

## School Board Eyes Modular Type Building in Improvement

The Lake Forest School District maybe will be able to save a lot of money in its 1971 building program, a spokesman for modular construction told the Board of Education Monday night.

Joseph Wheeler, district manager of Hanly Structures, Inc., of Tennessee, said his firm could save 50c on the dollar, against the cost of on-site construction.

His firm, he explained, which builds only schools and banks, builds the units, usually of standard specifications, at the factory and hauls them to the building site where they are assembled. He illustrated his talk with slides and mentioned schools his firm has built in Delaware.

Melvin Luff, in charge of the district's improvement and maintenance program, will visit the plant in Tennessee Monday with the following board members: Everett Warrington Jr., Virgil Jarrell, Joseph Hughes and Albert C. Price.

The board will also get in touch with other builders of modular construction.

This type is being considered for next year's building program which call for elementary classrooms at Harrington and Frederica and an administration building.

The improvement program, said Albert W. Adams, board secretary, was in its initial stages and nothing definite had been planned.

In other business, Board Member James Pizzidilli told of a meeting of the Delaware School Board Association with state legislatures Thurs., Dec. 10, at Gunning Bedford School, Delaware City.

The Feltonian suggested the board push for state

school appropriations which face an insufficient budget for next year.

He added a bill would be introduced in the next session of the General Assembly public schools. If it passes, for an appropriation to non-he pointed out, it will take \$2 million from the budget of public schools.

"The way legislators feel now they're going to vote for it because of nonpublic school lobby and apathy of public school organizations," he said.

Nonpublic schools have state busing of pupils and now want an additional appropriation on a pupil-unit basis.

ano, pastor of the Church of the Nazarine will read the scripture lesson and make the evening prayer, and the host pastor will conduct the service.

Special music will be provided by the choir of Trinity Church.

## Thanksgiving Game at Harrington

The second annual Thanksgiving game between Lake Forest and Milford will be played at the Harrington field. The opening kick-off is slated for 11 a.m.

Milford, who plays at Caesar Rodney this Friday, Nov. 20, currently has a record of 6 wins and 2 losses. This year's Buccaneer team, coached by Moe Barber, is the best Milford has had for some time. Among this year's wins, Milford boasts a stunning 15-6 victory over Dover High.

Lake Forest will enter the Turkey Day classic with 5 wins and 4 defeats. The Spartans, coming off Friday's homecoming victory over Dover Air, are sporting a three game winning streak.

Last year's game, the first in the series, was a thrilling, hard-hitting down-to-the-wire game won by Lake Forest 27-26. As a result, the game trophy, an old locomotive bell, rests in the Spartans trophy case.

## Telephone Industry Pumps \$20 Million Into Del. During 1969

The Diamond State Telephone Company and its supplier, the Western Electric Company, channeled \$6,558,000 into Delaware's economy through purchases of materials and services in 46 cities during 1969, according to figures just released by the company's accounting department.

Jim Strickland, the Dover manager said that during 1969 the telephone company's payroll amounted to \$13,869,000 - bringing to \$20,527,000 the telephone industry's contribution to Delaware's economy last year.

The purchases were made from 380 suppliers in 15 communities in New Castle County and 242 suppliers in 31 communities in Kent and Sussex Counties.

## School Board Ready to Negotiate With Teachers

The Lake Forest School Board will negotiate with its teachers.

At its November meeting Monday night in the library of the high school, it agreed unanimously to treat with the teachers on salaries, fringe benefits and working conditions.

After a short executive session, James Pizzadilli, board member of the school's negotiating team, motioned

that the team meet with the same team of the Lake Forest Educational Association, the teachers group, at any time or place stipulated by the ground rules of the teams last spring.

Other members of the board's negotiating team are school administrators as follows: Jim Shoch, chairman; Dr. Howard Henry, Solomon Markowitz and Francis Ryan. Chairman of the education-

al association's team is Jack Grimm, who appeared before the board at its September and October meetings. Another member is Lee Anders who appeared Monday night and demanded a meeting of negotiating teams by 4 p.m., yesterday.

When Everett Warrington Jr., board president, said he believed a week's notice was necessary, Anders said he had no further comment and left

the room.

Supt. Albert W. Adams said Tuesday the next move had to come from the teachers.

In other business: Warrington asked that anyone wishing to appear before the board, notify it ahead of time so it could be put on the agenda.

Board approved policy handbooks.

Accepted resignations of Mrs. Rita Orvis, kindergarten teacher at Lake Forest North, who is getting married; Miss Cynthia Derbyshire, teacher, and Mrs. Margaret Home-wood, secretary, who is retiring because of ill health. No replacements have been selected.

