, \$400; third, \$300; fourth, \$200, and fifth, \$100.

Mr. Sears said that he was pleased to announce that a board of judges comprised of Dr. Arthur J. Heather, medical director, Eugene duPont Convalescent Memorial Hospital; John G. Leach, vice president, Goldey-Beacom School of Business, and Dr. Edward L. Whigham, assistant superintendent, Wilmington Public Schools, would determine the state winners.

The contest deadline is midnight, January 15, 1959. Major credit will be given for the significance of content and the way it pertains to the theme, Mr. Sears said. Credit will also be given for originality, impact, organization, clarity of expression and neatness.

Posters have been distributed to schools throughout the state with all necessary information, it was pointed out, listing information sources and other pertinent instructions. Essays must be mailed to Edward A. Mulrooney, secretary of the Governor's Committee, 601 Shipley Street, Wilmington.

Fees "Cart" Is Feature Of Broilermen's Tour

Murray's feed carrier at Ocean View will be a high spot of the annual Delaware Broiler Grower's tour October 15, according to George Vapaa, Kent County agricultural agent.

Murray's feed carrier will feed 10,000 birds in five to eight minutes, depending on the age of the birds.

The feed carrier hangs on a track and is pushed along over the feeders by the operator who adjusts the height of the carrier to control the amount of feed going into the feeders. The feeders are filled from a bulk bin. Mr. Vapaa said an interesting feature of the same house is the thermally controlled windows.

A thermostat which can be adjusted to suit the age of the birds, operates an electric motor which opens or closes the windows, maintaining the proper house temperature.

The tour will begin with the University of Delaware Substation near Georgetown at 9 a.m. where two new broiler houses will be visited. The second stop will be Byard Carmean's, and then will go on to the new Townsend, Inc., dressing plant. After lunch, the growers will visit the Mumford Sheet Metal Works and will see a demonstration of poultry equipment construction.

Mr. Avery M. Rickards, near Frankford, will show the growers his 800,000-bird operation which includes several new aluminum, pole-type buildings. The tour will wind up at Murray's for the last stop, Mr. Vapaa said.

Peninsula Horticultural Society Awards Scholarships

The Peninsula Horticultural Society has awarded \$200 scholarships to Daniel Thompkins, Waldorf, Md., student at the University of Maryland and Kenneth Hastings, Laurel, a student at the University of Delaware.

Robert Stevens, extension horticulturist at the University of Delaware, announced the awards which are awarded each year to a junior or senior student at the two universities for scholastic achievement, interest and achievement in horticulture or related fields and other outstanding academic activities.

Daniel Thompkins is a senior at U. of M. majoring in vegetable crops. He has a 3.6 grade average and had a straight A average last year.

Kenneth Hastings is a senior at U. of D. He is also specializing in vegetable crops and has been vice-president of his class and holds offices in several campus organizations.

Effective Newcastle Disease Vaccine Developed

A safe, effective killed-virus vaccine for Newcastle disease in chickens has been developed by U.S. Department of Agriculture scientists.

A complete report on this development was made recently by Dr. Eugene Gill, veterinarian of USDA's Agricultural Research Service and formerly on the staff at the University of Delaware.

Dr. Gill's report covered the final phases of work in the development and testing of the new vaccine. Earlier phases of this project included: determination of the strain of Newcastle disease virus that produced the greatest degree of immunity in chickens, and finding the best method of killing the virus with the least effect on its ability to immunize the chickens.

A single injection of the killed vaccine when given to 14-day-old chickens was found to protect the birds throughout the broiler growing period. Revaccination at 12 weeks of age protected birds up to 32 weeks of age, the longest period tested in these trials.

USDA veterinarians have constantly stressed the need for safe vaccines to be used on farm animals. A safe vaccine is incapable of spreading a disease, is free of contaminating disease organisms, and retains its ability to induce immunity after prolonged storage. The use of killed vaccines offers the best possibility for the ventral eradication of Newcastle disease, Department

Vaccine for Fowl Cholera To Be Available Soon

Fowl cholera, an old enemy of poultrymen, is about to meet a tough new vaccine according to the United States Department of Agriculture, says George Vapaa, Kent county agricultural agent.

Mr. Vapaa says U.S.D.A. scientists have developed several vaccines which look good for fighting this disease.

Experiments are underway to find the best method of preparation and dosage to get the best results for the longest time.

