

# OUR COMIC SECTION

## Snoogie

## GENERAL PAYMENT

They decided to marry, and walked down the aisle. The clergyman pronounced the ceremony, says the *Washington Herald*, and afterwards gave the bridegroom a word or two of advice.

"That's a thousand times, mon," the bridegroom returned, fervently, "I'm awfully sorry I can't pay you a muckle as I wad like, sir, but—"

"That's all right—that's all right," interrupted the clergyman.

"If you tak me doon to your gas meter," continued the other, "I'll show you how to fix it so it wanna register."

## Stopped Short

The case came to an end and the judge sentenced the man in the dock to a long term of imprisonment.

The following day the prisoner's lawyer called on his client in prison to arrange an appeal.

"You're a fine lawyer, you are," said the prisoner, contemptuously.

"Why all through the case you kept saying 'Your Honor, I object,' but when the judge sentenced me to ten years, you didn't say a word. Why didn't you object to that?"

## HIS DAY COMING

The Stranger—Your counselor Grabber is a criminal lawyer, is he not?

The Town Justice—Yes, he's a lawyer an' he's supposed to be a criminal. But we never could get nothin' on him.

## Coincidence

"Daddy, where were you born?" Willie asked his father one evening.

"In New York."

"Where was mama born?"

"In Chicago."

"Where was I born?"

"In Philadelphia."

"Queer how three people came together, isn't it?"—Philadelphia Bulletin.

## Bide the Time

The village fire brigade stood by, watching the top story of a building blazing merrily. When questioned by an onlooker about their inactivity, the captain replied, blandly: "Our hoses ain't any too powerful, mister. We'll have a better chance when the fire gets to the second floor!"

## Poor Ma

Mother (from next room): Tommy, for goodness' sake switch off that loudspeaker. That woman's voice goes through me!

Tommy—That isn't the loudspeaker, Ma. It's Mrs. Brown come to see you!

## Realization

"I suppose you felt flattered when you succeeded in joining your lodge."

"I did," answered Jud Tunkins, "until I found out what a lot of people have been laying for a chance to help initiate me."

## The Ambitious Josh

"Does your son like his new position?"

"No," answered Farmer Cortnosel. "Josh is havin' his usual trouble with bosses that want to butt in and run the business wrong."

## HIS TIME COMING

"You know Bertha, I think there are sharks about this resort."

"Oh! You only think there are! You haven't paid your hotel bill yet, have you?"

## New Kind of Weather

Sambo—Well, Rastus, this shore looks like little dog weather.

Rastus—What you mean, little dog weather?

Sambo—Pups it'll rain and pups it won't.

## So Romantic

He (nervously)—Elizabeth, darling, there is something that has been trembling on my lips for months and months.

She—Yes, so I see; why don't you shove it off?—*Providence Journal*.

## Future Professions

Ambitious—I'm going to be an aviator. I've been air-minded for years.

Rambunctious—I guess I'll be a garage man. I've been too-headed all my life.—*Houston Post*.

## Hidden

"Esmeralda, you really ought to wear a hat when you are going out at night."

"But mamma, I am wearing a hat! It is at the other side."—*Houston Post*.

## Stronger and Better

Mary—I always lose color when I go swimming—wonder what I could do about it?

Beth—I might suggest oil paints as resisting the action of water, dear.

# What to Eat and Why

## C. Houston Goudiss Offers Timely Advice On Avoiding the Menace of Tooth Decay

By C. HOUSTON GOUDISS

ONE of the most serious indictments against our present-day civilization is its failure to preserve the teeth of men, women and children. Countless examinations in all parts of the country reveal that practically 100 per cent of the adult population is afflicted with some form of oral disease. And

surveys of the physical condition of school pupils in different localities and under various circumstances disclose that tooth decay affects between 90 and 97 per cent of our school children.

Remarkable and widely heralded advances have been made in our knowledge of how to control and prevent many dangerous and debilitating diseases.

Yet we appear to be complacent in the face of the fact that the majority of our population is handicapped by decayed teeth!

