

## Buildings Board Approves Legislative Hall Changes

The State Buildings and Grounds Commission has formally approved plans for a \$500,000 renovation of Legislative Hall, it was learned Wednesday.

An administration-backed measure to appropriate the funds will be introduced in the General Assembly next week according to present plans.

The engineering drawings approved map out plans for air conditioning both the Senate and House chambers, the Governor's suite of offices, and most of the other office space in the building. The halls and lobbies would be air-cooled but not air conditioned.

Plans also called for a new heating plant, a new plumbing system, an elevator, and general improvements inside and outside the building.

They do not call for any structural changes.

Gov. Elbert N. Carvel, in his Inaugural Address, recommended that the state house be dressed up as a show-place of the First State.

Under Carvel's direction, the capital custodian and his crews for months have been making temporary repairs and fixing up the grounds around Legislative Hall with what funds were

available.

A leaky roof has been temporarily repaired and the cupola has a fresh coat of paint.

The renovation plans were drawn by W. Ellis Preston, Wilmington architect.

Legislative Hall, completed in 1933, is designed in Georgian colonial style and constructed of hand-made bricks. Its design will not be affected by the renovation plans.

## Property Owners Hold Up Dirt Road Improvement

Some property owners along a number of dirt roads are going to be disappointed because the road abutting their property will not be improved this year through the failure of some other property owners, along the same road, to grant the needed right of way for the improvement.

William J. Miller, Jr., Director of Operations for the State Highway Department, is sending a letter to those property owners who granted needed right of way explaining that the work of improving the road will not be done at this time.

The situation stems from the fact that there is no provision for the State Highway Department to pay for any needed right of way for the improvement of dirt roads.

Any damage to fence, trees or other items on the adjoining land along the road being improved, is provided for by the Highway Department.

Just how many roads will be involved in this list is not completely known since the right of way forces of the Department are engaged in seeking needed right of way along a number of roads on the program for improvement.

This activity could not be started until a few weeks ago, after construction funds for highway purposes, including dirt road improvements, were made available by the Legislature.

In order to get as many miles of dirt roads as possible improved during the present construction season, the Highway Department is by-passing the roads on which the right of way is not completely available and proceeding with other roads.

Mr. Miller's letter to those persons who have already granted right of way, reads as follows: "We are sorry to advise you that the road, which abuts your property, will not be constructed at this time. Most of the owners were anxious for the improved road, but some did not choose to cooperate in granting the necessary right of way. Should there be a time when all right of way could be cleared, it is likely that your road will be re-programmed on another contract. We do thank you and appreciate your cooperation and the interest which you have shown."

## Heart Surgery A Success

"Gee, I'll be able to take gym next year."

This was one of the first statements sports loving Calvin Bonniwell, 11, made after his recent heart surgery was pronounced successful.

Calvin, the son of Alma and George Bonniwell, was born with a patent ductus arteriosus, in other words, a heart defect. The medical prognosis was he might outgrow it.

However, in 1960, this little student of the Harrington Schools was injured on the playground. Dr. Hewitt W. Smith diagnosed a ruptured spleen and referred him to the Milford surgeon, Dr. Edward C. Graybeal, who removed the spleen.

Referred back to Dr. Smith for post operative treatment, it was found his heart condition was worsening. Dr. Smith sent the lad to the Wilmington Heart Clinic supported by the Heart Fund dollar.

Here, the cardiologist, Dr. Harry F. Zinzer, recommended immediate surgery.

Through the facilities provided by the Delaware Heart Association, in co-operation with the University of Pennsylvania Hospital; Dr. Julian J. Johnson, the eminent heart surgeon, and his staff of specialists, Harrington's Calvin Bonniwell will be able to run and play ball; pursue his hobbies of archery and model building.

## Saratoga Racing Sees 5 Records

Five nights of Grand Circuit racing produced five national season records, last week at Saratoga Raceway. In the words of several competing drivers, "It was one of the most outstanding weeks of Grand Circuit racing ever presented over a half-mile oval at a night raceway."

Three of the four \$10,000 colts stakes produced new marks for two and three-year-olds to shoot at during succeeding Grand Circuit stops. Two early closers, for older horses, also resulted in seasonal records.

Fastest mile of the week was a swift 1:59 4/5 paced by Irving Paul, four-year-old gelding, for owners Charles King, Hamilton, O., and Abraham Wilsker, Yorkers, N. Y. It was the fastest of the year in its division, and the first sub-two-minute mile of the year at Saratoga Raceway. Jack Beltz subbed for regular driver Charlie King in the record-setting performance.

Other records which fell were for 2-year-old trotters, Safe Mission, 2:06 3/5, Joe O'Brien driving; 2-year-old pacers, Lehigh Hanover, 2:04, Stan Dancer, the reinsman; 3-year-old trotters, Orbiter, 2:02 3/5, with Ralph Baldwin in the sulky; and 4-year-old trotting mares, Floral Girl, 2:02 4/5, Larry Garton the driver.

New York owned competitors fared extremely well against the top in the nation. In addition to Irvin Paul, Henry T. Adios, winner of the \$10,000 Springboard for Mr. and Mrs. Nicholas Derrico, Pelham Manor, Pioneer Pick, Thunderbird Stable, Caroga Lake, and Yankee Tardios, for Mr. and Mrs. Gerald Webster, Spencerport all posted Grand Circuit event wins. Several other Empire-state-owned starters finished well up in the purse money.

