## Harrington Raceway Starts Sunday

Sunday night the familiar sound of "here they come" and "here they go" will be ringing in the 31st consecutive season of parimutuel harness racing here at Harrington Raceway.

This 1977 Spring Meet will begin Sunday, March 27th and continue until May 7th. Racing will be Wednesday through Sunday, while Mondays and Tuesdays will be dark days. There will be no racing Good Friday, April 8th or Easter Sunday April 10th. Post time will be 8 p.m. daily, except Sundays starting time is 6:30 p.m.

Again, Harrington Raceway will offer the popular Exactas, Quinielas, and two Daily Doubles.

A record number of stall applications have been received and among the top stables competing at Harrington will be those of Sam Belote, John Childress, Harold Frazier, Ned Galentine, Sam Matthews, Olin Davis, James Shockley, Charley Pitts, and Ellis Myers. Among upcoming

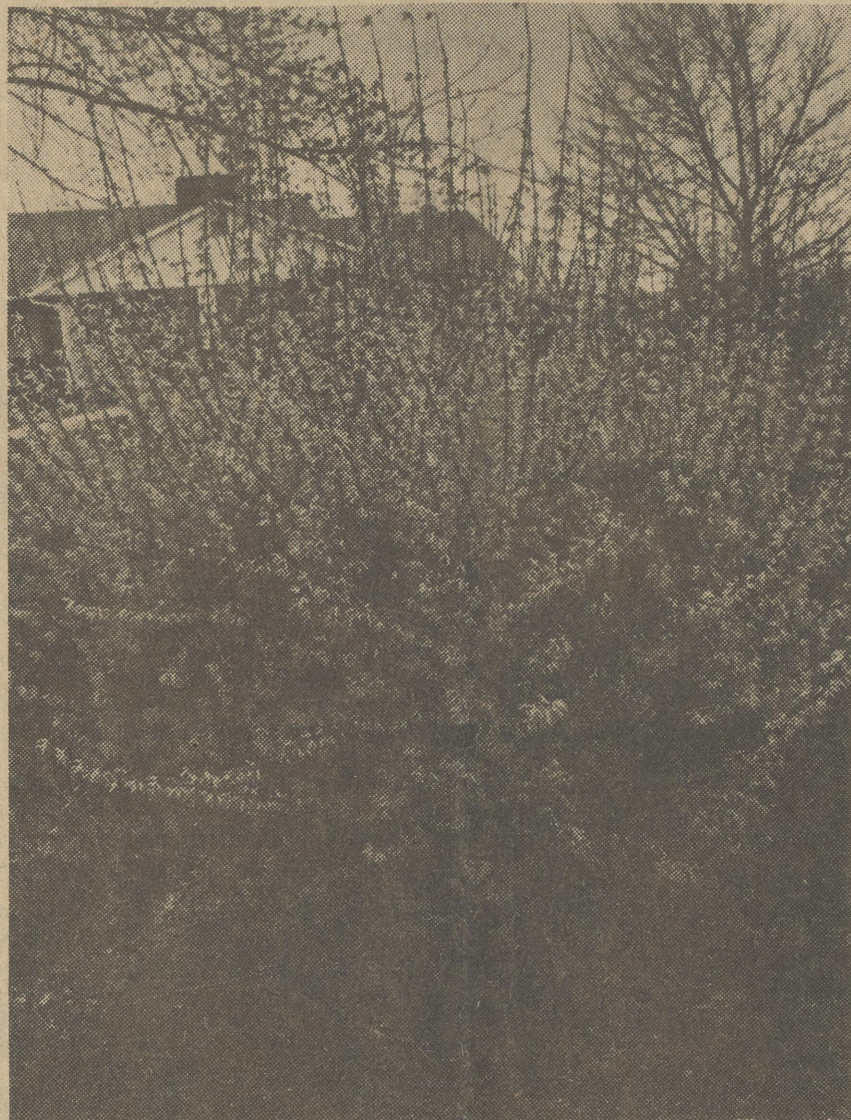

young drivers are Wayne Smullen, Olin "Mike" Davis and "Jeff" Jester.

