MAKE MORE JAMS, JELLIES AND MARMALADES (See Recipes Below)

Bread 'nd Jam

Hot bread with jam or jelly is a special treat at any time. But what are you going to do when last summer's supply of jellies and marmalades runs low and youngsters clamor for "bread 'nd jam" for a mid-afternoon lunch? Make more jams and jellies, of course, from materials at hand right now!

Citrus fruits, dried fruits, and canned fruits, too, combine to make a delicious variety of mid-winter marmalades. Even the lowly carrot appears and contributes flavor and color to an unusual conserve. And don't forget, while the season is at its height, to make Cranberry Conserve, flavormore and gorgeously colored and good!

Of course you'll want feather-light, buttery rolls, and buns with which to serve your new supply of tasty jams and jellies. You'll find a store of tested recipes for hot breads in my booklet, "Better Baking"—recipes for flaky biscuits that melt in your mouth, for golden-brown, crusty muffins, and a wide variety of sweet rolls—the things you like to serve for Sunday morning breakfast and for afternoon tea.

A few such recipes appear below, with directions for making mid-winter marmalades, too.

Cranberry Conserve.

1 pound cranberries
1 cup cold water
2 cups sugar
½ cup raisins, seedless
1 orange, seeded and put through food chopper with skin
½ cup broken walnut meats
Pick over cranberries carefully and wash. Place in saucepan and cook until cranberries start to pop. Add raisins and orange, and simmer slowly for five minutes. Add sugar and cook to jelly stage. Remove from fire, add broken nut meats, and pack immediately in hot sterilized jelly glasses. Seal.

English Muffins.

½ cup scalded milk
1 cup water
1 teaspoon salt
1 teaspoon sugar
1 yeast cake dissolved in 1 tablespoon lukewarm water
4 cups general purpose flour
3 tablespoons shortening
Heat milk to lukewarm. Add water, salt, sugar, dissolved yeast, and 2 cups flour. Beat well. Let rise until doubled in bulk (about 1 hour). Add shortening (softened) and remaining flour. Beat and knead well. Let rise again until doubled in bulk (about 50 minutes). Roll about ¼-inch thick and cut with a round cutter. Let rise 1 hour or until very light. Place muffins on heated griddle, (4 at one time) and fry for approximately 15 to 20 minutes, turning frequently.

Raisin Buns.

(Makes 4 dozen)
2 cakes compressed yeast
¾ cup lukewarm water
1 cup milk
¼ cup butter
½ cup sugar
1 teaspoon salt
2 eggs (beaten)
5 cups sifted flour (about)
1 cup seedless raisins
Soften yeast in lukewarm water. Scald milk. Add butter, sugar and salt. Cool to lukewarm. Add flour to make a thick batter. Add yeast and eggs. Beat well. Add raisins.

Petticoat Tails.

Cream 1 cup butter, add ¾ cup sugar slowly and beat well. Sift together 3½ cups general purpose flour and 1 teaspoon salt and knead into butter mixture. When smooth dough is formed, divide dough in half and pat each portion into a round layer cake pan (greased). Flute edges with dull edge of knife and prick top of dough with fork. Bake in moderate oven (350 degrees) about 25 minutes. Break in pieces to serve.

Marmalade Rolls.

When preparing yeast dough for light rolls, take a portion of the dough and roll it to ¼-inch thickness, then spread lightly with melted butter and orange marmalade. Roll, and cut in half-inch slices. Place slices in well-greased tea-size muffin tins. Allow to rise and bake for 15 minutes in 400-degree oven.

Mid-Winter Conserve.

Wash 1 pound of dried apricots in hot water. Drain and run through food chopper. Cover with juice of 2 oranges and 2 lemons. Let stand overnight; next day add 1 cup shredded canned pineappleapple. To each cup of fruit add ¾ cup sugar. Simmer slowly 1 hour or until mixture thickens. Stir frequently. Seal in hot jars.

Scotch Marmalade.

