automobiles that might get into

Prepared by National Geographic Society. Washington, D. C.—WNU Service.

CHANGE which emphasizes unchanging tradition has taken place in Oberammergau, Germany, the small Bavarian town where every decade a performance of the Passion Play attracts thousands of visitors. The change came through the death of Anton Lang, for thirty years the former Christus of the Passion rushing in and out again without Play. Death, however, changes the players but does not stop the presentation of the Passion Play, which for centuries has are prohibited during the solid year been performed to fulfill a vow of preparation for, and concentraof the villagers in the Seventeenth century.

Until about 150 years ago the sight of the towering mountains filled the people of Oberammergau with awe; in fact, fear; and they were looked upon more as drawbacks than as

objects of beauty and inspiration. The custom of offsetting the depressing effect of the looming rocky background by vivid color still prevails, and besides old but ever fresh fresco paintings depicting scenes from the Bible on the walls of the houses, new ones are beginning to decorate several homes. These show a more modern trend, and generally are done by young Bavarian artists. They lend vivid color to a street scene already bright with houses painted yellow, pink, green,

Hardly a house lacks a balcony, slowly waltzes about him to the and this, like all the windowsills, is lined with a profusion of flowers.

around the windows put a special stress on the "eyes" of most homes. Usually near the door, in large letters, is exhibited the name and occupation of the owner, who might well appear to be the proprietor of the entire valley as he complacently walks through the streets and fields, hills and mountains. Born here, he

### feels himself part of all this.

In the Home and Fields. The inside of his birthplace breathes the same spirit. The center is not the kitchen whence the healthful, frugal meals come, but the living room with a carved wooden crucifix solemnly hanging in one corner. There is the cradle of family life. There the men and women and children assemble when

they come home from field or shop. The fields yield just enough grass for the cattle and potatoes for the people, though most of the villagers have their own little gardens.

Farmhouse and stable are usually in one building. This saves the peasant many a step in bad weather and keeps him always near his beloved cows, which in turn help supply warmth in the long, cold winter. The arrival of the White King is blanket he always spreads over the mountains and the valley does not | ber of the cast. mean being buried for four or five months.

Oberammergau lies in about the same latitude · as Montreal, and masses of snow cover the mountains, at times to a depth of 30 Many visitors come to try their luck on skis, and skiing becomes an easy accomplishment for the local youngsters.

### St. Peter Distributes Milk.

Singing and whistling, Hubert Mayr, the St. Peter of the Passion Play, drives his little pony cart through the town every day, distributing milk among the people. How happy and pleased he is that at last his life's dream has come true and he has become "St.

Peter"! The meek manners of Hugo Rutz, the village blacksmith, would never lead one to guess that on the stage he was the fiery high priest, Caiaphas, inciting the mob against

Anton Lechner, teacher of drawing at the local woodcarving school, is just as much of a surprise. To see him sitting behind his glass of beer, enjoying that old pipe of his, is something entirely different from finding him in the play as the high and jeered, and eventually sent to priest, Annas, standing beside Caiaphas and shouting accusations to King Herod. Peter repents his against Jesus, while Melchior Breitsamter, the lovable St. John of 1922, listens to the Roman prefect, Pontius Pilate, a role he has twice enacted most impressively.

Ludwig Lang, fierce - looking Barabbas on the stage, is a peaceful cowherd who may be seen walking along the street at 6 o'clock almost any morning, driving a herd of cows into the fields and hills, and not returning until 6 at night.

That is the rush hour for the cows. and traffic has to comply with their

### "- Was the Author of --" (That Is, Unless — Wrote It!)

Recent Celebration of "Casey Night" in Baltimore Recalls the Dispute Over the Poem Made Famous by De Wolf Hopper, "Casey at the Bat"; There's Also Argument Over Who Wrote "The Face on the Barroom Floor" and Many Other Old Favorites.

By ELMO SCOTT WATSON HEY celebrated "Casey Night" in Baltimore recently in honor of the man who is said to be the "original Casey" of the poem made famous by De Wolf Hopper. As a prologue to a night game between the Baltimore Orioles and the Jersey City Giants of the International league, they had arranged to have the once "mighty Casey" strike out just as he did more than half a century ago.

Up to the plate stepped seventy-six-year-old Dan Casey of Silver Springs, Md. Rogers Hornsby, coach of the Orioles and pitcher for this special occasion, wound up and shot the ball across the plate. Casey swung - and missed by a foot! Again the wind-up, again the pitch and again Casey missed.

'And now the pitcher holds the ball, and now he lets it go and now the air is shattered . .

But, wait! There's something wrong here! There goes the ball streaking across the diamond, out into left field. It's a single! For once, the last line of the immortal poem isn't true. "Mighty Casey has NOT struck out!"

Anyway, it was a good stunt, even if it didn't come off according to schedule, for it served its purpose of being a sort of "curtain-raiser" to next year's celebration of the centennial of America's national game. Also, it re-vived a "double-header" discussion that has raged for years,

Who was the "original Casey" of the poem "Casey at the Bat?" Who wrote that poem?

There have been various claimants to the title of "original Casey," but officials of the two major leagues and others in charge of the plans for the centennial seem to have decided that the Casey who didn't strike out in Baltimore the other night, is the man. And here is his version of the incident that has brought him baseball immortality:

"I was a left-handed pitcher for the Phillies. I guess you'd call me the Hubbell of my time. We were playing the Giants in the old Philadelphia ball park on August 21, 1887. Tim Keefe was pitching against me and he had a lot of stuff but I was no slow poke myself. It was the last of the ninth and New York was leading 4 to 3. Two men were out and there were runners on second and third. A week before I'd busted up a game with a lucky homer and folks thought I could repeat .

But he didn't repeat. Instead he struck out and the baseball fans of Philadelphia forgot that they were citizens of the "City of Brotherly Love." Instead, they were just as enraged as any rabid fans of any "Mudville" in the United States would be when their popular heroes fail them.

### The D'Vys Version.

As to the authorship of the poem, one of the persistent claimants to that honor was George W. D'Vys, who spent his last years in the Home for Aged and Infirm in Cambridge, Mass.