Several top three year olds will be making their 1977 debut at Harrington such as "Lady's Image", a daughter of the great Adios Harry. This top filly dominated her class last year in the Delaware Development Stake where she was undefeated and won \$26,000 as a 2 year old.

Another top colt will be, "Paiges Robbie" a 3 year-old son of Adios Paige who made a commendable showing in 1976. "Ripping Rick," a son of Ripping Good from the Charley Pitts Stable, will be here also. This 3 year old gelding was the 1976 National Seasons Champion Pacer on a 5/8 mile track and also a stake winner.

Again this year, Harrington will have the dining services of Nilon Bros. of Delaware.

Harrington Raceway is located on U.S. Rt. 13, 1/2 mile south of Harrington.

Spring has sprung... maybe...

## High Scouting Awards Are Presented For Bravery

Two area Boy Scouts were awarded the second highest national award re-elected from this area was James J. Pizzadili.

Telford and Joan Regar, the parents of Mike Regar, were presented a posthumous award for their son's act of heroism in September 1976. He and Jerry Johnston, son of Guy and Nancy Johnston were responsible for saving a fellow Scout from drowning during a camp outing.

Troop 200 with Scout leaders Chuck and Mark Wolf of Harrington were participating in a water activity at Wooden Hawk Camp, Greenwood. Richard Thompson was in a raft afloat when the raft began to sink. Seeing the difficulty, Mike Regar left his boat to help Thompson, an unskilled swimmer. When Thompson resisted rescue attempts, Jerry Johnston swam from shore to help Regar. Together the two Scouts successfully brought Thompson to safety.

At the time Regar was 13 and Johnston was 14. Neither Scout had participated in any life saving activity at the time of the incident.

Mike Regar died suddenly in December of 1976 of a cerebral hemorrhage during a Scouting outing. At the time of the rescue both Scouts were from Frederica and both attended Lake Forest High School.

The National Council of Honor selected the two youths for their act of heroism which was recognized during the Del-Mar-Va Council's annual meeting, held this year in Dover.

## Bridgeville Miss Is Leader of Tomorrow

Cindy Lane Moore

Ranking second in Delaware, and the recipient of a \$500 college scholarship, is Joyce Lynn Colbert, 17, of Concord High School, Wilmington.

Miss Moore is the daughter of Mr. and Mrs. Andrew Moore, Jr., R.D. 2, Bridgeville. At Woodbridge High School, she serves as president of the National Honor Society and student council parliamentarian and is a member of the field hockey team. She is also active in 4-H, having been state delegate to the National 4-H Congress and currently serving as president of her local 4-H club. Miss Moore plans to major in physical therapy at Virginia Commonwealth University, Richmond, Va. (Continued to page 4).

## Two CB Radios Stolen From Hurds

Jarvis Hurd of Harrington has joined the list of people who have had citizen band radios stolen from them in the city. On March 16 someone took two from his vehicles that were parked in the yard.

Estimated at \$865 the radios, as well as some clothing, a tool box with tools and a suitcase containing children's clothing were reported stolen.

Lawrence "Sonny" Sullivan of Bowers Beach was a recent winner of Double Diamond Lottery amount of \$5000. He received his check on March 7. The drawing was on February 17.

## Houston To Vote Saturday

The town of Houston will hold its election Saturday, March 26. Four residents will seek three council seats.

Seeking election are George Marvel, Connie Morgan, Ted Yerkes and Edwin Walls.

The board, which consists of five members, has only two members who are not up for election, Virginia Twilley and Tom Surdukowski, both of whom serve another year.

The town has had a reduced council since the resignation of Leonard Rollison in January.

## Felton Takes Look At County Sewer

Community residents, members of Kent County Levy Court and Walter Fritz, Kent County engineer, met Tuesday night, March 15, to view the possibility of Felton joining the county sewer system.

Felton presently does not have a community sewer system and would possibly have to wait another two years before a system would be in operation if residents decide to join the county system.

As many people from Felton Heights as the town of Felton were present to ask questions during the meeting. If the town does decide to join the county system, it is likely Felton Heights will also be in the same sewer district, since specifics about the community's sewer district have not been made yet.

