THORNTON W. BURGESS'-

Some people need step-ladders to mount a horse or a mule. Some of them also need more than luck to stay up once they've made the ascent. But not little Nancy Carrol, age four, who has absolutely subdued and dominated the reckless attitude of Tissue Paper, a 30-year-old Missouri mule. With breath-taking courage, she displays delightful technique in mounting her charger from the wrong side, a feat even the most seasoned horseman would hesitate to perform. Here's how she does it . . . in pictures.

BEDTIME STORIES

GRANNY FOX is not the only one who has learned the ways of Blacky the Crow. No, indeed! Old Man Coyote is quite as smart and sharp as she. In fact, he is a wee mite smarter and sharper, as Granny found out shortly after he came to the Green Meadows to live, though she never would admit it and won't now. Old Man Coyote knows just as well as she does that when Blacky gets excited and caws at the top of his lungs there is usually something going on worth looking into.

Now, at the time when Granny Fox was trotting down the Lone Little Path and first heard the excited cawing of Blacky the Crow deep in the Green Forest Old Man Coyote had just stretched himself out for a sun bath on the Green Meadows, not far from edge of the Green Forest.

"When Blacky caws like that he sees something unusual," he said, "and when there is anything unusual going on it pays to know all about it. It may be no business of mine, and I may have a long walk for nothing, but then again I may find something worth knowing." Old Man Coyote yawned, then he stretched, yawned again, listened for a few minutes, and finally trotted off into the Green Forest in the direction from which Blacky's voice sounded. Now, just like Granny Fox, Old Man Coyote always

keeps his eyes and ears wide open. And he always uses his nose. He learned when he was a very little fellow that his nose can often tell him a lot more than either his eyes or his ears. So as he trotted through the Green Forest he was using eyes, ears, and nose, and it was his nose that gave him the first news. He was trotting along so softly that he didn't make a sound when quite suddenly he stopped and wrinkled up his nose to sniff.

"Hal" said he to himself. "Old Granny Fox has just been along

"Ha!" said he to himself. "Old Granny Fox has just been along here."

here."
here. She has heard that fuss Blacky is making and she is on her way to see what it is all about. I think I will hurry a little faster."
So Old Man Coyote hurried a little faster, and though Granny Fox didn't know it, he was right behind her when she reached the place where Blacky was making such a fuss. He saw just what Granny saw, Peter Rabbit dodging this way and that way, with Reddy Fox right at his heels, and, just like Granny, he made up his mind right away that he would take a hand in the game, for he is just as fond of rabbit for dinner as is either Granny

LORETTA YOUNG FASHIONS: (Left) In "Four Men and a Prayer" she wears this multicolored pastel afternoon frock interpreting the vogue for panels. This panel is shirred with heavy cording strips of silk in pale chartreuse, orchid and a slightly deeper green. The big white straw hat is sashed in similar colors. (Below) Loretta combines springlike violet with leaf green in this daytime ensemble. The suit is of violet chiffon wool with ties of green at the neck and, is worn with a green suede hat.

BETTY WELLS' COLUMN

GOODNESS, it gives us a joit to think how quickly a baby isn't a baby any more! Especially when you think what a lot of commotion they make while they are little tikes. And, how they can twist a household around their own little schedules. Makes us want to cling very hard to those precious years of babyhood. And try to make them less heetic so we can enjoy them more.

more.
One young mother we know,

or Reddy Fox. He grinned to himself, and it was an unpleasant grin, for he knew that all he had to do was to show himself to have the chase of Peter all to himself. You see, Reddy and Granny Fox are afraid of him, and he didn't have the least doubt that he could catch Peter, now that he was so far away from the dear Old Briar Patch. He was just getting ready to spring out when Peter stopped dodging and started lipperty-lipperty-lip for a big pile of brush. In a twinkling the white patch on the seat of Peter's trousers disappeared under the big pile of brush, and there stood Reddy and Granny Fox staring at each other and looking very, very foolish. Old Man Coyote chuckled. He couldn't help it.

©T. W. Burgess.—WNU Service.

whose toddling young ones are at the stage where the business of eating is pretty much hit or miss (miss the mouth and hit the table), has devised a simple, labor-saving method for making their dining table bright yet practical. She bought a nice little maple table, with two barrel-backed chairs. And she hopes to preserve the finish of the table's top (for later use as a coffee table in the game room) by guarding it with covers. What to use? Since almost every meal brings a major catastrophe with milk or spilled cereal, this wise mother decided on seersucker. She bought several yards in young colors—bright red, white with blue polka dots, green and white stripes—and edged each tablecloth with harmonizing rick-rack braid. These can be washed out quickly after each meal, hung on the towel rack near the range, and are ready for earnest learning-to-feed-themselves youngsters when meal-time comes again. No ironing is required and the children love the gayety of the table.

They also like the "eating shirts" she has devised of matching ma-

FARM LOPICS

KEEPING RECORDS GUIDE TO FARMER

Best Way to Find "Leaks" and Check Them.

By R. E. L. Greene, Assistant Agricultural Economist, North Carolina Agricultural Station.—WIU Service.

Many a farmer who has been losing money for years without knowing it has found that by keeping records he can find the "leaks" in his business, plug them, and make his farm show a profit.

In farming it's easy to lose noney without knowing it.

money without knowing it.

A farm may supply a family with food to eat and clothes to wear, but at the same time bad cropping practices may be wearing out the soil so that at the end of the year the farm may be worth considerably less than it was at the first of the year.

less than it was at the first of the year.

By keeping records, a farmer can tell which crops are most profitable, whether the farming program is balanced or not, and whether the general cultural practices are satisfactory.

Records kept in one year also aid in planning the farming program for the next year. They also provide a helpful means for determining whether the program is working out as planned, or whether changes should be made to bring the program back into line.

A glance at the records can also show whether certain farm enterprises are costing more than they are worth

Records are a source of informa-tion in making credit statements that are valuable in the event it is necessary to secure a loan, or in taking out insurance policies.

Feeding Will Improve

Hatchability of Eggs

Hatchability of Eggs
While the present emphasis is on getting a good egg lay, the poultryman should give a thought to whether his flock will be in condition for laying hatchable eggs—eggs from which a high percentage of strong, healthy chicks can be hatched later in the season.

Rigorous winter always makes this a complex problem, asserts Cora Cooke, poultry extension specialist, University farm, St. Paul. But however difficult it may be to provide sunshine and green feed or substitutes for them during cold months, doing so is the first recommendation for the improvement of hatchability. The flock, of course, must be protected from chill and extreme cold. And although continuous housing reduces the hatchability of eggs, poultrymen can take measures to overcome this handicap. It is estimated that, from all causes, poultrymen and hatcherymen take an annual loss of more than 14 million dollars from eggs that fail to hatch.

In experiments at the National Agricultural Research center, Beltsville, Md., where the byceding flock was allowed outdoors in the winter sunshine, the hatchability of their fertile eggs increased 14 per cent. This increase was shown despite the fact that the hens had previously received a diet containing 2 per cent cod liver oil.

