HOME-CANNED FOODS ALWAYS WELCOME

Sugar and Spice

I've long believed that one reason the art of canning and preserving has been neglected is that many of us have forgotten just how good some of the home canned foods can be. We've forgotten the teasing tang of pickling spices, the mellow aroma of rich fruit butters that used to make the air fragrant at canning time. Maybe we need only to be reminded of all this to restore a lost

What pride of accomplishment row upon row of jewel-colored jams, jellies and mar-

malades can create! And how simple it is to make them in the modern manner! You'll find these

from my own Dinocan-What, a dollar for cof- kitchen as practical as they are delicious. Detailed instructions are included in each recipe; you'll find these general suggestions helpful,

> For Success in Canning and Preserving.

1. Make only a small amount of the product at one time. 2. Follow the recipe exactly.

3. Be sure that jelly glasses, jars, and covers are sterilized. 4. When they are to be filled with hot food, place the hot glasses or jars on a clean towel wrung out of

5. Use a small, inexpensive teapot for melting paraffin and pouring it. It eliminates dripping wax all over the glasses and your work table. 6. Store jams, jellies and preserves in a cool, dry place.

Peach Conserve. 3 pounds of peaches (peeled) 2 oranges (cut in small pieces)

1 pound seedless raisins 3 pounds sugar 1 pound chopped walnuts

Scald peaches, remove skins, cut into small pieces; discard pits. Place in a sauce-

pan with small pieces of orange pulp and peel, raisins and sugar. Stir until sugar is dissolved.

Set over a slow flame and cook until thick, stirring occasionally. Add the chopped walnut meats, pour conserve at once into hot sterilized glass jars or glasses.

Amber Jam. (Makes 8 glasses). 3 oranges 2 lemons 4 apples

2 cups crushed pineapple

Sugar Grate rind of one orange and one

lemon. Then peel the remaining 2 Illinois. oranges and the lemon, being care-

ful to remove all of the white part of the skin. Peel and core the apples. Put all of these fruits through the food chopper and then add the grated orange and lemon rind, and the pineapple. Measure this fruit and to it add

an equal amount of sugar. Bring slowly to the boiling point and cook, stirring frequently, for 1/2 hour. Pour into sterilized jelly glasses and top with paraffin.

Note: Amber Jam is delicious when used as a cake filling or as a topping for ice cream.

Whether your cookie jar is an old-fashioned earthen crock, or a brightly painted tin on the pantry shelf, it needs to be kept filled to satisfy a hungry family. this column, next week, Eleanor Howe will give you some of her favorite cookie recipes-"Grandmother's Sugar Cookies," and "Butterscotch Brownies" are just two of the delightful recipes you'll find here.

Blackberry Jam. Wash and drain berries; then pick over and remove the hulls. Take 4 cups of berries

and 2 cups of

sugar; let come to a boil, and boil 5 minutes. Add 1 more cup sugar and boil 5 minutes longer. Then add 1 more cup sugar and boil approximately 5

minutes more, or until the jelly stage is reached. Then place in sterilized jelly glasses and seal when Makes 4 small or 3 large

tumblers. Pickled Peaches.

1 peck small peaches 4 tablespoons whole cloves 2 quarts vinegar 6 pounds brown sugar

4 teaspoons mace 1 tablespoon stick cinnamon

er with syrup and seal.

(broken in small pieces) Peel the peaches and stud with whole cloves. Make a syrup of vinegar, sugar, mace and cinnamon. Add the peaches and boil until tender. Pack in hot sterilized jars; cov-

Easy to Find Answers in This Book. How to fry fish without spattering of fat, how to cut grapefruit or oranges into skinless sections, a quick method of peeling tomatoes, how to restore over-whipped cream-suggestions for all of these are found in Eleanor Howe's book "Household Hints." ## Decoration Should Become Type of House

By BETTY WELLS

A five-room frame cottage has its own particular kind of charm, but it is no satin damask and formal drawing-room sort of business. In the essential characteristics of a tage typical of a familiar American

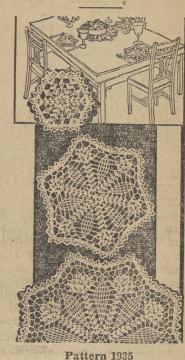

There are other styles of furniture, however, that are equally at home in a cottage scene. French provincial pieces, important in the fashion picture just now, are perfect for use in a small cottage of five or six rooms. They lend themselves to many fresh and interesting decorative backgrounds and yet, for all their forthright simplicity, they

have a poise and refinement that It's a losing game to try to look gives them dignity for use together like something you aren't. That or ensembled with American furni-goes for houses as well as people.

We are thinking now of a French provincial living-dining room recently designed for a newly built American home. The mantel wall order to make the most out of what | was covered with a toile de Jouy you have, it is smarter to play up | patterned chintz in green on cream, while the other three walls of the small cottage. The average Amer- room were painted cream with ican woman instinctively does this, scroll-panels painted in light green. which explains the popularity of The same chintz used on the wall colonial maple—it fits so graciously was quilted to cover several pieces into the friendly, unpretentious cot- of upholstered furniture, while other pieces were in a provincial plaid covering of soft coloring. A braided oval rug for the floor, crisp white muslin curtains at the windows and accessories of French pottery and pewter completed a charming background for walnut furniture of French provincial ancestry. (Consolidated Features-WNU Service.)

Leftover rice blends well with

Beautiful Crocheted Doilies for the Table

Add that touch of luxury that marks a well-kept home. Crochet a large lace doily for a centerpiece—a large and two mediumsized ones for buffet set-three sizes repeated for a luncheon set! The large doily measures 18 inches, the medium one 12 inches and the small 6 inches. Pattern 1935 contains directions for making doilies; illustrations of them and of stitches; materials re-

quired; photograph of doily. Send 15 cents in coins for this pattern to The Sewing Circle Needlecraft Dept., 82 Eighth Ave.,

New York. Please write your name, address and pattern number plainly.

Cretonne Curtains.-When you wash curtains or loose covers of cretonne, put a large cupful of vinegar into the rinsing water. It brightens the colors.

Colorful Berries .- To make sure berries will retain their bright color be careful not to overcook them. If they are used in preserves store the jars in a dark place.

Biscuit Pans.-Pans used in baking biscuits should not be too deep. Otherwise the biscuits will not brown evenly on all sides. Select a pan that is about one inch deep.