Viola, Felton's nearest neighbor, has already decided against joining in with Felton on a county system. The town of Felton would have to borrow money to take part in the town's installation, which would be \$1,315,300 at present.

If Felton does decide to become part of the county system, the larger the sewer district area would be financially advantageous for all who are involved on the hook up.

Felton residents would pay roughly \$4 a linear foot to hook up to a county system and would pay roughly \$161 a year after hooking up to the system. It was the opinion of those present the town could not afford its own community system.

William Myers, town board president, said he had "talked sewers for years and this is the closest that the town has come to getting one. I have wanted one for years", continued Myers.

William Paskey, president of Kent County Levy Court, told residents "We don't want to force anything of the people of Felton that they don't want. We are here to help you, not tell you what to do."

Felton, as many small communities with limited sources, are finding

themselves under the gun from state and federal environmentalists, whose regulations grow stiffer yearly.

As Joyce Jefferson, town resident, stated, "If the water table is so high, with the tile field type of disposal, how long will it be before it will foul our wells?" As a temporary measure, she called for limited growth until the problem can be solved.

Tuesday night was a starting place, but by means the end of sewer questions in Felton.

## Journal To Move

The Harrington Journal has announced it will move its newspaper operation to 19 Commerce Street at the end of March.

All phases of the newspaper production will be housed in the renovated building.

Harry G. Farrow, Jr., publisher of the paper, will also have a real estate business in the same building, located at 17 Commerce Street.

The brick building is one of the oldest buildings on Commerce Street and has housed various businesses, including an ice cream parlour in the recent past.

The paper's commercial printing will be relocated at 1 Commerce Street, the familiar brick building across from the Harrington Post Office. The printing business will relocate in early April.

## Lake Forest Board Adopts RIF Policy

The Lake Forest School District formally adopted a Reduction In Force policy Monday night before a jammed group of teachers Monday night.

In essence, the policy contains seven criteria for reduction of staff in the eventuality of state budget cut backs.

Upon explanation of the three-page policy, teachers present indicated satisfaction of the policy as stated.

Board member Albert Price was given a rousing ovation following his view on how the sales tax was the most equitable solution to the cur-

rent state of Delaware's economy, and how it directly affects education. The Board also heard a report on the construction of the local public works project. Plans are to bid the first phase, which will include grading and drainage. The bids will be opened at the next board meeting.

Overnight bus trips were approved for the Future Nurses Club and the high school band.

On April 19, the Lake Forest North PTA and local school board will hold a question-answer session dealing with Governor DuPont's budget cuts as dealing with education.

## Lake Forest Staff Viewed

by Elizabeth Ashley

Lake Forest School District is seriously viewing the possible impact the dire state of Delaware economics may have on the local school district.

"The total impact on the district can not be calculated until definite legislation is passed", said Superintendent Albert Adams recently.

If Governor Pete DuPont's budget H.B. 33 is approved as written, it would mean the possible return of supplemental income and fringe benefits to the school district, which would mean an 18.2 cents increase in taxes to supply the \$78,000 now paid out of state funds. By implementing a 30 percent busing cost to Lake Forest, taxes could increase 31.8 cents to raise \$124,000, to a total of \$202,000.

Although the political moves of the legislature will determine, to great

extent, the move the district will have to make, locally, several possibilities are being viewed.

According to several sources within the school district, possible staff cuts may include two in administration, one in physical education, a cut from the nursing staff, from nine to thirteen teachers at the high school level and from three to five teachers from the elementary level. The Journal's source emphasized the considerations are merely speculative at this time.

Educators in the district join those throughout the state in taking a dim view of the proposed slice to education. Charles Miller, president of the Lake Forest Teachers Association termed the teachers' viewpoint of the proposed budget cut as setting "...education back 20 years in the district and state."

Rotary President Mark Willey presents a momento to Mrs. Jack Dill, this year's host parent of one of the Lake Forest High School's AFS students. Shown in the photo is Ute Wichels of Bremen, Germany. This year she is living at the home of the Jack Dills on Roughley Hill Road, Harrington. The Dills have three daughters, Gloria, Nancy and Jackie. Miss Wichels spoke to the Rotarians and wives Monday evening.