In some sections, however, it is necessary to confine the flock in cold months, and "canned sunshine" can be provided for the layers by feeding cod liver oil to the extent of one quart in each 100 pounds of mash.

The Friendly Grape Vine

The Friendly Grape Vine
Nothing will live so long nor give
so good an account of itself as a
grape vine. Fifty years is not old
for a grape vine, and, given an
environment not too unfavorable, a
crop of grapes each year is almost
certain. What other fruit will live
so long and yield so abundantly
with so little care? When thought
of in terms of healthful fruit for the
farm family, rather than in terms
of profit, the grape is truly a wonderful plant and should have a place
on every farm.

Mash for Turkey Breeders

Mash for Turkey Breeders
Although there are others, the following proves to be a good mash
for the turkey breeding flock, says
Dr. W. A. Billings, veterinarian,
University farm, St. Paul: This will
give 1,000 pounds; torn, 225 pounds;
oats, 100 pounds; bran, 150 pounds;
middlings, 200 pounds; alfalfa leaf
meal, 100 pounds; meat scraps, 125
pounds; dried milk, 75 pounds; salt,
5 pounds; cod liver oil, 20 pounds, If
possible, buy "fortified" cod liver
oil, for less of this kind of oil will be
required.

Electric Chair for Poultry

An "electric chair" for chickens
that would outmode the old method
of killing poultry by decapitation,
is the invention for which a patent
was recently granted to a North Acton (Mass.) poultry man. On this
"chair" the chicken is hung head
down by one wire attached to its
legs. The other wire clamps on
its head which fits in a support. A
switch swiftly sends an electrocuting charge through the chicken's
body.

Electric Chair for Poultry

Weight, Key to Birds

Weight, Key to Birds
Weight is about the best key to
good birds. To find the average
weight of the flock, the poultryman
should weigh about 20 birds "as
they come," large, medium and
small. Their average is the standard. Very few of the flock will hit
this average. The rest will be either
above or below it. If the selection
is being made at the laying age, any
pullet should be called a cull that
is three-fourths of a pound or more
below the flock average.

HOW to SEW RUTH WYETH SPEARS

Stitch a Shirred Valance to Buckram

PLANNING draperies is as exciting as planning a new frock. Color, fabric, suitability, style. Curtains sound the keynote of a whole room, and this is the time of year to be thinking about them. The chintz draperies with shirred valance shown here are dignified and yet charmingly informal. They are easy to make; they have the smart tailored effect that is usually obtained only by using a valance board, yet they are hung on ordinary double curtain rods of the type shown here at A.

The side drapes are made of full widths of the chintz and are hung on the inside rod with plain casings at the top. Cut the valance material the desired depth and twice as long as the space it is to fill after it is shirred. Hem the ends and bottom. Now, make a row of gathers along the raw edge at the top, another row 2½ inches below the first and a third row ½ inch below the second. Cut a piece of buckram 4 inches deep and as long as the outside curtain rod. Bind the ends of this strip. Place the shirred valance edge wrong side down on the strip of buckram as at B. Cut a casing strip wide enough for the rod to slip under it after the edges are turned, and place it over the valance. Milton.

world must take our culture in co-pious doses—or we will force it down their throats with bayonets. No force on earth can stop ME!" All of which does not serve to il-lustrate that great minds flow in the same channel—but that self-styled great minds STAGNATE in the same channel

"The Polish Boy" was one of the greatest of the dramatic readings in Fenno's Elocution, which book this Fenno's Elocution, which book this editor used to study when a boy. The reading told of the persecution of the Polish people by the Russians, and how this boy, desperately wounded, delivered his message—and fell dead!

A good reader could make the tears flow like the Waters of Lodge with A good reader could make the tears of Zenth, Philos and other manufaction like the Waters of Lodore with an interpretation of that poem. Little Poland was then oppressed by the powerful nation of Russia. Years later, the World War changed the boundary lines of nations. Poland no longer had reason to fear Russia. But I took him completely through the now, in the public square at Warsaw, Poland, fifty thousand people appear before the country's dictator and cry for the privilege of marching on the tiny country of Lithuania. The op-pressed has become the oppressor. The early settlers of Massachusetts

The early settlers of Massachusetts had been oppressed in England and in other European countries because of their religious belief, and they came to this new country in order to find religious freedom—and, once established, began to persecute all other people whose religious beliefs were not the

CLASSIFIED Is It Nom de Plume or Nickname? Anyway, "You Can't Print That!"

prenticed miller, he apparently was willing enough to have his partisans hall him as "the Mill Boy of the Slashes" and to make political capital out of that name. No less than six of our Presidents have rejoiced in nicknames reminiscent of their occupations. There was Abraham Lincoln, the "Rail Splitter"; Andrew Johnson, the "Tailor President"; James A. Garfield, the "Teacher President"; Theodore Roosevelt, the "Rough Rider"; Woodrow Wilson, the "Professor President," and Herbert Hoover, the "Great Engineer." As for the other Chief Executives nicknames undoubtedly played an important part in helping some of them win the Presidency and in perpetuating their fame long after their deaths. Especially was this true when the affectionate adjective "old" was sincorporated in the nickname, as witness "Old Man Eloquent" (John Quincy Adams), "Old Hickory" (Andrew Jackson), "Old Tippecanoe" (William Henry Harrison), "Old Rough and Ready" (Zachary Taylor), "Old Public Functionary" (James Buchanan) and "Old Abe" (Abraham Lincoln).

In fact, not a President in the

In fact, not a President in the 150 years of our history has escaped having a nickname, even though not all of them were af-

though not all of them were af-fectionate or even complimen-tary. For instance, Martin Van Buren, the wily New York poli-tician, won the nicknames of the "Little Magician" and the "Red Fox" early in his career and both of those names stuck with him through his Presidency.

of those names stuck with him through his Presidency.

John Tyler is remembered chiefly as the "Accidental President," and James K. Polk as the "Dark Horse President," though some of his followers tried to popularize "Young Hickory" to indicate that the mantle of Andrew Jackson had descended upon his fellow-Tennesseean.

Andrew Johnson, the "Tailor President," was also called "Sir Veto" because of his frequent use of the veto power during the disputes with congress which led eventually to the attempt to impeach him and drive him from the White House. Rutherford B. Hayes was the "President de Facto," with its insinuation that his opponent, Tilden, was actually elected but cheated out of the office by the electoral commission. Besides being the "Teacher President," James A. Garfield, like James K. Polk, was also a "Dark Horse President." The courtly Chester A. Arthur was known both as "Our Chet" and the "First Gentleman of the Land."

Democrats called Grover A. Cleveland the "Man of Destiny;" Republicans called him the "Stuffed Prophet." Benjamin Harrison, grandson of "Old Tippecanoe," had two nicknames, neither very complimentary to him. They were "Son of His Grandfather" and "Little Ben." Besides these nicknames, some of which helped their bearers reach the White House, American history is filled with "different names, direct, explanatory or otherwise" which didn't seem to further political ambitions. Henry Clay, "Harry of the West," and

"JOHNNY APPLESEED"

A Southern State Senator Has Introduced a Bill Prohibiting the Publication of a "Different Name" and if This Measure Should Become a Law, It Means a Headache for Those Who Try to Figure Out the Answer to the Question, "What Is Libelous and Why?"