\* \* \* Vegetables.-Keep root vegetables in a rack, not touching each other. Keep lettuce in a muslin bag suspended from the larder ceiling. Use left-over vegetables the same day, as they readily putrefy and become sour.

Add Horseradish .- A little horseradish added to salad dressing or white sauce makes a piquant sauce for fish. Horseradish also may be added to whipped cream and served with baked, boiled or

fried ham. Removing Tomato Skins.—To skin tomatoes easily, place them in a basin, pour boiling water over them and let them stand a minute. You will find that the skin can be

removed without any trouble. Sandwiches. - Left-over liver, passed through a sieve, well seasoned, and moistened with lemon juice and a little melted butter, makes a tasty and unusual sandwich filling.

Sugar Sirup for Sweetening.— Use sugar sirup instead of granulated sugar for sweetening chilled beverages and punches. Boil together for three minutes two cups of granulated sugar and three cups of water. Allow the sirup to cool, then store it in a covered jar in the refrigerator.

I AIN'T AFRAID OF FLIES OR SKEETERS

# Recent Change in Louisiana Chief Executives Recalls Some of the Picturesque 'Governors' Who Ruled That Spanish-French-American State

The Place d' Armes where Governor Galvez made his stirring appeal for French volunteers to enlist for service against the British. The buildings shown are (left to right) the Cabildo, the St. Louis cathedral, the Presbytery and the Pontalba apartment. In the foreground is Jackson square and a replica of the famous "rocking horse" statue of "Old Hickory."

By ELMO SCOTT WATSON (Released by Western Newspaper Union.)

THE recent resignation of Gov. Richard W. Leche of Louisiana and the consequent installation of Lieut.-Gov. Earl K. Long in the executive mansion at Baton Rouge, once occupied by his brother, Huey P. Long, have added another chapter to the colorful, and frequently turbulent, history of the chief executives of the Pelican state. It began while Louisiana was a French colony, it continued under Spanish domination and it characterized the early years, as well as the more recent ones, under the American flag.

If the redoubtable "Kingfish," when he was governor, ruled Louisiana more like the dictator of a totalitarian country than the duly elected head of an American commonwealth, he was only following in the footsteps of a predecessor - an Irish adventurer who, paradoxically, was the "Spanish governor" of Louisiana just 170 years ago. His name was Alexander O'Reilly.

O'Reilly was born in the Emerald Isle in 1725 and at an early age enlisted in the army of Spain. He fought in Italy during the War of the Austrian Succession and later served in the armies of France and Austria. Then he returned to the Spanish army and was made commander of a brigade. Next he was sent to Cuba to repair and improve the fortifications of Havana and for his work there he was made inspector-general. He returned to Madrid in 1765, just in time to help thwart a plot against King Charles III and aid in saving the life of that monarch who soon had an opportunity to show his gratitude to the Irishman and reward

him accordingly. By the Treaty of Paris of 1762-63 between France, England and Spain, France was forced to surrender to England not only Canada, but also that part of old Louisiana lying east of the Mississippi, with the exception of the island of Orleans" in which was included the city of New Orleans, the capital of the colony.

Ceded to Spain. The "island of Orleans" and all of Louisiana west of the Mississippi was ceded to Spain, ostensibly as a free gift from France. In reality, of course, France was giving this country to Spain to keep it from falling into the hands of the English and with the hope, which was later realized.

of getting it back again. Although France thus ceded the principal part of Louisiana to Spain in 1762-63, it was not until March, 1766, that Don Antonio de Ulloa arrived in New Orleans to supersede Aubrey, the French governor. But the inhabitants of Louisiana were not especially happy over the transfer of their country without their consent and the result was a revolution against the new rulers. In October, 1768, the superior council in New Orleans decreed the expulsion of Ulloa, who fled to Havana.

When King Charles III of Spain learned of this, he determined to crush the rebels and he picked General O'Reilly for the task. He appointed the Irishman governor of Louisiana, gave him an army of 2,600 picked men and a fleet of 24 ships.

O'Reilly reached New Orleans on August 18, 1769, and at once issued a proclamation in which he declared that only those who had headed the movement against the Spanish would be punished. All of the leaders, 12 in number, belonged to the nobility but that did not save them. One, already taken into custody, died on a Spanish warship. The others were courtmartialed and found guilty and six of them, including Lafreniere, former King's Attorney-General in Louisiana, and Milhet, the wealthiest merchant in New Orleans, were shot.

Next O'Reilly dissolved the old superior council of Louisiana and replaced it with the Spanish su-

preme council, or cabildo. He also put into practice the arbitrary colonial regulations of Spain and decreed a new "black code" which provided the severest penalties for all kinds of

For a year the people of Louisiana suffered under his autocratic rule. Then he was recalled to Spain and in 1775 placed in command of an expedition against Algiers which was unsuccessful. But he apparently did not lose the confidence of his monarch for he was subsequently made com-mander-general of Andalusia and governor of Cadiz. In 1794, while he was on his way to assume command of the army of the eastern Pyrenees, he died and it is probable that there was no mourning in Louisiana when news of his death reached there.

Quite different was the attitude of the Louisiana citizens, both French and Spanish, toward the man who became their governor in 1777 and their American contemporaries had a special reason for remembering him gratefully, too. For he helped them win their war for freedom from Engnd. Bernardo de Galvez was his name and he was born of a distinguished and powerful family at Malaga, Spain, in 1756.

As a youth Bernardo de Galvez was ambitious to win military glory and did so on his first expedition. Made colonel of the regi-

DON BERNARDO DE GALVEZ

ment of Louisiana, he went to the colony in America in 1776 and when Don Louis Unzaga, who had succeeded O'Reilly as governor, asked to be recalled, Galvez, through his family's influence. was appointed to that post, although he was then barely 24 years of age.

The young governor promptly restored to the French colonials the right to trade with France, thereby winning their gratitude. His predecessor had followed a policy of "benevolent neutrality" toward the American colonies who were then in revolt against England. Galvez not only contin-

ued that policy but went farther. In 1778 the continental Congress sent a Captain Willing to New Orleans to get munitions which the Patriot army so sorely needed and Galvez not only permitted the sale of arms and ammunition to Willing but contributed \$70,000 to

the American cause. The king of Spain had offered to mediate in the dispute between England and her American colonies and when the offer was spurned, Spain followed the example of France and on May 8, 1779, declared war on the English. The following July Galvez received permission from his king to seize the British forts in Alabama, Mississippi and West

Galvez called a meeting of the French inhabitants of New Orleans in the historic Place d' Armes and as a dramatic gesture announced that he would renounce the governorship if the natives would not support him in his expedition against the Engsh. Since France had already joined forces with the Americans. since there were in New Orleans many Acadian refugees, who had good reason to hate the English, and since the boyish Spanish governor had endeared himself to the French in many ways, the young men of that city didn't hesitate long before volunteering to accompany him.