## Mouse Roars Thursday

The Lake Forest Senior Class play is scheduled for March 24, 25, and 26 and will be held at the Lake Forest North Elementary School.

"The Mouse That Roared" will get underway each evening at 8 p.m.

The cast includes: Gloriana, the Duchess by Kim Roe; Tully Bascom by Clinton Graham; Count Mountjoy by Steve Kish; Professor Kokintz by Larry Risser; President by Michael Harding; Secretary of State by Edie Morris; General Snippet by Mark Homewood and David Benter by Dan Twisselman.

Students in production capacities for the play include: Stage Manager, Donna Taylor; make-up Susie Hughes; technical director, Lee Turner; costumes, Karen Welch; and lighting by Bill Comer, teacher at Lake Forest.

The play is under the direction of Leila Smith and Tom Osina. Student director is Millard Ellingsworth III.

Joyce Jefferson(left) and Elizabeth Berry discuss a point during the Felton sewer meeting last Tuesday night.

## From The Frying Pan

Now you see it, now you don't...

...or the mystery of the vanishing city street sweeper...

When the City of Harrington purchased itself a city street sweeper, it was to supposedly clean the streets periodically of accumulated trash, an almost certain aspect of city life. However, the critter must be on the endangered species list, since it hasn't made its appearance this spring, at least if the gutters are any indication.

There is a new bank building being built in the city, and with the spring rains coming on, there will naturally be more sand and dirt than usual making its appearance on Clark and Commerce Streets. Why isn't the street sweeper out taking care of this material before it gets into the sewer system?

The City has had to fork our piles of money, and will undoubtedly have to continue to do so, with the tighter sewer regulations...do we need the extra trash and sand in the system that the street sweeper could take care of?

If the City is too busy to use the sweeper, perhaps we should unload it, if not, couldn't the downtown sector at least have an occasional once over cleaning? Who knows, it may even leave a more positive impression for people who use the businesses located in that section.

## Betty Crocker Winner (Cont.)

State winners in the Search for Leadership in Family Living were chosen in judging centered on scores in a written knowledge and attitude examination administered throughout the country last Dec. 7. More than 750,928 seniors in 14,503 U.S. high schools were enrolled for the test.

In addition to their \$1,500 scholarships, State Family Leaders of Tomorrow earned for their schools a 20-volume reference work, "The Annals of America," presented by Encyclopaedia Britannica Educational Corporation.

On April 17, the 51 winners representing each of the states and the District of Columbia will meet in Colonial Williamsburg, Va., for an expense paid educational tour of that city and Washington, D.C. Highlight of the tour will be

the naming, at an April 21 dinner in the Nation's Capital, of the 1977 General Mills All-American Family Leader of Tomorrow and three runners-up. To be selected from the state winners through personal observation and interviews during the tour, plus state-level judging results, the four national winners will receive increases in their scholarships to \$5,000, \$4,000, \$3,000 and \$2,000.

All testing, judging and selection of winners in the Search program is conducted by Science Research Associates, Chicago.

Receiving honorable mention in area schools were: Lake Forest High School, Susie L. Hughes; Caesar Rodney High School, Martin Joseph Grygo; Dover AFB High School, Gregg G. Luke and at Holy Cross High School, Victoria Rita Jara.

Standing- Debbie Smith, 1st, Business English; Aileen Torbert, 3rd, Chapter of the Year; Starla Mertz, 3rd, Shorthand I; and Karen Kennedy elected State Treasurer.

Kneeling- Michelle Aenis, 1st, Information Communication and 3rd in Shorthand I; Cindy Hughs, 2nd, Typing II and 3rd Shorthand II; Teresa Carter, 3rd, Chapter of the Year.

The students are now preparing to represent Delaware at the national convention in Texas in May.

Lake Forest OEA sent 32 students to the State Convention in Dover on March 17 and 18. The students competed against 450 students from all over the state. The following placed in their areas of competition.

## Thoughts.. From Senator Roth

The cost of doing business in America has been on the rise on recent years for a variety of reasons. Chief among them is the added cost of keeping up with increased government regulation.