By ELMO SCOTT WATSON

ECENTLY there was in-Recently there was in-troduced in the Missis-sippi legislature "Sen-ate Bill No. 189" which was entitled "An Act Making It Actionable Per Se for an Ed-Actionable Per Se for an Ed-itor or Business Manager of Any Newspaper, Magazine or Periodical to Print or Al-low to Be Printed in His Newspaper, Magazine or Pe-riodical a Nom de Plume or Different Name than the Real or True Name of Said Person if Said Person Had Prior to That Time Notified the Said Editor or Business Man-ager in Writing His Real or True Name."

The text of this bill reads as follows:

as follows:

"SECTION 1. BE IT ENACTED BY THE LEGISLATURE OF
THE STATE OF MISSISSIPPI,
That any editor or business manager of a newspaper, magazine,
or other periodical who shall print
or allow to be printed in his newspaper magazine or other periodical a nom de plume or different
name, direct, explanatory or
otherwise, than the true or real
name of the person—provided
said person had prior to that time
notified said editor or business
manager in writing his real or
true name—shall be liable in
damages to said person—the publication of said nom de plume or
different name being actionable
per se.

"SECCIION 2. All laws in vio-

damages to said person—the publication of said nom de plume or different name being actionable per se.

"SECTION 2. All laws in violation of this act are hereby repealed, but it is only supplementary to other laws not in violation of this act.

"SECTION 3. That this act take effect and be in force from and after its passage."

If this measure should become a law it's going to mean a headache for the "editor or business manager of any newspaper, magazine or periodical" when he tries to decide the kind of names he can print without being guilty of libel. Of course, it's easy to shy away from nom de plumes for he knows what they are. All he has to do is to look in the dictionary and there it is defined for him—"literally, a pen name, a name assumed by an author; a pseudonym" (if he doesn't know what "pseudonym" means, he can look that up, too, and learn that it means "a fictitious name assumed for the time, as by an author; a pen name").

But just what is meant by "different names, direct, explanatory or otherwise"? Does it mean a "nickname" which Mr. Webster defines as "a name given instead of the one belonging to a person, place or thing, usually descriptive and given in sport"? Or was it a "sobriquet," which Mr. Webster defines as "a name given instead of the one belonging to a person, place or thing, usually descriptive and given in sport"? Or was it a "sobriquet," which the same authority says is "an assumed name; a fanciful epithet or appelation." (He also says that a "sobriquet;" is a "nickname"—which brings us right back to where we started!)

According to press dispatches, Senator Frank Harper, a lawyer and author of this bill, has been referred to in some newspapers and suthor of this bill, has been referred to in some newspapers and suthor of this bill, has been referred to in some newspapers and suthor of this bill, has been referred to in some newspapers and suthor of this bill, has been referred to in some newspapers and suthor of this bill, has been referred to in some newspapers and suthor of this

"MARK TWAIN"

"nicknames" and "sobriquets" in mind when he added "different name, direct, explanatory or otherwise" to "nom de

tory or otherwise" to "nom de plume."

If it's because of that, then the Mississippi senator is different from other famous Americans who rejoiced in nicknames indicative of their occupations. The first one that comes to mind is Jonathan Chapman. He won immortality under the nickname of "Johnny Appleseed" because he went up and down the land in the early part of the Nineteenth century, giving away apple seeds so that settlers could plant them and assure themselves and their children of having plenty of apples.

Even though it is doubtful if Henry Clay ever served as an ap-

scurity of their office enough to win a nickname which was wide-ly known. They were "Sunny Jim" Sherman, "Hell and Maria" Dawes and "Cactus Jack" Gar-

ner.

Speaking of picturesque figures and their nicknames, no list would be complete without mention of such men as "Sockless Jerry" Simpson, congressman from Kansas and a Presidential candidate on the Peoples' ticket, "Pitchfork Ben" Tillman, senator from South Carolina, "The Man" Bilbo of Mississippi, and Huey Long, the "Kingfish" of Louisiana. Whether or not William H. Murray is successful in his attempt to stage a comeback, "Alfalfa Bill" is not likely to be forgotten soon—at least, not in Oklahoma.

All of which suggests that any

Oklahoma.

All of which suggests that any attempt to enforce a law which would prohibit the use of nick-names would probably meet with the same difficulties of enforcement that other prohibitionary laws have. For the American people seem to like nicknames for their public characters, so it is difficult to visualize a jury of Americans holding an editor or business manager guilty of libel for publishing a person's nickname even if "said person had prior to that time notified said editor or business manager in writing of his real or true name."

As for the prohibition against

ing of his real or true name."

As for the prohibition against publishing nom de plumes, what author who uses one is ever likely to notify an editor not to print it?

Not many! Of course, if an editor interpreted literally such a law as this proposed Mississippi statute and barred nom de plumes from his columns through fear of a possible libel suit (remote though that possibility might be) there would be some curious re-

"SOCKLESS JERRY"

sults. Perhaps if he announced suits. Fernaps it ne announced that he was going to reprint a story by Samuel L. Clemens, just as many people would be interested in seeing it as would be if he announced that the forthcoming story was by "Mark Twain."

story was by "Mark Twain."

But what about a "thrilling Wild West yarn" by Edward Zane Carroll Judson? That name wouldn't mean much to the average American. But if he said it had been written by "Ned Buntine"—well, that's different! For many a man would remember his boyhood days when he read in a dime novel how "another redskin bit the dust" and he would remember, too, that the man who wrote that thriller was "Ned Buntline."

Or nerhans it's a short story by

wrote that thriller was "Ned Buntline."

Or perhaps it's a short story by William Sidney Porter that the editor is going to reprint. Who cares? But a yarn by that master of the short story, "O. Henry"—again, that's different. Would his readers perk up their ears if told that they were to have the opportunity of reading a new murder mystery by Willard Huntington Wright, a humorous travel book by George S. Chappell or a novel by Dickrang Kouyoumjian? Not so much as they would if the authors of those books were listed as S. S. Van Dine, Dr. Walter E. Traprock and Michael Arlen, respectively.

Prohibit the mention of nom de plumes, regardless of that "provided said person, etc." and you bar from print references to such famous humorists as Eli Perkins, Josh Billings, Artemus Ward, Bill Arn Esteriers W. Nesker, Osh.

bar from print references to such famous humorists as Eli Perkins, Josh Billings, Artemus Ward, Bill Arp, Petroleum V. Nasby, John Phoenix and Abe Martin. And how many Americans are familiar with the real names of those men—Melville D. Landon, Henry W. Shaw, Charles F. Browne, Charles Henry Smith, David R. Locke, George Horatio Derby and Kin Hubbard? Such a prohibition would substitute Joseph Konrad Korzeniowski for Joseph Conrad, Minnie Mackay for Marie Corelli, Ray Stannard Baker for David Grayson, Jacques Anatole Thibault for Anatole France, Mary Evans Cross for George Eliot, Alice French for Octave Thanet, Louise de la Ramee for Oxida, and so on almost indefinitely.