His version of how he came to write the poem which, incidentally, makes Mike Kelly, instead of Dan Casey, the hero of the piece, is this:

"It was back in August, 1886, when I saw the great Mike Kelly play with Chicago against the Boston club. Kelly, the Babe Ruth of his day, had a chance to win the game with the bases full in the ninth, but he struck out before a huge and spellbound throng. The Boston fans were more grieved to see Kelly fan than they were happy to see their team win and I felt something of the same thing, too.

'The next day, a Sunday, I was lying on the grass in Franklin Park, in Boston, thinking about the game and Kelly and the disappointment of the fans, and into my mind came the opening

"That night I finished the poem. I sent it to the Sporting Times in New York, anonymously because my father, a burly sea captain. looked upon poetry with horror.' Other claimants to that honor include Joseph Quinlan Murphy, Will Valentine and, finally, the man to whom most authorities award credit for its authorship-Ernest L. Thayer, once a resident of Cambridge and now living in Santa Barbara, Calif.

Thayer, a native of Worcester. Mass., was graduated in 1885 from Harvard where he was president of the Lampoon and ivy orator of his class. After leaving college he started on a tour of the world, pausing in San Francisco long enough to get a

Dan Casey, the "original Casey at the Bat," is shown recreating the historic scene when "mighty Casey struck out." Behind him is Bucky Crouse, catcher and manager of the Baltimore Orioles, and Umpire Roy Van Graffin.

job as a reporter on the paper owned by his friend and fellow Harvard man, "Willie" Hearst. While thus employed he wrote a poem called "Casey at the Bat, a Ballad of the Republic, Sung in the Year 1888" which appeared in Hearst's San Francisco Examiner June 3, 1888.

Thayer Has Best Claim.

Despite the fact that others have claimed the authorship of "Casey at the Bat," Thayer's right to it seems to be pretty well established. Albert G. Spaulding gives him credit for it in his account of the poem in "America's National Game," a history of baseball. Several years ago Thayer himself, in defending his claim, wrote to the New York Times as follows:

"I note in the Times a dispatch from Cambridge, Mass., in which G. W. D'Vys is reported as claiming the authorship of 'Casey at the Bat.' He says he sent the poem in 1886 to the New York Sporting Times, where it was published

The first number of the New York Sporting Times appeared in 1888 and the first, or a little later, number printed 'Casey at the Bat' as a clipping and duly credited it to the San Francisco Examiner, where it originally appeared over my initials in June,

of the Scrap Book an exhaustive examination of the question 'Who wrote Casey at the Bat?' appeared over the signature of Harry Thurston Peck, at that time professor of Latin at Columbia

John Henry Titus reciting "The Face on the Barroom Floor."

university. In the light of all the evidence, Professor Peck reached the conclusion that for this, perhaps the greatest of my sins, I was exclusively to blame."

More difficult to establish "original authorship" is the case of another famous poem, known by two titles "The Face on the Bar Room Floor" and "The Face Upon the Floor." The rivals for recognition as the author of this classic are John Henry Titus, still living at the age of ninetyone, and Hugh Antoine D'Arcy, who died November 11, 1925.

Titus, born in Jefferson, Ohio, began writing poetry at an early age and in 1872 produced a sevencanto poem, called "The Ideal Soul." The fifth episode in it he called "The Face on the Barroom Floor." The first stanza was

'Twas a barmy autumn night and a goodly lot was there,
That oversaw Joe's barroom as court upon the square;
And as a song in wit and story ekes through the oaken door
A vagabond stept slowly in askan upon the floor.

According to Titus, the scene of this incident was a tavern in Jefferson, Ohio, and his use of the word "barroom" meant "courtroom," since the tavern was once the site of county judicial ses-

A Different Locale.

In the version of the poem written by D'Arcy, which appeared in 1887 under the title of "The Face Upon the Floor," the locale is in New York city instead of the little Ohio town. The circumstances under which it was written, according to Porter J. White, a veteran actor who died in 1934 and who claimed to be the first man to recite the poem in public, were

One night in August, 1887, White was awakened in his room in McPike's hotel in New York city to find his neighbor from the next room, Hugh Antoine D'Arcy, character actor and theatrical manager, standing beside his bed D'Arcy was clutching some pieces of paper and seemed greatly ex-The reason was an incident which he had just wit-

With some friends D'Arcy had ed into Joe Si at Fourth avenue and Fourteenth street. As they sat there talking a tramp walked in and begged for a drink. He drew a picture of a woman's face in chalk on the floor. As he put in the finishing touches the bouncer spotted him and out he went. D'Arcy followed him, offered him a little money, learned that the vagabond had been a cultured man and an artist driven to drink by the loss of his sweetheart and the treachery

Concluding his account of the incident, D'Arcy thrust a manuscript into his friend's hand, and White, now thoroughly awake, be-

THE FACE UPON THE FLOOR THE FACE UPON THE FLOOR
'Twas a balmy summer evening, and a
goodly crowd was there,
Which wellnigh filled Joe's barroom on
the corner of the square;
And as songs and witty stories came
through the open door
A vagabond crept slowly in and posed
upon the floor—

When he finished reading the remaining 16 stanzas, White expressed his thorough approval of the poem and asked permission to recite it in public.

Temperance Propaganda. In subsequent years Mr. White successfully recited the poem many times on the vaudeville and burlesque stages. Years later "The Face Upon the Floor" was renamed "The Face on the Barroom Floor" by some self-appointed editor and was converted for use as temperance propaganda-much to D'Arcy's vexation, who intended the poem as a plea for kindness to derelicts.

One interesting angle of the dispute over the authorship of this poem is the fact that both claimants at one time or another went into court to establish their rights to the honor of having written it. "The Face Upon the Floor" was set to music and became a favorite of vaudeville and barber shop tenors, who, however,-to D'Arcy's disgust—gave it the title of "The Face on the Barroom Floor." In 1922 D'Arcy sued Frank Harding, veteran song publisher, for not giving him credit for being author of the poem and a few years later Titus sued Harding to "recover his title from the desecration of the ballad." So far as is known, neither author ever sued the other, so the dispute over the poem is still undecided. But since Titus is still living, at least he has the "last word" in claiming authorship.