Put carrots, whole lemons, and whole oranges through the food chopper. Add sugar and cook slowly for about 1 hour. Stir frequently. The mixture should be thick and clear. Pour into sterilized containers and seal. To vary the flavor, add a little cinnamon, cloves or ginger tied in a spice bag.

Frozen Foods are new and are available in wide variety at any season of the year.

Next week Eleanor Howe will tell you something about this newest contribution to "Good Eating"—quick-frozen foods. She'll give you directions for using these quick-frozen fruits and vegetables, fish and poultry, with some of her own favorite recipes as well.

Have You Sent for Your Copy of "Better Baking"?

Biscuits and buns that literally melt in your mouth, cookies and cakes that are unusual and good, and pies and puddings to tempt even the fussiest eater! You'll find recipes for all these in Eleanor Howe's practical booklet, "Better Baking." DOLLAR MAKERS Small Services Keep Clients Well Satisfied

By GEORGE T. EAGER

ADVERTISING may bring new customers to a business but it is held by the small and little-known services rendered by employees who come in direct contact with customers.

An old lady recently stood at the curb of a New York street. She was afraid to cross and was bewildered by the heavy traffic. A big cement truck came by. The driver noticed the old lady, slowed down his big truck, steered it into a position that would stop other traffic and motioned to her to cross. That evening the old lady mentioned the incident to her son and recalled the name of the truck. "I'm glad you told me this," said her son, "those people are going to get an order for a large amount of cement which I am placing tomorrow."

One of the railroads leading out of New York takes passengers to its main terminal by busses which leave various ticket offices in the city. An important government official, having bought his ticket, had left the ticket office intending to meet the bus at a corner some twenty blocks away. He had been waiting at this corner for a few minutes when a young man stepped up to him and said, "I overheard someone give you the wrong directions. The bus does not stop here but one block east. You still have time to make your train."

When the president of the railroad had some important negotiations with this same government official two years later, he found that this one little incident had made him a loyal friend of the road.

Strange Facts Most Delicate Brute Important Donkey Frank Captives' Mail

Gargantua, the 475-pound gorilla of the Barnum & Bailey circus, lives in a glass-enclosed, air-conditioned cage, kept constantly at 74 degrees by watchful engineers. It is feared that if this temperature changes as little as one degree in an hour, the ape, whose physical strength is more than a match for 18 men, will develop pneumonia.

In the state of Morelos, Mexico, where liquors are sold from door to door by donkey cart, the peddler, when applying for his annual license, is required to furnish six photographs for purposes of identification. They include three front and three side views of the donkey.

We Americans

There is no adjective applied to a citizen of the United States in the same sense that French is applied to a citizen of France. Although citizens of the United States are generally referred to as Americans, citizens of other countries in this hemisphere feel very keenly that this term belongs to them also and that citizens of this country have no right to pre-empt it.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its busy and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strains on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Such a Shock

As the artistic lady strolled along the country lane, she came across a hefty old man cutting back the edge. "Ah!" she sighed. "What a delightful scene—so quiet and rural. So far removed from the hectic rush and bustle of town. May I talk with you, my good man? I'd love to hear your rural dialect." And the old man beamed at her as he replied: "That's O. Renovating From Tip to Toe Important

By ELIZABETH MacRAE BOVKIN

SOME men can never see the need for doing anything about the house till something actually falls apart. Then they're willing to do a really complete renovating job from tip to toe. Our neighbors waited till the plaster fell in the dining room—they took that occasion to work out all the ideas they'd planned. The new plaster job called for a fresh coat of paint, of course, and that they decided should be pink, of all things.

But a very charming glow it gave to the room, especially when the windows were curtained in white net with draperies in flowered chintz, a mellow pattern on a creamy pink ground to match the walls. The old rug they kept, the pattern faded to a pastel tone that fitted pleasantly into the picture. Most of the furniture they bought new, but it wasn't a "set" so it blended graciously into this mellow setting—a Sheraton sideboard, for one thing, to hold a family collection of old silver, and a pedestal exten-

sion table, also of Sheraton ac-

cessory, to be used with shield-back Hoppelwhite chairs with old blue leather seats. For accent, classic urns spilling over with artistic arrangements of purple grapes and plums were lovely against the pink of the walls.