My concern is that Federal regulation is so pervasive today that it affects us all. Its increased cost burdens are a hidden part of every phase of a business operation. Whether it be wage reporting; social security taxes; income taxes; safety, health; and environmental regulations; or statistical surveys, federal regulation imposes added burdens on every community, school, business, and private citizen.

During the past decade paperwork and regulation writing have become a growth industry in the

nation's capital. The Code of Federal Regulations which contains these rules has over 60,000 pages of detailed requirements and measures over fifteen feet high. These regulations cover everything from the peanut butter to broadcast permits for citizen band radios.

In 1975 alone more than 10,000 new rules and regulations were proposed by federal agencies. The annual paperwork cost to businesses and taxpayers is estimated in the billions of dollars.

While federal regulation is needed in theory to regulate competition and interstate trade, in practice the added regulations actually increase the cost of products and services. One well-known example is interstate air fares. The consumer often

pays more when flying interstate as he would when flying between cities in the same state. The 230-mile trip between New York and Washington costs \$38 while the 340-mile trip from Los Angeles to San Francisco is \$26.

Many rules and regulations in effect are not the result of Congressional legislation. Rather they are the result of arbitrary decisions and rule-making by unelected bureaucrats.

That is why I have proposed that Congress have more say over these regulations before they take effect. The Sunset legislation, which I introduced in both the last Congress and in this Congress would put the bureaucrats on notice that Congress is closely watching their antics and will act to nullify unproductive regulations.

## Weekly Report

by Senator Joe Biden

As everyone is, by now, aware, the Food and Drug Administration has issued a regulation which will ban all products which contain the additive saccharin.

I plan to introduce legislation that will rescind this regulation until FDA has conducted more adequate and conclusive tests.

This, I think, is another example of the unbridled power that many of our Federal Regulatory Agencies now have.

The Food and Drug Administration is acting completely within the law. However I do not think that the law as it is now being used was ever the intent of Congress.

According to the statute under the FDA operates it has the power to ban any product containing a food additive which, in its words, "is found to induce cancer when ingested by man or animal..." The reason that FDA is going to ban saccharin is that

one laboratory in Canada found that some rats which were fed large amounts of saccharin developed cancer. This is the heart of the problem. The law allows for no qualifications. The law does not allow the agency to determine how much of the additive may produce the cancer, how much benefit the additive may bring to consumers or any other consideration. For instance, the fact that highly reputable research with monkeys disclosed no abnormalities after they had been fed large amounts of saccharin for 6 1/2 years was not even taken into account.

Saccharin has been used for about 80 years and there is no evidence that it has ever produced a single cancer in a single human being. I'm no scientist, but I do know that there is a difference between a human and a rat. I am not being entirely facetious. The question of applying animal results directly to human beings has troubled scientists for years.

The rats whose tumors caused FDA to act were fed diets that contained 5 fed diets that contained 5% saccharin. The tests involved 100 rats and 100 of their offspring. In the first generation there were 3 cases of cancer and in the second generation there were 10 cases.

One single test such as this, in light of all the other evidence, hardly seems to me to justify FDA's action. A human being would have to drink 800 twelve ounce cans of diet soda containing saccharin a day for the rest of his life to ingest the same quantity that was fed to the unfortunate rats. Yet diabetics and others who cannot or should not ingest normal sugar will be denied their last known legal sweetener on the basis of what has been characterized as an unrealistic test of safety.

I simply want to prevent the Food and Drug Administration from outlawing saccharin until adequate and conclusive tests can be conducted.

## C.R. & Rurtain Celebrate

The Caesar Rodney Club, the first Ruritan Club chartered in the State of Delaware, is celebrating its 20th anniversary on April 19th. This will be their Annual Ladies Night plus an appropriate anniversary program. Their membership roster includes seven of the original charter members plus such outstanding members as State Representative Ronald Darling, former Ruritan District Governor Olin Dill and Bruce Frazier and former District Secretary Jerry Semans.

The Cedarfield Club is making a donation of \$200 to buy a cluster of trees to be planted in the Milford Bicentennial Park and \$100 to the Houston Fire Co. The C B Base Set chanced off on March 9th was won by Bruce Frazier, Past District Governor.