Nor does the mere statement of the case convey any idea of the seriousness of the situation. For it is unfortunate that diseased teeth and dental infections which may result from unchecked decay, seldom incapacitate the sufferer. Thus the victim does not become sufficiently alarmed to take the steps necessary to arrest the progress of the diseased condition.

Yet a single decayed tooth might be compared to a poison factory, distributing its noxious products to every part of the body, and tooth decay may be indirectly responsible for rheumatic ailments, neuritis, dyspepsia or duodenal ulcers. It may even be a contributing cause of heart trouble.

Possibilities of Prevention

Yet there is little or no excuse for the appalling amount of dental decay that afflicts the American people. For in recent years a vast amount of laboratory and clinical research has been undertaken in this field and there is impressive evidence that dental caries, or decay, may be completely controlled by dietary means. Then, too, our understanding of correct dental hygiene has advanced tremendously, and scientifically designed tooth brushes and skillfully compounded dentifrices are available in every town and hamlet throughout the country.

## Diet and Dental Disease

Various investigators have advocated different dietary formulas for the control of dental decay. There is a lack of agreement among them as to which single element is the most important in constructing a diet to prevent caries.

But outstanding authorities hold that each of the five following dietary factors has a controlling influence: vitamins A, C and D; an adequate supply, in the correct proportions, of the minerals, calcium and phosphorus; an excess of alkaline or base-forming foods over acid-forming foods; and a generous allowance of raw foods, with emphasis on those that leave an alkaline-ash.

## Vitamin A and Tooth Structure

Notable research has demonstrated that vitamin A is a definite factor in controlling tooth development. The development of the enamel is governed by a complex structure which begins to deteriorate as soon as vitamin A is withheld. When experimental animals are placed on a diet lacking in this vitamin, their teeth become brittle, chalky and white. This is due to the loss of the enamel, with its orange colored pigment, and the exposure of the dentine.

An English authority also claims that vitamin A is necessary to help prevent diseases of the gums. Inasmuch as vitamin A likewise has many other important functions to perform in the body, every homemaker should see to it that her meals contain an abundance of milk and other dairy products, and the green, leafy and yellow vegetables which are a good source of this vitamin.

## Vitamin C and Tooth Health

Vitamin C is closely associated with the health of both teeth and gums. There is strong evidence that this vitamin is essential to the dentine, enamel, cementum and the bone of the jaw. And there are on record remarkable experiments which demonstrate that dental decay and gum disorders are both prevented and arrested when extra amounts of foods containing vitamin C are included in a well-balanced diet.

Vitamin C is best obtained from the citrus fruits, tomatoes and raw leafy vegetables such as cabbage.

## Vitamin D which we get from

the sun, from fish-liver oils and concentrates, and from irradiated foods and those fortified with vitamin D concentrate, is necessary for the proper utilization of the calcium and phosphorus, which must be generously supplied if the teeth are to develop properly.

## Importance of Dental Hygiene

Thus a carefully calculated diet, beginning before birth and continuing throughout life, is necessary to build teeth that are structurally sound. But even the most perfect teeth require constant care to maintain their soundness.

Thorough brushing is necessary after every meal to remove all particles of food which remain between the crevices and cling near the necks of the teeth. If not removed, this debris may ferment, giving rise to unpleasant odors and creating acids which may attack the tooth enamel.

It is important, however, that the brushing be done correctly, away from the gums and with a slight rolling stroke, so that the bristles can penetrate between the teeth. Never use a horizontal stroke nor brush toward the gums. This may irritate the tender tissues and may also force food particles under the gums at the necks of the teeth.

## Sense and Nonsense

Mr. Jones (dictating letter): "Sir, my typist being a lady, cannot take down what I think of you; I, being a gentleman, cannot even think it, but you, being neither, can easily guess my thoughts."

The figure a mannequin earns depends upon the figure. The Tramp—It ain't that I'm afraid to work, lady, but there ain't much doin' in my line . . . I'm a window-box weeder.

"There ain't any harm in a loaf once in awhile," said Uncle Eben. "It dar was, Nature wouldn't waste so much time turnin' out sunshiny days and fishin' worms."

able dentifrice encourages thorough brushing—an efficient dentifrice helps to float away minute bits of food not reached by the toothbrush.