Granted maternity leave to Mrs. Shirley Nickle, first-grade teacher at Lake Forest North.

On recommendation of auditors, board raised cafeteria prices to adults, as follows: Lunches from 40c to 45c and milk from 6 1/4c to 8c per glass, effective immediately. The cafeteria will always be operated as a loss, it was said, because prices to children are cheaper than those of adults.

Approved boundary of Lake Forest School District and Milford School District. Agreed to authorize no more school dances off school property after it was revealed there was a disturbance at a homecoming dance Saturday at the Harrington armory.

## BBB WARNS AGAINST DIET-PILL COMPANY

A diet plan promising dramatic loss of weight with no diet restrictions - except use of the plan's pills - was the subject of a warning by the Council of Better Business Bureaus, Inc.

John E. Babiarz, president of the Better Business Bureau of Delaware, said that the Council of Better Business Bureaus, of which it is a member, has received hundreds of letters from consumers complaining that Anapax Products, promoter of the plan, cashed their checks but failed to fill their orders, grant requested funds or acknowledge their complaints.

According to CBBB, Anapax did not respond to BBB inquiries sent to its address listed in its advertisements - P.O. Box 194, Ryder Station, Brooklyn, N.Y.

Although no information was provided, CBBB learned from the firm's incorporation papers filed with the state of New York that the president is one Therest Nappi and the treasurer is Gerard Nappi.

On June 22, the case was turned over to the post office department. In July, CBBB issued a report which concluded that, in view of Anapax's refusal to substantiate its claims, advertising of the product was not in the public interest.

On September 25, Anapax products was charged with false and misleading advertising in a complaint issued by the post office department.

In full-page magazine advertisements, Anapax claimed that its method was developed by a New York doctor, whose name was not disclosed, who "wrote that he helped 10,000 overweight men and women lose all the weight they desired . . . no calories to count. They ate as much or more than ever."

"Government actions," says CBBB, "as well as scientific reports confirm that obesity is a complex health problem, especially if the amount of weight loss is more than 10 percent of normal weight for the individual. Significant weight loss should not be undertaken without competent medical supervision, since the reasons for overweight may or may not be due to mere overeating."

"Advertising such as used by Anapax, which suggests losing weight is a relatively simple process and, particularly, that a substantial change can be achieved solely by use of such a formula, method or system, it not in accord with current nutritional views."

CBBB added that the suggestion in the advertisement "that as much as 85 pounds can be lost permanently in a short time by this method represents a promise which can rarely be fulfilled by 'normal individuals', and in fact may cause serious imbalance unless done under medical supervision."

## Veterans' Day Assembly

On Wednesday, November 11, a Veterans Day assembly was presented by the Lake Forest High School drama class under the direction of Gary Annett.

The program opened with the color guard posting the colors. After the pledge of allegiance the band played the National Anthem.

The invocation was given by the Rev. William Miller of the Calvary Wesleyan Church in Harrington and was followed by the introduction of guests by Aleta Mason, the student moderator.

The guests were: Lawrence Bets, Mayor of Frederica; Robert Sherwood, Commander, Martin Dill and Charles Farrow of the V.F.W.; Mrs. Selena Sherwood, president and Mrs. Mary Johnston, Sr., vice president, of the Ladies Auxiliary; James O'Neal, Commander and the Rev. Quay Rice of the American Legion, and Albert Adams superintendent of the Lake Forest School District.

Following the introduction of guests the mixed chorus sang a medley of songs consisting of "This is My Country," "Give Me Your Tired, Your Poor," and "America the Beautiful."

Next Ginny Richardson presented the "Story of the Unknown Soldier." Then the band played a selection called "This Land is Your Land."

Commander James O'Neal presented the principal, James Shoch with a new flag for the school.

The chorus sang the "Battle Hymn of the Republic." Superintendent Adams, a general in the Delaware National Guard, gave an address on the theme of patriotism.

## Machinery Stolen

State Police at Bridgeville are investigating the theft of two pieces of machinery in the Harrington area.

The first is an \$18,000 caterpillar, taken from the Emory Equipment Co. on U.S. sometime last week. According to police, a flat bed truck was backed into the area and the caterpillar was started and driven onto the truck.

The other machine, a garden tractor, was taken from the home of Leslie Wix about a mile south of Harrington.

Police said the thieves went into the shed, removed the tractor, pushed it across the yard and loaded it into a vehicle.

There are no suspects in either robbery and the investigations are continuing.