The Kenton Club is making sausage for the Smyrna High School Band supper to be held on April 22nd.

The Delmarva-New Jersey District of Ruritan National is holding their Annual Spring Rally at the Hebron Fire Hall, Hebron, Md. on April 23rd at 7 p.m. All Ruritan members, wives and guests are invited. Ticket donation is \$7.50 per person.

## Plan Ahead For Motor Vehicle Visit

DOVER-In an attempt to provide better service to the Delaware motorists, Robert J. Voshell, Director of the Division of Motor Vehicles recently announced the hours when the public would experience the least waiting period for transacting business at the Motor Vehicle inspection lanes and offices. These hours are: Monday, Tuesday, Thursday and Friday - Mornings 8 a.m. to 11 a.m.; Wednesday Afternoon - 1 p.m. to 3:30 p.m. If an applicant appears at a time other than those hours previously listed, he may experience a waiting period.

Wednesday evenings are especially busy, and if possible, Voshell recommends that the public transact their business at another time.

Other extremely busy times are 11:30 a.m. until 1:30 p.m. daily; the first day of work after a State holiday; and the last two or three days each month when license plates expire.

## Open Letter To Chipman Parents

Dear Parents, For me this is one of the busiest weeks of the year because I must take care of my classes as well as carry out the testing program. Without the cooperation of the classroom teachers I would never make it!

In order to administer the Delaware Educational Assessment Test in a large group setting uninterrupted by the cafeteria schedule, it is necessary to use the gym. This requires taking to the gym the tablet-arm chairs from the chorus room and desks and chairs from the classroom used by the guidance and helath classes. Tables are brought from storage in South Elementary B and folding chairs are set up. Thus, the physical set-

## Career Corner

by Buck Thompson

"I have, in my lifetime, seen a rate of change in this country so sweeping that some 55% of the American people now earn their living in industries which did not exist in 1920.

"The young people of America have at their disposal myriads of tools, intellectual and physical... that will undoubtedly advance the American civilization to heights which will make the present like mere foothills; the 21st century will outdistance the 20th as the airplane outdistanced Ben Franklin's kite."

The above quote was from James P. McFarland, Chairman of the Board of General Mills, Inc., at a meeting of Midwest Research Institute, 1976.

At least 2.5 million jobs are open and waiting each

day according to Bureau of Labor Statistics estimates. Yet job seekers are averaging 110 days in their attempts to find work. So says Richard Lathrop, author of the highly regarded book, "Who's Hiring Who." Unemployment figures would plummet, he says, if young men and women, starting in high school, were given better guidance to zero in on the careers that are best for them and how to find the best job in the shortest time. Until that occurs, Lathrop says, we will continue to count millions each year who are needlessly unemployed.

The first flood in America of which there is any known record was that of the Mississippi River. It was recorded by Fernando De Soto in 1543!

**Agway certifies its spreader trucks to satisfy your spreading requirements.**

**Why?** Evenly spread fertilizer is a crops management need. There is no law requiring inspection of spreader trucks to assure an even spread. But Agway has high standards for its own trucks... aims always to give you a uniform spread pattern. It's just good business.

**How?** All Agway fertilizer and lime trucks are checked, inspected and certified for uniformity. Agway tests and evaluates the spread pattern and makes necessary corrections and repairs before giving the truck the certification seal.

**When?** Regional Agway certification clinics are held during the summer months to ready the equipment for your application needs now, in the fall and next spring. And now is the perfect time to lime and fertilize, because the ground is firm and there will be no compaction of the soil. Call your Agway store or representative today for spreader application service.

**Look for the "Certified" seal on the spreader body.**

# Starting March 29, 1977, using your telephone book could mean avoiding Directory Assistance charges.

Most calls to Directory Assistance are for numbers already in the directory. These calls for Delaware numbers are rapidly increasing, and so are our costs. It's only fair that the small number of people who make most of these calls should pay for them. That's why, starting March 29, 1977, we'll begin charging for certain calls to Directory Assistance. But, at the same time, our cost savings will be passed along to you by reduction of your basic monthly telephone rates. As of March 29, we'll reduce basic telephone rates to Delaware customers by \$700,000 in 1977.

