

# LF Aquatics Coordinator accepts Florida position

Mike Corash

by Harry G. Farrow, Jr.  
LAKE FOREST HIGH SCHOOL. Michael Corash has held the Lake Forest Aquatic Director's position since November. He will be at his new post as head swimming coach for Indian River Community College in Ft. Pierce, Fla. on April 1st.

The search for a suitable replacement for the very capable Corash is on.

The position at IRCC became available when the internationally acclaimed Doug Ingram accepted the head swimming coach's position at Southern Illinois. Ingram also doubles as President of the U.S. Olympic Swimming Committee.

Ingram in 5 seasons at IRCC had won 10 National Junior College Championships...5 men and 5 women. He is regarded as one of the outstanding swimming coaches in the nation.

"I step into a very prestigious position and join a school steeped in tradition",

said Corash from the High School office. "I'm very pleased, very excited and probably a little bit nervous about the committee's decision", added Corash.

"Jerry (Dr. Lysik) knew that I was an applicant when I accepted the Spartan job," Corash added. "But...there was a good possibility that I would be passed over. Certainly after so many months...I thought I had been", added Corash. What Mike Corash did not know was there were 170 applicants. He was not notified that he was one of the 10 finalists. The process was delayed because of the interviews for the position. There were applications from all over the U.S. and other parts of the world.

"I know Doug very well. He is a personal friend. Once you get in this fraternity (swimming) knowing people is the slightest of all the problems or issues. You must win is the big issue.

Doug and I competed in meets and in our respective recruiting programs when I was at Tennessee," said Corash.

"One of the big things that I have to get on right away is the recruiting program. This is the big thing with any college at any level. Doug was good at this. I hope to carry on his program as effectively as he did," added Corash. "His (Ingram) program is in full swing at Indian River and I must meet the challenge", said Corash.

Corash was an assistant varsity swimming coach at the University of Tennessee prior to accepting the Spartan position. Prior to that he was an outstanding high school swimming coach for several high schools in Denver, Colorado where he compiled a 117-14 record. He handled All-Americans there as well as at the University of Tennessee.

Bob Botteger, Athletic Director at

IRCC said "...he (Corash) is a proven winner, extremely professional, mature, and one who will do the most for our University".

Dr. Lysik said following the announcement "...we thank Mike for coming here and picking up where Denny Berry left off. Mike has improved on what was here. He leaves behind a flourishing program. I feel confident we will be able to fill the position with a very competent swimming coach", Corash added "...I want to help preserve that condition by doing what I can to help find a suitable replacement".

IRCC has two outdoor pools of 50 and 25 meters respectively with both 25 yards wide. IRCC will host the 1986 Master Junior National Championships. Corash said he plans no changes. "I just want to get on the recruiting program.

## Harrington reviews delinquent taxes

by Harry G. Farrow Jr.

HARRINGTON. The Harrington Council is taking under study a rather long list of delinquent tax payers. "It is something that was brought to my attention...among a lot of other matters...when I first took over the job (City Manager) here", said George Volnick.

A letter will be sent to the delinquent tax payers hoping this will resolve the matter, "...but should the Council go forth with this...it would mean turning it first over to the City Solicitor and then if no action is taken to resolve it with court action", added Volnick.

The City Manager reports that the City escaped any frozen pipes in the street this year. "Most of the frozen pipes were reported in private homes", added Volnick.

The first reading on the proposed

re-zoning of the shopping center was completed at last week's meeting. The second reading will be held at the March 11th meeting.

The proposed amendment to the Zoning Code for Harrington to define "...arcades..." was referred back to workshop. There were a few technicalities that the Council felt had to be worked out.

The matter of infiltration of surface water into the sewer system is still under study. "We don't know whether there is a problem or not", said Volnick. "There is a definite infiltration, but so far the pump is handling it. Nevertheless we need to study it and get at the problem", said Volnick.

"There is a suggestion that we study the matter through the use of what engineers call "TV Cameras". It simply

means there is a way to trace the lines and determine where along the system there are leaks...if any in the lines. We then could spot repair the lines", added Volnick. He said "...we are in the stage where we are first trying to determine where the problem is...if there is a problem", added Volnick. "It may be that the problem exists solely with certain man-holes that are recessed too far below the road surface. In such case we can easily raise the manhole covers and fix the problem right then and there", said Volnick.

He also pointed out that City employees have been alerted to look for possible problems.

It might be worth saying at this point that the City of Harrington is indeed fortunate to have a man of George Volnick's ability on board at City Hall.

### O.A. Newton solves bulk Titanium Dioxide handling problem

O.A. Newton & Son Co., Bridgeville, DE, has solved the industry-wide problem of handling abnormally large amounts of Titanium dioxide (TiO2) in compound mixing systems and weighing situations, according to company President William Farlow.

The method, developed by O.A. Newton Engineers effectively prohibits TiO2 from flooding a discharge line, which in turn clogs the line and results in costly downtime. According to the company, the innovation does not detract from the accuracy of the MIC's automated dispensing and weighing capabilities.

## School Board to study PREP Plan

by Harry G. Farrow, Jr.

HARRINGTON. With issues hanging still over the district concerning alleged improprieties on the faculty, the School Board faces its stiffest issue ahead when it begins work on PREP (Proposed Renovation and Expansion Program) Plan for the District.

Next Tuesday, February 26th, the School Board at their regular monthly meeting will begin discussions concerning this problem facing all buildings in the District to one degree or another. No one issue faces the Board or the taxpayers more than the issue on whether to replace the roof on the High School building or make repairs" to suffice for the time being".

"There have been a couple options offered for study", said Dr. Lysik. "One would be to replace the roof and the heating system...by re-installing the heating system and placing it on the ground", said Lysik. Currently the heating units are on the roof. One theory for the leaks is that the vibrations from the heating system causes the roof to break loose thereby

# New Government checks to be used for tax refunds

The U.S. Treasury's Financial Management Service will switch over to a new modernized check for income tax refunds on February 14, kicking off the Government's national conversion to a more counterfeit-resistant, cost-effective check. The first of these checks will be mailed beginning February 15 to taxpayers throughout Delaware, Maryland, Pennsylvania, and the District of Columbia.

"This check will be easier for governments, banks, and businesses to process," said Financial Management Service Commissioner William E. Douglas. "It will be more difficult to alter or counterfeit, and the lightweight paper will make it less expensive to produce and store. When national conversion to the check is completed in 1987, taxpayers will be saved \$6 million annually."

Approximately five million tax refund recipients in these states and the nation's capital will be the first to receive the multicolored checks, which have improved security features incorporated into the design. The check, which replaces the green punch card check, in use for the past 40 years, is made of light-weight paper and is similar to those now commonly used by the financial and business communities.

The colorful new check features pastel hues ranging from light blue to pale peach. A full-length reproduction of the Statue of Liberty appears in dark tones on the left side; a close-up of the head and torch is blended into the

background on the right. The letters "USA" create a faint pattern across the back of the check.

The tax refund checks to the District and three states are being issued by the Service's Philadelphia Financial Center. Recipients will receive a special insert in the envelope containing their refunds which introduces the new check and explains the conversion. In May, approximately 200,000 Social Security recipients in Philadelphia will begin receiving payments with the new check.

Nationwide conversion to the new check will begin with December 1985 Social Security payments, which involves about 20 million checks per month. Starting in February 1986, all Internal Revenue Service tax refunds will be made with the new check. Other payments to be converted include supplemental security income, civil service retirement, federal salary and vendor payments. By early 1987, the punch card check will be completely phased out.

Treasury's Financial Management Service, which is responsible for payments, collections, cash management, and accounting governmentwide, disburses over half a billion checks a year through its seven Regional Financial Centers. In addition, over 1,000 non-Treasury federal disbursing organizations around the world, such as those of the Department of Defense, issue approximately 115 million checks annually. All of these will be converted to the new check.

## Social Security's income limitations

by I.S. Levitt, District Manager Social Security Administration Dover

Social Security benefits are intended to partially replace lost income at the time of old age retirement (age 62), disability (at any age) or death when eligible survivors remain.

Social Security payments are supposed to be the foundation on which people build for their future along with private pensions, IRA's, savings and investments.

The current income limitation for old age retirees who are receiving checks, as well as their dependents and other non-disability beneficiaries, is \$5400

for people under 65 and \$7320 for those 65 or over in 1985. If earnings go over these amounts Social Security will withhold \$1 in benefits for every \$2 of earnings. The only income that is considered is wages or net earnings from self employment.

The intent of this test is to ensure that only those whose income has been reduced are eligible to receive a "partial replacement" in the form of benefits.

People who continue to work full time obviously have lost no income which must be partially replaced.

For more information call the Dover Social Security Office.

## If you're not getting all of this from your IRA, get an IRA from Mellon.

Of course, a Mellon IRA can save you money on your 1984 taxes, but it gives you a lot more than just a tax deferral. Whether you're opening an IRA for the first time or transferring an IRA to Mellon, you'll get more.

**Low minimum deposit.** You don't need \$2,000 to open an IRA. You can start your Mellon IRA with an amount as low as \$100. Then you can deposit any amount at any time up to the legal maximum. \$2,000 is the *maximum* per working individual permitted by the IRS. But, of course, you don't have to save \$2,000 in a year.

**More security.** Every Mellon IRA is insured by the FDIC unlike insurance company and broker IRA programs.

**Investment options.** With a Mellon IRA, you can choose from two different kinds of investments: fixed rate investments which guarantee a specific rate for a specific term or our variable rate option where the rate is reset every 91 days.

**No management fees.** Unlike some other IRA's, a Mellon IRA carries no service charge.

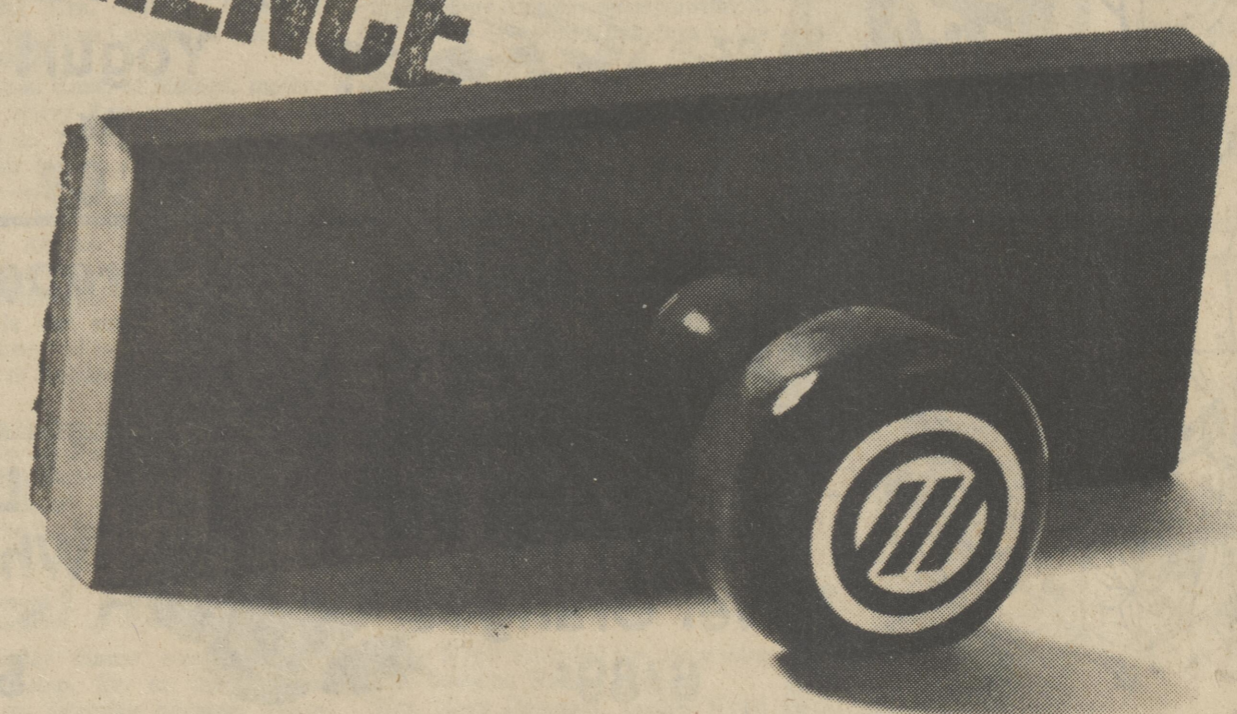

**Extra convenience.** Making your IRA contribution is easy and convenient! You can make deposits through Mellon Bank-by-Phone, payroll deduction plans, direct deposit, and your Mellon community office. You can also call Mellon's Rateline for our current interest rates, (302) 429-4980.