Although "Casey at the Bat" was frequently reprinted in newspapers after its original appearance in 1888, the thing which started the poem on its road to immortality was its recitation by De Wolf Hopper, an actor. In the summer of 1888 Hopper was appearing in an operetta, "Prince Methuselah," at Wallack's theater on Broadway. One night the players on the Chicago White Stockings baseball team were guests of the theater and the management of Wallack's gave Hopper a copy of the poem, clipped from the San Francisco Examiner, to read between the acts in honor of the ballplayer

Hopper's serio-comic rendition of the poem brought a storm of applause and from that time on he was repeatedly called upon to recite it. He once said "Where or what I may be playing, I must, before the evening is out, come before the curtain and pitch to Casey.

It has been estimated that Hopper recited the poem no less than 10,000 times in the theater. Add to that his recitations of it over the radio in recent years and the number of times his phonograph records of the poem have been played and it is easy to understand why it is listed among the "best-known poems in the English language.

Another dispute over authorship of a popular poem which was taken to the courts was the case of "Solitude," better known by its

DE WOLF HOPPER

opening lines "Laugh and the World Laughs With You, Weep and You Weep Alone." It was claimed by both Ella Wheeler Wilcox and Col. John J. Joyce.

Mrs. Wilcox asserted that she wrote it in February, 1883, in the home of Judge A. B. Braley in Madison, Wis., where she was visiting, and read it to the judge and his wife before it appeared in the New York Sun on February 21 over her maiden name of Wheeler. In May, 1883, it was included in her book "Poems of Passion."

Rival Claims.

Two years later 'Joyce heard the poem "Solitude" recited and when some one asked who wrote it, the colonel declared that he had written it in the Galt house in Louisville, Ky., back in 1861. When Mrs. Wilcox heard of this, she immediately denied his claim. Joyce continued to assert that the poem was his but ignored her challenge to prove it.

His book "A Checkered Life,"

written in 1883, contained 23 poems but "Solitude" was not among them. In a later edition of the book he inserted the poem but retained the copyright date of 1883. He also published the poem as a song, whereupon Mrs. Wilcox began suit against the John Church company, music dealers of Cincinnati, for alleged violation of the copyright law.

The suit never came to trial. According to Mrs. Wilcox, she dropped it upon the advice of friends. Joyce pointed to the fact that the suit was dismissed for want of prosecution and that the costs were assessed against Mrs. Wilcox as acknowledgment of his authorship. Later Mrs. Wilcox offered to give to any charitable

institution, which Joyce might name, the sum of \$5,000 in his name if he would produce "an unmutilated copy of any periodical or paper containing the poem under discussion prior to Febru-

Although Joyce never accepted the challenge, to the day of his death he continued to assert that he was the original author of "Solitude." Mrs. Wilcox was equally positive that the honor belonged to her and "popular belief" seems to confirm her claim.

Several years ago Emma Louise Ashford, a prolific composer of sacred music, died in Nashville, Tenn., and at that time press dispatches credited her with being the author of "Abide With Me." Recently it was credited to another composer-Prof. T. Eugene Goudey, Unitarian director of organ and choral music in Oakland, Calif., who died in January the hymn was Rev. Henry Francis Lyte, an English clergyman who

The mere spendnot insure good nutrition, for ex- hydrates. tremely poor diets can be found in households where the income is large

and the food budget is ample. What counts is learning to provide the right foods in the correct proportions. The return in health will be more than worth the investment of effort in acquiring this

A Balanced Diet

Science has discovered what foods are necessary to help build top health and keep us 100 per cent fit. The amount of food required by a man for a day's work can be accurately determined. We know that a specific disease may be produced by one diet and cured by another; that growth can be influenced through changes in the quality of the dietary; that old age may be deferred by choosing the food with care.

We know that the body is a

working machine which never stops but may slow down or get out of order unless the daily diet includes every element, every ficiency diseases.

Seven Essentials

of cells that are worn out daily. Carbohydrates to produce quick heat and energy. Fats—a more compact form of fuel, which are also essential in a satisfactory diet. Minerals which serve both as builders and regulators of body processes. The six vitamins, A, B, C, D, E and G, that also act as regulators and prevent a number of deficiency diseases. Water -which serves as a vehicle by which food is carried to the tissues. And cellulose or bulk-required for the normal functioning of the intestinal tract.

Danger in Omitting One Food Substance

The homemaker who fails to take every one of these factors into consideration is depriving her husband of the opportunity to develop his greatest efficiency. Moreover, she may be robbing her children of their birthright. During every day of childhood, the body is being built, and defects in body structure are likely to arise if the child is improperly nourished. It is then that disease and disability make their appearance as a result of faulty nutrition. How tragic to deprive the young body of substances so necessary to its well being.

How to Check the Diet for Balance

Perhaps you are like the homemakers who tell me that they do things for midsummer are: a not know a protein from a carbo- sleeveless dress of the most cashydrate. Or it may be that while you understand the difference, you do not know what quantities should be included in the diet each

To simplify your task of serving balanced menus at every meal, I have prepared a Homemaker's Chart for Checking Nutritional Balance. In convenient chart form, it shows what foods should be included in the diet every day and gives the standard amount for each food. There are also skeleton menus outlined by food classifications, which enable you to plan

"I UNDERSTAND THE BOSS IS GETTING BETTER PRICES FOR OUR EGGS."

"YEP! HE FOUND A BETTER MARKET BY USING HIS TELEPHONE. IT CERTAINLY PAYS TO USE THE TELEPHONE!"

'blue coal' PRICES

We've always claimed that 'blue coal business, even though coal' is the most economical fuel warm weather is on the way. That's because the Spring prices on 'blue coal' are already in effect ing impurities - because it burns ... because thrifty people all over town will be taking advantage of these unusual money-saving rates which are lower than they have been in a good many years.