Rejecting the suggestion that he wait for reinforcements from Havana, Galvez, with 670 men, Spanish regulars, French Creoles, Acadians and American volunteers under Oliver Pollock, seized the British fort at Manhuac, captured Baton Rouge and received the surrender of Natchez. The next year Fort Charlotte at Mo-

In 1781, re-enforced by a fleet and army from Havana, Galvez attacked Pensacola. When the men-of-war attempted to cross the bar, however, the San Roman ran aground and the commander of the fleet, Commodore Calbo de Irazabel, declined to risk any more of his frigates.

A Bold Exploit.

Galvez, who realized the importance of having the fleet to be assured of arms and food on St. Rosa island, his base, resolved to shame the commodore into cooperating. He embarked, therefore, on the brig Galveston, commanded by Rosseau, a Creole, and raised his pennant on the brig. Followed by a schooner and two gunboats, he boldly entered the port and acted with such valor that the main squadron followed the next day and safely crossed the bar.

After several months' siege Fort George and Fort Red Cliff were taken and the way to the main defenses of Pensacola opened. A terrific bombardment was continued until an explosion made a great breach in the walls. Then a storming party rushed in and compelled the surrender of General Campbell with his garrison of 800 regulars.

As a reward for Galvez's brilliant success, the king made him lieutenant-general of Louisiana. the Floridas, East and West, and Cuba. He was also given the royal permission to place upon his coat of arms a figure of the brig, Galveston, with the motto "Yo Solo" (I Alone). In 1785 he was made viceroy of Mexico to suc-ceed his father. He died there in 1786 after having been viceroy for

only a year. The name of Don Bernardo de Galvez lives today in the great city or Galveston, Texas, but Americans have other reasons for remembering him. Not only did he provide the patriot army with munitions at a time when they were most needed, but his conquests of the British posts in the Southeast prevented their using them as bases of attack on the Americans in the old Northwest in Georgia and the Carolinas.

When the Revolution ended, had England held the Mississippi as well as the St. Lawrence the boundaries of the new nation, as well as its future destiny, might have been far different from what they became. Spain later ceded Louisiana back to France and Napoleon Bonaparte sold it to the United States. England made one more effort to gain a foothold on the Gulf of Mexico when, toward the end of the War of 1812, she landed an army near New Orleans. What happened to it when it attacked Gen. Andrew Jackson's army on January 8, 1815, is history.

The first American governor of Louisiana, like some of his predecessors and some of his successors, had his troubles. And one of his worst troubles was an individual named Jean Lafitte.

This first governor was William Charles Cole Claiborne, born in Sussex county, Virginia, in 1775. In 1801 his fellow-Virginian, President Thomas Jefferson, made him governor of the Territory of Mississippi and two years later he was appointed commissioner, with Gen. James Wilkinson, to accept the transfer of the Louisiana Purchase from the French. He was appointed governor of the province of Louisiana for three years and when it was made a territory in 1804 he resigned control of Mississippi Territory to

In 1810 Claiborne took possession of Baton Rouge and Mobile, which up to that time were still held by the Spanish, despite the fact that the French had sold Louisiana to the United States. Two years later, by an act of congress, Louisiana was made a state and the people of the new state elected Claiborne as their first state governor. And then his troubles began.

The source of these troubles were two brothers, Pierre Lafitte, and his younger brother, Jean—two Frenchmen who had come to New Orleans by way of the West Indies. At first they acted as agents for a colony of smugglers living in the Bay of Barataria. Then they became their leaders and moved their home from New Orleans to the island, Grand Terre, in the Bay

From that time on the record

M. C. C. Clail one

exact nature of the Lafittes' activities. Jean Lafitte always insisted that it was privateering and that they preyed only upon ships carrying enemy flags. But historians are pretty generally agreed that it was piracy and it is as "Lafitte the Pirate" that he has come down in history.

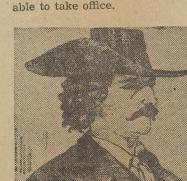

The people of New Orleans were inclined to view these activities lenient they enjoying being able to buy all sorts of goods at a lower price than that charged by more ethical venders of merchandise than the La-fittes. But Governor Claiborne was not inclined to wink at such goings-on within his jurisdiction.

So on November 24, 1813, he posted his famous proclamation offering a reward for the cap-ture of "Jean Lafitte, pirate." Two days later Jean Lafitte, cleverly using the same language as the chief executive of the state, posted a proclamation offering a reward of \$1,000 for the delivery of Governor Claiborne at Grand Terre! Thereupon New Orleans shook with laughter. But not

Governor Claiborne. He saw to it that all of the Baratarians were indicted for piracy and when Pierre Lafitte was caught in New Orleans, he was held without bail. When he came to trial, however, two famous attorneys whom Jean Lafitte had hired for a fee of \$20,000 succeeded in getting him acquitted. Soon afterwards, however, public opinion changed and plans were made to wipe out the nest of pirates in the Bay of Barataria. Pierre Lafitte was again arrested and this time he was kept

in jail. Then came the invasion of the British army, Jean Lafitte's offer of his services and those of his men to the American cause, the effort of British officers to enlist the services of the Baratarians and Jean Lafitte's clever bit of double-crossing of them. He sent Governor Claiborne news of the British proposition and renewed his offer to serve the Americans. As a result Pierre Lafitte was allowed to escape from jail and the Lafittes and their Baratarians served valorously in Jackson's army which whipped Pakenham's redcoats at the historic Battle of New Orleans on January 8, 1815. As a result of this patriotic service Jean Lafitte and his followers were legally forgiven by the federal government and reinstated

to American citizenship. Presumably they were forgiven by Governor Claiborne, too. At least he was troubled no more by the Lafittes who established a pirate colony near Galveston, Texas, then ruled by the Spanish. In 1816 Governor Claiborne was elected United States senator but died in New Orleans on November 23, 1817, before he was

ANNE B. JUMP

TEMPLE BAILEY writes

Frederick Towne, wealthy, arrogant business man, thought he could buy the love of attractive, unso-phisticated Jane Barnes.