If your IRA is elsewhere, it may not be doing you the most good. Switching your IRA to Mellon is as easy as visiting your nearest Mellon Bank.

Maximum contribution for working couples is \$4,000 a year. Maximum contribution is \$2,250 if you're married and your spouse is not working (some limitations apply). Early withdrawals subject to substantial penalties and to IRS regulations.

Smile! Love each other and be forgiving!

Rev. Koning was leader of Bible Study Monday morning. After several hymns the study was the meaning of the words of hymns with reference from the Bible. Those participating in the happy inspirational hour was Annabel Morrow, Jo Burke, Ola Tilden, Mamie Adams, Etzel McCready, Mary Sapp, Virginia Smith (at the piano), Frances Wright, Thelma Legates, Elwood Morris, Cecil and Sylvia Meredith.

Hope your Valentine Day was joyously filled with love and fantastic memories. Debbie Hastings was Mistress of Ceremonies at the Center's party, she announced Mr. and Mrs. Sweetheart of 1985 - Cecil and Sylvia Meredith. Sylvia told of their meeting at the Center six years ago. Webb Porter and Dick Henry led everyone in singing a love song. Several couples told of their marriage and some had pictures taken on their wedding day. Refreshment-punch, two kinds of cake and a candy heart each. Debbie made a very interesting MC. The young people of Prospect Church sent in to every one a very pretty valentine party favor filled with candy hearts with love sayings like-Love Me, Kiss Me, I love you, etc. Everyone was in glorious humor, the party was a huge success.

February is a BIG month, really. Black History month, Valentines Day, Celebration of Lincoln and Washington's Birthday, Forty-niners, birthdays of members at the Center and two of my daughters Genie and Gracie were born in Feb. A Big month indeed! Grandson Richie and wife came home Feb. from Hawaii. I'm telling you, its a Big-Big Month!!

Dave McCracken, President of the Members, called the meeting to order Monday afternoon-pledge of allegiance-prayer by Sylvia Meredith, Louise Burgess was nominated and elected Treasurer to fill the office vacated by Merle Roth. Merle has done a splendid job for a good many years as Treasurer for the membership.

The Sweetheart Dinner at Colony Inn was a tremendous success. Tables beautifully decorated, members and friends all enjoyed the friendly atmosphere and companionship of each other. Food tasty-a Valentine's Day to be remembered. The Centers party and the Sweetheart dinner-flowers-cards-dinner-candy-gifts and LOVE!! The pool table is busy as bee's. Interesting to say the least.

Arts and Crafts-Ceramics getting ready for Bazaar Day March 29, 1985. Make room for that day on your calendar. Bring a friend to view the pretty things!

Mr. Nets of A.A.R.P. was here and gave a talk, took questions and gave answers.

Tax assistance every Friday - for free! They are such a nice group of men. Every Thursday, bowling in Milford Lanes. Legal Aid with Wendy - Feb. 25th.

Visit the Center. You will be glad you did. Had a gentleman join the Center today and he sat down and gave an interesting rundown on many citizens of Harrington. How he used to cut grass to earn money. He remembered who lived where. It was quite interesting.

Take care, be kind to each other. Best wishes to all. A special prayer for those who are in deep sorrow. Faith.

## Gab Fest

by Pat Hatfield

The blustery winds are driving the rain in sheets against the windowpanes, the kitchen is warm and cozy and the dishwasher is going merrily. I'm hankering to cook up a storm, since it's the perfect day for it, but I have painted myself into a corner, so to speak. There is a bountiful supply of specials now—more than two can take care of. There are still some yeast rolls, half a bread pudding, and a large applesauce cake. This is a very good applesauce cake with nuts, raisins, and cherries, but I am not a big fan of fruit cakes. I make them for the family. Sometimes I make a White Fruit Cake which is the kind I like. I put only white raisins, pecans, cherries and pineapple in it.

The weather man predicts snow again tonight. I hope he is wrong. I am tired seeing these dirty patches still around. In spite of the sunny days, the base of the snowman still sits there.

Speaking of food, (and what better thing to speak of!), I invented a good soup the other day. I put a can of cream of onion soup in the saucepan and added a can of creamed corn, a little sugar, salt, pepper, butter and parsley flakes. We thought it very good, but of course I am a guy that will mix up anything and call it soup.

We have now located the poem entitled "November". Mrs. Hamstead's daughter found it in a book she purchased from a second-hand bookshop. It is a little long for the column, but if any of you would like a copy let me know and I'll share it. The interesting thing is that all of us who were searching for it thought it was written by Helen Hunt Jackson. It is in the style of her poem, "October". But the author of this one is Alice Cary.

Reading is such a joy to me. I do hope

that I may be granted the gift of sight as long as I live. I've always been a bookworm. I think I mentioned before that when I was growing up they seemed to think in the folklore of that day that it was not good to be reading and studying all the time. The old quotation, "A little learning is a dangerous thing." When they would find me curled up with a book, Grandmother would say to my mother, "I declare, Sally, if that child don't get her nose out of a book, she is going to lose her mind." Evidently my mother did not agree, because we shared hour after hour of reading.

I read a story about the great evangelist, John Wesley. It is said that whenever he was asked to speak, he always had the same message, "Little children, love one another!" Someone asked him why he did not explain the rules for living more fully, he replied, "Because if you have love, you will obey all the rules. Love is all you need."

In this new year I am trying to make very sure that I do not skip my daily Bible reading. I am now reading Romans, but in addition I feel that I need to read daily my favorite chapter, the 13th chapter of First Corinthians. It is like a road map for my day's journey, but sometimes like all travelers I fail to consult the road map in time and I lose my way.

We cannot go too far wrong when we make love the keynote of our lives. Ella Wheeler Wilcox, in one of her lovely poems, says: "Love is the center and circumference of all existence...it is the only thing that pays for birth...or makes death welcome." I will gladly share this one if you wish. It has been in my scrapbook for a long time.

## St. Bernadette's Catholic Church

**ASH WEDNESDAY:** Ashes will be distributed by the pastor and the Eucharistic Ministers during the services on Ash Wednesday following the affirmative response to the question, "Will you turn away from sin and be faithful to the gospel?" There will be a prayer service at St. John's at 9:00 a.m. and Mass at 7:30 p.m. There will be Mass at St. Bernadette's at 5:30 p.m.

**FASTING:** Eating less.

**ABSTINENCE:** Not eating certain foods.

Fasting has always held an honored place among the religious people as a way of purifying the spirit, a way of sacrificing something for the Lord. We are obliged to fast and abstain from all meat on Ash Wednesday if we are between the ages of 18 and 59. If we are above the age of 14 we are obliged to abstain from meat on Ash Wednesday and the Fridays of Lent. Some people fast every day during Lent, some abstain from alcohol, tobacco, sweets. Others abstain from bad "foods" of the mind; such as cheap novels. Lent is the principle season of penance in the Church year. It is the time to respond to the crisis of hunger in the world. The funds you save by fasting can be used to minister to those who have no food through Operation-Rice Bowl. We not only fast for ourselves, but for others.

We ask you to make Tuesdays Rice Bowl Day and invite you to join us for soup and bread in St. John's Hall from 6:00 p.m.-7:00 p.m. Anyone who would like to attend and needs transportation should call St. John's Rectory (422-5123) or on Friday morning call the Parish Outreach Office (422-5319) and leave your name and phone number.

**ANNIVERSARY COOKBOOK:** It's not too late to submit your favorite recipes (family favorites, ethnic, microwave, any kind) to be included in our Anniversary Cookbook. With your help we can have a cookbook of treasured recipes for all to enjoy.

For further information please call Stephanie McDonough (422-7859), Hazel Smith (398-3184) or Mary Stachecki (835-5892). Feel free to submit as many recipes as you wish.

**THE LEUKEMIA RADIOTHON** will be held Saturday, Feb. 23 and Sunday, Feb. 24. We are appealing for baked goods for a sale that will be held inside the Ames Store, Milford. Anyone wishing to donate baked goods, please bring them to Ames Store on Feb. 23 at 10:00 a.m. or call Cheryl Fancovic (422-7096).

**LET THE LITTLE CHILDREN COME:** Anyone interested in helping with the children at St. John's at the 11 o'clock Mass, please call Mary Louise (422-5319) or (422-5827). We are in need of help because of the large number of children.

**CHANGES...CHANGES...** As our Lenten season approaches, we will reflect on our life and the changes that we could consider in order to experience the fullness of life. Unfortunately we have many changes that occur as part of life. We will look at how these changes are opportunities for personal and spiritual growth - on Thursday, Feb. 28 at 7:30 p.m. in St. Bernadette's.

**ATTENTION ST. JOHN'S AND ST. BERNADETTE'S PARISHIONERS:** To celebrate our 75th Anniversary we would like to borrow and display any older pictures of St. John's and St. Bernadette's that you would share with us. If you have any bits of interesting history for our Anniversary Booklet please call Charlene Fuller (422-4841) or Carmella Trotta (398-3713).

**OPERATION RICE BOWL:** Ash Wednesday marks the beginning of our parish's participation in the 1985 Operation Rice Bowl Lenten Campaign, "Shaping a Peaceful World together." This 6-week program, sponsored by Catholic Relief Services, encourages solidarity with the hungry of the world through fasting, prayer and almsgiving, traditional Lenten practices. All parishioners are asked to fast or eat a reduced meal once a week, placing the money saved from that meal into the rice bowl. Your prayerful participation in this program will help to provide development assistance to our sisters and brothers overseas as well as in our own diocese. In addition to Sunday's text, possible scripture texts for reflection are: Deuteronomy 24:17-18, 1 John 3:11-18, 1 John 4:7-12, Psalm 145:15-16.

Danny Haines was the 1st alternate with a 9th place finish in the 200 freestyle with a time of 1:57.12. The winning time was 1:43.15, which was also a new state record.

Haines also competed in the 100 yard butterfly and was timed in :59.30 in the prelims. In the finals, Haines finished a very respectable sixth in :57.73. The winning time of :54.08 was a new state record.

In the 100 meter breaststroke, Robbie Bates was the 1st alternate and

finished 9th. Rob Burgholzer was 2nd alternate entitling him to a 10th place finish. "They missed the finals by two one hundredths and one one hundredth of a second respectfully," said head coach J.D. Hogsten.

In the girls competition, Lori Wilson won her heat in the 100 meter freestyle in 1:03.88 which beat her previous time.

Kelly Snow-Jones, Patti Drew, Paige Parker, and Lori Wilson competed in the 200 meter medley relay team. Their time was 2:11.13 again faster than previously.