### Senior Center News

A little late for some but nevertheless a sincere wish that the birthday was or is a pleasant day for the members born in the month of November. Frances Harrington was born on November 3; Amy Price claims the next day, November 4; Olwee Williams started another year on November 8; Juanita McClain's day, November 11, a famous day, should be easily remembered; and Orrie Hobbs had better health as well as a birthday to celebrate on November 12.

The birthday party was postponed until after the bazaar, since much preparation is needed to assure that items will be ready for sale. Another date for the party will be chosen and announced.

Again this year donations will be accepted on a ceramic Christmas tree, the drawing for which will take place on November 19 at 8 o'clock at the center. This project, in the charge of Catherine Errigo, the assistant-director, is in conjunction with the Christmas bazaar which is to be held at 102 Fleming St.

The following have been named chairmen for the bazaar: Cakes and pies, Edith McKnatt and Essie Redden; fudge, Gladys Hill; aprons, Matilda Kotlaba; white elephant table, Arta Masten and Christine Clymer; flowers, Ethel Bull and Katie Austin; ceramics, Angela Johnston, our director; kitchen, Pearl Derrickson and Anne McWilliams who are planning a luncheon of homemade vegetable soup, sandwiches, and pie. The doors will be open from 10 a.m. until 8 p.m. with many handmade items, gifts, and ceramics for sale. Do your Christmas shopping early — us a visit.

The community again supported the efforts of the Board of Directors to raise funds. The luncheon held on election day showed a nice profit thanks to the interest shown by attendance and by the help that was rendered. The hot lunch program is underway. The director, Angela Johnston, would appreciate knowing the names of persons to whom the Center could be of service.

### Veteran's Administration News

Q - I know a veteran who was discharged with service-connected disabilities that left him totally disabled. What is the deadline for converting his SGLI policy?

A - He has up to one year after discharge to apply for conversion to a commercial policy if he remains totally disabled.

Q - I am a serviceman's widow, presently enrolled in junior college. If I remarry will I forfeit my educational allowance.

A - Yes, a widow's remarriage terminates her entitlement.

Q - I am a veteran of World War II, presently planning my insurance estate. I understand that some type of death pension is payable by VA to my children when I die. Does this pension depend on the child's income?

A - Yes it does. If at the time of your death you leave a minor child, or one who has not yet attained age 23 and

is attending school, the child quite possibly could be entitled to death pension benefits if income limitations are not exceeded. Arrange to have some responsible adult relative contact the VA after your death.

Q - Can a veteran whose VA benefits have been forfeited apply for reinstatement of those benefits?

A - Yes, he may apply for a Presidential pardon which, if granted, may again entitle him to the VA benefits for which he was initially eligible.

Q - Is it to my advantage to complete my high school studies on my own and save my G. I. schooling benefits for college?

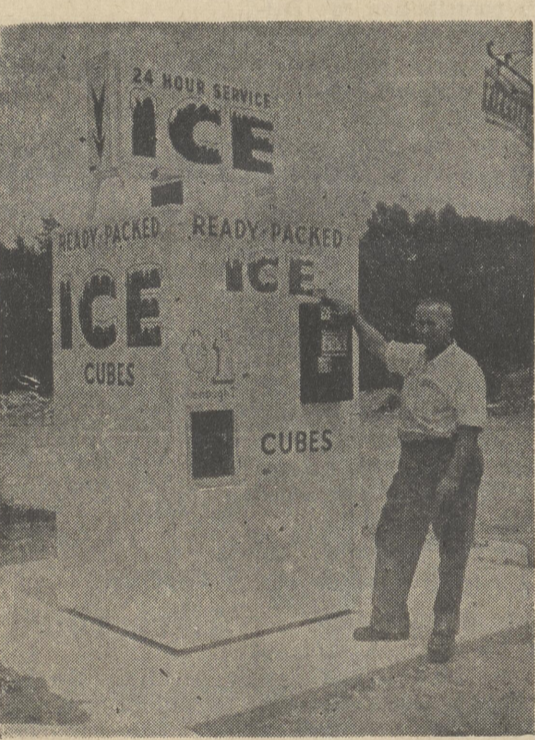

A - No. The VA will pay you an educational allowance for high school and not charge it against your entitlement for college.

Children of the church school will present their gifts at the time of church school assembly. Adults will present theirs at the time of the service of divine worship. Everyone is urged to participate.

Attention: Men of St. Stephen's: There will be the usual men's corporate communion which will take place at 8 a.m. on Advent Sunday, and which will be followed by a breakfast which will be served by the Women of St. Stephen's. This has really turned out to be a breakfast for the men who participate and their families as well and all of these are invited.  
 Attention: Women of St. Stephen's: United thank offering. Boxes will also be presented on Advent Sunday Nov. 29.