He couldn't understand her love for melancholy, despondent Evans Follette, who had always wor-shipped her. Towne could offer her everything Evans lacked—servants, a beautiful home and assured social position. But he

didn't need her. Temple Bailey's warm, close to life story, "The Dim Lantern," is one of her best. You'll thoroughly enjoy every installment. Read it

# HARRINGTON, DELAWARE

# A BIG CAR AT A SMALL PRICE

V-8 ENGINES - Your choice. 85 hp. for extra performance 60 hp. for extra economy.

HYDRAULIC BRAKES — Smooth, tast, easy-acting. Built to strict Ford standards of safety.

TRIPLE-CUSHIONED COMFORT - Softer seats, flexible springs, four big hydraulic shock

SCIENTIFIC SOUNDPROOFING Noises hushed, vibration reduced by careful research.

THERE are good reasons why so many folks are talking about the 1939 Ford V-8!

One obvious reason is the fact that it provides so much car for so little money. Actually, it costs less than a Ford car of the same size and power sold for last year! And its low price includes many

items of desirable equipment. The Ford V-8 has all the room and all the basic features of the De Luxe Ford. Some of

them are listed at the left! But riding is better than reading. Out on the road, you'll soon understand America's enthusiasm for the car that is big in everything but price!

## Who Creates CREDIT?

HE suggestion has often been made that banks should "create more credit."

The truth is that a bank is only one of the parties necessary to the creation of credit. The other is a worthy borrower, able to employ bank funds profitably and to repay them

This bank has money to lend. It is anxious to make sound loans. If you wish to borrow, we will welcome your application

The First National Bank OF HARRINGTON

Harrington, Del. MEMBER OF FEDERAL DEPOSIT INSURANCE CORP.

MEMBER FEDERAL RESERVE SYSTEM

Federal deposit insurance is an extra protection which we have provided for our patrons in addition to the safety

which this bank itself gives you.

Protects You

How DEPOSIT INSURANCE

Your deposits are insured up to \$5,000 by the Federal Deposit Insurance Corporation. You can, therefore, bank here secure in the knowledge that your money is really safe—safer than it would be in almost any other place you could find for it, or in any investment, however sound. Also, you know that you can get it quickly any time in case of need.

THE PEOPLES BANK OF HARRINGTON HARRINGTON, DEL.

# Get the Most Water System for Your Dollar ...

WE looked them all over. We compared and we investigated and we reached the same conclusion you will reach if you compare.

A Goulds Automatic Water System Gives You the Most for Your Dollar

You can depend upon it to give trouble-free service year after year. Its efficient design makes it low in upkeep. Its extra strong parts prevent breakdowns. Its exclusive features make it outstanding.

Come in and let us show you why the men who want

the most for their money buy the Goulds. O. A. Newton & Son Co.

Bridgeville, Del.

## WHO'S **NEWS** THIS WEEK

By LEMUEL F. PARTON

NEW YORK.—Perhaps it is the heat, general, it seems, throughout the civilized world these days, or more likely it is one of those

waves of human Born in Wealth, aspiration that Ellsworth Picks sometime

rate in announcing intention to rethe bottom of the world, Lincoln Ellsworth shares ambition with Admiral Byrd, as with British, Nor- Communist: wegian, French and Argentinan flyer-explorers. Difference is that, whereas Mr. Ellsworth's motives are purely scientific, in other cases international politics in their relation to geographical claims are the

Love of adventures manifested when yet in his 'teens sent Ellsworth forth to explore unknown regions in different parts of the world. Scion of wealthy parents, born in Chicago in 1880, he could have ordered his career, had he wished, along many lines less strenuous and of fewer hazards than the one he chose and in which he has become so distinguished. He came east to a crack seat of secondary learning, the Hill school, Pottstown, Pa., and upon graduation entered Columbia where he won scholastic honors in the department of civil engineering. But, becoming restive under the sedentary routine of student life, he did not wait to be graduated.

Faring forth into the wild, he became an axman on the first Grand Trunk Pacific railway survey of the transcontinental route across Canada. For five years he saw the virgin land of the Northwest, lived among Indians, shared the hard-ships of pioneers. In 1907 he became resident engineer of the Grand Trunk at Prince Rupert, B. C.

But his work, filled though it was with hardship and adventure, was not enough. Restlessness was in his soul and the unknown beckoned. So 1909 found him in the Peace river district in northern Canada, prospecting for gold. Then the World war came and, seeking action, he went to France where he became an aviator long before the United States entered the strife.

The real turning point in his career came with his meeting with Raoul Amundsen in Paris in 1924. With the great Norwegian explorer he participated in various expeditions culminating in 1926 with the famous flight in a dirigible over the North pole. Since then subsequent trips of exploration won him enhanced fame and added thrilling chapters to a gallant life of action.

DROFESSOR J. B. S. HALDANE, the famous British biochemist, who just now offers to sit inside an air-raid shelter while it is bombed from the out-

Scientist Balks side, is the At Nothing, as only living testtube—still un-Yet Unscarred

Last month he sealed himself in an air-tight chamber for 14 hours to learn how the victims of the Thetis submarine disaster felt in their last hours. He once ate an ounce of ammonium chloride a day, survived it and learned a lot about tetanus and saving children's lives. Studying fatigue, he shut himself for long periods in a tight chamber, the air charged with carbon dioxide. Tracing effects of acid on the body, he ate daily three ounces of bicarbonate of soda, following it with a chaser of hydrochloric acid, diluted with water. Twice gassed in the World war, he seemed to enjoy himself a lot, writing down his sensations with Gusto and later qualifying as an expert on mustard and other gases.

With all that, he hasn't a scratch on him and doesn't suffer even from indigestion. Husky and vigorous, he doubles as guinea pig and a writer, the latter pursuit greatly enhancing his fame, notably with his book Daedalus, which was quite a sensation in this country in 1924. He experiments on his mind just as he does on his body. He is moved mainly by the idea that we know precious little about life and death and the human body and mind, and that in the short time allotted to us we ought to try anything once, which he consistently does. He is a spirited writer, giver to epigrams, and is known as the G. B. Shaw of Science.

The son of a distinguished Scottish scientist, he was educated at Oxford and gained increasing reputation before he was 30. He is 47.

