QUALIFICATIONS VARY FOR PARTICIPATION IN OPERATION HEAD START

A mother was kind enough to tell us, last week, that her child, a participant in the Head Start program here, was not underprivileged, as we had mentioned in news items on the project.

Volume I, "The First Step . . . On a Long Journey," Congressional Presentation, April, 1965, Office of Economic Opportunity reads: Project Head Start provides up to 90 per cent federal financing for communities to organize and operate pre-school child development centers which create an environment to bring children to their full potential by improving their health and physical abilities of the poor, developing their self-confidence and ability to relate to others, increasing their verbal and conceptual skills, involving parents in activities with their children and providing appropriate social service for the family."

The definition of poor, less fortunate, and underprivileged is a relative thing. In other words, it all depends on where or how you live.

E. Alan Rutledge, head of the Head Start Project here, said at least 15 per cent of the 45 youngsters in the program here are from families of average circumstances; in other words, he did not have to look at their economic status.

On the remainder, he continued, the definition "underprivileged" or "less fortunate" could be applied.

The application of these words does not tell the whole story here. The Office of Economic Opportunity applies, "poor," for example, to a husband and wife earning a maximum of \$3000, with a credit of \$500 for each child. Thus, a family with two children could earn \$4000; one with four children, \$5000. In this community, these families would be far from poor. In large, northern cities, however, that definition might be reasonably applied.

In conclusion, Rutledge said almost one-third of the pupils who will enter the first grade in the fall are in the program.

Delaware Food Market Report

Fresh fruit enthusiast will find local counters something to behold! A broad variety of fruits have moved into the low-cost column and this is welcome news to us all. Some items are lower in price and a number will decline in the next few weeks. The blueberry season will soon reach a peak as will the short raspberry season. Very reasonable prices are also available on western cantaloupes as some growing areas are in peak season while others continue to be in moderate to heavy volume. The crop is estimated as being 16% larger than last year.

Shipments of peaches from the warmer growing areas of Georgia and the Carolinas are showing improvement in size and color under favorable growing conditions and supplies from these areas are near a peak. Excellent values are available.

Plum harvesting in California is rapidly approaching its peak and supplies are heavy since this year's crop is now estimated at 125,000 tons. Now's the time to enjoy delicious, refreshing plums as is or in attractive fruit dishes, preserves, and fruit soups or other tempting dishes, so fast to devise.

Watermelons continue to be in very heavy supply and supplies of pineapple from Hawaii are fairly heavy with prices a bit lower. The first early season apples have arrived but supplies are still light. Imports of bananas are also light and prices are somewhat higher this week.

The fresh vegetable price trend is down as nearby growing areas continue to take over the market. Effects of the long drought are being tempered by the widespread use of irrigation and with the recent good rain, better quality vegetables will be on hand. Among the best choices are snap beans, iceberg, Boston, and romaine lettuce, cucumbers, sweet corn, radishes, cabbage, summer squash, and green onions. Broccoli, cauliflower, and tomatoes, continue to be relatively high in price.

Poultry remains the low-cost choice among meats. More broilers will come to market this summer than ever before. Turkeys are also relatively inexpensive and ducks can be a welcome change of fare. Don't forget poultry is "a natural" for broiling out of doors barbecuing and for just plain good eating.

Though beef remains high, more local stores will feature beef this week. Check such items as chuck roast, hamburger, corned beef, and a few steaks.

There are plenty of high quality eggs at reasonable prices. A word of caution though: It's hot weather, so be extra careful to buy eggs from refrigerated cases and keep them cool to maintain quality.

Rehoboth Summer Extension Courses Offered by U. of D.

Four education courses are among nine University of Delaware Extension Division courses offered this summer at Rehoboth.

Registration for the summer extension courses at Rehoboth will be held Mon., Aug. 9, at Rehoboth Beach High School from 8 a.m. to 7 p.m. Classes, both daytime and evening, will meet Monday through Friday from Aug. 9 to Aug. 27.

The education courses, all worth three credits, are:

Basic human development, meeting from 9 to 11:30 a.m., with Dr. Victor Mankin, associate professor of education, as instructor. The course deals with the processes, including learning, affecting human development. Emphasis is on the application of principles of learning to classroom teaching.