**Delaware Food Market Report**

by Anne Helberton  
 The big day is almost here. It's the day when families gather and tables are laden with good things to eat. Roast turkey and all the trimmings spell Thanksgiving in Delaware.  
 New styles and trends in turkeys are bringing the big bird to market in heavier supply than ever, and in meatier, more convenient forms. In fact, you can find a size and a style to fit every need. Your decision of which to buy depends on the size of your family, the number of servings you need, the amount of money you wish to spend, and the amount of convenience you desire.  
 Before you go out to select your turkey, it's a good idea to know something about the number of servings per pound. When buying whole ready-to-cook turkeys under 12 pounds, allow 3/4 to one pound per serving. For larger birds allow 1/2 to 3/4 pound. With uncooked boneless turkey roasts allow 1/3 pound per serving. Remember it's per serving; this does not make allowances for second helpings or for leftovers.  
 In most cases, larger turkeys are more economical and excellent for use in future meals, such as turkey a la king, turkey souffle sandwiches, and the many other delicious dishes made with turkey.  
 Much has been written and much said about defrosting your turkey. Whichever way you have found most satisfactory is best as long as it's safe. Often the label will recommend the fastest and best way to do the job. After it is defrosted, be sure it's clean and drain out the inside (you just don't need all that extra liquid). Rub seasoning in the cavity walls, then stuff if you wish, and roast. A little lemon juice added to the seasoning helps give the frozen turkey a much "fresher" taste.  
 Roasting temperatures for

your oven should be about 300 to 325 degrees Fahrenheit, not higher for best results and definitely not lower for safety's sake. The safest way is to use a meat thermometer so you will know the internal temperature of the turkey.  
 After you have taken the bird from the oven allow about 20 to 30 minutes time for it to sit. This will make all kinds of difference in the ease of carving. As soon as possible after dinner is over, remove every bit of stuffing from the turkey and then remove the meat from the bone. Cool stuffing, meat and gravy promptly. Do not wrap tightly until cooled. Refrigerate with each item wrapped separately and tightly, at 36 to 38 degrees Fahrenheit. Use gravy and stuffing within three to four days. Serve refrigerated turkey within two to three days. You can freeze turkey meat quite successfully and it is quite a help on the busy days ahead to have your meat cooked and ready to combine with little effort into a delicious casserole!  
 One last word — never freeze an uncooked stuffed turkey or a roasted stuffed turkey. It just isn't safe.

The auxiliary meeting last Monday evening was called to order by the president, Irene Outten. Lords prayer and flag salute were repeated. There were 13 members present. The treasurer reported a profit of \$71.73 on the household party held October 12 at the fire house.  
 The Kent County meeting will be held at Bowers on Nov. 17 at 7:30 p.m.  
 Plans were made for the Christmas party to be December 14. This will be a covered dish affair held at 6:30 p.m. in the fire house. Bingo will be played after the party. There will be four door prizes. Each member will a \$1.00 gift with their name inside to exchange.

**It Seems To Me**

By Janet C. Reed  
 Does your winter coat need a new lining? If the coat's still in good condition, it will pay you to reline it. It's much easier than you may think.  
 You can use the old lining for a pattern, but before you remove it, use tailors chalk to mark points where they are joined on coat facing and on lining. You're marking notches or joining points to be used when you insert the new lining. Do this across seams of lining also.  
 You can take the lining out in a hurry by cutting it out very close to the line of stitching. Start at the front facing and cut on the wrong side of the fabric, holding the lining in the left hand and pulling the fabric taut.  
 Cut close enough to the seam so that the old seam allowance can be pulled off easily. Leave the old stitching in the coat as a guide for the new seam.  
 If the coat has an interlining which you're going to use again rip the stitching instead of cutting the lining.  
 Cut all the remaining lining seams on the stitching line instead of ripping them apart. If you're accurate, you'll have a pattern for the new lining. Press all the old lining pieces carefully.  
 Use only half of the lining for a pattern—whatever half seems more accurate. When you place these lining pieces on your new fabric, remember you've cut off all seam allowances so you'll have to add them as you cut.  
 It's a good idea to allow one inch seam allowances rather than the usual 5/8 of an inch, since you may have lost a bit of the fabric as you cut out the lining. Allow for the hems, also. Notice the grain direction of the old lining pieces and follow this in cutting new parts.  
 Assemble the lining parts using the chalk marks as guides for joining. Insert the lining in the coat using the machine method. If the facings were tacked to the coat, you may find it easier to put the lining in by hand.  
 You can estimate yardage for the new lining by finding a similar style pattern in the pattern books and buying the amount suggested. For a straight style coat you can usually estimate you will need twice the lining length measured at the longest length of lining and allowing for hem, then adding the sleeve length plus hem.  
 The satisfaction of putting a good garment back in service is well worth the effort involved.

