## Observe National Bus Week

October 9 through 15 is National School Bus Safety Week. In the Lake Forest

School District 43 buses make 72 trips a day carrying 3,110 students approximately 491,580 miles a

year at a cost of \$435,999.60 a year. In Delaware there is total of 1,163 buses that

carry 88,000 students approximately 12,000,000 miles a year. This paper urges everyone to drive carefully, es-

pecially when near a school bus taking on or discharging passengers and especially during this week.

## City HUD Monies Now Secured

### Trash Strikes Again

HARRINGTON - Trash reared its ugly head and took up about an hour of the Harrington City Council meeting Tuesday night. Mrs. Kenneth Meredith brought up the subject during the citizens portion of the meeting, reading a petition signed by 88 of the city's citizenry that called the across the board fee for trash collection an infringement of civil liberties.

The trash ordinance was adopted and passed early in 1976, and the city is now turning over unapid trash collection bills to the city alderman for collection.

Mrs. Meredith and Irene Layton, also at the council meeting with the same complaint, said they were not going to pay the bill. Mrs. Meredith said she would take the matter to court if necessary. "I wouldn't mind paying it if it was a tax," said Layton. Several councilmen responded, most vocally was

Dr. Vincent Lobo, who said the trash fee was the most equitable one at the time the council could have adopted, without going through a reassessment. It was commented by several councilmen that city taxes would have to be increased around 37 per cent to achieve the same thing that the present trash bill is achieving. The matter is being looked into.

It was established that Halloween will be October 31, with youngsters able to trick or treat from 6 p.m. to 9 p.m. up to 12 years of age.

The city voted to pay off a \$15,000 note to the First National Bank, that the city has been paying only the interest on since 1975. According to city manager Dave Peterson that leaves the city with one more note outstanding at the present time.

It was also reported at the Tuesday night meeting

that the \$93,000 grant from HUD, which the city received word on in September that they were about to lose, was to be restored.

The Mayor commended City Manager Dave Peterson for acting quickly to get in touch with HUD to clear up the confusion surrounding the monies.

The \$93,000 had been earmarked for water and sewer improvements in low income areas of the city, specifically Coleman Street for the sewer. It has now tentatively been expanded to include Mispillion and Milby Streets for water system improvements as well.

In other action the council hired two city policeman Paul Anthony Yanni from the CETA program and George Chalmers Bell to fill a vacancy on the force.

voted to give the Jacyees \$700 to use for the annual Christmas parade in the city

## Griffin Fills Elementary Slot

Lake Forest Elementary has a principal, it was learned late Tuesday afternoon.

Named to the position made vacant by the sudden death of Mary Gilbert last month is Earl Griffin, principal of W.T. Chipman Junior School.

Griffin has been in the Lake Forest School District for eight years, seven

of these as an administrator at W.T. Chipman School.

Although teaching on the junior high level for three years prior to becoming a junior high school administrator, he is fully certified as an elementary principal, having experience in New Jersey with a first to eighth grade school situation.

The 36 year-old principal told the Journal of his pending move to the elementary slot. "I look forward to it as a new challenge and I think I'll enjoy it very much."

The change will become effective November 1.

No one has been hired to fill the position he will leave vacant as the junior high school principal at this writing.

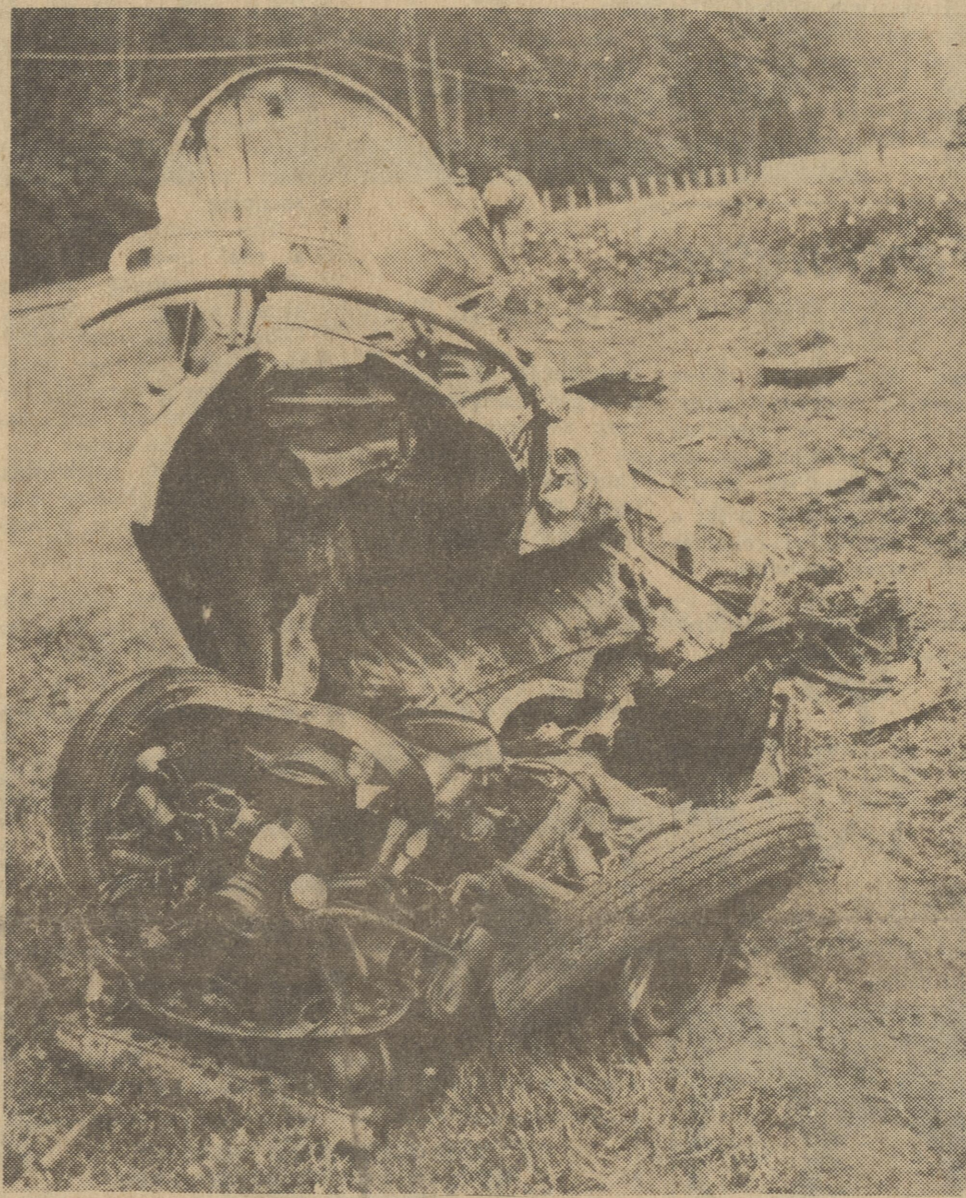

## Houston Chief Resigns

Houston Fire Hall. The Town of Houston accepted the resignation of their Police Chief Tom Francovic on Thursday night. Francovic cited personal reasons for the resignation. Recently Francovic had come under fire from some of the Town's people for failing to render complete police coverage. One of the principal had been Mrs. Anna Belle Boone, Council person Connie Morgan said that the resignation was definitely due to personal reasons and had nothing to do with matters related to Town affairs. Houston will seek a replacement immediately.