It should soon be possible to vaccinate poultry under field conditions where natural outbreaks of cholera occur or are a danger.

A single dose of one of the new vaccines gave excellent immunity for nine months.

Delaware Food Market Report

Favorite cold weather menus are the thing now. The combination of sweet potatoes, apples and pork should be popular because of special sales on all these foods.

Sweet potatoes are everywhere, and prices are now low—four pounds for 25c. The quality for the most part is excellent. The sale of crisp, fresh apples includes Grimes Golden, three to four cents a pound, Red and Golden Delicious, three pounds for 29c, and Jonathans at five pounds for 39c. Fresh pork is dropping in price. However, the big thick chops that so many people prefer are still high—89c to 97c a pound.

Winter vegetables are certainly crowding out the summer ones. Broccoli is more plentiful now, selling at 29c to 35c a bunch; cauliflower, big heads as low as 19c each; Brussels sprouts, 35c a quart; spinach, two pounds for 29 cents, green cabbage six cents a pound, Canadian rutabagas (a newcomer to the fall market) six cents a pound, and carrots, two packages for nineteen cents. Of course, don't forget to buy sweet potatoes and white potatoes—both are excellent buys this week.

Apples head the list of best buys at the fruit counter, but Bartlett pears are cheap too, and the quality is very good—look for them to be as low as two pounds for twenty-five cents. Cranberries are more in evidence and are 29c a pound. There's a

good crop this fall, with nice big berries. More pumpkins are arriving at local markets, and are averaging eight cents a pound—it won't be long before pack-o' lantern season.

To get your best buys on meat this week, you will have to buy the specials. Meat prices generally have gone up, and are higher than at this time of the year. Beef cuts are up from three to fourteen cents a pound; fresh and smoked pork has advanced two to ten cents a pound; lamb has gone up about the same as pork, but veal has really jumped again in price—one cent to twenty-eight cents a pound, as compared to last year at this time. So, look carefully, and buy wisely to make the most of your meat dollar.

Clarence Spanish, Greenwood, Dies

Clarence M. Spanish, 71, died Sunday in Milford Memorial Hospital.

He had been a carpenter since he was 15 years old and had worked for the Robert R. Layton Company of Bridgeville for 20 years. He retired two years ago.