What about numbers that aren't in the directory? That's what Directory Assistance is for. And you'll be able to make three dialed calls per line to Directory Assistance each billing period, and ask for two numbers each time you call, at no additional charge. Every call over three calls each billing period will result in a 20¢ per call charge on your telephone bill. (Calls placed to Directory Assistance with the help of the regular Operator will be billed at 40¢ per call, and are not included in the three call allowance). Business customers, please refer to your bill insert which explains the Directory Assistance Volume Control Plan.

Other calls to Directory Assistance which will not be billed:

- Calls to Directory Assistance for numbers outside Delaware. However, to avoid a charge, you must dial 1, plus the area code, plus 555-1212.
- Calls from coin telephones. (Consult the dialing instruction card).
- Calls from hotels, motels, and hospitals.
- Calls made by people who are handicapped in the use of their directories. Contact our Business Office for details.
- Calls for mobile or maritime services.
- Calls from interconnected lines of radio common carriers.

If you're a business customer, we've prepared a special bill insert for you. Business customers should be aware of the effect that the Directory Assistance Volume Control Plan could have on their business telephone bills, and should notify employees of the changes in Directory Assistance service. Business customers with Centrex service should pay particular attention to the bill insert.

If you're like most of our customers, you'll probably never see a Directory Assistance charge on your telephone bill, because most of the numbers you need are in your directory.

In addition, there are a few simple ways you can help reduce even further the need to call us for a number:

- Keep your directories near your phone to make it easier to use them. If you need additional directories, call our Business Office and ask for the directories for the Delaware communities you call frequently.
- Keep a personal list of new numbers as you learn them.
- If you move or have your number changed, notify your family and friends. It will help them reach you without having to call Directory Assistance.

Your number for Directory Assistance will change, too. If you must call Directory Assistance for numbers in Delaware, dial 1+ 555-1212 instead of 411. For numbers outside Delaware, dial 1, then the area code, then 555-1212.

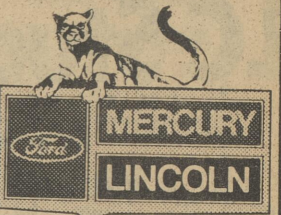

If you have any questions, please feel free to call our Business Office.

## LC Students Know Sixteen Is "Bingo"

by Barbara Brown

Sixteen is the magic number. It's "Bingo" for the day for students in the Learning Center at Lake Forest North Elementary in Felton.

Actually there is no magic or mystery in the number at all. It represents a perfect score on a point system and is earned through the student's own effort in his work and his success in handling himself in the classroom, getting along with other students and teachers.

Every morning each student receives a card or slip of paper listing the areas in which he will be checked for attitudes and effort. He receives a punch on the card for each area in which he is successful. He may lose a punch or punches for any

number or reasons - not completing the expected work, getting into a fight with a classmate.

Sixteen means no punches lost. It indicates a successful morning for the student. And that success is much more than a number. It has tangible and immediate results in the reward period each day. A perfect sixteen allows the student to make his own choice from a wide range of possibilities in spending that reward time. He may choose to rejoin his regular classroom or to participate in any one of a number of activities throughout the learning center.

The number fifteen lets the student spend his reward period at cards and games in the class-

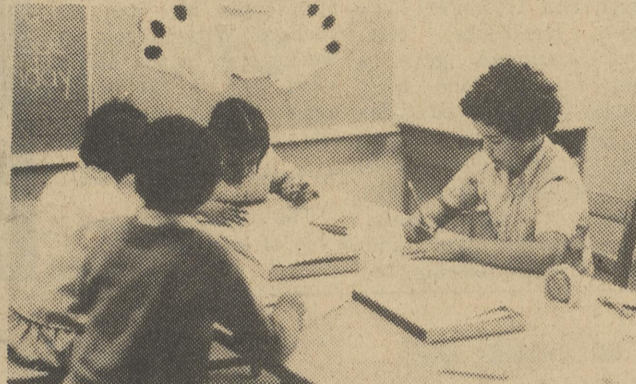

"Good Morning", types the machine before shooting out the day's 15 minute lesson in an individually selected subject. In addition to greeting the student, the machine tells him if his answers are right or counsels him to "Try again" if at first he does not succeed.