## Of Local Interest

Mr. and Mrs. William J. Jackson and daughters of Milford entertained at a barbecued covered-dish picnic at their home on the Fourth of July. Those who attended were: Mr. and Mrs. Donald Jarrell and children, Mr. and Mrs. Ralph Butler and son, Mrs. Blanche McKnatt, all of Harrington; Mr. and Mrs. Preston A. Jackson and Jerry of Milford. Home-made ice cream was made and games were played. An enjoyable time was had by all.

## Keystone Miss Weds Dr. Brinster

The wedding of Miss M. Elaine Redding, daughter of Mrs. Daniel C. Redding of Eddystone, Pa., and the late Mr. Daniel C. Redding, to Dr. Ralph L. Brinster, son of Mr. and Mrs. Joseph L. Brinster of Harrington, took place in Saint Bernadette's Roman Catholic Church in Harrington, June 24.

The Rev. John A. Corrigan, pastor officiated at the Nuptial Mass.

The bride wore a white chantilly lace gown and a finger tip veil attached to a crown of lace. She was given in marriage by her brother, Mr. Daniel C. Redding, Jr.

Miss Mary Jane Redding, sister of the bride, was maid of honor. She wore a rose colored gown of taffeta with matching veil and headpiece. Captain Francis P. Brinster, U. S. A. F., of Hampton, N. H., was best man for his brother.

The bride is a graduate of the Philadelphia General Hospital School of Nursing and attends the University of Pennsylvania. The bridegroom is an alumnus of Rutgers University. He is a candidate for a Doctor of Philosophy in philosophy at the University of Pennsylvania, where he received his degree in veterinary medicine.

The couple will reside in Philadelphia.

Farmers who want the latest research results in the production of field and vegetable crops, fruit, dairy, livestock and poultry, should circle August 2 on their calendars. That's the date of this year's Annual Farm Field Day at the University of Delaware's substation division farm at Georgetown.

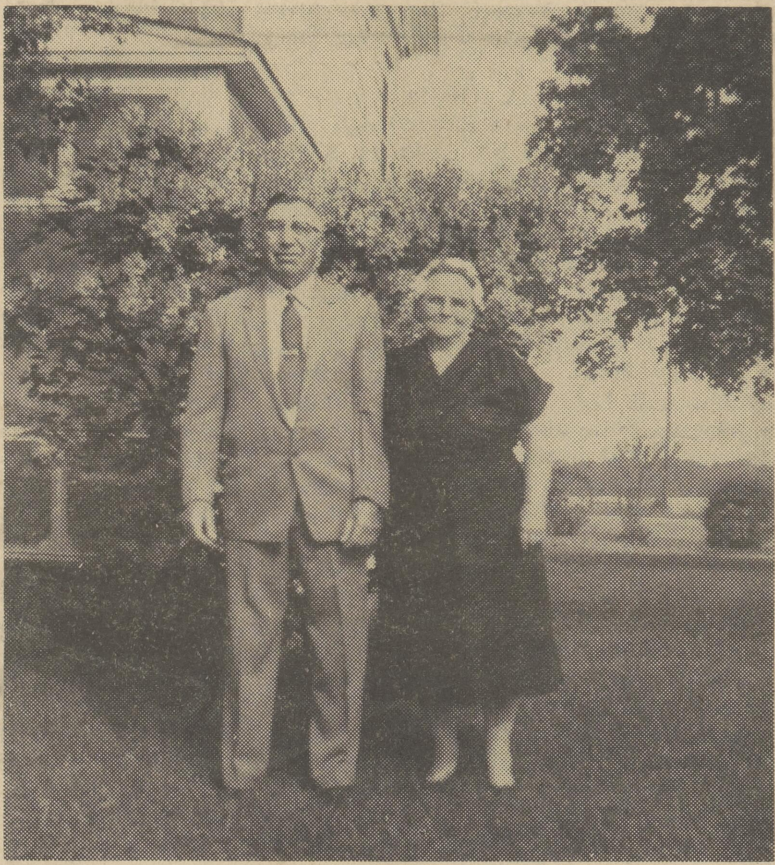

## Delaware Farm Field Day Is August 2

Key feature of the day will be bus tours of vegetable, fruit and field crop experimental plots and inspection of the broiler research facilities. Visitors will have an opportunity to talk with the scientists in charge of the experiments and to ask questions on all aspects of efficient and profitable farm production. The women's program will feature a demonstration of the latest method of freezing fruits and vegetables.

A special highlight this year will be a pageant, portraying the dramatic progress in farming and homemaking from colonial days to the present. The pageant is one of several events the university is planning in 1961-62 to commemorate the 100th anniversary of the signing of the Morrill Act which led to the establishment of America's unique system of land-grant colleges and state universities.

Other attractions will include a luncheon featuring fried "Delmarvalous" chicken and educational exhibits on a variety of subjects of interest to farmers, homemakers and the general public.

A fee of \$10 will be charged

GOLDEN WEDDING ANNIVERSARY—Mr. and Mrs. William S. Cooper of Felton celebrated their golden wedding anniversary July 5th. They have one daughter and four granddaughters.

## Boy Falls From Boat, Propeller Cuts Leg

Henley Graves, 13, of Bethel, suffered a severe cut of the leg from the propeller of the boat from which he fell Wednesday on Broad Creek, near Laurel.

The boy, the son of Mr. and Mrs. Kennedy Graves, was taken to the Nanticoke Memorial Hospital, Seaford. Grafting will be required to replace skin torn from his leg by the propeller.

State police said he was starting a 10-horse-power outboard motor on a 14-foot boat in the creek at the rear of his home.