It is also advisable to use a paste or powder which helps to restore lustre to teeth which have been surface-stained by foods and beverages.

The use of an antiseptic mouthwash, at least once daily, especially before retiring, is commendable as it leaves the mouth fresh and clean.

It is also important to give the teeth regular systematic cleansing, and to see your dentist periodically for a careful checkup.

## Questions Answered

Mrs. L. B. R.—Yes, lettuce and corn both contain copper, and so does beef liver. Copper is a mineral that is needed for the proper utilization of iron.

Mrs. F. L. S.—Children require about one and one-half times as much phosphorus as is necessary for a full grown man. That is why they must eat generously of whole grain cereals, eggs, dried legumes, leafy vegetables, milk and cheese.

By C. M. Payne

# POP

By J. Millar Watt

## SINGED AGAIN

"That paper says Buzzer was frost bitten! How could that happen in summer?"

"He fell in a plate of ice cream."

A Modernist

"Don't you wish," said the romantic girl, "that you lived in the old days when there were knights errant?"

"Certainly not," answered Miss Cayenne. "A policeman may not be so picturesque as a night errant, but he is much more reliable in case of a disturbance."

Small but Potent

Bunchuck—What is the greatest water power known to man?

Dzudi—Woman's tears.

## Consoling

The judge was disturbed by a youth who kept moving about in the rear of the court.

"Young man," he exclaimed, "you are making a good deal of unnecessary noise. What are you doing?"

"I have lost my overcoat and am trying to find it."

"Well," said the judge, "people often lose whole suits in here without all that fuss."—*Royal Arcanum Bulletin*.

No Room for Sentiment

"I had to fire an old employee today. I felt sorry—but sentiment has no place in our business."

"What is your business, may I ask?"

"Oh, I manufacture all sorts of birthday and greeting cards."—*Omaha Bee*.

Lisping Banned

Buddy—Oh, I say, is that a dray horse you have there?

Thuddy—No, it's a brown horse, and stop that baby talk!

## WHO'S AFRAID?

Scarecrow—Well, wouldn't that stall you? Just look at that pair spooning right under my nose!

Not Worth It

"In the event of a hostile air raid," says a writer, "some of the public statues would be the first things to suffer."

Even so, we're still in favor of peace.

Stronger and Better

Mary—I always lose color when I go swimming—wonder what I could do about it?

Beth—I might suggest oil paints as resisting the action of water, dear.

**"IRIUM Won Us!" Say Millions of Pepsodent Powder Users**

Pepsodent alone of all tooth powders contains remarkable Irium!

It regularly... twice a day. After a short time, again examines your teeth in a mirror. Expect a real improvement... For Pepsodent is faster... more effective and SAFE in its action on teeth! It contains NO BLEACH, NO GRIT! Buy it now!

● Mirrors don't lie! So for the true facts about the remarkable effectiveness of Pepsodent Powder containing Irium, consult your mirror! Examine your teeth closely... tonight. Then switch to Pepsodent Powder. Use Pepsodent's trade mark for Purified Alkyl Sulfate

**The Drake**

*Distinguished*

The Drake offers every luxury and convenience of fine living on Chicago's Gold Coast, overlooking Lake Michigan.

A. S. Kirkby, Managing Director

Unnatural Nature

NATURE sometimes startles man by turning its tables and revealing amazing quirks. For example, the above beach on the southeastern coast of Hawaii has unusually fine sand.

In North Carolina is famous "Blowing Rock" over the precipitous chasm of John's river. The young lady tosses her handkerchief over the edge and a moment later sees it wafted gently back into her hands.

Nature made peculiar things in the sea, too. At Seaside Park, N. J., this lovely miss caught a blowfish which was chased ashore by larger fish.

Many of nature's underground secrets have never been fathomed. Here is one in a stream near Lake Lure, N. C. Miss Helen Hoffman points into the black abyss that holds a mystery never fathomed.

Nature made this man-shaped face; man gave it a smokel!