**MRS. WOMACH WILL GET TOP TREASURER POST**

It didn't take long. After the public and some newspapers, including this one, protested an attempt to relegate Mrs. Emily Womach, Democratic state treasurer-elect to a minor role, Finance Secretary Joseph T. Cashman reversed his earlier position and nominated Mrs. Womach for director of the state treasury.

Earlier, the finance secretary had said he would not recommend her for the job. Her duties, then, would have been minor. Her opponent, Republican Daniel J. Ross, whom Mrs. Womach defeated by 3013 votes, had been scheduled to remain as director of state treasury.

The post of treasury director was created during this year's reorganization of Delaware's executive branch. This appointive post has most of the powers and duties previously held by the state treasurer.

However, it turned out as we predicted: The electorate's protest and Gov. Peterson would hear, hear, hear.

"All's well that ends well," said Shakespeare."

It is said that the F.B.I. reports that pipe smokers are not the criminal type.

"The man puffing away at his pipe is much too relaxed and contented to commit a crime" or his tongue might be too sore to say, "Stick 'em Up."

We might add that he is probably too busy stuffing, lighting and puffing or his pipe may be so rank he can't get near enough to an intended victim.

Let this be as it may, I have always admired the pipe smoker for his seriousness and constructive thinking. To him we dedicate:

**MY FRIEND**

Always awaiting my coming,  
 There at my beck and call,  
 There to rejoice in my pleasures,  
 There to console at my fall.

Helps me to think out my problems,  
 Soothes me when all things look blue,  
 Could ever a friend be more faithful,  
 I doubt if there's one just like you.

So here's to my friend in all trouble,  
 My sharer in joys through life,  
 There's none that can hold you a candle,  
 My well worn old "Corn Cob Pipe".

 November 15, 1970

Dear Sir:  
 May I take this method of commending and saying "Thank You" to the many students, teachers, parents and friends who took part in the home coming celebration on Saturday night, for the Lake Forest High School? In spite of the many, many frustrations caused by the weather, busy schedules, and other things too numerous to mention, the entire evening was just great.

Special credit is due, of course, to Mr. Brobst of the William T. Chipman School and Mr. Guisto of the Lake Forest High School for their efforts with the joining of the two bands for the pregame and half-time show. It was a real thrill to be in the audience (in spite of the down pour of rain) and hear all of the youngsters play as one big unit.

An award for perseverance and stamina should go to the majorettes of both band and the pom-pom girls and color guards too for their "the show must go on" attitude in what must have been a most uncomfortable, wet-half-hour.

And last may I say thanks for those interested parents and community officials from Felton, Frederica and Bowers Beach who joined the Harrington groups to make the parade a huge success. It says louder than words that we are one "family" and we can look forward to many such cooperative endeavors as the Lake Forest School District.

Sincerely  
 Anne T. Minner  
 (Mrs. William A.)

Kent County Links welcome new members: Janet Lucks, daughter of Mr. and Mrs. John Lucks, Wyoming; Mary Jane Krupka, daughter of Mr. and Mrs. William Krupka, Maryland; Dana Gooden, Wyoming, daughter of Mr. and Mrs. Daniel Gooden; and Becky Messick, Farmington, daughter of Mr. and Mrs. Robert Messick. These 4-Hers join a group of 4-Hers and former members in the honor - service organization dedicated to support the 4-H program.

The State Links recently hosted their new members, the state trip winners and their state trip winners and their parents at a covered dish dinner. Following dinner the state 4-H winners received orientation from James Baker, state leader, in preparation for their November 27 departure for national club congress, Chicago. Achievement program are being held by 4-H clubs through Kent County. Each program recognized the achievements of the local 4-H member. 4-Hers plan and present the evenings activities, which in several clubs has included skits and talent presentations. Several clubs display examples of the state fair entries and other project work. Clubs having these gatherings are Houston Cardinals, Woodside Emeralds, White Oaks, Paradise, Westville, Double "T", and Chesnut Grove. These programs show the many facets of 4-H club work, the individual, club and community services that involve our 4-H youth.

Save November 27, for a benefit dance for Robin Cahall, a six year county 4-Her, sponsored by the Peach Blossom 4-H Club, to be held at the Farmington Firehall. **FENCE TALK**

Here's George Vapaa Mississippi farmers are seeding small grain now for winter grazing, says Ansel Estees, the Walthall County agricultural agent. This at a time when most Delaware farmers have finished the job and begin to find time for seasonal hunting. Ansel is a close friend who writes a weekly news column for the Tylertown Times. This often is a source of topics for your own county agents' "Fence Talk."