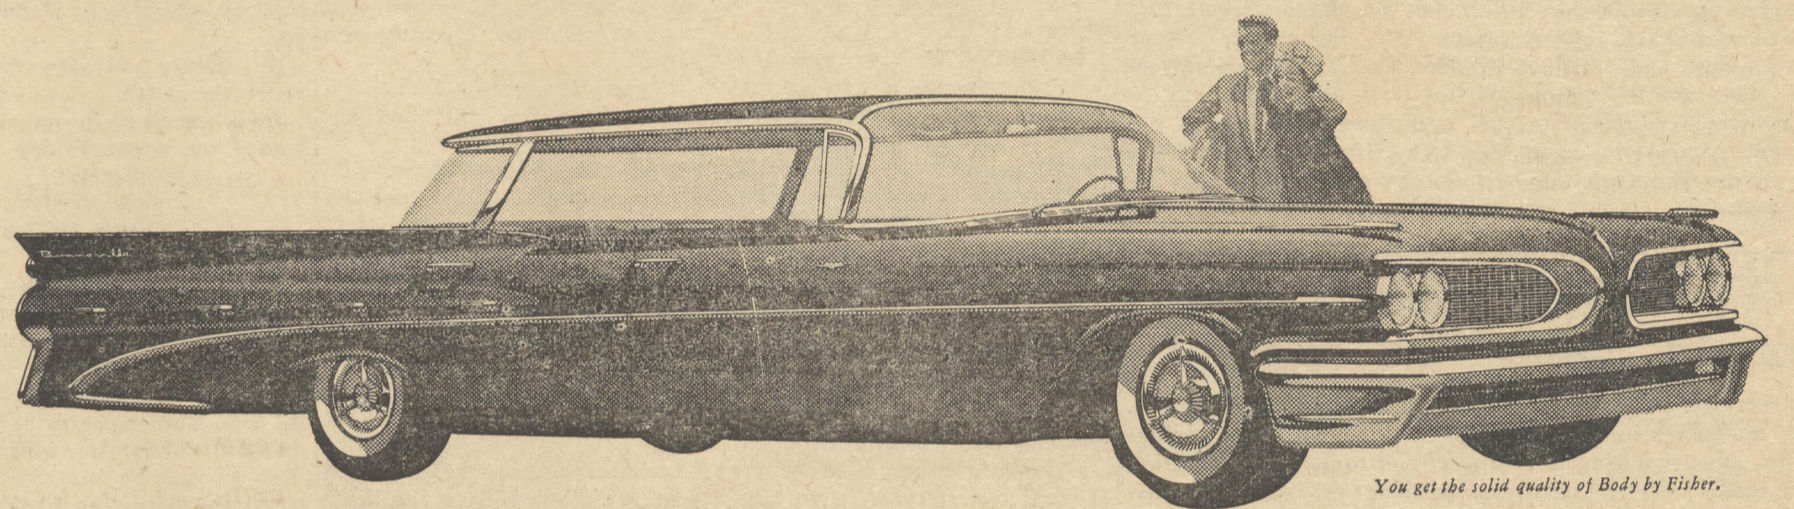

He is survived by two sons, William, Bridgeville; Ralph, Greenwood; a brother, Irvin, Greenwood, and six grandchildren.

Services were held Wednesday at 2 p.m. in the Fleischauer Funeral Home. Interment was in St. Johnstown Cemetery.

Delaware Farm Labor Letter

Current Activities

Very heavy rains ruined late tomatoes and peppers and seriously damaged late snap beans. Canning houses working in tomato products closed down during the second or third week in September while the usual season runs to mid-October.

An unusual condition exists among potato growers who usually have all of their crop out of the ground before this date. An extremely poor market all summer has kept digging down with the result that a number of growers still have several acres of unharvested potatoes.

With so many of the crews and individual crew members have left the area that the task of completing the potato harvest is becoming more difficult every day.

The September report of the U.S. Department of Agriculture confirms earlier estimates of record crops in Delaware. The summer potato crop is estimated at 2,200,000 cwt., 32 percent above the 1957 crop, which was about six weeks late in maturing due to bad weather at planting time, combined with a poor market kept growers on the anxious seat all season. Potatoes were not the only heavy harvest.

A record corn yield of 8,509,000 bushels is nearly double last year's crop and well above average.

Soybean production is estimated at 3,564,000 bushels, 39 percent above the 1957 crop and 3 percent above the previous record set in 1956.

Big crops and labor difficulties are turning growers' minds to mechanical harvesters. All corn, lima beans, and soybeans are now mechanically harvested. Bean pickers were used this year to a larger degree in picking snap beans.

Potato growers are still slow in changing over to harvesters, but we look to see more of them in the area another season. This does not spell the end of migratory labor. Certain crops, as asparagus, tomatoes and peppers, do not lend themselves to mechanical harvesting. Even with potato harvesters, it is necessary to have grader crews, so while various types of mechanical harvesters may appear, the human element will still be the important factor.

Do You Wish to Speak Spanish?
The increasing number of Spanish-speaking workers coming to the area each year has presented a language difficulty. A number of employers have expressed the wish that they knew enough Spanish to carry on a simple conversation with these workers.

The Farm Placement Service has taken up the possibility of having a conversational Spanish course with Dr. Godbey, Director of the Division of University Extension, University of Delaware. If enough individuals are interested, the extension division will make arrangements to present such a course in Dover.

It will be simple, designed to enable one to carry on a conversation rather than become proficient in grammar. The course will be open to anyone interested not necessarily farmers, and the cost kept to a minimum.

Anyone interested should write Thomas Russell, Farm Placement Manager, 135 South Bradford, St., Dover, or phone Dover 5897.

Let us know which evening would be your first and second choice. We must have the information by Oct. 10.

ASC Chairman Explains Soil Bank Rates

Farmers who may have wondered just how Conservation Reserve annual payment rates are determined for eligible cropland on their farms will be interested in an explanation made today by Joseph W. Ennis, chairman of the Kent County Agricultural Stabilization and Conservation Committee.

Chairman Ennis pointed out that the individual farm rates are established by the County ASC Committee on the basis of the Soil Bank law and national program regulations set up by the U.S. Department of Agriculture under the law.

Under the Soil Bank law, the Secretary of Agriculture establishes annual payment rates which give farmers a "fair and reasonable return" on land put in the Conservation Reserve, taking into consideration value of the land for production of crops customarily grown upon it, prevailing cash rentals for such land, and the incentive necessary to contract sufficient land to make the program effective.