What a background for table settings featuring powder blue Wedgwood plates, amethyst glassware and old creamy linen damask! The lady of the house, who is noted for her friendly formal small dinners and luncheons, also sets this table often with a lace cloth and her tea set of Spode with an old flowered design on it. And occasionally as a novelty, she uses place mats made of the same pink-ground flowered chintz as is used for the draperies—these are charming with the blue Wedgwood.

WEEKLY NEWS ANALYSIS BY JOSEPH W. LaBINE
Short Congress Held Unlikely
As Controversial Issues Arise;
Farm Tax Fight Splits Cabinet

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)

What They're Saying About:

Third Party

WASHINGTON wisecracks see trouble ahead for the LaGuardia-Ickes-Murphy "third party" movement which would presumably draft President Roosevelt to run again.

Dies Blunder

Many in official Washington believe the Dies committee erred grievously in waiting until the last minute before releasing its report on alleged Communist penetration in the Hollywood motion picture colony.

DAVIES New job

Davies' Job

Anti-Roosevelt forces are making political capital out of the appointment of Joseph E. Davies, former ambassador to Russia and Belgium who has just been named "special assistant" in the state department.

Reich Wrecks

Germany's serious train wrecks are viewed as a good indication of the Reich's serious economic plight.

Tariff Walls

State tariff walls which discriminate against out-of-state products are apt to fall in 1940 if the Council of State Governments goes through with its anticipated program.

Department. The current story: Davies is married to Mrs. Marjorie Post Close Hutton, cereal heiress, who reportedly didn't like the bleakness of Moscow when her husband was granted that ambassadorship for helping the Democratic war chest.

THE WARS: In the North

Already a queer war in which soldiers wear ghostly white robes and travel on skis, the Finnish-Russian conflict took on a new note: Finns sent their night patrols across frozen lakes on ice skates.

But a month of such humiliation was enough for Russia's Dictator Josef Stalin. While the Finns chuckled over their success in penetrating Soviet soil almost to the Leningrad-Murmansk railroad, the Kremlin was reported throwing 300,000 fresh men into the fray under a new command.

In the West

Said a French communique: "There was nothing important to report..." Said a German communique: "With the exception of weak enemy artillery fire, the day was quiet."

DISASTER: Turkish Quake

At Geneva, London and many other points, seismologists found their seismographs awry, indicating an earthquake somewhere in the vicinity of southern Russia.

PEOPLE: Royal Speech

Opening a parliament which must appropriate the largest budget in Japan's history, Emperor Hirohito hailed an "improvement" in foreign relations, yet indicated his army should make the most of Europe's war.

in Europe, the situation has become extremely complicated. You must therefore make a close study of conditions... and direct your efforts to expand the national power so the conviction of the empire may be realized...

I-Told-You-So

Announcing a 20-year contract for sale of Bonneville (Wash.) dam's power to the Aluminum Company of America, Secretary of Interior Harold Ickes called it "a factual answer to those skeptics who claim there is no real demand for power" from government plants on the Columbia river.

RELIGION: Peace Drive

A marked theological flutter followed President Roosevelt's appointment of Myron C. Taylor, former U. S. Steel head, as his "personal representative" to the Vatican.

ASIA: Army in the Saddle

U. S. business men in China were cold to Japan's announcement that foreign shipping in the Yangtze river would soon be resumed.

MEET THE WIFE Washington Gets Busy Again And So Do Capital's Matrons

CONGRESS opening brings Washington officialdom into the spotlight once more. Unseen guiding hand behind the success of many a legislator and diplomat is his wife who must, in her average day, be three places at once:

Texas Gov. W. Lee O'Daniel, introducing Mrs. Franklin D. Roosevelt, said of her husband: "Any good things he may have done... are due to her, and any mistakes... are due to his not taking the matter up with his wife."