Patti Drew swam the 50 yard freestyle in :28.3. Kelly Snow-Jones swam the 50 yard freestyle in :29.9. Kathy Carlson was another Lake Forest competitor.

Coach Hogsten in his first year as head coach said "this young team saw some outstanding swimmers this weekend. Some all-americans and potential all-americans." He continued saying "...we need to get some short range goals for ourselves and work up from there. It will take time, but I can foresee a strong swim team here some day in the near future."

## Seven Spartans qualify for State Tournament

by Rebecca Brown

After the weekend's Henlopen Conference wrestling tournament, seven members of the Lake Forest Spartan had qualified for the upcoming state tournament. As a team, the Spartans finished seventh in the competition which saw Caesar Rodney take its fourth straight conference tournament crown.

Lake Forest qualified its seven members under this year's new ruling which sends all conference semi-finalists to the state round.

Of the Spartan seven, Spartan Scott Fleming, was the lone conference finalist Fleming, a junior, finished second after losing the final round to

Caesar Rodney's Lance Minor, the only conference opponent to defeat him during the regular season. Fleming drew a bye in the opening round, pinned Sussex Central's Busara in the quarter finals and won a decision over Smyrna's Cook in the semis.

Lake Forest's remaining six semi-finalists who qualify for the state tournament are Derek Dill, 119 lb. - 6th place; Ken Outten, 122 lb. - 6th place; Frank Wilson - 129 lb. - 6th place; Mike Gygyryuk, 145 lb. - 6th place; Mark Wilson, 159 lb. - 6th place, and Kermit Moseley, heavyweight - 5th place.

## Miller Time 500 Set For March

Martinsville, VA — The addition of the very popular Late Model Stock Car class to an already exciting event will make for a non-Grand National record purse when the Miller Time 500 comes to the Martinsville Speedway on Sun., March 24.

Record posted awards of \$139,550 will be on the line for the event being billed as racing's wildest triple-header. The spring event will mark the debut of the Late Model Stock cars at the .526-mile oval and when grouped with the always popular Busch Late Model Sportsman cars and the high-flying NASCAR Modifieds, fans can expect nothing but 500 laps of all-out racing.

The winner in each of the two 200-lap races can expect to take home a minimum of better than \$8,000 while the top lap leader will pick up the \$1,000 Miller Lap Leader award. In addition, the top qualifiers in both the Sportsman and Modified divisions will earn an additional \$250 and the Miller Pole Cup.

The top finisher in the Stock class can expect to earn \$2,000 for the win, as well as possible shares of a \$5,000 Martinsville Speedway point fund set up especially for this young division. In addition, \$100 and the Miller Pole Cup will go to the top qualifier for the event with another \$500 going to the top lap leader.

The event is also a Daytona-Goody's

300 Invitational qualifier for the Late Model Sportsman cars as well as being a Gatorade Circle of Champions race.

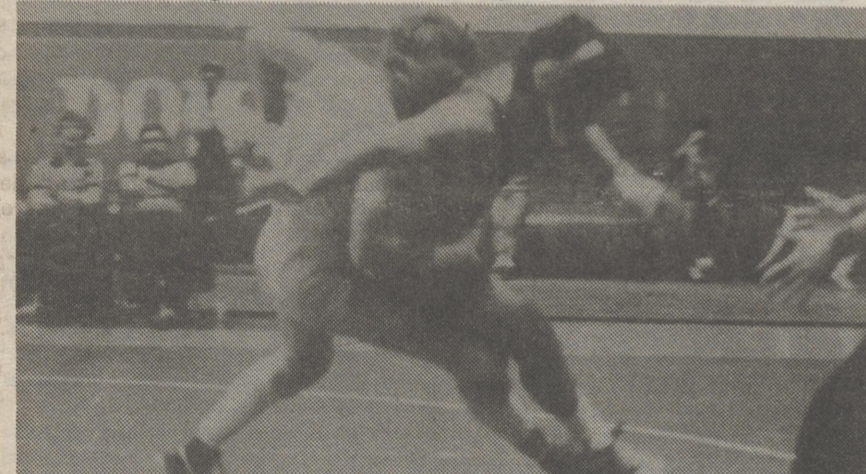

The big week of racing will kick off on Thursday, March 21 with practice and time trials for the Late Model Sportsman division. The fastest 20 cars will earn starting positions 1 through 20 for Sunday's 200-lap event.

On Friday, time trials for both the Modifieds and Late Model Stock cars will be held with again the fastest 20 cars earning the top twenty starting positions for Sunday's races. The remainder of the 30-car starting fields for each one of Sunday's events will be completed in six, 25-lap heat races on Saturday afternoon.

In addition to the Miller Brewing Company, other participating sponsors include Howard Stewart titanium Valves, Moroso Oil Pans, PRO-formance Shocks, Union 76 Gasoline, Wiseco Pistons, Goody's Manufacturing Corporation, Gatorade and Timex.

The Miller Time 500 will be broadcast live on radio by the Motor Racing Network and will be taped for television by the Special Events Television Network.

Jack Ingram of Asheville, N.C., is the defending champion for the Late Model Sportsman event while Mike McLaughlin of Waterloo, N.Y., captured last spring's Modified race.

## Sports Round-up

by Harry G. Farrow, Jr.

"In the Laurel game...we started slow, and did not hit well in the first half," said Coach Dyal. She said once they got adapted to the gym "...and settled down we blew them away in the 2nd half." Caryolyn Browne and Elisabeth Senter broth had good games" and we just wore them down in the 2nd half." The Spartans also out rebounded them.

In the Milford game, the Spartans came on again very strong in the 2nd half. "We just stayed close in the 1st half (tied at end of 1st half 25-25)". In the 3rd quarter, the Spartans out scored the Milford Bucs 14-2. "We put on a full court press charged the momentum of the game. We moved quicker...and they never got back in the game," said Dyal. Teresa Taylor and Elisabeth Senter did a good job under the boards forcing Milford to take outside shots.

The Spartans play Sussex Central at 4:00 on Saturday at Seaford for the Conference championship. Coach Dyal said she did not anticipate playing Central any differently than they did earlier this month when the Spartans beat Sussex Central at Lake Forest.

The Spartans won their first game since early in the season but it was a big win for the young team. "We played well...slowed the game down to our pace...and did it with a minimum of turnovers", said Coach Falasco. Victor Hill and Eric Warren each scored 9 points to lead the Spartans. "The big factor was holding Laurel to only 4 points in each of the 2nd and 3rd periods", added Falasco.

In the Milford game, height of the Bucs prevailed. "They had one guy (Emory) who is 6'9" and another guy who is 6'7". So that hurt us...wasn't much our young team could do against that", added Falasco. The tallest person on LF is Victor Hill at 6'3". Bruce Mosley was sick and missed practice. "We went with Lionel Dixon who has not seen much action...but Lionel did a pretty good job considering all things", said Falasco. In the game Chandler scored 4; Warren, 6; Hill with 10; Hicks with 2; Hammond with 1; and Dixon with 10. The Spartans ended the season 3-15. They were 2-10 in the Conference.

## Labonte fuels fan support with dramatic Busch Clash win

DAYTONA BEACH, FL — Professional race drivers run for money, no doubt about it. But there's also a special bond between them and race fans that goes far beyond those necessary paychecks to field a competitive team.

crowds of 50,000 to 100,000 people and more can be heard above Grand National racing's powerful six-hundred horsepower engines. And even if the drivers themselves can't hear the crowds, they know they're there.

## Gant to sharpen up on short tracks

RICHMOND, Va. — Harry Gant believes his team had one major weakness in 1984 in its bid to capture the NASCAR Winston Cup championship — the short track program.

"In all forms of sport, consistency is what wins championships and we had no consistency on the short tracks," adds Gant. "We need to be able to run in the top five in every short track race we run in 1985.

In the two races run at ichmond Fairgrounds Raceway in 1984, Gant finished eighth and ninth. And he was never in a strong position in either event.

Larry Bader (left), of Willard Battery Company and Austin Godsey of Whitehall Racing, look over their 924 Turbo Porsche before the start of the "24 Hours of Daytona".

## Willard Battery joins Whitehall on IMSA Racing Circuit

Larry Bader, Director of Marketing for Willard Battery Company of Horsham, Pennsylvania, recently announced that Willard has joined forces with the Whitehall Racing Association of Tucson, Arizona to compete in a series of International Motor Sports Association (IMSA) auto races. Willard is sponsoring a team of drivers headed up by Austin Godsey. Other drivers on the Whitehall team are Bobby Aikin, Jr., Paul Gentilozzi and Bob Bergstrom.

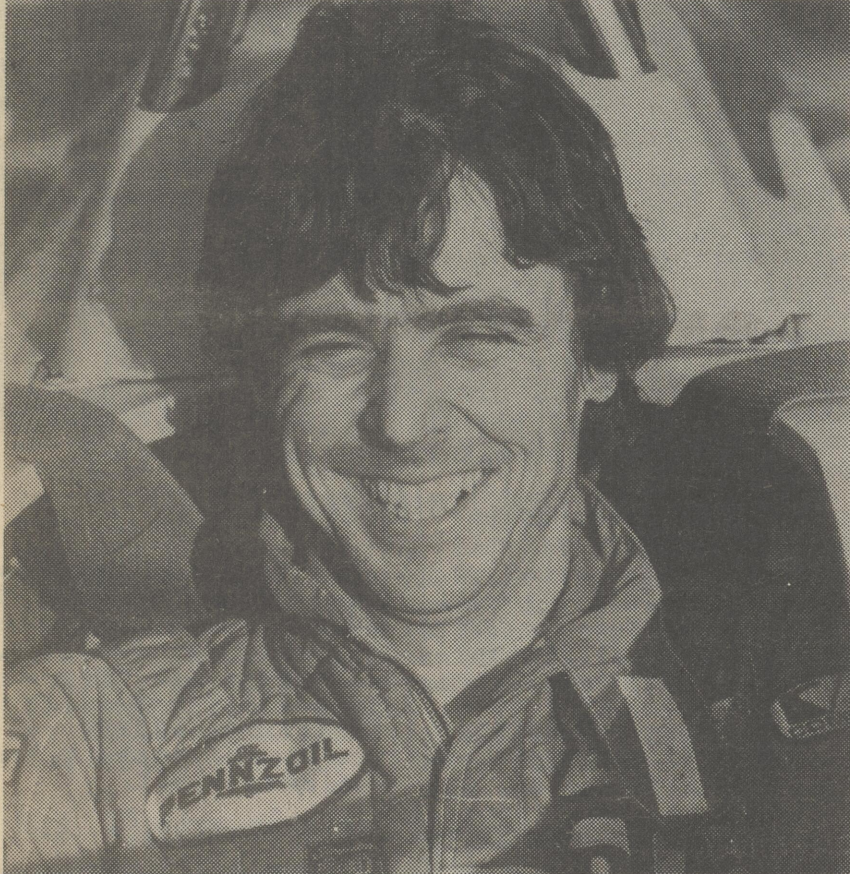

Whitehall Racing Association is owned by F. Thomas Winters III, who also drives for the team in one of its two GTU Class, 1985 924 Turbo Porsches. Willard and Whitehall started one of the Porsches in the recently completed "24 Hours of Daytona" at Daytona International Speed-

way in Daytona, Florida, finishing out of the money.

"We're going on to Miami and Sebring," said Bader. "And we're confident that the cars will perform better than they did at Daytona. Regardless, we're excited about our first venture into auto racing and Willard is proud to be associated with Austin Godsey, Tom Wintes and the Whitehall team."