You, too, will be cash to the good next Fall if you place your order for a supply of 'blue coal' mines will save you real money on every ton you buy.

that anyone can use...because it's all coal—free from heat-wastevenly and completely, giving you full heat value for every shovelful. Every time you order this high quality anthracite you can be sure of getting it - because it's really colored blue.

Fill up your bins with 'blue coal' now. A true economy at any now. For drastic reductions at the price - a double economy at our exceptionally low Spring prices. Phone us your order today. (

### WHO'S **NEWS** THIS WEEK

By LEMUEL F. PARTON

NEW YORK. — When Charles Maurras came out of the Sante prison last year, he was met by a committee of distinguished Frenchmen, who nominated him for the Leaves Jail To Get Bid Nobel peace prize

and said they To Academy would make him a member of the Academy. They have just fulfilled the latter promise, and M. Maurras becomes an

immortal by a majority of one vote. He had spent 250 days in jail on a charge of having urged the assassination of 140 members of the chamber of deputies who had voted for sanctions against Italy; also on a charge of inciting the French people to "sharpen up their kitchen knives" for use against certain proscribed politicians.

In the 250 days he had written five books, swelling his vast collection of books on biography, politics, economics, literary criticism, history and what not to probably well over 100. I talked to him once in the Cafe des Lilas, a fragile, deaf, bearded old man with a contentious, blazing mind which makes one think ly glaring kitchens. of a sizzling battery running an automobile without any engine.

In 1923, he was in jail for four months in a somewhat anti-climatic adventure for one Showed Duce who was to be gar-Technique landed as an immortal. Three Of Terror members of the

chamber of deputies were kidnaped and fed castor oil-Mussolini is said to have got his broad prospectus of Fascism from Maurras-and the bald head of one of them was painted with violet ink and glue.

In 1925, M. Maurras was sentenced to two years in prison, the backs and seats slip-covered with charge being that he had threatened to kill the minister of the interior. Among the causes of his incarceration in October, 1936, was conspiracy evidence in the assault on Premier Leon Blum, in which he was severely beaten, while attend-

ing the funeral of a friend. His books and virulent editorials one corner for a rocker and a round the side walls. White canisters got braided rug. "Just for old time's blue stars painted on them, too. sake," laughed Winifred, "though I And even the white swiss curtains against democracy in the Royalist, paper, translated into many languages, are the fount of Fascist must say it's a nice place to sit had bright blue stars appliqued over doctrine all over the world. For Work or Rest

Thirty years ago Corbett opened his little store in this village of a half-dozen houses, off the main highway. His stock steadily increased in helter-skelter fashion, until one day a young boy assistant pulled something from the bottom of the pile. Down tumbled a bewildering stack of merchandise. "Gosh," he said, "how'll we ever get it back?"

"Don't bother," said Corbett.
"We've got too much stuff in here anyway.

So he rented a nearby structure and opened a new store, his present crisp green walls do their share, one. He still uses the old store as an annex and has a third building for a warehouse. But the new build ing has gone the way of the old dows, (the kitchen is on the corner because Corbett, though scorning modern ideas of efficiency, is made yellow percale curtains tied anxious to stock new things.

-BEDTIME STORY

### Mr. Toad Learns His Lesson; Won't Be 'High Hat' Anymore

back on Buster Bear and the fine Jimmy went right on about his busiinvited him, he had but just one Old Mr. Toad as if he had been a out of sight of Mr. Blacksnake as gulped and went on. The next day soon as possible. He forgot to ask he went down to see Danny Meadow Buster Bear to excuse him. He forgot that he was tired and hot. how ashamed he was for the way he He forgot all the pride with which he had been so puffed up. He forgot friends. But Danny brushed right everything but the need of getting past without even a glance at him. out of sight of Mr. Blacksnake as soon as ever he could. You see, to see Johnny Chuck. The same Mr. Blacksnake has a fondness for thing happened again. So it did toads when there is nothing better to fill his stomach. So away went Old Mr. Toad, hop, hop, hipperty-hop,

hop, hop, hipperty-hop!

But he had to stop after a while. You see, his legs were so tired they just wouldn't go any longer. And he was so out of breath that he wheezed. He crawled under a big piece of bark and there he lay flat on the ground and panted and panted for breath. He would stay there until jolly, round, bright Mr. Sun went to bed behind the Purple Hills. Then Mr. Blacksnake would go to bed, too, and it would be safe for him to go home. Now, lying there in the dark, for it was dark under that big piece of bark, he had time to think. Little by little he began to understand that his invitation to dine with Buster Bear had been part of a plan by his old friends and neighbors, whom he had so snubbed and looked down on when he had been puffed up with pride, to teach him a lesson. At first he was angry, very angry, indeed. Then he began to see how foolish and silly he had been, and shame took the place of anger. As he remembered the deep, grumblyrumbly laughter of Buster Bear the

feeling of shame grew.
"I deserve it," thought Old Mr. Toad. "Yes, sir, I deserve every bit of it. The only thing that I have to be proud of is that I'm honest and work for my living. Yes, sir, that's all." When darkness came at last and

he crawled out to go home he was feeling very humble. Peter Rabbit happened along just then. Old Mr. Toad opened his mouth to speak, tung with four pockets. Old Mr. Toad had treated Danny and his other Old Mr. Toad gulped and started up when he met Striped Chipmunk.

Peter suddenly threw his head up high and strutted past as if he didn't see Old Mr. Toad.

At last Old Mr. Toad gave up and went home, where he sat under a big mullein leaf the rest of the day, feeling very miserable and lonely. He didn't have appetite enough to snap at a single fly. Late that afternoon he heard a little noise and looked up to find all his old friends and neighbors forming a circle around him. Suddenly they began to dance and shout:

"Old Mr. Toad is a jolly good fellow! His temper is sweet; disposition is mellow!

And now that his bubble of pride is quite
busted. We know that he knows that his friends can be trusted."

Then Old Mr. Toad knew that all was well once more and presently he began to dance, too, the fun-© T. W. Burgess.—WNU Service.