"NED BUNTLINE"

A prohibition against the use of nicknames would work a greater hardship on sports writers and sports fans than any other class of people. Call the roll of heroes in the sports world during the past year and see how dull and drab would seem the record without mention of "Whizzer" White, "Gabby" Hartnett, "Schoolboy" Rowe, "Dizzy" Dean and "Sling-in' Sam" Baugh.

Since baseball is the "national

Rowe, "Dizzy" Dean and "Slingin' Sam" Baugh.

Since baseball is the "national
pastime," naturally it has contributed the greater number of
nicknames which have become
household words. Christy Mathewson is dead but the memory of
"Matty" and the "Big Six" remains. George Herman Ruth has
retired but mention "Babe" or
"Bambino" or the "Sultan of
Swat" and almost any American
will know who you mean. Then
there was the "Georgia Peach"
whom you probably recall even if
you don't remember Tyrus Raymond Cobb and the "Peerless
Leader," the "Old Roman," the
"Miracle Man" and "Muggsy" if
you've forgotten Frank L.
Chance, Charles Comiskey,
George Stallings and John J. McGraw. Cornelius McGillicuddy is
his real name although millions
know him as "Connie Mack" but
how many know the first names
of "Rabbit" Maranville, "Rajah"
Hornsby, "Hack" Wilson and
"Chief" Bender?

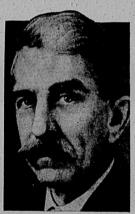

Football has furnished some

"Chief" Bender?

Football has furnished some great individual stars, of course, but for some reason or other popular nicknames never clung to them. That is, until one Harold Grange streaked across gridiron history and left behind him the titles of "The Galloping Ghost," "The Red Rover" or just "Red." "Team nicknames, however, have been popular and more enduring. Who will soon forget the "Four Horsemen" of Notre Dame, or the "Praying Colonels" of Center college?

lege?
Virtually every college has its nickname, based upon the colors of the school or some animal mascot, but few enjoy the picturesque descriptive names, such as the "Golden Tornado" of Georgia Tech, the "Green Wave" of Tulane or the "Thundering Herd" of the University of Southern California.

Fistiana also has its long roll of nicknames, beginning with the great and one and only John L.

"ALFALFA BILL" MURRAY

Sullivan, for whom "John L." was Sullivan, for whom "John L." was sufficient to identify him at any time, although he was also known as "The Boston Strong Boy." Pugilism has also known the following: James J. Corbett, "Genelman Jim"; Bob Fitzsimmons, "Ruddy Bob" or the "Kangaroo"; Jack Johnson, "L'il Artha"; Sam Langford, the "Boston Tar Baby"; Battling Nelson, the "Durable Dane"; Harry Greb, the "Pittsburgh Windmill"; Fred "Pittsburgh Windmill"; Fred "Pittsburgh the "Mastered Plaster-'er"; Jess Willard, the "Man Mountain" or the "Pottawatomie Giant"; John Harrison Dempsey, the "Manassa Mauler"; Georges Carpentier, the "Orchid Man"; Louis Angel Firpo, the "Wild Bull of the Pampas" and more recently Joe Louis Barrow, the "Brown Bomber."

In other sports nicknames are not so common, although "Little Poker Face" and the "Flying Finn" seem destined to endure when the names of Helen Wills and Paavo Nurmi are forgotten. Tennis also gave us "Big Bill" and "Little Bill" for Messrs. Tilden and Johnson. But for alluring alliteration there has probably never been a better one than that given Jean Borotra, one-time French champion. It was, you remember, the "Bounding Basque of Biarritz"!

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

By LEMUEL F. PARTON

NEW YORK.—Many years ago, in South America, this writer was always hearing somebody mutter "Perros!" (dogs), as he passed by. It expressed dislike of all North Trick Hart Americans. Upton U. S. Trade Sinclair's book, "The Jungle, about the Chicago packing houses, had been carefully mistranslated, in a widely circulated version, which made multitudes of South Americans believe all North Americans ate dogs. Even in remote jungle towns, I found European trade scouts and salesmen making diligent use of the book. It was the neatest trade propaganda trick of the century.

scouts and salesmen making diligent use of the book. It was the neatest trade propaganda trick of the century.

The one-sided battle has continued through the decades. Late reports are that South American radio stations are belting Uncle Sam with everything at hand, and, to the same degree, apostrophizing Italy, Germany and Japan.

For this reason, there appears to be more than meets the eye in the printed story of our new airwave rearmament, and the assignment of a new short-wave channel for broadcasts to South America.

With Secretary Hull, Dr. L. S. Rowe, director general of the Pan-American union, pleads for "strong-er cultural ties" in the first broadcast. Spanish translations follow the English version.

While all this is in the name of "peace and good-will," and official announcements carry no hint of a defensive propagand announcements carry no hint of a nonly possible reply—to the widespread smearing campaign against the U. S. A. in Latin American countries.

The sixty-six-year-old Dr. Rowe is a happy choice to head America's "cultural," if not propaganda, outreach in this direction. He has become widely known and decidedly persona grata in South America in his 32 years of pleading and proselyting for solidarity, friendship and understanding in the Americas.

He has fraternized with South America in this direction. He has become widely known and decidedly persona grata in South America in his 32 years of pleading and proselyting for solidarity, friendship and understanding in the Americas.

Oilcloth in the Making
Oilcloth is a thick canvas coated
on both sides with thick oil paint.
First the canvas is passed through
liquid glue, etc., pressed by heavy
rollers, dried, and rubbed with pumice-stone. The paint is applied in
several coats, the final coat being in
a pattern. The quality of the oilcloth is governed by the number of
coats of paint.

Plants Native to Mexico Among the plants native to Mexico are many which are now old garden favorites — ageratum, tag-etes, from which the French mari-golds were derived, the Aztec mari-golds, erroneously called African marigolds, cosmos, dahlias and zin-nias.

Bronze That Soaks Up Oil
A certain form of bronze is so
porous that it will soak up oil like
sponge; the quantity it will absorb
als one-fourth its own mass.

TIPS to Gardeners

Choosing Flowers

IF YOU want flowers that come into bloom early, plant seeds of nasturtium, Virginia stock, zinnis, sunflower, bachelor's button and alyssum.

sunflower, bachelor's button and alyssum.

Among the easiest flowers to grow are the nasturtium, alyssum and California poppy.

To achieve brilliant color in the garden with a minimum of effort, grow petunia and zinnia. They require some care early in the season, but once established they grow luxuriantly, and nothing provides more color.

If snapdragons and asters, though among your flower favorites, are barred from your garden because of the prevalence of rust and wilt, return them to their deserved places by getting rust and wilt resistant varieties from your seed dealer.