Production of Radium Radium is produced from carnellite and other ores found in Utah and Colorado, Belgian Congo, Canada, Czechoslovakia, Australia, Russia, etc.

The Beaufort Sea The Beaufort sea is that part of the Arctic ocean lying between Alaska and the Canadian Arctic islands.

Sable Dances, Too The Russian sable gracefully trips the light fantastic. Like all members of the weasel family it has short, compressed claws which are capable of only partial restriction.

Arizona Has Large County Coconino county in Arizona is larger than Massachusetts, Connecticut, Rhode Island and Delaware combined.

Floyd Gibbons' ADVENTURERS' CLUB

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

'Stream of Death'

By FLOYD GIBBONS Famous Headline Hunter

HELLO EVERYBODY:

Maurice Dunford of Chicago is today's distinguished adventurer. He was a volunteer fire fighter and "smoke eater" in the little town of Russellville, Ark., in 1929, when his adventure happened.

Maury made a rush for the station. Firemen from all over the town were running to the same point. They poured into the building and the big truck rolled out even before the sound of the siren had died away.

The burning building was only two blocks from the fire house. It was a small dwelling and the fire was in the attic. Maury says that smoke was pouring from under every shingle. He grabbed a line from a coupling and went around to the back of the house looking for an opening through which to get at the fire.

Fighting Fire in the Attic.

"The heat and smoke were terrific," he says. "I started creeping forward so I could get at the seat of the blaze. Water was now belching through the nozzle in my hands, and the boys outside were playing

Maury couldn't even move a muscle. He couldn't even turn around.

another hose. The water from that hose was drenching me, but it was doing little toward putting out the fire.

The little attic was fairly flooded with water now. What's more, that water was hot. "It felt as if it was cooking my knees," says Maury, "for I was kneeling in it, between the sills, with my head bent down to my chest to keep as much smoke out of my lungs as possible."

And then it happened. He felt as if something had grabbed him all at once. He tried to look around—and found that he couldn't. He simply couldn't move a muscle.

His whole body was stiff. It wasn't exactly trembling, but it felt to Maury as if something was trembling inside of him, giving him the shaking up of his life. All at once he realized what it was. An electric shock!

Paralyzed by Electric Current.

Where was the shock coming from? He had stepped on no wires. There wasn't any wiring anywhere within ten feet of him. It took Maury a minute or two to figure that out. The hose! That stream of water had found a bare electric wire somewhere back there in the smoke and flame. The electricity was traveling down the stream to the nozzle, and Maury was gripping that nozzle with both hands. His wet clothes and the water-soaked floor were completing the hook-up that was sending the voltage through his body.

He tried to move the hose—divert the stream of water away from that wire—but he couldn't budge an inch. He tried to drop the nozzle, but for the life of him he couldn't let go of it. He tried to use his voice—and that worked. Somehow his vocal cords weren't paralyzed by the flow of electricity, and he shouted at the top of his lungs. "Shut off the juice," he was yelling. But he didn't think any one could hear him over the bedlam and confusion of sounds that came up to him from below.

"The pain was getting terrible," he says. "Every joint—every muscle—every bone in my body was aching. Smoke was choking—blinding me. I was held there by that shock, as immovable as if I'd been chained there. What was I to do? What was going to happen to me? Was I going to stand there until the fire crept over and burned me alive? Or would I succumb to the shocks of the electricity before the fire reached me?"

Some One Pulled the Switch.

Maury knew that even house current could kill a man under the proper conditions, and he was sure that current would kill him if he held on long enough. The pain was getting worse by the minute. He felt as if he were about to lose consciousness, but he fought that giddy feeling that was making his head spin round and round. Once he let go of himself—well—he knew that would be the end.

And then, all of a sudden, Maury felt his body relax. He tried to move—found that he could—and turned the nozzle upward. Some one downstairs had pulled the main switch, shutting off all the current in the building. And he'd done it just in time to save Maury from collapse—and probably from death.

Says he: "The force of the upturned stream of water battered through the roof. Shingles went flying. Sunshine came pouring in. And I felt like a million dollars!"