SHOULD CHECK ON

Flocks May Be Developing

GROWTH OF CHICKS

Too Slow, Too Fast. By Dr. W. C. Thompson, Poultry Husband-man, New Jersey Agricultural Experiment Station. WNU Service.

It is a part of good business management for the poultry producer to know whether his chick flocks are growing at about the rate which should be expected of average, well

bred, healthy chicks. It may be that the rate of growth being shown by a given lot of chicks is not up to par, or it may be that they are growing faster than experience has indicated as being optimum. Chick growers, therefore, should have some sort of standard so that the development of chicks during the growing season may be measured.

This does not mean that it is necessary for the poultryman to weigh all of the chicks every week or two. He may obtain a good average by weighing any ten chicks caught at random at each weighing time. Average White Leghorn pullet chicks should weigh 39 pounds per 100 at the end of the first month; 68 pounds at the end of the sixth week; 109 pounds at the end of the eighth week; 171 at the end of the twelfth week; 240 at the end of 16 weeks, and about 338 pounds per 100 pullets at the end of 24 weeks. The seven corresponding weights for heavy breed pullets, such as Rhode Island Reds, New Hampshires or Barred Plymouth Rocks, are 18, 43, 83, 130, 213, 304, and 427 pounds per 100 birds.

These weight standards can be copied on a card and nailed on the feed room door or kept in another convenient place for comparison with average weights of this year's pullet flocks determined from time to time. One need not worry if pullet flocks are running at just about the level of these standards, or somewhat heavier, but if they are running at considerably under these standards, inquiry should be made as to the probable cause. Experience teaches that unless pullets develop at approximately these rates, they cannot reasonably be expected to reach egg-laying maturity at the normal time and be in condition to continue through a long year of normal egg yield.

Next year's pullet layers are in the making in this spring's chick flocks and this summer's growing pullets. It is important to keep an eagle eye on their rate of growth and make sure that it does not depart too far from normal expect-

Many Soybean Varieties

Needed for Varied Uses Breeding to improve the soybean is only beginning, but the chances are bright, says W. J. Morse of the United States Department of Agriculture. New varieties are needed. even though the department and the states have already imported more

than 10,000 lots of seed. Soybeans are particular in their local requirements, are more variable than many plants, and are grown for a variety of purposes. A good forage variety for one area may not do at all well elsewhere. A good forage bean may not be a good milling bean, or be useful as a vegetable.

Some growers want soybeans for forage; others for oil and meal processing; still others as vegetables. The result is that each local area in the soybean regions needs a soybean variety that will do well in that particular place and for a definite purpose. Such an area may even need two or three varietiesone for forage, one for high oil or protein content for the mills, and a third for the table.

The soybean is a self-fertilized plant. Artificial crossing is difficult and tedious, but it can be done.

In the Feed Lot

Train beans to a pole or a fence for maximum yield.

Hens of all ages should be carefully culled until September 1.

Chickens take dust baths to rid themselves of bird-lice.

Eggs are an important source of iron. They also contain calcium, sulfur, and phosphorus in goodly amounts.

A correctly adjusted plow does better work, saves time and pulls

Eggs at room temperature beat

more quickly and to a greater volume than do eggs beaten when taken from the refrigerator. For fence posts, black locust is the tree to plant, but other kinds

are white cedar, European or Japanese larch. Every hour of the day and night, a thousand pound cow breathes in and out about 2,880 bushels or 3,600

cubic feet of air. This air weighs about 270 pounds. For each pound of soil eroded from a field planted to grass or a cover crop, 100 pounds will be lost when the same field is producing

Avoid extreme drops in temperature in the poultry laying house by better insulation and by the use of

artificial heat.

Although celery can be grown on any good loamy soil, the best soil is a good type of well-drained peat or muck.

#### Quick, Easy Stitches For Summer Frocks

By RUTH WYETH SPEARS

A BIT of hand embroidery for the collar and sleeves of a little girl's dress is always the smartest trimming. Quickly made stitches and interesting colors may be combined to give unusual

The dress shown here is pale blue chambray. The collar and sleeves are edged with blanket

stitch in a deeper blue as shown at A. Between each blanket stitch a tiny loop stitch is made in white and three larger white loop stitches at the top of every second blanket stitch as shown at B. When used on a fabric of this weight the embroidery should be rather coarse to show up well. All six strands of a six strand embroidery cotton may be used or No. 5 pearl cotton. For a dress of fine sheer material such as dimity or organdie use finer embroidery thread. Other attractive color combinations are pink material with deep rose and French blue embroidery, yellow with brown and orange or green with yellow and white. For a printed fabric, repeat two of the strongest tones in the printed design or use white collar and cuffs embroidered in

the background color of the print and one of the brighter tones. NOTE: If you wish to use these weekly articles for reference paste them in a scrapbook, as they are not included in either Sewing Book No. 1 or 2. Book 1, Sewing for the Home Decorator, covers curtains, slipcovers, dressing tables; 48 pages of fascinating directions. Book 2 illustrates 90 embroidery stitches with numerous applications; doll clothes and gift items. Order by number, enclosing 25 cents for each book desired. If you order both books, leaflet on making crazy quilts, with 36 stitches illustrated, will be included free. Address Mrs. Spears, 210 S. Desplaines St., Chi-

### To Ride the River With

CHAPTER VII—Continued -12-

"Five of them, far as we know," Lee answered. "We're kind of in a hole, boys. If we jump up this bunch of wolves before the smugglers arrive, they can give us the horse-laugh and say they just rode out for a picnic. If we don't show up till after the Mexicans, the smugglers are liable to be rubbed out. We'll have to just jog along and hope for the best."

Gray dawn was beginning to sift into the darkness and bleach it with light. Lee held the lead, Jeff Gray at his heels.

Day poured down into the canyon. In an incredibly short space of time nothing was left of the blackness of night but a swirling mist. The men could see one another, not as shifting shadows but as individuals. All of them were conscious of a definite relief.