Under Department regulations, annual payment rates are set on the basis of national, State, and county averages, with the County ASC office determining the rate for the individual farm or part of the eligible acreage on the farm. The national average rate of Conservation Reserve annual payments is \$13.50 per acre for contracts beginning with 1959—an increase from the \$10 average previously in effect. In Delaware the average payment rate is \$16, and in Kent County the average is \$16 also for 1959 contracts.

The county committee sets maximum farm payment rates for all farms for which they are requested. Two rates may be set for an individual farm, depending upon the amount and type of land offered for the program. They are:

1. A regular rate which will apply if only part of the eligible land on the farm is put in the Reserve or if all eligible land is put in, but some of it for less than 5 years. This rate calls for the reduction (diversion) in Soil Bank base crops on the farm by the number of acres put in the Reserve at this rate. If land offered for the program is less productive than the average for all eligible land on the farm, this rate will be reduced proportionately.

2. An incentive rate which will apply when all eligible land on a farm is put in the Reserve for at least 5 years. This is 10 percent higher than the regular or diversion rate and will apply to every eligible acre on the farm put in the program. This means that there will be only one rate for the farm.

In addition, a non-diversion rate may apply to farms on which only part of the eligible land is put in the program. This rate—50 percent of the regular rate—does not call for a reduction in acreage of Soil Bank base crops on the farm.

Under Soil Bank regulations, the overall maximum annual payment that may be made to an individual farmer is \$5,000.

Chairman Ennis said that any farm is eligible to participate in the Conservation Reserve if it has cropland regularly used for cultivated crops or tame hay.

Oldsters Often Short On Milk

A study by the Connecticut Experiment Station indicates that older people, especially those having low incomes, are one of the groups that need more understanding of the nutritional value and economy of milk, reports Mrs. Marjorie Whittaker, extension specialist in nutrition at the University of Delaware.

Four out of five people 65 years old or older, with lower incomes, were found to be drinking less than three quarts of milk a week, even though milk was more reasonably priced than some other foods of similar nutritive value that they were eating.

One of the obstacles to increasing the use of milk is lack of understanding among older people of their nutritional needs and the foods that furnish them.

An adequate diet for a person of this age calls for three and one half quarts of milk per week at the very minimum, Mrs. Whittaker says. More milk can mean a better diet at lower cost.

It might be expected that older persons with good education would understand the value and economy of milk; the study showed the opposite to be true.

Nonfat dry milk is considerably less expensive than whole fluid milk and just as nutritious. It contains half the number of calories, Mrs. Whittaker says.

1958 Corn Price Support Conditions

The minimum Corn Price Support Rates for 1958 have been announced by the Grain Division, USDA. Prices are based on a national average of \$1.36 per bushel for compilers and \$1.06 per bushel for non-compliers.

The price support in all three Delaware counties is \$1.51 per bushel for those who complied with their acreage allotments and \$1.21 for non-compliers.

The corn placed under loan may be either ear or shelled corn; however, the corn must be shelled before placed under a warehouse storage loan or before delivery is made in liquidation of a loan or purchase agreement. In any case, the cost of shelling and delivery must be borne by the producer.

Corn placed under loan must, except for moisture content, grade No. 3 or better, of No. 4 on the factor of test weight only, but otherwise No. 3 or better, and must meet the following additional requirements:

(1) For corn placed under a farm-storage loan, the moisture content must not exceed 20.5 percent if the corn is tested for loan from time of harvest through February 1959; 19 percent through March; etc.

(2) For shelled corn placed under a warehouse-storage or farm-storage loan, the moisture content must not exceed 13.5 percent, irrespective of when the corn is tested for loan.

(3) Corn delivered to CCC under a purchase agreement must grade No. 5 or better and will be settled for according to grade at the time of delivery.

Purchase agreements give the farmer a guaranteed price support, provided he keeps his corn and delivers it to CCC in good condition at maturity. He is at liberty to sell or feed it any time, without permission from CCC. However, if he placed the corn under loan he must obtain a release from CCC before he moves it, since the commodity is under a chattel mortgage.

Trinity Methodist Church Notes

Our new choir the intermediate, sings in church for the first time Sunday in the morning. The director is Mrs. Florence Kent and the rehearsal time is Thursdays, 7.