structure of the program is designed for each student on an individual basis. This is the "prescriptive teaching" with the prescription being written by a child study team composed of school administrators, psychologist, regular and special education teachers, parents and others such as the school nurse or speech therapist as may be needed. This team sets long term goals for the student as well as helping design some of the methods of approaching those goals. The progress of each student is reviewed by the team on a quarterly basis. At this time goals may be extend-

ed or changed altogether. Methods may be reinforced or revised.

The program of the learning center stresses academics - especially gritty every day business of functioning in the classroom and getting along with other people.

Many special activities are provided to give a variety of learning situations. An afternoon class in Human Relations taught by Bill Comer gives help in getting along with others and the world in

general. A "Careers" program attempts to acquaint students with various vocational settings. Occasional field trips such as one last Friday to the "Spring Gala" presented by the Delaware Regional Ballet Company help expand the student's world of experience.

All this demands a small mountain of paper work required under federal law 94-142 which sets up criteria for designating students in the program and protects both students' and parents' rights.

room assigned to that the largest elementary activity. Fourteen earns school south of the C&D coloring and pictures in Delaware, another in another classroom. the Learning Center at Thirteen or below means time out or lost and is the opposite of "Bingo" for the day. It is to be avoided.

The reward system provides a framework of daily incentives to many of the 110 students served by the learning center at Lake Forest North. Of these 110, about 80% are full time learning center students. That is they spend at least 2 1/2 hours each day in learning center classrooms. Others may come for shorter periods each day for special help in particular areas.

At present the Learning Center at North Elementary is staffed by eight teachers who work in rooms scattered throughout the building. Headed by Bill Comer, Learning Center Coordinator, the staff includes Sharyn Williamson, Nancy Campbell, Darlene Eller, Mimi Stoops, Rae Ann Redman, Loraine Butcabage and Joyce Simmons. # Chorale Is Treat

Trinity United Church was responsible once again this year for bringing to our community a group of young people from Drew University, this year the University's Chorale group.  
 It is always a treat to hear fine and varied musical programs, especially when it comes right to our doorstep, so to speak.  
 The churches in the city are the focal point, in most instances, of any means of bringing culture to the city, and it was good to see the turnout, although the group would have probably have been more pleased to see the church jammed to the rafters.  
 The group of young people presented a variety of musical offerings, ranging from Bach to modern, hand clapping gospels, interspersed with a madrigal section.  
 All solos were done with confidence and it was never difficult to understand what was being stated.  
 Taken all in all, it was an uplifting experience.

**For Your Information**

Dear friends,

Have you ever considered that it is not always easy to apologize; to begin over again; to be unselfish; to take advice; to admit error; to be charitable; to avoid mistakes; to think and then act; to keep out of a rut; to make the best of little; to shoulder a deserved blame; to forgive and forget. To strive through a lifetime for such perfection brings its own rewards.

Respectfully,

*William A. Berry, Jr.*

Life is just a succession of dreary days, weeks, months, and years? Loneliness and frustration can change your days into endless nightmares of hopelessness. Jesus Christ shows us a better way - how to fill our years with life. Jesus says to us, "These things I have spoken to you, that my joy may be in you, and that your joy may be made full." (John 15:11) He offers us the joy of forgiveness sin, the joy of His companionship, the joy of Christian fellowship, and the joy of hope of eternal life.

### PERSONAL

I would like to thank all my friends, neighbors, and relatives for the flowers, gifts, phone calls, prayers and any other act of kindness shown to me and my husband (Henry) during my stay in Milford Memorial Hospital. Special thanks to the Harrington Ambulance Crew who were so quick getting to my home. Also special thanks to Dr. Aranilla and Dr. Mick, the nurses in the Coronary Unit and the nurses on the third floor who took good care of me. The one hundred and twenty one cards I received were greatly appreciated and when I was able to read, I read each and every word of them. Thanks again and may God Bless all of you.  
Mrs. Marie Bullock