The boat shot forward when

the motor started. It was in gear. The boy fell into the water, and grabbed the side of the boat, but his right leg was struck by the whirling propeller. He managed to reach up and turn off the motor, but couldn't climb back into the boat because his trousers were caught in the propeller.

Millard Anders, 16, also of Bethel, saw him and swam to the boat, climbed in, and paddled it ashore. Nelson Spence, Jr., also of Bethel, home on leave from the Navy, assisted Anders in bringing the boat and Graves ashore.

## Developmental Reading Program Planned at Caesar Rodney

As a part of the Caesar Rodney summer program, plans for a Developmental Reading Course at Caesar Rodney School beginning July 5 and ending August 2 are being completed by the school administration and Mrs. Beatrice Holland, teacher of the class. The class, which will meet in the old cafeteria, will begin at 9 a. m. and end at 12 noon.

The contents of the program will be diversified so that the needs of students from grades 2 through 12, college-bound students, and adults can be met. Emphasis of the program will be in the following areas: Word recognition, dictionary usage, vocabulary development, comprehension, and speed. A variety of instructional methods will be utilized throughout the course. The basic approval of the program will be through diagnostic training with individualized grouping and instructions in a reading laboratory situation. The program will be supplemented by library exercises and the use of visual aids.

Persons interested in further information concerning the Summer Program should contact the office of the school their child attends or Mr. Wolfram at the administrative office.

A fee of \$10 will be charged

## EXPERTS FORECASTING EASY MOSQUITO YEAR

### Singing Star "Dion" To Be At Fair July 29

Saturday, July 29, closing night of the Kent & Sussex County Fair will have as its featured entertainer "Dion", the Laurie Recording Star. At one time Dion was with the tremendously popular singing group, Dion and the Belmonts, who recorded such best selling hits as "I Wonder Why", "No One Knows", "Teenager In Love", "Where or When" and others. This singing group is no more. Dion has left to become a single. The boys parted because their aims, their goals, were better served by a professional split.

Dion's first record as a single Laurie Records is titled "Lonely Teenager". It is a huge success. In a very short time an album will be presented for the public's appraisal titled "Alone With Dion." His selections are not rock n' roll from whose ranks Dion emerged. They are up-tempo standards with Dion's stylized mark indelibly stamped upon them. The album represents an emergence. Dion's emergence as a performer, a singer, as a person.

Dion lives with his parents and two younger sisters in Westchester County, N. Y. His hobbies are photography, swimming, guitar and painting. He attended Theodore Roosevelt High School and went on the drama and dancing classes.

Another recording for which he is well known is "Little Miss Blue". With Dion will be appearing for the last time at the fair the "Manhattan Rockets" whose show theme will be "Around the World in 80 Minutes." Climaxing the fair will be a gala fireworks display. Firework features of the 1961 fair will be an aggregate of casting acts, comic tumbling acts, risely acts, clown acts, clown numbers, animal parade and the wild west show! The finale will be the American Flag—Old Glory!

Registration for the course may be completed at the first meeting of the session or at the high school or elementary office.

## 1960-61 Hunting Seasons Set

Upland game and limits for the 1961 license year were established by the Delaware Game and Fish Commission in regular meeting this week. The Commission is empowered by the General Assembly to regulate seasons and limits following a public hearing held at least 60 days prior to changing any rule or regulation. The members of the Board considered both the points of view of Delaware sportsmen along with recommendations of the technical staff and have set seasons practically in line with those of last year with one exception. The shotgun season on the white-tailed deer will be January 12 and 13, 1962. In Sussex County only it will be legal to use dogs during the two-day big game season.

The deer kill each year in Sussex County since the initial shotgun season in 1954 has averaged far below the numbers taken in either of our two northern counties.

This has been attributed to the increased difficulty in hunting deer in this more heavily wooded section of the State.

## Deer Kill For The State Of Delaware By Season And County (Shotgun only)

Nature has embarked on a short range mosquito production program this year, hence most Delawareans are short of mosquito bites—so far.

Dr. Dale Bray, head of the University of Delaware's department of entomology, explains the good news this way:

A scarcity of high tides coupled with the absence of high winds has kept marshes and puddle pits free of water needed for breeding the species of mosquitoes which attack heavily populated areas, he explained.

Mosquitoes which breed near natural watersheds remain in those areas, he added.

The entomologist minimized the possibility of an outbreak of encephalitis in Delaware this year but cautioned that it is early in the season to discount the disease entirely.

New Jersey was hit by an epidemic of the deadly sleeping sickness in 1959.

Charles D. Murphy, Jr., of Milford, superintendent of mosquito control for the State Highway Department, said that if similar tidal condition prevail this month chances for an easy mosquito summer are almost assured. He noted that the June moon tide was low and thwarted mosquito breeding.

Murphy said there are no effective insecticides for destroying mosquito eggs. He added that his organization is equipped to spray and lay fog blankets over areas invaded by mosquitoes on the wing.

Both Dr. Bray and Murphy stressed that it is the female mosquito which does the biting and transmits disease. Murphy said it is the female Culiseta melanura which was suspected of carrying encephalitis to animals and to human beings.

Generally, they agreed that the medium-sized mosquito is the bitingest of the 42 species which call Delaware "home."

Least seen but the largest Delaware mosquito is the Toxorhynchites, Dr. Bray said.

## Frank Wright Wins President's Cup Tourney

Frank Wright took top honors in the annual President's Trophy golf tournament at Shawnee Country Club last weekend.