The survey conducted by Talley and Mann has been completed and Council expressed hope that the new survey would be incorporated into the new maps by the County.

The paving of Sunset Ave. received some discussion. It was decided that Francis Simpson who resides on Sunset Ave. would have to move his

fence back 9 feet from its present position so that the street could be properly paved. Harold Aptt would also have to cut his hedge row back an equal distance for the same reason Wharton Street has already been paved and a security light will be installed at the end of the street when DP&L complete the lines in the street underground.

Mary Carla Langford, 16, of Harrington, remains in critical condition at the Wilmington Medical Center's Delaware Division following a serious accident last Thursday.

According to police Miss Langford was headed south on U.S. 13, approximately two miles south of Felton when she lost control of her car and skidded into the path of a tractor trailer on the northbound side of the highway. She was alone in her car and thrown free of the vehicle which was totally demolished.

Ralph Hurd of Felton was the driver of the truck and his brother was a passenger at the time of the accident. Both were uninjured.

Miss Langford is the daughter of Mr. and Mrs. George B. Langford.

## Rep Addresses W'bridge Board

BRIDGEVILLE - Monday night the Woodbridge School Board heard from David Burton of Milford, vice-chairman of the Commission on the Future of Education in Delaware, appointed by Governor Pierre S. DuPont, IV.

The task force is broken into two panels, K-12 and higher education.

The blue chip commission has 6 areas of study dealing with various problems facing education in Delaware today from financial problems to declining enrollments and discipline.

One topic touched upon Monday night was ways the education budget could be cut at the State level but raised at the local levels.

Burton received total support from Board members when he emphasized they know more about their own district than anyone on the commission like himself.

William Tull, a highly respected Board member, said "...I have a strong feeling that there should be an equal opportunity for every child to have an education. For this reason, I would hesitate to go along with that idea, for we have known here in this district when we could not support programs needed due to lack of money. In those cases the State must come in and help us."

Tull's remarks were in response to those made

by Burton when the latter pointed out the possibility of raising money at the local levels.

Tull also added that in other cases where taxes have been raised it was impossible to collect them. One person present, a principal in the Bridgeville Elementary School, said that the plan sounds like that which is being implemented in A.I. (DuPont) and Newark School Districts where in each case the district is overly wealthy with businesses and industrial complex.

Charles David, newly elected school board member, and a school teacher in the Cape Henlopen District, queried "...the equalization bill, what happened to it? D.P.I. (Department of Public Instruction) said that it would apply to all districts but this did not come about."

Superintendent William Griffin, former high school principal at Lake Forest, asked if any other field had been considered by the commission like "... discipline and how are you coping with it." Griffin added "...let me know when you get there, for I would like to say something about it."

Burton backtracking said in answer to the poorer districts being unable to tax cited Wilmington was the poorest district but the highest paid

teachers and staff in year.

Davis pointed out that this was an entirely different matter where the State has consistently subsidized the Wilmington district. Davis went further and stated that

"...if you want to know the truth of the matter... Sussex County is getting the shaft in the matter... and always has." "When Jason and Henry were totally run by the State prior to consolidation and integration nothing was done when the two were brought about, and each respective school district assumed the tax burden and related costs without any help from the State."

When they talk of cutting ...by one third...this will really cut into our programs." Burton offered to talk with the Board members individually or as a whole whenever it suited them in the near future. The Commission is due to report back to the Governor on December 1 with a final plan by January 15, 1978.

In other matters before the Board, it was pointed out that there appears to be too much fighting at the football games. Charles Davis raised the question about going to Saturday morning games next year. Bill Degnan, Athletic Director, said Cape Henlopen is currently on day games and the attendance is down.

## Fire Company Holds Open House

This Sunday the Harrington Volunteer Fire Company will once again hold their annual open house in conjunction with the ending of Fire Prevention week.

Activities will begin at 2 p.m. at the Harrington Fire Hall on Mechanic St.

Unfortunately State Fire Equipment of Dover will not be able to attend the activities with their fire extinguisher display as was reported last week.

However, many attractions will be on hand. Leading the pack is the Robbins Hose Volunteer Fire Department of Dover who will be present with their aerial ladder drill team. The demonstration they put on is interesting and exciting and will give the public an idea of what can be done with the modern fire fighting equipment that is available.

Activities during the day will be keyed not only to children but also adults who are urged to attend with their children.

Rescue Captain Gary Minner of the local company will be on hand to demonstrate the company's hurs tool, an important aid used primarily for removing auto accident victims from their vehicles quickly.

Ambulance Captain Carl Wright will also be on hand with a first-aid demonstration, movie, and also will be there to answer any questions about the Fire Company's new ambulance which was purchased during the past

Smokey the Bear, a big favorite with the children for years, will again be on hand to give out balloons to the children. Smokey will be joined by some of his friends from the State Forestry Department who will also be there.

The annual fire hose contest where firemen attempt to push a barrel across a line with two hoses will again be held. This competition will involve not only the Harrington Volunteer Fire Department but also Harrington's mutual aid companies from Felton, Frederica, Houston, Milford and Farmington.

Another big hit with the children is Donald Duck who will be the featured character in a film intended to teach children the importance of fire and accident prevention. Another film will be shown that is intended to teach adults the importance of fire prevention.

Towards the end of the program fire engine rides will be available for the children provided the children are properly supervised.

Refreshments will once again be served by the Ladies Auxiliary of the Harrington Volunteer Fire Co. and a beautiful lamp will also be chanced off.

Fire Prevention Week annually kicks off the Harrington Volunteer Fire Co. fund drive and this year is no different. Fund Drive chairman J. Robert Wyatt has set a goal of \$6,000 for the drive.

