WELFARE PAYMENTS CAN BANKRUPT KENT COUNTY

Almost one year ago, the then members of the Kent Levy Court -Emory Lynch, Ward Hurley, and Fred Williams-issued a joint statement in which they pointed out grave concern about the rising relief costs and the dire financial consequences to Kent County that would ensue unless action be taken by the Legislature to correct this situation.

The same group called a joint meeting of the Levy Court mem- in by March 14. The price of the and Mrs. Ellis V. Danner, and bers of all three counties and of the members of both parties of both houses of the Legislature. As the Legislature remained in recess no remedial legislation was enacted.

The county is now confronted with the results, as detailed in the annual report audit for Kent County, as of November 30, 1958, as planing to leave the church at made by Mack & Company, certified public accountants:

1. The county operated for the year with a deficit of \$34,356.26.

2. The relief costs increased \$93,260.98 over the preceding year. 3. Total welfare expenditures during the year were \$447,126.16, 60.25% of all expenditures. Of this amount the State of Delaware reimbursed the county \$200,688.27. Thus the net cost to the county

\$246,437.89

5. The income for the year from real estate, personal, capitation, and delinquent tax penalties amounted to \$431,662.17.

6. It can readily be observed that the relief expenditures mus be curtailed, if the county is to remain solvent, with present tax

The position of your Levy Court is:

(a) It wants to operate the county on a balanced budget as

(b) It does not want to increase taxes.

(c) It wants the Legislature to correct the present law requiring the county to pay costs incurred, without limit, by the State Board

(d) It believes the relief expenditures are excessive in Kent County and that these excesses were the cause of its deficit last year, and also partially contribute to the state's financial difficulties.

(e) It wants neither a welfare county nor a welfare state. 7. Accordingly, it is again inviting the members of the Levy Talleyville, while her niece, Miss John E. Clark. HOUSE HEAT

Electric heating has many advantages over other methods. It requires no storage space, no air, or venting. It is easily, quickly and cheaply installed and provides individual room temperature control not readily available with other heating systems.

FREE BOOK

You may have a tree copy of ELECTRIC HOUSE HEATING if you send your name, address and request to House Heating Dept., Eastern Shore Public Service, Salisbury, Md. It contains details about types of heat, costs and installation.

Therefore, it is easily understood why people, who enjoy the convenience, economy and comfort of electrical living, want electricity to provide heat for their homes. The cleanliness, convenience and space-saving advantages of electric heat suit modern homes as perfectly and efficiently as the many electrical appliances now in

of our coaching system for developing players for the future.

It is my belief that the funda- Florida. mental purpose of a Junior Varsity team is to build for the fumental purpose of a Junior Varterested in setting records in the ture and not to be solely inwin column. Naturally we like Martin . to win but not at the expense of sacrificing experience for the younger players.

During the course of our season we played nine schools a total of 16 games. In quite a number of these games, schools used members of their varsity squad against our J. V.'s. This is in part a reason for our poor record, but I again remind you we are not making alibis; rather we are proud of our performance under these conditions!

At present there is no provision in the State Athletic Code which controls this situation. However, this writer has requested the State Athletic Committee to take up this matter for consideration.

Until such time as something official is done about this, I shall continue in my efforts to develop experienced and improved players through a Junior Varsity team and let those coaches who are interested in present glory on a lower level, continue to sacrifice their resources for future victories at a varsity level, I shall