In your rock garden, try some of the following: African daisy, linaria, lobelia, statice, verbena and Virginia stock, among the annuals; and columbine, English daisy, forget-me-not and Iceland poppy, of the perennials.

BE SURE OF

YOUR SEEDS

Your seeds need not be one of the uncertainties of gardening, thanks to the work of the unique Ferry-Morse Seed-Breeding In-stitute. Here's how the Insti-tute's seed experts produce de-pendable, prize-winning Ferry's Seeds:

First—seed stocks are per-fected by generations of breed-ing and selecting to develop desired characteristics and to eliminate weaknesses.

eliminate weaknesses.

CHAPTER VII-Continued

Frank didn't tell Tad to send a taxi after him. He didn't wait for anything. Out of Union hall he shot, on the jump, and even the long hill didn't slow him down much. He got his second wind after passing over the top of the hill and went flying down into the village, where the lights were gleaming in the first hour of darkness.

A man told him where to find

A man told him where to find Fletcher's drug store.

Tad was waiting in front of the

Tad was waiting in front of the store.

"Where have they taken your dog, old pal?" Merry asked as he galloped up.

"They got him in the town manager's office now. He's Sid Hawkins. He tells 'em what to do 'bout dogs they fetch in. It's just around the next corner. Oh, gosh, Frank, I'm glad you've come!"

The agitated boy's eyes were red

The agitated boy's eyes were red and his cheeks had been streaked by tears. Frank patted his shoul-

by tears. Frank patted his shoulder.

"We'll fix this up before you can say eeny, meeny, miney, mo," was his assurance. "Lead me to that town manager's office."

Tilted far back in his swivel chair, Sid Hawkins was chewing the soggy end of a half-smoked cigar. He was a languid man and his feet were bedded in their favorite resting place on top of his desk. He was talking to Mike Dugan, whose bowed legs supported a bloated body that looked heavy enough to make his feet cry for a rest also.

Dugan was holding fast to the end of a piece of rope that was tied around the neck of a small black Scottie. The whining dog was pulling at the rope.

"But you told me, Sid," Dugan was saying, "that I'd get 50 cents for every dog I picked up that wasn't wearing a license, and this dog didn't have no license on."

"Well, that was because I hadn't set reported to it. Wiles!"

wearing a license, and this dog didn't have no license on."

"Well, that was because I hadn't got around to it, Mike," was the languid man's answer. "Miss Burrage paid for his license, but I was just so pushed with other things that I forgot to tell the clerk to make it out."

Coming in just then, Frank had checked Tad long enough to hear this bit of conversation. Now he let the boy go, and Tad scampered forward to fall on his knees and gather the excited dog up into his arms.

"Well, then," said Merry, advancing, "it seems that I've broken the sprinting record over Academy hill for nothing."

The town manager slowly dragged his feet off the deak and let them fall, with a clumping sound, on the floor. He pulled his bent body up straighter and gazed at Frank with interest.

"Now I guess you're the young feller that kept that other dog from chawing Inza Burrage up in John Snodd's grove, ain't you?" he said.

Merriwell nodded. "Unless I've got a very bad memory I'm the fellow," he admitted.

"Well, I hope you didn't make any mistake in thinking you wasn't touched by that critter's teeth," said Sid Hawkins, "for we got a report that he was mad, all right."

"The way I look at it," said Frank, "it took a long while to get

"The way I look at it," said Frank, "it took a long while to get that report, Mr. Hawkins."

that report, Mr. Hawkins."

The town manager pulled the wrecked cigar out of his mouth and yawhed like a hippopotamus. "Well, not exactly," he answered. "We've had it quite a few days."

"Have you?" exclaimed Merry in surprise. "That's odd. I haven't's heard about it before."

"We'll """

surprise. "That's odd. I haven't's heard about it before."

"Well, you see we decided it wasn't best to worry anybody till we could collect up the loose dogs around here that the critter might have bit, and put 'em out of the way," explained Hawkins leisurely. "So we put Mike, here, on the job right away, and now pobody can charge us with letting a lot of unlicensed dogs run loose as a menace to the community."

"Oh, I see." Merriwell's smile was dry as starch. "And you weren't sure whether I had been scratched by the teeth of that rabid beast or not. Maybe it didn't occur to you that by this time I might go a little mad myself?"

"Huh?" Hawkins stared lazily. "But you said you wasn't touched, didn't you? John Snodd said so too, didn't he? So did Inza Burrage, didn't she? So-did Tad, here. Well, I don't believe in stirring some things up too much and getting a lot of fussy people on my neck. I've got a position to hold."

"Th at explains it," accepted Frank.

"Even now," the town manager

"Even now," the town manager went on, "I'd be for letting folks forget about it if Pete Smith hadn't found out about the report and put a piece in the paper today. He makes you out to be quite a hero, young feller. I s'pose you've read

"No," said Merriwell, still more surprised. "I've been much too oc-cupied with other things to look at a newspaper today."

"Then you better get one and read about yourself, but don't let it fly to your head."
"Thanks for the advice." Frank

"Thanks for the advice." Frank smiled again, differently. "Now about Tad's dog. When will he get his license?" "I'll 'tend to that first thing Mon-day morning," promised Hawkins.

"But I want my 50 cents just the same, 'cording to the understanding that I'd get it for every dog I caught without a tag,'' said Mike Dugan grimly. "'Tain't my fault you forgot to notify the clerk, Sid."

Sid."

They were arguing over that when Frank and Tad left the office with S'prise, joyously released from the rope that had been hitched to his neck, trotting at their heels.

"S'prise must have a collar to wear his license tag on, Tad," said Merry. "Where can we get one?"

"Fuller's hardware store. They

By GILBERT PATTEN The Original
BURT L. STANDISH

carry 'em 'long with sportin' goods. But I ain't got no dough to buy one

"But maybe we can squeeze over that bunch, old pal. Show me Fuller's place,"
Already Fardale's wide and well-lighted main street was beginning to take on its usual lively Saturday night appearance. Everybody was getting out in town early. Autos of every description and vintage, bringing people in from the surrounding country, were finding parking spots. The sidewalk would soon be thronged. The big electric signs of two movie houses made splashes of color on opposite sides of the thoroughfare.

splashes of color on opposite sides of the thoroughfare.

In the hardware store Merriwell selected and paid for the best collar that was adjustable to S'prise's neck. He also bought a metal tag to be attached to the collar, and paid for the stamping which would give the dog's name, the name of its master, and the license number. "Gee, Frank—gee!" gulped the laughing boy, wiping something out of his eyes. "It's just swell. It's just grand, ain't it, S'prise?"

The dog barked and tried to wag

The dog barked and tried to wag its tail off.

The big school truck, loaded with a somber bunch of football players returned to the academy, was rum-

She Took It From His Hand Without Glancing at It.

out of the store. Nobody was cheer ing the team as it passed through.

ing the team as it passed through.

But suddenly a girl's cry, sharp and startling, slashed the air; "Stop, thief!"