## High School Holds Open House

Lake Forest High School will hold its Open House on Wednesday, October 19 beginning at 7 p.m.

According to Principal Lynn Zimmerman, parents will use an abbreviated schedule of their children's class day, giving the teachers time for brief presentations dealing with the courses the students are taking.

There will be a short general meeting prior to

going through the students' schedules and refreshments will be served in the cafeteria following the evening's activities.

Zimmerman said this is basically a time for parents to meet the teachers and to have the teachers give brief presentations about what takes place in the classroom and not a time to discuss individual problems.

## Walter Spence Dies

Walter F. Spence, a man who helped bring lights and electricity to thousands of lower Delaware farmers, is dead at 61.

Spence, an employee of the Delaware Electric Cooperative for almost 40 years, was dead on arrival at Nanticoke Memorial Hospital after suffering an apparent heart attack at his home in Greenwood last Tuesday.

"Speary," as he was known by his fellow workers and customers, became the cooperative's assistant head linesman in 1941, head linesman four years later, and general foreman in 1953.

In his spare time Mr. Spence enjoyed fishing in Delaware Bay and creating handicrafts in his workshop at home.

Besides his wife, Geneva, he is survived by two sons, Franklin M. of Greenwood and Larry of Orlando, Okla.; two sisters Mildred Banning of Bridgeville and Elsie Myers of Chestertown, Md.; and three grandchildren.

Services were Friday at 2 p.m. at the Fleischer Funeral Home, Greenwood and interment was in the St. Johnstown Cemetery near Greenwood.

Mrs. Emma Passmore

## She Will Be 96

Mrs. Emma Passmore will celebrate her 96th birthday on October 24. She has two daughters, Mrs. Clysta Wilson of Wilmington, and Mrs. Hilda

Lopes of Harrington, three grandchildren, 11 great-grandchildren and 13 great-great-grandchildren. Mrs. Passmore resides at Fletchers Convalescent Home in Felton.

## School Closes

Due to an inservice day, there will be no school in the Lake Forest School District Friday, October 14.

### Choral Society Plans Concert Tour

A European concert tour to Frankfurt (Germany), Salzburg, Vienna, Venice, Merano (in the Italian alps), Lucerne and Heidelberg is planned for the last week in June and first week in July. Singers who might wish to participate in the tour should plan to begin rehearsals in Dover with the Choral Society in January and sing in the 1978 spring concert.

there will be plenty of time allowed for sight-seeing. For instance, we will have 3 days in Venice and 3 days in Vienna.

The tour is expected to cost around \$900, of which \$100 deposit is due Nov. 1 \$400 on Feb. 1 and \$400 May 1. This includes all costs: transatlantic travel, lodging, transportation through Europe, 2 meals a day, and a tour guide. "People should take along another \$100 for incidental expenses" suggested Rosemarie Van Dorpe, president of the Society. "There's always that third meal a day to think about."

Singers and their spouses or friends who wish to make reservations to accompany the tour should call Mrs. Van Dorpe at 734-3739 by Oct. 15.

"The repertoire will include selections from all periods of music, especially concentrating on music of American composers" said Dr. Peter J. McCarthy, Associate Professor of Music at the University of Delaware. He has been conductor of the Delaware Choral Society since 1967. Dr. McCarthy added, "We will give concerts, but

### Local Girl Visits Panama

Lea Ann Sylvester of Felton spent the month of July in David, Chirique Panama.

A group of 38 Delaware students, Frank Fiero and his son Joseph made up the group that left Wilmington Airport on July 3 at 3:00 p.m.

They went from Wilmington to JFK Airport by bus. From JFK Airport to Miami & from Miami to Tocumen Airport in Panama City. Then they flew from Tocumen to their destination David, Chirique.

While in David they went to school for a week. Lea Ann stayed with Yamila Wing, her father Cosme and her mother Yamila.

During her stay she visited many places such as: Bosquete, Cerro Punta,

Volcan, Las Layas Beach, Aluanana farm, cattle farms, the port and other small places. She met many people. Her opinion of the people was the people were friendly and mostly everyone was eager to learn about Delaware.

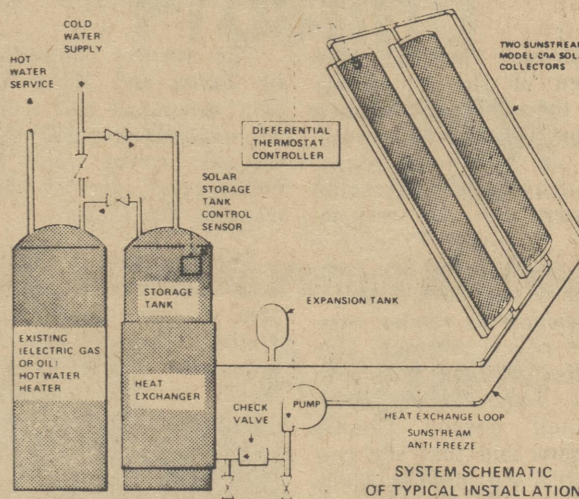

One attraction that brought people from all over to David was tourist week. With sales during the day & dancing in the streets at night. All took place in the park. It all went by so fast and July 29th arrived. Everyone was saying their goodbyes and heading back to Delaware.

On July 30th at 12:15 A.M. the group arrived back to Wilmington Airport and their families. Lea Ann is expecting a girl, Eyra Ruiz to stay with her in February.

The situation which is facing the farmers today, which some claim is instant bankruptcy, may not have begun during this past growing season, but in fact, started back when government got involved telling the farmers what to do and when to do it.

This is nothing new if you review history. Many countries like America have grown to be successful in the world. None however have grown like America. It is the richest and most powerful nation ever known to mankind. For the most part, the country and its people have come this route through hard work and free enterprise. As we have grown older, more successful, and richer, we have through some form of erosion allowed the federal government to take over or be given the right to do for the taxpayers which they once did for themselves.

At a meeting with the Kent and Sussex farmers last Tuesday night, Delaware's Governor, Pierre S. (Pete) Dupont IV asked at the beginning of the meeting and again at the end of the meeting "...what do you want the government to do for you?" the point he made following this statement was based on a statement issued by Wayne Eakin, one of the national coordinators for 100 per cent parity, to the effect "...are you (Governor Dupont) behind us and in support of party...". Governor Dupont pointed out that if he were a farmer the last thing he would want is government intervention. He explained this by saying that's usually what happens with government intervention is that the government plan grows larger and larger and the individual's freedoms become less and less. From government intervention follows more and more social welfare programs. Reward the unfortunate to the detriment of the lesser misfortunates. But how do you determine these states of being. Government give away programs can cause a lack of interest to perform... a lack of interest to exhibit your abilities... a lack of interest to shoot your arrows high... and lack of interest to see how much you can achieve.