DOMESTIC:

Un-Americanism

Dearly beloved by congressional investigating committees are the hot days of a Washington summer when the slightest ruffle of news makes national headlines. Into this scene last summer came a new figure, Texas' Rep. Martin Dies with his Hazardous Life sweep the loud-but-not-accurate committee investigating un-Americanism.

This summer Martin Dies came turn to Antarctica to seek to learn back with a new committee and a some of the primal secrets hidden new appropriation. At its first sesin the interior of the continent at sion the committee gave reporters a story as newsy as last year's accusation that Shirley Temple was a

Fritz Kuhn. After hearing his life story, Alabama's Rep. Joe Starnes made so bold as to ask Fuehrer Kuhn if his organization wasn't intended to establish a Nazi government in the U.S.

"That's an absolute lie—a flat lie!" shouted Kuhn. Flaming with anger, Joe Starnes to meet the invader coming up jumped to his feet. Shoving report- through Manassas. ers and photographers aside he strode toward the witness crying:

'Don't call me a liar!" When capitol policemen had put an end to these fighting words, the committee got down to more serious work. With calm deliberation, Illinois Rep. Noah Mason drew enough information from the witness to make German-American bundism distasteful. When faced with the accusation that his bund is "a moneymaking racket based on the credulity of the American people," Kuhn countered by listing these strange Only in tanks, he said, is the army man-American element, (2) to fight communism, (3) to give the German element "political background."

The committee also learned Fuehrer Kuhn had visited Hitler in 1936, had given him \$3,000 for winter relief and had worn a Nazi uniform in a Berlin parade. His brother is a Berlin supreme court justice. His 20,000 bund followers (whose records have been destroyed) are pledged to defend the "good name of the

mother country-Germany." Most Americans, reading about Martin Dies' newest revelations, agreed the committee had made a good start. Still on the docket, however, was a list of some 110 witnesses whom agents have rounded up since last February. Observers hoped this summer's investigation wouldn't follow last year's patterna forum for unburdening grudges.

Then came signs of trouble. His advisors and possibly the President, | ter to the Young Democrats of as well, felt that congress could be made to do his bidding. Republican opposition and the chiding of memic party nominates his kind of a libbers of congress that they were rubber stamps began to have an effect. A test was coming and most politicians realized it. Through the session of congress last year and that which only recently ended, Mr. Roosevelt followed the same tactics as before—but the change had come and the course was blocked. It was no longer a period in which the will of the President was wholly and

completely dominant. All of which brings to mind the real facts in the case insofar as the as an open invitation for warfare. causes of the President's current ineffectiveness are concerned. It is the old story. Any ball team looks | Complete and Decided Flop good when it is in the lead, when it is winning. Any race horse is a wonder only so long as it continues to win. It can be said, therefore, that having slipped considerably both in political prestige inside his own party and outside of it, and having allowed some of the wide public endorsement to get away from him. Mr. Roosevelt is now being regarded as a human being who can make mistakes. Any mistakes that he may have made while he remained the winner were discounted or ignored. It seems likely, however, that all of them will be dug from their graves now and he must answer for them.

Makes Bad Break in Digging Up Supreme Court Skeleton

The result was the membership, always hankered for a same: it made the President look Along with Mr. Roosevelt's statement about Argentine canned beef

own beef, I think we ought to rank ally came to the conclusion that the the President's statement about the lack of fire now often displayed in refusal of congress to pass the spending-lending bill and the housing bill. It struck me as being very among his followers are a natural bad politics for the President to result of events. He has been found climb 'way out on a limb and say by many people to be just human. that "the congress gambled with Like his predecessor in the White the welfare of 1,500,000,000 people Mr. Hoover, President when it failed to enact the adminis-Roosevelt was overbuilt or oversold tration's neutrality bill; it gambled with the welfare of 20,000,000 when belled as superman, and that is one it refused to pass the lending bill of the worst things that can happen | and the housing bill." He implied, of to a politician; it is the worst thing course, that refusal of congress to accept the President's judgment on the neutrality measure would cast the world into war, and that the action on the lending and housing bills would mean there could be no economic recovery

> President Sincere About Spending and Housing Bills

So, evidently the two or three defeats that were clustered together made the President appear differently than when he had been on the winning side. There were even some of the President's enemies charging him with qualities of a poor loser. I do not believe that is the case. There I believe it a fair statement that is evidence that the President sinthe success which met Mr. Roose- cerely believed his lending measvelt's every turn during the period | ure and the housing program would of his tenure—until perhaps 18 do the job of restoring a prosperous months ago-was due to this illusion | condition to the country. He has that had been created. To repeat: played the game of politics too long

that congress was gambling. From It is entirely possible that Mr. among Democrats who voted country possibly gave him a false them he obviously invited "back talk" of the worst order. He has

Take another incident. Only a week ago, the President sent a let-America, meeting in Pittsburgh, to eral, he will take no active part in electing that nominee. In other words, he said actually that he would bolt the party.

Immediately, he got a reaction to that statement that just did him no good at all. Now, it is one thing to lead the party which is united: it is quite another horse to be led when the part is split; and the Democratic party is split. The declaration to the Young Democrats, therefore, was received by a good many Democrats

Attempted Purge of Senators

One has to consider the statement to the Young Democrats in the light of some earlier mistakes. Everyone recalls how the President attempted to "purge" the Democratic party of Senators George of Georgia, Smith of South Carolina, and Tydings of Maryland, last year. That purge attempt flopped in a way that beggars description. Each of those three were re-elected to the senate and when they won their fight, they asserted their own judgment in preference to Mr. Roosevelt's.

There is also the surge that has come, building up "Cactus Jack" Garner for the Democratic nomination, next year. Now, Vice President Garner is a conservative. He has had nearly 40 years of public Nor is Mr. Roosevelt willing to let | service. Obviously, he has a followsome of them die unnoticed. SYNOPSIS

Young, pretty Jane Barnes, who lived with her brother, Baldwin, in Sherwood Park, near Washington, was not particularly impressed when she read that rich, attractive Edith Towne had been left at the altar by Delafield Simms, wealthy New Yorker. However, she still mused over it when she met Evans Follette, a young neighbor, whom the war had left completely discouraged and despondent. Evans had always loved Jane. That morning Baldwin Barnes, on his way to work in Washington, offered assistance to a tall, lovely girl in distress.

CHAPTER II—Continued

When at last Baldy drew up at the little way station, and unfastened the curtain, he was aware that she had opened the suede bag and had a roll of bills in her hand. For a moment his heart failed him. Was she going to offer him money?