Nobody had to tell Frank Merriwell who she was. He knew her voice before he whirled and saw Inza Burrage pointing at a man who was running away with her purse in his hand. He shot after the fleeing rascal without a second of hesitation, and the gaping witnesses were given a greater thrill than either of the local movie theaters could provide that night.

Pete Smith, who had come into

aters could provide that night.

Pete Smith, who had come into town in a private car just ahead of the school truck, beheld something that made another good story for him. He was doing very well today. Watching Frank cut down the distance between himself and the running thief, Pete knew just how he would describe it. He loved strong phrases, hackneyed or not, and he would say that Merriwell "burned the air." He hoped it wouldn't get the blue pencil, for nothing else he could think of fitted quite so well.

Coming up behind in full stride,

quite so well.

Coming up behind in full stride, Merry dove headlong and made a flying tackle. His fingers, bent like hooks, caught both of the man's churning legs at the knees, which was a trick to start future arguments every time an eye-witness should happen to mention it. Down those hooked fingers slipped without losing their hold, and down went the man on the hard asphalt.

the man on the hard asphalt.

Frank had a knee jammed into the small of the robber's back when the fat night cop arrived, puffing like a wood-burning locomotive of grandfather's days. With his left hand he was gripping the man's left hand he was gripping the man's left hand he was gripping the the wrist, which had been twisted backward and thrust upward between the wretch's shoulderblades. His right hand had grasped the chin of the purse-snatcher and turned it to the right. That tied the fellow up so he couldn't do a thing.

"Hev!" panted the fat policeman.

"Hey!" panted the fat policeman.
"You dropped that bird like you'd hit him with both barrels of buckshot." He fumbled some business-like handcuffs out of a pocket. "Let me get these bracelets on to him."

me get these bracelets on to him."
There was cheering now; the fellows on the school truck started it
and others took it up. A crowd of
excited persons swarmed around.
They stared at Frank, asking who

ne was.

He picked up Inza's purse, which the thief had dropped as he fell, and spoke to the officer: "This belongs to Miss Burrage. I'll take it to her"

Her eyes looked starry as he approached, but maybe that was caused by the gleam of so many electric lights.

"Here's your purse, Miss Bur-She took it from his hand without

glancing at it.
"Thanks," she replied, a flush
spreading over her face. "It was
nice of you to save it for me, but
I think you were a meanie to give
me the air the way you did."

CHAPTER VIII

After Sunday morning services in the chapel the anvil chorus became a tocsin at Fardale. It resounded through the dormitories and echoed over the campus. And as usual the hardest hammer swingers were fellows who had registered zero when it came to making a mark anybody could see without a magnifying glass. They were the common denominator, minus.

Boh Gags belonged in that classically a service of the common denominator, minus.

nominator, minus.

Bob Gagg belonged in that classification below the line, and he was as busy as an ant patching up a nest that had been kicked to pieces. Though he hadn't seen the game at Mayfield, he could tell anybody who would listen just what had been the matter with the Musketeers—and did. He scurried around in a perfect dither of excitement and self-importance.

did. He scurried around in a perfect dither of excitement and selfimportance.

Scurrying around like that, he
saw something that set him wondering. He saw Coach Kane and Frank
Merriwell go into Professor Scotch's
little white cottage together. But
even Barney Mulloy couldn't or
wouldn't tell what that meant when
he was asked about it. So Gagg
formed his own opinion and peddied it.

The professor was a football fan.
He followed the team when he
could, and he had come back from
the Mayfield disaster looking all
shot. Now, seeking to plug the gaps
he was putting his nose into Kane's
business by trying to get him to
use Merriwell as one of the plugs.
That was Gagg's guess.

Running into Hodge, Bob asked

business by trying to get him to use Merriwell as one of the plugs. That was Gagg's guess.

Running into Hodge, Bob asked him what he knew about it.

"Why, how should I know anything?" said Bart, flushing, "I don't waste my breath chinning to either Merriwell or Mulloy. But Merriwell is one of Old Scottie's pets, and you may be right. Still I should worry. Kane won't use a freshman on the team if he can dodge it, even with no rule to stop him. It's my bet that the best Scotch gets Merriwell is a chance to be knocked around on the scrub. That's what Kaney handed me."

"Well, he won't last long at that if the stuff about him being a quitter is true," said Gagg.

"It's as true as a bee-line." Hodge asserted. "Bascomb dug that dopu up about him. He puts on a flashy show when he can and gets his name into the newspapers, but he's saffron when it comes to football. That's when he lies down."

"Bascomb's pretty sore about the way Merriwell tagged him with the name Grand Canyon."

"Bascomb's pretty sore about the way Merriwell tagged him with the name Grand Canyon."

"Bascomb's pretty sore about the way Merriwell tagged him with the name Grand Canyon."

"That's natural, but I guess he's right. It's my notion Tom Kane's pretty well washed up around here as a coach."

"That's natural, but I guess he's right. It's my notion Tom Kane's spretty well washed up around here as a coach."

"Now you've said something. Puting me on the scrub when I'm a better man than any of that bunch of new players he used yesterday! But if he thinks I'm going to stand for it long he's got another think coming."

Hodge went on his way and Gagg continued to scurry.

coming."
Hodge went on his way and Gagg continued to scurry.
This was a day when, after services in the chapel, Bart had little trouble about avoiding his heartly detested roommates. Also he kept away, as well as he could, from fellows who would be liable to speak of Merriwell. The way that showoff was getting himself talked about was sickening!

was sickening!
He had a date to go riding with
Inza that afternoon. That would be
something pleasant, anyhow. She
was a great kid.

was a great kid.

She was riding another horse around in Snodd's yard when Bart got there, and Snodd was watching her doubtfully. The horse was a handsome, spirited creature. Bart's mount and the one Inza had usually ridden were tied up to a hitching rail, both wearing saddles.

"I'm going to beat you when we

"I'm going to beat you when we race today," she called laughingly as he came trotting into the yard.

as he came trotting into the yard.

"But I don't know about letting you ride Satan, Inza," said the worried looking farmer. "He's pretty skittish and fiery. I saddled him up for Merriwell."

Ho d g e stopped and stared. "What's that?" he asked sharply. "Who did you say—"

"Oh, Frank's going with us, Bart," said Inza quickly. "I challenged him to do it last night, in town, and he took me up."

"Oh, he did, did he?" Hodge caught his breath with a hissing sound. "He would! He'd jump at it like a trout at a fly. But he can't put that one over on me."

He, ran to his horse, unhitched

it like a trout at a fly. But he can't put that one over on me."

He ran to his horse, unhitched the animal and leaped up into the saddle. "Come on!" he cried, swinging alongside Inza. "We're going away from here now."

"Oh, be a sport, Bart," she begged. "If he's willing to—"

Too late John Snodd cried a warning. Bart had leaned over and struck Satan sharply on the rump with his open hand. The animal leaped, almost throwing Inza. Barely saving herself, she managed to stay in the saddle as the horse shot away with the bit in its teeth. "You fool!" cried the farmer. "Catch her! That critter'll rum—"

But Hodge was in pursuit already. He whirled out of the yard and turned after the runaway animal, headed toward town.