The question right now is whether or not there are too many welfare programs which favor the few...but the majority pays for them. The welfare programs have been spreading for the past forty years to the points where there are too many costing too much. The cost for these programs which for the most part favor the incentive not to work is causing a loss of money which could be put to a better use such as fighting cancer...and looking for ways to rid us of this disease.

The situation facing the farmers today could have been avoided had the government stayed out. Instead of seeking ways of curbing the planting of crops through allotments through inaction of price supports, the government has created real problems for the farmers. What the government should have done all along is seek the sale of grain in foreign markets, and where the cost of our grain is far greater than most grain producing countries, the federal government should have supported the price of grain in these foreign markets. Had we turned our energy and money toward programs such as these instead of social welfare programs which in the long run will prove to be very costly, the situation which faces the farmer today could have been avoided.

The farmer now should look to a national co-operative where they can seek and get higher prices. The government should be made to deal with farming co-operatives directly and allow the government to buy at a price where the farmer can make a fair profit. Let the government undo what they have done, and be prepared to answer the many questions this situation has caused.

## Fire Company Fund Drive Appeal

By Ray Blanchette

In covering the exploits of the Harrington Volunteer Fire Company for the past two years, it has become amazing to me the day in and day out dangers the local volunteer fire department must face in order to protect you the citizens of Harrington and the surrounding area.

These firemen face these dangers sometimes knowing what the dangers are and other times not knowing what will happen behind the next wall or around the next corner of a burning house. These volunteers must go through extensive training in order to be active members of the company and give up their weekends and nights to do just that. There is a lot more to firefighting than just pulling the hose off the truck and squirting water.

Not only does the Harrington Volunteer Fire Co. provide the best in fire protection but their ambulance squad provides the best in emergency medical aid. On each ambulance run there is at least one emergency medical technician who has had at least 36 hours of emergency medical training and passed a test in each three hour section of the course is broken up into. These EMT's must be recertified every three years.

Once a year these volunteers ask you for money which will help them, continue providing the best in protection for the community. Does this seem too much to ask for? No! Although many people who will read this article will say that they will never need the emergency fire and medical protection that these volunteers supply, they had better think again. It can strike anyone at any time.

Without the financial support of the Community, it will be impossible for the company to continue to operate at peak efficiency. These volunteers never know when they're going to have their next emergency. It could strike anytime. However, no matter how busy they are at the time they still drop what they are doing and come to

help you, the citizens of Harrington, when you need them. If these people can volunteer their valuable time at any time of the day or night 365 days a year 24 hours a day, don't you think you could take the time and trouble once a year to make one donation. Large or small, your donation will be greatly appreciated and

will be a help to your community and the local organization.

This Sunday the company will hold their open house and all are urged and invited to attend. Several activities will go on throughout the day to help you, the citizens, to better understand fire prevention and safety.

It takes a good three to four years to become a competent carpenter, and more years later to become a real craftsman. However, the initial effort and time is worth your trouble since you are guaranteeing yourself a stable financial future whether you're your own boss or working for someone else...home ownership is here to stay.

## The Evans Report

by Congressman Tom Evans

The House will shortly consider the cargo preference bill. I am strongly opposed to this legislation because I consider it an economic rip-off. This measure is easily the worst case of special interest legislation I have seen since I have been in Congress.

In fact, if U.S. oil tankers could move through the water with the speed at which the cargo preference bill sailed through the Merchant Marine Committee, then we wouldn't even need this kind of legislation.

The bill would, for the first time, guarantee that American flag ships carry a percentage of foreign oil imported into this country. The ships now carry about 3 percent of the imported oil and would be guaranteed 9 1/2 percent under this measure by 1982.

There are many reasons to oppose this legislation. First and foremost is the cost to the consumer, estimated by the General Accounting Office to range between \$550 million and \$610 million a year in higher fuel bills. This estimate is five times the Administration's estimate of only two months ago.

The House has already passed an energy bill which will raise the costs of energy to American consumers substantially. I don't think these same consumers can afford to be slapped again with another fuel cost increase, particularly when this increase will go to line the pockets of the Maritime special interests.

In addition to the added cost to the consumer there are other valid reasons for opposing this boondoggle of a bill.

The Maritime interests in our country are already one of the most heavily government subsidized industries, receiving \$500 million a year from Uncle Sam.

Cargo preference will be a de-stabilizing influence in the world for the U.S. since it would violate more than 30 treaties we have with other nations.

We have adequate shipping capacity for national security purposes; the logistics director of the Joint Chiefs of Staff tells me that we currently have 4 times the tonnage in U.S. tankers than what

we would need for war.

We now have adequate transportation for oil -- access to that oil is the important issue. With the glut of tankers now operating in the world, there is little danger of not having enough ships to transport oil.

The Carter administration has been unwilling to allow Administration witnesses such as the State and Defense Departments to testify before the Merchant Marine Committee on this measure. The only exception was an administration official who, at the time of testifying for the bill, was under consideration for a \$100,000 a year job from the very special interests -- the maritime industry -- which would benefit from this bill.

Given all these arguments against the bill, one must ask, why are the President and some

members of Congress pushing this legislative boondoggle?

That question can be answered in one word -- Politics.

President Carter is making good on a campaign promise that brought over \$200,000 in contributions from maritime interests to his campaign. Additionally there are about 200 members of Congress who were recipients of an estimated \$1 million of this special interest money.

Cargo preference will hurt the consumer. Cargo preference will damage our relations with our friends and allies around the world.

And, above all, cargo preference will cast a dark cloud over this Congress, as American people begin to realize that they have been sold out to the special interests once again.

## Career Corner

By Buck Thompson

The home repair and remodeling industry, presently valued at about \$35 billion a year, has opened up all kinds of vocational opportunities for people who like to work with their hands.

The nation's homeowners are becoming frantic in their efforts to locate competent craftsmen of all kinds to perform a multitude of repair and remodeling jobs about the house. These projects range from the addition of a new bathroom or kitchen to building a patio or terrace, to redecorating rooms with a new coat of paint.

A good, all-around carpenter, for example, will always be in demand within a community. And, if you complete projects efficiently at a fair price, you can rest assured that you will never have a slack period...your reputation will spread like wild fire, and your only problem will be scheduling workload.