Resin Made by Accident

The discovery of a way artificial resins might be made for use in paints and varnishes came about quite by accident. In 1901 an English dyestuff maker produced a tough resinous mass in his laboratory. Experiments made over a number of years perfected the product as we know it today and opened the way to an inexhaustible source of supply, obtainable at will. Natural resins are still used, of course—being largely collected by natives of tropical swamplands where it is found embedded in the mud.

Termites Use Caterpillars

A naturalist describes the occurrence of the larvae of a Pinacid moth in the nests of a New Zealand termite. The larvae depend upon the material of the nest for their food, and they may be seen moving along in file, at regular intervals, as if in a procession, each escorted by a few soldier and worker termites. It appears that the larvae exude a strong odor which is attractive to the termites. Just as one may have flowers in his room for the sake of their perfume, so the termites have caterpillars.

Roman Women Used Creams

Roman women of fashion kept their face creams in glass phials, while alabaster cosmetic boxes were favored for rouge. But while the ancient Romans were "on top" with all these beauty devices, it took the "barbarian" Gauls to teach them how to manufacture soap.

No Grace in Short Grace

Scottish grace at mealtimes was a lengthy affair in olden Scotland, especially at a bountiful feast, in contrast to the short form used by the neighboring English. As a Scottish elder once said when present at a great English dinner, "Sicna grace for sicna dinner!"

Harp Playing Part of Education

Little over a century ago, harp playing was part of every young lady's education. Then the piano forced the harp out of style.

Built Earliest Warships

From what is known of the ancient history of ships, the Phoenicians and Greeks were first to build ships of special type for war.

Curious Survival

The name "Boardman" or "Bordman" is a curious survival of a past life; they were tenants of land which the lord of the manor kept expressly for the maintenance of his table, the rental being paid in kind.

Hypnosis Defined

Hypnosis is a drowsy or semi-drowsy state brought about by bodily relaxation and stillness accompanied by the fixation of attention on some monotonous sight or sound such as the ticking of a clock or a light.

Last of the Bastille

In the cellars of some houses on the Rue Saint-Antoine, in Paris, can be seen the basements of what were once the towers of the Bastille, the famous prison of the French revolution.

Yellow River

The Yellow river in China is approximately 2,500 miles long and has a river basin area of 600,000 square miles in which live 100,000,000 people.

The SALLY SMILE

—By— D. J. Walsh Copyright WNU Service

MRS. PINNEY had called to see Miss Bowman, and the two women were in close conversation in Miss Bowman's private office. Miss Bowman was chief executive of the governing board of the hospital, and Mrs. Pinney was a director.

"Well, it simply has come to this," Miss Bowman said, wiping her eyeglasses nervously, "we'll have to close the hospital, if we can't get something to run it on. The citizens have done nobly—nobly, but they can't do everything. It remains for some moneyed person to come to the front now."

"Like Mrs. Chichester?" suggested Mrs. Pinney. Mrs. Pinney was a small, eager woman, who looked rather worn from the long-continued struggle of keeping the precious little hospital going on next to nothing a year.

"Yes! Mrs. Chichester. She is our richest citizen. She could give \$50,000 and never feel it."

"But would she?"

"There's the question. I'm

afraid she wouldn't. I've approached her unsuccessfully—" "So have I," moaned Mrs. Pinney. "Well, you can't force a person to give up her money, that's certain. I suppose it's hopeless." "I don't know about that. I've been thinking I'd send Sally Drew to her and see what good that would do."

"Sally Drew!" Mrs. Pinney jumped. "She's the very one. I'll see her this afternoon." Sally Drew was a tiny woman with hair like snowy wool and a pale pointed little face. Her eyes were wonderful, so bright, so black, so alive. They danced in her face. But her smile was more wonderful than her eyes.

The smile came now at sight of Mrs. Pinney. "Julia!" she cried. "Come right in."

In Sally's small living room, so old-fashioned, so cozy, and withal so well suited to Sally herself, Julia Pinney told her story.

"Well, what do you want me to do?" Sally asked. "I want you to go to Helen Chichester and get her to give us \$5,000. That will keep the hospital running for one year. After that—but we'll hope."

Sally's smile vanished. She was silent an instant. "I'll go, of course," she said quietly.