The champion, with a 136, defeated Robert Hoch, who had a 137 for the 36-hole medal play.

Other net scores, that is, after the handicaps had been deducted, are as follows:

## Lower Kent Republican Club To Hold Picnic

The Lower Kent Republican will sponsor a crab and hot dog picnic on Sat., July 8, at 6:30 p. m. on Coin Box Road, Rehoboth. Persons interested in attending should contact either Mrs. George Johnson or William West, by July 5 so proper preparations can be made. A bus will leave from the Old Acme Store at 5:15 p. m. for persons preferring to travel by bus instead of driving their cars. (A small charge of fifty cents per person will be made for those riding the bus). The same bus will stop in Farmington at the Farmington Fire Hall at 5:30 p. m. for those in that area who desire to travel by bus.

Keep this date open, July 8, as a wonderful time is planned for all plus a good gathering for Republicans from this area.

## Maryland Given Land For Park Near Denton

More than 100 acres of land, bordering the Choptank River, has been given to the state to develop into a park.

George Martinak, who owned the land, donated the tract to the state for the specific purpose of providing a public recreational facility.

It was stated that the donation of the land is contingent upon the fact that the park on the Choptank will in no way hinder, delay or preclude plans for the development of the projected lake and park on the Tuckahoe River.

W. A. Stewart Wright, who

handled the transaction, said that the State Department of Forests and Parks had assured him that the Martinak park will actually supplement the Tuckahoe project.

William A. Parks, superintendent of state parks, said that it is hoped that surveys necessary for the preliminary development of the park can begin within the next two weeks.

The land involved is adjacent to Camp Mardela, off the Deep Shore road, bordered by the river on the west and Watts Creek on the south.

## Relief Work Law Ignored By Delaware Cities, Towns

Delaware's cities and towns so far haven't shown any interest in a new plan authorizing them to put employable relief recipients to work on local projects.

The State Department of Public Welfare said Monday that no requests for such workers have been received since the General Assembly enacted the law two weeks ago.

The new law makes it mandatory for Delaware's estimated 380 employable relief recipients to accept work on local projects such as ditching and mosquito control.

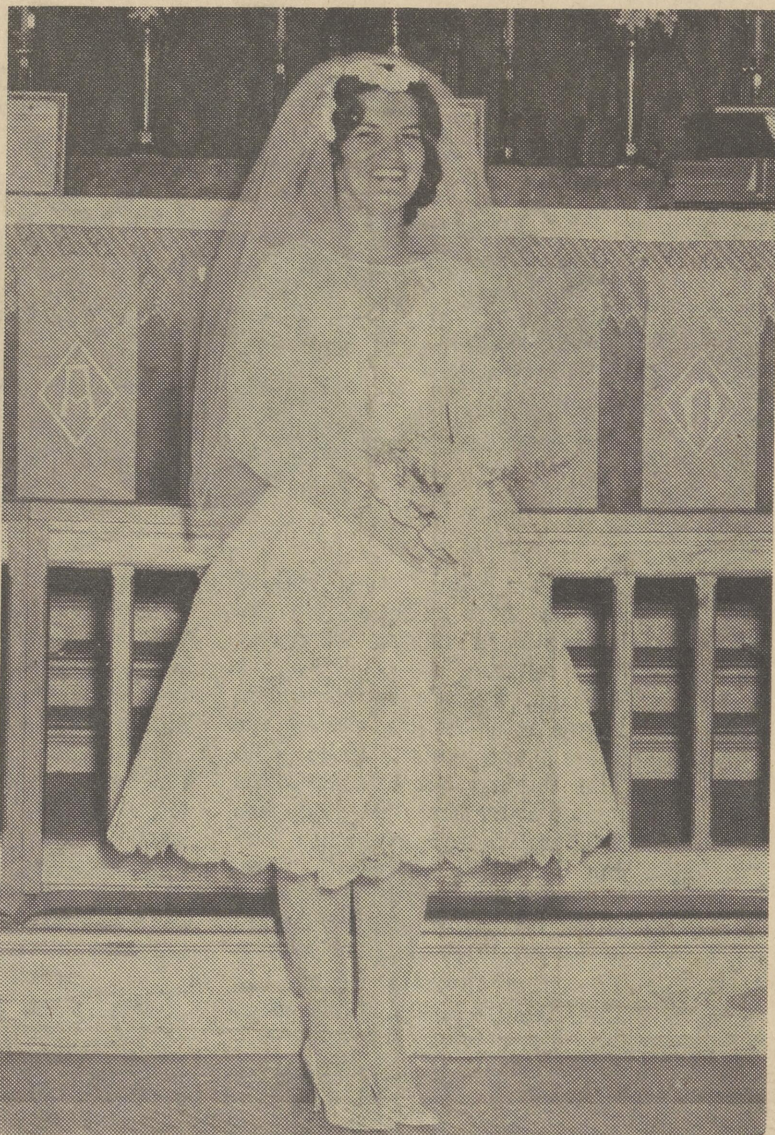

A town desiring such services merely has to file a request with the department for as many men

as it needs and provide transportation.

The law requires a relief recipient to work up to 40 hours a week to earn the amount he and his family are drawing in relief payments.

It affects about 320 persons on relief rolls in New Castle County, 40 in Kent, and 20 in Sussex. The forced-work law requires that the persons on relief be paid the minimum wage or more, and prohibits a town from replacing a regular worker with a relief recipient.

Although the law makes it mandatory for cities and towns to use the relief labor, it is considered almost impossible to enforce.