Curriculum and methods in kindergarten education, meeting from 7 to 9:30 p.m., with members of the College of Education faculty as instructors. The course includes an examination of kindergarten programs and their relationships with different school curricula, with emphasis on the development and use of materials for such programs. Pre-school children will illustrate material use.

Elementary curriculum and materials (language arts), meeting from 9 to 11:30 a.m., with Mrs. Aletha Pitts, sixth grade teacher from the E. Frances Medill Elementary school in Newark, instructing. The course is designed to communicate recent developments in practices, materials of instruction, and techniques for the elementary level. Undergraduate students need the instructor's permission.

Curriculum problems I: secondary methods in social studies, meeting from 9 to 11:30 a.m., with instruction by Dr. Charles H. Adair, assistant professor of

MYSTERIOUS OBJECT RECOVERED FROM DELAWARE BAY—Robert Vannaman, of the Cape May-Lewes Ferry Service points to cleat of old sailing ship which Ferry officials believe is submerged object which the M.V. Henlopen struck two weeks ago while docking at the Lewes Terminal. The Henlopen crew marked the point of impact at the time. This week dredgers brought the wreckage to the surface. Some watermen claim the huge piece of wreckage is from an old pier, while others stoutly maintain it is from an aged ship. The Henlopen drew water after the impact and underwent repairs in Norfolk, Va. The bayliner returned to service three days later.

education. Emphasis in the course will be placed not only on long-range planning, but on meeting practical day-to-day problems in the classroom by studying the objectives, methods, and materials available to the secondary school teacher. Undergraduates need the instructor's permission for this course also.

Other rehoboth summer extension courses are painting, corrective composition, basic arithmetic concepts, parties and politics along with studies in political parties, and general psychology.

The division of University Extension can provide full details about registration. Write the division at the University of Delaware, 79 Amstel Ave., Newark.

Two New Members Join Teaching Staff At Wesley College

Two new faculty members will join the teaching staff of Wesley College this fall. Dr. Robert Parker, president of Wesley, announced this week.

Dr. Francisco S. Ramos will be an associate professor in modern language teaching Spanish. Harry H. Banta will be an assistant professor in English, specializing in composition.

Dr. Ramos earned his Bachelor of Arts and Sciences degree at the College of Paris, France, in 1932. In 1943, he received the Doctor in Law degree from Howard University. His dissertation was entitled, "Cuba and International Law." He was professor of economics at the Enrique J. Varona University in Cuba when the Castro regime came to power. He resigned this post out of anti-communist and anti-Castro convictions. For the past two years, Dr. Ramos has been a member of the Board of Education and teacher of Spanish at the Fauquier High School, Warrenton, Va.

An accomplished linguist (Spanish, French, Italian, English), Dr. Ramos has written a number of articles on the subject of linguistics for university publications. His travels have taken him throughout most of Europe, the Near East, the Caribbean, Canada, and America. Dr. Ramos, with his wife,

Olga, and their two children, plan to make their home in Dover.

Harry H. Banta received his Bachelor of Arts degree from Allegheny College, Pennsylvania. He earned his Master of Arts degree in 1950 at Allegheny College.

Mr. Banta is a member of Kappa Phi Kappa, a national professional education fraternity with headquarters at Miami University, Ohio. Mr. Banta has a versatile background in collegiate dramatics and publications. He is an accomplished pianist, amateur photographer and free lance writer.

In his announcement of these faculty appointments, Dr. Parker indicated that Mr. Banta fills the only vacated teaching post. Dr. Ramos is a new appointment in the expanding language department. All other professors and instructors are continuing their association with Wesley College.

Swimming Lessons Of Local Interest Being Conducted At Legion Pool

Mrs. William Hearn Phone 398-3727

Several members of Girl Scout Troop No. 687 are attending the Girl Scout Day Camp being held in Milford.

Mr. and Mrs. John Kolata, of Olean, N. Y., are spending this week with his sister, Mr. and Mrs. Fred Martin.

Mrs. Harvey Derrickson, Mr. and Mrs. Ward Bennett, of Millville, and Howard Derrickson, of Baltic, Conn., were the guests of Mrs. W. W. Sharp, Monday.