A couple of slight changes will be made for the month of April, morning worship. The Lord's Prayer is to be spoken (not sung as heretofore) and followed by a "Threefold Amen;" and the response after the offering is changed to "Bless Thou the gifts our hands have brought." Otherwise the service will be as it has been. The pastor talks on "The Kitchen and the Altar." The anthem is "God is Love" by Shelley; prelude on the organ, "Arioso" by Frey and postlude, "Allegro" by King. Flowers on the altar are supplied by Mrs. Mary Williamson.

Our fall schedule of evening services also begins Oct. 12. The Methodist Youth Fellowship, senior division, will meet at 6:30. The regular Sunday evening services start with a service at 8, and the pastor's subject is "Jesus and His Neighbors."

We have a system of official greeters in Trinity which started last Sunday, when Mrs. Harry Boyer and Mrs. Linda Layton were the greeters. Next Sunday the greeters are to be Mrs. Sadie Emory and Mrs. Ethel Roughley. For the month of October the Loyal Workers Class supplies the greeters. Sam Williams is in charge of this project, as well as of the regular ushers.

Tuesday evening, the O.U.R. class holds its monthly business meeting at the home of Mr. and Mrs. Arnold Rothermel.

Choir rehearsals Thursday: Junior 3:45; Intermediate 7, and senior 8.

The O.U.R. class is having a turkey supper at the church, Saturday from 4:30 on.

We expect to have a film-strip for Sunday entitled "The Fort Wayne Story." This is a brand new picture, and we had it first in the district.

Veterans News QUESTIONS AND ANSWERS

Q—I'm an employer and I'd like to hire a handicapped veteran who has had vocational re-habilitation training for the job I have in mind. How do I go about finding one?

A—Either the local office of your State Employment Service, or any Regional Office of the VA will put you in touch with disabled veterans who have been re-trained to do special jobs.

Q—I am thinking of going to college in the Spring semester, under the Korean GI bill, but not to get a degree. On my application form, what should I put down as my course of study?

A—You must list all the subjects you plan to take, which will make up the program of education you have in mind.

Q—May a Spanish-American veteran with a nonservice-connected disability receive VA outpatient medical treatment?

A—Yes. Disabilities of veterans of the Spanish-American War are considered service-connected for purposes of VA outpatient medical treatment.

Q—I want to buy a house and have never had a GI home loan. I understand that the first step is to get a Certificate of Eligibility. Where do I get that?

A—The Certificate of Eligibility is issued by the Regional Office of the Veterans Administration in the area where the house you are interested in is located. Application may be made in person or by mail, and your original discharge, or photostatic copy, accompanied by a statement that the original discharge has been lost, will be needed as evidence.

Care of Baby Pigs

Farmers should not look upon losses of little pigs as something to be expected at farrowing time, says George Vapaa, agricultural agent in Kent County.

He says a farmer just can't afford to "expect" farrowing losses.

Usually, one of three things causes results in a high mortality rate: Poor nutrition of the sow during pregnancy; bad housing and conditions at farrowing; and exposure of the newborn pigs to various infections.

Faulty nutrition of the sow can be any one of the several diet deficiencies, Mr. Vapaa says. Lack of enough vitamin A and protein are two elements often missing in the diet.

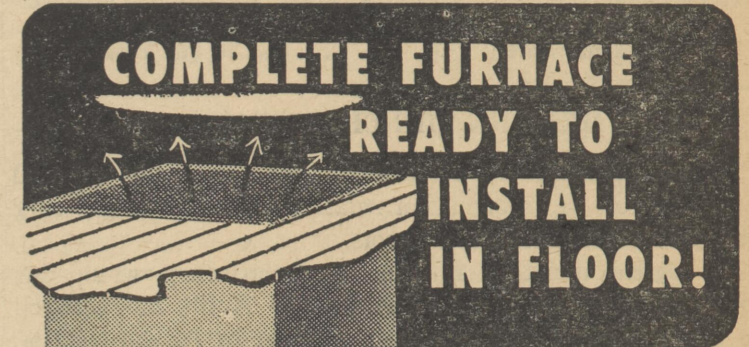

Cold, damp pens and farrowing quarters may lead to scours and other digestive disturbances

which take a heavy toll. Baby pigs are particularly susceptible to infections of the digestive tract.