## Larvae Hit Young Pines

Unusually heavy attacks by red-headed sawfly larvae have been found in hard pine plantings in several parts of the state. William S. Taber, state forester, said this week.

Taber suggests planters examine their young trees for the presence of the feeding larvae and if found, apply control measures.

Recommend controls are to spray the infected tree with a solution of one pound of technical grade DDT dissolved in one gallon of No. 2 fuel oil at the rate of one gallon of solution per acre.

The larva of the sawfly is a worm about an inch long, and marked by light reddish-tan head on a light yellowish-green body with two lines of dark spots on either side of the body. Trees under attack will show bare stems with short stubs of sawed off needle clusters and large gobs of feeding worms.

A large consignment of leeches from Yugoslavia are now residents of London Zoo's insect house. They live only a few months.

## Smyrna Home to Get \$372,873 U. S. Aid

The federal government has approved a grant of \$372,873 toward an addition to the State Welfare Home, Smyrna.

The General Assembly recently authorized a bond issue to pay the state's share of \$1,350,000 for a total building cost of \$1,722,873.

A similar structure, the Candee Building, wiped out the waiting list when it opened in March, 1960, but there are 500 waiting to get in now and about 100 geriatric patients at Governor Bacon Health Center would be transferred down to Smyrna if there were room.

The capacity of the Welfare Home is 500 but there are 535 patients at present, some sleeping in hallway beds.

The addition, with room for 140 beds, will be built as a two-story annex to the main medical center at the hospital. It will be so constructed that a third floor may be added later, it was explained by Dr. C. J. Prickett, superintendent.

Dr. Prickett said plans and specifications for the addition are about ready and it is expected bids will be asked within a month.

Property Transfers

### Area Dairy Farmers Invited To Tour Wisconsin Dairyland

Delaware and Maryland dairy farmers are invited to make an educational tour of Wisconsin's famous "dairyland".

The tour, to be held August 8-10, is sponsored by the Dairy Herd Improvement Associations of the two states in cooperation with the University of Delaware and the University of Maryland. It will include visits to outstanding dairy farms in the Badger State, as well as stops at artificial breeding centers, a cheese factory, a farm equipment manufacturing plant, the University of Wisconsin campus, and other points of interest to dairymen.

The tour leader will be Dr. W. R. Hesselstine, extension dairy specialist with the University of Delaware, who sees it as an excellent opportunity for local dairymen to get a first-hand look at many new ideas in dairy produc-

tion that they might otherwise only see in magazines.

Among the features to be studied are automatic feeding systems, loose housing, milking parlors, pipe-line milking systems, forage harvesting and storage, famous breed lines and cow families, and many different kinds of time-saving, labor-saving and cost-cutting practices in the production of high quality milk.

Complete details of the tour were announced in the most recent issue of Dr. Hesselstine's dairy newsletter, "Delaware Dairy Digest".

The reservation deadline for the tour is July 15. Information about the tour can be obtained from county agricultural agents or from Dr. W. R. Hesselstine at Agricultural Hall, University of Delaware, Newark.

### USDA Announces 1961 Yearbook Of Agriculture, "Seeds"

Publication of Seeds—the 1961 Yearbook of Agriculture — has been announced today by the U. S. Department of Agriculture.

The yearbook has seven sections of 75 chapters, with 48 pages of photographs and many drawings. The book explains in every day language the importance of seeds—their life processes, production, processing, certification, testing, and marketing.

The yearbook contains practical information for farmers, gardeners, seedsmen, students and others on the seeds of hybrid corn, sorghum, rice, wheat, grasses, sugarbeets and other field crops, as well as vegetables, flowers and trees.

A sampling of the scope of the book is provided by the chapter titles:

"What Seeds Are and Do",

"Light, Flowering, and the Production of Seed", "How Long Can a Seed Survive?", "Fundamental Procedures in Breeding Crops", "Transporting, Handling, and Storing Seeds", "Policies on the Release of Seeds", "The Science of Seed Testing", "How We Get Seeds of Vegetables and Flowers", "Sometimes There Are Frauds in Seeds."

The yearbook of agriculture is a Congressional document prepared in USDA, and published under direct Congressional authorization. The yearbook is distributed mainly by Members of Congress.

Delaware residents may obtain free copies as long as the supply lasts, by writing to Senator J. Caleb Boggs, Representative Harris B. McDowell, Jr., or Senator John J. Williams.

### Greenwood

Miss Delmarva of 1961, who is Miss Betsy Rickards of Selbyville, Miss Donna Callaway, who was the runner-up in the beauty contest, and who is from Harrington, and Miss Debbie Cannon, who is Miss Popularity, from Greenwood, have returned home after spending four days in Atlantic City. The girls were accompanied by Mrs. John Mariner as chaperone. They were hostesses in the Hospitality Room of the District 22 of the International Lions Club convention.

On Sunday evening Mr. and Mrs. John Mariner and family were guests of Mr. and Mrs. Earl Hawk.

Mr. and Mrs. Lawrence Meredith attended the summer meeting of the Women's Republican Club held at the Lewes Yacht Club Wednesday evening.

Byron Mariner has returned home after spending two weeks at Camp Barnes at Franford.

Starr Mariner was a Tuesday guest of Toni Thomas.

The Pony League team, accompanied by its manager, John Mariner; coach, Eddie Burton; assistant parents, William Cleandaniel and Carl Schulze, motored to Baltimore Saturday to see the Orioles play a game.

Mr. and Mrs. Lawrence Meredith spent Sunday with Mrs. Meredith's brother and wife, Mr. and Mrs. Arnold Hodge, at their beach house in Fenwick Island.