I like Ansel's cautions against pesticides finding their way into milk. While chemicals are a much needed farm tool today, we must be careful to follow the pesticide label guides for using and storing them properly. Special care should be given to safe disposal of empty containers.

A telephone call to our extension office at 736-1448 will bring you a bulletin in the mail as to the safe use, storage and disposal of pesticides.

Here is Francis Webb We had a tremendous turnout for the corn leaf blight meeting held last Wednesday

night at the Substation. This shows that most of our corn producers are very concerned about the leaf blight problem and what is going to happen this coming growing season.

The recommendations made at the meeting that would help reduce the infestation in your fields next year included three steps. Number one, plant corn early. This does not mean any earlier than the normal starting date (April 1-15), but it means plant all the acres you can early in the season. Secondly, it was recommended to fall plow wherever possible and disk all other fields that are not plowed. This will place the overwintering spores of this disease in contact with the soil where it can not live over winter. This will certainly not eradicate this disease, but it may help to control it. The third and probably the most important recommendation, select resistant (actually tolerant) corn hybrids. The seed corn this year will consist of three different types.

There will be a N type which will be 100% normal cytoplasm, which is tolerant to this disease. This is not necessarily saying that because the hybrid may be 100% N seed that it is a high yielder. The N seed will have little reduction in yield as a result of this blight disease. The second type will be designated as T. This will

mean the hybrid will be 100% Texas Male Sterile cytoplasm which makes the hybrid susceptible to the leaf blight disease. It was suggested to stay clear unless you know that their are high yielders and have shown some genetic tolerance to the disease.

The third type will be designated as B and this means a blend of N and T. The percentage of the blend will be on the seed tag. These blends will have a certain portion of tolerant seed (we hope not less than 50%) and the remainder will be susceptible. Thin type of seed corn will be the most popular because of supply and price.

There is only 21% of the seed supply N type, 37% T type, and the remainder is B (42%). The type of seed each hybrid will be designated on the seed tag and in the case of blends the percentage will also be given.

We recommend that you start purchasing seed corn for next year and before you purchase be sure that you understand all of the above information. Be very certain that you are getting good hybrids of the desired type. If this is not possible because of the seed supply, you may think about planting other crops.

All of our corn data will be sent to you in the next few weeks to help you make

these decisions. If you do not understand this information you can call the office at 736-1448 and I will be glad to explain it to you.

We have some printed information that will answer some of your questions, so let us know if you would like to receive a copy.

**Farm-City Week Nov. 20-26**

President Nixon has designated the week of November 20-26 as National Farm-City Week and urges all citizens to participate in the observance.

The Farm-City Week notes not only the interdependent roles of producers and consumers of America's agricultural abundance, but also opportunities for cooperation

in building for the future. The President points out that two-thirds of our population is crowded onto two percent of the land. He believes the time for action is at hand to foster the improved distribution of population and accompanying activity.

This marks the 16th consecutive year for Farm-City Week. And Kiwanis International serves as its coordinating agency. The observance itself is directed by the National Farm-City Committee which is composed of representatives of more than 150 businesses, farm, professional, trade, church, youth and service groups, educational institutions, government agencies, publishers and broadcasters.

### Improve Humidity For House Plants

If you are moving house plants indoors for the winter, remember they usually require a little extra care, says Robert F. Stevens, extension horticulturist at the University of Delaware.

In addition to higher temperatures and reduced light, humidity is relatively low indoors, he explains. In fact, the humidity of most houses is less than that of desert climates. With the exception of plants such as cacti and succulents, this dry atmosphere may cause yellow leaves, scorched leaf edges, poor foliage color and sometimes even death.

To improve the immediate environment, group plants together or place them in saucers covered with moist sand or pebbles, suggests Stevens. Syringe plants with water several times each day and wash leaves under a shower weekly.

Keeping the soil moist at all times will also improve conditions, he adds. Although the frequency of watering may depend on several factors, most plants require daily watering at this time of year. If these methods do not improve the conditions of house plants, it may be best to try some hardier plants, he concludes. Cacti and succulents will withstand a dry indoor atmosphere and African violets, Dracaena and many other plants are able to survive under these conditions.

Finally, be sure to select those plants suited to the conditions of your home.

average of 17,494 pounds of milk and 665 pounds of butterfat, based on 34 completed lactations.

This herd's performance level compares favorably to the average U.S. cow's annual output of 8,821 pounds of milk and 325 pounds of butterfat. Production averages are calculated on the commonly employed two milkings per day, 305-day, mature equivalent basis for a comparison standard.