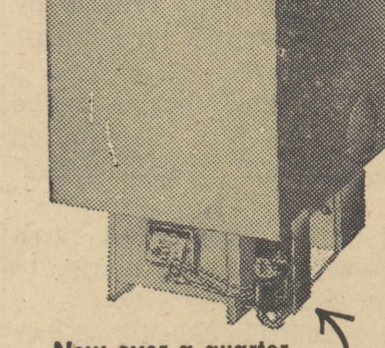

Adequate nourishment for young pigs is especially important during the first few days of life.

Pigs weakened because they can't get enough milk from the sow are much more easy victims of infections or accidents.

Artificial heat can often be important to prevent chilling of young pigs during cold weather.

MEETING THE CHALLENGE

In past months the American public has been exposed to a great deal of information relative to the ever growing challenges which face our schools.

A logical question for the local citizenry would be, "What have we done at Harrington?" A bit of research into this matter would disclose a number of forward steps:

No. 1—The addition of a course in Office Practice by the Commercial Department to better prepare our students for business life.

No. 2—The reintroduction of foreign languages in the Junior High School which fits in well with the growing emphasis placed on this field by eminent American educators.

No. 3—The strengthening of the high school curriculum by the expansion of virtually all subject matter to five periods per week instead of four as formerly.

No. 4—The addition of a new full time Science teacher and a new full time English teacher in the Junior High School.

No. 5—The expansion of the 7th and 8th grades to three home room sections each.

THE NEED

To avail oneself of a bargain when other means are available is not economy but to invest in the future in a constructive and helpful way is progress and economy.

The Harrington Schools are filled to capacity every good or bad room is utilized. Your Board and Administration are using a few rooms in the basement of the High School Annex that are not what a modern school room should be. We are proud of the fact that the teachers using them and the pupils to whose lot it falls to be there are cooperating and not complaining.

We have a fine band. Our choral groups have rendered enjoyable programs. These groups have nothing but an ordinary classroom for rehearsals and practice. We need a band room and a choral room. Preferably these should be right off the stage of the auditorium. An auditorium seating 750 persons would be a marked asset. Laboratories that are in keeping with modern scientific developments and needs are in our plans for the future.

Our shops have been outgrown for a number of years. When our boys brought plows and spring harrows for reconditioning we had ample room but combines and tractors are a different problem. Housing for modern equipment requires more space and modern facilities.

The Library too, needs more space and in as much as our growth requires a few additional rooms each year, we must build.

When the elementary school housing 14 class rooms was built we hoped to have the elementary school in that wing. Today one fifth and three sixth grades are obliged to use the H. S. Annex to say nothing of the two rooms used there by the Special Classes.

Visit your school. There is an alternative. We could have morning sessions for one group and afternoon sessions for the others.

If you wish your community to keep abreast with your neighbors and follow in the steps of progress, vote for the Harrington School Bond Issue on November 8, 1958. A Bond Issue of \$400,000 to which the state will add \$600,000.

Social Security Notes

CHANGES IN YOUR SOCIAL SECURITY By: Edward F. Sullivan Manager of the Dover Social Security District Office.

Today I shall describe 2 changes in the social security law that benefit parents of a deceased worker, and children.

Before the enactment of the 1958 amendments, an aged parent even though dependent on his deceased son or daughter for support, could never get benefit payments based on the child's earnings, if there was a surviving wife, dependent widower, or child who was entitled or who could later become entitled to payments.

Under the law, as amended, the parent may now be able to get benefits at retirement age (65 for men, 62 for women). To do so the parent must file proof of dependency on their son or daughter within 2 years after August 1958, when this change in the law was enacted.

It should be kept in mind that parent's benefits are not payable where the worker is still living; they are payable only in cases where the worker has died.

One of the important reasons for social security insurance benefits is the protection of children. More children can be paid benefits as a result of the 1958 amendments. It is no longer necessary that the adopted child of a retired insured worker have been adopted for as long as three years in order to be eligible for benefits. Benefits are payable immediately after adoption.

It is no longer necessary that a child, other than the worker's now child, be an adopted child in order to qualify for survivor's benefits. The requirement now is that the child be "adoptable" and be legally adopted by the surviving spouse within two years

after the worker's death. If the child was living in the worker's household as a member of the family, and was not supported by anyone other than the worker, the spouse of a social agency, he is now regarded, for social security purposes, the same as the worker's own child. The amended law includes other changes relating to marriage and remarriage. I shall discuss them in the next article in this series.