On Tuesday Mr. and Mrs. John Mariner chaperoned the youth group of their church on a picnic at Ocean City.

Mr. and Mrs. Ronald Case and children are spending this week with his parents at their beach house in Prime Hook and also visiting relatives and friends here in Greenwood.

### Co-op To Have Annual Meeting July 13

A Farm Talent Round-up Contest, elections of Local Board and Farm Home Advisory Committee members, plus operations reports, will be the highlights of the Southern States Cooperative annual membership meeting for the Harrington area on Thursday, July 13, at Harrington High School at 8 p. m.

The Farm Talent Round-up Contest is being sponsored by Southern States in cooperation with the Ted Mack Original Amateur Hour Television Show.

The contest is open only to amateurs who are 12 years of age or over on July 17, 1961. They must be members of the

immediate families of a Southern States patron or a farmer. Neither professional entertainers, employees of Southern States Cooperative or its retail outlets and members of their families, are eligible for the contest.

About 350 similar contests will be held throughout the five-state operating territory of Southern States Cooperative prior to September 15.

The winning local act will be eligible to compete with winning acts from other communities in one of 10 regional elimination contests. The winner at each elimination contest will be given an expense-paid trip to the Southern States Annual Stockholders Meeting in Richmond, Va., on Oct. 26-27, to compete in the final contest at which Ted Mack will be the master of ceremonies.

The 10 regional elimination contests will be judged by a talent scout from the Ted Mack Original Amateur Hour Television Show.

The winner at Richmond will be given a three-day expense-paid trip to New York to appear on the Ted Mack Original Amateur Hour Television Show, plus \$100 cash. The second place winner will receive \$150 cash, while the third place winner will receive a cash award of \$100.

Appropriate ribbons will also be awarded to the top three acts in each local, regional and final contest.

Alvin Brown of Harrington will serve as chairman of the local meeting. Rev. Nelson Benjemin, pastor of Trinity Methodist Church, will give the invocation.

A report on local operations and services will be given by Charles L. Peck, Jr., manager of Peck Brothers Farm Supply Co., Inc., Harrington.

Jim Silver, of Seaford, a member of the Southern States Regional staff, will report on overall Southern States operations for the year ended last June 30.

Nominees for the local Southern States Board for the Harrington area are: William F. Parker, Ray Collins, Van C. Keaton and Oliver Reed, all of Harrington.

Nominees for the Farm Home Advisory Committee are: Mrs. S. V. Bullock, Mrs. Howard Cooper, Mrs. Lester Hill and Mrs. John Curtis, all of Harrington.

Other nominations may be made from the floor.

Members of the board whose terms expire this year are: Alvin Brown and Joshua Lister.

### Soil Testing Is Practical Tool

It's good business to anticipate fertilizer needs of crops before deficiency symptoms can be seen on the crop itself, says Acting County Agent Jerry Cole. Waiting for a deficiency to develop is poor practice, for by then crop losses have already taken place.

In present-day farming, the real problem is to know how well

### Train Your Family For Fire Safety

Every member of the family should be trained for fire safety, says Home Demonstration Agent Florence Y. Smith, with the University of Delaware Extension Service. She suggests that you follow these rules in case of fire in your home:

Plan at least two escape routes from every room in the house and for every family member. Anticipate halls and stairs being blocked by fire. Train everyone in the use of escape routes until even younger children understand clearly what to do. Keep exits clear. Plan to use garage and porch roofs, ladders, and even trees if necessary, to escape from upper floors.

Know the phone number of the fire department that serves your district. Be sure firemen know how to reach your farm.

Get everyone out of the house immediately the minute you discover fire or smoke. Don't stop to dress children or to save valuables. Always have a flashlight handy.

Stay near the floor or crawl to avoid rising gases. Hold your breath if you have to make a dash through smoke or flame.

Don't open hot doors. Feel doors first; if they're hot, keep them closed and get out another way. Closed wooden doors can keep fire and smoke out of a room for several minutes.

Never leave children alone in your home. Instruct your baby sitter in your escape plans; see that she knows how to get in touch with the fire department, parents, doctor, and police. Never re-enter a burning house; even the smallest, most harmless-looking fire can give off deadly smoke and fire gases.

Mr. Cole points out that once a farmer has embarked on a fertilizer program, its value in meeting the needs of the crop from year to year can be estimated by soil tests. Soil testing is a practical tool that tells what needs to be known about soil before trouble appears and before it's too late to correct it.

By following a regular program of soil testing, farmers can avoid loss in yield and low profits resulting from hidden hunger of crops. The county agent says soil testing is the modern way to determine fertilizer and lime needs.

### Of Local Interest

On Sunday, July 2, Mr. and Mrs. James Edward Hearn of Lincoln were entertained at a family dinner in honor of their 50th wedding anniversary at the home of their son, Mr. and Mrs. William Hearn, and daughter, Alice, of near Harrington. Those in attendance were: Mr. and Mrs. Raymond Tucker of Lincoln; Mr. and Mrs. Clarence Tucker of Houston, William S. Hearn and daughter, Helen, of Camden, N. J.; Mr. and Mrs. Raymond Hearn and daughters, Raynice, Carrie and Lianne, of Delanco, N. J.; Mr. and Mrs. William J. Hearn Sr. and son, Bill, of Collingswood, N. J.; Mr. and Mrs. James Minner of Houston; Mrs. Howard Kooztz and grandsons, Harold and Robert Coverdale, of Marcus Hook, Pa.; Mr. and Mrs. Franklin Kooztz and sons, Stephen and Mark, Mrs. Smith Wilson, Mrs. Jack Butler and children, Ronnie and Nancy, all of near Wilmington; and the Rev. John R. Symonds of Harrington.