Merriwell had seen this happen. He had almost reached the turn into the yard when Bart went tearing past him. Dashing to the third horse, he tore it loose from the hitching rail. Snodd was shouting something at him, but he didn't hear it. A bound carried him astride. He turned the animal on a dime and was away, riding like a cowboy.

DUST

Movie · Radio *** By VIRGINIA VALE ***

THE millions who have read and loved "The Adventures of Tom Sawyer" will rejoice that it has been brought to the screen almost intact. A few memorable scenes of the classic of boyhood had to be skipped, but the important ones are all there, the whitewashing of the fence, Muff Potter under suspicion of murder, Tom's startling appearance at his

Filmed in Technicolor, the tones are subdued and pleasant, making the town and all its inhabitants of some sixty years ago look entirely natural.

ly natural.

There was a great to-do a year or so ago over David Selznick's country-wide search for just the right boy to play Tom. Finally, Tommy Kelly, son of a WPA worker, was found in New York. Everyone who sees the picture will surely be glad the Selznick passed up the precocious actors of Hollywood and waited until he found Tommy. For Tommy Kelly fits perfectly the character of Tom Sawyer.

All Hellywood is talking about the great change in Katharine Hepburn. The roustabout comedy that she indulges in for her new picture, "Bringing Up Baby," has affected her manner in private life. No longer is she aloof and haughty. No longer does she scurry away as if frightened, or very bored, when coworkers approach.

Lawrence Tibbett will come back to the screen if Warner Brothers have anything to say about it. They want him for "The Desert Song" and he will have time to make a

Lawrence Tibbett.

picture soon, for Grace Moore is go

Joan Crawford was quite startled recently when she heard an early-morning news breadcast announcing that she had left her husband, Franchot Tone, and would soon institute divorce proceedings. She glanced across the breakfast table, and there was Franchot as usual. "Never mind, honey," he counselled, "they have been trying to separate us for three years, and I don't believe they can do it ever."

to Texas to film "The Texan" with
Randolph Scott and several hundred long-horned cattle in support.
And Claire Trevor, so well liked
in her radio serial with Edward G.
Robinson, was cast opposite him in
a Warner Brothers picture.

ODDS AND ENDS—"Bad Man of Brimstone" revived Wallace Beery's career which has been under a cloud of so-so pictures lately. He will follow that up with a sequel "Bad Man From Arisona". Peter Van Steeden received congratulatory telegrams from several New York university professors on the fourteenth anniversary of his radio debut. It seems that in 1924 they excused him from his classes one day so he could audition for a radio program. He has been on the air ever since . Martha Tilton who since with Benny Goodman's Tuesday night swing school did the song numbers that Joyce Compton appeared to be singing in the film "The Augial Truth" . When you see the "Goldwon Follies" you may think that Andrea Leeds is singing, but your old friend Virginia Verrill of the radio really recorded those song numbers.

The speed of animals like the horse and deer is attributed by one anatomist to their rapid snap-kick stride, and most particularly to the lower bones of the leg being-longer in proportion to the upper bones.

The Amazon River
The Amazon river is navigable for ocean steamers over a stretch of 2,300 miles and 486 miles farther for smaller vessels. The river system affords navigable waterways of 27,000 miles.

WHAT TO EAT AND WHY

C. Houston Goudiss Discusses PROTEINS-

The Foods That You Cannot Live Without

Eminent Food Authority Explains Why No Protein Means No Life-Describes the Kind and Amount Required for the Best Growth in Children-Good Resistance, Vigor and Endurance in Adults.

By C. HOUSTON GOUDISS 6 East 39th St., New York.

 $F^{\rm OOD}$ is—and always has been—the central problem of life. But only in recent years has its true power been revealed, as a result of scientific investigation.

Fortunately, we now know what constitutes sound nutrition, and it is possible for every homemaker to plan meals that will enable

ely, we now know what constitutes sound nutrition, ble for every homemaker to plan meals that will enable her family to eat their way to health.

Topping the list of food essentials are the proteins. The Dutch chemist, Mulder, who hit upon this name, made a wise choice, for it take first place."

The police, for it take first place. The proteins are reace. For they fif of which our will the proteins are reace. For they fif of which our will the proteins are reace. For they fif of which our will the proteins are reached by the proteins are reached by the food protein, woman and child ental need for protein which we want to the size and shape, are furnished by the food proteins, with respect to the size and shape, are furnished by the food proteins, with respect to the size and shape, are furnished by the food proteins, with respect to the size and shape, are furnished by the food proteins, with respect to the size and shape, are furnished by the food proteins, with respect to the size and shape, are furnished by the food proteins, the exact pattern on which the muscle must be constructed cannot be formed and, in this case, growth is interfered with."

If you were building a house you would consider nothing less than the finest materials. You would know that cheap lumber and poor human body.

Some foods cost more than others and you should not be guilty of spending hard-earned money for expensive protein foods when the same amount of nourishment could be more economically obtained from an inexpensive source.

Where to Find Protein.

Protein are adequate for both growth and repair, and those that are only useful to describe and cannot man discoverer of vitamin A.

To 7½ pounds, introduced the protein used for the supremely important purpose of building your children's bodies, or keeping adult physiques in perfect repair.

Some foods cost more than others and you should not be guilty of spending hard-earned money for expensive protein foods when the same amount of nourishment could be more economically obtained fro

made a wise choice, for it means "to take first place."

means "to take first place."
And certainly the proteins are first in importance. For they are the stuff of which our bodies are built. Without them, there would be no life.

Every man, woman and child has a fundamental need for protein, because it is an essential component of every living cell and makes up a large part of the solids of a muscle cell. Evidently, a great many of the glandular principles and substances, which control the functions of the body, are also protein in character.

Protein is the only food element that contains nitrogen, and next to water, nitrogen is the chief constituent of the human body.

Protein Builds Bodies.

A new born baby weighs, on an

Protein Builds Bodies.

A new born baby weighs, on an ayerage, from 7 to 7½ pounds, and the adult into which it grows may weigh 20 to 30 times as much. The vast amount of tissue necessary to construct a man is built chiefly from protein.

Once the adult body is built, however, protein is not required for the growth of new tissues, except under certain conditions, such as during pregnancy, when one is recovering from a wasting illness, or when an athlete is in training and the muscles are increasing in size.

Keeps the Body in Repair.

Keeps the Body in Repair.

Keeps the Body in Repair.
There is, housever, a maintenance requirement for protein which continues
throughout life, and which applies to
both children and adults. For the body
may be compared to a machine, on
which it is necessary to make allowance
for the wear and tear of parts. Protein
is the only substance that will rebuild
the millions of cells which each day
cease to function.
Thus, we see that protein per-

the millions of cells which each day cease to function.

Thus, we see that protein performs two vital services—First, it builds new tissues, second, it repairs worn-out tissues.