Miami, Florida is the site of the "Miami Grand Prix", a 45 minute GTU race on February 24 and Sebring, Florida will host the prestigious "12 Hours of Sebring" on March 23. "Bob Bergstrom will drive one of the cars at Miami," remarked Godsey. "And he and Tom and Bobby Aikin and I will

HIS RETURN — Words fail to describe the joy mirrored on the face of Pennzoil Z-7 Special driver Rick Mears as he sat in a race car for the first time since his September accident. Mears needed only a handful of laps to get up to 151.899 mph in a test of Penske Racing's March 85C at Phoenix International Raceway.

## Rick Mears returns

PHOENIX, Ariz. — Rick Mears, 1984 Indianapolis 500 winner injured in the crash of his Pennzoil Z-7 Special last September, has driven a race car again.

Mears took several laps at Phoenix International Raceway in late January, his fastest clocked at 23.7 seconds for an average speed of 151.899 mph, in the Penske Racing Team's new March 85C.

Still walking mostly with the aid of crutches due to the tenderness of his feet, Mears wore the look of genuine pleasure as he slid into the driver's seat

of the car for the first time. The next day he returned for more driving as Goodyear concluded its tire tests for the first Championship Auto Racing Teams circuit event of 1985, the Dana Jimmy Bryan 150 on Mar. 31.

Teammate Danny Sullivan, the chief test driver during Mears' convalescence, clocked 23.4 sec. (153.846 mph) for his best lap during the same test. Penske Racing tested both its new March and Lola cars. Sullivan, who drove a Lola in 1984, will race in the livery of Miller High Life this season.

Weedsport Speedway, the flagship race track on the Drivers Independent Race Tracks (DIRT) circuit, has run its last race under that name, and beginning with the 1985 racing season will be known as the Cayuga County Fairgrounds Speedway.

At the same time, it has announced that a special series of Thursday night racing programs will be unveiled in 1985, starting June 20th. The Thursday night racing programs will not include modified stock cars but instead the very popular 3 and 4-wheelers, mini-sprints and go-karts. Thursday night programs will run thru August 29th.

DAYTONA BEACH, Fla. — For six straight years, Waddell Wilson has had the fastest car in the Daytona 500 field.

But many people are wondering if he's about to lose his title as the man who builds the most powerful engines on the NASCAR Winston Cup circuit.

"But I am confident that there is a good possibility we can sit on the front row again."

The inside front row position for the Feb. 17 event at Daytona International Speedway is reserved for the fastest qualifier for the 500, a spot Wilson's cars have owned for five of the last six years.

The only reason that Wilson is not six for six is a wild flip Yarborough took in 1983 during his second of two qualifying laps in the Wilson-powered Chevrolet. Yarborough had just run 200.508 miles per hour, the fastest lap ever turned at the high-speed, 2.5-mile track. But when he attempted to better that speed, a gust of wind got underneath the car and sent Yarborough somersaulting.

Yarborough escaped unhurt, but the car was destroyed, forcing the three-time Winston Cup champion to qualify another car for the Daytona 500. He won the race in the "back-up" car.

He came back in 1984 to win the pole position with a record speed of 201.848 mph. And he also won the 500 for a second straight time in the Chevrolet Monte Carlo SS.

Under normal conditions, Wilson and Yarborough would be the odds-on choice to again capture the No. 1 starting position when qualifying for the \$1.2 million event begins at 2 p.m. on Saturday, Feb. 9. But last Sept., the Hardee's team decided to switch from a Chevrolet to a Ford.

"It's going to be extremely difficult to win the pole again," says Wilson. "We are still a little behind in horsepower compared with the Chevrolet. But that's not surprising, we had 10 years of experience with the Chevrolet."

"Plus a lot of other teams have caught up and now there are a lot of cars running over 200. Any one of 10 teams could win the pole. The difference between first and 10th is only going to

be a tick or two on that second hand." Yarborough's fast lap a year ago at Daytona was turned in 44.588 seconds. "You are going to see a lot of cars in that 44-second bracket this time," adds Wilson.

Wilson lists Bill Elliott, Neil Bonnett, Geoff Bodine, Darrell Waltrip and defending Winston Cup champion Terry Labonte as the drivers with the best chance at keeping his Hardee's team from winning another pole position.

While Wilson and Yarborough aren't as confident about having the fastest car at Daytona as they had been the past two years, neither one is ready to give the title away.

"Our goal is always to be the first or fastest," says Wilson. "If it's going to take 203 or more to win the pole, we want to be the first to run that fast. And we think we have a good shot at it. But so do eight or 10 others."

"It would make all of us feel good to win the pole again in our first time with the Ford. That would be an accomplishment that would make all of us proud."

Yarborough agrees "that no one is favored this year. The competition is just too tight. But our test at Daytona (in mid-January) went very well. We didn't run as well as Bill. But we ran well enough to think we've got an excellent shot at winning the pole and the 500."

"And the 500 is still the key thing. With the million dollars that Winston has put up, the 500 is even more important than ever to win. The guy who wins the Daytona 500 is going to be in the driver's seat as far as that million dollars is concerned."

R.J. Reynolds Tobacco Co., sponsor of the NASCAR Winston Cup Series since 1971, will pay one million dollars to any driver who can win three of the four crown jewels of stock car racing — the Daytona 500, the Winston 500, the World 600 and the Southern 500.

"It can be done," adds Yarborough, who came within 18 laps of accomplishing the feat last year. He won the Daytona 500 and the Winston 500 and was leading the World 600 when a blown engine sidelined him just 18 laps from the finish of the world's longest stock car racing.

"I almost did it last year, and I sure hope I can do it this year."

\*\*\*\*\*

WINSTON-SALEM, N.C. — Under a new point fund structure announced by the R.J. Reynolds Tobacco Co., the 1985 American Motocyclist Association (AMA) Camel Pro Series champion will receive a record point fund bonus of \$40,000.

Under the revised structure, the entire \$175,000 will be distributed based on final series standings.

A fund of \$140,000 will be divided among the top 10 riders in the final Camel Pro standings. An additional \$35,000 will be shared by the top five riders in the series' eight Formula I road race nationals.

\*\*\*\*\*

GREENWICH, CT — "It Satisfies" and "A Pinch Is All It Takes" will be familiar slogans at 1985 World of Outlaws sprint car races as U.S. Tobacco Company will return for its third season of participation in the country's richest short track auto racing series. U.S. Tobacco's 1985 World of Outlaws efforts will be named the "Copenhagen/Skoal Shootout."

\*\*\*\*\*

RICHARDSON, TX — A 12.5 percent increase in World of Outlaws Copenhagen/Skoal Shootout sprint car purses will result in the richest short track auto racing season in history. For the 1985 season, one-day purses will total \$22,500 with the two-day minimum set at \$45,000. Three-day programs will offer minimum purses of \$68,000.

## North Carolina Motor Speedway

ROCKINGHAM, N.C. — The cast of characters has been set for the 20th staging of the Carolina 500 March 3 with all of NASCAR's leading stars filing entries for the Winston Cup Grand National event which offers a North Carolina Motor Speedway record purse of \$353,440.

Ford drivers Cale Yarborough and Dick Brooks were among the more recent entries that signified a complete list of players for the continuing conflict for supremacy on the Winston Cup circuit between drivers of FoMoCo and GM products.

The Carolina 500 will be the first superspeedway outing in the Carolinas-Virginia-Eastern Seaboard area following the season opener at Daytona Beach, Fla., and will bring to the fore initial tests of handling and close-quarter racing that will be so vital to championship contenders over the 30-race schedule.

Yarborough and Brooks join Bill Elliott, Ricky Rudd, Kyle Petty, and

rookie Ken Schrader in Ford Thunderbirds that will challenge the likes of Terry Labonte, Darrell Waltrip, Neil Bonnett, Dale Earnhardt, Harry Gant, Joe Ruttman and Geoff Bodine in Chevrolets, Richard Petty, Tim Richmond, Lake Speed and Rusty Wallace in Pontiacs, Buddy Baker and Dave Marcis in Oldsmobiles and Bobby Allison in a Buick.

NCMS' first racing weekend of the year will feature a tripleheader including the Union 76/Rockingham Pit Crew Championship race Saturday at 11:30 a.m., and the Komfort Koach 200-mile Late Model Sportsman feature at 1:30 p.m. as a followup. The Carolina 500 is set for 12 noon Sunday.

Busch time trials open the week's activity at 2:30 p.m. with the fastest 20 earning starting positions in the Carolina 500, richest ever for a one-mile superspeedway. The final spots for the 40-car field will be filled Friday followed by Late Model Sportsman qualifying.

11th place to second place in the Busch Clash February 10 clearly excited the thousands of fans at Daytona International Speedway. And when he pushed the No. 44 Piedmont Airlines Chevrolet into first place on the fourth lap — just in time to win \$5,000 for leading lap number five — the Quiet Texan got another standing ovation.

"The crew told me after the race that I was pretty popular today," Labonte said after sweeping the \$50,000 for winning the Clash and \$15,000 in bonus money for leading laps five, 10 and 15. "All drivers like fan support and I especially appreciate it because I'm not the most flamboyant driver on the circuit."

What Labonte is is one of the most skilled drivers in NASCAR today. His four career wins, excluding the Clash, since he started driving the full Winston Cup schedule in 1979 belie a consistency in driving that shows it's just a matter of time before more of his high finishes become victories.

Last year alone, Labonte won two

## Firewood available from State Forest

The Delaware Forest Service, State Department of Agriculture, is offering firewood for state residents interested in cutting their own fuel from state forestland.

Beginning February 15, 1985, state residents may obtain a permit to cut firewood for their own personal use at Redden State Forest near Georgetown.

The permits cost \$5, and may be obtained between 8:00 a.m.-4:30 p.m., Monday through Friday, at the Redden State Forest Office.

According to Deputy State Forester Timothy Kaden, 90% of the trees are hardwood. Most of the trees are already down, although a few are standing.

Kaden recommends the use of 4-wheel drive vehicles in the area being cut.

The wood may be cut at the permit holder's leisure, although permits are only available during regular business hours. Cutting will be permitted until May 15, 1985.

For more information, contact the Forest Service at 800-282-8685.

## Short and Harpster shine in "Mattress"

by Phillip Kensington

Over the past six years, director Curtis Stickel has used seniors in major roles in the theatre productions he has produced at Lake Forest. This year that has changed. Six of the nine major characters are played by juniors. Two of the juniors with the larger of these roles are Shawn Short and Leslie Harpster.

Shawn Short, in his first year of involvement in theatre, has the main male role of Prince Dauntless the Drab in Lake Forest's *Once Upon A Mattress*. Dauntless is a comic character dominated, as is everyone else in the kingdom, by Queen Aggravain, his mother. This is the story of the princess and the pea made into a musical comedy. Dauntless wants to marry Princess Winnifred, played by Bambi Biggs, but his bully of a mother, played by Linda Lee, wants to prevent the marriage.

"Dauntless is so spoiled and is a bit of a wimp," says Shawn. "The comedy that comes from this part of his character is fun to do. But Dauntless is fun to play also because there is a lot more to him. He is royal at times, and he is also a man in love. This adds more to the role than just getting laughs."

Dauntless sings in five songs and does quite a bit of dancing. Though Shawn enjoys the challenges of the acting, it is the singing and dancing that he prefers. "There seems to be more pressure during the acting, but the singing and dancing of Dauntless are totally fun. I get to ham it up a lot."

Leslie Harpster plays the female romantic lead, that of Lady Larken. Larken's problem is that she wants to marry the knight Sir Harry, played by Ken Hutchins, but no one in the kingdom is allowed to get married until Dauntless is wed. So, she, too, must plot against the Queen.