Mrs. Pinney arose. "Sally, you're a dear. If any one can do it you can. You are our last resort."

At 9, just as Mrs. Pinney was ready to fly to pieces with suspense, Sally walked in. The Sally smile was bright indeed.

"I couldn't get away sooner. Helen wouldn't let me come. You see, we haven't spoken before in thirty years—"

"What?" gasped Mrs. Pinney. "Thirty years," nodded Sally. "I did hate to go. But after I got there it was all right. Here's your money." She drew a check from

Not What You Learned

Don't be too surprised, upon going abroad, to find that the names of cities are not at all like those you learned in school. You may know all about Rome and Milan, Florence and Genoa, but the trick lies in recognizing them in Italy as Roma, Milano, Firenze and Genova. Also, the native calls it Napoli and Venezia; not Naples and Venice.

If you are entrained for Cologne you may never get there. You will, however, arrive at Koeln. You may speak of Vienna, but it's Wien. Antwerp is Anvers, and The Hague is den Haag.

Harrington Grange will hold a joint meeting with Trophy Grange in Felton Grange Hall on Monday evening, September 19th. The program will be on the Constitution. This will be an open meeting. Everyone is invited.

On or after this date, September 15, I will not pay any bills contracted by my wife, Carrie C. Wright.—Ernest Wright, Harrington, Delaware.

Rev. E. H. Collins, of Marshallton, visited Harrington friends Wednesday.

Randall Knox was the speaker at Tuesday evening's meeting of the Harrington Rotary Club at the Swain Hotel. His description of his recent trip to Canada was highly enjoyable.

A. L. Long & Son—Dump Truck hauling of sand and gravel. Landscaping.—117 Railroad avenue, Harrington, Del.

Mrs. Edmund Taylor visited Philadelphia this week.

Mrs. R. K. Jones has returned from a trip to Cape May, N. J.

Mrs. Charles Hopkins and Mrs. William McCabe spent Wednesday in Philadelphia.

Mrs. R. K. Jones and Mr. and Mrs. C. T. Hallenbeck, spent several days last week in Swarthmore, West Chester and Coatesville, Pa.

For sale—Valve trombone reasonable.—Apply to Journal Office.

Miss Carrie Rickards, a former resident of town, spent the week-end with Mr. and Mrs. Horace Tucker, near town.

Residence for sale on Fleming St.—Herman Johnson.

Mrs. Jennings Cahall spent Wednesday in Wilmington.

Mr. Rodney Pride, of Georgetown, who has been visiting Mr. and Mrs. Job Pride, has returned to his home.

Miss T. Annie Fleming spent the week-end in Wilmington and Kentmore Park.

For Sale—Modern Tappan gas cook range. Can be used with bottle gas. Apply to Rev. J. E. Hunton.

Mrs. Ethel Hunter has returned home after spending ten days in Stone Camp, Highland Lake, Maine.

For sale—Farm known as the Solomon Conner farm. Joins Sadie Wyatt, Gertrude Hrupsa and Edward Reed lands. 60 acres.—Ida J. Wheeler, Harrington, Delaware.

Mrs. W. W. Simmons, of Philadelphia, has been visiting Mrs. Noah Cain.

The Ladies' Auxiliary of the Harrington Volunteer Fire Company will serve the annual Firemen's supper in the Fire House Thursday evening, October 13, consisting of chicken salad and fried oysters. Price 50 cents.

For rent—Cottage at Riverdale.—Albert Tee, Salisbury, Md.

Mr. and Mrs. L. T. Jones attended the flower show at Bridgeville on Wednesday evening.

Miss Ruth Raughley left Thursday to enter the University of Delaware.

Mary Ann Barlow spent last week in Bridgeville with her grandparents, Mr. and Mrs. Everett Ryan.

Brollers, 3 & 3 1-2 lbs.; Rhode Island and Barred Rocks, for sale.—Jerry O. Smith, Harrington.

Mrs. Lillie Ryan, of Chester, Pa., is spending the week-end with Mr. and Mrs. Clarence Barlow.