The Building Stones of the Body.
Protein is found in many different foods, but unfortunately, not all proteins are equally valuable. That is because protein is a very complex substance, resulting from the union of 22 or more simpler substances containing nitrogen, and called amino acids. These are the true building stones of the body. Some protein foods may have only 7 amino acids represented in their substance; others may have as many as 15 or 16, and these also may be varied by the proportions of the kinds present.

Proteins Vary in Value.

proportions of the kinds present.

Proteins Vary in Value.

Some of these amino acids are necessary to build new tissue; others will not build tissue, but are capable of repairing worn-out cells. Some protein foods are, therefore, more valuable to the body than others.

It is absolutely essential that the homemaker, charged with the responsibility of feeding a family,

For Your Scrapbook

THIS issue contains the second of a series of articles entitled "What to Eat and Why," written by the noted food authority, C. Houston Goudiss.

In these articles, which appear weekly in this newspaper,

pear weekly in this newspaper,
Mr. Goudiss discusses in a
clear, interesting and understandable manner the everyday
problems of food as related to
the building and maintaining of
health in children, young people and adults, as well.

Mr. Goudiss, author, lecturer
and radio speaker, is known
throughout the country as the
man who knows food "from soil
to serving, from table to tissue."
The homemaker will want to

The homemaker will want to clip and save each one of these articles for the valuable infor-mation that is contained therein.

which fresh, canned, frozen or dried fish can be served is legion. Both cheese and nuts make sandwiches, salads and desserts, as well as main course dishes. Peas, beans and lentils can appear as soup, mock roast or croquettes. Grain products, which include cereals, macaroni and bread, may appear in any course in the meal. In planning menus, always keep before you the ideal that an adequate amount of first class protein makes a first class man, whereas an inadequate amount may lead to stunted growth, functional nervous diseases, lessened efficiency and the earlier approach of old age.

In choosing proteins to feed your family—remember that they take first place among foods, and that upon their wise choice rests your future welfare, your destiny—your life!

WNU—C. Houston Goudiss—1938.

When Rossini Sneered at Wagner's Opera

Recalling an occasion when Arnold Schonberg, "impressionistic" composer, came to London to conduct a Schonberg program with "explosive" results, Sir John Squire is reminded of Rossini being taken by friends to hear an opera by the new marvel, Richard Wagner. The dialogue, after the show, ran like this:

Disciples—What did you think of it, Master?
Rossini—I don't think it would be fair to express an opinion without hearing it a second time.

Disciples (eagerly)—And when

Disciples (eagerly)—And when tre you going to hear it a second ime, Master? Rossini (emphatically)—Never!

Polishing Ethics-

Pro and Con

When fine furniture leaves the shop of the manufacturer, its finish has been professionally treated, to preserve its beauty—prolong its endurance. And from that time on, this furniture is best maintained by a quality light-oil furniture polish—first, on the shop floor of the furniture dealer—and then in the home. This is acknowledged and accepted as the best way to heighten its beauty—lengthen its life! But unfortunately, many housewives coat the finish of their furniture and woodwork with various shellacs and veneers—using them as a substitute for a fine oil polish and rubbing. And what a great mistake this is! For these coatings form a false finish over the true finish of the furniture; and rosin and other destructive elements in them dry out the wood—toughen it—leave a sticky residue. When many layers have been applied, they accumulate as a crust over the finish, clogging it and clouding the natural beauty of the grain. This is the slack way to care for furniture. If the home-maker really "cares for" her furniture, she will frequently rub on a reputable light-oil polish, to preserve it—keep it lastingly lovely! Pro and Con be more economically obtained from an inexpensive source.

Where to Find Protein.

Proteins are found in many different foods, but unfortunately, only a limited number of foods supply proteins containing all the amino acids necessary for both growth and repair. Proteins that will build new tissue, as well as replace worn-out cells, are known as complete proteins. In this class we have meats, fish, cheese, milk, eggs and some nuts.

Other proteins are adequate for repairing worn-out tissue, but will not support growth. Such incomplete proteins are found in grains and products made from them, and in the legumes—that is peas, beans, lentils and peanuts.

The proteins of these foods are of high nutritive value, however, and when supplemented with other proteins, such as those of milk, will meet every bodily requirement.

How Much Protein?

Worth Nothing Advice can be had for nothing and is often worth it.

THE ALL-WEATHER LIGHT Light it up and go.aaywhere, —a Coleman any time, in any weather. Genuine Prex Globe protects mantles sgainst wind, snow, rain. Aisle of Woman's Dreams

Suppose you knew that one aisle of one floor in one store had everything you needed to purchase!

Suppose on that aisle you could buy house-hold necessities, smart clothing, thrilling gifts for bride, graduate, voyager! How much walk-ing that would save! How much time, trouble and fretful shopping you would be spared!

That, in effect, is what advertisements in this paper can do for you. They bring all the needs of your daily life into review . . . in one convenient place. Shop from your easy-chair, with the advertisements. Keep abreast of bargains, instead of chasing them. Spend time in your newspaper to save time—and money—in the stores.

place because it is us

place because it is usually cheap-er in proportion to the food value it supplies.

In planning the family dietary,

In planning the family dietary, a safe rule to keep in mind is to include in the daily diet: a quart of milk for every child, a pint for each adult; one egg, one serving of meat, fish or-chicken, one serving of another protein food such as cheese, dried peas or beans, or a main dish made with nuts.

CONCRETE

You don't have to worry about the safety of a properly designed, reinforced concrete building. It stands scence against fires, tornacion, explosions and even actiquakes.

And no wonder! Walls, frome and floors are a monorith of concrete and embedded steel bars. Such a structure has the strength, rigidity and toughness to withstand terrific twisting, bursting and other forces that might spell disaster in a split second for less stordy construction. It is the safe, economical way to build.

Recommend concrete for the new school

SK YOUR FRIENDS, ask your neighbors, what they think of this '38 Buick, and they'll give it to you quick in six little words:

"It's a honey for the money!"

That's praise all right-but praise that still doesn't do this great car full justice!

For here's a traveler that would be a buy even if you had to pay a premium to get it!

It's a car with power like no other. Power literally born of the hurricane - power that makes gasoline deliver more - powerthat's smooth, willing, brilliant. Here's a car, too, with an utterly

different kind of ride. A ride that gentles every jar and jolt. A ride that's safer in nasty going, that gives sureness to control, that cuts down upkeep and makes rear tires last longer.

NEW DYNAFLASH ENGINE... puts cyclones at your service...nearly 10% more power from the same rationing of fuel.

And here's a car that in addition sparkles with features as a Christmas tree sparkles with ornaments.

New quiet, from "silent zone" body mounting. New comfort, from deep, broad comfort-angled seats. New pride of possession, from style hailed as the smartest of the year.

Yet big and satisfying as this beautiful Buick is, a little money buys it! No more than you'll pay for some sixes. Less than for any other

So there's no longer any reason for not stepping up to the kind of car you've always wanted.

Go now and get the details from the nearest Buick dealer-see the car that folks just won't do without.