But what she said, with cheeks flaming, was: "I haven't anything less than ten dollars. Do you think they will take it?"

"It's doubtful. I have oodles of change." He held out a handful. "Thank you so much, and—you must let me have your card—"

"Oh, please-Her voice had an edge of sharpness. "Of course it must be a loan." He handed her his card in silence. She read the name. "Mr. Barnes, you have been very kind. I am tremendously grateful.'

"It was not kindness-but now and then a princess passes."

For a breathless moment her amazed glance met his-then the clang of a bell heralded an approaching car.

As he helped her out hurriedly she stumbled over the rug. He caught her up, lifted her to the ground, and motioned to the motor-

The car stopped and she mounted the steps. "Good-by, and thank you so much." He stood back and she waved to him while he watched her out of sight.

His work at the office that morning had dreams for an accompaniment. He went out at lunch-time but ate nothing. It was at lunch-time that he bought the violets—pay-ing an unthinkable price for them, and not caring.

It was after office that Baldy carried the flowers to his car. He set the box on the back seat. In the hurry of the morning he had forgotten the rug which still lay where his fair passenger had stumbled over it. He picked it up and something dropped from its folds. It was the gray suede bag, half open, and showing the roll of bills. Beneath the roll of bills was a small sheer handkerchief, a vanity case with a pinch of powder and a wee puff, a new check-book-and, negligently at the very bottom, a ring—a ring of But he had not permitted its publisuch enchantment that as it lay in Baldy's hand, he doubted its reality. with anxiety. yet strong enough to bear up a carved moonstone in a circle of diamonds. The carving showed a delicate Psyche—with a butterfly on her shoulder. The diamonds blazed like small suns.

Inside the ring was an inscription-"Del to Edith-Forever."

Del to Edith? Where had he seen those names? With a sudden flash of as vivid as an oriole in the midst of illumination, he dropped the ring her orange wools. back into the bag, stuffed the bag in his pocket, and made his way to a newsboy at the corner.

There it was in startling headlines: Edith Towne Disappears. Del- had, however, modified its lack of afield Simms' Yacht Said to Have Been Sighted Near Norfolk!

much-talked-about Edith Towne- and there was a lamp of dull blue deserted at the moment of her mar-

hair—the touch of haughtiness, curled up in Jane's lap, played coz-Simms was a cur, of course! He should have knelt at her feet!

The thing to do was to get the bag back to her. He must advertise at once. On the wings of this to death. And you aren't any help, decision, his car whirled down the | are you?" The lines which, after much deliberation, he pushed across the counter of the newspaper office, would be ambiguous to others, but clear to her. "Will passenger who left bag with valuable contents in the car call up Sherwood Park 49."

"Is she really as beautiful as that?" Jane demanded. "As what?"

"Her picture in the paper." "Haven't I said enough for you to

Roow it?" Jane nodded. "Yes. But it doesn't

sound real to me. Are you sure you didn't dream it?" "I'll say I didn't. Isn't that the proof?" The gray bag lay on the table in front of them, the ring

was on Jane's finger. She turned it to catch the light. Baldy," she said, "it's beyond amagination."

"I told you-" \*\*Think of having a ring like

"Think," fiercely, "of having a Mover who ran away."

"I can keep it until she answers my advertisement." "She may never see your advertisement, and the money isn't yours, and the ring isn't.' He was troubled. "But she trust-

ed me. I can't do it." Jane shrugged her shoulders, and began to clear away the dinner things. Baldy helped her. Old Merrymaid mewed to go out, and

Jane opened the door.

"It's snowing hard," she said.
The wind drove the flakes across the threshold. Old Merrymaid danced back into the house, bright-eyed and round as a muff. The air

was freezing. "It is going to be a dreadful night," young Baldwin, heavy with gloom, prophesied. He thought of Edith in the storm in her buckled shoes. Had she found shelter? Was she frightened and alone somewhere in the dark?

He went into the living-room, whence Jane presently followed him. Jane was knitting a sweater and she worked while Baldy read to her. He read the full account of Edith Towne's flight. She had gone away early in the morning. The maid, taking her breakfast up to her, had found the room empty. She had left a note for her uncle.

Towne's tone showed a touch of irritation.

cation. He was, they said, wild

Baldy's comment. Frederick Towne's picture was in frightfully old." 'Why should she run away from

him, if he wasn't a tyrant?" he demanded furiously. 'Well, don't scold me." Jane was

She loved color. The living-room was an expression of it. Its furniture was old-fashioned but not oldfashioned enough to be lovely. Jane grace and its dull monotonies by covers of chintz — tropical birds So his passenger had been the against black and white stripespottery with a Chinese shade. A fire in the coal grate, with the glow He thought of her eyes of burning of the lamp, gave the room a look of blue—the fairness of her skin and burnished brightness. The kitten,

She looked at him in astonish-

"I've tried to help. I told ment. you to call up." Young Baldwin walked the floor.

"She trusted me." "You won't get anywhere with that," said Jane with decision. "The thing to do is to tell Mr. Towne that you have news of her, and that you'll give it only under promise

has talked it over with you." "That sounds better," said young Baldwin; "how did you happen to think of it?"

that he won't do anything until he

"Now and then," said Jane, "I have ideas." Baldy went to the telephone. When he came back his eyes were like

gray moons. "He promised everything, and he's coming out—" "Here?" "Yes, he wouldn't wait until to-

morrow. He's wild about her-" "Well, he would be." Jane mentally surveyed the situation. 'Baldy, I'm going to make some coffee, and have some cheese and crackers."

"He may not want them." "On a cold night like this, I'll say he will; anybody would." Baldy helped Jane get out the

round-bellied silver pot, the pitchers and tray. The young people had a sense of complacency as they handled the old silver. Frederick Towne could have nothing of more distin-She sang it with a light boyish guished history. It had belonged to had graced an emperor's table. Baldy flung his scorn at her. Each piece had a monogram set in "Baldy," she coaxed, her on the little mahogany table which they drew up in front of the fire. There was no wealth now in the Barnes family, but the old silver spoke of a time when a young hostess as black-haired as Jane had

Frederick Towne had not expect-

"Heavens, Baldy, this isn't melo- | ed what he found-the little house drama. It's common sense. You set high on its terraces seemed to can't keep that bag." give from its golden-lighted window squares a welcome in the dark. "I shan't be long, Briggs," he said to

his chauffeur.