George Jester, Sr., spent part of last week in Dover.

Honey Bees for sale, also Leghorn pullets six months old.—Mrs. S. O. Bailey.

Mrs. O. T. Roberts is visiting relatives in Connecticut.

Oil heater for sale.—C. N. Grant, Harrington.

Mr. and Mrs. Frank O'Neal spent Tuesday in Wilmington.

J. W. Lord, plumbing, Harrington, Delaware.

Mrs. E. W. Dean, Mrs. L. R. Beauchamp, and Mrs. Elmer Smith, entertained at the home of Mrs. Dean on Center street on Thursday afternoon for the benefit of the New Century Club.

House for rent on Hanley Street.—Conrad Sibitzky.

Miss Betty Lee O'Neal is recovering from a spell of sickness.

For Sale—One single baby coach, in good condition. Apply to Harrington Motor Company, Harrington, Del.

3 room apartment with bath for rent on main highway, next to Shock's Service Station, \$10.00 per month. Also 1 large store room 50 x 40 for rent. 10 building lots on main highway for sale.—See J. Gordon Smith or B. I. Shaw.

For sale—Re-built horse cart and harness.—Apply Thomas Fleming, Harrington.

Kenton, Delaware,  
August 3, 1938

Honorable William F. Allen,  
House of Representatives,  
Washington, D. C.,

Dear Mr. Allen:

I am in receipt of yours August 2, with copy of letter from Mr. M. E. Lynch of the Railroad Retirement Board. I am pleased to advise you that my annuity has been granted with back pay.

This was brought about by your untiring efforts in my behalf, therefore, Mr. Allen, I am greatly indebted to you and any thing I can do now or at any other time just let me know. I am with you 100 pct.

Permit me to thank you and to wish you all future success.

Very respectfully,  
(Signed) John W. Thomas.

**G. O. P.**  
(Continued From Page One)

R. F. Corley of Smyrna. No other name was proposed and no motion of Charles H. Grantland the secretary cast the ballot and Mr. Williams' nomination was made unanimous.

Mr. Williams, former state treasurer was called to the stage where Senator Townsend introduced him as "the next Congressman from Delaware."

Mr. Williams was given an ovation. C. J. Killoran of Wilmington placed the name of Mr. Morford in nomination for attorney-general and it was seconded by Deputy Atty-Gen. C. Edward Duffy, M. Hayes Wilson of Dover and Capt. Harry V. Lyons of Lewes. They all spoke of the high qualifications of Mr. Morford for the responsible office and stressed his accomplishments in the public positions he has held.

Daniel J. Layton, Jr., of Georgetown nominated Mr. Swain for insurance commissioner. Several seconding talks followed and Mr. Swain was greeted with applause as he stepped on the platform after being nominated without opposition. He expressed his thanks for the honor conferred.

Mr. Grantland nominated Mr. Simon for state treasurer and his choice like that of all the others, was unanimous. His nomination was seconded by Mrs. F. G. Tallman, also by Mrs. Carrie M. Pipes. Mr. Simon was not in the convention hall when asked to appear on the platform.

Morris Simon of Dover nominated Mr. Shaw for auditor. He voiced his appreciation when he appeared on the platform.

Former Rep. J. George Stewart of Wilmington, who before had been mentioned as a possible candidate for Congress, was called to the platform. He pledged to the entire ticket his unselfish support in the election.

**FREDERICA**

The Laws Homemakers Club met at the home of Mrs. Momer Hopkins on Tuesday evening with Mrs. Hopkins and Mrs. Sheldon Raughley as hostesses. The attendance was exceptionally good with only two members absent and a new member joined the club.

The president opened the meeting with the Lord's Prayer and after business meeting the club leaders, Mrs. Henry Purnell and Mrs. Willard Slaughter gave a talk on subjects given to the leaders at the Oak Grove leaders session. This subject was on correct electric fixtures and wiring, etc. As many of the members are having electric lights and appliances installed in their homes, this was a very interesting and profitable subject. Each member received a pamphlet on the A B C's of electricity.