Leslie enjoys her role because the character has much of her own personality in it. She also likes it because Larken is the stronger of the two romantic parts. "Larken takes action in order to be allowed to marry the man

she loves. She does not just accept her fate."

Leslie also enjoys the singing the best. "I see music as perhaps the best way to express myself. The songs that Larken sings are beautiful and a real pleasure to sing."

Leslie is just the person to sing those beautiful songs. Her director says she has "one of the finest soprano voices" he has ever heard. "Last year Leslie, as a sophomore, gave a strong challenge to Pam Kreer for the lead role of Reno Sweeney in *Anything Goes*. She ended up playing one of Reno's angels, so the audience did not get the pleasure of hearing her voice in solo."

Members of Asbury Church in Harrington have had that pleasure. Leslie is the first soprano in that church's choir. She is also a member of the high school chorus and plays alto sax in the band. In addition, she is a student in the high school's theatre class and performed in the Christmas production last December. She wants to attend college and major in the performing arts.

Mr. Stickel has high praise for both Shawn and Leslie. "Usually, it is the seniors who set the examples, who lead the way for the younger performers during the tedious rehearsal period. This year, though, it has been primarily juniors who have taken charge, and Shawn and Leslie have been entirely solid in their dedication and determination. They have been true leaders, and it has been a pleasure working with both of them."

*Once Upon A Mattress* opens on Thursday night, March 7, at 7:00 p.m. in the high school auditorium. It will begin at 8:00 p.m. on the nights of March 8 and 9. The price of tickets is \$3 for adults and \$2 for students. The Thursday night show has a special price of \$1 for children 14 and under when accompanied by an adult. Tickets may be purchased at the door or may be ordered in advance by calling the high school at 284-9291.

"Stuffy office syndrome" or indoor air pollution, such as tobacco smoke, formaldehyde from building insulation, and bacteria, affects the well being of countless American workers. According to researchers at the University of Wisconsin, constant exposure to dusts, gases, vapors and allergens in tightly sealed buildings causes employees to complain of eye, nose and throat irritations, headaches, skin rashes, fatigue and stress, not to mention, perhaps the "Monday morning blues."

## Selecting Silverware is a His and Her Task Today

It's a family affair now — choosing just the right silverware pattern for the new household, surveys of newlyweds reveal. Dad might have felt out of place selecting silverware and china patterns with Mom, but times have changed and today's groom is just as interested as his wife when it comes to choosing tableware that will grace their home in the years ahead.

While women may be looking for a graceful silverware pattern that looks attractive with their china and nappery, the men tend to select utensils that feel comfortable in the hand.

Traditional, contemporary and modern patterns give young couples a wide range of choice, whether it be in sterling, silver plate or stainless.

Couples may choose six, five or four pieces to their place settings, but the experts advise that eight place settings are most desirable for the average young couple.

Best advice to those who choose sterling is — use it. Daily washing in hot sudsy water with an occasional silver polishing every month or so is all that is necessary. Rotate the pieces so all get equal wear to build up the patina on the silver.

Silverplate is cared for much as sterling, and of course, stainless is the easiest to care for. Don't use silver cleaner on stainless just wash it in hot sudsy water and follow with a hot water rinse and dry immediately to prevent spotting.

## Second Marriages & Second-hand Syndrome

Second time arounders. Those men and women who marry again — often find that although love may be love, the second time around, it can also be fraught with residual ties from the first marriage that can bring problems, reports psychologist Dr. Florence Rhyn Serlin, consultant to the Jewelry Industry Council.

Sometimes it is not so much the monumental problems the couple must face and usually make a point to surmount (such as the 'your kids, my kids' complication) but the little less important issues that cause the trouble, Dr. Serlin says.

It could be something as innocuous as household effects from a former marriage, she declares.

"That fine set of monogrammed sterling silverware may serve as mute testimony to the second-time bride that someone else was there before her — someone whom her new husband once cared for very much, and who was very important to him at that time," she observes.

For a case in point, Kathy married Tom, a widower who had lost his wife whom he had been happily married to for some dozen blissful years. Although several years had passed before he met and married Kathy following his first wife's death, there were many poignant reminders of Alice remaining in his life — not the least of which was his daughter Debbie.

Kathy could cope with old friends of Tom's who remembered Alice and spoke of her, and she even managed to win the affection and acceptance of Tom's young daughter. But it was the reality of facing daily life in an environment that reflected Alice's personality that bothered Kathy. Setting the table with the same sterling and china that the former wife had selected and used caused Kathy no little consternation.

Kathy was well aware that Tom was a sentimentalist and would balk at discarding Alice's possessions. But it was this same gentleness and sentimentality that had attracted her to

Tom in the first place she realized. She couldn't very well expect him to change his basic nature over night, nor would she want him to.

"Give Tom a graceful out," the psychologist urged Kathy. The ideal solution was that Kathy carefully pack away the silverware and told Tom: "It is such a pretty set, and it is something Debbie's mother selected. I think we should set it aside for Debbie, so that when she marries, she will have something of her mother's to start off her new life."

Needless to say, Tom was touched by Kathy's sensitivity and caring, and wasn't at all put out when Kathy replaced the family silver with patterns of her own choosing. It also was an indication to Debbie that Kathy was not trying to take her mother's place, but rather wanting to preserve her memory.

What can one do in the case of the woman who marries a divorced man who for whatever reason may be still sentimental about his first wife and her possessions which he may retain?

In that case, says Dr. Serlin, it may be wiser to acknowledge the state of affairs, and discreetly put the articles in the back of the closet until time enough has elapsed so that she can build her own set of happy memories with her new husband. Then, at a later date, she can deal with discarding or giving away the items.

The best rule of thumb for the second-time spouse who wishes to replace a new mate's belongings from another marriage (and it can be a husband who wishes to get rid of his new wife's possessions from her former marriage as well) is to offer concrete rather than abstract alternatives, Dr. Serlin notes.

"You may like more modern designs, but the silver or crystal and china you have 'inherited' is very ornate or too richly embellished for your tastes. Your new husband may like the pattern or, more than likely, have come to accept it. Rather than declare flatly that you want to get rid of it, take your mate to the store and

look at new designs and patterns. With the wealth of designs available today, there is sure to be one that you both can agree upon," she says.

Of course, getting rid of the furnishings of a first marriage isn't always an easy task. The mate who came with the furnishings may feel that in today's tight economy, this is no time to toss out perfectly usable items. If he or she is also sentimentally attached to the belongings, attempts to replace them may seem not only destructive, but callous.

How to resolve the problem? Dr. Serlin suggests that you lay it on the line with your partner. Explain that having these personal reminders of your mate's close involvement with a former love and of a part of his or her life that you never shared is painful and troubling. "When you approach it in this fashion," says the psychologist, "you are flattering, not challenging your spouse."

"Involve your man in selecting the new furnishings," advises Dr. Serlin. "No longer are things that pertain to the home considered to be strictly in the woman's province."

But what to do when economics pose a problem for replacing that service for 12 or the crystal and china?

"Start out with a service for two or four, and gradually add pieces," suggests Dr. Serlin. "It is not necessary to replace everything immediately. You have time, and by doing so gradually, you get your mate used to the new items and you are not creating an impossible burden for your budget."

Expenses and sensitivities notwithstanding, Dr. Serlin says there is reasonableness in a new wife's wanting everything in her home to be a reflection of her new relationship. This applies to items inherited from a spouse's parents as well as a former mate. And, although sentimental attachment has to be considered, it should not take precedence over the need for one's home to express the new beginning. †

## Diamonds Through the Ages

The beauty of one of the world's most precious gems—the diamond—has captivated kings, queens, nobility and other celebrated gift-givers through the centuries.

The Koh-i-noor is probably the best known of all diamond gems. There is a tradition that it was taken in 1804 from the Rajah of Malwa, in India, whose family had held it for centuries. It is believed to have been guarded with other treasures at Delhi until 1789, when it was carried off by Nadir Shah of Persia, and eventually presented to Queen Victoria of England, in 1850. It weighed 186 carats. Today, recut to 108.93 carats, it is among the English crown jewels.

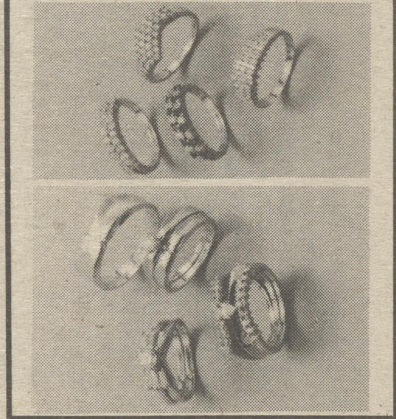

The Great Mogul was the largest Indian diamond known. The rough stone weighed 817 carats, but in expert cutting reduced it to 287½ carats. The Orloof, now part of the Soviet diamond treasury, was one of the Russian crown

### The Many Colors of Gold

Did you know...gold, which is yellow in its natural state, can be magically transformed into multi-hued elegance

when mixed with other metals or alloys. Alloys strengthen and harden the precious metal for a lifetime of wear and also create subtle color

jewels. Legend says that it was one of the eyes of the Hindu god SRI-RANGA in a Temple in SIRANGEM. It was eventually sold to Count Orloof, once a favorite of Catherine the Great and presented to the Queen. As cut, the stone weighs 199.8 carats. The celebrated Regent, or Pitt

Diamond, which weighed 410 carats in the rough, was found in India in 1701 and later purchased by Sir Thomas Pitt, who sold it to the French crown. Later, Napoleon had it set in his sword hilt.

The diamond is first known to have found its place in an engagement ring in 1477. Maximilian of Austria had asked his advisors for help in choosing a proper engagement ring for his betrothed, Mary of Burgundy. Their advice: "Give her a diamond."

The diamond has since remained the symbol of betrothal for many reasons. Its very name—from the Greek *adamas*, meaning—suggests the triumph and eternity of love. Like the passion of love, some say, it "sends forth a flame without the aid of fire."

The gift of a diamond—it's a tradition, many agree, that should be as eternal as the gem itself.

## Newlyweds Get Help With Cleaning Chores

Wedding bands are not the only rings newlyweds acquire after exchanging "I do's." On the other side of the threshold lie grimy rings in bathtubs and sinks, water rings on the coffee table and rings around collars, to name but a few.

Newlyweds can run rings around each other trying to keep up with such endless household chores while, in many instances, managing separate jobs, unless an orderly cleaning program is established.

Although cleaning is not the most enjoyable way to spend time together, it need not dishhearten happy honeymooners if they heed the following cleaning advice from Bon Ami. This "good friend," who has helped keep homes clean and shining since 1886, suggests:

- To eliminate rings around stainless steel or porcelain sinks and tubs, gently scrub with the mildly abrasive cleaner Bon Ami. It actually polishes surfaces as it cleans and contains no polluting or noxious chemicals.
- For rings on carpeting or upholstery, pour a little club soda on the spot, let it set and sponge up the excess. Shaving cream is also a good spot remover.

## Shower Them With Gifts, But Make Them Practical

What to give a couple for their bridal shower has always been a problem.

Here are some simple rules to remember when shopping for bridal shower gifts.

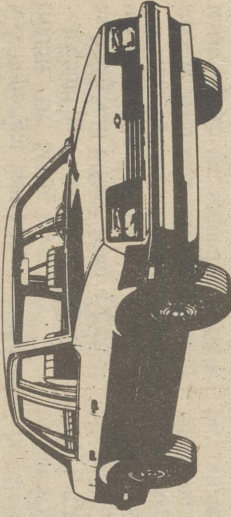

1. Don't select anything in a color that might not go with the decor. Neutral shades are best for towels or tablecloths, unless you know the couple's color scheme for their new home.
2. Unless you know precisely that type of bed they'll have, don't select bed linens.
3. Don't buy anything that comes in sizes. Curtains, for example, make poor gifts.
4. Don't select a gift that can only be used by either the bride or the groom.
5. Most shower gifts should be practical gifts, items that can be used frequently.
6. Don't select holiday gifts such as Christmas figurines. Make a marriage a little easier on your newlywed friends with a handy appliance that takes over some time-consuming job.