The national average hourly earnings for a carpenter is \$11.50. If you live and work in metropolitan New York, this hourly rate goes as high

as \$14.80. In South Carolina, a carpenter earns about \$6.60 an hour, and in Indianapolis the rate is \$10.45 per hour. For a standard 40-hour work week, it's possible to earn anywhere from \$264 a week to as high as \$550 a week, depending on where you live.

This attractive pay, of course, only can be earned after you establish yourself as a reputable carpenter who completes a job on time and efficiently. To earn this reputation, two factors are paramount. 1 training and 2. tools.

Carpentry training is available in every state technical or vocational-technical education program. Some states provide more efficient training than others. In Sussex County we have excellent programs in carpentry and cabinet making at the Sussex Vo-Tech School in Georgetown.

As important as your training is the set of tools you possess. Good wood-working tools are not cheap, and you should consider each tool to be purchased an investment in your trade. And, it is not necessary to run out and splurge. A basic tool kit represents an outlay of about \$80 to get started. Properly cared for, these tools can last you a lifetime. During training, you can add more sophisticated tools to your collection as you become proficient in using them.

Some food products such as catsup and mayonnaise are not required to list ingredients because their contents are standardized by the Food & Drug Administration (FDA). If they include additional ingredients or substitutes from the standard, these must be listed.

Nutrition labeling has appeared recently on many food items. It is a voluntary listing which FDA helped to establish, and is an easy way for consumers to check the nutritive value of foods. It can help you plan more nutritious, well-balanced meals, and give you the best buy for your food dollar.

For example, as you shop for the week you may choose several frozen or canned fruits and vegetables. As you quickly compare the nutrients you may realize you are short of Vitamin A. Thus you may decide to include a leafy green vegetable such as spinach in your menu.

Another example is the selection of canned beef stew. Two brands may have the same weight and price; however, in comparing the nutrition labels you may find that one can has a higher protein content than the other and is

## Food Labels Provide Valuable Information

therefore a better buy. Nutrition information is given per serving, says Ms. Matusiak. The label lists the size of each serving and the number of servings in the container.

Also listed are the number of calories and the amounts of protein, carbohydrates and fats per serving.

The lower part of the nutrition label gives the percentages of the United States Recommended Daily Allowances (USRDA) of protein and seven vitamins and minerals in a serving. Vitamins A and C, thiamine, riboflavin, niacin, calcium and iron must be listed. Additional vitamins, minerals and information

on polyunsaturated and saturated fats, cholesterol and sodium may also be included.

There are no foods which supply 100 percent of the daily nutrients required, says the home economist. Therefore, studying nutrition labels will help you choose a variety of foods for a well-balanced diet.

Ms. Matusiak explains that the USRDA was developed as a general guide by the FDA based on research by the National Academy of Science. It indicates the approximate amount of nutrients needed by a healthy adult, but should be adapted to individual diets as needed.

Georgetown, De., - Calendar of coming events:  
 Oct. 3 - Halloween Party, Substation  
 Oct. 17 - Deadline for Pumpkin Decorating Contest

Oct. 20-21 - Drop-off dates for pumpkins, substitution  
 Nov. 8 - Leaders Mtg., 7:30 p.m. substitution

Did you hear? The McIlvains of Bridgeville have a new addition to their family! Faith, their youngest daughter, is now the proud owner of a "Dalmation puppy." This pup was given away by Steve Majchrzak. Steve set up a few qualifications for the contest. Faith had to do the following: be enrolled in dog project, participate in 4-H events (relating to dogs) and write a short story telling how she would take care of the dog. Faith was announced as the winner at the 1977 Achievement Banquet - you should have seen her face - and better yet, you should have seen her mother's face. We are sure they will have many interesting stories to tell us. Thank you, Steve, for offering this opportunity and thank you, Faith, for taking advantage of it.

Each year the Sussex County Junior Leaders and Leaders Association recognize active and deserving 4-Hers. This recognition is a Scholarship to 4-H Camp. Receiving the scholarships this year will be Kirk Messick, Faith McIlvain, Janet Cannon and David Jones. Congratulations to all of you.

Again this year the Sussex County Links are sponsoring a Pumpkin Decorating Contest. The Links are an honorary group of 4-Hers and leaders, as well as past

4-Hers and leaders. We ask members to paint or decorate medium size pumpkins (8-18"). Please do not cut pumpkin in any way since they start to decay more quickly. You may get as fancy as you wish, but do not use any decorations you want returned. The Links in town will take all pumpkins to area nursing homes, hospitals and orphanages. It would be impossible to keep track of the decorations to return them.

This is a Community Service Project. We hope you will donate a decorated pumpkin to the cause. The three divisions are: Artistic, Funny, and Scary. 4-Hers, please attach your name, club and division under the pumpkin when you bring it in. Pumpkins should be brought to the University of Delaware Substation either Thursday, October 20 or by 4 p.m. October 21. Entry deadline is Oct. 17. This will make a great club project.

## Harrington Sunshine

By Mike Everline  
 Harrington Sunshine 4-H Club held installation and initiation of officers at their October meeting. New officers serving for the 1977-78 year are: President - Doug Crouse; Vice-President - Dale Jarrell; Secretary - Sandy Testerman; Treasurer - Cathy Harrington; Reporter - Mike Everline.

These officers were installed by Laura Newnom and Rhonna Legates of the Peach Blossom Club in a candlelighting ceremony. A fun initiation of the officers was planned

and carried out by Lisa Bostick. The pledges were led by April Testerman. The 4-H Parade was held on Saturday, Oct. 1, and our club won first place in the marching group. The club's window display has been finished and placed in L & D Electronics window. The winner will be announced at the Achievement banquet to be held on Saturday, Oct. 22. A report was given on UNICEF by Kelly Ryan. Our club will be collecting money for that organization shortly.

## Houston Cardinals

The Houston Cardinal 4-H Club has had a busy

past week. They have been making preparations for the 9th Annual 4-H parade held in Milford, October 1. This week October 2-8 was National 4-H Week. Everyone please take special notice of the posters and special programs relating to this important week. Posters were in the Post office, Fire House, and area store windows.

On Saturday morning, October 1, David VanVorst Sandra Arthurs, Bryan Hammond, and Debbie Abbate attended a live

interview with Charles Magill of WTHD radio station. Then at 1:30 they attended the parade as a marching group. They were dressed in uniforms of green and white and this year featured "Pom-Pom" girls. The pom-poms were: Joy Walls, Susan Arthurs, Donna Blessing, Debbie Abbate, Kelly Maloney, Michelle Chalmers, Michelle Dimmitt, and Anna Marie Biddle. Jenifer Anstine and David Koppenhaver carried the banner. Other marchers were: Kris Walls

Rhonda Blessing, Cindy Fuchs, Susan Vinson, Ricky Thompson, Paul Swartz, Myra Kay VanVorst, Mark VanVorst, Dawn Calloway, and David VanVorst.