The annual summer outdoor band concert sponsored by the Harrington School will be held next Friday evening, July 23, at 7 o'clock in front of the high school entrance on Dorman St.

Miss Pat Danna, of Wilmington, is spending this week with her grandmother, Mrs. Arta Masten.

Mrs. William Hearn and daughter, Alice, were the guests Monday of Mr. and Mrs. J. E. Hearn, in Lincoln.

Dr. and Mrs. Vincent Lobo became the proud parents of a baby boy, born Sat., July 3. This is their first child.

Edwin Webster, of Baltimore, spent the weekend with friends in town.

Mr. and Mrs. Norman Oliver entertained the members of their card club at a cookout Saturday evening.

Mrs. Fred Wilson, Mrs. Ernest Dean, and Mrs. William Sharp entertained Mr. and Mrs. Joseph Eggert of Huntington, L. I., N. Y., at dinner at the Dinner Bell Inn, Rehoboth, Saturday evening.

Mr. and Mrs. Robert Gillette, of Norfolk, Va., spent the weekend with Mrs. Frank Crouse, of Bridgeton, Md., and Mr. and Mrs. Oscar Gillette.

Guy Winebrenner was in Philadelphia Tuesday evening.

Mrs. Hazel Langrell has returned to her home after spending some time with her daughter, Mrs. Lois Curro, in Claymont.

The W.C.T.U. will meet at the home of Mrs. Wilkoski next Tuesday evening, July 20, at her home on the Harrington-Felton Road.

The Rev. and Mrs. Fred Marvel and family, of Middleburg, Va., spent last week with their mother, Mrs. Arta Masten.

Kenneth Konesey returned on Tuesday to Indiantown Camp, Pa., after spending a 30-day furlough with his parents, Mr. and Mrs. Joseph Konesey, following his return from a tour of duty in Viet Nam.

Mr. and Mrs. Alvin Donophan, of Crownsville, Md., spent the weekend visiting friends and relatives in and around town.

Miss Leona Dickraeger is visiting in Chautauqua, N. Y.

Gail Melvin, John Knapp, Jackie Parker, Bobby Rash, Renee Quillen, Ricky Hoffman, Kim Hitchens, and Lee Graef spent last week at Camp Pe-Co-Meth.

Mrs. Carroll Wix visited Mr. and Mrs. James Hearn in Lincoln Monday.

Forty-two boys and girls of the summer music classes of Harrington School recently visited Hershey, Pa., where they toured the Hershey Chocolate Company. They spent the afternoon at the Hershey Amusement Park. The chaperones were Melvin Brobst, local music professor; Henry "Smoky" White, Mrs. Olin Davis, and Mrs. Tom Clark.

Mr. and Mrs. James Hobbs are spending some time at their trailer at Oak Orchard.

The Rev. and Mrs. Donald Young and family, of Ann Arbor, Mich., were the guests over the weekend of the Rev. and Mrs. Quay Rice. While here they held a private baptism service in St. Stephen's Church, where Rev. Young baptized his daughter, Pamela and Rev. and Mrs. Rice became the godparents of Pamela, and another of the Young's daughters, Charlene.

The Chesapeake Utilities Corporation has applied to the City Council of Harrington for a Franchise to serve natural gas within the City Limits of Harrington for a period of twenty-five years. The Council held a public hearing on this subject and authorized a referendum to be held on August 28, 1965.

CHESAPEAKE IS MAKING THE FOLLOWING PROPOSAL IN CONNECTION WITH THE INSTALLATION OF A DISTRIBUTION SYSTEM IN HARRINGTON:

1. Chesapeake proposes to install a distribution system that would serve a substantial percentage of the area within the City Limits. Such a system would cost Chesapeake approximately \$125,000.00. There would not be any cost to the City of Harrington or the individual Citizens and taxpayers.
2. Chesapeake has agreed to give the City of Harrington the right to negotiate for purchase of this system any time after the first ten years of operation, and would give the City first refusal if Chesapeake proposed the sale of the system to a third party.
3. The City would not assume any possible liability due to the installation of the system.
4. Chesapeake would restore the surfacing of the streets equal to existing conditions.