## Choosing Your Flowers

Here are a few aspects to consider when you choose the flowers for your wedding:

The size and the kind of room you plan to decorate. A lavishly furnished room requires fewer flowers than a small bare room. The basic color scheme you have used throughout your wedding. Your flowers should coordinate somehow with the colors and style of the clothes for your wedding party. The time of year in which you plan to get married. Find out from your florist what kinds of flowers will remain fresh the longest at that time of year. You don't want your blooms to wilt halfway through the ceremony!

The kind of lighting — natural or artificial — that will characterize your wedding. This affects how your flowers will look and how long they'll stay fresh.

## Dual Purpose Furnishings

Chances are that living quarters for you, the new Mr. and Mrs., will be rather small, perhaps even as cramped as a single apartment, while you save or look for that dream home.

If space is at a premium in your new home, experts agree that you should consider furnishing it with items that are dual-purpose.

Fortunately, there are many furnishings now available that help solve space problems, efficiently and fashionably.

Sleep-sofas, for instance, provide attractive seating while entertaining, convert into comfortable beds when guests depart.

Modular wall shelves, drawers, and cabinets provide a smart solution to storage problems when you're cramped for space. These units have the added advantage of being adaptable to any room. What may serve as a decorative storage system in your living room today, may be put to use in the bedroom of your future home.

*A Master of a house [as I have read], must be the first man up, and last man in bed.*

*With the sun rising, he must walk his grounds; see this, view that, and all the other bounds;*

*Shut every gate; mend every hedge that's torne, either with old, or plant therein new thorne;*

*Tread o'er his glebe, but with such care, that where, he sets his foot, he leaves rich compost there.*

tinge of color, inclusions lessen a diamond's value but seldom detract from the beauty.

**Carat**, of course, is the measure of the weight of the diamond. A carat equals 1/142nd of an ounce, or two hundred milligrams. Each carat is divided into 100 points, thus a 1/2 carat diamond weighs 50 points. The word "carat" comes from the carob seed which was so uniform in weight that it was used to weigh diamonds. If there are one large and several smaller stones in a ring, ask your jeweler for the exact weight of the major stone, rather than total carat weight. Every point affects value.

Receiving a diamond engagement ring is a very important event in a woman's life. It should be totally enjoyable. Knowing a little about the beautiful merchandise is one way to make this memorable occasion everything it should be.

## Videotaping Captures the Special Moments

The traditional wedding scene has changed little over the years. Besides the bride and groom, it usually includes the church or hall, guests, clergyman or justice of the peace and the in-famous photographer clicking away during the ceremony.

Today, however, many weddings include a relative newcomer — a videographer. That's a person who videotapes the proceedings. And with portable home video gear it's easy enough for almost anyone to do.

### Not Obtrusive

"Today's portable video decks and cameras are lightweight, easy to use, quiet and require no special lighting," says Richard B. Williams, marketing manager for General Electric's Video Products Division. "As a result, it's a perfect way to capture the 'live' feel of a wedding without being obtrusive."

Previously, the only means of capturing the "live" feeling of a wedding was with a home movie camera. But home movies were never really practical for events like weddings, Williams comments.

"Filming a home movie during a wedding ceremony tends to be disruptive because it requires additional lighting, and the camera itself can be noisy," he says.

Aside from weddings, portable video equipment is perfect for recording everything from vacation highlights to the kids' little league games.

### Cost Comparison

But what about cost? True, a video camera and VCR are more expensive than a movie camera and projector. But in the long run, savings from video can be substantial compared to movie film.

A study by the GE Video Products Division estimates that six hours of home movie film, including processing, can run between \$1,200 and \$1,400. And the user must find room to store about 120 cans of 80-foot film. One six-hour videotape cassette, on the other hand, costs an average of only \$15 to \$18. And it can be reused indefinitely, if desired.

Today's video equipment also has features never found on conventional home movie equipment. Such features as auto-focus, one-button record, push-button record, push-button zoom and a character generator (to put titles right on the tape) help make home videotapes look professional, even with an amateur operating the camera.

### Bright, Sharp Images

A new GE video camera offers super-sensitivity that produces bright, sharp

color images whether shooting in sunlight outside the church or in low lighting in the reception hall. And, its small size and light weight make the camera an easy tag-along for the honeymoon trip.

And, as videotape continues to increase in popularity, the videographer will become more and more common at weddings, and other special occasions, capturing precise memories that will be relived for a lifetime.

If the cost of purchasing video equipment is too expensive, there are many videographers in business today that would be willing to videotape your wedding at a fraction of the cost.

# Beauty Strategies for the Bridal Party

According to ancient Anglo-Saxon custom, proper protocol called for the maid-of-honor to fashion the bride's wedding wreath as well as remain with her for a number of days prior to the nuptials, tending to her needs and finally, making her beautiful for the special day. It was the bridesmaids' duty to stand guard over the bride during the night preceding her presentation to the groom, protecting her from those who might entertain the idea of capturing the maiden for ransom.

Fortunately, being a bridal attendant no longer carries the awesome responsibilities it once did. Today, the maid-of-honor and bridesmaids are on hand to give the bride moral support and to help her look her best. Why not start that effort weeks before the wedding with a special beauty clinic for the bride that will help prepare her and her attendants for the upcoming event?

Set aside an afternoon or evening to objectively evaluate one another's beauty highs and lows. The check points — hair, skin, makeup, nails. Consider it a rehearsal, since creating special makeup and hairstyle looks now will make it easier to duplicate them the day of the wedding, minimizing those inevitable last minute jitters.

Undoubtedly, the way a bride wears her hair will help create that special image. Today's most important beauty trend is wavy and curly hairstyles, which also look best with bridal headpieces. An easy, quick way to achieve them and add volume and movement is with a perm. Today's home permanents are so advanced that you can get professional salon results at home for a fraction of the cost. Perms offer a variety of formulas specially developed for specific hair types (hard, normal, or easy to curl) as well as for the amount of curl desired, so that everyone in the bridal party can get the look she wants, be it a head full of curls or a body wave.

Now is the time to get your skin into excellent condition. There are a number of ways to deep-cleanse for that healthy, clear complexion: a beauty scrub, masque or a steamed towel will do the trick. Have everyone select a scrub or masque formulation that is right for her particular skin type. If you're using a steamed towel, spray it lightly with your favorite scent for added luxury as you relax for 15-20 minutes. Follow with a toner and moisturizer suited to your skins particular needs.

How you choose and apply your makeup can make the difference between

# Bridegroom's Guide to Getting to the Church on Time

- Buy engagement ring.
- Draw up wedding guest list and have your family make out theirs. Indicate who should be seated in reserved pews.
- Invite friends to be best man and ushers in the wedding.
- Visit the formal wear specialist with your bride and select outfits for you and the men.
- Choose gifts for the best man and ushers, to be given at the bachelor dinner or wedding rehearsal.
- Choose bride's wedding present. Something personal, such as a watch or other piece of fine jewelry is traditional.
- Select the wedding ring. This is chosen with the bride and should be engraved on the inside — "D.L.P. to C.J.R." — with the groom's initials first and the date.
- Plan the honeymoon. This should be done with the bride, in time to assure getting reservations.
- The bride's bouquet? Traditionally, the groom pays for the bride's bouquet, going-away corsage, corsages for both mothers and other close women relatives on either side, plus boutonnières for himself and the men.
- Get the marriage license. Check state rules about the time required. In Delaware it should be obtained 10-14 days before the wedding, and given to the best man the day of the wedding.
- Check to be certain you and the bride have all the necessary papers, blood tests (no blood test is required in Delaware), birth certificates, baptismal certificates, etc.
- Make insurance provisions for your new status. This should include life, personal property, household, and fire insurance for you and your bride.
- Give bachelor dinner several days before the wedding. Often the best man and ushers prefer to give this for the groom.

- Notify your attendants of the hour and place for the wedding rehearsal to take part in.
- Provide the clergyman's fee which is given to the best man the day of the wedding either in the form of crisp bills or a check in a white envelope. The fee is generally \$10 to \$50 or more, depending on custom, size of wedding, and groom's circumstances.
- Be sure you and your bride sign the wedding certificate and see that it is safely put away before leaving on your honeymoon.

### THE BEST MAN SHOULD:

- Take charge of the ushers, brief them on special seating arrangements during the rehearsal.
- Get the wedding ring and guard it with your life the day of the wedding. If there's a ring bearer, the best man sees that he carries out his instructions properly.
- Have marriage license and minister's fee for the day of the wedding.
- Help the groom get ready for the wedding, making sure that his bags are packed. The best man usually takes the luggage of both bride and groom.
- Check for tickets, reservations, train connections, etc. for the honeymoon and be sure tickets are in the groom's pocket.
- Call for and accompany the groom to the wedding. They should be there at least fifteen minutes before the ceremony begins. The best man may choose to present the clergyman's fees during this waiting time, or just after the ceremony. Following the ceremony, he sees that the members of the wedding party leave in the proper cars.
- Be toastmaster and timekeeper at the bridal table during the reception. Help couple get away.

## Getting Ready: The Bride's Checklist

The smart bride will schedule a timetable for herself — to make sure everything goes as planned as she looks her loveliest on her wedding day.

### THE WEEK BEFORE

First, gather everything together — clothing, jewelry, cosmetics, beauty needs. Most brides are too excited on their big day to go hunting for that stray lipstick or hairsetter, so it's wise to have those things in a prearranged place. Keep them in a separate place just for that day.

Next, set aside a day to give yourself a wedding day dress rehearsal. Time yourself. See how long it takes to apply your makeup, set your hair.

Get the feel of your wedding dress — walk around in it, sit down in it, learn how to manage the train and those billowing sleeves.

And don't forget to break in your wedding shoes. Wear them for a few minutes every day, and be sure to practice climbing up and down stairs. After all, you wouldn't want the fun of the receiving line to be spoiled by pinched toes and aching arches! You've probably gathered your wedding outfit together already for the final fitting of your dress, or for your bridal portrait. But now's the time to double-check every last detail.

Do you need a firmer bra, a smoother slip, dress shields? Would small earrings be more delicate? Is your makeup flattering in all kinds of light? It's nice to know you've still got the time to make any changes!

Sometime during this last week, give yourself a head-to-toe beauty workover. Tweeze your eyebrows, shave your legs and underarms, get a manicure and pedicure. And for a truly radiant wedding glow, eat a well-balanced diet and keep up on eight hours of sleep a night!

### IT'S YOUR WEDDING DAY!

- Start the day off in a warm, scented bath or refreshing shower.
- Smooth on body lotion, use deodorant and talc.
- Apply fragrance to pulse points — temples, in front of ears, inside wrists, in your cleavage.
- Get your hair done at a salon. Or give yourself a shampoo and set at home. (Again, don't use any shampoo, creme rinse or conditioner that you haven't tried before.)
- Touch up your manicure and pedicure.
- Snack on a light meal — tea and crackers, a small sandwich, yogurt.
- Lie down and relax for 30 minutes.
- Wash and moisturize your face.
- Apply your makeup — foundation, blusher, eyeshadow, mascara.
- Get into your dress.
- Put on your earrings and necklace (always after you've dressed, so they won't snag), switch your engagement ring to your right hand.
- Step into your shoes.
- Put the finishing touches on your hair.
- Attach your headpiece (have mother help).
- Cover your dress and apply lipstick, gloss.
- Dust a little powder on your face.
- Sprinkle on a few more drops of scent.
- Take your flowers and smile — it's your day!