The leader drew up his horse. "Getting close to the rock slide;" or they may not. We're fixed so we have to guess at what these feland this talk of smugglers doesn't hard on their heels. mean a thing. Ride as loose as you can, boys. Not too close together. If they fire at us we'll hunt cover, each man for himself. There will be plenty of boulders there, or any-

"Wouldn't it be better for one of us to crawl forward on foot and have a look-see?" Brand suggested. From round a bend in the gulch there came the crack of a gun. Before the echo died away a fusillade followed.

"We're too late!" Chiswick cried.

"Come on, boys."

He slid from the saddle and ran toward the bend, moving with the heaviness that comes from middle age. Gray passed him before he was halfway to the turn.

The scene Gray looked upon as he rounded the curve was one of the wildest confusion. Frightened by the firing, two saddled horses were bucking wildly in the dry bed of the stream. The men who had been riding them lay on the ground, one of them face down and the other in a twisted heap. Two others in Mexican costume were racing down the canyon to escape, while three masked men shot at them with rifles as they ran. Another masked man was struggling with a pitching mule.

Gray flung a bullet at the nearest of the marksmen. The man whirled, caught sight of him, and ripped out a startled oath. He gave a cry of warning, fired once wildly toward the men pouring round the bend, and turned to run. He caught at the bridle of one of the plunging horses and tried to mount. His foot could not find the stirrup nor could he fling himself astride the back of the animal. A bullet struck the pommel of the saddle to which he was clinging. With a yell of terror he let go and flew down the gorge, dodging in and out of the rocks as he went. Though the face of the man was covered by a bandanna except for the eyes, Gray recognized him as young Howard.

Taken by surprise, the other bandits thought only of flight. One ran limping to a horse, pulled himself to the saddle, and galloped off. Another plunged to the ground, as if he had stumbled, but did not rise again. The remaining two, penned in the rocks, answered the fire of the attackers.

"Get to cover, boys," Lee or-dered. "We'll drive them into the open. Don't take any chances."

A saddled horse, snorting with fear, came out from the big boulders close to the spot where the two masked men crouched. The nearest outlaw seized the bridle and mounted. His companion clambered on behind, and the animal dashed down the canyon.

'Bring up the horses," Lee called to his son Frank. "We'll take after these fellows."

He moved forward to check the casualties. Two Mexicans were dead, as was also one of the out-None of the Chiswick party had been hurt. The unexpected attack had sent their foes into panic. Gray turned over the body of the

masked man lying in the sand. He recognized the face of Sid Hunt, the cowboy he had seen in Yell Sanger's store when he first arrived in Tail Holt.

The crook-nosed man helped himself to the dead man's rifle and cartridge-belt. He caught one of the horses left by the outlaws and started down the gulch.

"Better wait for the orders of the old man," Brand advised. "I'll just ride ahead and keep in with these fellows," Gray

called back. He passed a laden pack-mule. Part of the load was silver, he guessed. The mule had got over its

fright and was picking at the shrub-After he was through the boulder field, he put his mount to a canter, regardless of the brush which caught at him as he plowed into the chap-

arral. He was riding the gray gelding upon which he had seen Morg Norris leave town. Presently he saw in front of him a man on foot. Sometimes the man

was running, sometimes walking. In the space of three or four minutes he looked back a dozen times. Fear of death was riding him hard. As Gray drew nearer, the fugitive took refuge behind a mesquite.

"Don't you come any closer," he warned, his voice quavery with ter-

The man was Lou Howard. During his flight he had dropped the rifle because it interfered with speed. "Reach for the sky," Gray or-

dered. "No funny business or I'll drill you through. A bullet whistled past his head. A bullet whistled past his head. throat. Something was wrong. Per-He swung from the saddle and haps the man in the rear was you along to keep me company.

he had left beside the horse. "Don't you!" shrieked Howard. 'You keep back."

"Get 'em up," snapped Gray. 'Quick." The hands of Howard went up, the

weapon in one of them.
"Don't kill me," he begged.
Gray disarmed him.

"You'll be safer tied up," the captor said. "Keep you from being killed by one of the boys when they get to you. Move over this way." The crook-nosed man took the

rope from the saddle and tied up Howard swiftly and thoroughly. He left him lying in an open place on A quarter of a mile farther down

the canyon there ran into a steep sword-cleft. Far up this Gray could see two men and a horse. One of the men was riding, the other clambering along the trail after him. The sun was now out and shining he said evenly. "They may be there on them. It would be hot work for a man breasting that stiff slope. especially if he were in a desperate hurry. The haste Gray took for lows want." Lee's glance rested for a moment on Gray. "Maybe I'm granted, since there were two riders the one who is to fall into the trap and only one horse, with vengeance

He turned up the gulch after them. In the rainy season water poured down this rocky bed, but vegetation had small chance in such terrain. Whatever soil there might once have been had long since washed down into the gorge below.

The horse took the narrow bed of the trough like a cat, its muscles standing out hard as steel while it

me company."

reached from one foothold to another. A bullet ricocheted from a flat rock above Gray and plowed into the rubble close to the front hoofs of the gelding. The sound of the explosion came down in booming echoes. One of the men near the top of the gulch had fired at his pursuer.

Gray did not stop. He did not answer the fire. The fugitives were moving again. They were not looking for a fight. What they wanted was to reach the flat country just ahead of them where they could disappear into some of the hill folds that ran down to the plateau.

The men and the horse vanished above the brow of the gulch. Gray gave his mount no rest. He had to reach the summit while they were still in sight. The animal he rode was strong and willing. It had plenty of bottom. Heaving with exertion, the gray came to the top of the rocky gash.

Its rider had a shaky moment when the horse clawed its way to level ground. Enemies might be waiting there for him, though he did not expect it. The men were too intent on safety.

His glance swept swiftly the country in front of him. The men had gone. One of the draws in front of him had swallowed them up. Which one, he could not guess.