Starting on Monday WTHD is carrying a short program featuring five of the Houston Members reminding everyone of National 4-H Week. Please listen for Robert Yerkes, Rhonda Yerkes, Rhonda Blessing, Susan Vinson, Ricky Thompson, and David VanVorst reciting the 4-H pledge. Oct. 2

was 4-H Sunday and even though most of the members attended their own church to celebrate this day there were some who attended the Houston Methodist Church. They were: David Vinson, Bryan Hammond, Donna Blessing, Debbie Abbate and Mrs. Connie Eesebrey.

This happens to be the 63rd year for the Houston 4-H Club. Currently it has 30 members under the supervision of Mrs. Connie Eisenbrey. If you are interested in joining this club call 422-7013.

Local Pastor To Lead Holy Land Tour

Pastor Duke Watson of the Harrington Baptist Church will lead a tour group to the Holy Land February. "We have an exciting 10 day itinerary that covers 4 countries as well as all the significant Biblical sites in Israel," Pastor Watson said. Pastor Watson has been appointed as Associate Tour Conductor by Dr. Wayne Dehoney, a past president of the Southern Baptist Convention.

Dr. Dehoney is the well-known minister of Kentucky's largest church congregation, the Walnut Street Baptist Church of Louisville. He is the author of numerous books, has been Visiting Professor at the Southern Baptist Theological Seminary, and is the recipient of the Israeli Government's Pilgrim Medal Given in recognition of his many trips

to the Holy Land. "This is more than just a tour," Pastor Watson says.

Duke Watson

"It will be an in-depth spiritual experience. Our group will visit the important Old and New Testament sites such as Calvary the Garden Tomb, Capernaum, the Sea of Galilee, etc., where on-the-spot lectures and inspirational services will be conducted. Sessions in the evening will provide an understanding of sites visited during the day." One of the unusual features of the tour is the fact that the group will live on the ship "Illiria" and cruise the Mediterranean Sea, traveling to the points of interest by bus from the various harbors on the coast.

Pastor Watson's group will depart for the Holy Land on Tuesday, February 14th, and return Thursday, February 23rd. The tour is open to all local people, not just ministers and religious workers. Interested people may receive further information by writing to Pastor Watson in care of the Harrington Baptist Church or calling 398-4179.

Yes! Few things so enrich life as understanding and appreciating music. Piano playing is in itself a rewarding creative outlet. At the same time, it encourages the development of a well-rounded personality, and it promotes concentration, alertness and poise.

## Spartans 2nd In 20-Team Race

On October 6 just 12 days into the 20th year of cross-country in this school district, Jim Blades' Lake Forest Spartans gave their school a third 1977 team trophy by finishing second to powerful Christiana in the sixth annual Salisbury State College Invitational.

On Sept. 24 Lake Forest won their own invitational beating schools from Delaware, Maryland and Pennsylvania. On Oct. 1 the Spartans were third in a 19-team race at the Salesianum Invitational, beating teams from New Jersey, Pennsylvania, Delaware and Washington, D. C.

At Salisbury, Delaware, Maryland and Virginia were represented in a 20-team, 3-mile race on the beautiful Salisbury City Park course.

Lake Forest has not had a key man, Wilson Fry, available since Sept. 26, but have somehow managed to stay competitive. Dan Parker battled Cape Henlopen's superman, state champion, Lance White, a two-time Salisbury Invitational winner for 2 1/2 miles. Neck-and-neck, nearing a bridge, with a possible upset in the making, Parker tripped over a tree root, went off stride and White took advantage of this golden

opportunity to win in 15.01. Parker's 15.07 is still "truckin'" for three cross-country miles.

Christiana's Wade Thorp, who narrowly missed winning a 132-man, five-state race in Wilmington recently, was expected to be in contention, but couldn't threaten the fleeing, downstaters.

Louis Thomas, a junior, is a talented runner who is almost always close enough to qualify for one of the individual awards. Thomas was eighth and annexed his third 1977 trophy.

## Fry, Ramirez Pace Winning JV Harriers

In cross-country a good "pack" is always desirable. A pack consists of several runners from one school running together near the front.

In the 160-man Salisbury Invitational jayvee race, Lake Forest, at the one-mile point, occupied 2nd, 3rd, 4th, 5th, 6th and 8th places. "That's a beautiful sight," said one local roter.

The remaining 152 runners took dead aim on the Spartan pack over the rest of the three-mile test, broke it up somewhat but could not prevent the hard-running locals from dominating the race.

Craig Fry, a junior, who recently qualified for his varsity letter was second, just four seconds behind Josh Brittingham of Cape Henlopen. Randy Ramirez was third to also qualify for an award. Doug Caskey, in sixth, just missed the last medal.

Freshmen Bruce Humphrey and John Veith turned in what may have been their best perform-

ances to date. Bruce was 12th and John was 15th to beat some 145 runners.

Doug Stevens led Chipman School with 20.46 for three miles, averaging under 7 minutes per mile. Bob Aycoth was second as he finished a race for the first time this season. Robby Manaraze was third with Derrick Chodkiewicz "the Bowers Bombshell" moving up to fourth Chipman runner. Ken Kline and Mike Bishop, fifth and sixth, defeated half of the 160 runners, many of them varsity competitors. Dave Emory was not considered as a top prospect

based on his earlier performances. He is now, after doing much better at Salisbury. Jerry Mosley, No. 8, still hasn't reached last year's form, but he has proven in the past that the ability is there.

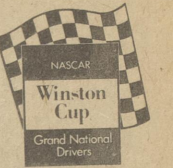

Brian Barthlow at age 9 can handle many runners several years older. In an individual time trial he ran three miles in 22.44 which was better than some 60 runners from 12 to 17 could do in the jayvee race.

Chipman outpointed Caesar Rodney's junior high runners 21-39 to re-

## Pit Chatter

by Harry G. Farrow, Jr.

CHARLOTTE - Donnie Allison said before the NAPA 500 at Charlotte that he would push his Tropicanna Chevy at the start of the race for the lap wins. His car received a cracked head after getting the lead from David Pearson. Allison was out of the race.

David Pearson won the pole position for the ninth straight year at Charlotte. He received a check for \$10,000 for winning the pole position.

Bobby Allison credits his misfortune this year not so much with his race car, Matador, which has drawn much criticism, but due mainly to the loss of his crew chief, Al Spangler.