SOME OF THE BENEFITS ACCRUING TO THE CITY OF HARRINGTON AND THE INDIVIDUAL CITIZENS ARE AS FOLLOWS:

1. Lower fuel cost for cooking, water heating, space heating and other residential, commercial and industrial uses.
2. The City would receive additional tax revenue, as the distribution system would be taxable.
3. Natural gas is non-poisonous and lighter than air, therefore safer.
4. Natural gas service would be available to most Harrington residents choosing to use it. Every user would make his own decision as to the fuel he would use.
5. Low natural gas industrial rates would attract industry and therefore create jobs.

Vote YES on August 28, 1965 FOR NATURAL GAS SERVICE

McDowell Votes For Saline Water Bill

Congressman Harris B. McDowell, Jr. (D-Del.) on Monday of this week voted for H. R. 7092, legislation to expand, extend, and accelerate the saline water conversion program conducted by the Secretary of the Interior. The bill came up in the House on July 12, and passed overwhelmingly. A companion bill passed the Senate on June 16.

The purpose of the bill is to provide authority for the construction of "modules" and "components" as a part of the research and development program mand provide an additional \$10 million for carrying the program through fiscal year 1967.

Congressman McDowell pointed out that the saline water conversion bill was recommended to the Congress by President Johnson, and that there were only two bills before the House, one which he introduced, and one introduced by the Chairman of the House Interior and Insular Affairs Committee, Congressman Wayne Aspinall of Colorado.

Congressman McDowell said recently that:

"This is a vital program. The continued drought which has affected New York City so drastically, and which has threatened Philadelphia, and Camden, and which has reduced the flow in the Delaware River to the lowest point in history, demands positive action.

"This saline water conversion program offers great promise for Delaware, and indeed for the entire country. The existing program under the Secretary of the Interior has reached a point where it shows promise of converting salt water to fresh water at a reasonable cost.

"We have had the know-how to convert salt water to fresh water for industrial and domestic use for a long time, but the problem has been how to do it at a price which would not be prohibitive. We are on the threshold of a breakthrough now.

I have been supporting this program since coming to the Congress. The Federal Government entered this field 13 years ago when Congress adopted the Saline Water Act of 1952. The objective of the program then, as now, was to develop economically feasible processes for converting sea water and other saline water to fresh water of a quality suitable for municipal, industrial, agricultural and other beneficial purposes.

"It is my hope and belief that the acceleration of this research program will contribute before long to relieve the strain brought about by water shortages.

"There is no better or more significant way in which we can apply modern technology and know-how to peaceful and humanitarian purposes."

Under the present program, water desalting technology and know-how has advanced to the point where it may soon be possible to produce fresh water from the sea in large combined distillation and electric power generating plants at a cost estimated at 30 to 35 cents per thousand gallons of water, and about 3 mills per kilowatt hour for electric power. Such low costs for fresh water will only be made possible by the construction of a desalting plant about 100 times larger than any yet constructed. According to the experts, the construction of such large plants presents a number of major engineering problems.

Substantial investment must be made in engineering and testing large-scale components, modules, or sections of plants to show how the distillation process will work to actually produce water at this low cost.

In addition, an increase in the scale of research and development work on other processes is needed to provide means for dealing with the major water problems of the central states of the nation.

Salvation Army Visits Harrington

By W. C. Burgess

The Salvation Army came to town Monday evening at about 5 p. m., and set up their truck in front of the Peoples Bank, and gave everybody a good sermon, a good show with a puppet, and a fairly good band.

Of course, it wasn't jazz like on television; but it wasn't supposed to be 'ither!

Now, right away comes C. M. Collins, and asked them about a donation, and they say, "we don't take donations; this is in celebration of the birth of the Salvation Army one hundred years ago in London—July 2, 1865. According to the literature which they were distributing, this organization was formed when they held a meeting in front of "The Blind Beggar," a pub in London, England.

Hm-m! It does seem that the Limey's just used to be stuffy; but since the Boston Tea Party, they have been gradually loosening up, and I guess they have finally arrived. It sure took a long time though.

I would have been delighted to give "The Blind Beggar" a tumble, but I didn't know it was there.