One point stuck out like a sore thumb. In this country a man without a horse was in poor plight. The first consideration of these fugitives would be to get another mount. They would strike for the nearest place where a pony could be picked up

The answer struck Jeff Gray almost with the force of a blow. That nearest place was the L C ranch-These ruffians knew that Lee Chiswick and his men had fallen upon them in Live Oak canyon. Nobody would be at the ranch except women. Almost certainly the outlaws would ride straight to the

### CHAPTER VIII

Ruth spent some anxious, restless hours. She found herself on the front porch a dozen times; her gaze sweeping down the road to look for the returning posse.

With Nelly's help she laid in a supply of cooked food for the returning warriors. Whether successful or the reverse, they would certainly be hungry.

After all, it was Nelly who first saw the approaching rider. "Someone coming this way," she

called to her mistress. Swiftly Ruth went to the door. A horse was cantering heavily up the road. The distance was too far for identification of either man or beast, but there was something unusual about the gait of the animal. Unless very tired it ought not to make such heavy going. Presently she made a discovery. A second rider

sat behind the first. A pulse began to beat in Ruth's moved forward. In his hand was a wounded and they were sending him

forty-four, ready for action. The rifle | home. She ran down the steps and hurried toward those approaching the house.

They were close upon her before she realized they were not from her father's party. She stopped, abruptly, looking at them intently. The man in front she did not know. The other swung to the ground and came toward her. A cold wind swept through her. There was evil in the jeering cruel eyes.

'Nice to meet up with you again, Missy," he said. "Who are you?" she asked, dread

in her heart. But she knew who he was. She

had seen him at Tail Holt just before and after her father had been wounded. His name was Morgan Norris, and he was the man Jeff rocky gulch narrow as a Titan's Gray suspected of firing the shot. "Never mind the name. Just call me one of yore admirers. First off,

> catching and saddling I'll help you get some food together. We're in some hurry, and we'll take it with "What's happened?" the girl asked, her eyes on the bloodstained

handkerchief tied agound his left

arm below the elbow. Norris ripped out a violent ob-scene oath. "Keep yore trap shut, girl, and do like I say," he ordered. "You've been hurt — wounded," she cried. "There has been trou-

Her eyes were big with fear. The color had died out of her face. She was not thinking of him but of those with whom he had fought. They too might be wounded-or worse.

"Ambushed by yore rotten kin," he snarled. "Shot down when we weren't lookin' for it, when we didn't have a chance." Ruth looked into his bleak eyes,

the focal points of a cruel, savage face, and knew what it was to be afraid. She turned and walked to the house, the man beside her. He caught hold of her arm just above the elbow, his fingers tightening with all the pressure they could ex-

"Let me alone," Ruth told him. Take your hand off me."

"It's my say-so," he retorted, with an evil laugh. "What orders are given will come from me, sweet-With an effort she wrenched her-

self free. There was a band of fire down her arm where his strong fingers had bit into the flesh. "No," she challenged, head up and eyes undaunted. "You daren't harm me. If you did you'd be trapped and wiped out like a wolf."

"Would I? We'll see about that," he purred softly. He was playing with a dangerous venge? If he took her with him would he increase or decrease the peril of the situation in which he stood? He was not sure whether he

had been recognized; if so, he might have to get out of this part of the country. Mexicans from across the border, engaged in illicit traffic, were at no premium in Arizona, but Lee Chiswick could use the killing of two of them to stir up a lot of trouble.

Norris went into the house with

'This man wants to take some food with him, Nelly," said Ruth. Nelly looked at him out of startled eyes. She made as if to speak and

changed her mind. "Get a move on you," he snapped.

'I'm in a hurry.' While Ruth packed the food they had just been cooking the outlaw sat astride a chair in the kitchen with his arm across the back of it. He watched her with narrowed eyes, primal fires flaming smokily in them. The man lived in his passions-in his hatreds and in his desires. This girl appealed to both of them. Through her he could strike could jeer at them to this daughter while they combed the hills to find her. It would be a magnificent revenge. That was one side of the picture. The other worked hand in her figure, its fine spirited racehorse look, stirred a tumult in him. Kansas came into the kitchen. "I roped and saddled two cow-ponies,'

"We'll need four," Norris an-

swered. "Four. What for?" Kansas asked. "We're going to take these girls with us.'

the young women with gripping notch fashion this summer.

torted. "You gone crazy from yore "They will be a protection to us,"

Norris insisted. "Like heck they will," his companion snorted. "What's eating you, Morg? This whole country would rise up and wipe us out. Use yore head.

He said softly, a silken threat in his voice, "Saddle two more Kansas felt a chill run down his

ack. "Good God, Morg—"
"Make tracks, fellow," Norris interrupted, his stabbing gaze fixed on dress remains a heavy favorite. the other. Kansas backed out of the room.

you say. I sure ain't lookin' for trouble with you." Ruth said to Norris, keeping her voice steady with an effort, wouldn't do that to two girls."

'All right, Morg. All right. Just as

Scowling at her, he answered harshly, "Don't fool yoreself." "But it's like your friend said. The whole country would hunt you down and stamp you out." "I can look after myself, I reck-

on," he told her; and added, "I need (TO BE CONTINUED)

### New Fabrics of Sheer Loveliness

By CHERIE NICHOLAS

diaphanous, airy-fairy transparent | flected in the styling of this very fabrics, either cotton or silk. The new sheers are simply enchanting and they are the sought-for kind to make up into gowns for picturesque garden party wear or for dancing under star-spangled skies or when dining at fashionable roof-garden gatherings where beauty and romance keep rendezvous.