Mr. and Mrs. Hearn received many nice gifts and many congratulations for many more years of happy marriage.

### Farmers Reminded Of Conservation Reserve Compliance

Farmers who have Conservation Reserve contracts were cautioned by R. Harry Wilson, chairman of the County Agricultural Stabilization and Conservation Committee at Dover, about compliance with those contracts during the current cropping and grazing season. The contracts call for no grazing or harvesting on the designated acreage and for planting within the permitted acreage of Soil Bank base crops on the farm.

A farm with a Conservation Reserve Contract has a designated acreage of land that has been taken out of production and is not devoted to conservation uses. The conservation uses include trees, grasses and legumes, water storage, and plantings beneficial to wild life. In return for annual payments, the designated land is kept entirely out of production.

Before the planting season started, each farmer with a Conservation Reserve contract was sent a notice of his permitted acreage of Soil Bank base crops. All small grains, oilseed crops, and most row crops are considered Soil Bank base crops under the Conservation Reserve program.

### Canned Vegetables Must Be Sterilized

Too many homemakers use the waterbath method of canning for vegetables that should be sterilized in the pressure cooker, says Kent County Home Demonstration Agent Florence Y. Smith. Your canned vegetables may contain these harmful bacteria unless sterilized under pressure.

The acids of tomatoes and fruits protect these foods just as added sugar protects fruit. A pressure cooker is essential to successfully can peas, beans, and other non-acid vegetables. Use the waterbath for fruits and tomatoes only, Mrs. Smith advises.

"Oven canning is dangerous," the county home demonstration agent points out. "The dry heat of the oven doesn't raise the temperature in the jars high enough and the lids seal onto the jars before the processing time is up. This causes jars to explode with damage to equipment and possible injury to the homemaker."

Softball News

The Harrington Athletic Club nine picked up a game and a half on the second place Moose team to feature the action in the Harrington Softball League this week.

H.A.C. shut out Thompson's Raiders, 10-0, and bested Milford 7-2. Milford took advantage of one big inning to outlast the Moose, 10-9.

Hay Conditioners Cut Field Curing Time in Half

Research indicates that hay-crushing machines can slash alfalfa hay field curing time in half.

Dr. William H. Mitchell, agronomist with the University of Delaware, cites Illinois research in which conditioned hay, cut at 9 a. m., averaged 75 per cent moisture. By 2 p. m. the following day, the moisture had dropped to 16 per cent.

Untreated hay from the same field, cut at the same time, showed about 30 per cent moisture at the end of the same drying period.

Researchers noted similar drying advantages for conditioned second and third-cutting hay. Hay containing 68 per cent moisture, cut and conditioned at 9 a. m., was down to 20 per cent moisture by 5 p. m. the same day. Unconditioned hay from the same field still had 25 per cent moisture.

Crushed hay in all tests was already for baling at least a day earlier than uncrushed hay.

Fast curing isn't the only advantage of crushing. It can save up to 10 per cent more hay by preventing loss of leaves and small stems caused by extra drying and handling after rains.

Crushing also saves vitamin A, since hay is exposed to sun and rain for a shorter time. In addition, rapid curing saves protein that otherwise could be lost in shattered leaves.

Hay crushers crack stems lengthwise and reduce them to the equivalent of several smaller ones. The process opens up the moist inner parts of the stems, bringing them into more direct contact with the air. As a result, the stems dry almost as fast as the leaves.

 July 5, 1961  
 To the Family of William W. Sharp, deceased, Harrington, Delaware

We herewith hand you a copy of the resolution passed at the meeting of the directors of the First National Bank of Harrington at their regular session today.

Whereas, It has pleased an all-wise Providence in the removal from our midst of William W. Sharp, a member of the board of directors of this bank.

Resolved, That the wisdom and ability he has exercised in the aid of our institution by service and counsel, will be held in grateful remembrance, and desiring to show our appreciation, we have provided an appropriate remembrance.

And we also desire to extend our sympathies to his family and relatives and thus assure them that we join them in mourning their irreparable loss, at the same time bowing in reverent submission to the will of our Heavenly Father.

Resolved, that a copy of these resolutions be sent the surviving members of his family, and another to be recorded in the regular minutes of this meeting, respectfully submitted.

Baptists believe that faith and repentance result from the working within us of the Holy Spirit. There is a "repentance" which belongs to the natural man. There is a "faith" which any one can exercise in man or God. But when these words are used in the scripture sense, more is meant than this elemental repentance or faith.

The repentance which is inseparably linked with faith, and leads to salvation, is a godly sorrow for sin, such a sorrow as can arise only when the Holy Spirit has moved upon the heart. The faith which issues in salvation is more than an appreciation of goodness or grace; it is a conscious acceptance of Christ as Saviour and Lord, and involves such a surrender as the soul is incapable of except as aided by the Holy Spirit. The Holy Spirit, responding in grace to human need, as he does his regenerating work in the soul, quickens the soul into Godly repentance and saving faith, the "inseparable graces," which are also "sacred duties."

CRISP FIRE

A one-room building, on the property of Albert Crisp on the Jackson's Ditch road, was gutted by fire early Tuesday morning. Local firemen extinguished the blaze.