Mrs. Virginia Morris of the amusement committee had a very enjoyable program for us. There was also a flower show with Mrs. Taylor and Mrs. A. Warrington as the judges. The first award was given to Mrs. H. Hopkins, she had yellow cosmos and artichokes which were beautifully arranged in a glass container. The second award went to Mrs. Julia Darby for a lovely arrangement of french marigolds. Delicious refreshments were served by the hostesses. The November meeting will be held at the home of Mrs. Albert Warrington.

Miss Sara Burt Gray has resumed her position as teacher at the Selbyville school.

Mr. Herman Van Hoy was one of the honored employees of the Sun Life Insurance Co., of Canada, to merit a trip to Balmont, California, which the company is giving to the agents who qualify. Mrs. Van Hoy is accompanying her husband.

Mrs. Joseph Gerow and daughter Elizabeth Jane returned home from Rehoboth Beach, where they spent the summer.

Mr. and Mrs. Reynolds Rogers and son, Mr. John Rogers, spent Friday in Philadelphia, as guests of Mr. John Eckels.

Mr. John Rogers who spent two years as undertaker apprentice with Mr. Charles Conner, of Dover, will complete his studies at Eckels College of Embalming in Philadelphia, where he entered as a student this week.

Mr. and Mrs. Archibald Lank spent the past week-end in Atlantic City, N. J., and Friday of last week at Hotel Belhaven, Rehoboth Beach.

Mrs. W. H. Catts and family have returned from Rehoboth Beach where they spent the summer.

Mrs. John Camper and daughters, Mrs. Walter White, Mrs. Edgar Holliger and M. Edgar Holliger motored

the former's son and daughter-in-law, to Stanburgh, Mich., for a visit with Mr. and Mrs. Emery Camper.

Mr. Frank Schwindt, of town, proprietor of Bowers Beach skating rink, had a very prosperous summer season and will continue to operate the rink during the fall and winter months.

Mrs. Albert Carrow has returned from a delightful motor trip to the Allegheny and Catskill Mountains, as guest of Mr. and Mrs. J. L. Allen, of Philadelphia, who returned home with Mrs. Carrow for a short visit.

The town school was in splendid condition when school opened Wednesday morning. The enrollment was a little larger this year than last, with one hundred and sixteen pupils, twenty six of these are first grade pupils.

The Kent County Teachers meeting was held in the Frederica school on Friday. Dr. Holloway and Dr. King gave addresses and the different special teachers gave a talk on the subjects they teach.

Mr. Ralph Jester who is employed in Wilmington, N. C., is home for a visit with his family.

Mr. Harry Fisher who had an appendix operation at Millford Memorial Hospital last week, has been in a very critical condition but is greatly improved at this writing.

Miss Clara Fisher, of Philadelphia, is visiting Mrs. Harry Fisher.

Miss Elizabeth Walstrom spent the week-end in Woodside as guest of Mr. and Mrs. E. C. Barnard.

Mr. George Swanfield, of Cuba, is guest of Mr. Alonzo Morris.

Mr. and Mrs. O. M. Prettyman and Mrs. Nellie Smith of Ridgewood, N. J., spent Monday with Mrs. Annie B. Harrington.

Mrs. Richard Engle and daughter, of Philadelphia, Mrs. Elmer Snyder and daughter and Mrs. Sarah Spencer of Tioga, Pa., who have been spending the summer at the Spencer Farm near town, returned home this week.

**The Hands that Speed Your Voice**

Throughout Delaware, 150 pairs of hands are at work at Bellswitchboards.

Day and night, their flying fingers flash through the motions that link the voice-ways of the nation, so that you can talk easily and quickly to almost anyone... anywhere.

They are trained hands—the hands of women who know their work and like it; who are eager and able to serve you well.

Behind those hands are cool heads and warm hearts—the kind of people you can depend on for swift aid in emergencies and steady, thoughtful performance of their everyday jobs.

No other form of communication is so fast, easy-to-use and personal as a telephone call. It carries your message not only in your own words, but in your own tone of voice! And at today's low rates, even long long distance calls are inexpensive. So keep in touch with distant customers and far-away friends the personal way—by telephone! The Diamond State Telephone Company, Annex.