## The Invitations to Your Wedding

Choosing the right invitation style for your wedding is among the most important tasks a couple must undertake before their wedding.

Order invitations three months before your wedding day to allow time for printing, addressing, and mailing. Be sure to request a sample check for mistakes before your order is printed.

Inviting your favorite people to celebrate your wedding is a big part of the day's fun. If you're having a large wedding (100 or more guests) you'll want to send formal wedding invitations.

Word formal invitations the traditional way. And do write out what you want before you order. Or ask your printer to show you personalized versions. If all your guests are being invited to both ceremony and reception, consider the "combination" invitation, below:

*Mr. and Mrs. John Sampson  
request the honor of your presence  
at the Marriage of their Daughter  
Teresa Dawn  
to*

*Mr. Darrell Charles Tucker  
on Saturday, the Fourth of August  
at Four O'Clock*

*St. James Church  
Mt. Prospect, Illinois  
and Afterwards  
at Old Orchard Country Club*

Request replies with an R.S.V.P., Kindly Respond, or Please Respond in the lower left corner, and make it easy for guests to mail them. Printed reply cards do make it easy for guests.

Spell out everything on formal invitations — the wedding date, time, and all numerals, and names. No abbreviations, initials or nicknames are used — except Mr., Mrs., and Jr. Traditionally, only the bride's first and middle names are printed. But if you're a doctor or military officer, you can add your title and full name below the phrase, their daughter. You may or may not want to add Mr. before your fiancé's name.

Begin your invitations with the name of the person(s) sponsoring the wedding. The name at the top of an invitation is not supposed to tell your guests who's paying the bills, so whether you live at home or not, your parents' names should head the invitation. You might also include the groom's parents' names

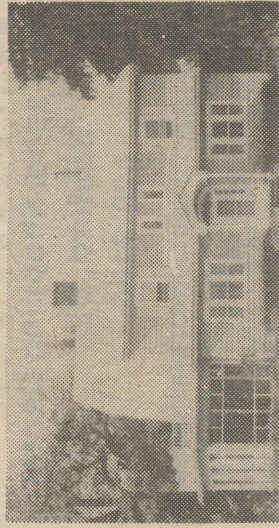

below his on the invitation.....John North Fleming - son of - Mr. and Mrs. Robert Fleming.....if your parents are deceased, your guardian, a relative, or a friend can host the wedding. Or you two can be your own sponsors. If your parents are divorced, the parent who raised you usually does the inviting. If that's your mother, and she's remarried, she uses your stepfather's name, inserts the phrase at the marriage of her daughter, then adds your full name. Divorced but friendly parents can issue a joint invitation.

Have your formal invitations printed in black script on the top page of a double sheet of paper in pale ivory or white. It can be paneled or plain. The most popular size, 4 1/4" x 5 1/2" fits into an envelope without folding. A large size, 5 1/4" x 7 1/4" is folded once for mailing. It's for very formal weddings.

Add more "personality" to your invitations by choosing a translucent (parchment perhaps) or shiny paper in a pretty pastel or an earthy tone. Use colorful ink, or even a photograph of the two of you.

## The ABC's of Selecting Your Diamond Ring are "Four C's"

The engagement ring is not as easy to select as it is to wear, and though each stone may seem luxurious and elegant to the inexperienced shopper, each diamond is actually different. Because diamonds vary in quality, you should purchase yours from a reputable jeweler who can offer expert advice. But, it is equally essential that you know the "four C's" as they are referred to by jewelers — cut, color, clarity and carat weight which will help you judge the quality of the gem that is to bring you a lifetime of happiness.

**Cut** refers both to the shape of the diamond — be it the popular, round brilliant, the rectangular emerald, pear, heart, oval, or boat-shaped marquise — and to the skill and precision of the cutting. To release maximum brilliance, a diamond must be cut according to strict standards. A full cut diamond has 58 facets: 33 above the girdle or outer edge and 25 below. A perfect cut refers not to the number of facets (that is standard), but to their angles and the proportions of the stone. Believe it or not, diamonds are so hard that it takes several days to cut and polish a one carat stone.

**Color** is thought by some to be the most

important determinant of diamond value. The ideal diamond is crystal clear as a raindrop. But, such stones are rare. Most are tinged with yellow or brown. And, while this tinge might detract from the diamond's value, it usually doesn't diminish the stone's spectacular sparkle. **Clarity** refers to the diamond's internal

quality. A flawless diamond shows no "inclusions" when viewed under ten power magnification. Ninety-nine percent of diamonds over half a carat have some flaws. They range from a tiny white spot to dark carbon spots, nicks, cracks, or cloudy areas. Like a slight

## Say it With Roses

When planning the color scheme for your wedding, keep in mind that each color of rose carries a special meaning. To make a truly memorable wedding, why not plan the color scheme around roses.

According to the Rose Information Bureau, "rose talk" is a trend-setting idea that has its roots in Victorian times, when courtships often were carried on from first blush to the altar with rose bouquets. Happily, this lovely tradition is regaining favor with today's young romantics.

To help you plan your wedding floral arrangements, here are some of the most widely accepted meanings for the most popular bridal rose colors:

Red roses say "I love you," and also stand for respect and courage.

White roses have several meanings, including "You're heavenly," reverence, humility, innocence and purity. They're perfect for young, first-time brides.

Red and white roses together, or white roses with red edges, signify unity.

Pink roses symbolize grace and gentility.

Yellow roses stand for joy and gladness.

Coral or orange roses denote enthusiasm and desire.

Red and yellow blends stand for jovial and happy feelings.

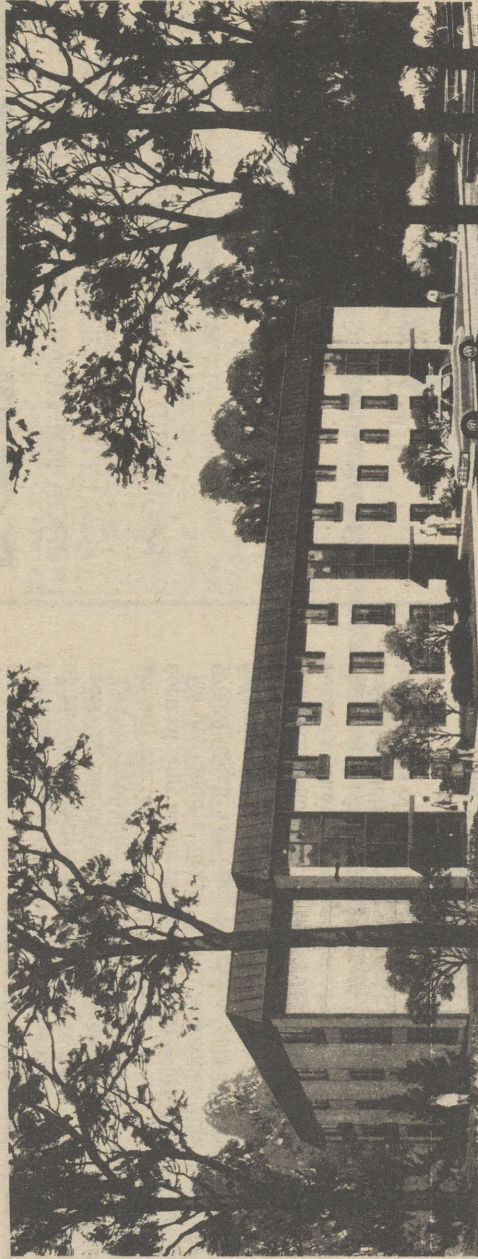

Rosebuds symbolize beauty and youth — perfect for young brides.

# LOVE

Love is giving with no thought of getting. It is tenderness enfolding with strength to protect. It is forgiveness without further thought of the thing forgiven. It is understanding of the thing forgiven. It is understanding of human weakness, with knowledge of the true man shining through. It is quiet in the midst of turmoil. It is trust in God with no thought of self. It is the one altogether lovely, the light in the mother's eyes, the glory in the sacrifice, the quiet assurance of protection.

It is the expectation of our Father's promise coming true. It is the refusal to see anything but good in our fellow man. It is the glory that comes with selflessness and the power that comes with assurance of the Father's love for His children. It is the voice that says "no" to our brother, though "yes" might be more easily said. It is resistance to the world's lust and greed, thus becoming a positive law of annihilation to error.

Love...the one thing no one can take from us....the one thing we can give constantly and become increasingly rich in the giving. Love can take no offense, for it cannot know that which it does not of itself conceive. It cannot hurt or be hurt, for it is the purest reflection of God, GOOD. It is the one eternal, indestructible force for GOOD. It is the will of God, preparing, planning, proposing always what is best for all His universe.

### Select Tableware Patterns With Confidence and Ease

Choosing your china, crystal and silver patterns can be confusing with so many varieties available.

Here are some guidelines to help you avoid major pitfalls.

Select a china pattern first, since china is the focal point of your table and forms the backdrop for whatever you serve. A basic china pattern for the main service and some colorful auxiliary pieces will provide you with enough flexibility to serve a variety of cuisines. White porcelain with a simple gold or silver band is one of the most versatile choices for a service. Soup, salad and dessert can be served in bowls and plates in any number of unusual patterns that you collect as you go along.

A handy rule of thumb: At least one of your choices — china, crystal or silver —

should be a simple pattern. If you choose ornate silver, for example, your crystal will usually look best if it is less elaborate, and your china if it is plain and subdued. Beware of too much simplicity, however; the result can be monotonous.

In coordinating the three patterns, look for some sort of kinship between them, but don't strive for an identical match. Rose-strewn china matched with rose-does not a lovely table make, unless your guests are looking through rose-colored glasses. Instead, pick up just the leaf of a china pattern or perhaps just the feel of a design to make your table inviting.

Silver should be well-balanced and feel Strive for comfort in your selections. good in your hand.

The same holds true for crystal. Pick up

the glasses, pretend you are drinking from them; see whether there is a comfortable balance between bowl and stem. Examine the edges for smooth-etched crystal and rose patterned silver

ness. Finally, don't overlook the effects of table-dressing on the overall appearance of your place-settings. A traditional white damask tablecloth with matching napkins is one choice. But don't ignore the beauty of placemats and coverings in all sorts of materials — mirror, wood, carpet, plexiglass, cork, etc. Colors, too, produce magical effect that will delight your guests.

Following these guidelines, you should be able to select a table of endless beauty and variety that will provide you with many enjoyable meals for years to come.

### Why do Brides.....

Wear orange blossoms? ...for good luck and happiness. It is believed that the orange was the "golden apple" given Jupiter and Juno on their wedding day.

Wear a veil?...This is a reminder of the Egyptian custom forbidding the groom to see the bride's face until the wedding day.

Receive a ring? ...for everlasting love. There are many beliefs about the origin of the ring, but one of the loveliest is this: Primitive man wove a cord and bound it 'round the waist of the woman he loved. He believed her spirit thus entered his body and she was bound to his forever.

## The Tradition of the Wedding Cake

The cake served at wedding receptions is a tradition that stems from the original Roman law decreeing that every couple eat together to be considered legally wed. At one time bread was broken over the bride's head and the crumbs shared by all to extend good fortune.

The best man, in ancient days, acted as chief strategist and accomplice in stealing the bride from her reluctant father's home. At today's weddings, he leads off with the traditional toast to life-long happiness for the bride and groom.

Another lovely custom, that has its roots in Irish tradition, is a toast from the bride and groom thanking family and friends for making the day so memorable.