Century Club Notes

A delightful bit of nonsense entitled "Queen For a Day," cleverly written and directed by Mrs. Thomas Clark, was the Big Surprise at the first meeting of the Harrington New Century Club Tuesday afternoon. The playlet followed the regular meeting presided over by Mrs. William W. Shaw.

The afternoon began pleasantly with dessert served by the officers. Fifty-two members and guests were present.

The meeting was opened with the club collect, salute to the flag, the singing of America, and the secretary's and treasurer's reports.

An invitation was read inviting members to attend a "Get Out the Vote" rally to be held in the Field House of the Dover High School Mon., Oct. 20, sponsored by the Dover New Century Club. Several of the candidates in the November election will be present, and Senator J. Allen Frear will serve as moderator.

Mrs. Fulton J. Downing, chairman of the Trustees Committee reported that the club building had been treated for termites, and the rooms thoroughly cleaned. Mrs. Charles Peck, Jr., chairman of the Ways and Means Committee told of the work her committee had been doing during the summer. A new set of card tables have been purchased, a supply of a new type of dish towels ordered to be sold by the members, and tentative plans made for a supper and fashion show.

Mrs. William Simpson gave a very glowing report on the success of the Teen Timers organization which is holding dances in the club building on alternate Saturday nights. A group of chaperones has been selected to help with the dances this year. They are: Mr. and Mrs. Clyde Perry, Mr. and Mrs. William Simpson, and Mr. and Mrs. William Sollars.

Donations of \$5 each were made to the Harrington Volunteer Fire Company and the Girl Scouts.

Mrs. Shaw told the members of the club of the year, Music award and the award for the largest increase in membership that the Harrington club won at the June Convention.

Again this year the U.N.I.C.E.F. program at Halloween will originate and terminate at the Club

House. The building has been donated for the use of the children who will collect funds on that night for the needy children of the world.

Mrs. William Kohel and Mrs. Harry J. Dill were unanimously elected to membership and welcomed to the organization by the president.

The next meeting will be held Tuesday afternoon, Oct. 21 at 2 p.m. when a fine arts program will be presented by the following committee: Mrs. Arnold Gilstad, chairman; Mrs. Norris Adams, Mrs. Fulton Downing, Mrs. Albert Gottlieb, Mrs. Oscar Nem-

sh, Mrs. Ernest Raughley and Mrs. William S. Smith. The work of several local artists and craftsmen will be displayed.

The cast of players in the "Queen For a Day" skit included: Mrs. Roxanne de Von Veber, Mrs. Larry Simpson; Mrs. Bedelia Chauncy Smythe, Mrs. Joseph Konesey; Mrs. Amyrilla Cameron, Mrs. William W. Sharp; Mrs. Aurora O'Shaughnessy, Mrs. Harry John Dill; Master of Ceremonies, James Rash.

Odd Facts
 So many New Zealand anglers—30,500—lined the banks of the Tangariro River to bid goodbye to the fishing season that trout were scarce and many fishermen had to journey homeward by way of a nearby fish store, Auckland reports.
 Doctors in Britain are called out for emergencies twice as often on Sundays as on weekdays, 42 doctors reported to the British Medical World. Many calls require only assurance to the victim, they said.

The first meeting for the organization of the Methodist Men will be held Wednesday, Oct. 15, at 6:30 p.m. A turkey supper will be served in the Fire Hall by the Woman's Society. Any man interested in the organization of such a group is invited to be present for this dinner meeting.

William Green has been discharged from the Kent General Hospital where he underwent surgery several weeks ago and is now at the home of his sister until such time as he is able to return to his home here.

The W.S.C.S. met in the Fire Hall Wednesday evening with the president, Mrs. Margaret Fetrow, presiding. Mrs. Blanche Richards was in charge of the devotional program, substituting for Mrs. Dorothy Dill who was unable to be present.

A petition was also filed by property owners on Grant Street for curbing on a share-the-cost basis. This petition was also filed for consideration in 1959.

The City Charter says the property owner may be compelled to pay all the costs of installing curb, but the City, this year, has been paying half the cost to induce improvements.

Street Sign Standard A communication from Herman Trader, Simmons Street and Delaware Avenue, said City employees had installed a standard for street signs in a space allotted for a sidewalk.