Richard Petty's car had a broken shock bracket which prevented Petty from properly handling his car. When the bracket broke, Petty slowed to a crawl and caused an accident between Pearson and Allison, both of whom were roaring up on Petty's rear bumper. The L.J. DeWitt Chevy driven by race winner Benny Parsons handled perfectly for Parsons. He could make it stick just about anywhere on the race track. Near the end of the race Parsons, expecting a caution flag to go up, took an extra turn around the Charlotte oval. The caution flag did not go up and he ran out of gas, which would have enabled him to keep the lead had this happened. Instead he limped back into the pits. Cale Yarborough then had the race track to himself, and he roared into the lead.

When Parsons got back on the race track he made up 4 seconds in 10 laps to overtake Yarborough and

take the lead. A.J. Foyt finished 7th and it marked the first time ever that Foyt has finished a NASCAR Grand National race.

Following Charlotte, the next NASCAR Winston Cup Grand National Series moved to North Carolina Motor Speedway on October 23 for the 13th Annual American 500. The purse is \$137,000. The Late Model Sportsman Division heads for Nashville Speedway on October 16 with a 500 lap invitational event, the Marty Robbins World Open 500. With the NAPA 500 this past weekend the posted awards for these four events will approach \$600,000.

MARTINSVILLE, Va. - The \$107,960 Cardinal 500 Classic NASCAR National Championship double-header scheduled for Sunday, October 30, at Martinsville Speedway consists of a 250-Lap Modified event and a 250-Lap Late Model Sportsman race.

But, thanks to \$30,000 in contingency awards posted by Chrysler Corporation, the event is starting to shape up as a triple-header.

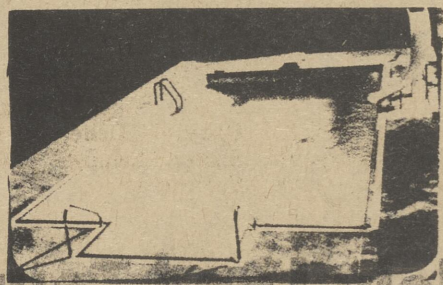

The "race within a race" can be found in the Late Model Sportsman event as drivers of Chrysler Kit Cars shoot for that extra \$30,000 in loot. Should the winner be driving an approved Kit Car, he will take home \$9,995 from Chrysler in addition to the regular first place payoff

of \$6,775 plus another \$1,000 if he can lead the most laps.

Buddy Arrington of Martinsville will bid for victory in a Chrysler Kit Car.

Formula 1 star Gunnar Nilsson has some interesting advice for other Grand Prix drivers: Try some good old American oval track racing.

"Any Formula 1 driver who does some NASCAR or USAC racing will become a better Grand Prix driver," Nilsson, winner of this year's Belgian Grand Prix, believes.

He became a believer after his first taste of -- and first lesson in -- oval track racing last month in the opening round of the International Race of

Champions at Michigan International Speedway.

IROC, the four-race series between 12 of the world's best drivers in identically prepared Chevrolet Camaro Z-28s, moves to Riverside International Raceway Oct. 15-16 for races two and three.

"Now I understand why Mario (Andretti) is such a smooth driver, the smoothest in Formula 1, Nilsson says. "It's his oval racing experience. It demands smoothness."

Nilsson is Andretti's teammate at Lotus. He put his Camaro Z-28 on the grid ahead of such oval racing stars as 1977 USAC national driving champion Tom Sneva and Indianapolis 500 winners Johnny Rutherford and Gordon Johncock.

## JV Harriers (Cont.)

main unbeaten. The local junior school's only harrier defeats came in one season several years ago when Jim Blades turned the reins over to another coach. Under Blades' tutelage, the youngsters have recorded half a dozen or more perfect campaigns.

Sherry Colburn was again top Chipman girl runner followed by Karen

"I didn't stop once" Warrington, Melissa Lewis, Elaine Grant and Pandora Scott.

The girls have great courage. There are a large number of boys at Lake Forest and other area schools who are physically qualified to become distance runners, but can't bring themselves to try it.

# Spartan Harriers Beat Falcons

Dover Air's Falcons came to Lake Forest for a cross-country meet on Monday afternoon without their No. 1 runner, former Spartan Ed Hatfield. Lake Forest did not have the services of Wilson Fry, but led by Dan Parker and Bill Mitchell rebounded an 18-39 victory to remain unbeaten (4-0) in dual meet competition. Senior Parker had a solo

workout as he ran 2.7 miles on the Killen's Pond State Park course in 14.48.

Mitchell, a sophomore, has been improving steadily for four years since he first tried distance running as a seventh grader at W.T. Chipman School. Bill cut eleven seconds off his personal best here with 15.48.

Dover Air's Jim K. Miller surprised by finishing third. Newcomer Joe Custis has given the Spartans a welcome shot-in-the-leg this autumn. His good performances are helping Coach Jim Blades and his state champion Spartans during the absence of Wilson Fry. Custis led Dave Richter and Kelly Woodward across the line to give

Lake Forest the win. Ed Hatfield showed up in time to win the jayvee race but was given a surprisingly stiff battle by improving Craig Fry. Doug Caskey, a sophomore last ran cross-country in 1975 but is a much stronger harrier now who may be a key man in future Spartan triumphs. Doug was fourth followed by cousins, Eugene Butler and Dale Jarrell, with Charles McDougall next to give Lake Forest a 25-34 victory.

Sam Lamphier, a freshman newcomer, sliced off 21 seconds.

Last year's No. 1 Chipman runner, Maurice Coverdale, an eighth grader, made his first start of the campaign and finished fifth in 17.10. Doug Stevens, another grade 8 harrier, turned in an outstanding 17.47 to come in eighth. Coverdale has five years experience but Stevens is brand new at this game.

Dave Bullock was third for Chipman. He's another terrific prospect but a subsequent bicycle accident has put him out of action for awhile. Robby Manaraze, the mighty mite from Frederica, was next. This seventh grader, along with eighth graders Coverdale, Bullock, Stevens and Bob Aycoth, give Coach Blades a glimpse of a bright future in Spartan cross-country.

Derrick Chodkiewicz continues to get better. Albert Burns and John Layton ran well against Dover Air. Mike Bishop and Ken Kline are strong runners with a future in the hill-and-dale sport.