Mrs. William E. Borah, wife of Idaho's famed senator, knows her husband takes his pleasures sadly: "When an invitation comes to a lovely dinner, I just sit down and say, 'Mr. and Mrs. Borah regret.'"

Mrs. James A. Farley, another cabinet wife, seldom sees her husband these days. Of her job she says: "It has meant that I have learned to be in two places at once—Washington and New York—almost at the same time."

Washington has its beauties. Above is Mrs. Millard Tydings, wife of the Maryland senator, whose charms helped win many a vote in 1936 when the senator faced the so-called "purge" issue.

An excellent cleaning "weapon" for kitchen utensils is found in a good-sized bottle cork. Moisten the bottom end, dip it in a powdered cleaner and rub the utensils.

To clean rubber sponges, put half an ounce of bicarbonate of soda in half a pint of water and soak them all night in this solution.

When using soap dyes that come in cake form, put cake into soap shaker and shake until dye is right color. It will not then be necessary to strain dye.

For Dessert.—When you have a saucer of apple sauce and don't know what to have for dessert, make a one-egg layer cake, dust the lower layer with powdered sugar and spread with the apple sauce (and this is improved if a bit of candied orange, lemon or grapefruit peel has been cooked with it).

When you're frosting cakes be sure to have them free from any loose crumbs. In smoothing the icing, use a spatula which is frequently dipped in warm water.

To clean a griddle that has become crusted, put over a very hot fire and cover thickly with salt. After the salt has burned brown, the crust and salt will brush off together, leaving the griddle like new.

What More Could Infant Of but Six Months Say? "Baby," he softly murmured, taking her hand in his, "can you ever begin to understand how much I love you."

"You've got the most wonderful eyes I've ever seen. Your hair is so silky and fine. Your little nose turns up in the most adorable way." He bent and kissed her ears.

"Where I but a gifted artist, I'd record your exquisite beauty on canvas. No wonder your father swears he'll keep you as long as he can."

To all of which the little darling replied, "Goo-goo!"

SAFETY COUNCIL NOTES

This is the season of New Year's resolutions. The Delaware Safety Council urges all Delawares to make some safety resolutions in order to help keep down the terrible toll of accidental deaths, in the home, on the streets and highways, in industry, and in public places (not motor vehicle). There is irrefutable evidence that the human element, not the mechanical, weather or any other agency is the principal cause of highway slaughters and other accidental deaths. For this reason, the council urges the adoption of the following resolutions for the year 1940.

1. To increase our efforts to reduce accidents that human suffering may be alleviated. 2. Bring the message of safety to the consciousness of every man, woman, and child that their vigilance may be their protection. 3. Lesson economic waste to the individual, to business and to the state and community by keeping humanity "on the job" at home, at work, and on the highways.

FOR MOTORISTS: 1. Slow down after the sun goes down. 2. Keep the car in perfect mechanical condition. 3. If you drive don't drink. If you drink, don't drive. 4. Observe the Golden Rule of the highway "Do unto others as you would have others do unto you."

FOR PEDESTRIANS: 1. Cross streets at intersections, not in the middle of the block. Look both ways before crossing the street. Stand on the curb until you are ready to cross. 2. Walk facing traffic when walking on the highways. After dark carry a lighted lantern, flashlight or other similar device.

FOR HOMEMAKERS: 1. Provide hand rails on all stairways and steps. 2. Use metal containers for ashes and waste material. 3. Stick pins in bottles containing poison. 4. Do not use naphtha or gasoline for dry cleaning purposes. 5. Keep matches in metal containers and out of reach of small children. 6. Make a safety inspection of the home and immediately correct all hazards.

FOR INDUSTRIAL EMPLOYEES: 1. Report all hazards immediately to the foreman. 2. Keep mechanical safeguards in position and in perfect working order. 3. Lend a hand to the new employee and assist him in avoiding accidents. 4. Practice good housekeeping in the shop. 5. Have all minor cuts and abrasions treated promptly at the plant dispensary.