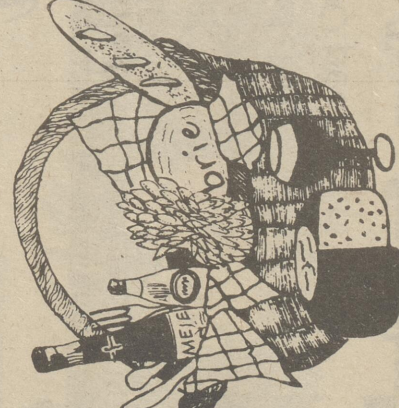

## Beauty Strategies

[Continued from page 6]

looking good and looking great. Try for the overall effect of a romantic, sculpted look—high cheekbones against softly hollowed cheeks and full, sensuous lips. Choose a base that is slightly lighter than your skin tone as perspiration and oils will cause it to darken as the day goes on, and always blend into the hairline and onto your neck. Next, use a darker blush for shadowing and a lighter color high on your cheeks to bring out and brighten your eyes, the expressive focal point of your face, especially for photography. Avoid harsh or vivid colors on the wedding day; instead, choose eyeshadow, lipstick and blush shades of purple and pink for a softer, prettier effect. Add a romantic touch with a mascara in the newest shades of blue and violet. Also, an important, yet often neglected, part of your eyes are the brows. You can make your eyes look more dramatic simply by adding a little fullness, arch or length to the brow with a thin brush. A light dusting of loose powder over your entire face will provide an even matte look that will eliminate shiny photographs. Lastly, pat your face very lightly with a dampened sponge or cotton ball—your makeup will look more natural and stay fresher longer.

Pretty hands and feet will also give you the silky feminine feeling you want on the wedding day, so end your beauty clinic with a relaxing manicure and pedicure. Start by giving each other a hand and foot massage using an effective moisturizer. As you work your treatment lotion into the skin, gently push back the cuticles with an orange stick to prepare your nails for a smoother application of polish. Remember, fingernails are filed to a slightly rounded tip, toenails are filed straight across. Bring swatches of material from your gowns in order to coordinate the right shade of polish. Select a shade slightly darker than your dress to accent it. Apply two coats of polish and follow with a protective clear coat, both on top of and under the nail tips, for the perfect, long-lasting manicure. Finally, one thing to remember on the day of the wedding is to use a gentle but highly effective deodorant, as the excitement and anticipation of the day's festivities may cause you to perspire more heavily.

You'll discover that a bridal beauty clinic will go a long way in giving the bride and her bridesmaids the confidence and radiance they need to face—and enjoy—the big day, relaxed, prepared and, most importantly, looking beautiful.

# Helpful Hints for Brides-to-Be

Best wishes! Wedding days can bring happy memories that you may want to keep alive forever with photographs. How to choose the best photographer for your wedding? How should you prepare for a formal bridal portrait photo session? Here are some tips and suggestions from the experts that may help you look your very best in your wedding photographs, while saving you trouble and money.

- Proper planning is important, so get in touch with your prospective photographer, as soon as you set your wedding date to discuss your wedding photographic coverage, both formal and informal. Make an appointment to visit his studio to see samples of his work and discuss the number of photographs, sizes of prints and other aspects which will determine the final cost.
- Schedule your formal bridal portrait as early as possible before your wedding. Your schedule will be less hectic then, so you will be more relaxed

and able to look your best. It will be one less thing to worry about later.

- If you come to the studio for your bridal portrait, bring the same underclothes you will wear on your wedding day, as well as the shoes, gloves,

necklace, earrings, etc.

- If friends or relatives recommend someone who has pleased them, and this person displays the seal of the Professional Photographers of America, you have double assurance. The symbol means that this photographer subscribes to the Code of Ethics for Wedding Photography. It designates a professional who will be sensitive to your needs and wishes and dedicated to pleasing you with the quality of his work.

- Your hairstyle should complement your wedding gown and headpiece. It should never be extreme or fussy. An extreme or elaborate hair style will draw attention away from your face and will date your portrait.
- No amount of makeup will substitute for plenty of rest. However, do make yourself up several times until you achieve the natural look you want in your color portrait. Eye makeup is a must when you sit for your portrait because eyes without it all but vanish.

# Gifts for the Wedding Party

### For the Maid of Honor

The Maid of Honor's gift should be somewhat more important than that of the bridesmaids. Pearl necklace or bracelet; tailored or stone set necklace, bracelet or earrings. Picture frame; novelty watch; ring.

### For the Bridesmaids

The bridesmaids gifts should all be identical. Bangle bracelet; gold or silver charm; circle pin; pendant; pearl button or stud earrings; fashion jewelry; novelty items such as bon bon dish, demitasse spoons, book mark, purse accessories.

### For the Flower Girl

The flower girl's gift may be something she can use immediately or something which can be reserved for her future, more mature years. Locket; pearl pendant; birthstone ring; bracelet; gold or silver barette.

### For the Best Man

The Best Man, who is the groom's principal attendant, should receive a special gift from the groom. Gold, silver or stone set cuff links and tie tac; gold or silver cigarette case; gold or silver money clip; cigarette lighter; desk accessories.

### For the Ushers

The ushers' gifts, too, should be identical. Belt buckle; gold or silver key rings; pen and pencil set; cuff links; pocket knife; mugs; bar jigger; silver letter opener; I.D. bracelet; wallet.

### For the Page

A gift for the page may be immediately useful or one that can be reserved for his future use, just as the flower girls. Birthstone ring; cuff links; brush and comb set; religious jewelry; pen and pencil set.

The Harrington Journal invites you to submit your wedding, engagement, and anniversary announcements and photographs to be published on the social page.

# Planning Your Honeymoon

Important things to consider about choosing a honeymoon spot are the amount of time and money you have.

Once you choose your destination, it is the groom's responsibility to make hotel reservations. Be sure to keep your deposit receipt as proof of your reservation.

If you are flying, be sure to pick up and immediately check your tickets well in advance of your wedding day. This will allow time in case of error or needed adjustment.

Estimate how much money you will need and purchase travelers' checks. Be sure to allow for shopping, meals, and hotel bills. You might want to add an extra amount for unexpected expenses.

If you plan to use credit cards, make sure they are accepted where you are going. Take small bills for tips. If traveling outside the U.S., check proof of citizenship and customs requirements.

An organized and well-planned honeymoon is sure to be as happy and memorable as the day it follows.

Something old, something new, something borrowed, something blue... ever wonder where many of our wedding customs originated?

If you're planning an old-fashioned wedding, replete with grandmother's dress and the traditional ceremony -- read up on the following customs -- you'll be amazed and amused at the tradition that stands behind each and every wedding ceremony.

### THE BRIDAL SHOWER

At one time, marriage was a business proposition between parents of the bride and groom. Love was not important. What was? The price the groom's family paid for the bride. And the size of the bride's dowry. The first shower? A poor dutch miller fell in love with a maiden whose father forbade the match and refused to provide a dowry. The miller's friend came to the rescue and showered the bride-to-be with enough gifts to start housekeeping.

### THE BRIDE'S HANDKERCHIEF

Early farmers thought a bride's wedding day tears were lucky and brought rain for their crops. Later, a crying bride meant that she'd never shed another tear about her marriage. Why not start your own bridal tradition. Embroider your initials and wedding date on a hanky, then give it to the next woman in your family to marry; she can do the same for another bride. Or maybe even do two hankies -- one for your mother, another for his -- wedding day keepsakes for their tears of joy.

### ATTENDANTS' ATTIRE

Ever notice that the maids, ushers, and entire bridal party dress very much like the bride and groom? It was once common for bride, groom and all their friends to walk together to the church. Afraid that someone -- maybe a rejected suitor -- would spot the happy couple and put a curse on them, the groom's friends wore clothes almost identical to his -- and the women customized themselves like the bride. These "disguises" tricked evil-wishers into letting the real bride and groom live happily ever after. The tradition of having beautifully dressed attendants is still with us. But today it's fine for you to vary the looks.

### OVER THE THRESHOLD

Because ancient man stole his bride, he carried her over the threshold kicking and shouting. Struggling is still a Greek threshold ritual, but no one remembers why. Now for everyone, it's another happy custom!

# Wedding Customs

## BOUQUET AND BOUTONNIERES

Early bridesmaids' bouquets were made of pungent herbs like thyme and garlic -- not flowers. The smell was supposed to scare away any bad fairies eyeing the bridal party. Even the groom wore a few sprigs. Your groom, though, will sport white stephanotis in his lapel, or a flower from your bouquet. And you will carry the traditional flowers. Why not adopt another old idea. Tuck one non-flowering thing in your bridal bouquet to plant -- maybe some myrtle or ivy.

## THE BLUE SATIN GARTER

Why "Something Blue"? In ancient Israel, brides wore a blue ribbon to signify fidelity. The garter-throwing itself derives from a bawdy ritual called "flying the stocking." In Britain the guests invaded the bridal chamber. The ushers grabbed the bride's stockings; the maid's, the groom's. They took turns sitting at the foot of the bed flinging the stocking over their heads. Whoever stocking landed on the bride's or groom's nose would be the next to wed. Now, before you change into your going-away clothes, your groom will remove your garter and you'll toss it -- just after you throw your bouquet, of course. And who's going to be the next groom? The lucky bachelor who catches the garter.

## THE WEDDING RING

The circle shapes symbolizes eternal love. But in ancient Egypt before coins were minted, gold rings were used as currency. To show he trusted his wife placed one of these rings on her finger. The ancients thought that love traveled to the heart in the vein of the third finger, left hand -- just where you'll wear your ring.

## TOSSING RICE

In the days when people lived off the land, their existence depended upon

having a good harvest and enough children to help with all the work. Primitive people believed the bride and groom spread good luck on their wedding day. Anyone or anything that touched them would also be lucky. So they showered the couple with ripe grain or nuts, wishing a large harvest for themselves -- and a large family for the newlyweds. Wedding guests still throw rice -- wheat, rose petals, confetti, too. Surprise your guests with individual packets of birdseed as favors. They'll have fun throwing it. The birds and chipmunks will enjoy eating it!

## THE HONEYMOON

The first marriages were by capture, not choice. When early man felt it was time to take a bride, he carried off an unwilling woman to a secret place where relatives wouldn't find them. While the moon went through all of its phases -- about 30 days -- they hid from the searchers and drank brew from honey. Hence we get the word honeymoon, now meaning a romantic trip like the one for you and your groom will take after your wedding.

## THE WEDDING CAKE

Early Roman brides and grooms weren't legally wed until they ate together. A priest broke a flat wheat loaf over the bride's head. Then everyone shared the crumbs. Why? It's the old belief of passing luck and fertility back and forth between newlyweds and guests. Elizabethans piled up little cakes, over which bride and groom had to kiss without the stack falling. When it did, the guests pelted them with the cakes, then ate the pieces. The modern tiered wedding cake came into existence when a very creative baker decided to ice the stack of cake. Now the cake -- and something wonderfully bubbly to toast with -- are the only two ingredients required to make a wedding reception....a wedding reception.

# A "Love & Marriage" Toast

Here's to you!

*May your hands be forever clasped in friendship and your hearts joined forever in love.*

*Let's drink to love, which equals nothing--unless it's divided by two!*

*Here's to our favorite new couple; May all your troubles be little ones.*

*May your joys be as deep as the ocean --and your sorrows as light as its foam.*

*I have known many, Liked a few, Loved but one--*

# Wedding Costs

The bridal couple always receives best wishes and congratulations. The father of the bride always receives sympathy and tea, or maybe something stronger from the father of the former bride. Here are all those who help meet the expenses of a modern wedding.