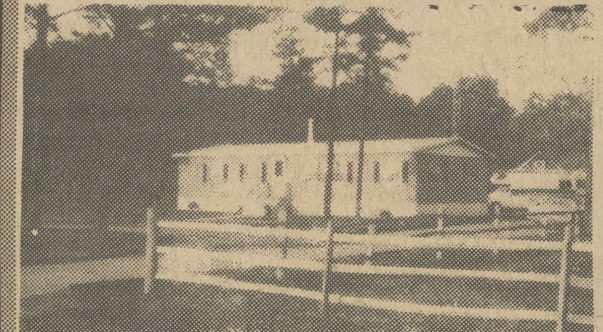

Chipman's leading lady harrier continues to be the surprising Sherry Colburn who beats many of the boys. She has done 21.25 for 2.7 miles. That's moving!

Pandora Scott, Karen Warrington, Elaine Grant, Melissa Lewis and Benji Adams were other distaff finishers for Chipman.

Brian Barthlow, grade 3, is nine years old, not ten, as we reported last week. He runs against the stop watch until he reaches grade seven. He lowered his 21.08 clocking to 20.31 one afternoon last week. He may rewrite the distance running record book at Lake Forest eventually.

# SPARTAN SCOREBOARD

## Spartans Win Big Over Delmar

The Lake Forest fans finally got what they were looking for this season, a victory, and what a bruiser it was too, with the final score 40-20 against the Delmar Wildcats.

Although it will not affect the league standing, it was gratifying for the

Also scoring was Russell Knaub, who made good an interception to run in for the touchdown from 30 yards out.

The Spartans had such a good night Coach Fleming used the second string team for much of the fourth quarter, and they moved the ball well as the game was concluding.

Offensively, the Spartans completed 7 of 11 passes for a total of 137 yards gained and rushed 218 yards.

Billy Moore carried the ball ten times for 91 yards, followed by Orlando Burris who carried 13 times for a total of 71 yards.

Also moving the ball were Kevin Hutchins with five carries for 27 yards and Milton Justice with three carries for 5 yards.

Also carrying the ball were Larry McCombs with four carries for 13 yards; Louis Hendricks with three carries for 6 yards; Greg Shortell with six carries for 11 yards.

Kevin Hutchins also had one pass reception for 20 yards.

At tackle Billy Moore again lead the night, with three unassisted and 10 assisted tackles. He was followed by Eugene McBride with three unassists and five assists; Greg Shortell had 2 unassisted tackles and 7 assists, while Larry McCombs had one unassisted and seven assisted tackles.

home team to tally a score each of the four quarters.

Early in the first quarter fans were treated of shades of things to come as Spartan Orlando Burris whisked the ball into the end zone after the team had brought it to the five yard line.

His touchdown was to be followed by Larry Smith, who caught one of the three touchdown passes thrown by quarterback Greg Shortell for the evening. Smith's was a touchdown from a fifteen yard pass.

Also scoring from passes were Milton Justice, with a pass of 35 yards and Louis Hendricks, with a pass of 20 yards.

Billy Moore scored on a three-yard run and kicked four of the six attempted extra points of the game.

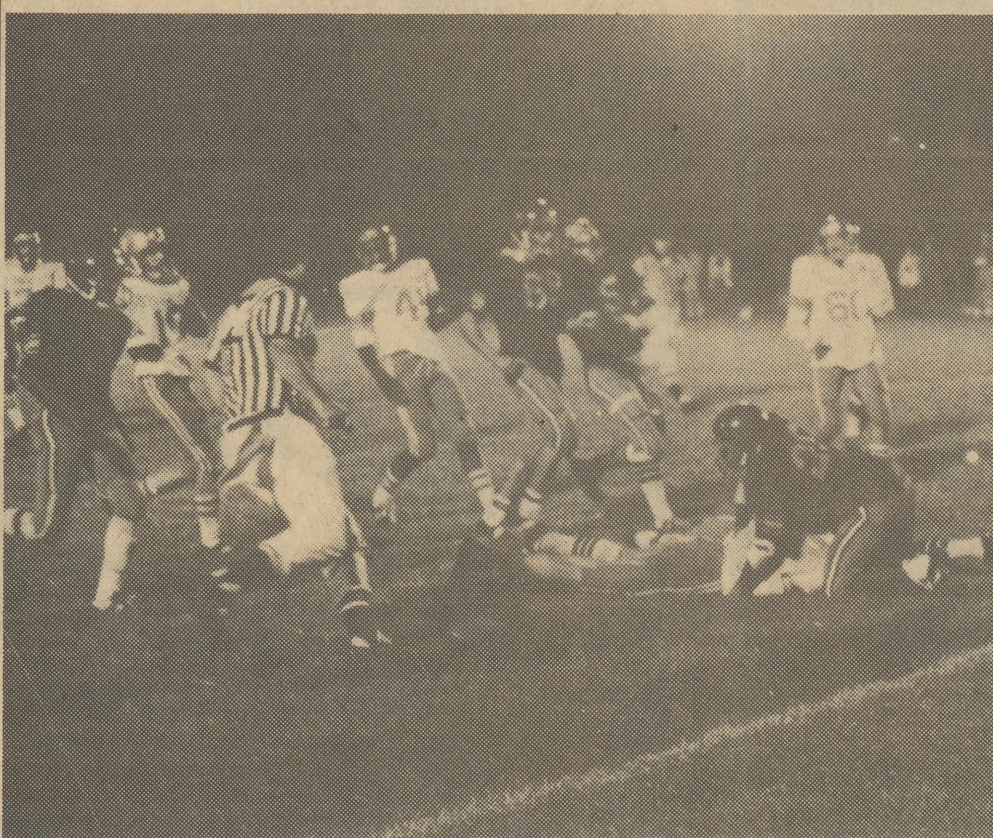

HOW SWEET IT IS! to see those arms go up for the Spartans as the home fans were treated to this sight several times Friday night in the 40-20 stomp over Delmar. At the bottom of the heap in this scene was Spartan Orlando Burris, who put the Lake Forest team on the board first as he carried the ball in from five yards.

Statistically, Delmar completed two of nine passes for 80 yards, two of these were intercepted, one by Billy Moore and one by Russell Knaub who made good the touchdown. Delmar had a total of 83 yards running. The Spartans face Dover

Friday night at Dover in conference play. Dover and Caesar Rodney have not lost a game so far this year.

Friday night's win gives Lake Forest a win, two ties and one loss for the season.

He may be flat on the ground but this Spartan was holding on to the ball in spite of Delmar's attempt to get it away. Spartan 41, Louis Hendricks, shown in the photo, was responsible for one of the Spartan touchdowns during the game and Tim Kemp, no. 60, saw a great deal of action Friday night.

Greg Shortell's performance Friday night netted him title of leading the league in the number of completed touchdown passes, now six.