Production testing is useful to herd owners in measuring herd improvement progress, analyzing management and generally increasing the profit from the dairy operation. Nearly 2,400 herds are enrolled nationally in the DHIR program.

### New Herd Average Reported

A new annual herd production average for milk and butterfat has been announced for the registered Holstein herd owned by the University of Delaware.

The Holstein - Friesian Association of America reports that the herd has completed its latest testing year with an official per-cow

## Spartan Harriers Spartans Blank End Perfect Dual Dover Air, 22-0 Meet Season

Chris Wetherhold ended four years of dual-meet competition in cross-country, with a string of 50 triumphs. The senior Spartan's only varsity dual-meet losses came in the eighth grade. The final victory was scored at Caesar Rodney on Monday afternoon as Wetherhold was clocked in 12:52 for 2.7 miles, while pacing Lake Forest to a 26-29 win, over the host Riders, who had upset the Spartans in the Henlopen Conference meet over the same course on Thursday.

Lake Forest was awarded a huge trophy for its perfect 8-0 dual-meet log. The Caroline, Easton and Middletown in non-conference meets.

Harold McDonald's career coaching record now stands at 123-8. Lake Forest's two-year mark shows only one loss and that came in 1969 by a single point.

Lake Forest is a vastly different team when Allen Parker is healthy. The locals' second place finishes in the state meet and conference meet saw Allen run poorly because of illness. The lanky harrier was 44 seconds faster on Monday, then he was four days earlier over the same layout.

Brad Morris ran 22 seconds faster. The victory was a direct result of this pair's improvement.

After Morris (4th) and Parker (6th), Sam Bostick and Bill Stubbs sewed up the victory by coming in seventh and eighth.

Caesar Rodney should be the team to beat in 1971, since we understand, only Waldbusser will be lost by graduation.

Lake Forest retains only Stubbs from the top five Spartans and will be forced to start a heavy recruiting program. No. 6 Jackie Parker will return. Jim Dill, the No. 7 Spartan, is under pressure to switch to football, though he's only 125 pounds, will be a junior next fall and is a good basketball player, in addition to being a great, baseball prospect.

Rick Hamm, Chris Adamo and Dennis Wright ran well this season. Vernon Bowers, one of America's best 13-year-old, harriers was developed by Chipman coach, Jim Blades, into a can't-miss prospect for 1971. Eddie Thompson and Rudy Bordley are other Chipman harriers with a chance to grab a top seven berth on the varsity. Dave Williamson and Charles Scott now eighth graders, have talent, will travel.

Coach McDonald has never had a losing season in thirteen years of cross-country coaching. Next campaign should be above 500 followed by a return to the heights in 1972.

Rudy Bordley, 14, had 11:58.5. Chris Adamo, also 14, came across in 12:18.7. Moore hung on gamely after his two, fast first laps and logged a good 12:34.5.

The combined times of these five boys was 60 minutes, 3.7 seconds for ten miles. This figure will be sent in to Track and Field News in California and will be compared with other junior high teams but is not expected to rank high, nationally, since only Adamo is a freshman. Other entries will use five freshmen.

Kim O'Toole, grade 7, did very well, chipping in with a very good 12:49.5. Coach Jim Blades had hoped for two boys under 13 minutes, but got six under that figure with two of them cracking twelve minutes, fantastic!

In the Delaware Open Cross - Country championships, held at Rockford Park, Wilmington on Saturday, Howard Parker and Chris Rincon of Dover Air hooked up in a titanic struggle in a 12-and-under, 2.3 miles run. Parker fell down, ran off the course twice, but clocked a great 12:35.8, while Blue Hen Conference coaches watched in admiration and envy. One remarked, "I have no one on my varsity who can run that fast."

Rincon also a great prospect, was eight seconds back. Eric Hamsher and John Moffett, two 11-year-old elementary pupils from Harrington were sixth and seventh in excellent times. Chipman runners, Lester Blades, Ron Woods, and Wayne Voshell, filled the next three places, to give this area six of the first in finishers in th field of 25.

Eight-year-old Ron Cerklefski was 16th in 16:41 and received an award for the top age 8 runner. Rick Moore of Frederica ran his first race ever and came in 17th.

Dave Moore had a very fine 13:07.5 in the 13-15 test. We've seen many varsity runners at Rockford who couldn't go that fast. Chris Adamo had 13:25. Eddie Thompson (13:36) Dennis Wright (13:40), Charles Scott and Kevin Wooters also ran well.

## Vernon Bowers Almost A World Champion

Vernon Bowers of Felton, is a 13-year-old, eighth grader at W.T. Chipman School, here. Under the able training of Jim Blades, he has developed into one of America's best young, distance runners.