Gowns designed to grace summertime scenes are fashioned of wispy chiffons either printed or monotone, or of organdies crisp, sheer and intriguing, or of dainty silk marquisette which is an especial favorite. Then there are the soft fine cotton voiles in pretty colors and as for lace every summer wardrobe is expected to include at least one party frock made of it. As a matter of fact lace is playing a stellar role this summer. The lace that captures the heart of enthusiasts is a delicate-as-cobweb type the patternings of which is a mere tracery. Gowns of this fetching lace have all-around pleated skirts, since it To dine and dance in ingenue

been added to the list. The crinkled organdies either plain or printed sell at sight. They make up charmingly and are easily tubbed, require little or no pressing to keep them crisp and sprightly as new. For week-end trips they are ideal as they do not crush in pack-

You will be delighted with the new lace-printed Swiss chiffon organdies. The entrancing frock centered with outspread skirt in the foreground gives an idea of how effectively the lace-stripe organdie

The charming and pic-mer is the sheer loveliness of turesque Winterhalter vogue is retiny-waisted and full-skirted dinnerand-dancing gown (a winsome garden party frock, too) in one of the fashionable printed Swiss chiffon organdies. A very fine lace patterning in white stands out clearly against a deep navy blue back-There is a full-cut underground. skirt of white organdie to make the frock stand out almost on ballet skirt lines. The diminutive bolero jacket worn over the drop-shoulder bodice is finished with little ruffles of val lace laid on over the lace

The material that fashions the frock to the left is peach silk mousseline. It is prettily styled with vertical ruche-ruffling of self-fabric outlining the skirt gores, the puffed sleeves and there are ruffles about the neck.

Hyacinth blue lace with touches of cerise lace is used for the graceful gown centered in the picture. It was introduced at the Miami fashion show and is one of those pleasing yields beautifully to this treatment. types that carry on into new triumphs for summer party wear. thought, one that had just come into frocks of simple cottons made up One of its charms is that the lace his mind. Could he use her, as a formally is considered quite the indicates stripes and striped effects swank thing to do. The thrilling note | lead in the mode. in regard to this season's organdies

The printed chiffon frock to the is that so many new types have left gives a delightful interpretation of the slim silhouette for summer. The patterning is spaced tulips in blue, red, green and black on a sheer white background. The gathered bodice suggests the Directoire. Contrasting shades of green and blue silk make the girdle and sash which forms a train. Flower bracelets are worn with it and an enormous poppy on the head instead of a hat, which goes to show the intriguing and unique ways in which flowers now play their important role in costume ensembling. © Western Newspaper Union

#### TWISTED DRAPES ARE HANDSOME SUIT **NEW STYLE FEATURE** By CHERIE NICHOLAS

By CHERIE NICHOLAS

Designers are performing all sorts of interesting tricks with twisted drapes and as time goes on the idea is taking on added interest. When you see a dress or blouse the drapes of which tie themselves into fanciful knots or twist into clevat the whole Chiswick tribe. He er intricacies be assured that the garment is a "last word" fashion. Be on the lookout for these intertwisted, inter-coiled effects and

choose your new frocks accordingly. This type of styling invites the hand with it. The slender grace of use of color contrasts. For instance, the bodice top of a navy dress may have drapes coming from the shoulder, say in the new fuchsia shade, the same coiled. twisted and perhaps knotted across the bustline with infinite grace. Or the dress may be in monotone, the artful, twisted designfulness being the only trimming feature. White crepe frocks, with twists done in The other three in the room stared crepes of vivid contrast or carat Norris, Kansas with incredulity, ried out in pastel tones are top-

A new feature in styling is the "The hell we are!" Kansas re- all-over shirred bodice with skirt of the material simply tailored. The all-over shirred jacket is likewise a fashion highlight. Chiffon and sheer marquisette yield to this treatment most charmingly.

> Paquin Favorite A favorite Paquin model for evening is the long skirt of bias cut topped by a marquisette blousethe entire thing in white, black or pale rose.

★ Story of Earhart

★ Norma Steps Out - By Virginia Vale -

MOVIEDOM is still gasping a little over the elopement of Frances Langford, the radio singer and movie actress, and Jon Hall, who skyrocketed to fame in "Hurricane" and hasn't been seen on the screen

Just after it was announced that they wouldn't marry until he had become more firm-

Frances Langford

Even after Hall made such a hit in "Hurricane" he drew only \$150 a week for some time-mere chicken feed in Hollywood-but this salary was finally raised to \$200.

Kay Francis' last picture under her present contract will probably be based on a story that she herself wrote and sold to the studio. It's all about a famous aviatrix who goes into a round-the-world flight contest, and gets lost on a desert isle. Can it be possible that Miss Francis heard about Amelia Ear-

Fashion news: Claudette Colbert has a daytime costume of dark blue with white floral buttons down the side of the jacket, like one which the duchess of Windsor likes to wear. Recently, one evening in New York, Helen Vinson wore a black chiffon gown with a skirt yards and yards wide, banded with many rows of narrow black velvet ribbon. No shoulder straps.

The New York revival of those two Valentino pictures, "The Sheik" and "The Son of the Sheik," was so successful that Agnes Ayres, the heroine, has been booked for a 20weeks' personal appearance tour.
And two more Valentino pictures will be brought forth.

Speaking of those Valentino pictures, Verree Teasdale and Adolph Menjou were in New York, before sailing for Europe, when they were being shown, and he was none too anxious for her to see "The Sheik" and see how funny he looked on the screen in those days.

Norma Shearer would like to do a smart modern comedy, after her long siege of costume pictures, so you may see her in "The Women,"

**NORMA SHEARER** 

which had a long run as a successful play before being handed over to motion pictures. Norma has a way of getting what she wants—as Marion Davies found out when they both wanted "Marie Antoinette" and Norma got it.

Remember Eric von Stroheim, who used to make pictures ('Greed' and "Foolish Wives' Wives" among them,) that cost millions? He's acting in French pictures now -which usually cost not more than

\$75,000. Incidentally, Jean Hersholt was reminiscing about "Greed" the other day-how it was way over the right length, and von Stroheim felt so badly about having it cut that he wouldn't even look at the film that was finally released.

ODDS AND ENDS-A radio actor and director who learned nineteen languages is on the air—as a dialect stooge and imitator of animals . . . Many of the professional radio announcers are bad, but after hearing a dozen amateurs try out the other day the worst of them sounded marvelous . . . Bette Davis re-fused to be included in a list of moviedom's ten most beautiful girls; said "The idea is silly, because I'm not even a near beauty" . . . It's said that Metro spent \$250,000 developing "I Married an Angel" as a picture, and finally abandoned itwhereupon it was bought for the stage, where it's a tremendous success.