This convoy of Salvation Army members had four or five cars, in addition to the truck. There were 10 or 15 members in this crew, and no money coming in; I can't understand it myself. I was standing in the doorway (officer's paradise) of the Harrington Journal, when around the corner came two of them. They were checking to see how far the sound system was carrying.

I told them I owed them for a meal which I had on Thanksgiving Day during the depression—1929-1935. A depression at that time was not necessarily a deep hole — just anything or anybody that was down and out — and most everybody was. Even the Wall Street boys couldn't take it — rather than be broke — many of them took the easy way out; the 10th floor without the windows. — Newspaper reports, not actual vision—being on the scene—as in other instances.

The puppet played a solo (supposedly) on the trumpet; and then there was some more singing, a prayer and a sermon.

The man then said that the Salvation Army had people in the communist countries (even Russia) conducting meetings in secret. He said some of them were caught and sent to Siberia.

He said the organization did not take donations, but that you could send them to some address in Philadelphia. He said the organization hoped that you would join the local church of your choice.

One of the members told me that one family in town had several sons working for the Salvation Army.

One of the songs this organization sang was, "I Come to the Garden Alone," and so I stayed for the whole works, and learned a little something about the organization. This song was the one Frank Collins and James Harvey Burgess liked the most. At least, it was one of their special songs.

Thanks for the meal, pals!

Perry - Ross Announce Engagement

Mr. and Mrs. Clyde Perry announce the engagement of their daughter, Margaret Anne, to Robert J. Ross, III, the son of Mr. and Mrs. Robert J. Ross, Jr., of Thousand Oaks, Cal. Miss Perry was graduated from Jefferson Medical College Hospital, School of Nursing, Philadelphia, Pa. She is now employed by the San Jose Hospital, San Jose, Cal. Mr. Ross attended Pierce College, in Woodland Hills, Cal., and is now a member of the U. S. Air Force.

The wedding will take place, opal Church, San Jose, Cal. opal Church, San Jose., Cal.

Asbury Methodist Church Notes

10 a.m. Church school. Classes for all ages. Arthur Hoffman, superintendent.

11 a.m. Morning worship service. The sermon topic: "Remembrance".

Altar flowers this week will be presented by Mr. and Mrs. Charles Peck, Jr., in memory of her parents.

Friendly greeters this week will be Mr. and Mrs. Thomas Clarke.

The Pathfinders Class will meet for their annual picnic at the summer home at Mr. and Mrs. Fulton Downing, Rodney Street, Dewey Beach, July 18 beginning at 2 o'clock.

Mrs. Marvin Brown will be in charge of the nursery for July. Luther Hatfield, membership and cultivation superintendent of the Sunday School will meet with a committee Mon., July 19, 7 p.m. to plan for an increase in Sunday School membership and attendance.

Mon., July 19 at 8 p.m. the Commission on Education will meet with Mrs. Norman Hopkins, chairman.

Earl F. Worthington

Earl F. Worthington, 65, past grand noble of Milford's Odd Fellow's Lodge, died at his home at Milford, Thurs., July 8.

Mr. Worthington, a linotype operator with the Milford Chronicle Publishing Co., was a member of the board of directors of the Calvary Methodist Church and an honorary member of the Ellendale Volunteer Fire Co.

He is survived by his widow, Mrs. Marie Worthington; two daughters, Mrs. Elizabeth Fogelsanger, of Scotland, Pa., and Mrs. Oscar Bailey Jr. of Lincoln; a son, Earl E., of Milford; two sisters, Mrs. Mable Harrington of Milford and Miss Alice Worthington, of Chambersburg, Pa.; a brother, Ernest Worthington, of Chambersburg, and five grandchildren.

Services were held Sunday afternoon at the Lofland Funeral Home.

Trinity Methodist Church Notes

Sunday: 10 a.m. Church School for all age groups. Lesson for adults: "Christians Grow Through Conflict".

11 a.m. Worship service. Sermon by pastor: "Parents Need the Prayers and Help of Their Children".

Quartet: "Holy Father, We Adore Thee", by Mrs. Warner, Mrs. Wix, Mr. Brobst, and Mr. Mann.