He was entered along with 16 other, Felton, Harrington and Frederica boys in the Road Runners Club of America National Championship Runs held at Van Cortlandt Park, in New York City, last week. Vernon forgot his spiked, track shoes and had to run in flats. This oversight apparently cost him a national championship since he finished third in a field of 125 runners. Vernon was inches out of second place and just a few strides behind the winner. The terrain was hilly in places and sandy in others. Spiked shoes would have given him much more traction and the first-place trophy. Incidentally, every Chipman boy who competed won a trophy.

Howard Parker, a few days past 12, battled a heavy cold and finished 14th in this 12-13 race. David Moore, another seventh grader rapidly maturing into a terrific prospect was 17th. Other comers Kim O'Toole and Eddie Thompson finished 23rd and 32nd. Next to come across were: Charles Scott (36th) Wayne Voshell (40th) Terry Jarrell (57th) Lester Blades (58th) and Terry Pettyjohn (61st).

Thus all ten locals entered in this 1½ miles grind finished in the top half of 125 entrants. All did well but probably would have really cleaned up if the distance had been 2½ miles, the distance these tough-fibered kids have been running since early September.

Ken "Bullet" Cerklefskie, age eight, is also used to going 2½ miles per race. Consequently, his trophy-winning 23rd place finish in the eight-nine division in 11:39,

was a good effort. Ken holds American records at age eight for the quarter and 22 mile runs. We'll wager most of the kids ahead of him, in New York were nine years old. But, "Bullet" had 88 kids behind him at the end.

Eric Hamsher and John Moffett are both 11-year-old newcomers, who look like future distance - running stars. In a race with 110 starters, Eric was 21 and John was 23rd. Both picked up handsome awards for their fine efforts.

Rudy Bordley and John Pickett, both 14, ran in the 14-15 event and did very well finishing 30th and 38th in a field of 100. David Williamson, 16, ran in the Men's Open and clocked a good 17:18 for 2½ miles.

## Spartans Are Second in Loop Run

Lake Forest's cross-country team finished second to a well-balanced Caesar Rodney septet in the Henlopen Conference meet held at Caesar Rodney, on Thursday afternoon.

Dover Air's Dan Rincon, the state's top scholastic harrier, led all the way to record a 20 second margin over runnerup, Aaron Price of Cape Henlopen. Lake Forest's Chris Wetherhold was a stride further back. Cape Henlopen's Emory Howell and Caesar Rodney's Jim Waldbusser were next, is this quintet made the all-Henlopen Conference Team. The 1970 crop of distance runners is the best ever in lower Delaware.

Lake Forest's Brad Morris was 11th, Bill Stubbs was 14th and Sam Bostick was 17th. The Spartans were in contention at this point but were beaten when No. 3 local, Allan Parker struggled in in 26th place. Allan has been ill in the last three meets and greatly weakens the locals, when he's not in top shape. There are only six runners in the league he hasn't beaten this autumn.

The victory was the first achieved by Caesar Rodney over Spartan coach, Harold McDonald after ten years of trying.

## Harrington Bowling League

By Leah S. Wheeler  
Well, it looks as though everyone tried their best to get on top in some category as is evidenced by a glance in the scoring column for this week.

Harrington Package, who last week bowled very strong against Gerardi Bros., this week also showed good strength as they toppled McKnatt Funeral Home from the top spot. While McKnatt's was being buried under an avalanche of assorted strikes and spares, Gerardi Bros., was trimming Wally's Garage in three games to just barely squeeze by last week's leader to win the first third title.

After losing the first game in their fray, Gerardi Bros., came on strong against Wally's to take the remaining two games and total wood. Dame fortune must have been riding as the team bowled below par in the final night of the third. LeRoy Wheeler hit a great 548 series including a good 205 game and Ken Layton had a fine 209 game to give that little extra boost they needed to move up on top. James Shultie rolled very well for the garage boys with a great 204 game and a real fine above average performance. Larry Breeding and Wally Ryan also bowled well in defeat.

While Gerardi's was losing their first game, McKnatt's on the other hand had things well under control winning the first game by a lopsided margin. However, the sweet smell of victory was short-lived as Harrington Package came alive to conquer their opponents in the remaining two games to win the total series point also. It seemed ironic that Wally's Garage also figured in McKnatt's defeat as they were the ones that handed them a half-game loss, a few weeks ago, and that was the margin by which they lost the first third. Harry Jack hit a fine above average performance and Harold Brode had a great 204 game, with Don Garey rolling well also, for McKnatt's. Wayne Creadick