Market Report Delaware Food

Lemonade season is definitely here and with its arrival a welcome drop in the price of lemons. The most practical way to judge lemons when you are buying them is by weight, heavy fruit usually contains the most juice. The skin should be oily and elastic. Lemons with large knobs at the ends will yield less juice than those having more uniform ends. The lemons that are deep yellow in color are usually relatively mature and less acid than those of lighter or greenish-yellow hue; the deep yellow ones are also generally thinner skinned and may have a bit more juice, but are less desirable for acid flavor.

How many lemons should you buy? As many as you can refrigerate for they keep well. However, if you keep some too long and they become dry don't throw them away, there's still juice there. Simply place them in the oven until they are heated through. The amount of juice they will give is surprising.

If you need sour milk or cream, lemon juice will help you have it. Add one quarter cup lemon juice to one cup of milk, fresh or evaporated, and one third cup for cream.

The big push on Southern peaches is beginning to be seen at local markets. Prices are fairly reasonable and are beginning to slide downwards as supplies increase. Lots of cantaloupes are available and prices are ranging from 19 cents to 45 cents each. Watermelon and blueberries are also in fair supply and prices are attractive.

Carrots are a good choice at the vegetable counters. Most of the present supply is from California, where the crop forecast is 6 per cent higher than last year. Other good buys at the vegetable counter this week are: lettuce, celery, several types of lettuce, radishes and green and yellow squash.

Lamb marketings, up sharply the past three months, are beginning to taper off. Pork production is at a seasonal low but should start to increase again in August. Broiler marketings, nearly 30 per cent greater during June than a year ago, are beginning to ease off a bit and will continue to during the rest of July and August. Supplies remain seasonally large however. Beef slaughter continues to be heavy and supplies are adequate to heavy, so there will be plenty of meat to choose from.

Veterans News

QUESTIONS and ANSWERS Q—My husband and I were married several times, the last time just a month before his death. Will the time of our prior marriages count toward the required five years for my pension eligibility?

A—Where a widow has been married to the same veteran more than once, the date of the first marriage is used in computing the duration of their marriage. Because of the unusual circumstances you might do well to check all details with the nearest VA office.

Q—Are the VA regional offices generally located in state capitals?

A—Generally they are in the major cities of each state—which may or may not be state capitals.

Q—I have not been feeling well lately, and think I need a medical check-up. Will the VA do this for me?

A—No. The VA gives medical examinations only to determine the presence of a condition claimed to be service-connected, when needed for government life insurance purposes, or when application is made for hospital or domiciliary care.

Q—I think an inaccuracy in my World War II service record is preventing me from getting VA benefits. How can I go about getting the record corrected?

A—Don't delay—the general deadline for this is October 26, 1961! Make written application to the service concerned, on Department of Defense Form DD 149, "Application for Correction of Military or Naval Record." You can get this form at your nearest VA office.

Chosen Friends Notes

## Public Officials Should Deal Aggressively

### With Problems of Traffic Accidents

The responsibility of public officials to deal aggressively with the problems of traffic accidents has been clearly spelled out by the White House Conference on Highway Safety.

The President of the United States has recognized this responsibility and has asked officials to fully recognize their obligations and to deal forcibly with this problem at State, county and municipal levels of government.

Because there is a proved need for official coordination at these various governmental levels, it is strongly recommended that appropriate agencies for this purpose be formed or where already existing, strengthened as needed to make them fully effective.

In the light of the tremendous annual traffic toll we pledge our support to any program to arouse public opinion in every community to the need for safety organizations.

We will use our best efforts to have our organizations adopt traffic safety as a permanent and continuous program. We will work with other organizations that have a similar interest in creating a climate for safety on the highways of the nation.

Dairy Calves On Pasture Need Some Grain

Pasture is an excellent feed for cattle of all ages, reports Jerry Cole, Acting Kent County Agent.

Yearling heifers show satisfactory gains on good pasture and need little or no supplementary feed except salt and minerals.

Heifers under 10 months normally need some grain. Calves born after January 1 need plenty of good-quality legume hay and from three to five pounds of grain a day.

Dairymen can let young calves run on pasture near the barn. However, they should be free to return to the barn during the hot part of the day when flies are bothering them.

Heifers of all ages need free access to salt, minerals and plenty of water and shade. Short or scant pastures require supplemental feeding of roughage and grain.

Dairymen must keep heifers growing at a normal rate if they are to reach normal size by the time they are two years old.

For normal growth, Mr. Cole says Holstein heifers should make an average daily gain of 1.5 pounds. Brown Swiss should gain about 1.4 pounds a day; Ayrshires and Guernseys, 1.3 pounds; and Jerseys, 1.1 pounds.

Rainy Day Clean-up Protects Livestock

This is the time of year for farmers to be out in the fields working every chance they get.

But there'll still be rainy days to make a determined effort to clean up the farmstead for the protection of livestock from injuries.

Acting County Agricultural Agent Jerry Cole suggests:

1) Clean up thoroughly after every repair job. Don't leave any nails, screws, or bits of metal around that inquisitive cows might pick up.

2) When you patch up your fences, make sure that wire fences are grounded every 200 feet. It might prevent a few animals from being electrocuted during summer electrical storms.

3) Repair or improve high door sills, short stalls with deep gutters, and low loose fences that may tempt cattle to climb or jump.

4) Don't leave machinery around where cows can injure themselves by running into it.

5) Keep empty fertilizer bags, paint cans and insecticides away from animals. These can poison cattle.

6) Check buildings and pens from protruding nails. They can puncture skin and let disease germs in.

7) Block holes in your building foundations to keep your animals from burrowing under them.