"Very good, sir," said Briggs, and led the way up the terrace.

Baldy ushered Towne into the living-room, and Frederick, standing on the threshold, surveyed a coziness which reminded him of nothing so much as a color illustration in some old English magazine. There was the coal grate, the table drawn up to the fire, the twinkling silver

der, glowing child, with a banner of orange wool behind her. "Jane," said young Barnes, "may I present Mr. Towne?" and Jane held out her hand and said, "This is

on its massive tray, violets in a low

vase—and rising to meet him a slen-

very good of you." He found himself unexpectedly gracious. He was not always gracious. He had felt that he couldn't be. A man with money and position had to shut himself up sometimes in a shell of reserve, lest he

be imposed upon. But in this warmth and fragrance he expanded. "What a charming room," he said, and smiled at her. Jane felt perfectly at ease with him. He was, after all, she reflected, only a gentleman, and Baldy was that. The only difference lay in their divergent incomes. So, as the two men talked, she knitted on,

with the outward effect of placidity. "Do you want me to go?" she had asked them, and Towne had replied promptly, "Certainly not. There's nothing we have to say that

So Jane listened with all her ears, and modified the opinion she had formed of Frederick Towne from his picture and from her first glimpse of him. He was nice to talk to, but he might be hard to live with. He had obstinacy and egotism.
"Why Edith should have done it

amazes me." "She was hurt," she said, "and she wanted to hide."

"But people seem to think that in some way it is my fault. I don't like that. It isn't fair. We've always been the best of friends—more like brother and sister than niece and uncle."

"But not like Baldy and me," said Jane to herself, "not in the least ike Baldy and me." "Of course Simms ought to be

shot," Towne told them heatedly.
"He ought to be hanged," was Baldy's amendment.

Jane's needles clicked, but she said nothing. She was dying to tell these bloodthirsty males what she hought of them. What good would t do to shoot Delafield Simms? A voman's hurt pride isn't to be healed by the thought of a man's

Young Baldwin brought out the "I'll bet he's an old tyrant," was bag. "It is one that Delafield gave her," Frederick stated, "and I "It is one that Delafield gave cashed a check for her at the bank the paper. "I like his face," said the day before the wedding. I can't "and he doesn't seem so imagine why she took the ring with

> "She probably forgot to take it off; her mind wasn't on rings.' Jane's voice was warm with feeling. He looked at her with some curi-"What was it on?"

"Oh, her heart was broken. Nothing else mattered. Can't you see?" Jane swept them back to the matter of the bag. "We thought you ought to have it, Mr. Towne, but Baldy had scruples about revealing anything he knows about Miss Towne's hiding place. He feels that she trusted him."

"You said you had advertised, Mr. Barnes?"

"Well, the one thing is to get her home. Tell her that if she calls you up." Frederick looked suddenly tired and old.

Baldy, leaning against the mantel, gazed down at him. "It's hard to decide what I ought to do. But I feel that I'm right in giving her a chance first to answer the advertisement.'

Towne's tone showed a touch of irritation. "Of course you'll have o act as you think best.' And now Jane took things in her own hands. "Mr. Towne, I'm going

to make you a cup of coffee." "I shall be very grateful," he smiled at her. What a charming child she was! He was soothed and refreshed by the atmosphere they created. This boy and girl were a friendly pair and he loved his ease. His own house, since Edith's departure, had been funereal, and his friends had been divided in their championship between himself and Edith. But the young Barneses were so pleasantly responsive with their lighted-up eyes and their little air of making him one with them. Edith had always seemed to put nim quite definitely on the shelf. With little Jane and her brother he

had a feeling of equality of age.
"Look here," he spoke impulsively "may I tell you all about it? It would relieve my mind immense-

To Jane it was a thrilling moment. Having poured the coffee, she came out from behind her battlement of silver and sat in her chintz chair. She did not knit; she was enchanted by the tale that Towne was telling. She sat very still, her hands folded, the tropical birds about her. To Frederick she seemed like a bird herself-slim and lovely, and with a voice that

Towne was not an impressionable man. His years of bachelorhood had hardened him to feminine arts. But here was no artfulness. Jane asof some stirred emotion. An almost youthful eagerness to shine as the hero of his tale. If he embroidered the theme, it was for her benefit. What he told her was as he saw it. But what he told her was not the truth, nor even half of it. (TO BE CONTINUED)

LABOR DAY-

## Modern Industrial Workman Gets Paid Well, Enjoys Life

boots comes from limestone deposits far beneath coastal plains of Texas and Louisiana's delta. Working on the surface, sulphur miners, like other U.S. industrial workers, benefit from exemplary labor conditions. This year's Labor day finds the typical operator punching a time-clock (right) working 40 hours a week and earning an average of 86 cents an hour. Twenty years ago the same job paid 35 cents an hour, 70 hours a week.

## Tot's Shyness May Result in Backwardness

• WISE HANDLING NECessary to eliminate handicap of constant embarrassment. Parents should assist youngsters to rise above ever-present timidity and to enjoy social life with friends.

By MARGARET CONN RHOADS WE ALL realize that the child who is shy and constantly embarrassed by bashfulness has a handicap that needs very wise handling. Many times a parent can help a child to rise above this timidity and become happily sociable, delighting in personal contacts.

"June started out to be one of those little children who hide beind their mother's skirts at the approach of a stranger; her lips quivered if she were singled out for attention and she evaded the mailman and the milkman when they came on their daily rounds," related a mother before a group of parent students. "I determined that she should never hear any of the family comment on her shyness. I also made up my mind to think of ways of helping the baby to overcome this handicap. I knew I should have to go very carefully along the way or I might make matters worse, but today June is such an unusually responsive child and meets people so easily that I feel my carefully laid plans were well worth while.

"I began with the mailman as he came each day. I allowed June to stick the stamp on my letter. This seemed such a big thing to her! Then, with the letter in her hand to give the mailman, she forgot her fear and ran out to meet him. He helped me by not getting too friendly with her all at once. And in much this same simple way I acquainted June with the milkman and the grocery boy. I let her put the tickets in the milk bottles and let her set the bottles out. That gave her an interest in the man who delivered the milk. I would empty the grocery boy's basket and hand her the empty container to give to him.

Get Acquainted Gradually. "When guests came to the house I would ask her to open the door. She soon learned to ask them to be seated especially if their manner when they greeted her was not too familiar. Most little boys and girls like to get acquainted with a strange person gradually, but many older peo-ple are apt to gush over children, the moment they meet them. When June started for nursery school she was somewhat afraid of the experience. But each morning I let her take some small gift to the teacher and her joy in carrying the flower or the red apple or the cutout she had made lessened her consciousness of self and the problem was solved happily

"Shyness or backwardness is often regarded by parents as a trait the child will outgrow and so they feel it need not be given special concern. I like to think that in our home we are always helping the children to develop the traits that will benefit them. They should be able to meet people happily, be sufficiently selfpossessed to enter into child activities and reap the joy of personal contacts. They should have the assurance within themselves that they are capable of joining in a conversation with a group of their age or of playing games with as much vim as the other children.

"Shyness induces an inferiority complex in the child that later makes the grownup cheat himself of much advancement and many pleasures that are rightly his. Today June at five can meet the guests in our home pleasantly, totally unconscious of herself. What picture would she have presented had we ignored her baby tendency or constantly commented on it? She would have been timid still, and little by little would have become more certain that she would always be a shy person.

National Kindergarten Association (WNU Service.)

Indian Clan The sachem was a functionary of

an Indian clan-a common division of the Indian tribe. The clan had two distinct kinds of leaders, a sachem and a chief. The sachem was judge and administrator of ancient customs and his functions were those of peace time. He was chosen by the adult members of the clan and his election usually depended upon the influence of his immediate family in the clan group. The chief, on the contrary, won his title by individual prowess. He was chosen because of some special deed or because of some outstanding trait. The chief was the war time leader. In current thought the term sachem applies to the principal dignitaries of Tammany Hall -the New York political organization. The Society of St. Tammany, the name under which Tammany Hall was incorporated, takes its name from the Indian who is patron saint of the organization.

Span of Time

Probably the greatest time span between two important cities is that between New York and Hongkong. At 12 noon in New York it is 37 minutes past midnight in Hong-

Married Bliss Marriage appears a deterrent to

crime, according to figures compiled by the Philadelphia voluntary defenders association. During 57 months, only 2,822 married persons sought the association's help in court cases, compared with 5,119 single persons.

#### Dish Towels Marked In Your Hand Writing

By RUTH WYETH SPEARS

THERE is logic in the idea that glasses, china and pots and pans should have their own towels. Here is a simple way to make that logic work. Write across the corner of each towel with a soft pencil the purpose for which it is to be used. Use a soft pencil and your best script with the tall letters at least two inches high. If you want to trace the words from paper, blacken the back of the

paper with your pencil, place it black side down on the material, then draw the outline.

Work over the hand writing with heavy, bright colored embroidery thread. Chain stitch, as shown here at the upper right, gives a good strong outline and may be done quickly. Use a different color for each kind of towel. Colored facings of prepared bias binding used flat as shown at the lower left make a practical edge finish. If you use flour and sugar sacks for dish towels, these suggestions for adding color will be especially

## INDIGESTION

Sensational Relief from Indigental and One Dose Proves It

Bringing Happiness To watch the corn grow, and the blossoms set to draw hard breath over plowshares, to read, to think, to love, to hope, to pray-these are the things that make men happy.-John Ruskin.

#### **How Women** in Their 40's **Can Attract Men**

Here's good advice for a woman during her change (usually from 38 to 52), who fears she'll lose her appeal to men, who worries about hot flashes, loss of pep, dizzy spells, upset nerves and moody spells.

Get more fresh air, 8 hrs. sleep and if you need a good general system tonic take Lydia E. Pinkham's Vegetable Compound, made especially for women. It helps Nature build up physical resistance, thus helps give more vivacity to enjoy life and assist calming jittery nerves and disturbing symptoms that often accompany change of life. WELLI WORTH TRYING!

Real Nobility If a man be endowed with a generous mind, this is the best kind of nobility.—Plato.

WNU-4 34-39 Friendship Improves Friendship often ends in love; but love in friendship never.-Col-

Sentinels

of Health Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

# Administrator's Sale

---OF VALUABLE---

By virtue of an order of the Orphans' Court of the State of Delaware, in and for Kent County, will be exposed to sale by way of public auction or vendue, on

# Tuesday, September 12, 1939

AT ONE O'CLOCK P. M. (EASTERN STANDARD TIME)

# At The Front Door of Peoples Bank, Harrington, Kent County and State of Delaware

THE FOLLOWING REAL ESTATE, VIZ:

All that certain lot or parcel of land, situated in the Town of Harrington, Kent County and State of Delaware, on the West side of Weiner Avenue, bounded on the South by a lot which James A. Moore sold to John Clymer, on the North by lots of said James A. Moore, on the West by Lands now or formerly of William W. Simpson, and on the East by said Weiner Avenue, beginning at a corner in the West line of Weiner Avenue at the Northeast corner of John Clymer's lot, and running from thence with the North line of John Clymer's lot, according to William Atkinson, Surveyor, North eighty-six and one-half degrees West, about three hundred feet until it intersects the East line of lands of William W. Simpson, deceased; thence running therewith North three degrees twenty minutes East, sixty feet to a stake in line of lands of said Simpson and at a corner for other lands of the said James A. Moore; thence therewith South eighty-six and one-half degrees East, about three hundred feet until it intersects the West line of said Weiner Avenue at the Southeast corner for other lands of said James A. Moore, and from thence with the West line of said Weiner Avenue, South three degrees twenty minutes West, sixty feet to the first named place of beginning, and containing Eighteen Thousand (18,000) square feet of land, more or less; the improvements thereon being a two story frame dwelling house.

The above being the same lands and premises of which MARY E. TYRE, late of Mispillion Hundred, Kent County and State of Delaware, died seized testate and which will be sold for the payment of her debts.

The Administrator will make return of sale on Tuesday, September 19, 1939, at 10:00 o'clock in the forenoon.

> BY ORDER OF THE COURT Attest: HARRY B. CLARK, Clerk.

## TERMS OF SALE

Twenty-five per cent of the purchase money will be required to be paid to the undersigned on day of sale, and the residue to be paid on Tuesday, September 19, 1939, at 10:00 o'clock A. M.

The percentage paid on day of sale will be treated as a part of the purchase price if other terms of sale are complied with, otherwise it will be treated as liquidated damages and forfeited for non-compliance.

# WILLIAM S. SMITH

Administrator D. B. N. C. T. A. of MARY E. TYRE, Deceased.

CALEB BOGGS, Attorney.
